INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. Readers of this Quarterly Report should refer to the audited financial statements of Inland Real Estate Corporation (the “Company”) for the year ended December 31, 2014, which are included in the Company’s 2014 Annual Report, as certain footnote disclosures contained in such audited financial statements have been omitted from this Report on Form 10-Q. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation have been included in this Quarterly Report.

(1) Organization and Basis of Accounting

Inland Real Estate Corporation (the “Company”), a Maryland corporation, was formed on May 12, 1994. The Company is a publicly held real estate investment trust (“REIT”) that owns, operates and develops (directly or through its unconsolidated entities) open-air neighborhood, community and power shopping centers and single tenant retail properties located throughout the Central and Southeastern United States. Through wholly-owned subsidiaries, Inland Commercial Property Management, Inc. (“ICPM”) and Inland TRS Property Management, Inc., the Company manages all properties it owns interests in and properties for certain third parties and related parties.

All amounts in these footnotes to the consolidated financial statements are stated in thousands with the exception of per share amounts, square foot amounts, and number of properties.

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Recent Accounting Principles

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company on January 1, 2018. Early application is permitted, but not before the original effective date for public business entities (i.e. January 1, 2017). The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU No. 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

In June 2014, the FASB issued ASU No. 2014-12, Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period. The ASU requires a reporting entity to treat a performance target that affects vesting and that could be achieved after the requisite service period as a performance condition. This ASU is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early adoption is permitted and may be adopted either prospectively for share-based payment awards granted or modified on or after the effective date, or retrospectively, using a modified retrospective approach. The Company does not expect adoption of this ASU to have a material impact on its consolidated financial statements.

In February 2015, the FASB issued ASU No. 2015-02, Consolidated (Topic 810) Amendments to the Consolidation Analysis. The ASU changes the way reporting entities evaluate whether (a) they should consolidate limited partnerships and similar entities, (b) fees paid to a decision maker or service provider are variable interests in a variable interest entity (“VIE”), and (c) variable interests in a VIE held by related parties of the reporting entity require the reporting entity to consolidate the VIE. It also eliminates the VIE consolidation model based on a majority exposure to variability that applied to certain investment companies and similar entities. This ASU is effective for public entities for annual and interim periods in fiscal years beginning after December 15, 2015. Early adoption is permitted, including early adoption in an interim period. The Company is evaluating the effect that this ASU will have on its consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest. The ASU requires that debt issuance costs be deducted from the carrying value of the financial liability and not recorded as separate assets, classified as deferred financing

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

costs. The ASU is effective for public entities for financial statements issued for fiscal years beginning after December 15, 2015. Early adoption is permitted for financial statements that have not been previously issued and will be applied on a retrospective basis. The Company does not expect adoption of this ASU to have a material impact on its consolidated financial statements.

(2) Acquisitions

Date Acquired	Property	City	State	GLA Sq. Ft.	Approximate Purchase Price
03/10/15	Westbury Square	Huntsville	AL	114,904	\$ 23,417
	Total			114,904	\$ 23,417

During the six months ended June 30, 2015, consistent with the Company's growth initiative, the Company acquired the investment property listed above, which was consolidated upon acquisition. The Company acquired 100% of the beneficial interests of the property.

The following table presents certain additional information regarding the Company's acquisitions during the six months ended June 30, 2015. The amounts recognized for major assets acquired and liabilities assumed as of the acquisition date were as follows:

Property	Land	Building and Improvements	Acquired Lease Intangibles	Acquired Below Market Lease Intangibles
Westbury Square	\$3,125	18,638	3,643	(1,989)
Total	\$3,125	18,638	3,643	(1,989)

The Company has not included pro forma financial information related to the above property acquired during the six months ended June 30, 2015. The Company believes pro forma financial information for this single property is immaterial to the consolidated financial statements as of and for the three and six months ended June 30, 2015.

(3) Dispositions

The table below summarizes investment property dispositions, including the property sold, sales price, gain or loss on sale and any necessary asset impairments during the six months ended June 30, 2015.

Date	Property	City	State	GLA Sq. Ft.	Approx. Ground Lease Sq.Ft. (a)	Sale Price	Gain (Loss) on Sale	Provision for Asset Impairment

				—	1.10	\$515	\$72

(a) Amount shown is our pro-rata share.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

During the three and six months ended June 30, 2015, the Company completed a land condemnation at one investment property. In conjunction with this condemnation, the Company recorded a gain of approximately \$78.

During the six months ended June 30, 2015, the Company recorded \$9,355 as provision for asset impairment on its accompanying consolidated statements of operations and comprehensive income. The asset impairments were required because the Company has negotiated sales prices on five investment properties that were below their respective carrying values, which included Eastgate Center noted in the table above, of which \$2,370 of impairment was recorded during the three months ended March 31, 2015.

(4) Mortgages Receivable

On December 30, 2014, the Company entered into a promissory note and first mortgage and security agreement with a related joint venture partner (see Note 13, "Transactions with Related Parties") for a principal sum of \$24,750. The property commonly known as Clybourn Galleria, located in Chicago, Illinois is the collateral for this note. The note accrues interest at a rate of 5% per annum with final payment of the principal, all accrued and unpaid interest and the loan fee due on November 30, 2015. Total interest income earned during the six months ended June 30, 2015 was \$619.

(5) Joint Ventures

Consolidated Joint Ventures

The accompanying consolidated financial statements of the Company include the accounts of its wholly owned subsidiaries and consolidated joint ventures. The Company consolidates the operations of a joint venture if it determines that the Company is the primary beneficiary of the joint venture, which management has determined to be a variable interest entity ("VIE") in accordance with Accounting Standards Codification ("ASC") Topic 810. The primary beneficiary is the party that has a controlling financial interest in the VIE, which is defined as the entity having both of the following characteristics: 1) the power to direct the activities that, when taken together, most significantly impact the VIE's performance, and 2) the obligation to absorb losses and right to receive the returns from the VIE that would be significant to the VIE. There are significant judgments and estimates involved in determining the primary beneficiary of a VIE or the determination of who has control and influence of the entity. When the Company consolidates a VIE, the assets, liabilities and results of operations of the VIE are included in the Company's consolidated financial statements and all inter-company balances and transactions are eliminated.

The consolidated results of the Company include the accounts of IRC-IREX Venture II, LLC, while the properties are consolidated, IRC-MAB Southeast, LLC, Tanglewood Parkway Elizabeth City, LLC, and IRC-NARE 1300 Meacham Road, LLC, all of which are VIE's for which the Company is the primary beneficiary. The Company has determined that the third-party interests in these entities are noncontrolling interests to be included in permanent equity, separate from the Company's shareholders' equity, in the consolidated balance sheets and statements of equity. Net income or loss related to these noncontrolling interests is included in net income or loss in the consolidated statements of operations and comprehensive income.

Joint Venture with IPCC (IRC-IREX Venture II, LLC)

In January 2013, Inland Exchange Venture LLC (“IEV LLC”), formerly known as Inland Exchange Venture Corporation, a taxable REIT subsidiary (“TRS”) of the Company, extended its joint venture with Inland Private Capital Corporation (“IPCC”), a wholly owned subsidiary of The Inland Group, Inc. (“TIGI”), through June 30, 2015 to continue the joint venture relationship that began in 2006 and to change the fee structure. The joint venture partners are currently in negotiations to extend the joint venture agreement. The joint venture provides replacement properties for investors wishing to complete a tax-deferred exchange through private placement offerings, using properties made available to the joint venture by IEV LLC. These offerings are structured to sell Delaware Statutory Trust (“DST”) interests in the identified property. IEV LLC performs the joint venture’s acquisition function and ICPM performs the asset management, property management and leasing functions. Both entities earn fees for providing these services to the joint venture. The Company will continue to earn asset management, property management and leasing fees on all properties acquired for this venture, including after all ownership interests have been sold to the investors.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

The joint venture was determined to be a VIE under ASC Topic 810 and is consolidated by the Company. Prior to the sale of any DST interests, the joint venture owns 100% of the DST interests in the property and controls the major decisions that affect the underlying property; and therefore upon initial acquisition, the joint venture consolidates the property. At the time of first sale of a DST interest, the joint venture no longer controls the underlying property as the activities and decisions that most significantly impact the property's economic performance are now subject to joint control among the co-owners or lender; and therefore, at such time, the property is deconsolidated and accounted for under the equity method (unconsolidated). Once the operations are deconsolidated, the income is included in equity in earnings of unconsolidated joint ventures until all DST interests have been sold. The table below reflects those properties that were deconsolidated during the six months ended June 30, 2014 and therefore no longer represent the consolidated assets and liabilities of the VIE. No properties became deconsolidated during the six months ended June 30, 2015.

	June 30, 2014
Investment properties	\$(11,071)
Acquired lease intangibles	(1,813)
Below market lease intangibles	1,459
Net change to investment in and advances to unconsolidated joint ventures	\$(11,425)

During the six months ended June 30, 2015 and 2014, the joint venture with IPCC acquired one and six investment properties, respectively. In conjunction with the sales of DST interests, the Company recorded gains of approximately \$80 and \$189 for the three and six months ended June 30, 2015, respectively, as compared to \$6 and \$114 for the three and six months ended June 30, 2014. These gains are included in gain on sale of joint venture interests on the accompanying consolidated statements of operations and comprehensive income.

Joint Venture with MAB (IRC-MAB Southeast, LLC)

In November 2013, the Company entered into a joint venture to develop grocery-anchored shopping centers in select markets throughout the southeastern U.S. with MAB, an affiliate of Melbourne, Australia-based MAB Corporation. The five-year development program is expected to target metropolitan areas in the Carolinas, Georgia, Florida, Virginia and Washington D.C. MAB Corporation is a privately owned property development company and fund manager that has completed retail, office, multi-family and industrial projects at locations in Australia, New Zealand and the U.S. Under the terms of the joint venture agreement, the Company has exclusive rights to all grocery-anchored, build-to-suit opportunities in the southeastern U.S. sourced by MAB. Upon site approval by the Company, the Company will provide 90% of the equity required to fund approved project costs, while MAB will be responsible for the remaining 10% of the equity, plus venture management, sourcing and acquisition of sites, project financing and all property and development duties. The joint venture agreement also provides that the Company is required to purchase each grocery-anchored center at a discount to fair market value after stabilization and after certain criteria are met. As a result, the Company determined it is the primary beneficiary of this VIE. A typical project likely will consist of a 50,000-square-foot grocery store with approximately 20,000 square feet of additional retail space. As of June 30, 2015, there were no acquisitions through this joint venture, however, the joint venture has three sites under contract, with closings anticipated during the second half of 2015.

Joint Venture with Thompson Thrift Development, Inc. (Tanglewood Parkway Elizabeth City, LLC)

In September 2014, the Company entered into a joint venture to develop Tanglewood Pavilions, a 158,000 square foot power center that will be located in Elizabeth City, North Carolina with Thompson Thrift Development, Inc. ("TTDI"). The joint venture acquired the vacant land for \$850. Construction has started and the joint venture anticipates delivery

to tenants to begin in the latter half of 2015. The Company will provide 90% of the equity required to fund approved project costs, while TTDI will be responsible for the remaining 10% of the equity, plus venture management and development duties. The joint venture agreement also provides that the Company is required to purchase the power center at a discount to fair market value after stabilization and after certain criteria are met. As a result, the Company determined it is the primary beneficiary of this VIE.

Joint Venture with NARE (IRC-NARE 1300 Meacham Road, LLC)

In February 2015, the Company entered into a joint venture to develop 1300 Meacham Road, located in Schaumburg, Illinois with North American Real Estate (“NARE”). The joint venture acquired the property on February 12, 2015 for \$4,500, using cash contributed by each partner. The property is a four-acre parcel of land with a 60,000 square foot office building, which will be demolished. The development is anticipated to consist of three pad sites, which will be ground lease or build-to-suit

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

opportunities for single and potentially multi-tenant use. Demolition and construction are expected to begin in the latter half of 2015. The Company has a 95% equity interest in the joint venture and NARE has a 5% interest. The joint venture agreement also provides that the Company is required to purchase the property at a discount to fair market value after stabilization and after certain criteria are met. As a result, the Company determined it is the primary beneficiary of this VIE.

Variable Interest Entity Financial Information

The following table presents certain assets and liabilities of consolidated variable interest entities (“VIEs”), which are included in the consolidated balance sheets as of June 30, 2015 and December 31, 2014. The assets in the table below include only those assets that can be used to settle obligations of consolidated VIEs. The liabilities in the table below include third-party liabilities of consolidated VIEs only, and exclude intercompany balances that are eliminated in consolidation.

	June 30, 2015	December 31, 2014
Assets of consolidated VIEs that can only be used to settle obligations of consolidated VIEs:		
Net investment properties	\$26,587	3,245
Other assets	9,839	4,667
Total assets of consolidated VIEs that can only be used to settle obligations of consolidated VIEs	\$36,426	7,912
Liabilities of consolidated VIEs for which creditors or beneficial interest holders do not have recourse to the general credit of the Company:		
Mortgages payable	\$5,294	—
Other liabilities	1,928	52
Total liabilities of consolidated VIEs for which creditors or beneficial interest holders do not have recourse to the general credit of the Company	\$7,222	52

Unconsolidated Joint Ventures

Unconsolidated joint ventures are those where the Company does not have a controlling financial interest in the joint venture or is not the primary beneficiary of a VIE. The Company accounts for its interest in these ventures using the equity method of accounting. The Company’s profit/loss allocation percentage and related investment in each joint venture is summarized in the following table.

Joint Venture Entity	Company’s Profit/Loss Allocation Percentage at June 30, 2015	Investment in and advances to unconsolidated joint ventures at June 30, 2015	Investment in and advances to unconsolidated joint ventures at December 31, 2014
INP Retail LP (a)	55	% \$167,554	163,305
Oak Property and Casualty	20	% 1,844	1,308
TMK/Inland Aurora Venture LLC (b)	40	% (314) (302

Edgar Filing: INLAND REAL ESTATE CORP - Form 10-Q

IRC/IREX Venture II LLC (c)	(d)	128	6,409
Investment in and advances to unconsolidated joint ventures		\$169,212	170,720

(a) Joint venture with PGGM Private Real Estate Fund (“PGGM”)

(b) The profit/loss allocation percentage is allocated after the calculation of the Company’s preferred return.

(c) Joint venture with IPCC. Investment in joint venture balance represents the Company’s share of the Delaware Statutory Trust (“DST”) interests.

(d) The Company’s profit/loss allocation percentage varies based on the ownership interest it holds in the entity that owns a particular property and is in the process of selling ownership interests in that property to outside investors.

The unconsolidated joint ventures had total outstanding debt of \$408,987 (total debt, not the Company’s pro rata share) at June 30, 2015 that matures as follows:

Joint Venture Entity	2015	2016	2017	2018	2019	Thereafter	Total
INP Retail LP (a) (b)	\$23,598	26,304	40,627	10,248	43,815	253,016	397,608
IRC/IREX Venture II LLC	—	—	—	—	—	11,379	11,379
Total unconsolidated joint venture debt (a)	\$23,598	26,304	40,627	10,248	43,815	264,395	408,987

The total debt above reflects the total principal amount outstanding. The unconsolidated joint ventures’ balance sheets at June 30, 2015 reflect the value of the debt including the remaining unamortized mortgages premium/discount of \$4,507.

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

Includes the mortgage payable for Evergreen Promenade and Pulaski Promenade. Amounts are not included in (b) Joint Venture Financial Information because INP Retail LP accounts for its Evergreen Promenade and Pulaski Promenade joint venture under the equity method of accounting.

INP Retail LP has guaranteed approximately \$8,586 of the loans encumbering Evergreen Promenade and Pulaski Promenade. The guarantees are in effect for the entire term of the loans as set forth in the loan documents. INP Retail LP is required to pay on a guarantee upon the default of any of the provisions in the loan documents, unless the default is otherwise waived. The Company's pro rata share of the outstanding guarantee is approximately \$4,722. The Company is required to estimate the fair value of the guarantees and, if material, record a corresponding liability. The Company has determined that performance under the guarantee is not probable and the fair value of the guarantee is immaterial as of June 30, 2015 and accordingly has not recorded a liability related to the guarantees on the accompanying consolidated balance sheets.

The Company earns fees for providing asset management, property management, leasing and acquisition services to its joint ventures. The Company recognizes fee income equal to the Company's joint venture partner's share of the expense or commission, which is reflected as fee income from unconsolidated joint ventures in the accompanying consolidated statements of operations and comprehensive income. Fee income earned for the three and six months ended June 30, 2015 and 2014 are reflected in the following table.

Joint Venture with:	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
PGGM	\$798	715	1,556	1,289
IPCC	643	592	1,318	1,277
Fee income from unconsolidated joint ventures	\$1,441	1,307	2,874	2,566

The fee income from the joint venture with PGGM has increased due to the increase in assets under management. The fee income from the joint venture with IPCC increases as assets under management increase, however, total fee income may also vary based on the timing of acquisition fees earned based on the number of properties sold, the original acquisition prices of the properties and the timing of sales in each period.

The Company's proportionate share of the earnings or losses related to its unconsolidated joint ventures is reflected as equity in earnings of unconsolidated joint ventures on the accompanying consolidated statements of operations and comprehensive income. During the three and six months ended June 30, 2015, the Company recorded \$516 and \$1,032, respectively, of amortization of basis difference between the Company's investment in the joint ventures and the amount of the underlying equity in net assets of the joint ventures and recorded \$517 and \$1,033 during the three and six ended June 30, 2014. The amortization of this basis difference is included in equity in earnings of unconsolidated joint ventures in the accompanying consolidated statements of operations and comprehensive income. Differences in basis result from the recording of the Company's equity investment recorded at its historical basis versus the fair value of certain of the Company's contributions to the joint venture. Such differences are amortized over the respective depreciable lives of the joint venture property assets.

Joint Venture with PGGM

The Company formed a joint venture with PGGM, a leading Dutch pension fund administrator and asset manager in 2010 and completed an amendment to the partnership agreement in 2012 to increase the maximum equity contributions of each partner. In conjunction with the formation, the joint venture established two separate REIT entities to hold title to the properties included in the joint venture. The joint venture may acquire up to a total of

\$900,000 of grocery-anchored and community retail centers located in Midwestern U.S. markets. The Company's maximum total equity contribution is approximately \$281,000 and PGGM's maximum total equity contribution is approximately \$230,000. The joint venture agreement provides that the Company can purchase 20% of PGGM's interest in the joint venture annually, over a five-year period, beginning in 2016. The Company intends to exercise this option and at the end of the five-year period, it is anticipated the Company would consolidate all assets currently held through the joint venture.

As of June 30, 2015, the joint venture has acquired a total of approximately \$854,000 of retail assets, including those properties contributed by the Company. As of June 30, 2015, PGGM's remaining maximum potential equity contribution was approximately \$13,618 and the Company's was approximately \$16,644.

PGGM owns a forty-five percent equity ownership interest and the Company owns a fifty-five percent equity ownership interest in the venture. The Company is the managing partner of the venture and is responsible for the day-to-day activities of the venture. The Company determined that this joint venture is not a VIE. Both partners have the ability to participate in major

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

decisions, as detailed in the joint venture agreement, and therefore, neither partner is deemed to have control of the joint venture. Therefore, this joint venture is accounted for using the equity method of accounting.

In June 2013, the joint venture with PGGM entered into a limited liability company agreement with Pine Tree and IBT Group, LLC ("IBT"). This agreement forms a joint venture between the three parties to acquire, develop, operate and manage the property known as Evergreen Promenade, located in Evergreen Park, Illinois. The venture acquired the vacant land parcel for \$5,500 and completed construction of the approximately 92,500 square foot shopping center as of December 31, 2014. Evergreen Promenade is 96% leased to national retailers, Mariano's, which opened during the first quarter of 2015, and PetSmart which opened during the fourth quarter of 2014. Management determined that this joint venture is not a VIE. All parties have the ability to participate in major decisions, as detailed in the agreement, and therefore, no partner is deemed to have control of the venture. Therefore, the joint venture with PGGM accounts for this joint venture using the equity method of accounting.

In September 2014, the joint venture with PGGM entered into a second limited liability company agreement with Pine Tree and IBT. This agreement forms a joint venture between the same parties to acquire, develop, operate and manage the property known as Pulaski Promenade, located in Chicago, Illinois. The venture acquired the vacant land parcel for \$5,734 and intends to construct approximately 133,000 square feet of gross leasable area, of which approximately 80% has been pre-leased to national retailers. Management determined that this joint venture is not a VIE. All parties have the ability to participate in major decisions, as detailed in the agreement, and therefore, no partner is deemed to have control of the joint venture. Therefore, the joint venture with PGGM accounts for this joint venture using the equity method of accounting.

Development Joint Venture

The Company currently has one unconsolidated development joint venture, which was formed for the development or sale of the property commonly known as Savannah Crossing. This property consists of approximately five acres of vacant land, which the joint venture is holding for future sale or potential development.

Joint Venture Financial Information

Summarized financial information for the unconsolidated joint ventures is as follows:

	As of	
	June 30, 2015	December 31, 2014
Balance Sheets:		
Assets:

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

(a) Includes \$4,507 of unamortized mortgage premiums and discounts.

Amount excludes the mortgage payable for Evergreen Promenade and Pulaski Promenade, because these properties

(b) are owned through unconsolidated joint ventures of INP Retail LP and are accounted for by INP Retail LP using the equity method of accounting.

(c) IRC's pro rata share includes the amortization of certain basis differences and an elimination of IRC's pro rata share of the management fee expense.

(6) Secured and Unsecured Debt

Total Debt Maturity Schedule

The following table presents the principal amount of total debt maturing each year, including amortization of principal, based on debt outstanding at June 30, 2015 and the weighted average interest rates for the debt maturing in each specified period:

	2015 (a)	2016 (a)	2017	2018	2019	Thereafter	Total	
Fixed rate debt	\$91,296	9,731	46,959	1,195	38,366	185,709	373,256	(b)
Weighted average interest rate	5.41 %	5.00 %	5.05 %	— %	4.42 %	5.25 %	5.17 %	
Variable rate debt	\$—	5,295	—	275,000	(c)(d)200,000	(e) —	480,295	(b)
Weighted average interest rate	— %	2.44 %	— %	1.94 %	1.54 %	— %	1.78 %	
Total	\$91,296	15,026	46,959	276,195	238,366	185,709	853,551	

Approximately \$97,995 of the Company's mortgages payable mature in the next twelve months. Included in the debt maturing in 2015 is outstanding principal of approximately \$90,247 secured by the Company's Algonquin Commons property. The loans encumbering Algonquin Commons have matured and the property is currently subject to foreclosure litigation and the Company cannot currently predict the outcome of the litigation. The Company intends to repay the other maturing debt upon maturity using available cash and/or borrowings under its unsecured line of credit facility.

(a) The total debt above reflects the total principal amount outstanding. The consolidated balance sheets at June 30, 2015 reflect the value of the debt including the remaining unamortized mortgages premium/discount of \$1,788.

Included in the debt maturing during 2018 is the Company's unsecured line of credit facility, totaling \$225,000. The Company pays interest only during the term of this facility at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with the Company's leverage ratio.

(c) As of June 30, 2015, the weighted average interest rate on outstanding draws on the line of credit facility was 1.59%. This credit facility requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of June 30, 2015, the Company was in compliance with these financial covenants.

Included in the debt maturing during 2018 is the Company's \$50,000 term loan which matures in November 2018. The Company pays interest only during the term of this loan at a variable rate, with an interest rate floor of 3.50%.

(d) As of June 30, 2015, the interest rate on this term loan was 3.50%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of June 30, 2015, the Company was in compliance with these financial covenants.

(e) Included in the debt maturing during 2019 is the Company's \$200,000 term loan which matures in July 2019. The Company pays interest only during the term of this loan at a variable rate equal to a spread over LIBOR, in effect at the time of the borrowing, which fluctuates with the Company's leverage ratio. As of June 30, 2015, the weighted

average interest rate on the term loan was 1.54%. This term loan requires compliance with certain covenants, such as debt service ratios, minimum net worth requirements, distribution limitations and investment restrictions. As of June 30, 2015, the Company was in compliance with these financial covenants.

Mortgages Payable

The Company's mortgages payable are secured by certain of its investment properties. The face value of mortgage loans outstanding as of June 30, 2015 was \$378,551 and they bore interest at a weighted average interest rate of 5.13% per annum. Of this amount, \$373,256 bore interest at fixed rates ranging from 4.00% to 6.03% per annum and a weighted average fixed rate of 5.17% per annum as of June 30, 2015. The remaining \$5,295 of mortgage debt bears interest at variable rates with a weighted average interest rate of 2.44% per annum as of June 30, 2015. The consolidated balance sheets at June 30, 2015 include the remaining unamortized mortgages premium/discount of \$1,788. As of June 30, 2015, scheduled maturities for the Company's outstanding mortgage indebtedness had various due dates through February 2023. The majority of the Company's mortgage loans require monthly payments of interest only, although some loans require principal and interest payments, as well as reserves for taxes, insurance and certain other costs.

In June 2012, a Company subsidiary ceased paying the monthly debt service on the two mortgage loans secured by both phases of Algonquin Commons. The Company subsidiary had hoped to reach an agreement with the special servicer that would revise the loan structure to make continued ownership of the property economically feasible. In January 2013, the Company subsidiary received notice that a complaint had been filed by the lender to Algonquin Commons, alleging events of default under the loan documents and seeking to foreclose on the property. In connection with the complaint, the plaintiff filed a motion for appointment of a receiver and the court granted the motion and issued an order effective February 28, 2013, appointing a receiver for the property. As a result, the receiver and its affiliated management company are now managing and operating Algonquin Commons and are now collecting all rents for the property. The Company cannot currently estimate the

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

impact the dispute will have on its consolidated financial statements and may not be able to do so until a final outcome has been reached. The Company subsidiary believes the payment guaranty has, however, ceased and is of no further force and effect as a result of the conditions for termination having been met when the performance metrics set forth in the payment guaranty were met. As the Company has previously disclosed, if it is required to pay the full \$18,600 outstanding under the guarantee, or a foreclosure occurs, there could be a material adverse effect on its cash flows and results of operations for the period and the year in which it occurs. The Company believes these events would not have a material effect on its consolidated balance sheets because there would be a corresponding reduction in both assets and liabilities. If the Company is required to pay under the payment guarantee, it would expect to fund this payment using available cash and/or a draw on its unsecured line of credit facility.

Derivative Instruments and Hedging Activities

Risk Management Objective of Using Derivatives

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risk, including interest rate, liquidity and credit risk primarily by managing the amount, sources, and duration of its debt funding and, to a limited extent, the use of derivative instruments.

Specifically, the Company has entered into derivative instruments to manage exposures that arise from business activities that result in the payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative instruments, described below, are used to manage differences in the amount, timing, and duration of the Company's known or expected cash payments principally related to certain of the Company's borrowings.

Cash Flow Hedges of Interest Rate Risk

The Company's objective in using interest rate derivatives is to manage exposure to interest rate movements and add stability to interest expense. To accomplish this objective, the Company uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

The Company currently has one interest rate swap outstanding that is used to hedge the variable cash flows associated with its variable-rate debt. The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in comprehensive income (expense) and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivatives, if any, is recognized directly in earnings. The Company has entered into one interest rate swap contract as a requirement under a secured mortgage and the hedging relationship is considered to be highly effective as of June 30, 2015.

Amounts reported in comprehensive income (expense) related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. The Company estimates that an additional \$1,962 will be reclassified from comprehensive income (expense) as an increase to interest expense over the next twelve months.

In December 2010, the Company entered into a floating-to-fixed interest rate swap agreement with an original notional value of \$60,000 and a maturity date of December 21, 2020 associated with the debt secured by first mortgages on a pool of eight investment properties. This interest rate swap fixed the floating LIBOR based debt under a variable rate loan to a fixed rate debt at an interest rate of 3.627% per annum plus the applicable margin to manage the risk exposure to interest rate fluctuations, or an effective fixed rate of 6.027% per annum.

As of June 30, 2015 and December 31, 2014, the Company had the following outstanding interest rate derivative designated as a cash flow hedge of interest rate risk:

Interest Rate Derivative	Notional	
	June 30, 2015	December 31, 2014
Interest Rate Swap	\$60,000	60,000

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

The table below presents the fair value of the Company's derivative financial instrument as well as its classification on the consolidated balance sheets as of June 30, 2015 and December 31, 2014.

	Derivative Liability As of June 30, 2015		Derivative Liability As of December 31, 2014	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Derivative designated as a cash flow hedge:				
Interest rate swap	Other liabilities	\$5,966	Other liabilities	6,338

The table below presents the effect of the Company's derivative financial instrument on comprehensive income for the three and six months ended June 30, 2015 and 2014.

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Amount of gain (loss) recognized in comprehensive income on derivative, net	\$481	(1,233) (669) (2,253
Amount of loss reclassified from accumulated comprehensive income into interest expense	523	527	1,041	1,047
Unrealized gain (loss) on derivative	\$1,004	(706) 372	(1,206

Credit-risk-related Contingent Features

Derivative financial investments expose the Company to credit risk in the event of non-performance by the counterparties under the terms of the interest rate hedge agreements. The Company believes it minimizes the credit risk by transacting with major creditworthy financial institutions.

As of June 30, 2015, the fair value of derivatives in a liability position related to this agreement was \$5,966. If the Company breached any of the contractual provisions of the derivative contract, it would be required to settle its obligation under the agreement at its termination value of \$6,374.

Unsecured Credit Facilities

In 2014, the Company entered into amendments to its existing unsecured line of credit facility and term loan, together the "Credit Agreements." Under the term loan agreement, the Company borrowed, on an unsecured basis, \$200,000. The aggregate commitment of the Company's line of credit facility is \$275,000. The facility also provided for a \$200,000 accordion feature, access to which is at the discretion of the current lending group. If approved, the terms for the funds borrowed under the accordion feature would be current market terms at the time of the borrowing and not the terms of the existing line of credit facility. The lending group is not obligated to approve access to the additional funds.

The line of credit facility matures on July 30, 2018 and the term loan matures on July 30, 2019. Borrowings under the Credit Agreements bear interest at a base rate applicable to any particular borrowing (e.g., LIBOR) plus a graduated spread that varies with the Company's leverage ratio.

The Company pays interest only, on a monthly basis during the term of the Credit Agreements, with all outstanding principal and unpaid interest due upon termination of the Credit Agreements. The Company is also required to pay,

on a quarterly basis, an amount less than 1% per annum on the average daily funds remaining under this line. As of June 30, 2015 and December 31, 2014, the outstanding balance on the line of credit facility was \$225,000 and \$190,000, respectively. As of June 30, 2015, the Company had up to \$50,000 available under its line of credit facility, not including the accordion feature. Availability under the line of credit facility may be limited due to covenant compliance requirements in the Credit Agreements.

On November 15, 2011, the Company entered into an unsecured loan agreement with Wells Fargo Bank, National Association as lender pursuant to which the company received \$50,000 of loan proceeds. The loan matures on November 15, 2018. The Company pays interest only, on a monthly basis, with all outstanding principal and unpaid interest due upon the maturity date. The loan accrues interest at an effective rate calculated in accordance with the loan documents, provided, however, that in no event will the interest rate on the outstanding principal balance be less than 3.5% per annum. The Company could not prepay the loan in whole or in part prior to November 15, 2014. On or after that date, the Company may prepay the loan in its entirety or in part, together with all interest accrued and may incur a prepayment penalty in conjunction with such prepayment.

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

(7) Fair Value Disclosures

In some instances, certain of the Company's assets and liabilities are required to be measured or disclosed at fair value according to a fair value hierarchy pursuant to relevant accounting literature. This hierarchy ranks the quality and reliability of the inputs used to determine fair values, which are then classified and disclosed in one of three categories. The three levels of the fair value hierarchy are:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — quoted prices in active markets for similar assets or liabilities; quoted prices in markets that are not active; and model-derived valuations whose inputs are observable.

Level 3 — model-derived valuations with unobservable inputs that are supported by little or no market activity

Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their classifications within the fair value hierarchy levels.

For assets and liabilities measured at fair value on a recurring basis for which fair value disclosure is required, quantitative disclosure of the fair value for each major category of assets and liabilities is presented below:

Description	Fair value measurements at June 30, 2015 using	
	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate derivative liability (a)	\$5,966	—
Variable rate debt (b)	—	479,028
Fixed rate debt (b)	—	400,074
Total liabilities	\$5,966	879,102

Description	Fair value measurements at December 31, 2014 using	
	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate derivative liability (a)	\$ 6,338	—
Variable rate debt (b)	—	440,163
Fixed rate debt (b)	—	407,692
Total liabilities	\$ 6,338	847,855

(a) The Company entered into these interest rate swaps as a requirement under certain secured mortgage loans.

The disclosure is included to provide information regarding the inputs used to determine the fair value of the (b) outstanding debt, in accordance with existing accounting guidance. These instruments are not presented in the accompanying consolidated balance sheets at fair value.

Level 2

The fair value of derivative instruments was estimated based on data observed in the forward yield curve which is widely observed in the marketplace. The Company also incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the counterparty's nonperformance risk in the fair value measurements which utilizes Level 3 inputs, such as estimates of current credit spreads. The Company has determined that the credit valuation adjustments are not significant to the overall valuation of its derivative and therefore has classified this in Level 2 of the hierarchy.

Level 3

The fair value of both variable and fixed rate debt is the amount at which the instrument could be exchanged in a current transaction between willing parties. The Company estimates the fair value of its total debt by discounting the future cash flows of each instrument at rates currently offered for similar debt instruments of comparable maturities by the Company's lenders. At June 30, 2015 and December 31, 2014, the Company used rates of 3.1% and 3.4%, respectively, for fixed rate debt and 1.8% and 1.9%, respectively, for variable rate debt in each period. The Company has not elected the fair value option with respect to its debt. The Company's other financial instruments, principally escrow deposits, accounts payable and accrued expenses, and working capital items, are short term in nature and their carrying amounts approximate their fair value at June 30, 2015 and December 31, 2014.

(8) Stockholder's Equity

In November 2012, the Company entered into a three-year Sales Agency Agreement with BMO Capital Markets Corp., Jefferies & Company, Inc. and KeyBanc Capital Markets, Inc. (together the "Agents"). The Sales Agency Agreement provides that the Company may offer and sell shares of its common stock having an aggregate offering price up to \$150,000 from time to time through the Agents. Offers and sales of shares of its common stock, if any, may be made in privately negotiated transactions or by any other method deemed to be an "at the market" offering as defined in Rule 415 under the Securities Act, including sales made directly on the New York Stock Exchange or to or through a market maker. The Company has referred to this arrangement with the Agents in this report on Form 10-Q as its ATM issuance program. During the six months ended June 30, 2015, the Company issued approximately 230 shares of its common stock through the ATM issuance program, generating net proceeds of approximately \$2,511, comprised of approximately \$2,550 in gross proceeds, offset by approximately \$38 in commission and fees. As of June 30, 2015, approximately \$137,000 remained available for sale under the ATM issuance program.

(9) Accumulated other comprehensive loss

The following table indicates the changes and reclassifications affecting other comprehensive loss by component for the six months ended June 30, 2015.

	Gain (loss) on derivative instrument	
Balance at December 31, 2014	\$(6,338)
Unrealized gain (loss) on valuation of swap agreements	(669)
Reclassification of realized interest on swap agreements	1,041	
Net other comprehensive income (loss)	372	
Balance at June 30, 2015	\$(5,966)

The following table indicates the changes and reclassifications affecting other comprehensive loss by component for the three months ended June 30, 2015.

	Gain (loss) on derivative instrument	
Balance at March 31, 2015	\$(6,970)
Unrealized gain (loss) on valuation of swap agreements	481	
Reclassification of realized interest on swap agreements	523	
Net other comprehensive income (loss)	1,004	
Balance at June 30, 2015	\$(5,966)

(10) Operating Leases

Certain tenant leases contain provisions providing for "stepped" rent increases. U.S. GAAP requires the Company to record rental income for the period of occupancy using the effective monthly rent, which is the average monthly rent for the entire period of occupancy during the term of the lease. The accompanying consolidated financial statements include increases of \$166 and \$173 for the three and six months ended June 30, 2015, respectively, and \$275 and

\$1,010 for the three and six months ended June 30, 2014, respectively of rental income for the period of occupancy for which stepped rent increases apply and \$23,557 and \$23,384 in related accounts receivable as of June 30, 2015 and December 31, 2014, respectively. The Company anticipates collecting these amounts over the terms of the leases as scheduled rent payments are made.

(11) Income Taxes

The Company is qualified and has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (“the Code”), for federal income tax purposes commencing with the tax year ended December 31, 1995. Since the Company qualifies for taxation as a REIT, the Company generally is not subject to federal income tax on taxable income that is distributed to stockholders. A REIT is subject to a number of organizational and operational requirements, including a requirement that it distribute at least 90% of its taxable income to stockholders, subject to certain adjustments. If the Company fails to qualify as a REIT in any taxable year, without the benefit of certain relief provisions, the Company will be subject to federal and state income tax on its taxable income at regular corporate tax rates. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income, property or net worth and federal income and excise taxes on its undistributed income.

The Company engages in certain activities through Inland Venture LLC (“IV LLC”) (formerly known as Inland Venture Corporation), IEV LLC and Inland TRS Property Management, Inc., wholly-owned taxable REIT subsidiaries. These entities engage in activities that would otherwise produce income that would not be REIT qualifying income, including, but not limited to, managing properties owned through certain of the Company’s joint ventures and the sale of ownership interests through the Company’s IPCC joint venture. The taxable REIT subsidiaries are subject to federal and state income and franchise taxes from these activities.

The Company had no uncertain tax positions as of June 30, 2015. The Company expects no significant increases or decreases in uncertain tax positions due to changes in tax positions within one year of June 30, 2015. The Company has no material interest or penalties relating to income taxes recognized in the consolidated statements of operations and comprehensive income for the three and six months ended June 30, 2015 and 2014 or in the consolidated balance sheets as of June 30, 2015 and December 31, 2014. As of June 30, 2015, returns for the calendar years 2011 through 2014 remain subject to examination by U.S. and various state and local tax jurisdictions.

Income taxes have been provided for on the asset and liability method, as required by existing guidance. Under the asset and liability method, deferred income taxes are recognized for the temporary differences between the financial reporting basis and the tax basis of assets and liabilities.

(12) Earnings per Share

Basic earnings (loss) per share (“EPS”) is computed by dividing net income (loss) by the basic weighted average number of common shares outstanding for the period (the “common shares”). Diluted EPS is computed by dividing net income (loss) by the common shares plus shares issuable upon exercise of existing options or other contracts. As of June 30, 2015 and December 31, 2014, options to purchase 51 and 61 shares of common stock, respectively, at exercise prices ranging from \$6.85 to \$19.96 per share were outstanding. These options were not included in the computation of basic or diluted EPS as the effect would be immaterial or anti-dilutive for the periods presented.

As of June 30, 2015, 844 shares of common stock have been issued pursuant to employment agreements, employment incentives and as director compensation. Of the total shares issued, 344 have vested and 6 have been cancelled. The unvested shares are excluded from the computation of basic EPS but reflected in diluted EPS by application of the treasury stock method unless the effect would be immaterial or anti-dilutive.

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

The following is a reconciliation of the numerator and denominator used in the basic and diluted EPS calculations, excluding amounts attributable to noncontrolling interests:

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Numerator:				
Income from continuing operations	\$8,643	12,605	11,676	27,520
Income from discontinued operations	—	31	—	521
Net income	8,643	12,636	11,676	28,041
Less: Net (income) loss attributable to the noncontrolling interest	18	10	(75)	30
Net income attributable to Inland Real Estate Corporation	8,661	12,646	11,601	28,071
Dividends on preferred shares	(3,972)	(2,234)	(7,944)	(4,469)
Net income attributable to common stockholders	\$4,689	10,412	3,657	23,602
Denominator:				
Denominator for net income per common share — basic:				
Weighted average number of common shares outstanding	100,000	99,455	99,966	99,433
Effect of dilutive securities:				
Unvested restricted shares	444	(a) 362	(a) 444	(a) 347
Denominator for net income per common share — diluted:				
Weighted average number of common and common equivalent shares outstanding	100,444	99,817	100,410	99,780

(a) Unvested restricted shares of common stock have a dilutive impact, although it is not material to the periods presented.

(13) Transactions with Related Parties

The Company pays or has paid affiliates of TIGI for real estate-related brokerage services and for certain administrative services, including, but not limited to, payroll preparation and management, data processing, insurance consultation and placement, property tax reduction services and mail processing. These TIGI affiliates provide these services at cost, with the exception of the broker commissions, which are charged as a percentage of the gross transaction amount. TIGI, through its affiliates, beneficially owns approximately 12.5% of the Company's outstanding common stock as of June 30, 2015. Daniel L. Goodwin, one of our directors, owns a controlling amount of the stock of TIGI. The Company also leases its corporate office from TIGI affiliates.

Effective July 1, 2014, the Company terminated its contracts with TIGI and its affiliates for insurance consultation and placement, mortgage/loan servicing and property tax reduction services. The Company has hired internal staff to handle loan servicing and property tax reduction services and engaged a third party broker to handle its insurance consultation and placement services.

The Company's current office lease expires in 2015. The Company executed an 11-year office lease with a third party and expects to relocate its corporate office before the end of the year.

During the six months ended June 30, 2015, the Company began the process of transitioning its computer services from a TIGI affiliate to a third-party managed service provider. The transition is expected to be complete before the end of 2015 and at the time of full transition, the Company does not expect to incur additional fees for these services from TIGI affiliates.

Amounts paid to TIGI and/or its affiliates for services and office space provided to the Company are set forth below.

	Three months ended June 30,		Six months ended June 30,	
	2015	2014	2015	2014
Loan servicing	\$—	34	—	67
Property tax payment/reduction work	—	86	—	141
Computer services	218	147	559	325
Other service agreements	52	52	111	115
Broker commissions	—	—	—	102
Office rent and reimbursements	206	163	413	312
Total	\$476	482	1,083	1,062

Joel Simmons, one of the Company's directors, is the Executive Managing Director of Newmark Grubb Knight Frank ("NGKF"), a global provider of real estate services. The Company's joint venture with PGGM paid mortgage brokerage fees to NGKF of \$195 during the six months ended June 30, 2015. No mortgage brokerage fees were paid to NGKF during the six months ended June 30, 2014. Mr. Simmons had an indirect personal interest as a broker in this transaction.

On February 10, 2015, the Company entered into a Limited Liability Company Agreement with NARE to acquire, develop, operate and manage an investment property located in Schaumburg, Illinois. The Company has a 95% equity interest in the joint venture and NARE has a 5% interest. On December 30, 2014, the Company entered into a promissory note and first mortgage and security agreement with the principal of NARE in the amount of \$24,750. Reference is made to Note 4, Mortgages Receivable for a description of the loan arrangement with the NARE

principal.

(14) Segment Reporting

Guidance regarding the disclosures about segments of an enterprise and related information requires disclosure of certain operating and financial data with respect to separate business activities within an enterprise. The Company owns and acquires well located open air retail centers. The Company currently owns investment properties located in the States of Alabama, Arkansas, Florida, Illinois, Indiana, Kentucky, Louisiana, Minnesota, Nebraska, New York, North Carolina, Ohio, Oklahoma, Virginia and Wisconsin. These properties are typically anchored by grocery and drug stores, complemented with additional stores providing a wide range of other goods and services.

The Company assesses and measures operating results on an individual property basis for each of its investment properties based on property net operating income. Management internally evaluates the operating performance of the properties as a whole and does not differentiate properties by geography, size or type. The Company aggregates its properties into one

20

Table of Contents

INLAND REAL ESTATE CORPORATION

Notes to Consolidated Financial Statements

June 30, 2015 (unaudited)

reportable segment because all properties have similar characteristics and the Company evaluates the collective performance of its properties. Accordingly, the Company has concluded that it has a single reportable segment.

(15) Commitments and Contingencies

The Company is subject, from time to time, to various legal proceedings and claims that arise in the ordinary course of business. While the resolution of these matters cannot be predicted with certainty, management believes, based on currently available information, that the final outcome of such matters will not have a material adverse effect on the financial statements of the Company.

(16) Subsequent Events

The Company has evaluated events subsequent to June 30, 2015 through August 6, 2015, the date of the financial statement issuance.

Dispositions

On July 7, 2015, the Company sold a portion of the Regal Showplace investment property located in Crystal Lake, Illinois to an unaffiliated third party for approximately \$16,953, a price above its current carrying value. The portion of the property sold was leased to Regal 16 Cinema.

On July 29, 2015, the Company sold a portion of the Wauconda Crossings investment property located in Wauconda, Illinois to an unaffiliated third party for approximately \$4,300, a price approximating its current carrying value, after recording an impairment adjustment of \$1,550 during the six months ended June 30, 2015. The portion of the property sold was leased primarily to a dark former Dominick's store.

Distributions

On July 15, 2015, the Company paid a cash distribution of \$0.169271 per share on the outstanding shares of its 8.125% Series A Cumulative Redeemable Preferred Stock to stockholders of record at the close of business on July 1, 2015.

On July 15, 2015, the Company announced that it had declared a cash distribution of \$0.169271 per share on the outstanding shares of its 8.125% Series A Cumulative Redeemable Preferred Stock. This distribution is payable on August 17, 2015 to the stockholders of record at the close of business on August 3, 2015.

On July 15, 2015, the Company paid a cash distribution of \$0.144791667 per share on the outstanding shares of its 6.95% Series B Cumulative Redeemable Preferred Stock to stockholders of record at the close of business on July 1, 2015.

On July 15, 2015, the Company announced that it had declared a cash distribution of \$0.144791667 per share on the outstanding shares of its 6.95% Series B Cumulative Redeemable Preferred Stock. This distribution is payable on August 17, 2015 to the stockholders of record at the close of business on August 3, 2015.
