

XL CAPITAL LTD
 Form 424B5
 March 19, 2004

Filed Pursuant to Rule 424(b)(5)
 File No: 333-101288

Prospectus Supplement to Prospectus dated June 19, 2003.

30,000,000 Units

XL Capital Ltd
 6.50% Equity Security Units

This is an offering of 6.50% Equity Security Units of XL Capital Ltd. Each equity security unit has a stated amount of \$25 and will initially consist of (a) a contract pursuant to which you agree to purchase, for \$25, Class A ordinary shares of XL Capital Ltd on May 15, 2007 and (b) a 1/40, or 2.5%, ownership interest in a senior note of XL Capital Ltd with a principal amount of \$1,000. The ownership interest in the senior note will initially be held as a component of your equity security unit and will be pledged to secure your obligation to purchase our ordinary shares under the related purchase contract.

We will make quarterly contract adjustment payments to you under the purchase contract at the annual rate of 3.97% of the stated amount of \$25 per purchase contract. In addition, we will make quarterly interest payments on the senior notes at the initial annual rate of 2.53%. We have the right to defer the contract adjustment payments on the purchase contracts, but not the interest payments on the senior notes. If the senior notes are successfully remarketed on or before the third business day prior to May 15, 2007, the interest rate on the senior notes will be reset. The senior notes are unsecured and rank equally with all of our other unsecured and unsubordinated debt. The units will be sold initially by the underwriters in a minimum number of 40 units.

All of the equity security units will be issued as normal units (as defined below). Unless you separate your senior notes from your purchase contracts by substituting U.S. treasury securities for your senior notes as described in this prospectus supplement, your equity security units will remain normal units. If a special event redemption described in this prospectus supplement occurs before May 15, 2007, the senior notes represented by the normal units may be replaced by the treasury portfolio described in this prospectus supplement. If an accounting event occurs and is continuing prior to the stock purchase date, we may, at our option, fix the settlement rate according to a formula based on the Black-Scholes option pricing model as described in this prospectus supplement.

Our ordinary shares are listed on the New York Stock Exchange under the symbol XL . The last reported sale price of our ordinary shares on March 17, 2004 was \$75.19 per share. The normal units have been approved for listing on the New York Stock Exchange, subject to notice of issuance, under the symbol XL Pr Q . Prior to this offering, there has been no public market for the equity security units.

See *Risk Factors* beginning on page S-17 to read about certain factors you should consider before buying units.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

	Per Unit	Total
Initial price to public	\$25.0000	\$750,000,000
Underwriting discount	\$ 0.7517	\$ 22,550,000
Proceeds, before expenses, to XL Capital Ltd	\$24.2483	\$727,450,000

The initial public offering price set forth above does not include accumulated contract adjustment payments and accrued interest, if any. Contract adjustment payments on the purchase contracts and interest on the senior notes will accrue from the date of initial issuance of the units, expected to be March 23, 2004.

Edgar Filing: XL CAPITAL LTD - Form 424B5

To the extent that the underwriters sell more than 30,000,000 equity security units, Goldman, Sachs & Co. and Citigroup Global Markets Inc. have the option to purchase, not later than 13 days after the initial issuance of the units, up to an additional 3,000,000 equity security units from us at the initial public offering price less the underwriting discount.

The underwriters expect to deliver the equity security units in book-entry form only through the facilities of The Depository Trust Company against payment in New York, New York on or about March 23, 2004.

Prospectus Supplement dated March 17, 2004.

ABOUT THIS PROSPECTUS SUPPLEMENT

You should read this prospectus supplement along with the accompanying prospectus carefully before you invest. Both documents contain important information you should consider when making your investment decision. This prospectus supplement contains specific details regarding this offering and the accompanying prospectus contains information about our securities generally, some of which does not apply to this offering. This prospectus supplement may add, update or change information in the accompanying prospectus. To the extent there is a conflict between the information contained or incorporated by reference in this prospectus supplement, on the one hand, and the information contained or incorporated by reference in the accompanying prospectus, on the other hand, the information contained or incorporated by reference in this prospectus supplement shall control.

The distribution of this prospectus supplement and the accompanying prospectus and the offering and sale of the equity security units in certain jurisdictions may be restricted by law. XL Capital Ltd and the underwriters require persons into whose possession this prospectus supplement and the accompanying prospectus come to inform themselves about and to observe any such restrictions. This prospectus supplement and the accompanying prospectus do not constitute an offer of, or an invitation to purchase, any of the equity security units in any jurisdiction in which such offer or invitation would be unlawful.

XL Capital Ltd is prohibited from making any invitation to the public of the Cayman Islands to purchase the equity security units. Non-resident or exempted companies or other non-resident or exempted entities established in the Cayman Islands, however, may purchase the equity security

units.

Unless the context otherwise requires, references in this prospectus supplement to our ordinary shares are to our Class A ordinary shares, par value \$0.01 per share.

In this prospectus supplement and the accompanying prospectus, references to dollar and \$ are to United States currency, and the terms United States and U.S. mean the United States of America, its states, its territories, its possessions and all areas subject to its jurisdiction.

S-2

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights information contained elsewhere, or incorporated by reference, in this prospectus supplement and the accompanying prospectus. This summary does not contain all of the information that you should consider before investing in our equity security units. You should read carefully this entire prospectus supplement, including the Risk Factors section, and the accompanying prospectus, and the information incorporated by reference, which is described under Where You Can Find More Information in the accompanying prospectus. In this prospectus supplement, XL Capital, we, our, ours and us refer to XL Capital Ltd unless the context otherwise requires.

XL Capital Ltd

We, together with our subsidiaries, are a leading provider of insurance and reinsurance coverages and financial products and services to industrial, commercial and professional service firms, insurance companies and other enterprises on a worldwide basis.

Our principal executive offices are located at XL House, One Bermudiana Road, Hamilton, Bermuda HM11. Our telephone number is (441) 292-8515. Our website is www.xlcapital.com. The information contained on our website is not incorporated by reference into this prospectus supplement or the accompanying prospectus.

You can also obtain additional information about us in the reports and other documents incorporated by reference in this prospectus supplement and the accompanying prospectus. See Incorporation of Documents by Reference in this prospectus supplement and Where You Can Find More Information and Incorporation of Documents by Reference in the accompanying prospectus.

S-3

THE OFFERING

What are the equity security units?

Each equity security unit, which we refer to as a unit, will initially consist of and represent:

- (1) a purchase contract pursuant to which:
 - you will agree to purchase, and we will agree to sell, for \$25, a number of our ordinary shares on May 15, 2007 (the stock purchase date) to be determined based on the average trading price of our ordinary shares for a period preceding that date, calculated in the manner described below or, if we have previously fixed the settlement rate as a result of an accounting event (as defined below), the fixed number of shares to be determined as described below; and
 - we will pay you contract adjustment payments on a quarterly basis at the annual rate of 3.97% of the stated amount of \$25, subject to our right to defer such payments, as specified below; and
- (2) a 1/40, or 2.5%, ownership interest in a senior note due May 15, 2009 of XL Capital with a principal amount of \$1,000, on which we will pay interest at the initial annual rate of 2.53% until a successful remarketing of the senior notes and at the reset rate (as described below) thereafter. Interest will be payable quarterly in arrears through and including the stock purchase date and, thereafter, semi-annually in arrears.

The ownership interests in the senior notes that are a component of your units will be owned by you, but will initially be pledged to the collateral agent for our benefit to secure your obligations under the related purchase contracts. We refer in this prospectus supplement to the purchase contracts, together with the pledged ownership interest in the senior notes (or, after a special event redemption described below, the pledged treasury securities), as normal units.

Each holder of normal units may elect at any time on or before the thirteenth business day prior to the stock purchase date (subject to certain exceptions) to withdraw from the pledge, the pledged ownership interest in the senior notes (or, after a special event redemption, the pledged treasury securities) underlying the normal units, thereby creating stripped units. To create stripped units, the holder must substitute, as pledged

securities, specifically identified treasury securities that will pay \$25 (the amount due under the purchase contract) per unit on the stock purchase date, and the pledged ownership interest in the senior notes or treasury securities will be released from the pledge and delivered to the holder. Holders of stripped units may recreate normal units by re-substituting the senior notes (or, after a special event redemption, the applicable treasury securities) for the treasury securities underlying the stripped units on or before the thirteenth business day prior to the stock purchase date.

If a special event redemption occurs, in each case as described in this prospectus supplement, the applicable ownership interest in the treasury securities will replace the ownership interest in a senior note as a component of each unit and will be pledged to the collateral agent for our benefit to secure your obligations under the purchase contract.

What are the purchase contracts?

The purchase contract underlying a unit obligates you to purchase, and us to sell, for \$25, on the stock purchase date, a number of our newly issued ordinary shares equal to the settlement rate described below. The settlement rate will be based on the average trading price of our ordinary shares for a period preceding that date, calculated in the manner described below or, if we have previously fixed the settlement rate as a result of an accounting event (as defined below), the fixed number of shares to be determined as described below.

You will not have any voting or other rights with respect to our ordinary shares until you pay the \$25 purchase price and acquire the ordinary shares upon settlement of the purchase contracts.

S-4

What payments will we make to holders of the units and the senior notes?

If you hold normal units, we will pay you (a) quarterly contract adjustment payments on the underlying purchase contracts at the annual rate of 3.97% of the \$25 stated amount through but excluding the stock purchase date, and (b) quarterly interest payments on the ownership interests in senior notes that are pledged in respect of your normal units at the initial annual rate of 2.53% through but excluding the stock purchase date.

If you hold stripped units, you will receive only the quarterly contract adjustment payments at the annual rate of 3.97% of the \$25 stated amount. There will be no distributions in respect of the treasury securities that are a component of the stripped units and you will not be entitled to receive quarterly interest payments on the senior notes unless, separately, you continue to hold the senior notes that were released to you when you created the stripped units. If you hold the senior notes separately from the units and do not separately hold stripped units, you will receive only the interest payable on the senior notes.

The contract adjustment payments on normal and stripped units are subject to our deferral right as described below. We are not entitled to defer interest payments on any senior notes, whether held as part of, or separately from, the units.

The senior notes, whether held separately from or as part of the units, will initially pay interest at the annual rate of 2.53%. If the senior notes are successfully remarketed, however, the rate of interest payable from the settlement date of the successful remarketing, which we anticipate to be on or before May 15, 2007, until their maturity on May 15, 2009 will be the reset rate, which will be a rate established by the remarketing agent in accordance with the procedures and the requirements described in this prospectus supplement. If the remarketing agent cannot establish a reset rate during the remarketing period, the remarketing agent will not reset the interest rate on the senior notes and the interest rate will continue to be the initial annual rate of 2.53%.

We currently conduct substantially all of our operations through our subsidiaries and our subsidiaries generate substantially all of our operating income and cash flow. Our ability to pay our obligations under the purchase contracts and senior notes depends on our ability to obtain cash dividends or other cash payments or obtain loans from our subsidiaries, which are separate and distinct legal entities that will have no obligations to pay any dividends or to lend or advance us funds and which may be restricted from doing so by contract, including other financing arrangements, charter provisions or applicable legal or regulatory requirements and may also depend on the financial condition and regulatory requirements of our subsidiaries. As a result, our obligations under the purchase contracts and the senior notes will be effectively subordinated to all of the obligations of our subsidiaries. For a description of certain regulatory restrictions on the payments of dividends by our subsidiaries, see Note 25 of the notes to the consolidated financial statements of XL Capital incorporated by reference to our Annual Report on Form 10-K for the year ended December 31, 2003. In addition, our obligations to make contract adjustment payments to you will be contractually subordinated to our senior indebtedness as described below under Description of the Equity Security Units Current Payments.

What are the payment dates?

Subject to our deferral right in respect of the contract adjustment payments described below, we will make contract adjustment payments quarterly in arrears on each of February 15, May 15, August 15 and November 15, commencing on May 15, 2004 and ending on the stock

purchase date. We will initially make interest payments on the senior notes quarterly in arrears on each of February 15, May 15, August 15 and November 15, commencing on May 15, 2004, and, following the stock purchase date, semi-annually in arrears on each of May 15 and November 15 until maturity on May 15, 2009.

Can we defer payments?

We can defer payment of all or part of the contract adjustment payments on the purchase contracts until the stock purchase date. Additional contract adjustment payments will accrue on any deferred installments of

S-5

contract adjustment payments at a rate of 6.50% per year until paid, compounded quarterly, to but excluding the stock purchase date, unless your purchase contract has been settled early or terminated. We are not entitled to defer interest payments on the senior notes.

What is the reset rate?

To facilitate the remarketing of the senior notes at the remarketing price described below, the remarketing agent will reset the rate of interest on the senior notes, effective from the settlement date of a successful remarketing until their maturity on May 15, 2009. The reset rate will be the rate sufficient to cause the then current market value of each outstanding senior note to be equal to 100.25% of the remarketing value described below.

The reset rate will be determined by the remarketing agent during the seven business day (as defined below) period beginning on the ninth business day prior to the stock purchase date and ending on the third business day prior to the stock purchase date. If the remarketing agent fails to remarket the senior notes that form part of the normal units by the end of the third business day immediately preceding the stock purchase date, we will be entitled to exercise our rights as a secured party with respect to such senior notes and, subject to applicable law, may retain the pledged senior notes or treasury securities, as the case may be, or sell them in one or more public or private sales to satisfy in full such holder's obligation to purchase ordinary shares under the related purchase contracts.

The reset of the interest rate on the senior notes in connection with a successful remarketing will not change the amount of the cash payment due to holders of normal units in respect of the senior notes held by holders of normal units on the stock purchase date, which will be at the initial annual rate of 2.53%.

Business day means, with respect to the senior notes, any day other than a Saturday, Sunday or other day in the City of New York, New York, in the City of Boston, Massachusetts, in Bermuda or in any place of payment on which banking institutions are authorized by law or regulation to close.

The reset rate may not exceed the maximum rate, if any, permitted by applicable law.

What is the remarketing?

The remarketing agent will attempt to remarket the senior notes of holders of normal units and will use the proceeds to settle directly the purchase contracts on the stock purchase date. Holders of normal units may elect not to participate in any remarketing by following the procedures set forth in the Remarketing Notice described below. This will be one way for holders of normal units to satisfy their obligations to purchase ordinary shares under the related purchase contracts.

As described below, a holder of a senior note in which interests are not held as part of normal units may elect to have the separately held senior note remarketed along with the senior notes in which interests are held as part of the normal units.

We will enter into a remarketing agreement with a nationally recognized investment banking firm that will act as remarketing agent. The remarketing agent will agree to use reasonable best efforts to remarket the senior notes that are included in normal units (as well as separately held senior notes) that are participating in the remarketing, at a price per senior note that will result in net cash proceeds equal to 100.25% of the remarketing value. The remarketing value of a senior note will be equal to the principal amount of the senior note. We anticipate that the settlement date of any successful remarketing will be on or before May 15, 2007.

The remarketing agent will deduct out of the proceeds in excess of the remarketing value as a remarketing fee an amount not exceeding 25 basis points (0.25%) of the total proceeds from such remarketing.

The proceeds of the remarketing, less the remarketing fee, will be paid directly to us in settlement of the obligations of the holders of normal units to purchase our ordinary shares. The remarketing agent will remit the

S-6

remaining portion of the proceeds, if any, for payment to the holders of the normal units or senior notes participating in the remarketing.

A holder of normal units may elect not to participate in any remarketing and, instead, retain the ownership interests in senior notes underlying those normal units by delivering to the collateral agent, in respect of each senior note to be retained, cash in the amount and on the date specified in the Remarketing Notice to satisfy its obligations under the related purchase contracts. Whether or not a holder of normal units participates in the remarketing, the interest rate on the senior notes in which interests are included in those units will nevertheless be reset if the remarketing is successful.

Prior to any remarketing, we plan to file and obtain effectiveness of a registration statement if so required under the U.S. federal securities laws at the time.

What happens if the remarketing agent does not successfully remarket the senior notes on the remarketing date?

If the remarketing agent cannot establish a reset rate meeting the requirements described above on the ninth business day prior to the stock purchase date and therefore cannot remarket the senior notes participating in the remarketing at a price per senior note that will result in net cash proceeds equal to 100.25% of the remarketing value, the remarketing agent will attempt to establish a reset rate meeting these requirements on each of the six business days immediately following the initial proposed remarketing date. We refer to this period as the remarketing period. If the remarketing agent fails to remarket the senior notes underlying the normal units at that price by the end of the remarketing period, holders of normal units will be deemed to have directed us to retain the securities pledged as collateral in satisfaction of the holders' obligations under the related purchase contracts and we will exercise our rights as a secured party and may, subject to applicable law, retain or dispose of such securities to satisfy in full such holders' obligation to purchase our ordinary shares under the related purchase contracts on the stock purchase date. In no event will a holder of a purchase contract be liable for any deficiency between the amount of such proceeds and the purchase price for the ordinary shares under the purchase contract. In addition, holders of senior notes that remain outstanding on the stock purchase date following a failed remarketing will have the right to put their senior notes to us on the date set forth in the Remarketing Notice for an amount equal to the principal amount of the senior notes, plus accrued and unpaid interest, by notifying the indenture trustee in accordance with the procedures set forth in the Remarketing Notice.

If I am not a party to a purchase contract, may I still participate in a remarketing of my senior notes?

Holders of senior notes in which interests are not included as part of normal units may elect to have their senior notes included in the remarketing in the manner described in Description of the Equity Security Units Optional Remarketing. The remarketing agent will use reasonable best efforts to remarket the separately held senior notes included in the remarketing at a price per senior note that will result in net cash proceeds equal to 100.25% of the remarketing value, determined on the same basis as for the other senior notes being remarketed. After deducting as a remarketing fee an amount not exceeding 25 basis points (0.25%) of the total proceeds from such remarketing, the remaining portion of the proceeds will be remitted for payment to the holders whose separate senior notes were remarketed in the remarketing. If a holder of senior notes elects to have its senior notes remarketed during the remarketing period but the remarketing agent fails to remarket the senior notes during such remarketing period, the senior notes will be promptly returned to the custodial agent for release to the holder at the end of that period.

S-7

What is the settlement rate?

The settlement rate is the number of newly issued ordinary shares that we are obligated to sell and you are obligated to purchase upon settlement of a purchase contract on the stock purchase date.

The settlement rate for each purchase contract, subject to any then applicable anti-dilution adjustments, will be as follows:

if the applicable market value, determined as described below, of our ordinary shares is equal to or greater than \$93.99, the settlement rate will be 0.2660 ordinary shares per purchase contract;

if the applicable market value of our ordinary shares is less than \$93.99 but greater than \$75.19, the settlement rate will be equal to \$25 divided by the applicable market value of our ordinary shares per purchase contract; or

if the applicable market value of our ordinary shares is less than or equal to \$75.19, the settlement rate will be 0.3325 ordinary shares per purchase contract.

Applicable market value means the average of the closing price per ordinary share on each of the 20 consecutive trading days ending on the third trading day immediately preceding the stock purchase date.

If an accounting event occurs and is continuing prior to the earlier of the date of any successful remarketing of the senior notes and the stock purchase date, we may, at our option, fix the settlement rate according to a formula based on the Black-Scholes option pricing model, which is a function of several variables, including the market price of our ordinary shares, our dividend yield, the remaining maturity of the purchase contract, the risk-free rate, and the volatility of our ordinary shares.

Accounting event means the receipt, at any time prior to the earlier of the date of any successful remarketing of the senior notes and the stock purchase date, by the audit committee of our Board of Directors of a written report in accordance with Statement on Auditing Standards (SAS) No. 97, Amendment to SAS No. 50 Reports on the Application of Accounting Principles, from our independent auditors, provided at the request of management, to the effect that, as a result of any change in accounting rules or interpretations thereof after the date of this prospectus supplement, we must either (a) account for the purchase contracts as derivatives under SFAS 133 (or any successor accounting standard) or (b) account for the units using the if-converted method under SFAS 128 (or any successor accounting standard), and that such accounting treatment will cease to apply upon fixing the settlement rate on the purchase contracts.

At the option of each holder, a purchase contract may be settled early by the early delivery of cash to the purchase contract agent, as described below, in which case the settlement rate will be 0.2660 ordinary shares per purchase contract or, if we have previously fixed the settlement rate as a result of an accounting event, a number of ordinary shares equal to the fixed settlement rate, in each case subject to any then applicable anti-dilution adjustments; provided that at the time of such early settlement, we have an effective shelf registration statement covering the sale of such ordinary shares (and, subject to our right to customary black-out periods for up to 90 days in any 360-day period), unless we have been advised by counsel that no prospectus is required to be delivered in connection with the sale of such ordinary shares.

For a series of diagrams that explain some of the key features of the equity security units, including the settlement rate and the reference price, see The Offering Explanatory Diagrams below.

Besides participating in a remarketing, how else can I satisfy my obligations under the purchase contract?

Besides participating in the remarketing, your obligations under the purchase contract may also be satisfied:

S-8

if you have created stripped units, by delivering and pledging specified U.S. treasury securities in substitution for your senior notes and applying the cash payments received upon maturity of those pledged treasury securities; through the early delivery of cash to the purchase contract agent on or prior to the thirteenth business day prior to the stock purchase date in the manner described in Description of the Equity Security Units Early Settlement ; by delivering a notice to settle for cash along with the requisite amount of cash on the thirteenth business day prior to the stock purchase date for settlement of the purchase contracts in the manner described in Description of the Equity Security Units Notice to Settle with Cash ; or if we are involved in a merger, acquisition or consolidation other than with one of our subsidiaries prior to the stock purchase date in which at least 30% of the consideration for our ordinary shares consists of cash or cash equivalents, through an early settlement of the purchase contract as described in Description of the Equity Security Units Early Settlement upon Cash Merger.

In addition, the purchase contracts, our related rights and obligations and those of the holders of the units, including their rights to receive accumulated contract adjustment payments or deferred contract adjustment payments as the case may be and obligations to purchase our ordinary shares, will automatically terminate upon our bankruptcy, insolvency or reorganization. Upon such a termination of the purchase contracts, the pledged senior notes or treasury securities will be released and distributed to you. If we become the subject of a case under the U.S. federal bankruptcy code, a delay may occur as a result of the imposition of an automatic stay, if applicable, under the bankruptcy code or other stay and continue until the automatic stay has been lifted. No stay will be lifted unless and until such time as the bankruptcy judge agrees to lift it and allows your collateral to be returned to you.

If the purchase contract is settled early or is terminated as the result of certain bankruptcy, insolvency or reorganization events with respect to us, a holder will have no further right to receive any contract adjustment payments or deferred contract adjustment payments, and except in the case of a merger early settlement, you will not receive any accrued and unpaid contract adjustment payments.

Under what circumstances may we redeem the senior notes before they mature?

If we are required to pay additional amounts with respect to the senior notes, or if the accounting rules change in a way that adversely affects our accounting treatment of the purchase contracts or the units, then we may elect to redeem the senior notes at the redemption price described under Description of Senior Notes Special Event Redemption. If the senior notes are redeemed before a successful remarketing, the money received from the redemption will be used by the collateral agent to purchase a portfolio of zero-coupon U.S. treasury securities that mature on or prior to each payment date of the senior notes through the stock purchase date, in an aggregate amount equal to the principal amount of the senior notes included in normal units and the interest that would have been due on such payment date on the senior notes included in normal units. For a holder of normal units, these treasury securities will replace the senior notes as the collateral securing such holder's obligations to purchase ordinary shares under the purchase contracts. If your senior notes are not components of normal units, you, rather than the collateral agent, will receive the related redemption payment. If the senior notes are redeemed, then each normal unit will consist of a purchase contract for ordinary shares and an ownership interest in the portfolio of treasury securities.

What is the maturity of the senior notes?

The senior notes will mature on May 15, 2009.

What are the rights and privileges of the ordinary shares?

The ordinary shares that you will be obligated to purchase under the purchase contracts have one vote per share, subject to the provisions of our Articles of Association which restrict the voting power of any shareholder

S-9

to less than 10% of total voting power. For more information, please see the discussion of our ordinary shares in the accompanying prospectus under the heading Description of XL Capital Ordinary Shares.

What are the U.S. federal income tax consequences related to the units?

If you purchase units in the offering, you will be treated for U.S. federal income tax purposes as having acquired purchase contracts and ownership interests in the senior notes constituting those units, and by purchasing the units you agree to treat the purchase contracts and ownership interests in the senior notes in that manner for all tax purposes. You must allocate the purchase price of the units between purchase contracts and ownership interests in the senior notes in proportion to their respective fair market values, which will establish your initial tax basis in each component of the units. We expect to report the fair market value of each purchase contract as \$0 and the fair market value of each senior note as \$1,000 (or \$25 for each 1/40, or 2.5%, ownership interest in a senior note included in a normal unit).

For U.S. federal income tax purposes, we intend to treat the senior notes as indebtedness of XL Capital. Interest on the senior notes generally will be taxable to you as ordinary interest income at the time it is paid or accrued in accordance with your method of accounting for tax purposes.

If you own stripped units, you will be required to include in gross income your allocable share of any original issue discount or acquisition discount on the treasury securities that accrues in such year.

We intend to report the contract adjustment payments as income to you. You may want to consult your tax advisor concerning alternate characterizations.

There is only one published revenue ruling that addresses the treatment of instruments similar to the units. No other statutory, judicial or administrative authority directly addresses the treatment of the units or instruments similar to units for U.S. federal income tax purposes. You are urged to consult your own tax advisor concerning the tax consequences of an investment in units. For additional information, see Certain Tax Considerations Taxation of Shareholders United States.

What are the ERISA considerations?

Plans subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, or ERISA, or Section 4975 of the Internal Revenue Code of 1986, as amended, may invest in the units subject to the considerations set forth in Certain ERISA Considerations.

Will the equity security units be listed on a stock exchange?

The normal units have been approved for listing on the New York Stock Exchange, subject to notice of issuance, under the symbol XL Pr Q. We have no obligation and do not currently intend to apply for any separate listing of either the stripped units or the senior notes on any stock

exchange; however, in the event that either of these securities are separately traded to a sufficient extent that applicable exchange listing requirements are met, we will attempt to cause those securities to be listed on the exchange on which the normal units are then listed.

What are the expected uses of proceeds from the offerings?

We estimate that we will receive net proceeds from this offering of approximately \$725.3 million, or approximately \$798.1 million if the underwriters' option to purchase additional units is exercised in full.

We intend to use the net proceeds from this offering for general corporate purposes.

S-10

THE OFFERING EXPLANATORY DIAGRAMS

The following diagrams demonstrate some of the key features of the purchase contracts, normal units, stripped units and senior notes, and the transformation of normal units into stripped units and senior notes. The following diagrams assume that the senior notes are successfully remarketed, the interest rate on the senior notes is reset, there is no early settlement, the settlement rate has not been fixed as a result of an accounting event and the payment of contract adjustment payments is not deferred.

Purchase Contracts

Normal units and stripped units both include a purchase contract under which you agree to purchase ordinary shares on the stock purchase date.

The number of ordinary shares to be purchased under each purchase contract will depend on the applicable market value. The applicable market value means the average of the closing price per ordinary share on each of the 20 consecutive trading days ending on the third trading day immediately preceding the stock purchase date.

The following charts are intended to illustrate (1) the value of the ordinary shares to be delivered upon settlement of the purchase contracts on the stock purchase date in relation to the market price of the ordinary shares and (2) the number of ordinary shares a holder of units will receive on the stock purchase date, expressed as a percentage of the maximum number of ordinary shares deliverable upon settlement of the purchase contracts.

-
- (1) The reference price is \$75.19. The closing price of our ordinary shares on March 17, 2004 was \$75.19.
 - (2) The threshold appreciation price is \$93.99, which is 125% of the reference price.
 - (3) For each of the percentage categories shown, the percentage of ordinary shares to be delivered on the stock purchase date to a holder of normal units or stripped units is determined by dividing:
the related number of ordinary shares to be delivered, calculated in the manner indicated in the footnote for each such category, by
an amount equal to \$25, the stated amount of the unit, divided by the reference price.
 - (4) If the applicable market value of our ordinary shares is less than or equal to the reference price, the number of ordinary shares to be delivered will be calculated by dividing the stated amount of \$25 by the reference price.
 - (5) If the applicable market value of our ordinary shares is between the reference price and the threshold appreciation price, the number of ordinary shares to be delivered will be calculated by dividing the stated amount of \$25 by the applicable market value.
 - (6) If the applicable market value of our ordinary shares is greater than or equal to the threshold appreciation price, the number of ordinary shares to be delivered will be calculated by dividing the stated amount of \$25 by the threshold appreciation price.

S-11

Normal Units

A normal unit will consist of two components as illustrated below:

After a special event redemption, the normal units will include specified treasury securities in lieu of the senior notes.

If you hold a normal unit, you will hold an ownership interest in a senior note and, after a special event redemption, an ownership interest in specified treasury securities, but will pledge that interest to the collateral agent for our benefit to secure your obligations under the purchase

contract.

If you hold a normal unit, you may also substitute the requisite amount of cash for your ownership interest in a senior note if you decide not to participate in the remarketing.

S-12

Stripped Units

A stripped unit consists of two components as illustrated below:

If you hold a stripped unit, you own a 1/40, or 2.5%, interest in the treasury security but will pledge it to the collateral agent for our benefit to secure your obligations under the purchase contract. The treasury security is a zero-coupon U.S. treasury security (CUSIP No. 912820 BX 4) that matures on May 15, 2007.

S-13

Senior Notes

Senior notes will have the terms illustrated below:

If you hold an ownership interest in a senior note that is a component of a normal unit, you have the option to either:

- allow the ownership interest in the senior note to be included in the remarketing process, the proceeds of which will be applied to settle the purchase contract; or
- elect not to participate in the remarketing by delivering the requisite amount of cash to be applied to settle the related purchase contract.

If you hold a senior note that is not a component of a normal unit, you have the option to either:

- continue to hold the senior note the interest rate on which will be reset, effective from the settlement date of a successful remarketing of the senior notes; or
- deliver the senior note to the remarketing agent to be included in the remarketing.

S-14

Transforming Normal Units into Stripped Units and Senior Notes

To create stripped units, you must substitute for the pledged ownership interest in the senior note (or, after a special event redemption, the pledged treasury securities) the specified zero-coupon U.S. treasury security that matures on May 15, 2007.

The pledged senior note or, after a special event redemption, the pledged treasury securities will be released from the pledge and delivered to you.

The zero-coupon U.S. treasury security together with the purchase contract would then constitute a stripped unit. The senior note (or, after a special event redemption, treasury securities), which was previously a component of normal units, is tradable as a separate security.

The transformation of normal units into stripped units and senior notes and the transformation of stripped units and senior notes into normal units may generally be effected only in integral multiples of 40 units. If, however, the senior notes constituting a part of the normal units have been replaced with treasury securities due to a special event redemption, the transformation of normal units into stripped units and the recreation of normal units from stripped units may be effected only in integral multiples of units such that both the treasury securities to be deposited and the treasury securities to be released are in integral multiples of \$1,000.

The following illustration depicts the transformation of 40 normal units into 40 stripped units and one \$1,000 principal amount senior note.

S-15

After a special event redemption, the normal units will include ownership interests in specified U.S. treasury securities in lieu of an ownership interest in senior notes.

You can also transform stripped units and senior notes (or, after a special event redemption, treasury securities) into normal units. Following that transformation, the specified zero-coupon U.S. treasury security, which was previously a component of the stripped units, is tradable as a separate security.

S-16

RISK FACTORS

Investing in the units involves risk. In deciding whether to invest in the units, you should carefully consider the following risk factors related to the units, in addition to the other information contained in this prospectus supplement and the accompanying prospectus and the information incorporated by reference herein.

You will bear the entire risk of a decline in the price of our ordinary shares.

You will have an obligation to buy our ordinary shares pursuant to the purchase contract at a fixed price. The market value of the ordinary shares you will purchase on the stock purchase date may be materially lower than the price per share that the purchase contract requires you to pay. If the average of the closing price per ordinary share over the 20 trading-day period ending on the third trading day immediately preceding the stock purchase date is less than \$75.19 per share, on the stock purchase date, you will be required to purchase ordinary shares at a price per share of \$75.19. Accordingly, a holder of units assumes the entire risk that the market value of our ordinary shares may decline and that the decline could be substantial.

You will receive only a portion of any appreciation in our ordinary share price.

Assuming we have not previously fixed the settlement rate as set forth under Description of the Equity Security Units Fixed Settlement Rate Option Upon an Accounting Event, the aggregate market value of the ordinary shares you will receive upon settlement of a purchase contract generally will exceed the stated amount of \$25 only if the average of the closing price per ordinary share over the 20 trading-day period ending on the third trading day immediately preceding the stock purchase date equals or exceeds \$93.99, which we refer to as the threshold appreciation price. The threshold appreciation price represents an appreciation of 25% over \$75.19. If the applicable average closing price exceeds \$75.19, which is referred to as the reference price, but falls below the threshold appreciation price, you will realize no equity appreciation on the ordinary shares for the period during which you own a unit. Furthermore, if the applicable average closing price exceeds the threshold appreciation price, the value of our ordinary shares you will receive under the purchase contract will be approximately 80% of the value of the ordinary shares you could have purchased with \$25 at the time of the offering. During the period prior to settlement, an investment in the units affords less opportunity for equity appreciation than a direct investment in our ordinary shares.

The trading price of our ordinary shares and the general level of interest rates and our credit quality will directly affect the trading price for the units.

The trading price of the units will be directly affected by, among other things, the trading prices of our ordinary shares, interest rates generally and our credit quality. It is impossible to predict whether the price of our ordinary shares or interest rates will rise or fall. Our operating results and prospects and economic, financial and other factors will affect trading prices of our ordinary shares and the units. In addition, market conditions can affect the capital markets generally, thereby affecting the price of our ordinary shares. These conditions may include the level of, and fluctuations in, the trading prices of stocks generally. Fluctuations in interest rates may give rise to arbitrage opportunities based upon changes in the relative value of the ordinary shares underlying the purchase contracts and of the other components of the units. The arbitrage could, in turn, negatively affect the trading prices of the units and our ordinary shares.

You may suffer dilution of the ordinary shares issuable upon settlement of your purchase contract.

The number of ordinary shares issuable upon settlement of your purchase contract is subject to adjustment only for stock splits and combinations, stock dividends and specified other transactions that significantly modify our capital structure. The number of ordinary shares issuable upon settlement of each purchase contract is not subject to adjustment for other events, including employee stock option grants, ordinary dividends in excess of a threshold amount, offerings of ordinary shares for cash, or in connection with acquisitions or other transactions which may adversely affect the price of the ordinary shares. The terms of the units do not restrict our ability to offer ordinary shares in the future or to engage in other transactions that could dilute the ordinary shares. We have no obligation to consider the interests of the holders of the units in engaging in any such offering or transaction. If we issue additional ordinary shares, that issuance may materially and adversely affect the price of our ordinary shares and, because of the relation-

S-17

ship of the number of ordinary shares holders are to receive on the stock purchase date to the price of our ordinary shares, such other events may adversely affect the trading price of the units.

You will have no rights as holders of our ordinary shares but will be subject to all changes with respect to our ordinary shares.

Until you acquire ordinary shares upon settlement of your purchase contract, you will have no rights with respect to our ordinary shares, including voting rights, rights to respond to tender offers and rights to receive any dividends or other distributions on the ordinary shares. The declaration and payment of future dividends by us will be at the discretion of our board of directors and will depend upon many factors, including our earnings, financial condition, business needs, capital and surplus requirements of our operating subsidiaries and contractual and regulatory restrictions. Only holders of our ordinary shares, not holders of units, will receive such dividends. Upon settlement of your purchase contract, you will be entitled to exercise the rights of a holder of our ordinary shares only as to actions for which the record date occurs after the settlement date. For example, in the event that an amendment is proposed to our memorandum and articles of association requiring shareholder approval and the record date for determining the shareholders of record entitled to vote on the amendment occurs prior to delivery of the ordinary shares, you will not be entitled to vote on the amendment, although you will nevertheless be subject to any changes in the powers, preferences or special rights of our ordinary shares.

We have the right to fix the settlement rate prior to the stock purchase date if an accounting event occurs and is continuing.

If an accounting event occurs and is continuing at any time prior to the earlier of a successful remarketing of the senior notes or the stock purchase date, we may elect to fix the settlement rate according to a formula based on the Black-Scholes option pricing model, which is a function of several variables, including the market price of our ordinary shares, our dividend yield, the remaining maturity of the purchase contract, the risk-free rate, and the volatility of our ordinary shares. Once we have fixed the settlement rate, the number of shares you are required to purchase upon settlement of the purchase contract no longer will depend on the price of our ordinary shares. Accordingly, even if the price of our ordinary shares subsequently declines, you will be required to purchase a number of ordinary shares equal to the fixed settlement rate. In no event will the fixed settlement rate be greater than 0.3325 shares, subject to adjustment as described in Description of the Equity Security Units Anti-dilution Adjustments.

We may issue additional ordinary shares and thereby materially and adversely affect the price of our ordinary shares.

The number of ordinary shares that you are entitled to receive on the stock purchase date or as a result of early settlement of your purchase contract is subject to adjustment for certain events arising from stock splits and combinations, stock dividends and certain other actions by us that modify our capital structure. We will not adjust the number of ordinary shares that you are to receive on the stock purchase date, or as a result of early settlement of your purchase contract for other events, including offerings of normal units for cash by us or in connection with acquisitions. We are not restricted from issuing additional normal units during the term of the purchase contracts and have no obligation to consider your interests for any reason. If we issue additional ordinary shares, it may materially and adversely affect the price of our ordinary shares and, because of the relationship of the number of shares to be received on the stock purchase date to the price of the ordinary shares, such other events may adversely affect the trading price of the normal units or stripped units.

Your pledged securities will be encumbered.

Although holders of units will hold beneficial ownership interests in the underlying pledged senior notes or treasury securities, the holders will pledge those securities with the collateral agent to secure their obligations under the related purchase contracts. Therefore, for so long as the purchase contracts remain in effect, holders will not be allowed to withdraw their ownership interest in the pledged senior notes or treasury securities from this pledge arrangement, except upon substitution of other securities as described in this prospectus supplement.

S-18

The purchase contract agreement will not be qualified under the Trust Indenture Act. The obligations of the purchase contract agent will be limited.

The purchase contract agreement relating to the units will not be qualified under the Trust Indenture Act. The purchase contract agent under the purchase contract agreement, who will act as the agent and the attorney-in-fact for the holders of the units, will not be qualified as a trustee under the Trust Indenture Act. Accordingly, holders of the units will not have the benefits of the protections of the Trust Indenture Act other than to the extent applicable to a senior note included in a unit such as those protections identified below or as specified in the purchase contract agreement. Under the terms of the purchase contract agreement, the purchase contract agent will have only limited obligations to the holders of the units.

If a security is issued under an indenture, you as a holder would generally have the following additional protections: (1) provisions that obligate an indenture trustee, within 90 days of ascertaining that it has a conflicting interest, to either eliminate the conflicting interest or resign; (2)

provisions that prevent an indenture trustee that is also a creditor of the issuer from improving its own credit position at the expense of you as the security holder immediately before or after an indenture default; and (3) the requirement that the indenture trustee deliver reports at least once a year with respect to the indenture trustee and the securities issued under the indenture.

The secondary market for the units may be illiquid.

We are unable to predict how the units will trade in the secondary market or whether that market will be liquid or illiquid. There is currently no secondary market for the units. Although the normal units have been approved for listing on the New York Stock Exchange, subject to notice of issuance, we have no obligation or current intention to apply for any separate listing of the stripped units or the senior notes on any stock exchange; however, in the event that either of these securities are separately traded to a sufficient extent that applicable exchange listing requirements are met, we will attempt to cause those securities to be listed on the exchange on which the normal units are then listed. We can give you no assurance as to the liquidity of any market that may develop for the normal units, the stripped units or the senior notes, your ability to sell such securities or whether a trading market, if it develops, will continue. In addition, in the event that sufficient numbers of normal units are converted to stripped units, the liquidity of normal units could decrease. It is possible that the normal units, and the stripped units or senior notes if they are ever listed, could be delisted from the New York Stock Exchange or that trading in the normal units, stripped units or senior notes could be suspended as a result of elections to create stripped units or recreate normal units through the substitution of collateral that causes the number of these securities to fall below the applicable requirements for listing securities on the New York Stock Exchange.

Holders of senior notes have only limited rights of acceleration.

Holders of senior notes may accelerate payment of the principal and accrued and unpaid interest on the senior notes only upon the occurrence and continuation of an event of default. An event of default is generally limited to payment defaults, breaches of specific covenants and specific events of bankruptcy, certain cross-acceleration with respect to our other indebtedness, insolvency and reorganization relating to us.

Delivery of securities is subject to potential delay if we become subject to a bankruptcy proceeding.

Notwithstanding the automatic termination of the purchase contracts, if we become the subject of a case under the U.S. Bankruptcy Code, imposition of an automatic stay under Section 362 of the Bankruptcy Code, if applicable, or any court ordered stay, may delay the delivery to you of your securities being held as collateral under the pledge arrangement, and such delay may continue until the automatic stay or other stay has been lifted. The automatic stay or other stay will not be lifted until such time as the bankruptcy judge agrees to lift it and return the collateral to you.

We may redeem the senior notes upon the occurrence of a special event.

We have the option to redeem the senior notes, on not less than 30 days or more than 60 days prior written notice, in whole but not in part, at any time if a special event occurs and continues under the circumstances described in this prospectus supplement. See Description of the Senior Notes Special Event Redemption. If we exercise this option, the senior notes will be redeemed at the redemption price described later in this prospectus supplement. If the

S-19

senior notes are redeemed, we will pay the redemption price in cash to the holders of ownership interests in the senior notes. If the special event redemption occurs prior to the stock purchase date, the redemption price payable to you as a holder of the normal units will be distributed to the collateral agent, who in turn will apply an amount equal to the redemption price to purchase a portfolio of zero-coupon U.S. treasury securities on your behalf, and will remit the remainder of the redemption price, if any, to you, and these treasury securities will be substituted for the senior notes as collateral to secure your obligations under the purchase contracts related to the normal units. If your senior notes are not components of normal units, you, rather than the collateral agent, will receive the related redemption payments. We can give you no assurance as to the effect on the market prices for the normal units if we substitute the treasury securities as collateral in place of any senior notes so redeemed. A special event redemption will be a taxable event to the holders of the senior notes.

Because we are a holding company and substantially all of our obligations are conducted by our subsidiaries, our obligations under the senior notes and the purchase contracts are effectively subordinated to the obligations of our subsidiaries.

We currently conduct substantially all of our operations through our subsidiaries, and our subsidiaries generate substantially all of our operating income and cash flow. Our ability to pay our obligations under the purchase contracts and senior notes depends on our ability to obtain cash dividends or other cash payments or obtain loans from our subsidiaries, which are separate and distinct legal entities that will have no obligations to pay any dividends or to lend or advance us funds and which may be restricted from doing so by contract, including other financing arrangements, charter provisions or applicable legal or regulatory requirements and may also depend on the financial condition and regulatory requirements of our subsidiaries. As a result, our obligations under the purchase contracts and the senior notes will be effectively subordinated to

all of the obligations of our subsidiaries. For a description of certain regulatory restrictions on the payments of dividends by our subsidiaries, see Note 25 of the notes to the consolidated financial statements of XL Capital incorporated by reference to our Annual Report on Form 10-K for the year ended December 31, 2003.

In addition, because we are a holding company, except to the extent that we have priority or equal claims against our subsidiaries as a creditor, our obligations under the senior notes and the purchase contracts will be effectively subordinated to the obligations of our subsidiaries.

Our obligations with respect to the contract adjustment payments will be subordinate and junior in right of payment to our obligations under our senior indebtedness as described under *Description of the Equity Security Units - Current Payments*.

As of December 31, 2003, the aggregate amount of our outstanding consolidated indebtedness for money borrowed was approximately \$1.9 billion. All such outstanding indebtedness is unsecured and unsubordinated. As of December 31, 2003, the aggregate amount of outstanding indebtedness for money borrowed of our subsidiaries (other than XL Capital Finance (Europe) plc) that would effectively rank senior to the senior debt issued under the senior debt indenture was approximately \$355.0 million. The senior notes would also be structurally subordinated to losses and loss expenses and other obligations of our subsidiaries.

Any deterioration in our financial condition could make it more difficult to remarket the senior notes successfully. Unless the purchase contracts are terminated because of our bankruptcy, insolvency or reorganization, on the stock purchase date we will issue the required number of ordinary shares notwithstanding any decline in value of the senior notes included in the normal units. Nevertheless, any deterioration in our financial condition would have an adverse impact on the value of separate notes.

We may defer contract adjustment payments.

We have the option to defer the payment of all or part of the contract adjustment payments on the purchase contracts forming a part of the units until no later than the stock purchase date. However, deferred contract adjustment payments will accrue additional contract adjustment payments at the rate of 6.50% per year (compounded quarterly) until paid. If we defer any contract adjustment payments until the stock purchase date, you will receive additional ordinary shares in lieu of a cash payment. If the purchase contracts are terminated due to our bankruptcy, insolvency or reorganization or are settled early, the right to receive contract adjustment payments and deferred contract adjustment

S-20

payments, if any, will also terminate and, except in the case of a merger early settlement, you will not receive any accrued and unpaid contract adjustment payments.

The U.S. federal income tax consequences of the purchase, ownership and disposition of the units are unclear.

There is only one published revenue ruling addressing the treatment of instruments similar to the units. No other statutory, judicial or administrative authority directly addresses the treatment of the units or instruments similar to the units for U.S. federal income tax purposes. As a result, the U.S. federal income tax consequences of the purchase, ownership and disposition of the units are unclear. You are urged to consult your tax advisor concerning the tax consequences of an investment in the units.

You may have to pay U.S. federal income taxes with respect to deemed distributions that you do not receive.

As discussed in *Price Range of Ordinary Shares and Dividends*, the payment of future dividends on our ordinary shares is subject to the discretion of our board of directors. If we do pay dividends with respect to our ordinary shares in an aggregate amount in excess of \$0.49 per share in any quarter, we will adjust the settlement rate with respect to your purchase contract to account for such dividends. Upon such an adjustment, you may be required to include an amount in income for federal income tax purposes, notwithstanding that you do not receive any cash or other property with respect to such dividends. For further details, see *Certain Tax Considerations*.

The trading price of the senior notes may not fully reflect the value of their accrued but unpaid interest.

The senior notes may trade at a price that does not fully reflect the value of their accrued but unpaid interest. If you dispose of your senior notes between record dates for interest payments, you will be required to include in gross income for U.S. federal income tax purposes accrued interest through the date of disposition as ordinary income.

Our Articles of Association impose limitations on the transfer and ownership of our shares.

Our Articles of Association provide that our Board of Directors shall decline to register a transfer of shares if it appears to the directors, whether before or after such transfer, that the effect of such transfer would be to increase the number of shares owned or controlled by any person to 10% or any higher percentage of any class of voting shares or of the total issued shares or of the voting power of XL Capital. In addition, our Articles of Association also provide that if, and so long as, the votes conferred by the ownership or control of shares (including any preference ordinary shares) of any person constitute 10% or more of the votes conferred by our issued shares, each such share held by such person shall confer only a fraction of a vote that would otherwise be applicable according to the formula as described in our Articles of Association, and will continue to be readjusted until no shareholder's voting rights exceeds this limitation as a result of such reduction. Notwithstanding the foregoing, our directors may make such final adjustments to the aggregate number of votes conferred by the ownership or control of shares of any person that they consider fair and reasonable, in light of all the circumstances, to ensure that such votes represent less than 10% of the aggregate voting power of the votes conferred by all our issued shares. For these purposes, references to ownership or control of our shares mean ownership within the meaning of Section 958 of the Internal Revenue Code, as amended, and Section 13 (d)(3) of the Securities Exchange Act of 1934, as amended.

S-21

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 (PSLRA) provides a safe harbor for forward-looking statements. Any prospectus, prospectus supplement, our Annual Report to ordinary shareholders, any proxy statement, any other Form 10-K, Form 10-Q or Form 8-K of ours or any other written or oral statements made by or on behalf of us may include forward-looking statements which reflect our current views with respect to future events and financial performance. Such statements include forward-looking statements both with respect to us in particular, and to the insurance, reinsurance and financial products and services sectors in general (both as to underwriting and investment matters). Statements which include the words expect, intend, plan, believe, project, anticipate, will, and similar statements of a future or forward-looking nature identify forward-looking statements for purposes of the PSLRA or otherwise.

All forward-looking statements address matters that involve risks and uncertainties. Accordingly, there are or will be important factors that could cause actual results to differ materially from those indicated in such statements.

We believe that these factors include, but are not limited to, the following:

- rate increases and improvements in terms and conditions may not be as large or significant as we are currently projecting;
- the timely and full recoverability of reinsurance placed by us with third parties, or other amounts due to us, including, without limitation, amounts due to us from the seller in connection with our acquisition of the Winterthur International operations;
- the projected amount of ceded reinsurance recoverables and the ratings and creditworthiness of reinsurers may change;
- the timing of claims payments being faster or the receipt of reinsurance recoverables being slower than anticipated by us;
- ineffectiveness or obsolescence of our business strategy due to changes in current or future market conditions;
- increased competition on the basis of pricing, capacity, coverage terms or other factors;
- greater frequency or severity of claims and loss activity, including as a result of natural or man-made catastrophic events, than our underwriting, reserving or investment practices anticipate based on historical experience or industry data;
- developments in the world's financial and capital markets which adversely affect the performance of our investments and our access to such markets;
- the potential impact on us from government-mandated insurance coverage for acts of terrorism;
- the potential impact of variable interest entities or other off-balance sheet arrangements on us;
- developments in bankruptcy proceedings or other developments related to bankruptcies of companies insofar as they affect property and casualty insurance and reinsurance coverages or claims that we may have as a counterparty;
- availability of borrowings and letters of credit under our credit facilities;
- changes in regulations or tax laws applicable to us or our subsidiaries, brokers or customers;
- acceptance of our products and services, including new products and services;
- changes in the availability, cost or quality of reinsurance;
- changes in the distribution or placement of risks due to increased consolidation of insurance and reinsurance brokers;
- loss of key personnel;

S-22

the effects of mergers, acquisitions and divestitures;

changes in rating agency policies or practices;
 changes in accounting policies or practices or the application thereof;
 legislative or regulatory developments;
 changes in general economic conditions, including inflation, foreign currency exchange rates and other factors;
 the effects of business disruption or economic contraction due to war, terrorism or other hostilities; and
 the other factors set forth in our other documents on file with the SEC.

The foregoing review of important factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included herein or elsewhere. We undertake no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.

S-23

USE OF PROCEEDS

We estimate our net proceeds from our sale of 30,000,000 units in this offering, after deducting underwriting discounts and commissions and estimated offering expenses, to be approximately \$725.3 million, or approximately \$798.1 if the underwriters for this offering exercise in full their option to purchase additional units.

We intend to use the net proceeds from this offering for general corporate purposes.

S-24

**RATIO OF EARNINGS TO FIXED CHARGES
 AND PREFERENCE ORDINARY SHARE DIVIDENDS**

Our ratio of earnings to fixed charges and our ratio of earnings to combined fixed charges and preference ordinary share dividends for each of the periods indicated is as follows:

	Fiscal Year Ended December 31,				
	2003	2002	2001	2000**	1999**
Ratio of Earnings to Fixed Charges	3.1x	3.3x	*	6.5x	8.3x
Ratio of Earnings to Combined Fixed Charges and Preference Ordinary Share Dividends	2.6x	3.1x	*	6.5x	8.3x

* For the year ended December 31, 2001, earnings were insufficient to cover fixed charges by \$832.4 million.

** The ratios reflect certain reclassifications of interest expense related to the accretion of deposit liabilities that were implemented retroactively effective March 31, 2002.

We have computed the foregoing ratios by dividing (1) income from continuing operations before income taxes, minority interest and income or loss from equity investees plus the sum of fixed charges, amortization of capitalized interest and distributed income of equity investees, less minority interest, by (2) the sum of fixed charges and, where indicated, preference ordinary share dividends. Fixed charges consist of interest expense on all indebtedness (including amortization of deferred financing costs), the portion of operating lease rental expense that is representative of the interest factor (deemed to be 30% of operating lease rentals) and interest credited to policyholders consisting of accretion of deposit liability transactions. Because we had no outstanding preference ordinary shares during any of the years ended December 31, 2001, 2000 and 1999, the ratio of earnings to fixed charges is identical to the ratio of earnings to combined fixed charges and preference ordinary share dividends for each of these periods.

S-25

CAPITALIZATION

Edgar Filing: XL CAPITAL LTD - Form 424B5

The following table sets forth the consolidated capitalization of XL Capital as of December 31, 2003, on an actual basis and as adjusted to give effect to the issuance of the 30,000,000 units in this offering, assuming no exercise of the underwriters' option to purchase additional units, and the anticipated application of the estimated net proceeds as described under "Use of Proceeds."

You should read the following information in conjunction with our consolidated financial statements and the notes to those financial statements in our Annual Report on Form 10-K for the year ended December 31, 2003, which is incorporated by reference in this prospectus supplement and the accompanying prospectus.

	Unaudited	
	As of December 31, 2003

- (1) In June of 2003, we renewed our principal revolving credit and letter of credit facility. The facility was increased from \$2.0 billion to \$2.5 billion of which up to \$675 million is available as revolving credit and up to \$2.3 billion is available in the form of letters of credit, with the combined total not to exceed \$2.5 billion.
- (2) Does not include letters of credit outstanding as of December 31, 2003 in the amount of approximately \$2.7 billion.
- (3) The Zero Coupon Convertible Debentures and the Liquid Yield Option(tm) Notes (the "LYONs") were issued at a discount to their face amount. The amounts shown under "Actual" and "As Adjusted" are the accreted values at December 31, 2003. The Zero Coupon Convertible Debentures and the LYONs are convertible into Class A ordinary shares under certain circumstances.
- (4) In August 2002, we issued and sold 9,200,000 8% Series A preference ordinary shares for gross proceeds of \$230 million.
- (5) In November 2002, we issued and sold 11,500,000 7 5/8% Series B preference ordinary shares for gross proceeds of \$287.5 million.

- (6) Reflects an adjustment representing the present value of the contract adjustment payments payable in connection with the purchase contracts contained in the units.

S-26

SELECTED CONSOLIDATED FINANCIAL DATA

Our selected consolidated financial, operating and supplemental data presented below as at and for the years ended December 31, 2003, 2002, 2001, 2000 and 1999 are derived from our audited consolidated financial statements, which have been audited by PricewaterhouseCoopers LLP, independent auditors, and which are incorporated by reference in this prospectus supplement and the accompanying prospectus. The information presented includes the results of NAC Re Corp. (NAC) with whom we merged in 1999 as though it had always been a part of our company. You should read the following selected consolidated financial, operating and supplemental data in conjunction with our consolidated financial statements and the notes to those financial statements in our Annual Report on Form 10-K for the year ended December 31, 2003 which is incorporated by reference in this prospectus supplement and the accompanying prospectus. Certain reclassifications to prior period information have been made to conform to current year presentation.

Combined ratio (8)	102.6%	97.0%	139.7%	106.2%	108.7%

- (1) Results for all periods subsequent to July 1, 2001 include the results of Winterthur International, which was acquired with effect from this date. The results also include the consolidation of XL Re Europe, which is accounted for as a subsidiary with effect from January 1, 2002. In the years ended December 31, 2001, 2000 and 1999, our share of net income of Le Mans Ré (now known as XL Re Europe) was included in equity in net income of insurance and operating affiliates. Our net income for the years ended December 31, 2003, 2002 and 2001 was impacted by the September 11 event. See Item 8, Note 4 to our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2003. The effect of all of these items should be considered when making period to period comparisons of our results of operations and financial condition and liquidity. See Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2003 for further discussion and analysis.
- (2) Information includes the results of NAC as though it had always been a part of us.
- (3) Equity in net income of investment affiliates in 2003 includes income on the alternative investment portfolio for the eleven months ended November 30, 2003 as compared to twelve months in prior years. The fair market values of certain of these alternative investments often take longer to obtain as compared to the other of our investments and therefore are unavailable at the time of the close.
- (4) Net income per ordinary share is based on the basic and diluted weighted average number of Class A ordinary shares and ordinary share equivalents outstanding for each period. Net loss per ordinary share is based on the basic weighted average number of ordinary shares outstanding.
- (5) Cash dividends per ordinary share for 1999 and prior years have not been adjusted for the pooling effect of NAC.
- (6) The loss and loss expense ratio is calculated by dividing the losses and loss expenses incurred by the net premiums earned for general insurance and reinsurance operations.
- (7) The underwriting expense ratio is the sum of acquisition expenses and operating expenses for general insurance and reinsurance operations divided by net premiums earned for general insurance and reinsurance operations. See Item 8, Note 3 to our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2003 for further information.
- (8) The combined ratio is the sum of the loss and loss expense ratio and the underwriting expense ratio. A combined ratio under 100% represents an underwriting profit and over 100% represents an underwriting loss.

PRICE RANGE OF ORDINARY SHARES AND DIVIDENDS

Our ordinary shares are listed and traded on the New York Stock Exchange under the symbol XL. The following table sets forth, for the periods indicated, the high and low closing sales prices per share of our ordinary shares as reported on the New York Stock Exchange and the quarterly cash dividends declared per ordinary share.

	<u>High</u>	<u>Low</u>	<u>Dividend</u>
2001			
First Quarter	\$87.50	\$67.60	\$0.46
Second Quarter	\$83.60	\$67.18	\$0.46
Third Quarter	\$83.00	\$62.00	\$0.46
Fourth Quarter	\$96.12	\$79.50	\$0.46
2002			
First Quarter	\$97.11	\$86.05	\$0.47
Second Quarter	\$97.38	\$82.70	\$0.47
Third Quarter	\$83.03	\$61.00	\$0.47
Fourth Quarter	\$83.23	\$70.88	\$0.47
2003			
First Quarter	\$83.55	\$64.57	\$0.48
Second Quarter	\$88.00	\$72.58	\$0.48
Third Quarter	\$83.92	\$72.83	\$0.48
Fourth Quarter	\$79.83	\$68.11	\$0.48
2004			
First Quarter (through March 15, 2004)	\$81.54	\$72.44	\$0.49

On March 17, 2004, the last reported sale price for our ordinary shares was \$75.19 per share. As of December 31, 2003, there were 1,002 holders of record of our Class A ordinary shares.

The declaration and payment of future dividends by us will be at the discretion of our board of directors and will depend upon many factors, including our earnings, financial condition, business needs, capital and surplus requirements of our operating subsidiaries and contractual and regulatory restrictions. For a description of certain regulatory restrictions on the payment of dividends by our subsidiaries, see Note 25 of the Notes to Consolidated Financial Statements of XL Capital Ltd incorporated by reference to our Annual Report on Form 10-K for the year ended December 31, 2003.

S-29

DESCRIPTION OF THE EQUITY SECURITY UNITS

We summarize below the principal terms of the equity security units, which we refer to as the units, and the purchase contracts and senior notes that comprise the units. The following description is not complete, and we refer you to the agreements that will govern your rights as a holder of units. See Where You Can Find More Information in the accompanying prospectus. This summary supplements the description of ordinary share purchase units in the accompanying prospectus and, to the extent inconsistent, replaces the description in the accompanying prospectus.

Overview

Each unit will have a stated amount of \$25. Each unit will initially consist of and represent:

- (1) a purchase contract pursuant to which:
 - you will agree to purchase, and we will agree to sell, for \$25, our ordinary shares on the stock purchase date, the number of which will be determined by the settlement rate described below, based on the average trading price of the ordinary shares for a period preceding the stock purchase date, calculated in the manner described below or, if we have previously fixed the settlement rate as a result of an accounting event, the fixed number of shares to be determined as described below; and
 - we will pay you contract adjustment payments on a quarterly basis at the annual rate of 3.97% of the stated amount of \$25, subject to our right to defer such payments as specified below; and
- (2) a 1/40, or 2.5%, ownership interest in a senior note due May 15, 2009 of XL Capital, with a principal amount of \$1,000, on which we will pay interest at the initial annual rate of 2.53% until the settlement date of a successful remarketing of the senior notes and at the reset rate (as described below) thereafter. Interest will be payable quarterly in arrears on and prior to the stock purchase date and semi-annually in arrears thereafter.

You will own the ownership interests in senior notes that are a component of your units, but initially you will pledge them to the collateral agent for our benefit to secure your obligations under the related purchase contracts. Each holder of normal units may elect at any time on or before the thirteenth business day prior to the stock purchase date to withdraw from the pledge the pledged senior notes or, after a special event redemption described below, the pledged treasury securities underlying the normal units by substituting, as pledged securities, specifically identified treasury

securities that will pay at maturity an amount equal to the aggregate principal amount of the senior notes or treasury securities, as the case may be, for which substitution is being made. Upon such substitution, the pledged senior notes or pledged treasury securities, as the case may be, will be released from the pledge and delivered to the holder. The normal units would then become stripped units. Holders of stripped units may recreate normal units by re-substituting senior notes or, after a special event redemption, the applicable specified treasury securities, for the treasury securities underlying the stripped units.

We will enter into:

a purchase contract agreement with U.S. Bank National Association, as purchase contract agent, governing the appointment of the purchase contract agent as the agent and attorney-in-fact for the holders of the units, the purchase contracts, the transfer, exchange or replacement of certificates representing the units and certain other matters relating to the units; and

a pledge agreement with U.S. Bank Trust National Association, as collateral agent, custodial agent and securities intermediary, creating a pledge and security interest for our benefit to secure the obligations of holders of units under the purchase contracts.

As a beneficial owner of the units, you will be deemed to have:

irrevocably agreed to be bound by the terms of the purchase contract agreement, the pledge agreement and your purchase contract for so long as you remain a beneficial owner of such units; and

S-30

appointed the purchase contract agent under the purchase contract agreement as your agent and attorney-in-fact to enter into and perform the purchase contract and pledge agreement on your behalf and in your name, including the making of the representations of the holders and the agreement to be bound by the covenants therein (it being understood that the purchase contract agent shall not be liable for any representation or covenant made by or on behalf of any holder of the units).

In addition, as a beneficial owner of the units, you will be deemed by your acceptance of the units to have agreed, for all tax purposes, to treat yourself as the owner of the related interests in the senior notes or the treasury securities, as the case may be, and to treat your interest in the senior notes as our indebtedness.

We will allocate \$25 of the purchase price of each unit to the ownership interest in the related senior note and \$0 to the related purchase contract on our consolidated financial statements.

Creating Stripped Units and Recreating Normal Units

Holders of normal units will have the ability to strip those units and take delivery of the pledged senior notes or, after a special event redemption, the pledged treasury securities, creating stripped units, and holders of stripped units will have the ability to recreate normal units from their stripped units by depositing senior notes or, after a special event redemption, the applicable treasury securities as described in more detail below. Holders who elect to create stripped units or recreate normal units will be responsible for any related fees or expenses.

Creating Stripped Units

Each holder of normal units may create stripped units and withdraw the pledged senior notes or, after a special event redemption, the pledged treasury securities underlying the normal units by substituting, as pledged securities, the treasury securities described below in a total principal amount at maturity equal to the aggregate principal amount of the senior notes or treasury securities, as the case may be, for which substitution is being made. Holders of normal units may create stripped units at any time on or before the thirteenth business day prior to the stock purchase date.

Because treasury securities are issued in integral multiples of \$1,000, holders of normal units may make the substitution only in integral multiples of 40 normal units. However, after the occurrence of a special event redemption, the holders may make the substitution only in integral multiples of normal units such that both the treasury securities to be deposited and the treasury securities to be released are in integral multiples of \$1,000. In order to create 40 stripped units, a normal unit holder must substitute, as pledged securities, zero-coupon U.S. treasury securities (CUSIP No. 912820 BX 4) which mature on May 15, 2007 and will pay \$1,000 at maturity. Upon creation of the stripped units, the treasury securities will be pledged with the collateral agent to secure your obligation to purchase the ordinary shares under your purchase contract, and the pledged senior notes or, after a special event redemption, the pledged treasury securities underlying the normal units will be released to the unit holder.

To create stripped units, you must:

deposit with the collateral agent the treasury securities described above, which will be substituted for the pledged senior notes or, after a special event redemption, the pledged treasury securities underlying your normal units and pledged to the collateral agent to secure your obligation to purchase our ordinary shares under your purchase contract;
transfer the normal units to the purchase contract agent; and

deliver a notice to the purchase contract agent stating that you have deposited the specified treasury securities with the collateral agent and are requesting that the purchase contract agent instruct the collateral agent to release to you the pledged senior notes or, after a special event redemption, the pledged treasury securities underlying the normal units.

Upon the deposit and the receipt of an instruction from the purchase contract agent, the collateral agent will effect the release to the purchase contract agent of the underlying pledged senior notes or, after a special event redemption, the pledged treasury securities from the pledge under the pledge agreement free and clear of our security interest. The purchase contract agent will:

S-31

cancel the related normal units;

transfer to you the underlying pledged senior notes or, after a special event redemption, the pledged treasury securities; and

deliver to you the stripped units.

Any senior notes or treasury securities, as the case may be, released to you will be tradable separately from the resulting stripped units. Interest on the senior notes will continue to be payable in accordance with their terms.

Recreating Normal Units

Each holder of stripped units may recreate normal units by substituting, as pledged securities, senior notes or, after a special event redemption, the applicable treasury securities then constituting a part of the normal units for the treasury securities underlying the stripped units. Holders may recreate normal units at any time on or before the thirteenth business day prior to the stock purchase date.

Upon recreation of normal units, the senior notes or, after a special event redemption, the applicable treasury securities will be pledged with the collateral agent to secure the holder's obligation to purchase ordinary shares under the purchase contract, and the treasury securities underlying the stripped units will be released to the unit holder. Because treasury securities are issued in integral multiples of \$1,000, holders of stripped units may make the substitution only in integral multiples of 40 stripped units. If, however, treasury securities have replaced the senior notes as a component of the normal units as the result of a special event redemption, holders of the stripped units may make this substitution using the applicable treasury securities instead of senior notes and only in integral multiples of stripped units such that both the treasury securities to be deposited and the treasury securities to be released are in integral multiples of \$1,000.

To recreate normal units from stripped units, you must:

deposit with the collateral agent:

if the substitution occurs prior to the occurrence of a special event

redemption, senior notes having an aggregate principal amount equal to the aggregate stated amount of your stripped units; or

if the substitution occurs after the occurrence of a special event redemption, the applicable treasury securities then constituting a part of the normal units;

transfer the stripped units to the purchase contract agent; and

deliver a notice to the purchase contract agent stating that you have deposited the senior notes or, after a special event redemption, the applicable treasury securities with the collateral agent and are requesting that the purchase contract agent instruct the collateral agent to release to you the pledged treasury securities underlying those stripped units.

The senior notes or, after a special event redemption, the applicable treasury securities will be substituted for the pledged treasury securities underlying your stripped units and will be pledged with the collateral agent to secure your obligation to purchase ordinary shares under your purchase contract.

Upon the deposit and receipt of an instruction from the purchase contract agent, the collateral agent will effect the release to the purchase contract agent of the underlying pledged treasury securities from the pledge under the pledge agreement free and clear of our security interest. The purchase contract agent will:

cancel the related stripped units;
transfer the underlying treasury securities to you; and
deliver the normal units to you.

S-32

Current Payments

If you hold normal units, you will receive payments consisting of:

quarterly contract adjustment payments on the purchase contracts at the annual rate of 3.97% of the \$25 stated amount through but excluding the stock purchase date; and
quarterly interest payments on the senior notes pledged in respect of your normal units at the annual rate of 2.53% of the principal amount through but excluding the stock purchase date.

If you hold stripped units and do not separately hold senior notes, you will receive only quarterly contract adjustment payments on the purchase contracts at the annual rate of 3.97% of the \$25 stated amount through but excluding the stock purchase date. However, you will be required for U.S. federal income tax purposes to recognize original issue discount on a constant yield basis or acquisition discount on the treasury securities when it is paid or accrues generally in accordance with your regular method of tax accounting.

We may defer the contract adjustment payments until no later than the stock purchase date as described below. If we defer any of these payments, we will accrue additional payments on the deferred amounts at the annual rate of 6.50% until paid. We are not entitled to defer interest payments on the senior notes.

We currently conduct substantially all of our operations through our subsidiaries, and our subsidiaries generate substantially all of our operating income and cash flow. Our ability to pay our obligations under the purchase contracts and senior notes depends on our ability to obtain cash dividends or other cash payments or obtain loans from our subsidiaries, which are separate and distinct legal entities that will have no obligations to pay any dividends or to lend or advance us funds and which may be restricted from doing so by contract, including other financing arrangements, charter provisions or applicable legal or regulatory requirements and may also depend on the financial condition and regulatory requirements of our subsidiaries. As a result, our obligations under the purchase contracts and the senior notes will be effectively subordinated to all of the obligations of our subsidiaries. For a description of certain regulatory restrictions on the payments of dividends by our subsidiaries, see Note 25 of the notes to the consolidated financial statements of XL Capital incorporated by reference to our Annual Report on Form 10-K for the year ended December 31, 2003.

In addition, because we are a holding company, except to the extent that we have priority or equal claims against our subsidiaries as a creditor, our obligations under the senior notes and the purchase contracts will be effectively subordinated to the obligations of our subsidiaries because, as a shareholder of our subsidiaries, we will be subject to the prior claims of their creditors.

If you hold senior notes separately from the units and do not separately hold stripped units, you will receive only the interest payable on the senior notes. The senior notes, whether held separately from or as part of the units, will pay interest at the initial annual rate of 2.53% of the principal amount of \$1,000 per senior note until the settlement date of a successful remarketing or, if no remarketing occurs, until maturity. If there is a successful remarketing of the senior notes, the rate of interest payable from the settlement date of the successful remarketing until their maturity on May 15, 2009 will be the reset rate, which will be a rate established by the remarketing agent that meets the requirements described under Remarketing. However, if a reset rate meeting the requirements described in this prospectus supplement cannot be established during the remarketing period, the interest rate will not be reset on such date and will continue to be the initial annual rate of 2.53% until maturity of the senior notes.

Contract adjustment payments and interest payments on the senior notes payable for any period will be computed (1) for any full quarterly period on the basis of a 360-day year of twelve 30-day months and (2) for any period shorter than a full quarterly period, on the basis of a 30-day month and, for periods of less than a month, on the basis of the actual number of days elapsed per 30-day month. Contract adjustment payments and interest on the senior notes will accrue from the date of original issuance and will be payable quarterly in arrears on February 15, May 15, August 15 and November 15 of each year, commencing on May 15, 2004; *provided, however*, that following the stock purchase date, interest on the senior notes shall be payable semi-annually in arrears on May 15 and November 15 of each year. Contract adjustment payments shall cease accruing on the stock purchase date. However, if the purchase contracts are settled early, at your option, or terminated (upon the occurrence of certain events of bankruptcy, insolvency

or reorganization with respect to us), the right to receive contract adjustment payments and deferred contract adjustment payments will also terminate and, except in the case of a merger early settlement, you will not receive any accrued and unpaid contract adjustment payments.

Our obligations with respect to the senior notes will be unsecured and will rank equally with all of our other unsecured and unsubordinated debt. See [Description of the Senior Notes](#) below. Our obligations with respect to contract adjustment payments will be subordinate and junior in right of payment to our obligations under our senior indebtedness. Senior indebtedness means any of our indebtedness of any kind unless the instrument under which it is incurred expressly provides that it is in parity or subordinate in right of payment to the contract adjustment payments. We will not be permitted to make any contract adjustment payments if a payment default shall have occurred and be continuing with respect to any of our senior indebtedness or the maturity of any of our senior indebtedness shall have been accelerated because of a default.

Contract adjustment payments and, in the case of holders of normal units, interest payments on the senior notes will be payable to the holders of units as they are registered on the books and records of the purchase contract agent on the relevant record dates. The relevant record dates will be the 15th calendar day prior to the relevant payment dates. Contract adjustment payments will be paid through the purchase contract agent, which will hold amounts received in respect of the contract adjustment payments for the benefit of the holders of the purchase contracts that are a part of such units. Subject to any applicable laws and regulations, each interest payment on the senior notes will be made as described under [Book-Entry System](#) below. If any date on which these payments and distributions are to be made is not a business day, then amounts payable on that date will be made on the next day that is a business day (and so long as the payment is made on the next business day, without any interest or other payment on account of any such delay). However, if such business day is in the next calendar year, payment will be made on the prior business day, in each case with the same force and effect as if made on the payment date.

Option to Defer Contract Adjustment Payments

We may, at our option and upon prior written notice to the holders of the units and the purchase contract agent, defer payment of all or part of the contract adjustment payments on the related purchase contracts forming a part of normal units and stripped units until no later than the stock purchase date. However, deferred contract adjustment payments will accrue additional contract adjustment payments at the rate of 6.50% per year (compounding on each succeeding payment date) until paid. If you elect to settle your purchase contracts early, or the purchase contracts are terminated upon the occurrence of certain events of bankruptcy, insolvency or reorganization with respect to us, your right to receive contract adjustment payments and deferred contract adjustment payments will also terminate and, except in the case of a merger early settlement, you will not receive any accrued and unpaid contract adjustment payments.

In the event that we elect to defer the payment of contract adjustment payments on the purchase contracts until the stock purchase date, each holder of normal units and stripped units will receive on the stock purchase date in respect of the deferred contract adjustment payments, in lieu of a cash payment, a number of ordinary shares (in addition to a number of ordinary shares equal to the settlement rate) equal to (a) the aggregate amount of deferred contract adjustment payments payable to the holder divided by (b) the applicable market value of the ordinary shares (as defined below under [Description of the Purchase Contracts](#)).

We will not issue any fractional ordinary shares with respect to the payment of deferred contract adjustment payments on the stock purchase date. In lieu of fractional ordinary shares otherwise issuable with respect to such payment of deferred contract adjustment payments, the holder will be entitled to receive an amount in cash equal to the fraction of an ordinary share, calculated on an aggregate basis with respect to all such payments you are entitled to receive, multiplied by the applicable market value of our ordinary shares.

In the event we exercise our option to defer the payment of contract adjustment payments, then until the deferred contract adjustment payments have been paid, we will not declare or pay dividends on, make distributions with respect to, or redeem, purchase or acquire, or make a liquidation payment with respect to, our ordinary shares other than:

repurchases, redemptions or acquisitions of our ordinary shares in connection with any employment contract, benefit plan or other similar arrangement with or for the benefit of employees, officers, directors or agents or a share purchase or dividend reinvestment plan, or our satisfaction of our obligations pursuant to any contract or security outstanding on the date of such event;

as a result of a reclassification of capital stock or the exchange or conversion of one class or series of our capital stock for another class or series of our capital stock;

the purchase of fractional interests in shares of our capital stock pursuant to the conversion or exchange provisions of the capital stock or the security being converted or exchanged;

dividends or distributions in our capital stock (or rights to acquire our capital stock), or repurchases, redemptions or acquisitions of our capital stock in connection with the issuance or exchange of our capital stock (or securities convertible into or exchangeable for shares of our capital

stock); or

redemptions, exchanges or repurchases of any rights outstanding under a shareholder rights plan on the date of such event or the declaration or payment thereunder of a dividend or distribution of or with respect to rights in the future, or the redemption or repurchase of any rights pursuant thereto.

Our subsidiaries will not be restricted from making any similar payments on their capital stock if we exercise our option to defer payments of any contract adjustment payments.

Description of the Purchase Contracts

Each purchase contract underlying a unit, unless earlier terminated, or earlier settled at your option or upon a cash merger and other transactions described below, will obligate you to purchase, and us to sell, for \$25, on the stock purchase date a number of newly issued ordinary shares of XL Capital Ltd equal to the settlement rate.

The settlement rate, subject to adjustment under certain circumstances as described under **Anti-dilution Adjustments** below, will be as follows:

If the applicable market value of the ordinary shares (which is the average of the closing price per ordinary share on each of the 20 consecutive trading days ending on the third trading day immediately preceding the stock purchase date) is equal to or greater than the threshold appreciation price of \$93.99 (which is 25% above the reference price of \$75.19), then the settlement rate (which is equal to \$25 divided by \$93.99) will be 0.2660 ordinary shares per purchase contract. Accordingly, if the market price for the ordinary shares increases to an amount that is greater than \$93.99 on the settlement date, the aggregate market value of the ordinary shares issued upon settlement of each purchase contract, assuming that this market value is the same as the applicable market value of the ordinary shares, will be greater than \$25, and if the market price equals \$93.99, the aggregate market value of those shares, assuming that this market value is the same as the applicable market value of the ordinary shares, will equal \$25.

If the applicable market value of the ordinary shares is less than \$93.99 but greater than \$75.19, the settlement rate will be equal to \$25 divided by the applicable market value of the ordinary shares per purchase contract. Accordingly, if the market price for the ordinary shares increases but that market price is less than \$93.99 on the settlement date, the aggregate market value of the ordinary shares issued upon settlement of each purchase contract, assuming that this market value is the same as the applicable market value of the ordinary shares, will equal \$25.

If the applicable market value of the ordinary shares is less than or equal to \$75.19, the settlement rate (which is equal to \$25 divided by \$75.19) will be 0.3325 ordinary shares per purchase contract. Accordingly, if the market price for the ordinary shares decreases to an amount that is less than \$75.19 on the settlement date, the aggregate market value of the ordinary shares issued upon settlement of each purchase contract, assuming that this market value is the same as the applicable market value of the ordinary shares, will be less than \$25, and if the market price equals \$75.19, the aggregate market value of those shares, assuming that this market value is the same as the applicable market value of the ordinary shares, will equal \$25.

S-35

If an accounting event occurs and is continuing prior to the earlier of a successful remarketing of the senior notes and the stock purchase date, we may, at our option, fix the settlement rate according to a formula based on the Black-Scholes option pricing model, which is a function of several variables, including the market price of our ordinary shares, our dividend yield, the remaining maturity of the purchase contract, the risk-free rate, and the volatility of our ordinary shares. See **Fixed Settlement Rate Option Upon Accounting Event**.

For purposes of determining the applicable market value of the ordinary shares, the closing price of the ordinary shares on any date of determination means the closing sale price or, if no closing sale price is reported, the last reported sale price of the ordinary shares on the New York Stock Exchange on that date. If the ordinary shares are not listed for trading on the New York Stock Exchange on any date, the closing price of the ordinary shares on any date of determination means the closing sale price as reported in the composite transactions for the principal U.S. securities exchange on which the ordinary shares are listed or, if the ordinary shares are not so listed on a U.S. securities exchange, as reported by the Nasdaq stock market or, if the ordinary shares are not so reported, the last quoted bid price for the ordinary shares in the over-the-counter market as reported by the National Quotation Bureau or similar organization or, if that bid price is not available, the market value of the ordinary shares on that date as determined by a nationally recognized independent investment banking firm we retain for this purpose.

A trading day is a day on which the ordinary shares (1) are not suspended from trading on any national or regional securities exchange or association or over-the-counter market at the close of business and (2) have traded at least once on the national or regional securities exchange or association or over-the-counter market that is the primary market for the trading of the ordinary shares by the close of business on such day.

Fixed Settlement Rate Option Upon Accounting Event

Edgar Filing: XL CAPITAL LTD - Form 424B5

If an accounting event occurs and is continuing, we may, at our option, elect to fix the purchase contract settlement rate. If we elect to fix the purchase contract settlement rate, we must provide written notice to the purchase contract agent setting forth our intention to modify the purchase contract settlement rate to be an obligation for you to buy, and us to sell, a fixed number of shares, equal to the purchase contract value divided by the stock price. The purchase contract value will be:

the value of 0.3325 shares;

less the value of 0.3325 call options with an exercise price of \$75.19 each;

plus the value of 0.2660 call options with an exercise price of \$93.99 each.

The value of the call options will be determined using the Black-Scholes option pricing formula for European call options. The formula for the purchase contract value is subject to anti-dilution adjustments. In no event will the fixed settlement rate (the purchase contract value divided by the stock price) be greater than 0.3325 shares, subject to any then applicable anti-dilution adjustments.

Accounting event means the receipt, at any time prior to the earlier of the date of any successful remarketing of the senior notes and the stock purchase date, by the audit committee of our Board of Directors of a written report in accordance with Statement on Auditing Standards (SAS) No. 97, Amendment to SAS No. 50-Reports on the Application of Accounting Principles, from our independent auditors, provided at the request of management, to the effect that, as a result of any change in accounting rules or interpretations thereof after the date of this prospectus supplement, we must either (a) account for the purchase contracts as derivatives under SFAS 133 (or any successor accounting standard) or (b) account for the units using the if-converted method under SFAS 128 (or any successor accounting standard), and that such accounting treatment will cease to apply upon the fixing of the settlement rate on the purchase contracts.

This Black-Scholes option pricing formula is a function of:

our stock price, which will be calculated as the average closing price per share of our ordinary shares during the 20 consecutive trading day period commencing the third trading day following the date of our notice to the purchase contract agent;

S-36

the risk-free rate, defined as the yield to maturity on the treasury security maturing on May 15, 2007 (CUSIP No. 912820 BX 4), as of 12 noon on the date of our notice;

the volatility of our stock;

time, calculated as the time from our notice to May 15, 2007; and

our dividend yield, calculated as the dividend threshold (\$0.49) multiplied by four, divided by the stock price above.

The volatility of our ordinary shares for the first call option will be calculated as the annualized standard deviation of the logarithmic daily returns on our ordinary shares over the 260 consecutive trading day period ending on the day of our notice. The volatility of the second call option will be calculated as the volatility of the first call option minus two.

Settlement

Settlement of the purchase contracts will occur on the stock purchase date, unless:

you have settled the related purchase contract prior to the stock purchase date through the delivery of cash to the purchase contract agent in the manner described in Early Settlement ;

we are involved in a merger, acquisition or consolidation prior to the stock purchase date in which at least 30% of the consideration for the ordinary shares consists of cash or cash equivalents, and you have settled the related purchase contract through an early settlement as described in Early Settlement upon Cash Merger ; or

an event described under Termination of Purchase Contracts below has occurred.

The settlement of the purchase contracts on the stock purchase date will occur as follows:

in the case of normal units where there has been a successful remarketing, a portion of proceeds from the remarketing equal to the principal amount of the senior notes remarketed will automatically be applied to satisfy in full the holders obligation to purchase ordinary shares under the related purchase contracts;

for the stripped units or normal units that include pledged treasury securities, the cash payments on the treasury securities will automatically be applied to satisfy in full your obligation to purchase our ordinary shares under the related purchase contracts; for normal units, subject to certain provisions set forth below in Notice to Settle with Cash, you may deliver cash on the thirteenth business day prior to the stock purchase date; and for the normal units in which the related senior notes remain a part of the normal units because of a failed remarketing, we will exercise our rights as a secured party to dispose of the senior notes in accordance with applicable law in order to satisfy in full your obligation to purchase our ordinary shares under the purchase contracts.

In any such event, the ordinary shares will then be issued and delivered to you or your designee, upon payment of the applicable consideration, presentation and surrender of the certificate evidencing the units, if the units are held in certificated form, and payment by you of any transfer or similar taxes payable in connection with the issuance of the ordinary shares to any person other than you.

Prior to the date on which the ordinary shares are issued in settlement of the purchase contracts, the ordinary shares underlying the related purchase contracts will not be deemed to be outstanding for any purpose and you will have no rights with respect to the ordinary shares, including voting rights, rights to respond to tender offers and rights to receive any dividends or other distributions on the ordinary shares, by virtue of holding the purchase contracts.

No fractional ordinary shares will be issued by us pursuant to the purchase contracts. In lieu of fractional shares otherwise issuable, you will be entitled to receive an amount in cash equal to the fraction of an ordinary share, calculated on an aggregate basis in respect of the purchase contracts you are settling, multiplied by the applicable market value.

S-37

Remarketing

The senior notes held by each holder of normal units will be remarketed in a remarketing, unless the holder elects not to participate in the remarketing. In the event of a successful remarketing, the proceeds of such remarketing will be used to settle directly the purchase contracts on the stock purchase date.

Unless a holder of normal units delivers the requisite amount of cash and does not otherwise elect not to participate in the remarketing, as described below, the senior notes that are included in the normal units will be remarketed on the remarketing date. The remarketing period will be the seven business day period beginning on the ninth business day prior to the stock purchase date and ending on the third business day prior to the stock purchase date. We anticipate that the settlement date of any successful remarketing will be on or before May 15, 2007.

We will enter into a remarketing agreement with a nationally recognized investment banking firm, pursuant to which that firm will agree, as remarketing agent, to use reasonable best efforts to remarket the senior notes that are included in normal units (or separately held senior notes) that are participating in the remarketing, at a price per senior note that will result in net cash proceeds equal to 100.25% of the remarketing value.

Prior to any remarketing, we plan to file and obtain effectiveness of a registration statement with respect to the remarketing if so required under the U.S. federal securities laws at the time.

The remarketing value of a senior note will be equal to the principal amount of the senior note.

The remarketing agent will deduct as a remarketing fee an amount not exceeding 25 basis points (0.25%) of the total proceeds from such remarketing. Such proceeds, less the remarketing fee, will be paid in direct settlement of the obligations of the holders of normal units to purchase our ordinary shares. The remarketing agent will remit the remaining portion of the proceeds, if any, for payment to the holders of the normal units participating in the remarketing.

Alternatively, a holder of normal units may elect not to participate in the remarketing and, instead, retain the senior notes underlying those normal units by delivering, in respect of each senior note to be retained, cash in the amount of \$25 for each purchase contract, to the purchase contract agent on or prior to the thirteenth business day prior to the stock purchase date and such cash will be used in settlement of the obligations of such non-participating holder under the related purchase contracts. If a holder of senior notes does not participate in the remarketing, the interest rate on such senior notes will nevertheless be reset if the remarketing is successful.

The purchase contract agent will give holders of normal units and separate notes notice of the remarketing, the Remarketing Notice, including the amount of cash that must be delivered by holders that elect not to participate in the remarketing, on or prior to the sixteenth business day prior to the stock purchase date. A holder electing not to participate in the remarketing must notify the purchase contract agent of such election and deliver such cash to the purchase contract agent in accordance with the procedures set forth in the Remarketing Notice. A holder that notifies the purchase contract agent of such election but does not so deliver the requisite amount of cash or a holder that does not notify the purchase

Edgar Filing: XL CAPITAL LTD - Form 424B5

contract agent of its intention to make a cash settlement as described in Notice to Settle with Cash below and, in either case, does not otherwise elect not to participate in the remarketing will be deemed to have elected to participate in the remarketing.

In order to facilitate the remarketing of the senior notes at the remarketing value described above, the remarketing agent will reset the rate of interest on the senior notes, effective from the settlement date of a successful remarketing until their maturity on May 15, 2009. The reset rate will be the rate sufficient to cause the then current market value of each senior note to be equal to 100.25% of the remarketing value. If the remarketing agent cannot establish a reset rate meeting such requirements on the ninth business day preceding the stock purchase date and therefore cannot remarket the senior notes participating in the remarketing at a price per senior note equal to 100.25% of the remarketing value, the remarketing agent will attempt to establish a reset rate meeting these requirements on each of the six immediately following business days. Any such remarketing will be at a price per senior note equal to 100.25% of the remarketing value on the subsequent remarketing date. If the remarketing agent fails to remarket the senior notes at

S-38

that price by the end of the third business day immediately preceding the stock purchase date, any holder of normal units that has not otherwise settled its purchase contracts in cash will be deemed to have directed us to retain the securities pledged as collateral in satisfaction of such holder's obligations under the related purchase contract, and we will exercise our rights as a secured party with respect to such securities and may, subject to applicable law, retain the securities or sell them in one or more public or private sales to satisfy in full such holder's obligation to purchase the ordinary shares under the related purchase contracts on the stock purchase date. In addition, holders of separate senior notes that remain outstanding will have the right to put their senior notes to us on the date set forth in the Remarketing Notice for \$25 per senior note, plus accrued and unpaid interest, by notifying the indenture trustee in accordance with the procedures set forth in the Remarketing Notice.

The obligation of a holder of purchase contracts to pay the purchase price for the ordinary shares under the underlying purchase contracts on the stock purchase date is a non-recourse obligation payable solely out of the proceeds of the senior notes or treasury securities pledged as collateral to secure the purchase obligation. A holder of a stripped unit who receives any payments of principal on account of any pledged treasury securities will be obligated to deliver such payments to us for application to its obligation under the related purchase contracts. In no event will a holder of a purchase contract be liable for any deficiency between such proceeds and the purchase price for the ordinary shares under the purchase contract.

In the event of a failed remarketing, we will cause a notice of failed remarketing to be published by 9:00 a.m. on the day following such failed remarketing. We will also release this information by means of Bloomberg and Reuters (or successor or equivalent) newswire.

Optional Remarketing

On or prior to the fourth business day immediately preceding the first day of the remarketing period, but no earlier than the sixteenth business day prior to the stock purchase date, holders of senior notes that are not included as part of normal units may elect to have their senior notes included in the remarketing by delivering their senior notes along with a notice of this election to the collateral agent. The collateral agent will hold these senior notes in an account separate from the collateral account in which the securities pledged to secure the holders' obligations under the purchase contracts will be held. Holders of senior notes electing to have their senior notes remarketed will also have the right to withdraw that election on or prior to the fourth business day immediately preceding the first day of the remarketing period.

On the business day immediately preceding the first day of the remarketing period, the collateral agent, at the written direction of the remarketing agent, will deliver these separate senior notes to the remarketing agent for remarketing. The remarketing agent will use reasonable best efforts to remarket the separately held senior notes included in the remarketing on the remarketing date at a price per senior note equal to 100.25% of the remarketing value. After deducting as a remarketing fee an amount not exceeding 25 basis points (0.25%) of the total proceeds from such remarketing, the remarketing agent will remit to the collateral agent the remaining portion of the proceeds for payment to such participating holders.

If, as described above, the remarketing agent cannot remarket the senior notes during a remarketing period, the remarketing agent will promptly return the senior notes to the custodial agent to release to the holders following the conclusion of that period.

Early Settlement

At any time not later than 10:00 a.m., New York City time, on the thirteenth business day prior to May 15, 2007, a holder of units may settle the related purchase contracts by delivering to the purchase contract agent immediately available funds in an amount equal to \$25 multiplied by the number of purchase contracts being settled; *provided* that at the time of such early settlement, we have an effective shelf registration statement covering the sale of such ordinary shares, unless we have been advised by counsel that no prospectus is required to be delivered in connection with the sale of such ordinary shares. We may suspend the use of such prospectus up to four times in any 360-day period not to exceed 90 days in any such 360-day period if (i) the prospectus would, in our judgment, contain a material misstatement or omission as a result of an event that

has occurred and is continuing or as a result of any proposed or pending material

S-39

business transaction, event or announcement; and (ii) we reasonably determine that the disclosure of such material non-public information could have a material adverse effect on us and our subsidiaries taken as a whole or could impede the consummation of any proposed or pending material business transaction. Holders may settle the related purchase contracts early only in integral multiples of 40.

No later than the third business day after an early settlement, we will issue and deliver, and the holder will be entitled to receive, 0.2660 ordinary shares for each unit early settled or if we have previously fixed the settlement rate as a result of an accounting event, a number of ordinary shares equal to the fixed settlement rate for each unit early settled, in each case, regardless of the market price of the ordinary shares on the date of early settlement, and in each case subject to adjustment under the circumstances described under **Anti-dilution Adjustments** below. At that time, the holder's right to receive contract adjustment payments and any deferred contract adjustment payments will terminate. The holder will also receive ownership interests in the senior notes or treasury securities underlying those units.

Notice to Settle with Cash

Unless treasury securities have replaced the ownership interests in the senior notes as a component of normal units as a result of a special event redemption or the purchase contract has been settled early or otherwise terminated, a holder of normal units may settle the related purchase contract with separate cash prior to 5:00 p.m., New York City time, on the thirteenth business day immediately preceding the stock purchase date. A holder of a normal unit wishing to settle the related purchase contract with separate cash must notify the purchase contract agent by presenting and surrendering the normal unit certificate evidencing the normal unit at the offices of the purchase contract agent with the form of **Notice to Settle by Separate Cash** on the reverse side of the certificate completed and executed as indicated on or prior to 5:00 p.m., New York City time, on the thirteenth business day immediately preceding the stock purchase date. If a holder fails to deliver the requisite amount of cash to the collateral agent prior to 5:00 p.m., New York City time, on the thirteenth business day immediately preceding the stock purchase date, such holder will be deemed to have elected to participate in the remarketing and, if the remarketing fails, directed us to retain the related ownership interests in the senior note in full satisfaction of the holder's obligation to purchase ordinary shares under the related purchase contract.

Early Settlement upon Cash Merger

Prior to the stock purchase date, if we are involved in a merger, acquisition or consolidation in which at least 30% of the consideration for our ordinary shares consists of cash or cash equivalents (**cash merger**), then on or after the date of the cash merger each holder of the units will have the right to accelerate and settle the related purchase contract at the settlement rate in effect immediately before the date of consummation of the cash merger. This right is referred to as the **merger early settlement right**. We will provide each of the holders with a notice within five business days of the completion of a cash merger. The notice will specify a date, which shall be not less than 20 or more than 30 calendar days after the date of the notice, on which the merger early settlement will occur and a date by which each holder's merger early settlement right must be exercised. The notice will set forth, among other things, the applicable settlement rate and the amount of the cash, securities and other consideration receivable by the holder upon settlement. To exercise the merger early settlement right, you must deliver to the purchase contract agent, on or before 5:00 p.m., New York City time, on the day specified in the notice, the certificate evidencing your units, if the units are held in certificated form, and payment of the applicable purchase price in the form of a certified or cashier's check. If you exercise the merger early settlement right, we will deliver to you on the date specified in the notice as the merger early settlement date the kind and amount of securities, cash or other property that you would have been entitled to receive if the purchase contract had been settled immediately before the cash merger at the settlement rate in effect at such time. You will also receive the senior notes or treasury securities underlying those units. If you do not elect to exercise your merger early settlement right, your units will remain outstanding and continue to be subject to normal settlement on the stock purchase date.

Anti-dilution Adjustments

The formula for determining the settlement rate and the number of ordinary shares to be delivered upon an early settlement will be adjusted, without duplication, if the following events occur:

S-40

- (1) the payment of a dividend or other distributions to all holders of our ordinary shares payable exclusively in ordinary shares;
- (2) the issuance to all holders of the ordinary shares of rights, options or warrants, entitling them to subscribe for or purchase our ordinary shares at less than the current market price (as defined below); *provided* that no adjustment will be made if holders of units may participate

Edgar Filing: XL CAPITAL LTD - Form 424B5

- in the transaction on a basis and with notice that our board of directors determines to be fair and appropriate;
- (3) subdivisions, splits or combinations of our ordinary shares;
 - (4) distributions to all holders of ordinary shares of evidences of indebtedness, shares of capital stock, securities, cash or other assets (excluding any dividend or distribution covered by clause (1) or (2) above); *provided* that no adjustment will be made if all holders of units may participate in the transactions;
 - (5) the successful completion of a tender or exchange offer made by XL Capital or one of its subsidiaries for the ordinary shares that involves an aggregate consideration that, when combined with (a) any cash and the fair market value of other consideration payable in respect of any other tender or exchange offer (other than consideration payable in respect of any odd-lot tender offer) by XL Capital or one of its subsidiaries for its ordinary shares concluded within the preceding 12 months and (b) the aggregate amount of any all-cash distributions (other than regular quarterly, semi-annual or annual cash dividends) to all holders of ordinary shares made within the preceding 12 months, exceeds 12.5% of our aggregate market capitalization on the date of expiration of such tender or exchange offer; and
 - (6) regular quarterly, semi-annual or annual cash dividends or any other distributions by us or any of our subsidiaries consisting exclusively of cash to all holders of our ordinary shares, excluding any cash dividend on our ordinary shares to the extent that the aggregate cash dividend per ordinary share in any quarter does not exceed \$0.49 (the dividend threshold amount) (the dividend threshold amount is subject to adjustment in the same proportion as the settlement rate, provided that no adjustment will be made to the dividend threshold amount for any adjustment made to the settlement rate pursuant to this clause (6)).

There shall not be any adjustment to the formula for determining the settlement rate as a result of:

- the issuance of rights;
- the distribution of separate certificates representing rights;
- the exercise of redemption of rights in accordance with any rights agreement; or
- the termination or invalidation of rights;

in each case, pursuant to our Rights Plan dated as of September 1998 incorporated by reference as an exhibit to our Annual Report on Form 10-K for the year ended December 31, 2003 which is incorporated herein by reference or any other rights plan of XL Capital. To the extent that we have a rights plan in effect upon settlement of a purchase contract (including our rights plan dated as of September 1998), you will receive, in addition to the ordinary shares, the rights under the rights plan unless, prior to any settlement of a purchase contract, the rights have separated from the ordinary shares, in which case the settlement rate will be adjusted at the time of separation as if we made a distribution to all holders of our ordinary shares as described in clause (4) above, subject to readjustment in the event of the expiration, termination or redemption of the rights.

The formula for determining the settlement rate will not be adjusted:

- upon the issuance of any ordinary shares pursuant to any present or future plan providing for the reinvestment of dividends or interest payable on securities of XL Capital and the investment of additional optional amounts in ordinary shares under any plan;
- upon the issuance of any ordinary shares or options or rights to purchase those shares pursuant to any present or future employee, director or consultant benefit plan or program of or assumed by XL Capital or any of its subsidiaries; or

S-41

upon the issuance of any ordinary shares pursuant to any option, warrant, right, or exercisable, exchangeable or convertible security outstanding as of the date the units were first issued.

Except as specifically described above, the settlement rate and the number of shares to be delivered on early settlement will not be subject to adjustment in the case of the issuance of any ordinary shares, or securities convertible into or exchangeable for ordinary shares.

Solely as used above, the current market price per ordinary share on any day means the average of the closing price per ordinary share on each of the five consecutive trading days ending on the earlier of the day in question and the day before the ex date with respect to the issuance or distribution requiring such computation. For purposes of this paragraph, the term ex date, when used with respect to any issuance or distribution, means the first date on which the ordinary shares trade without the right to receive the issuance or distribution.

In the case of reclassifications, consolidations, mergers, sales or transfers of assets or other transactions that cause the ordinary shares to be converted into the right to receive other securities, cash or property, each purchase contract then outstanding would, without the consent of the holders of units, become a contract to purchase only the kind and amount of such securities, cash or property instead of ordinary shares. In such event, on the stock purchase date the settlement rate then in effect will be applied to the value on the stock purchase date of the securities, cash or property a holder would have received if it had held the shares covered by the purchase contract when the applicable transaction occurred. Holders have the right to settle their obligations under the purchase contracts early in the event of certain cash mergers as described under Early Settlement upon Cash Merger.

If at any time we make a distribution of property to our ordinary shareholders that would be taxable to the shareholders as a dividend for U.S. federal income tax purposes (that is, distributions, evidences of indebtedness or assets, but generally not stock dividends or rights to subscribe for capital stock), and, pursuant to the settlement rate adjustment provisions of the purchase contract agreement, the settlement rate is increased, that increase may be deemed to be the receipt of taxable income to holders of units. See **Certain Tax Considerations Taxation of Shareholders United States Purchase Contracts Adjustment to Settlement Rate**.

In addition, we may increase the settlement rate if our board of directors deems it advisable to avoid or diminish any income tax to holders of the ordinary shares resulting from any dividend or distribution of shares (or rights to acquire shares) or from any event treated as a dividend or distribution for income tax purposes or for any other reasons.

Adjustments to the settlement rate will be calculated to the nearest 1/10,000th of a share. If an adjustment is not required to be made because it would not increase or decrease the settlement rate by at least one percent, then the adjustment will be carried forward and taken into account in any subsequent adjustment. However, all such adjustments (even if less than 1%) will apply on the stock purchase date.

We will be required, as soon as practicable following the occurrence of an event that requires or permits an adjustment in the settlement rate, to provide written notice to the purchase contract agent of the occurrence of that event. We will also be required to deliver a statement setting forth in reasonable detail the method by which the adjustment to the settlement rate was determined and setting forth the revised settlement rate.

Each adjustment to the settlement rate will result in a corresponding adjustment to the number of ordinary shares issuable upon early settlement of a purchase contract.

Pledged Securities and Pledge Agreement

The ownership interests in the senior notes or treasury securities underlying the units will be pledged to the collateral agent for our benefit. Under the pledge agreement, the pledged securities will secure the obligations of holders of units to purchase ordinary shares under the related purchase contracts. A holder of a unit cannot separate or separately transfer the purchase contract from the pledged securities underlying the unit. Your rights to the pledged securities will be subject to the security interest created by the pledge agreement. You will not be permitted to withdraw the pledged securities related to the units from the pledge arrangement except:

S-42

to substitute specified treasury securities for the related pledged ownership interests in the senior notes or other pledged treasury securities in order to create a stripped unit;

to substitute ownership interests in the senior notes or specified treasury securities for the related pledged treasury securities upon the recreation of a normal unit;

upon delivering the requisite amount of cash when electing not to participate in a remarketing; or

upon the termination or early settlement of the purchase contracts.

Subject to our security interest and the terms of the purchase contract agreement and the pledge agreement:

each holder of normal units that include ownership interests in the senior notes will retain ownership of the interests in the senior notes and will be entitled through the purchase contract agent and the collateral agent to all of the rights of a holder of ownership interests in the senior notes, including interest payments, voting, redemption and repayment rights; and

each holder of units that include treasury securities will retain ownership of the treasury securities.

We will have no interest in the pledged securities other than our security interest.

Quarterly Payments on Pledged Securities

The collateral agent, upon receipt of quarterly payments on the pledged securities underlying the normal units, will distribute those payments to the purchase contract agent, which will, in turn, distribute that amount to persons who were the holders of normal units on the record date for the payment. The record date for any payment will be 15 calendar days before the relevant payment date.

Termination of Purchase Contracts

The purchase contracts, our related rights and obligations and those of the holders of the units, including their rights to receive contract adjustment payments or deferred contract adjustment payments and obligations to purchase ordinary shares, will automatically terminate upon the occurrence of particular events of our bankruptcy, insolvency or reorganization.

Upon such a termination of the purchase contracts, the collateral agent will release the securities held by it to the purchase contract agent for distribution to the holders. If a holder would otherwise have been entitled to receive less than \$1,000 principal amount at maturity of any treasury security upon termination of the purchase contract, the purchase contract agent will dispose of the security for cash and pay the cash to the holder. Upon termination, however, the release and distribution may be subject to a delay. If we become the subject of a case under the U.S. federal bankruptcy code, a delay may occur as a result of the imposition of an automatic stay, if applicable, under the bankruptcy code or other stay and continue until the stay has been lifted. No stay will be lifted unless and until such time as the bankruptcy judge agrees to lift it and allows your collateral to be returned to you.

The Purchase Contract Agreement

Distributions on the units will be payable, purchase contracts will be settled and transfers of the units will be registrable at the office of the purchase contract agent in the Borough of Manhattan, New York City. In addition, if the units do not remain in book-entry only form, payment of distributions on the units may be made, at our option, by check mailed to the address of the persons shown on the unit register on the record date for such payment.

If any quarterly payment date or the stock purchase date is not a business day, then any payment or settlement required to be made on that date will be made on the next business day (and so long as the payment is made on the next day that is a business day, without any interest or other payment on account of any such delay), except that, in the case of a quarterly payment date only, if the next business day is in the next calendar year, the payment will be made on the prior business day with the same force and effect as if made on the payment date.

S-43

If your units are held in certificated form and you fail to surrender the certificate evidencing your units to the purchase contract agent on the stock purchase date, the ordinary shares issuable in settlement of the related purchase contracts will be registered in the name of the purchase contract agent. These shares, together with any distributions on them, will be held by the purchase contract agent as agent for your benefit, until the certificate is presented and surrendered or you provide satisfactory evidence that the certificate has been destroyed, lost or stolen, together with any indemnity that may be required by the purchase contract agent and us.

If your units are held in certificated form and (1) the purchase contracts have terminated prior to the stock purchase date, (2) the related pledged securities have been transferred to the purchase contract agent for distribution to the holders and (3) you fail to surrender the certificate evidencing your units to the purchase contract agent, the pledged securities that would otherwise be delivered to you and any related payments will be held by the purchase contract agent as agent for your benefit, until you present and surrender the certificate or provide the evidence and indemnity described above.

The purchase contract agent will not be required to invest or to pay interest on any amounts held by it before distribution.

No service charge will be made for any registration of transfer or exchange of the units, except for any applicable tax or other governmental charge.

Modification

The purchase contract agreement and the pledge agreement will contain provisions permitting us and the purchase contract agent, and in the case of the pledge agreement, the collateral agent, to modify the purchase contract agreement or the pledge agreement without the consent of the holders for, among other things, the following purposes:

to evidence the succession of another person to our obligations;

to add to the covenants for the benefit of holders or to surrender any of our rights or powers under those agreements so long as such covenants or such surrender do not adversely affect the validity, perfection or priority of the security interests granted or created under the pledge agreement;

to evidence and provide for the acceptance of appointment of a successor purchase contract agent or a successor collateral agent, custodial agent or securities intermediary; or

to cure any ambiguity, to correct or supplement any provisions that may be inconsistent, or to make any other provisions with respect to such matters or questions, provided that such action shall not adversely affect the interest of the holders.

The purchase contract agreement, the pledge agreement and the purchase contracts may be amended or modified with the consent of the holders of a majority of the units at the time outstanding. However, no modification or amendment may, as to any holder of a unit affected thereby, without the consent of such holder:

change any payment date;

change the amount or type of pledged securities required to be pledged to secure obligations under the units, impair the right of the holder of any pledged securities to receive distributions on the pledged securities underlying the units or otherwise materially adversely affect the holder's rights in or to the pledged securities;
reduce any contract adjustment payment or change the place or currency of payment or increase any amounts payable by the holders in respect of the units or decrease any other amounts receivable by holders in respect of the units;
impair the right to institute suit for the enforcement of any purchase contract or the right to receive any contractual adjustment payment;

S-44

reduce the number of ordinary shares purchasable under any purchase contract, increase the price to purchase ordinary shares on settlement of any purchase contract, change the stock purchase date or otherwise materially adversely affect the holder's rights under any purchase contract;
or
reduce the above stated percentage of outstanding purchase contracts the consent of whose holders is required for the modification or amendment of the provisions of the purchase contract agreement, the pledge agreement or the purchase contracts;
provided that if any amendment or proposal referred to above would adversely affect only the normal units or the stripped units, then only the affected class of holders as of the record date for the holders entitled to vote thereon will be entitled to vote on such amendment or proposal.

No Consent to Assumption

Each holder of units, by acceptance of the units, will under the terms of the purchase contract agreement and the units be deemed expressly to have withheld any consent to assumption (i.e., affirmance) of the related purchase contracts by us or our trustee if we become subject to a case under the U.S. bankruptcy code.

Consolidation, Merger, Sale or Conveyance

We will agree in the purchase contract agreement that, so long as the units are outstanding, we will not (1) merge with or into or consolidate with any other entity or (2) transfer, lease or convey all or substantially all of our assets to any other person, or buy all or substantially all the assets of another person, unless:

the successor entity, if not us, is an entity organized and existing under the laws of the United States of America (including any State thereof or the District of Columbia), the United Kingdom, the Cayman Islands, Bermuda or any country which is, on the date of this prospectus supplement, a member of the Organization of Economic Cooperation and Development or the European Union and expressly assumes our obligations under the purchase contract agreement, the pledge agreement, the purchase contracts and the remarketing agreement; and we are not, or the successor entity is not, immediately after such merger, consolidation, transfer, lease or conveyance, in default in the performance of any of our obligations under the purchase contract agreement, the pledge agreement, the purchase contracts or the remarketing agreement.

Title

XL Capital, the purchase contract agent and the collateral agent and any agent of XL Capital, the purchase contract agent and the collateral agent may treat the registered holder of any units as the absolute owner of those units for the purpose of making payment and settling the related purchase contracts and for all other purposes regardless of any notice to the contrary.

Defaults Under the Purchase Contract Agreement

Within 30 days after the occurrence of any default by us in certain of our obligations under the purchase contract agreement or under a purchase contract of which a responsible officer of the purchase contract agent (as defined in the purchase contract agreement) has actual knowledge, the purchase contract agent will give notice of such default to the holders of the units unless such default has been cured or waived.

The purchase contract agent is not required to enforce any of the provisions of the purchase contract agreement against us. Each holder of units shall have the right to institute suit for the enforcement of any payment of contract adjustment payments then due and payable and the right to purchase ordinary shares as provided in such holder's purchase contract and generally exercise any other rights and remedies provided by law.

Governing Law

The purchase contract agreement, the pledge agreement and the purchase contracts will be governed by, and construed in accordance with, the laws of the State of New York.

Book-Entry System

The Depository Trust Company, which we refer to along with its successors in this capacity as the depository, will act as securities depository for the units. The units will be issued only as fully registered securities registered in the name of Cede & Co., the depository's nominee. One or more fully registered global security certificates, representing the total aggregate number of units, will be issued and will be deposited with the depository and will bear a legend regarding the restrictions on exchanges and registration of transfer referred to below.

The laws of some jurisdictions may require that some purchasers of securities take physical delivery of securities in definitive form. These laws may impair the ability to transfer beneficial interests in the units so long as the units are represented by global security certificates.

The depository has advised us that it is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. The depository holds securities that its participants deposit with the depository. The depository also facilitates the settlement among participants of securities transactions, including transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. The depository is owned by a number of its direct participants and by the NYSE, the American Stock Exchange, Inc., and the National Association of Securities Dealers, Inc. Access to the depository's system is also available to others, including securities brokers and dealers, banks and trust companies that clear transactions through or maintain a direct or indirect custodial relationship with a direct participant either directly or indirectly. The rules applicable to the depository and its participants are on file with the Securities and Exchange Commission.

Although the depository has agreed to the foregoing procedure in order to facilitate transfer of interests in the global security certificates among participants, the depository is under no obligation to perform or continue to perform these procedures and these procedures may be discontinued at any time. We will not have any responsibility for the performance by the depository or its direct participants or indirect participants under the rules and procedures governing the depository.

If the depository notifies us that it is unwilling or unable to continue as a depository for the global security certificates and no successor depository has been appointed within 90 days after this notice, or an event of default under the purchase contract agreement or the indenture has occurred and is continuing, certificates for the units will be printed and delivered in exchange for beneficial interests in the global security certificates. Any global senior security that is exchangeable pursuant to the preceding sentence shall be exchangeable for unit certificates registered in the names directed by the depository. We expect that these instructions will be based upon directions received by the depository from its participants with respect to ownership of beneficial interests in the global security certificates.

So long as the depository or its nominee is the registered owner of the global security certificates, the depository or other nominee, as the case may be, will be considered the sole owner and holder of the global security certificates and all units represented by these certificates for all purposes under the units and the purchase contract agreement. Except in the limited circumstances referred to above, owners of beneficial interests in global security certificates will not be entitled to have such global security certificates or the units represented by these certificates registered in their names, will not receive or be entitled to receive physical delivery of unit certificates in exchange for beneficial interests in global security certificates and will not be considered to be owners or holders of the global security certificates or any units represented by these certificates for any purpose under the units or the purchase contract agreement.

All payments on the units represented by the global security certificates and all transfers and deliveries of senior notes, the treasury portfolio, treasury securities and ordinary shares will be made to the depository or its nominee, as the case may be, as the holder of the securities.

Ownership of beneficial interests in the global security certificates will be limited to participants or persons that may hold beneficial interests through institutions that have accounts with the depository or its nominee. Ownership of beneficial interests in global security certificates will be shown only on, and the transfer of those ownership interests will be effected only through, records maintained by the depository or its nominee, with respect to participants' interests, or any participant, with respect to interests of persons held by the participant on their behalf. Procedures for settlement of purchase contracts on May 15, 2007 or upon early settlement will be governed by arrangements among the depository, participants and persons that may hold beneficial interests through participants designed to permit settlement without the physical movement of certificates. Payments, transfers, deliveries, exchanges and other matters relating to beneficial interests in global security certificates may be subject to various policies and procedures adopted by the depository from time to time. Neither we or any of our agents, nor the purchase contract agent or any of its agents, will have any responsibility or liability for any aspect of the depository's or any participant's records relating to, or for payments made on account of, beneficial interests in global security certificates, or for maintaining, supervising or reviewing any of the depository's

records or any participant's records relating to these beneficial ownership interests. In addition, we may at any time and in our sole discretion determine not to have any of the units represented by one or more global securities and in such event we will issue individual units in exchange for the global security or securities representing such units.

The information in this section concerning the depository and its book-entry system has been obtained from sources that we believe to be reliable, but we have not attempted to verify the accuracy of this information.

Replacement of Units Certificates

If physical certificates are issued, we will replace any mutilated certificate at your expense upon surrender of that certificate to the purchase contract agent. We will replace certificates that become destroyed, lost or stolen at your expense upon delivery to us and to the purchase contract agent of satisfactory evidence that the certificate has been destroyed, lost or stolen, together with any indemnity that may be required by the purchase contract agent and us.

We, however, are not required to issue any certificates representing units on or after the fifth business day immediately preceding the earlier of the stock purchase date or the date the purchase contracts terminate. In place of the delivery of a replacement certificate following the stock purchase date, the purchase contract agent, upon delivery of the evidence and indemnity described above, will deliver the ordinary shares issuable pursuant to the purchase contracts included in the units evidenced by the certificate, or, if the purchase contracts have terminated prior to the stock purchase date, transfer the pledged senior notes or the pledged securities related to the units evidenced by the certificate.

Information Concerning the Purchase Contract Agent

U.S. Bank National Association will initially act as purchase contract agent. The purchase contract agent will act as the agent and attorney-in-fact for the holders of units from time to time. The purchase contract agreement will not obligate the purchase contract agent to exercise any discretionary authority in connection with a default under the terms of the purchase contract agreement, the pledge agreement, the purchase contract or the pledged securities.

The purchase contract agreement will contain provisions limiting the liability of the purchase contract agent. The purchase contract agreement will contain provisions under which the purchase contract agent may resign or be replaced. Resignation or replacement of the purchase contract agent would be effective upon the appointment of a successor.

The purchase contract agent and its affiliates are among a number of banks with which we and our subsidiaries and affiliates maintain various banking and trust relationships. U. S. Bank National Association also acts as trustee under the indenture and the supplemental indenture under which the senior notes will be issued.

Information Concerning the Collateral Agent

U.S. Bank Trust National Association will initially act as collateral agent. The collateral agent will act solely as our agent and will not assume any obligation or relationship of agency or trust for or with any of the holders of the

S-47

units except for the obligations owed by a pledgee of property to the owner thereof under the pledge agreement and applicable law.

The pledge agreement will contain provisions limiting the liability of the collateral agent. The pledge agreement will contain provisions under which the collateral agent may resign or be replaced. Resignation or replacement of the collateral agent would be effective upon the appointment of a successor.

The collateral agent and its affiliates are among a number of banks with which we and our subsidiaries and affiliates maintain various banking and trust relationships.

Miscellaneous

Should you elect to create stripped units or recreate normal units, you will be responsible for any fees or expenses payable in connection with the substitution of the applicable pledged securities, as well as any commissions, fees or other expenses incurred in acquiring the pledged securities to be substituted, and we will not be responsible for any of those fees or expenses.

All monies paid by us to a paying agent or a trustee for contract adjustment or interest payments related to any unit which remain unclaimed at the end of two years after such payment has become due and payable will be repaid to us, and the holder of such unit thereafter may look only to us for payment thereof.

S-48

DESCRIPTION OF THE SENIOR NOTES

We will issue the senior notes under an indenture we have entered into and supplemental indenture we will enter into with U. S. Bank National Association, as trustee. A copy of the indenture is on file with the SEC and may be obtained by accessing the internet address provided or contacting us as described under "Where You Can Find More Information" in the accompanying prospectus. The following description is not complete, and is qualified in all respects by reference to the indenture and the supplemental indenture, the form of which will be filed as an exhibit on Form 8-K. You should read the indenture, the supplemental indenture and the associated documents carefully to fully understand the terms of the senior notes. In addition, to the extent that the following description is not consistent with that contained in the accompanying prospectus under "Description of XL Capital Debt Securities," you should rely on this description.

Maturity and Interest

The title of the senior notes will be 2.53% Senior Notes due 2009. The supplemental indenture will provide for \$750.0 million in aggregate principal amount of senior notes to be issued (\$825.0 million in the event the underwriters' over-allotment option is exercised in full). The senior notes will be issued at a price of 100% of the principal amount thereof. The senior notes will mature on May 15, 2009. The senior notes will bear interest from the original issuance date or from the most recent interest payment date on which interest has been paid or duly provided for, as the case may be. The senior notes will initially pay interest at the annual rate of 2.53% quarterly in arrears on each February 15, May 15, August 15 and November 15, commencing on May 15, 2004; *provided, however*, that following the stock purchase date, interest on the senior notes shall be payable semi-annually in arrears on May 15 and November 15 of each year. The relevant record dates will be the 15th calendar day prior to the relevant payment dates. If the senior notes are successfully remarketed, they will pay interest at the reset rate from the settlement date of the successful remarketing until they mature on May 15, 2009. If the remarketing agent cannot establish a reset rate meeting the requirements described under "Description of the Equity Security Units - Remarketing," the remarketing agent will not reset the interest rate on the senior notes and the interest rate will continue to be the initial annual rate of 2.53% until maturity. The senior notes are not redeemable prior to their stated maturity except as described below and will not have the benefit of a sinking fund.

The amount of interest payable for any period will be computed on the basis of a 360-day year consisting of twelve 30-day months. The amount of interest payable for any period shorter than a full quarterly or semi-annual period for which interest is computed will be computed on the basis of the actual number of days elapsed in the 90- or 180-day period, as applicable. In the event that any date on which interest is payable on the senior notes is not a business day, the payment of the interest payable on that date will be made on the next succeeding day that is a business day, without any interest or other payment in respect of the delay, except that if the business day is in the next succeeding calendar year, then the payment will be made on the immediately preceding business day, in each case with the same force and effect as if made on the scheduled payment date.

If a holder has given wire transfer instructions to us at least ten business days prior to the applicable payment date, we will make all payments on such holder's senior notes by wire transfer of immediately available funds to the account specified in those instructions. Otherwise, payments on the senior notes will be made at the office or agency of the paying agent (the "Paying Agent") and registrar (the "Registrar") for the senior notes currently located at 225 Asylum Street, 23rd Floor, Hartford, Connecticut 06103 unless we elect to make interest payments by check mailed to the holders at their addresses set forth in the register of holders. Senior notes may be surrendered for registration of transfer or exchange at the office of the Registrar. In addition, all notices or demands to or upon us in respect of the senior notes and the indenture may be served on us at the office of the Registrar.

There are no provisions in either the indenture or the senior notes that protect the holders in the event that we incur substantial additional indebtedness, whether or not in connection with a change in control.

Our ability to pay interest on the senior notes is dependent on our ability to obtain cash dividends or obtain loans from our subsidiaries. See "Risk Factors." Because we are a holding company and substantially all of our obligations are conducted by our subsidiaries, our obligations under the senior notes and the purchase contracts are effectively subordinated to the obligations of our subsidiaries.

S-49

Remarketing

The senior notes will be remarketed as described under "Description of the Equity Security Units - Remarketing."

Optional Remarketing

Under the purchase contract agreement, on or prior to the fourth business day immediately preceding the first day of the remarketing period but no earlier than the sixteenth business day prior to the stock purchase date, holders of senior notes that are not included as part of normal units may elect to have their senior notes included in the remarketing by delivering their senior notes along with a notice of this election to the collateral agent. The collateral agent will hold such senior notes in an account separate from the collateral account in which the securities pledged to secure the holders' obligations under the purchase contracts will be held. Holders of senior notes that are not included in normal units and that elect to have their notes remarketed will also have the right to withdraw that election on or prior to the fourth business day immediately preceding the first day of the remarketing period. For more information, see Description of the Equity Security Units Optional Remarketing.

Put Option upon a Failed Remarketing

If the senior notes have not been successfully remarketed by the stock purchase date, the holders of senior notes that remain outstanding and that are not subject to our security interest will have the right to put their senior notes to us for an amount equal to the principal amount of the senior notes, plus accrued and unpaid interest, on June 14, 2007 in compliance with the notice requirements set forth in the Remarketing Notice and otherwise in accordance with the procedures set forth in the Remarketing Notice.

Special Event Redemption

If a special event occurs and is continuing, we may, at our option, redeem the senior notes in whole, but not in part, at any time at the redemption price for each senior note referred to below. Installments of interest on senior notes which are due and payable on or prior to a redemption date will be payable to holders of the senior notes registered as such at the close of business on the relevant record dates. If, following the occurrence of a special event, we exercise our option to redeem the senior notes, the proceeds of the redemption will be payable in cash to the holders of the senior notes. If a special event redemption occurs prior to a successful remarketing of the senior notes, the redemption price for the senior notes forming part of normal units at the time of the special event redemption will be distributed to the collateral agent, who in turn will purchase the applicable treasury portfolio described below on behalf of the holders of normal units and remit the remainder of the redemption price, if any, to the purchase contract agent for payment to the holders. The treasury portfolio will be substituted for the redeemed senior notes and will be pledged to the collateral agent to secure the obligations of the holders of the normal units to purchase ordinary shares under the purchase contracts.

Special event means either a redemption accounting event or a tax event.

Redemption accounting event means the receipt, at any time prior to the earlier of the date of any successful remarketing of the senior notes and the stock purchase date, by the audit committee of our Board of Directors of a written report in accordance with Statement on Auditing Standards (SAS) No. 97, Amendment to SAS No. 50 Reports on the Application of Accounting Principles, from our independent auditors, provided at the request of management, to the effect that, as a result of any change in accounting rules or interpretations thereof after the date of this prospectus supplement, we must either (a) account for the purchase contracts as derivatives under SFAS 133 (or any successor accounting standard) or (b) account for the units using the if-converted method under SFAS 128 (or any successor accounting standard), and that such accounting treatment will cease to apply upon redemption of the senior notes.

Tax event means if we determine that, as a result of (1) any change in, or amendment to, the law or treaties (or any regulations or rulings promulgated thereunder) of the Cayman Islands, Bermuda or any other jurisdiction in which we generally become subject to taxation; or (2) any change in position regarding the application, administration or interpretation of such laws, treaties, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction) (each of the foregoing in clauses (1) and (2), a Change in Tax Law), we are, or on the next interest payment date in respect of the senior notes would be, required to pay more than *de minimis* additional

S-50

amounts with respect to the senior notes as described under Payment of Additional Amounts, and such obligation cannot be avoided by taking commercially reasonable measures available to us. The Change in Tax Law must become effective on or after the date of this prospectus supplement. In the case of a successor entity, the Change in Tax Law must become effective after the date that such successor entity first becomes an obligor on the senior notes (unless the Change in Tax Law had already occurred prior to such date, but on or after the date of this prospectus supplement, with respect to the original entity).

If a special event redemption occurs prior to a successful remarketing of the senior notes, the treasury portfolio shall mean a portfolio of zero-coupon U.S. treasury securities consisting of interest or principal strips of U.S. treasury securities that mature on or prior to the stock purchase date in an aggregate amount equal to the aggregate principal amount of the senior notes included in the normal units on the special event redemption date and with respect to each scheduled interest payment date on the senior notes that occurs after the special event redemption date and on or before May 15, 2007, interest or principal strips of U.S. treasury securities that mature on or prior to that interest payment date in

Edgar Filing: XL CAPITAL LTD - Form 424B5

an aggregate amount equal to the aggregate interest payment that would be due on the aggregate principal amount of the senior notes included in the normal units on that date if the interest rate of the senior notes were not reset, on the applicable remarketing date. These treasury securities are non-callable by us. In such case, the treasury portfolio will be purchased on behalf of the holders of normal units.

Solely for purposes of determining the treasury portfolio purchase price in the case of a special event redemption date occurring after either a successful remarketing of the senior notes or the stock purchase date, treasury portfolio shall mean a portfolio of zero-coupon U.S. treasury securities consisting of principal or interest strips of U.S. treasury securities that mature on or prior to May 15, 2009 in an aggregate amount equal to the aggregate principal amount of the senior notes outstanding on the special event redemption date and with respect to each scheduled interest payment date on the senior notes that occurs after the special event redemption date, interest or principal strips of U.S. treasury securities that mature on or prior to that interest payment date in an aggregate amount equal to the aggregate interest payment that would be due on the aggregate principal amount of the senior notes outstanding on the special event redemption date.

Redemption price means for each senior note, whether or not included in a normal unit, the greater of (a) the principal amount of the senior note and (b) the product of the principal amount of the senior note and a fraction the numerator of which is the treasury portfolio purchase price and the denominator of which is, in the case of a special event redemption occurring prior to a successful remarketing of the senior notes, the aggregate principal amount of senior notes included in normal units, and in the case of a tax event redemption occurring after a successful remarketing of the senior notes or after the stock purchase date, the aggregate principal amount of the senior notes.

Treasury portfolio purchase price means the lowest aggregate price quoted by a primary U.S. government securities dealer in New York City to the quotation agent on the third business day immediately preceding the special event redemption date for the purchase of the treasury portfolio for settlement on the special event redemption date.

Quotation agent means Goldman, Sachs & Co. or any of its successors or any other primary U.S. government securities dealer in New York City selected by us.

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the redemption date to each registered holder of senior notes to be redeemed at its registered address (which notice will be irrevocable). Unless we default in payment of the redemption price, on and after the redemption date, interest shall cease to accrue on the senior notes. In the event any senior notes are called for redemption, neither we nor the trustee will be required to register the transfer of or exchange the senior notes to be redeemed during a period beginning at the opening of business 15 days before the day of the mailing of a notice of redemption and ending at the close of business on the day of such mailing. Notwithstanding the foregoing, in case of a tax event redemption, no such notice of redemption will be given (a) earlier than 90 days prior to the earliest date on which the payor would be obliged to make such payment or withholding if a payment in respect of senior notes by it were then due and (b) unless at the time such notice is given, such obligation to pay such additional amounts remains in effect. Prior to the publication or mailing of any notice of redemption of senior notes pursuant to the foregoing, we will deliver to the paying agent (a) an officers certificate stating that we are entitled to effect such redemption and setting forth a statement of facts showing that any

S-51

factual conditions precedent to our right so to redeem have been satisfied and (b) a legal opinion of an outside nationally recognized tax counsel to the effect that the circumstances referred to above (including those under the definition of tax event) exist.

No Defeasance

The defeasance provisions of the indenture described under Description of XL Capital Debt Securities Discharge and Defeasance of the accompanying prospectus shall not apply to the senior notes.

Limitation on Liens on Capital Stock

Under the supplemental indenture, XL Capital will covenant that, so long as any senior notes are outstanding, XL Capital will not, nor will XL Capital permit any designated subsidiary to, create, assume, incur, guarantee or otherwise permit to exist any indebtedness evidenced by notes, debentures, bonds or similar instruments, which is secured by any mortgage, pledge, lien, security interest or other encumbrance upon any shares of capital stock of XL Capital or any designated subsidiary (whether such shares of stock are now owned or hereafter acquired) without effectively providing concurrently that the senior notes will be secured equally and ratably with such indebtedness for at least the time period such other indebtedness is so secured.

The term capital stock of any person means any and all shares, interests, rights to purchase, warrants, options, participations or other equivalents of or interests in (however designated) equity of such person, including preferred stock, but excluding any debt securities convertible into such equity.

The term *designated subsidiary* means any present or future consolidated subsidiary of XL Capital that is a regulated insurance company, the assets of which constitute at least 20% of XL Capital's consolidated assets. As of December 31, 2003, XL Capital's designated subsidiaries consisted of XL Re Ltd and XL Insurance (Bermuda) Ltd.

Additional Events of Default

The Events of Default described in the accompanying prospectus under *Description of XL Capital Debt Securities Events of Default and Notice Thereof* will apply to the senior notes; however (1) with respect to the senior notes, the reference to 60 days in clause (1) of that subsection is 30 days; and (2) the following shall constitute additional Events of Default with respect to the senior notes:

default by us under any instrument or instruments under which there is or may be secured or evidenced any of our indebtedness (other than the senior notes) having an outstanding principal amount of \$50,000,000 (or its equivalent in any other currency or currencies) or more, individually or in the aggregate, that has caused the holders thereof to declare such indebtedness to be due and payable prior to its stated maturity, unless such declaration has been rescinded within 30 days;

default by us in the payment when due of the principal or premium, if any, of any bond, debenture, note or other evidence of our indebtedness, in each case for money borrowed, or in the payment of principal or premium, if any, under any mortgage, indenture, agreement or instrument under which there may be issued or by which there may be secured or evidenced any of our indebtedness for money borrowed, which default for payment of principal or premium, if any, is in an aggregate principal amount exceeding \$50,000,000 (or its equivalent in any other currency or currencies), if such default shall continue unremedied or unwaived for more than 30 days after the expiration of any grace period or extension of the time for payment applicable thereto;

default in the payment of the put price described under *Put Option upon a Failed Remarketing* on any senior notes following the exercise of the put right by any holder of senior notes on the date payment is due; and

default in the payment of any additional amounts with respect to interest on any senior notes (as described below under *Payments of Additional Amounts*), when such amounts become due and payable, and continuance of such default for a period of 30 days, and default in the payment of additional amounts payable with respect to any principal of or premium, if any, on any senior notes, when such additional amounts become due and payable either at maturity, upon any redemption, by declaration of acceleration or otherwise.

S-52

Payment of Additional Amounts

All amounts payable (whether in respect of principal, interest or otherwise) in respect of the senior notes will be made free and clear of and without withholding or deduction for or on account of any present or future taxes, duties, levies, assessments or governmental charges of whatever nature imposed or levied by or on behalf of the Cayman Islands or Bermuda or any political subdivision thereof or any authority or agency therein or thereof having power to tax, unless the withholding or deduction of such taxes, duties, levies, assessments or governmental charges is required by law. In that event, we will pay, or cause to be paid, such additional amounts as may be necessary in order that the net amounts receivable by a holder after such withholding or deduction shall equal the respective amounts that would have been receivable by such holder had no such withholding or deduction been required (*additional amounts*), except that no such additional amounts shall be payable in relation to any payment in respect of any of the senior notes:

to, or to a third party on behalf of, a person who would be able to avoid such withholding or deduction by complying with such person's statutory requirements or by making a declaration of non-residence or similar claim for exemption but, in either case, fails to do so, or is liable for such taxes, duties, levies, assessments or governmental charges in respect of such senior note by reason of his having some connection with (including, without limitation, being a citizen of, being incorporated or engaged in a trade or business in, or having a residence or principal place of business or other presence in) the Cayman Islands or Bermuda, as the case may be, other than (a) the mere holding of such senior note or (b) the receipt of principal, interest, or other amount in respect of such senior note;

presented for payment more than 30 days after the Relevant Date, except to the extent that the relevant holder would have been entitled to such additional amounts on presenting the same for payment on or before the expiry of such period of 30 days;

on account of any inheritance, gift, estate, personal property, sales or transfer or similar taxes, duties, levies, assessments or similar governmental charges; or

on account of any taxes, duties, levies, assessments or governmental charges that are payable otherwise than by withholding from payments in respect of such senior note.

The *Relevant Date* means, in respect of any payment, the date on which such payment first becomes due and payable, but if the full amount of the moneys payable has not been received by the trustee on or prior to such due date, it means the first date on which, the full amount of such moneys having been so received and being available for payment to holders, notice to that effect shall have been duly given to the holders of the senior notes.

If we become subject generally at any time to any taxing jurisdiction other than or in addition to the Cayman Islands or Bermuda, references in this section to the Cayman Islands shall be read and construed as references to such other jurisdiction(s) and/or to the Cayman Islands.

Form and Denomination

We will issue the senior notes that are released from the pledge following substitution or early settlement in the form of a global security registered in the name of Cede & Co., as nominee of DTC. For a discussion of global securities, see Description of XL Capital Debt Securities Global Securities; Book-Entry System in the accompanying prospectus. The senior notes will be issued in denominations of \$1,000 and integral multiples thereof.

S-53

ACCOUNTING TREATMENT

General

The proceeds from the sale of the units will be allocated between the purchase contracts and the senior notes based on the fair value of each at the date of the offering. We expect the fair value of each purchase contract to be \$0.

We will recognize the present value of the quarterly purchase contract adjustment payments as a liability with an offsetting reduction in shareholders' equity. The quarterly purchase contract adjustment payments will be allocated between the liability recognized at the date of issuance and interest expense based on a constant rate calculation over the term of the purchase contract.

The quarterly and, after a successful remarketing, semi-annual interest payments on the senior notes will be recognized as interest expense.

The purchase contracts are forward transactions in our ordinary shares. Upon settlement of a purchase contract, we will receive \$25 on that purchase contract and will issue the requisite number of ordinary shares. The \$25 we receive will be credited to shareholders' equity and allocated between our ordinary shares and additional paid in capital.

Fees and expenses incurred in connection with this offering will be allocated between the senior notes and the purchase contracts. The amount allocated to the senior notes will be deferred and recognized as interest expense over the term of the senior notes. The amount allocated to the purchase contracts will be charged to shareholders' equity.

Earnings per Share

Before the settlement of the purchase contracts, we will consider the ordinary shares to be issued under the purchase contracts in our calculation of diluted earnings per share using the treasury stock method. Under this method, we will increase the number of ordinary shares used in calculating diluted earnings per share by the excess, if any, of the number of ordinary shares we would be required to issue to settle the purchase contracts over the number of ordinary shares that we could purchase using the proceeds from the settlement of the purchase contracts. We anticipate that there will be no dilution of our earnings per share except during the periods when the average price of our ordinary shares is above \$93.99 per share.

Other Matters

Both the Financial Accounting Standards Board and its Emerging Issues Task Force continue to study the accounting for financial instruments and derivative instruments, including instruments such as the units. It is possible that our accounting for the purchase contracts and the senior notes could be affected by any new accounting rules that might be issued by these groups or others or in the event of any other change in any law or regulation or any accounting rule, pronouncement or interpretation. See Description of the Equity Security Units Fixed Settlement Rate Option Upon Accounting Event and Description of the Senior Notes Special Event Redemption.

S-54

CERTAIN TAX CONSIDERATIONS

The following summary of the taxation of XL Capital and its Bermuda insurance subsidiaries (collectively XL) and the taxation of shareholders of XL Capital is based upon current law and is for general information only. Legislative, judicial or administrative changes may be forthcoming that could affect this summary.

The foregoing discussion (including and subject to the matters and qualifications set forth in such summary) of certain tax considerations (i) under Taxation of XL Capital and XL Cayman Islands and Taxation of Shareholders Cayman Islands is based upon the advice of Cayman Islands legal counsel, (ii) under Taxation of XL Capital and XL Bermuda is based upon the advice of Bermuda legal counsel and (iii) under Taxation of

XL Capital and XL United States and Taxation of Shareholders United States is based upon the advice of Cahill Gordon & Reindel LLP, New York, New York (the advice of such firms does not include any factual or accounting matters, determinations or conclusions such as RPII amounts and computations and amounts of components thereof (for example, amounts or computations of income or expense items or reserves entering into RPII computations) or facts relating to XL Capital's business or activities). The summary is based upon current law and is for general information only.

The tax treatment of a holder of units, or of a person treated as a holder of units for U.S. federal income, state, local or non-U.S. tax purposes, may vary depending on the holder's particular tax situation. Legislative, judicial or administrative changes or interpretations may be forthcoming that could be retroactive and could affect the tax consequences to holders of units. PROSPECTIVE INVESTORS SHOULD CONSULT THEIR OWN TAX ADVISORS CONCERNING THE FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSEQUENCES OF OWNING THE UNITS.

Taxation of XL Capital and XL

Cayman Islands

Under current Cayman Islands law, XL Capital is not obligated to pay any taxes in the Cayman Islands on its income or gains. XL Capital has received an undertaking from the Governor-in-Council of the Cayman Islands pursuant to the provisions of the Tax Concessions Law, as amended, that until June 2, 2018, (i) no subsequently enacted law imposing any tax on profits, income, gains or appreciation shall apply to XL Capital and (ii) no such tax and no tax in the nature of an estate duty or an inheritance tax shall be payable on any shares, debentures or other obligations of XL Capital. Under current law no tax will be payable on the transfer or other disposition of the shares of XL Capital. The Cayman Islands currently impose stamp duties on certain categories of documents; however, the current operations of XL Capital do not involve the payment of stamp duties in any material amount. The Cayman Islands currently impose an annual corporate fee upon all exempted companies incorporated in the Cayman Islands.

Bermuda

XL has received from the Ministry of Finance in Bermuda exemptions from any Bermuda taxes which might be imposed on profits, income or any capital asset, gain or appreciation, until March 28, 2016. The exemptions are subject to the proviso that they are not construed so as to prevent the application of any tax or duty to such persons as are ordinarily resident in Bermuda (XL Capital and XL are not so currently designated) and to prevent the application of any tax payable in accordance with the provisions of The Land Tax Act 1967 or otherwise payable in relation to the land leased to XL. XL Capital, as a permit company under The Companies Act 1981 of Bermuda, has received similar exemptions which are effective until March 28, 2016. Both XL Capital and XL are required to pay certain annual Bermuda government fees and XL, additionally, is required to pay certain business fees as an insurer under The Insurance Act 1978 of Bermuda. Currently there is no Bermuda withholding tax on dividends paid by XL to XL Capital.

United States

XL Capital and XL intend to take the position that they are not engaged in a trade or business within the United States through a permanent establishment in the United States. However, because definitive identification of activities which constitute being engaged in a trade or business in the United States is not provided by the Internal Revenue

S-55

Code (the Code) or regulations or court decisions, there can be no assurance that the Internal Revenue Service (IRS) will not contend successfully that XL Capital or XL is or will be engaged in a trade or business in the United States. A foreign corporation deemed to be so engaged would be subject to U.S. income tax, as well as the branch profits tax, on its income which is treated as effectively connected with the conduct of that trade or business unless the corporation is entitled to relief under the permanent establishment provision of a tax treaty, as discussed below. Such income tax, if imposed, would be based on effectively connected income computed in a manner generally analogous to that applied to the income of a domestic corporation. Under regulations, the foreign corporation would be entitled to deductions and credits only if the return is filed timely under rules set forth therein. Penalties may be assessed for failure to file tax returns. The 30% branch profits tax is imposed on net income after subtracting the regular corporate income taxes and making certain other adjustments.

Under the income tax treaty between Bermuda and the United States (the Treaty), XL is subject to U.S. income tax on any income found to be effectively connected with a U.S. trade or business only if that trade or business is conducted through a permanent establishment in the United States. No regulations interpreting the Treaty have been issued. While there can be no assurances, XL Capital does not believe XL has a permanent establishment in the United States. XL would not be entitled to the benefits of the Treaty if (i) 50% or less of XL's stock were beneficially owned, directly or indirectly, by Bermuda residents or U.S. citizens or residents, or (ii) XL's income were used in substantial part to make disproportionate distributions to, or to meet certain liabilities to, persons who are not Bermuda residents or U.S. citizens or residents.

While there can be no assurances, XL Capital believes that XL will be eligible for Treaty benefits after the sale of units offered hereby.

Foreign corporations not engaged in a trade or business in the United States are nonetheless subject to U.S. income tax on certain fixed or determinable annual or periodic gains, profits and income derived from sources within the United States as enumerated in section 881(a) of the Code (such as dividends and certain interest on investments). Such tax generally is imposed by withholding at a 30% rate. The Treaty does not provide for a reduction in such withholding tax rate.

The United States also imposes an excise tax on insurance and reinsurance premiums paid to foreign insurers or reinsurers with respect to risks located in the United States. The rates of tax applicable to premiums paid to XL are 4% for casualty insurance premiums and 1% for reinsurance premiums. Although payment of the tax generally is the responsibility of the person that pays the premium to the foreign insurer or reinsurer, in the event that the tax is not paid by the purchaser of the insurance or reinsurance, the foreign insurer or reinsurer generally is liable for the tax. In addition, the IRS has taken the position that when a foreign insurer or reinsurer cedes United States risks to a foreign insurer that is not eligible for the excise tax exemption under an applicable treaty an additional excise tax may be imposed.

Taxation of Shareholders

Cayman Islands

Payments by XL Capital to holders of units are not subject to Cayman Islands withholding tax.

United States

The following is a discussion of the material U.S. federal income tax consequences of the purchase, ownership and disposition of the units, the ownership interests in the senior notes, treasury securities and purchase contracts that are or may be the components of a unit, and the ordinary shares acquired under a purchase contract. Except where otherwise indicated, this discussion only applies to U.S. holders (defined below) who purchase units in the initial offering at their original offering price and hold the units, the ownership interests in senior notes, treasury securities, purchase contracts and the ordinary shares as capital assets (generally, assets held for investment). This discussion is based upon the Internal Revenue Code of 1986, as amended (the Code), treasury regulations (including proposed treasury regulations) issued thereunder, Internal Revenue Service (IRS) rulings and pronouncements and judicial decisions now in effect, all of which are subject to change, possibly with retroactive effect.

S-56

This discussion does not address all aspects of U.S. federal income taxation that may be relevant to U.S. holders in light of their particular circumstances, such as U.S. holders who are subject to special tax treatment (for example, (1) financial institutions, regulated investment companies, real estate investment trusts, insurance companies, dealers in securities or currencies, tax-exempt organizations, partnerships or other pass-thru entities or traders in securities who elect to mark to market their securities, (2) persons holding units, senior notes or the ordinary shares as part of a straddle, hedge, conversion transaction or other integrated investment, or (3) persons whose functional currency is not the U.S. dollar). In addition, this discussion does not address alternative minimum taxes or any state, local or foreign tax laws. We do not address any of the tax consequences to a holder that is a non-U.S. holder (as defined below).

If a partnership holds the units, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding units, you should consult your tax advisor.

For purposes of this discussion, U.S. holder means a holder who is, for U.S. federal income tax purposes, (1) a citizen or resident of the United States, (2) a domestic corporation, (3) an estate whose income is subject to U.S. federal income tax regardless of its source, or (4) a trust if a United States court is able to exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust. A non-U.S. holder means a holder (other than a partnership) that is not a U.S. holder. **Prospective investors that are non-U.S. holders are urged to consult their own tax advisors with respect to the U.S. federal income tax consequences of an investment in units.**

Risk of Recharacterization

Other than one published revenue ruling that addresses the treatment of instruments similar to the units, there is no statutory, administrative or judicial authority that directly addresses the treatment of the units or instruments similar to the units for U.S. federal income tax purposes. As a result, no assurance can be given that the IRS or a court will agree with the tax consequences described below. The discussion below assumes that, for U.S. federal income tax purposes, (i) the senior notes and the purchase contracts will be treated as separate securities, (ii) the purchase contracts will be treated as forward contracts to purchase ordinary shares and the contract adjustment payments will be treated as payments to U.S. holders for investing in such contracts and (iii) the senior notes will be treated as indebtedness of XL Capital. Nevertheless, the IRS could

assert a different position with respect to one or more of the foregoing points, and were such position to prevail, a U.S. holder could experience tax consequences that are materially different from those described herein. A different treatment from that described below could adversely affect the amount, timing and character of income, gain or loss in respect of an investment in the units. **Prospective investors are urged to consult their own tax advisors with respect to the U.S. federal income tax consequences of the purchase, ownership and disposition of units, the ownership interests in senior notes and the ordinary shares acquired under a purchase contract in light of their own particular circumstances, as well as the effect of any state, local or foreign tax laws.**

Units

Allocation of Purchase Price. A U.S. holder's acquisition of a normal unit will be treated as the acquisition of a unit consisting of two components, an ownership interest in the senior note and the related purchase contract. The purchase price of each unit will be allocated between the ownership interest in the senior note and the purchase contract constituting the unit, in proportion to their respective fair market values at the time of purchase. Such allocation will establish the U.S. holder's initial tax basis in the ownership interest in the senior note and the purchase contract. We expect to report the fair market value of each senior note as \$1,000 (or \$25 for each 2.5% ownership interest in a senior note) and the fair market value of each purchase contract as \$0.00. This allocation will be binding on each U.S. holder (but not on the IRS) unless such U.S. holder explicitly discloses a contrary position on a statement attached to the U.S. holder's timely filed U.S. federal income tax return for the taxable year in which a unit is acquired. Thus, absent such disclosure, a U.S. holder should allocate the purchase price for a unit in accordance with the values reported by us. The remainder of this discussion assumes that this allocation of the purchase price of a unit will be respected for U.S. federal income tax purposes. If these allocations are not respected ultimately, the timing and amount of income, gain or loss reported by the U.S. holders could be impacted.

S-57

Ownership of Senior Notes or Treasury Securities. For U.S. federal income tax purposes, a U.S. holder will be treated as owning the applicable ownership interest in the senior notes or treasury securities constituting a part of the units owned. We (under the terms of the units) and each U.S. holder (by acquiring units) agree to treat the ownership interests in the senior notes or treasury securities constituting a part of the units as owned by such U.S. holder for all tax purposes, and the remainder of this discussion assumes such treatment. The U.S. federal income tax consequences of owning ownership interests in the senior notes or treasury securities are discussed below (see *Senior Notes*, *Stripped Units* and *Treasury Securities Purchased on a Special Event Redemption*).

Sales, Exchanges or Other Taxable Dispositions of Units. If a U.S. holder sells, exchanges or otherwise disposes of units in a taxable disposition, such U.S. holder will be treated as having sold, exchanged or disposed of each of the purchase contract and the ownership interest in the senior note (or treasury securities) that constitute such unit. The proceeds realized on such disposition will be allocated between the purchase contract and the ownership interest in the senior note (or treasury securities) in proportion to their respective fair market values. As a result, as to each of the purchase contract and the senior note (or treasury securities), a U.S. holder generally will recognize gain or loss equal to the difference between the portion of the proceeds received by such U.S. holder that is allocable to the purchase contract and the ownership interest in the senior note (or treasury securities) (other than amounts attributable to accrued, but unpaid, interest on the senior note (or treasury securities) not previously included in income which shall be treated as ordinary income) and such U.S. holder's adjusted tax basis in the purchase contract and the ownership interest in the senior note (or treasury securities). To the extent you are treated as recognizing an amount with respect to accrued contract adjustment payments, such amounts may be treated as ordinary income to the extent not previously included in income. Alternatively, contract adjustment payments that you did not previously include in income could either reduce your tax basis in the purchase contract or result in an increase in the amount realized on the disposition of the purchase contract. In addition, amounts representing accrued acquisition discount in a treasury security will be treated as ordinary income. See *Purchase Contracts*, *Contract Adjustment Payments* and *Deferred Contract Adjustment Payments* below.

Such gain or loss generally will be capital gain or loss and generally will be long-term capital gain or loss if the U.S. holder held the ownership interest in the senior note (or treasury securities) or the purchase contract for more than one year immediately prior to such disposition. Long-term capital gains of individuals are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

If the sale, exchange or other disposition of a unit occurs when the purchase contract has a negative value, a U.S. holder should be considered to have received additional consideration for the ownership interest in the senior note (or treasury securities) in an amount equal to such negative value and to have paid such amount to be released from such U.S. holder's obligations under the related purchase contract. U.S. holders should consult their tax advisors regarding a disposition of a unit at a time when the purchase contract has a negative value.

Senior Notes

Classification of the Senior Notes. We believe that the senior notes will be classified as indebtedness of XL Capital for U.S. federal income tax purposes. We (under the terms of the senior notes) and each U.S. holder (by acquiring an ownership interest in the senior notes) agree, for U.S. federal income tax purposes, to treat the senior notes as indebtedness of XL Capital for all tax purposes. The remainder of this discussion assumes such treatment.

Accrual of Interest. XL Capital intends to take the position that, except as set forth below, interest on a senior note will constitute qualified stated interest and generally will be taxable to you as ordinary income at the time it is paid or accrued in accordance with your method of accounting for tax purposes.

Because of the manner in which the rate on the senior notes is reset, the senior notes may be deemed to be issued with original issue discount (OID) in an amount equal to the difference between the value at which the senior notes are reset (100.25% of their stated principal amount) and their issue price (the stated principal amount of the senior notes). Such OID should be treated as de minimis OID. Consequently, the senior notes generally should be treated as having zero OID for U.S. federal income tax purposes. You should consult your own tax advisor regarding the existence and accrual of any OID on the senior notes.

S-58

Tax Basis in Senior Notes. A U.S. holder's tax basis in the ownership interest in the senior notes will equal the portion of the purchase price for the units allocated to the ownership interests in the senior notes as described above (see Units Allocation of Purchase Price).

Sales, Exchanges, Remarketing or Other Taxable Dispositions of Senior Notes. A U.S. holder will recognize gain or loss on the disposition of ownership interests in the senior notes (including upon a special event redemption or upon the remarketing of the senior notes) in an amount equal to the difference between the amount realized by such U.S. holder on the disposition of the ownership interests in the senior notes and such U.S. holder's adjusted tax basis in such ownership interests. Selling expenses incurred by such U.S. holder, including the remarketing fee, will reduce the amount of gain or increase the amount of loss recognized by such U.S. holder upon a disposition of the ownership interests in the senior notes. Such gain or loss will generally be capital gain or loss and will be long-term capital gain or loss if a U.S. holder has held its ownership interests in the senior notes for more than a year. Long-term capital gains of individuals are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

Purchase Contracts

Acquisition of Our Ordinary Shares Under a Purchase Contract. A U.S. holder generally will not recognize gain or loss on the purchase of our ordinary shares under a purchase contract, except with respect to any cash paid to a U.S. holder in lieu of a fractional share of the ordinary shares, which should be treated as paid in exchange for such fractional share. A U.S. holder's aggregate initial tax basis in the ordinary shares acquired under a purchase contract should generally equal the purchase price paid for such ordinary shares, plus the properly allocable portion of such U.S. holder's adjusted tax basis (if any) in the purchase contract (see Units Allocation of Purchase Price), less the portion of such purchase price and adjusted tax basis allocable to the fractional share. The holding period for the ordinary shares acquired under a purchase contract will commence on the day following the acquisition of such ordinary shares.

Early Settlement of Purchase Contract. The purchase of our ordinary shares upon early settlement of a purchase contract will be treated as described above (see Purchase Contracts Acquisition of Our Ordinary Shares Under a Purchase Contract). A U.S. holder of units will not recognize gain or loss on the return of such U.S. holder's proportionate share of ownership interests in the senior notes or treasury securities upon early settlement of a purchase contract and will have the same adjusted tax basis and holding period in such senior notes or treasury securities as before such early settlement.

Termination of Purchase Contract. If a purchase contract terminates, a U.S. holder of units generally will recognize capital gain or loss equal to the difference between the amount realized, if any, upon such termination and such U.S. holder's adjusted tax basis (if any) in the purchase contract at the time of such termination. Such loss generally will be long-term capital loss if the U.S. holder held the purchase contract for more than one year prior to such termination. The deductibility of capital losses is subject to limitations. Contract adjustment payments received by you, but not includible in income, should either reduce your basis in the purchase contract or result in an increase the amount realized on the termination of the purchase contract. A U.S. holder will not recognize gain or loss on the return of such U.S. holder's proportionate share of ownership interests in the senior notes (or treasury securities) upon termination of the purchase contract and such U.S. holder will have the same adjusted tax basis and holding period in such ownership interests in the senior notes (or treasury securities) as before such termination.

Adjustment to Settlement Rate. A U.S. holder of units might be treated as receiving a constructive dividend distribution from us if (1) the settlement rate is adjusted and as a result of such adjustment such U.S. holder's proportionate interest in our assets or earnings and profits is increased and (2) the adjustment is not made pursuant to a bona fide, reasonable anti-dilution formula. An adjustment in the settlement rate would not be considered made pursuant to such a formula if the adjustment were made to compensate a U.S. holder for certain taxable distributions with respect to our ordinary shares (including, without limitation, adjustments in respect of taxable dividends to holders of our ordinary shares). Thus, under certain circumstances, an increase in the settlement rate might give rise to a taxable dividend to a U.S. holder of units even though such U.S. holder would not receive any cash related thereto. In addition, in certain situations, you might be treated as receiving a constructive distribution if we fail to adjust the settlement rate.

S-59

Contract Adjustment Payments and Deferred Contract Adjustment Payments. There is no direct authority addressing the treatment of the contract adjustment payments or deferred contract adjustment payments, and their treatment is unclear. Contract adjustment payments and deferred contract adjustment payments may constitute taxable ordinary income to a U.S. holder when received or accrued, in accordance with such U.S. holder's regular method of tax accounting. To the extent we are required to file information returns with respect to the contract adjustment payments or deferred contract adjustment payments, we intend to report such payments as taxable ordinary income to U.S. holders. U.S. holders should consult their tax advisors concerning the treatment of contract adjustment payments and deferred contract adjustment payments, including the possibility that any contract adjustment payment or deferred contract adjustment payment may be treated as a loan, purchase price adjustment, rebate or payment analogous to an option premium rather than being includable in income on a current basis.

The treatment of contract adjustment payments and deferred contract adjustment payments could affect a U.S. holder's adjusted tax basis in a purchase contract or our ordinary shares received under a purchase contract or the amount realized by a U.S. holder upon the sale or disposition of a unit or the termination of a purchase contract. (See Units Sales, Exchanges or Other Taxable Dispositions of Units and Termination of Purchase Contract.)

Taxation of U.S. Holders of Ordinary Shares

Dividends. Dividends paid by XL Capital to U.S. corporate shareholders will not be eligible for the dividends received deduction provided by section 243 of the Code. Unless we are a passive foreign investment company, if you are an individual, dividends, if any, paid to you in taxable years beginning before January 1, 2009, that constitute qualified dividend income generally will be taxable at a maximum rate of 15%, provided you meet certain holding period requirements. Dividends paid, if any, with respect to the ordinary shares generally will be qualified dividend income, provided the ordinary shares are readily tradable on an established securities market in the United States in the year in which you receive the dividend and certain other conditions are satisfied. United States Treasury Department guidance indicates that our ordinary shares, which are listed on the New York Stock Exchange, are readily tradable on an established securities market in the United States. There can be no assurance that our ordinary shares will be considered readily tradable on an established securities market in any future year. Individuals that do not meet a minimum holding period requirement during which they are not protected from the risk of loss or that elect to treat the dividend income as investment income pursuant to section 163(d)(4) of the Code will not be eligible for the reduced rates of taxation regardless of our status as a qualified foreign corporation. In addition, the rate reduction will not apply to dividends if the recipient of a dividend is obligated to make related payments with respect to positions in substantially similar or related property. This disallowance applies even if the minimum holding period has been met. Dividends paid, if any, in taxable years beginning on or after January 1, 2009, will be taxed at then applicable ordinary income rates. The amount of any distribution in excess of our current and accumulated earnings and profits will first be applied to reduce your tax basis in the ordinary shares, and any amount in excess of tax basis will be treated as gain from the sale or exchange of your ordinary shares.

Ownership and Dispositions of Ordinary Shares

Classification as a Controlled Foreign Corporation. Under section 951(a) of the Code, each United States shareholder of a controlled foreign corporation (CFC) must include in its gross income for United States federal income tax purposes its pro rata share of the CFC's subpart F income (which includes foreign insurance income and certain types of passive income), even if the subpart F income is not distributed. Under Code section 951(b), any U.S. corporation, citizen, resident or other U.S. person who owns, directly or indirectly through foreign persons, or is considered to own (by application of the rules of constructive ownership set forth in Code section 958(b), generally applying to family members, partnerships, estates, trusts or controlled corporations) 10% or more of the total combined voting power of all classes of stock of the foreign corporation will be considered to be a United States shareholder. In general, a foreign corporation is treated as a CFC only if such United States shareholders collectively own more than 50% (more than 25% for certain insurance companies) of the total combined voting power or total value of the corporation's stock for an uninterrupted period of 30 days or more during any tax year. Ownership of the units by a U.S. person may cause such person to be treated for U.S. federal income tax purposes as the owner of our ordinary shares prior to the purchase contract settlement date. The application of the CFC constructive ownership rules are not clear in the context of securities similar to the units. U.S. holders are urged to consult their tax advisors with respect to the application of the CFC constructive ownership rules to the units. In any case, we believe that because of the wide

S-60

dispersion of our share ownership and the restrictions incorporated in our Articles of Association, we are not a CFC under the foregoing general rules.

Related Person Insurance Income. Different definitions of United States shareholder and controlled foreign corporation are applicable in the case of a foreign corporation which earns related person insurance income (RPII). RPII is defined as any insurance income (as defined in the Code) attributable to policies of insurance or reinsurance with respect to which the person (directly or indirectly) insured is a United States shareholder or a related person to such a shareholder.

Edgar Filing: XL CAPITAL LTD - Form 424B5

RPII Exceptions. The special RPII rules do not apply if (A) direct and indirect insureds and persons related to such insureds, whether or not U.S. persons, are treated as owning less than 20% of the voting power and less than 20% of the value of the stock of XL Capital and any of its non-U.S. insurance subsidiaries, (B) the RPII of each of our non-U.S. insurance subsidiaries, determined on a gross basis, is less than 20% of such subsidiary's gross insurance income for the taxable year, (C) our non-U.S. insurance subsidiaries elect to be taxed on their RPII as if the RPII were effectively connected with the conduct of a United States trade or business, or (D) our non-U.S. insurance subsidiaries elect to be treated as a United States corporation. Where none of these exceptions applies, each United States person owning or treated as owning stock of XL Capital or of any of our non-U.S. insurance subsidiaries on the last day of our fiscal year will be required to include in its gross income for United States federal income tax purposes its share of the RPII for the entire taxable year, determined as if all such RPII were distributed proportionately only to such United States shareholders at that date, but limited by such subsidiary's current-year earnings and profits and by the U.S. shareholder's share, if any, of prior-year deficits in earnings and profits. We believe that currently the direct or indirect insureds (and related persons) of our non-U.S. insurance subsidiaries do not, and in the future will not, directly or indirectly own 20% or more of either the voting power or value of our stock or that of any of our non-U.S. insurance subsidiaries and we believe that currently the gross RPII of each of our non-U.S. insurance subsidiaries does not, and in the future will not, equal or exceed 20% of such subsidiary's gross insurance income in any taxable year for the foreseeable future. Consequently, XL Capital does not expect any U.S. person owning ordinary shares to be required to include in gross income for U.S. federal income purposes RPII income. However, as discussed below, there is limited guidance regarding the RPII provisions and the related Treasury regulations are in proposed form. Accordingly, there is uncertainty with respect to the meaning and application of the RPII provisions and there is a possibility that future guidance could have retroactive effect.

General. Gross and net RPII and gross insurance income have been computed by us on an unconsolidated basis, without reference to the income of our investment subsidiaries. We believe, based on the advice of counsel, that the exclusion of the investment subsidiaries' income is consistent with both existing and proposed Treasury regulations under section 953 of the Code. However, there can be no assurance that the IRS may not, by rule, regulation, interpretation or otherwise, require a portion or all of the income of such subsidiaries to be treated as includable in our insurance income or that a court might not uphold such action by the IRS.

Generally, the term "related person" for RPII purposes means someone who controls or is controlled by the U.S. shareholder or someone who is controlled by the same person or persons which control the U.S. shareholder. Control is measured by either more than 50% in value or more than 50% in voting power of stock applying constructive ownership principles similar to the rules of section 958 of the Code. For purposes of inclusion of our RPII in the income of United States shareholders, unless an exception applies, the term "United States shareholder" includes all U.S. persons who beneficially own any amount (rather than 10% or more) of our stock or the stock of any of our non-U.S. insurance subsidiaries. Each non-U.S. insurance subsidiary will be treated as a CFC for RPII purposes if such persons are treated as owning 25% or more of our stock or the stock of such non-U.S. insurance subsidiary.

In determining our "United States shareholders," for purposes of including RPII, stock in us held indirectly by U.S. persons is treated as held by United States shareholders, but the constructive ownership rules of section 958(b) of the Code do not apply. Accordingly, U.S. persons holding options to subscribe for unissued shares in us are not treated as "United States shareholders."

Computation of RPII. In order to determine how much RPII we or any of our non-U.S. insurance subsidiaries has earned in each fiscal year, we may obtain and rely upon information from our insureds to determine whether any

S-61

of the insureds or persons related to such insureds own shares in us and are U.S. persons. For any year in which we believe neither of the exceptions described in (a) or (b) above is met, we may also seek information from our shareholders as to whether beneficial owners of ordinary shares at the end of the year are United States persons so that the RPII may be determined and apportioned among such persons; to the extent we are unable to determine whether a beneficial owner of shares is a U.S. person we may assume that such owner is not a U.S. person, thereby increasing the per share RPII amount for all U.S. shareholders.

If, as believed, RPII is less than 20% of our gross insurance income and the gross income of each of our non-U.S. insurance subsidiaries, U.S. shareholders will not be required to include RPII in their taxable income. The amount of RPII includable in the income of a U.S. shareholder is based upon the net RPII income for the year after deducting related expenses such as losses, loss reserves and operating expenses.

Apportionment of RPII to U.S. Shareholders. Every U.S. person who owns ordinary shares on the last day of our fiscal year in which we or any of our non-U.S. insurance subsidiaries does not meet any of the RPII sections described above should expect that for such year it will be required to include in gross income its share of our RPII for the entire year, whether or not distributed even though it may not have owned the shares for the entire year. A U.S. person who owns ordinary shares during such fiscal year but not on the last day of the fiscal year is not required to include in gross income any part of our RPII.

Basis Adjustments. A U.S. shareholder's tax basis in its ordinary shares will be increased by the amount of any RPII that the shareholder includes in income. The shareholder may exclude from income the amount of any distributions by us to the extent of the RPII included in income for the year in which the distribution was paid or for any prior year. The U.S. shareholder's tax basis in its ordinary shares will be reduced by the amount

of such distributions that are excluded from income.

Dispositions of Ordinary Shares. Code section 1248 provides that if a U.S. person owns 10% or more of the voting shares of a corporation that is a CFC, any gain from the sale or exchange of the shares may be treated as ordinary income to the extent of the CFC's earnings and profits during the period that the shareholder held the shares (with certain adjustments). A 10% U.S. shareholder may in certain circumstances be required to report a disposition of shares of a CFC by attaching IRS Form 5471 to the U.S. income tax or information return that it would normally file for the taxable year in which the disposition occurs. Code section 953(c)(7) generally provides that section 1248 also will apply to the sale or exchange of shares in a foreign corporation that earns RPII if the foreign corporation would be taxed as an insurance company if it were a domestic corporation, regardless of whether the shareholder is a 10% shareholder or whether RPII constitutes 20% or more of the corporation's gross insurance income. Existing Treasury Department regulations do not address whether Code section 1248 and the requirement to file Form 5471 would apply when the foreign corporation (such as us) is not a CFC but the foreign corporation has a subsidiary that is a CFC or that would be taxed as an insurance company if it were a domestic corporation.

We believe, based on the advice of counsel, that Code section 1248 and the requirement to file Form 5471 will not apply to dispositions of ordinary shares because we do not have any 10% shareholders and we are not directly engaged in the insurance business, and that the proposed regulations issued by the U.S. Treasury Department should be interpreted in this manner. There can be no assurance, however, that the IRS will interpret the proposed regulations in this manner or that the Treasury Department will not amend the proposed regulations to provide that Code section 1248 and the requirement to file Form 5471 will apply to dispositions of ordinary shares.

If the IRS or Treasury Department were to take such action, we intend to notify shareholders that Code section 1248 and the requirement to file Form 5471 will apply to dispositions of ordinary shares. Thereafter, we intend to send a notice after the end of each calendar year to all persons who were shareholders during the year notifying them that Code section 1248 and the requirement to file Form 5471 apply to dispositions of ordinary shares. We intend to attach to this notice a copy of Form 5471 completed with all company information and instructions for completing the shareholder information.

Uncertainty as to Application of RPII. The RPII provisions of the Code have never been interpreted by the courts or the U.S. Treasury Department. Regulations interpreting the RPII provisions of the Code exist only in pro-

S-62

posed form. It is not certain whether these regulations will be adopted in their proposed form or what changes or clarifications might ultimately be made thereto or whether any such changes, as well as any interpretation or application of RPII by the IRS, the courts or otherwise, might have retroactive effect. The description of RPII herein is therefore qualified. Accordingly, the meaning of the RPII provisions and the application thereof to us and our subsidiaries is uncertain. These provisions include the grant of authority to the U.S. Treasury Department to prescribe such regulations as may be necessary to carry out the purpose of this subsection including . . . regulations preventing the avoidance of this subsection through cross insurance arrangements or otherwise. In addition, there can be no assurance that the amounts of the RPII inclusions will not be subject to adjustment based upon subsequent IRS examination. Each U.S. person who is considering an investment in ordinary shares should consult his tax advisor as to the effects of these uncertainties.

Passive Foreign Investment Companies. Sections 1291 through 1298 of the Code contain special rules applicable with respect to foreign corporations that are passive foreign investment companies (PFICs). In general, a foreign corporation will be a PFIC if 75% or more of its income constitutes passive income or 50% or more of its assets produce passive income. If we were to be characterized as a PFIC, its United States shareholders would be subject to a penalty tax at the time of their sale of (or receipt of an excess distribution with respect to) its shares. In general, a shareholder receives an excess distribution if the amount of the distribution is more than 125% of the average distribution with respect to the stock during the three preceding taxable years (or shorter period during which the taxpayer held the stock). In general, the penalty tax is equivalent to an interest charge on taxes that are deemed due during the period the United States shareholder owned the shares, computed by assuming that the excess distribution or gain (in the case of a sale) with respect to the shares was taxed in equal portions throughout the holder's period of ownership. The interest charge is equal to the applicable rate imposed on underpayments of U.S. federal income tax for such period.

The PFIC statutory provisions contain an express exception for income derived in the active conduct of an insurance business by a corporation which is predominantly engaged in an insurance business This exception is intended to ensure that income derived by a bona fide insurance company is not treated as passive income, except to the extent such income is attributable to financial reserves in excess of the reasonable needs of the insurance business. We believe, based on the advice of counsel, that we and our wholly-owned direct and indirect subsidiaries, taken as a whole, are predominantly engaged in an insurance business and do not have financial reserves in excess of the reasonable needs of our insurance business. The PFIC statutory provisions (unlike the RPII provisions of the Code) contain a look-through rule that states that, for purposes of determining whether a foreign corporation is a PFIC, such foreign corporation shall be treated as if it received directly its proportionate share of the income and as if it held its proportionate share of the assets of any other corporation in which it owns at least 25% of the stock. While no explicit guidance is provided by the statutory language, we believe that under the look-through rule we would be deemed to own the assets and to have received the income of our insurance and investment subsidiaries directly for purposes of determining whether we qualify for the aforementioned insurance exception. We believe, based upon the advice of counsel, that our interpretation of the PFIC rules, including the

look-through rule is consistent with the legislative intention generally to exclude bona fide insurance companies from the application of PFIC provisions; there can, of course, be no assurance as to what positions the IRS or a court might take in the future. Although each of our investment subsidiaries meets the definition of a PFIC, if we are not a PFIC, the PFIC statutory provisions state that a shareholder of us will not be treated as a shareholder of such investment subsidiaries for PFIC tax purposes as long as the shareholder does not own 50% or more of the value of our shares.

However, no regulations interpreting the substantive PFIC provisions have yet been issued. Therefore, substantial uncertainty exists with respect to their application or their possible retroactivity. Each U.S. person who is considering an investment in ordinary shares should consult his tax advisor as to the effects of these rules.

Stripped Units

Substitution of Treasury Securities to Create Stripped Units. A U.S. holder of normal units who delivers treasury securities to the collateral agent in substitution for ownership interests in senior notes or other pledged securities generally will not recognize gain or loss upon the delivery of such treasury securities or the release of the senior notes or other pledged securities to such U.S. holder. We (under the terms of the units) and each U.S. holder (by acquiring

S-63

units) agree to treat the U.S. holder's share of the treasury securities constituting a part of its units as owned by the U.S. holder for U.S. federal income tax purposes. Such U.S. holder will continue to take into account items of income or deduction otherwise includable or deductible, respectively, by such U.S. holder with respect to such treasury securities and ownership interests in senior notes or other pledged securities. Such U.S. holder's tax basis in the ownership interests in the senior notes, the pledged treasury securities and the purchase contract generally will not be affected by such delivery and release. In general, a U.S. holder will be required for U.S. federal income tax purposes to recognize its pro rata share of original issue discount on the treasury securities on a constant yield basis, or acquisition discount (in the case of any treasury security with a maturity of one year or less from the date of its issuance) on the treasury securities when it is paid or accrues generally in accordance with such U.S. holder's normal method of accounting. U.S. holders should consult their own tax advisors concerning the tax consequences of purchasing, owning and disposing of the treasury securities so delivered to the collateral agent. See Treasury Securities Purchased on a Special Event Redemption Interest Income and Original Issue Discount.

Substitution of Senior Notes to Recreate Normal Units. A U.S. holder of stripped units who delivers ownership interests in senior notes to the collateral agent in substitution for pledged treasury securities generally will not recognize gain or loss upon the delivery of such ownership interests in the senior notes or the release of the pledged treasury securities to such U.S. holder. Such U.S. holder will continue to take into account items of income or deduction otherwise includable or deductible, respectively, by such holder with respect to such pledged treasury securities and such senior notes. Such U.S. holder's tax basis in the ownership interests in the senior notes, the pledged treasury securities and the purchase contract will not be affected by such delivery and release. U.S. holders should consult their own advisors concerning the tax consequences of purchasing, owning and disposing of the treasury securities so released to them.

Treasury Securities Purchased on a Special Event Redemption

A remarketing or a special event redemption will be a taxable event for U.S. holders, which will be subject to tax in the manner described above under Senior Notes Sales, Exchanges, Remarketing or Other Taxable Dispositions of Senior Notes.

Ownership of Treasury Securities. In the event of a special event redemption prior to the stock purchase date, we (under the terms of the units) and each U.S. holder (by acquiring units) agree to treat the U.S. holder's share of the treasury securities constituting a part of its units as owned by the U.S. holder for U.S. federal income tax purposes. In such a case, the U.S. holder will be required to include in income any amount earned on its pro rata share of the treasury securities for U.S. federal income tax purposes. The remainder of this discussion assumes that U.S. holders will be treated as the owners of their share of the treasury securities constituting a part of such units for U.S. federal income tax purposes.

Interest Income and Original Issue Discount. In the event of a special event redemption prior to the stock purchase date, the treasury securities will consist of stripped treasury securities. Following a special event redemption prior to the stock purchase date, U.S. holders will be required to treat their pro rata portion of each stripped U.S. treasury security as a bond that was originally issued on the date the collateral agent acquired the relevant treasury securities and that has original issue discount equal to their pro rata portion of the excess of the amounts payable on such treasury securities over the value of the treasury securities at the time the collateral agent acquires them on behalf of U.S. holders. U.S. holders will be required to include such original issue discount (but not acquisition discount on short-term treasury securities as described below) in income for U.S. federal income tax purposes as it accrues on a constant yield to maturity basis, regardless of their regular method of tax accounting. To the extent that a payment from the treasury securities made in respect of a scheduled interest payment on a special event redeemed senior note exceeds the amount of such original issue discount allocable to such treasury securities, such payment will be treated as a return of a U.S. holder's investment in the treasury securities and will not be considered current income for U.S. federal income tax purposes.

In the case of any treasury security with a maturity of one year or less from the date of its issue (or from the date the collateral agent acquired the relevant treasury security in the case of any stripped treasury security), U.S. holders will generally be required to include acquisition discount in income as it accrues only if they are accrual basis taxpayer-

S-64

ers. U.S. holders that are accrual basis taxpayers will generally accrue such acquisition discount on a straight-line basis, unless they make an election to accrue such acquisition discount on a constant yield to maturity basis.

Tax Basis of U.S. Holders in Their Share of Treasury Securities. The initial tax basis of U.S. holders in their share of treasury securities will equal their pro rata portion of the amount paid by the collateral agent for the treasury securities. A U.S. holder's adjusted tax basis in its share of the treasury securities will be increased by the amount of original issue discount included in income with respect thereto and decreased by the amount of cash received in respect of its share of the treasury securities.

Sales, Exchanges or Other Dispositions of a U.S. Holder's Share of Treasury Securities. U.S. holders that obtain the release of their share of the treasury securities and subsequently dispose of such interest will recognize gain or loss on such disposition in an amount equal to the difference between the amount realized upon such disposition and such U.S. holder's adjusted tax basis in the treasury securities, except that amounts received with respect to accrued but unpaid interest on treasury securities will not be treated as part of the amount realized, but rather, will be treated as ordinary interest income to the extent not previously taken into income.

Backup Withholding Tax and Information Reporting

Unless a U.S. holder is an exempt recipient, such as a corporation, payments under senior notes, purchase contracts, treasury securities or ordinary shares, the proceeds received with respect to a fractional share upon the settlement of a purchase contract, and the proceeds received from the sale of units, ownership interests in senior notes, purchase contracts, treasury securities or ordinary shares, may be subject to information reporting and may also be subject to U.S. federal backup withholding tax if such U.S. holder fails to supply accurate taxpayer identification numbers or otherwise fails to comply with applicable U.S. information reporting or certification requirements. Any amounts so withheld generally will be allowed as a credit against the U.S. holder's U.S. federal income tax liability.

S-65

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the acquisition, holding and disposition of units (and the securities underlying units) by employee benefit plans that are subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended (ERISA), plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Code or provisions under any federal, state, local, non-U.S. or other laws or regulations that are similar to such provisions of the Code or ERISA (collectively, similar laws), and entities whose underlying assets are considered to include plan assets of such plans, accounts and arrangements (each, a plan).

This summary is based on the provisions of ERISA and the Code (and the related regulations and administrative and judicial interpretations) as of the date of this prospectus supplement. This summary does not purport to be complete, and future legislation, court decisions, administrative regulations, rulings or administrative pronouncements could significantly modify the requirements summarized below. Any of these changes may be retroactive and may thereby apply to transactions entered into prior to the date of their enactment or release.

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a plan subject to Title I of ERISA or Section 4975 of the Code and prohibit certain transactions involving the assets of a plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of such a plan or the management or disposition of the assets of such a plan, or who renders investment advice for a fee or other compensation to such a plan, is generally considered to be a fiduciary of the plan. Plans may purchase units (and the securities underlying units) subject to the investing fiduciary's determination that the investment satisfies ERISA's fiduciary standards and other requirements under ERISA, the Code or similar laws applicable to investments by the plan.

In considering an investment in units using a portion of the assets of any plan, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the plan and the applicable provisions of ERISA, the Code or any similar law relating to a fiduciary's duties to the plan including, without limitation, the prudence, diversification, liquidity, exclusive benefit, delegation and prohibited transaction provisions of ERISA, the Code and any other applicable similar laws.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit plans subject to Title I of ERISA or Section 4975 of the Code from engaging in specified transactions involving plan assets with persons or entities who are parties in interest within the meaning of ERISA or disqualified persons within the meaning of Section 4975 of the Code, unless an exemption is available. A party in interest or disqualified person who engaged in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. In addition, the fiduciary of the plan that engaged in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code.

If a plan purchases units, the acquisition, holding and disposition of the units and the securities underlying the units may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, if XL Capital or any subsequent seller is a party in interest or disqualified person with respect to the plan, unless an exemption is available. In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions, or PTCEs, that may apply to these transactions. These class exemptions include, without limitation, PTCE 84-14 respecting transactions determined by independent qualified professional asset managers, PTCE 90-1 respecting insurance company pooled separate accounts, PTCE 91-38 respecting bank collective investment funds, PTCE 95-60 respecting life insurance company general accounts, and PTCE 96-23 respecting transactions determined by in-house asset managers. Each of these PTCEs contains conditions and limitations on its application. Fiduciaries of plans that consider purchasing units and the underlying securities in reliance on any of these or any other PTCEs should carefully review the PTCE to assure it is applicable.

S-66

Accordingly, by its purchase of the units and the underlying securities, each holder, and the fiduciary of any plan that is a holder, will be deemed to have represented and warranted on each day from and including the date of its purchase of the units and the underlying securities through and including the date of satisfaction of its obligation under the purchase contract and the disposition of any such unit and any underlying security either (i) that it is not using the assets of any plan to acquire or hold the units or underlying securities or (ii) that the acquisition, holding and the disposition of any unit (and any underlying security) by such holder does not and will not constitute a non-exempt prohibited transaction under ERISA or Section 4975 of the Code and will not violate any applicable similar law.

In addition, each holder using the assets of any plan and the fiduciary of such plan will be deemed to have represented and warranted to XL Capital and the remarketing agent that such participation in the remarketing program will not constitute or result in a non-exempt prohibited transaction under ERISA or Section 4975 of the Code or a violation of applicable similar laws.

The foregoing discussion is general in nature and is not intended to be all-inclusive. Each plan and other entity whose assets include plan assets subject to ERISA, the Code or similar laws should consult its own advisors and/or counsel regarding the consequences of an investment in the units and the underlying securities.

The sale of units and the underlying securities shall not be deemed a representation by XL Capital that the investment meets all relevant legal requirements with respect to plans generally or any particular plan or that such an investment is appropriate for plans generally or any particular plan.

S-67

UNDERWRITING

We and the underwriters named below have entered into an underwriting agreement with respect to the units being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of units set forth in the following table.

Underwriters	Number of Units
Goldman, Sachs & Co.	5,188,800
Citigroup Global Markets Inc.	5,188,800
Deutsche Bank Securities Inc.	5,188,800
J.P. Morgan Securities Inc	4,191,000
Banc One Capital Markets, Inc.	997,500
Barclays Capital Inc.	997,500
Merrill Lynch, Pierce, Fenner & Smith Incorporated	997,500
Morgan Stanley & Co. Incorporated	997,500

Edgar Filing: XL CAPITAL LTD - Form 424B5

UBS Securities LLC	997,500
Wachovia Capital Markets, LLC	997,500
ABN AMRO Rothschild LLC	266,100
BNP Paribas Securities Corp.	266,100
BNY Capital Markets, Inc.	266,100
Comerica Securities, Inc.	266,100
Credit Lyonnais Securities (USA) Inc.	266,100
Dowling & Partners Securities, LLC	266,100
Fleet Securities, Inc.	266,100
Fox-Pitt, Kelton Inc.	266,100
HSBC Securities (USA) Inc.	266,100
ING Financial Markets LLC	266,100
Keefe, Bruyette & Woods, Inc	266,100
Lazard Freres & Co. LLC	266,100
McDonald Investments Inc., A KeyCorp Company	266,100
Sandler O'Neill & Partners, L.P.	266,100
Scotia Capital (USA) Inc	266,100
The Royal Bank of Scotland plc	266,100
	30,000,000
Total	30,000,000

The underwriters are committed to take and pay for all of the units being offered, if any are taken, other than the units covered by the option described below unless and until this option is exercised.

If the underwriters sell more than 30,000,000 units, Goldman, Sachs & Co. and Citigroup Global Markets Inc. have an option to buy, not later than 13 days after the initial issuance of the units, up to an additional 3,000,000 units from us to cover such sales. If any units are purchased pursuant to this option, Goldman, Sachs & Co. and Citigroup Global Markets Inc. will severally purchase units in equal proportions.

The following table shows the per unit and total underwriting discounts and commissions to be paid to the underwriters by us. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase 3,000,000 additional units.

Paid by XL Capital Ltd

	No Exercise	Full Exercise
Per Unit	\$0.7517	\$0.7517
Total	\$22,550,000	\$24,806,100

S-68

Units sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus supplement. Any units sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price of up to \$0.451 per unit from the initial public offering price. If all the units are not sold at the initial public offering price, the underwriters may change the offering price and the other selling terms.

We, our Chairman of the Board and our Chief Executive Officer have agreed, subject to certain exceptions, not to offer to sell, sell, contract to sell or otherwise dispose of any ordinary shares, equity-linked securities or units (including the related purchase contracts and senior notes), or any of our securities that are substantially similar to ordinary shares, equity-linked securities or units (including the related purchase contracts and senior notes), or any securities convertible into, exchangeable for or that represent the right to receive ordinary shares, equity-linked securities or units other than, (i) with respect to us, sales of our ordinary shares (a) pursuant to existing employee benefit plans or (b) in connection with the repurchase by us or the conversion of any of our zero-coupon convertible debentures due 2021, and (ii) with respect to our Chairman of the Board and Chief Executive Officer, sales of our ordinary shares (a) pursuant to Rule 10b5-1 programs for such director or officer existing on the date of this prospectus supplement, (b) at any time after the date on which such person ceases to be a director or officer of ours, or (c) in an amount not greater than 10% of the number of shares owned by such director or officer on the date of this prospectus

Edgar Filing: XL CAPITAL LTD - Form 424B5

supplement) without the prior written consent of Goldman, Sachs & Co. and Citigroup Global Markets Inc., which consents may be given at their sole discretion and without prior notice until, in the case of XL Capital, the date that is 90 days after the date of this prospectus supplement and, in the case of such individuals, the date that is 60 days after the date of this prospectus supplement.

The units are a new issue of securities with no established trading market. No assurance can be given as to the liquidity of the trading market for the units.

The normal units have been approved for listing on the New York Stock Exchange, subject to notice of issuance, under the symbol XL Pr Q . We have no obligation and do not currently intend to apply for any separate listing of either the stripped units or the senior notes on any stock exchange; however, in the event that either of these securities are separately traded to a sufficient extent that applicable exchange listing requirements are met, we will attempt to cause those securities to be listed on the exchange on which the normal units are then listed.

At our request, the underwriters have made available, at the initial price to the public, 40,000 units which are being purchased by certain of our directors and advisory council members.

In connection with the offering, the underwriters may purchase and sell units in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of units than they are required to purchase in the offering. Covered short sales are sales made in an amount not greater than the underwriters' option to purchase additional units from us in the offering. The underwriters may close out any covered short position by either exercising their option to purchase additional units or purchasing units in the open market. In determining the source of units to close out the covered short position, the underwriters will consider, among other things, the price of units available for purchase in the open market as compared to the price at which they may purchase units through their option to purchase additional units from us. Naked short sales are any sales in excess of such option. The underwriters must close out any naked short position by purchasing units in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the units in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of units made for the purpose of preventing or retarding a decline in the market price of the units while the offering is in progress.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased units sold by or for the account of such underwriter in stabilizing or short covering transactions.

S-69

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or retarding a decline in the market price of the units, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the units. As a result, the price of the units may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise.

Each underwriter has represented, warranted and agreed that (i) it has not offered or sold and, prior to the expiry of a period of six months after the date of issue of the units, will not offer or sell any units to persons in the United Kingdom, except to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or otherwise in circumstances that have not resulted and will not result in an offer to the public in the United Kingdom within the meaning of the Public Offers of Securities Regulations 1995; (ii) it has only communicated or caused to be communicated, and will only communicate or cause to be communicated, any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act of 2000 (the FSMA)) received by it in connection with the issue or sale of any units in circumstances in which section 21(1) of the FSMA does not apply to XL Capital; and (iii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the units in, from or otherwise involving the United Kingdom.

The units may not be offered, sold, transferred or delivered in or from The Netherlands, as part of their initial distribution or as part of any re-offering, and neither this prospectus nor any other document in respect of the offering may be distributed or circulated in The Netherlands, other than to individuals or legal entities which include, but are not limited to, banks, brokers, dealers, institutional investors and undertakings with a treasury department, who or which trade or invest in securities in the conduct of a business or profession.

This prospectus has not been registered as a prospectus with the Registrar of Companies and Businesses in Singapore. Accordingly, the units may not be offered or sold, nor may this prospectus or any other offering document or material relating to the units be circulated or distributed, directly or indirectly, to the public or any member of the public in Singapore other than (i) to an institutional investor or other person specified in Section 106C of the Companies Act, Chapter 50 of Singapore (Singapore Companies Act) or (ii) to a sophisticated investor, and in accordance with the conditions, specified in Section 106D of the Singapore Companies Act or (iii) otherwise pursuant to, and in accordance with the conditions of, any applicable provisions of the Singapore Companies Act.

Edgar Filing: XL CAPITAL LTD - Form 424B5

Each underwriter has acknowledged and agreed that the units have not been registered under the Securities and Exchange Law of Japan and are not being offered or sold and may not be offered or sold, directly or indirectly, in Japan or to or for the account of any resident of Japan, except (i) pursuant to an exemption from the registration requirements of the Securities and Exchange Law of Japan and (ii) in compliance with any other applicable requirements of Japanese law. As part of the offering, the underwriters may offer units in Japan to a list of 49 offerees in accordance with the above provisions.

No offer to sell the units has been or will be made in Hong Kong, by means of any document, other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and unless permitted to do so under the securities laws of Hong Kong, no person has issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purpose of issue, any advertisement, document or invitation relating to the units other than with respect to the units intended to be disposed of to persons outside Hong Kong or only to persons whose business involves the acquisition, disposal or holding of securities, whether a principal or agent.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended.

We estimate that our share of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$2.1 million.

S-70

Certain of the underwriters and their affiliates have engaged, and may in the future engage, in transactions with, including investment banking transactions, and performed services for, us and our affiliates in the ordinary course of business, for which they have received and may continue to receive customary fees and commissions.

LEGAL MATTERS

Certain U. S. legal matters with respect to the units will be passed upon for us by Cahill Gordon & Reindel LLP, New York, New York. Certain matters with respect to the units under the laws of the Cayman Islands will be passed upon for us by Hunter & Hunter, Grand Cayman, Cayman Islands. Certain U.S. legal matters with respect to the units will be passed upon for the underwriters by Simpson Thacher & Bartlett LLP, New York, New York. Simpson Thacher & Bartlett LLP has in the past performed, and continues to perform, certain legal services for us and our affiliates.

EXPERTS

The consolidated financial statement of XL Capital Ltd and our subsidiaries as of December 31, 2003 and 2002 and for the three years ended December 31, 2003, incorporated by reference in this prospectus supplement and the accompanying prospectus from our Annual Report on Form 10-K for the year ended December 31, 2003, have been audited by PricewaterhouseCoopers LLP, independent auditors, as stated in their report, which is incorporated herein by reference.

INCORPORATION OF DOCUMENTS BY REFERENCE

The SEC allows us to incorporate by reference into this prospectus supplement the information we file with the SEC, which means that we can disclose important information to you by referring to another document filed separately with the SEC. The information that we file after the date of this prospectus supplement with the SEC will automatically be deemed to be incorporated by reference and will update and supersede this information. We incorporate by reference into this prospectus supplement the documents listed below and under Incorporation of Documents by Reference in the accompanying prospectus, and any future filings made with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended.

Annual Report on Form 10-K for
the year ended December 31,
2003, filed on March 15, 2004.

Any statement contained in a document incorporated or considered to be incorporated by reference in this prospectus supplement shall be considered to be modified or superseded for purposes of this prospectus supplement to the extent that a statement contained in this prospectus supplement or in any subsequently filed document that is or is considered to be incorporated by reference modifies or supersedes such statement. Any statement that is modified or superseded will not, except as so modified or superseded, constitute a part of this prospectus supplement. You may request a copy of any of the documents which are incorporated by reference in this prospectus supplement or the accompanying prospectus, other than exhibits which are not specifically incorporated by reference into such documents, and XL Capital Ltd's constitutional documents, at no cost, by writing or telephoning us at the following:

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that XL Capital Ltd, XL Capital Finance (Europe) plc, and the trusts filed with the Securities and Exchange Commission (the "SEC") utilizing a "shelf" registration process, relating to:

- (1) XL Capital Ltd's ordinary shares, preference ordinary shares, debt securities, ordinary share warrants, ordinary share purchase contracts, ordinary share purchase units, subordinated deferrable interest debentures, guarantees of XL Finance senior debt securities and guarantees of trust preferred securities; XL Capital Finance (Europe) plc's senior debt securities; and

- (2)
- (3) the trust preferred securities of XL Capital Trust I, XL Capital Trust II and XL Capital Trust III described in this prospectus.

Under this shelf process, XL Capital Ltd, XL Capital Finance (Europe) plc, and the trusts may sell the securities described in this prospectus in one or more offerings up to a total initial offering price of \$1,934,000,000. This prospectus provides you with a general description of the securities that XL Capital Ltd, XL Capital Finance (Europe) plc and the trusts may offer. This prospectus does not contain all of the information set forth in the registration statement as permitted by the rules and regulations of the SEC. For additional information regarding XL Capital Ltd, XL Capital Finance (Europe) plc or the trusts and the offered securities, please refer to the registration statement. Each time XL Capital Ltd, XL Capital Finance (Europe) plc or a trust sells securities it will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also supplement or update information contained in this prospectus; provided, that such information does not constitute material changes to the information herein such that it alters the nature of the offering or the securities offered. You should read both this prospectus and any prospectus supplement together with additional information described under the heading "Where You Can Find More Information."

In this prospectus, and in the accompanying prospectus supplement, unless the context requires otherwise, "we," "us" and "our" refer to XL Capital Ltd and its subsidiaries, "XL Capital" refers to XL Capital Ltd and not any of its subsidiaries, "XL Finance" refers to XL Capital Finance (Europe) plc and "XL Capital trusts" or the "trusts" refer, collectively, to XL Capital Trust I, XL Capital Trust II and XL Capital Trust III.

WHERE YOU CAN FIND MORE INFORMATION

We, the trusts and XL Finance have filed with the SEC under the Securities Act of 1933, as amended (the "Securities Act"), a combined registration statement on Form S-3 (herein, together with all amendments and exhibits, referred to as the "registration statement") relating to the offered securities.

XL Capital

XL Capital is subject to the informational requirements of the Securities Exchange Act of 1934 (the "Exchange Act"), and in accordance therewith files reports, proxy and information statements and other information with the SEC. Such reports, proxy statements and other information can be inspected and copied at prescribed rates at the public reference facilities maintained by the SEC at Judiciary Plaza, 450 Fifth Street, N.W., Washington, D.C. 20549. The SEC also maintains a website that contains reports, proxy and information statements and other information. Please call the SEC at 1-800-SEC-0330 for further information on the public reference rooms. The website address is <http://www.sec.gov>. In addition, such material can be inspected at the offices of the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

1

XL Capital Finance (Europe) plc

XL Capital Finance (Europe) plc is not currently subject to the information reporting requirements of the Exchange Act. XL Capital Finance (Europe) plc is directly and indirectly wholly owned by XL Capital and currently has no operations. XL Capital Finance (Europe) plc has not engaged in any activities other than those incidental to its formation and the issuance of senior debt securities in January of 2002, and the lending or the contributing of the proceeds of those senior debt securities to XL Capital Ltd and activities incidental to or connected with the foregoing. The outstanding senior debt securities of XL Capital Finance (Europe) plc are, and any future issuances of debt securities of XL Capital Finance (Europe) plc will be, fully and unconditionally guaranteed by XL Capital and by no other subsidiary of XL Capital. See "Description of XL Capital Finance (Europe) plc Senior Debt Securities."

The Trusts

None of the trusts is currently subject to the information reporting requirements of the Exchange Act. No separate financial statements of the trusts have been included herein. We do not believe that such financial statements would be material to holders of the trust preferred securities because:

- (1) all of the voting securities of the trusts will be owned, directly or indirectly, by XL Capital, a reporting company under the Exchange Act;
- (2) the trusts have no independent operations and exist for the sole purpose of issuing securities representing undivided beneficial interests in the assets of the applicable trust and investing the proceeds thereof in the subordinated deferrable interest debentures issued by XL Capital; and
- (3) the obligations of each trust under the trust securities are fully and unconditionally guaranteed by XL Capital to the extent that the trust has funds available to meet such obligations.

See "The Trusts," "Description of the Trust Preferred Securities," "Description of the Trust Preferred Securities Guarantees" and "Description of the Subordinated Deferrable Interest Debentures."

INCORPORATION OF DOCUMENTS BY REFERENCE

The SEC allows XL Capital to "incorporate by reference" into this prospectus the information it files with the SEC, which means that it can disclose important information to you by referring to another document filed separately with the SEC. The information that XL Capital files after the date of the initial registration statement and prior to the termination of the final offering under this registration statement shall be deemed to be incorporated by reference into this prospectus. The information that XL Capital files after the date of this prospectus with the SEC will automatically update and supersede this information. XL Capital incorporates by reference into this prospectus the documents listed below which have been filed by XL Capital with the SEC (SEC file number 1-10804) and any future filings made with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Exchange Act.

- Annual Report on Form 10-K for the year ended December 31, 2002, filed on March 31, 2003;
- Proxy Statement dated April 4, 2003, filed on April 4, 2003;
- Quarterly Report on Form 10-Q for the period ended March 31, 2003, filed on May 15, 2003; and
- Quarterly Report on Form 10-Q/A for the period ended March 31, 2003, filed on June 18, 2003.

Any statement contained in a document incorporated or considered to be incorporated by reference in this prospectus shall be considered to be modified or superseded for purposes of this prospectus to the extent that a statement contained in this prospectus or in any subsequently filed document that is or is considered to be incorporated by reference modifies or supersedes such statement. Any statement that is modified or superseded shall not, except as so modified or superseded, constitute a part of this prospectus.

You may request a copy of any of the documents which are incorporated by reference in this prospectus, other than exhibits which are not specifically incorporated by reference into such documents, and XL Capital's, XL Finance's and the Trusts' constitutional documents, at no cost, by writing or telephoning us at the following:

None of XL Capital, XL Finance or the trusts have authorized anyone to give any information or make any representation about XL Capital, XL Finance or the trusts that is different from, or in addition to, that contained in this prospectus or in any of the materials that XL Capital, XL Finance or the trusts have incorporated by reference into this document. Therefore, if anyone does give you information of this sort, you should not rely on it. If you are in a jurisdiction where offers to exchange or sell, or solicitations of offers to exchange or purchase,

the securities offered by this document or the solicitation of proxies is unlawful, or if you are a person to whom it is unlawful to direct these types of activities, then the offer presented in this document does not extend to you. The information contained in this document speaks only as of the date of this document, unless the information specifically indicates that another date applies.

XL CAPITAL LTD

We are a leading provider of insurance and reinsurance coverages and financial products and services to industrial, commercial and professional service firms, insurance companies and other enterprises on a worldwide basis.

We were incorporated with limited liability under the Cayman Islands Companies Law on March 16, 1998, as EXEL Merger Company Ltd. We were formed as a result of the merger of EXEL Merger Company Ltd, EXEL Limited and Mid Ocean Limited on August 7, 1998, and were renamed EXEL Limited on that date. This merger was accounted for as a purchase business combination. EXEL and Mid Ocean were companies that were incorporated in the Cayman Islands in 1986 and 1992, respectively. At a special general meeting held on February 1, 1999, the shareholders of EXEL Limited approved a resolution changing the name of EXEL Limited to XL Capital Ltd.

On June 18, 1999, we merged with NAC Re Corp. (now known as XL Reinsurance America Inc.), a Delaware corporation that was organized in 1985, in a stock merger. The NAC merger was accounted for as a pooling of interests under U.S. generally accepted accounting principles. Accordingly, all prior period information contained or incorporated by reference in this prospectus includes the results of NAC as though it had always been a part of XL Capital Ltd. Following the merger, we changed our fiscal year end from November 30 to December 31 as a conforming pooling adjustment. On July 25, 2001, we completed the acquisition of certain of the operations of Winterthur International from Winterthur Swiss Insurance Company, an indirect subsidiary of the Credit Suisse Group. Although the Winterthur International acquisition closed on July 25, 2001, it has been given effect as if it closed on July 1, 2001, which is the date from which the economic interests were transferred to us.

We are incorporated in the Cayman Islands. Our principal executive offices are located at XL House, One Bermudiana Road, Hamilton, Bermuda HM11. Our telephone number is (441) 292-8515. Our website is www.xlcapital.com. The information contained on our website is not incorporated by reference into this prospectus.

You can obtain additional information about us in the reports and other documents incorporated by reference in this prospectus. See [Where You Can Find More Information](#) and [Incorporation of Documents by Reference](#).

XL CAPITAL FINANCE (EUROPE) PLC

XL Capital Finance (Europe) plc (formerly known as XL Finance (UK) plc) was incorporated as a public limited company under the laws of England and Wales on August 29, 2001 under the number 4278406. XL Capital Finance (Europe) plc's registered offices are located at 2 Lambs Passage, London EC1Y 8YY, England. XL Capital Finance

(Europe) plc's phone number is (44) 207-600-1200. XL Capital Finance (Europe) plc is a wholly owned subsidiary of XL Capital Ltd.

THE TRUSTS

Each of XL Capital Trust I, XL Capital Trust II and XL Capital Trust III is a statutory trust formed under Delaware law pursuant to (i) a separate declaration of trust, executed by XL Capital Ltd, as sponsor for such trust (the [sponsor](#)), and the trustees (as defined herein) as of that date of such trust and (ii) the filing of a separate certificate of trust with the Delaware Secretary of State. The declaration of trust of each trust will be amended

and restated in its entirety (as so amended and restated, the [declaration]) substantially in the form incorporated by reference in the registration statement of which this prospectus forms a part.

Each trust exists for the exclusive purposes of (1) issuing and selling the trust preferred securities representing preferred undivided beneficial interests in the assets of such trust and trust common securities representing common undivided beneficial interests in the assets of such trust (the [trust common securities] and, together with the trust preferred securities, the [trust securities]), (2) investing the gross proceeds of the trust securities in a series of subordinated deferrable interest debentures and (3) engaging in only those other activities necessary or incidental thereto.

All of the trust common securities will be directly or indirectly owned by XL Capital Ltd. The trust common securities will rank equal with, and payments will be made thereon *pro rata*, with the trust preferred securities except that upon an event of default under the declaration, the rights of the holders of the trust common securities to payment in respect of distributions and payments upon liquidation, redemption and otherwise will be subordinated to the rights of the holders of the trust preferred securities. Each trust has a term of approximately 55 years, but may terminate earlier as provided in the applicable declaration.

Each trust's business and affairs will be conducted by the trustees (the [trustees]) appointed by XL Capital Ltd, as the direct or indirect holder of all the trust common securities. The holder of the trust common securities will be entitled to appoint, remove or replace any of, or increase or reduce the number of, the trustees of a trust. The duties and obligations of such trustees shall be governed by the declaration of such trust, the Trust Indenture Act of 1939, as amended (the [Trust Indenture Act]), and the Delaware Statutory Trust Act. A majority of the trustees (the [regular trustees]) of each trust will be persons who are employees or officers of or affiliated with XL Capital Ltd.

One trustee of each trust will be a financial institution which will be unaffiliated with XL Capital Ltd and which shall act as property trustee and as indenture trustee for purposes of the Trust Indenture Act, pursuant to the terms set forth in a prospectus supplement (the [property trustee]). In addition, unless the property trustee maintains a principal place of business in the State of Delaware, and otherwise meets the requirements of applicable law, another trustee of each trust will have its principal place of business or reside in the State of Delaware (the [Delaware Trustee]). XL Capital Ltd will pay all fees, expenses, debts and obligations (other than the trust securities) related to the trusts and the offering of trust securities. The office of the Delaware trustee for each trust in the State of Delaware is First Union Trust Company, National Association, One Rodney Square, 920 King Street, Suite 102, Wilmington, Delaware 19801. The principal place of business of each trust shall be c/o XL Capital Ltd, XL House, One Bermudiana Road, Hamilton HM11, Bermuda (telephone number (441) 292-8515).

USE OF PROCEEDS

Except as may otherwise be described in the prospectus supplement relating to an offering of securities, the net proceeds from the sale of the securities included in this Prospectus will be used for general corporate purposes. Each trust will invest all proceeds received from the sale of its trust securities in a particular series of subordinated deferrable interest debentures of XL Capital, which will use such funds for general corporate purposes. Any specific allocation of the net proceeds of an offering of securities to a specific purpose will be determined at the time of such offering and will be described in the related prospectus supplement.

ACCOUNTING TREATMENT RELATING TO TRUST SECURITIES

The financial statements of each trust that has issued trust securities will be consolidated with XL Capital Ltd's financial statements, with the trust preferred securities of each trust shown on XL Capital Ltd's consolidated financial statements as XL Capital Ltd obligated mandatorily redeemable preferred securities of subsidiary trusts holding solely subordinated debt securities of XL Capital Ltd. XL Capital Ltd's financial statements will include a footnote that discloses, among other things, that the sole asset of each trust included therein consists of subordinated deferrable interest debentures of XL Capital Ltd, and will specify the designation, principal amount, interest rate and maturity date of such subordinated deferrable interest debentures.

**RATIO OF EARNINGS TO COMBINED FIXED CHARGES
AND PREFERENCE ORDINARY SHARE DIVIDENDS**

The ratio of earnings to fixed charges and ratio of earnings to combined fixed charges and preference ordinary share dividends of XL Capital for each of the periods indicated is as follows:

	Three Months Ended March 31, 2003	Fiscal Year Ended December 31,				
		2002	2001	2000**	1999**	1998
Ratio of Earnings to Fixed Charges	7.2x	3.3x	*	6.5x	8.3x	18.9x
Ratio of Earnings to Combined Fixed Charges and Preference Ordinary Share Dividends	6.0x	3.1x	*	6.5x	8.3x	18.9x

* For the year ended December 31, 2001, earnings were insufficient to cover fixed charges by \$832.4 million.

** The ratios reflect certain reclassifications of interest expense related to the accretion of deposit liabilities that were implemented retroactively effective March 31, 2002.

We have computed the foregoing ratios by dividing (1) income from continuing operations before income taxes, minority interest and income or loss from equity investees plus the sum of fixed charges, amortization of capitalized interest and distributed income of equity investees, less minority interest, by (2) the sum of fixed charges and where indicated, preference ordinary share dividends. Fixed charges consist of interest expense on all indebtedness (including amortization of deferred financing costs), the portion of operating lease rental expense that is representative of the interest factor (deemed to be 30% of operating lease rentals) and interest credited to policyholders consisting of accretion of deposit liability transactions. Because XL Capital had no outstanding preference ordinary shares during any of the four fiscal years ended December 31, 2001 that are presented, the ratio of earnings to fixed charges is identical to the ratio of earnings to combined fixed charges and preference ordinary share dividends for each of these periods presented.

XL Capital Finance (Europe) plc and the trusts had no operations during the periods set forth above.

GENERAL DESCRIPTION OF THE OFFERED SECURITIES

XL Capital may offer from time to time under this prospectus, separately or together:

- ordinary shares;
- preference ordinary shares;
- unsecured senior or subordinated debt securities;
- warrants to purchase ordinary shares of XL Capital Ltd;
- ordinary share purchase contracts; and

- ordinary share purchase units, each representing ownership of one or more ordinary share purchase contracts and, as security for the holder's obligation to purchase ordinary shares under the share purchase contract, any one or more of (1) debt securities of XL Capital (which may be senior or subordinated), (2) senior debt securities of XL Capital Finance (Europe) plc, fully and unconditionally guaranteed by XL Capital, (3) debt obligations of third parties, including U.S. Treasury securities, (4) preference ordinary shares of XL Capital or (5) preferred securities of a trust.

XL Capital Finance (Europe) plc may offer from time to time under this Prospectus unsecured senior debt securities, which will be fully and unconditionally guaranteed by XL Capital.

Each trust may offer from time to time under this Prospectus trust preferred securities representing undivided beneficial interests in their respective assets, which will be fully and unconditionally guaranteed to the extent described in this prospectus by XL Capital.

The aggregate initial offering price of the offered securities will not exceed \$1,934,000,000.

References to "XL Capital," "we," "our" or "us" in "Description of XL Capital Preference Ordinary Shares," "Description of XL Capital Ordinary Shares," "Description of XL Capital Ordinary Share Warrants," and "Description of XL Capital Debt Securities," refer solely to XL Capital Ltd and not its subsidiaries.

DESCRIPTION OF XL CAPITAL SHARE CAPITAL

General

The Articles of Association and Memorandum of Association of XL Capital provide that its authorized share capital is US\$9,999,900 divided into 999,990,000 ordinary shares, par value \$0.01 per share. The XL Capital ordinary shares are currently divided into four classes: Class A Ordinary Shares and Class B Ordinary Shares (together, the "ordinary shares") and Series A Preference Ordinary Shares and Series B Preference Ordinary Shares.

As of June 6, 2003, XL Capital's issued and outstanding shares were approximately as follows:

<u>Class of Shares</u>	<u>Shares</u>
Class A Ordinary Shares	136,915,830
Class B Ordinary Shares	0
Series A Preference Ordinary Shares	9,200,000
Series B Preference Ordinary Shares	11,500,000

All issued and outstanding shares are fully paid and nonassessable.

DESCRIPTION OF XL CAPITAL PREFERENCE ORDINARY SHARES

General

We are authorized to issue up to 999,990,000 ordinary shares of our company, par value \$0.01 per share. Without prejudice to any special rights previously conferred on the holders of existing shares, the board of directors has the power to issue our ordinary shares with such preferred, deferred or other special rights, terms or conditions, or such restrictions, whether in regard to dividends, voting, return of share capital, exchange for other classes of shares, exchangeability for other securities or otherwise as the board of directors may from time to time determine.

The following is a description of certain general terms and provisions of the preference ordinary shares that, following appropriate resolutions of the board of directors, we may issue with preferred rights ("preference ordinary shares"). The particular terms of any class or series of preference ordinary shares will be described in the applicable prospectus supplement. The applicable prospectus supplement may also state that any of the terms set forth herein are inapplicable to such series of preference ordinary shares; provided, that the information set forth in such prospectus supplement does not constitute material changes to the information herein such that it alters the nature of the offering or the securities offered.

The following summary of terms of our preference ordinary shares is not complete. You should refer to the provisions of our Memorandum of Association, our Articles of Association and the terms of each class or series of the preference ordinary shares which will be filed with the SEC at or prior to the time of issuance of such class or series of the preference ordinary shares and described in the applicable prospectus supplement.

Terms

The terms of each series of preference ordinary shares will be described in any prospectus supplement related to such class or series of preference ordinary shares.

The board of directors in approving the issuance of a class or series of preference ordinary shares shall determine, and the applicable prospectus supplement will set forth with respect to such class or series, the following:

- whether dividends on that class or series of preference ordinary shares will be cumulative or non-cumulative;
- the dividend rate and rights in respect of dividends on the preference ordinary shares of that class or series and whether the dividend rate is subject to reset (up to a specified maximum) under certain circumstances described, if applicable, in such prospectus supplement;
- the liquidation preference per share of that class or series of preference ordinary shares, if any;
- the voting powers, if any, of the preference ordinary shares of that class or series;
- any redemption and sinking fund provisions applicable to that class or series of preference ordinary shares;
- any conversion provisions applicable to that class or series of preference ordinary shares; and
- the terms of any other preferences or other rights and limitations, if any, applicable to that class or series of preference ordinary shares.

Dividends

Holders of preference ordinary shares will be entitled to receive, when, as and if declared by the board of directors, cash dividends at the rates and on the dates as set forth in the applicable prospectus supplement. Except as set forth below, no dividends will be declared or paid on any class or series of preference ordinary shares unless full dividends for all classes or series of preference ordinary shares which have the same rank as, or rank senior to, such class or series of preference ordinary shares (including cumulative dividends still owing, if any) have been or contemporaneously are declared and paid. When those dividends are not paid in full, dividends will be declared *pro rata* so that the amount of dividends declared per share on that class or series of preference ordinary shares and on each other class or series of preference ordinary shares having the same rank as, or ranking senior to, that class or series of preference ordinary shares will in all cases bear to each other the same ratio that accrued dividends per share on that class or series of preference ordinary shares and the other preference ordinary shares bear to each other. In addition, generally, unless all dividends on the preference ordinary shares have been paid, no dividends will be declared or paid on the ordinary shares and generally we may not redeem or purchase any ordinary shares.

Voting Rights

The holders of the preference ordinary shares shall not, except as required by law or as set forth in the applicable prospectus supplement, have any right or power to vote on any question or in any proceeding or to be represented at, or to receive notice of, any meeting of shareholders. On any matters on which the holders of the preference ordinary shares shall be entitled to vote, they shall be entitled to one vote for each share held.

Unless otherwise stated in the applicable prospectus supplement, if six or more full quarterly dividends (whether consecutive or not) on any series of preference ordinary shares shall be in arrears, then during such period, which we

refer to herein as the "voting period," the holders of a majority of the outstanding preference ordinary shares of all series so in arrears and having such right represented in person or by proxy at any meeting of our shareholders held for the election of directors during such voting period, shall be entitled, as a class, to the exclusion of the holders of all other classes of our shares, to elect two of our directors, each preference ordinary share entitling the holder thereof to one vote.

Any director who shall have been elected by holders of preference ordinary shares, or by any director so elected as herein contemplated, may be removed at any time during a voting period, either for or without cause, by, and only by, the affirmative votes of the holders of record of a majority of the outstanding preference ordinary shares of all series given at a special meeting of such shareholders called for the purpose. Any vacancy thereby created may be filled during such voting period by the holders of preference ordinary shares of all series, present in person or represented by proxy at such meeting. Any director elected by holders of preference ordinary shares, or by any director so elected as herein contemplated, who dies, resigns or otherwise ceases to be a director shall, except as otherwise provided in the preceding sentence, be replaced by the remaining director theretofore elected by the holders of preference ordinary shares. At the end of the voting period, the holders of preference ordinary shares of all series shall be automatically divested of all voting power vested in them under this provision but subject always to the subsequent vesting of voting power in the holders of preference ordinary shares in the event of any similar cumulated arrearage in payment of quarterly dividends occurring thereafter. The term of all directors elected pursuant to this provision shall in all events expire at the end of the voting period.

In addition, unless previously redeemed or called for redemption, certain transactions that would vary the rights of the holders of any series of preference ordinary shares cannot be made without the approval of a special resolution in writing by the holders of 100% of such series or the sanction of a special resolution passed by two-thirds of the votes cast at a separate meeting of the holders of such series, subject to any requirements of Cayman Islands law.

Ranking

The preference ordinary shares will rank senior to our ordinary shares with respect to payment of dividends and amounts upon liquidation, dissolution or winding-up of XL Capital. Without the requisite vote of holders of the preference ordinary shares, as described above under "Voting Rights," no class or series of capital shares can be created ranking senior to the preference ordinary shares as to dividend rights or liquidation preference.

Liquidation Rights

In the event of our liquidation, dissolution or winding-up, the holders of preference ordinary shares of each series are entitled to receive out of our assets available for distribution to shareholders, before any distribution of assets is made to holders of ordinary shares or any other class or series of our capital shares (including any preferred shares) which is junior as to liquidation rights to our preference ordinary shares of such series, liquidating distributions in the amount set forth in the applicable prospectus supplement, plus dividends accrued and accumulated but unpaid to the date of such distribution. If, upon our liquidation, dissolution or winding-up, the amounts payable with respect to our preference ordinary shares of such series and any of our other preference ordinary shares ranking as to any such distribution on a parity with our preference ordinary shares of such series are not paid in full, the holders of our preference ordinary shares of such series and of such of our other preference ordinary shares will share ratably in any such distribution of assets in proportion to the full respective preferential amounts to which they are entitled. After payment of the full amount of the liquidating distribution to which they are entitled, the holders of preference ordinary shares will not be entitled to any further participation in any distribution of assets by us. Neither our consolidation or merger with another corporation nor a sale or transfer of all or part of our assets for cash or securities shall be considered a liquidation, dissolution or winding-up of XL Capital.

Redemption Provisions

The preference ordinary shares of each series will have such optional or mandatory redemption terms, if any, as shall be set forth in the applicable prospectus supplement.

Conversion and Exchange Rights

The preference ordinary shares, if convertible, will only be convertible into our ordinary shares, and will not be convertible into or exchangeable for securities of a third party. The terms and conditions, if any, upon which any series of our preference ordinary shares is convertible into ordinary shares or exchangeable into debt securities will be set forth in the applicable prospectus supplement relating to such series of preference ordinary shares. Such terms will include:

- (1) in the case such series of preference ordinary shares is convertible into ordinary shares:
 - (a) the number of ordinary shares into which preference ordinary shares of such series are convertible;
 - (b) the conversion price (or manner of calculation thereof);
 - (c) the conversion period;
 - (d) provisions as to whether conversion will be at the option of the holders of such series of preference ordinary shares or at our option or automatic;
 - (e) the events requiring an adjustment of the conversion price; and
 - (f) provisions affecting conversion in the event of the redemption of such series of preference ordinary shares; and
- (2) in the case such series of preference ordinary shares is exchangeable into debt securities:
 - (a) the principal amount of debt securities into which preference ordinary shares of such series are exchangeable;
 - (b) the exchange period; and
 - (c) provisions as to whether the exchange will be at the option of the holders of such series of preference ordinary shares or at our option or automatic.

Miscellaneous

Our preference ordinary shares will have no preemptive rights. All of our preference ordinary shares, upon payment in full therefor, will be fully paid and nonassessable.

DESCRIPTION OF XL CAPITAL ORDINARY SHARES

General

The following description of our ordinary shares is a summary. This summary is not complete and is subject to the complete text of applicable laws and our Memorandum and Articles of Association.

Voting

The holders of our Class A Ordinary Shares are entitled to one vote per share while our Class B Ordinary Shares carry no voting rights. Our Articles of Association restrict the voting power of any shareholder to less than approximately 10% of total voting power.

Under the Cayman Islands Companies Law (2002 Revision) (the "Law") and our Memorandum and Articles of Association, some matters, such as altering the Memorandum or the Articles of Association, changing the name of a company, voluntarily winding up a company or removing a director, require approval of shareholders by a

special resolution. A special resolution is a resolution (1) passed by a majority of not less than two-thirds of such shareholders

as, being entitled to do so, vote in person or by proxy at a general meeting or (2) approved in writing by all shareholders entitled to vote at a general meeting of the company.

Dividend Rights

Subject to the Law and any rights and restrictions of any other class or series of shares, including our preference ordinary shares, the Board of Directors may from time to time declare dividends on the shares issued and authorize payment of the dividends out of our profit realized or unrealized or out of monies otherwise available for dividends in accordance with the Law. The Board of Directors may declare that any dividend be paid wholly or partly by the distribution of our shares and/or specific assets.

No dividends on the shares issued will be declared by our Board of Directors, or paid or set apart for payment by us, at any time during which the terms and provisions of any of our agreements, including any agreement relating to our indebtedness, or Cayman Islands law prohibit a declaration, payment or setting apart for payment of a dividend or provide that such a declaration, payment or setting apart for payment would constitute a breach or a default or not be permitted thereunder. No dividends on the shares issued will be declared or paid or set apart for payment if prohibited by law or regulation.

Our Articles of Association provide that no dividend shall be payable except out of our profits, realized or unrealized, or out of monies otherwise available for dividends in accordance with Cayman Islands law. Under Cayman Islands law, we may not lawfully declare or pay a dividend out of the share premium account if there are reasonable grounds for believing that we are, or would immediately following the payment of the dividend be, unable to pay our debts as they fall due in the ordinary course of business. In addition, our directors are, as a matter of prudence, required to ensure that any dividend declared or paid is not of an amount that reduces its reserves to a level that is not sufficient to meet the reserve requirements of our business.

Rights upon Liquidation

Upon our liquidation, after the payments to be made in accordance with the Law and the full amounts that holders of any issued shares ranking senior to the ordinary shares, including our preference ordinary shares, as to distribution on liquidation or winding up are entitled to receive have been paid or set aside for payment, the holders of the ordinary shares are entitled to receive, *pro rata*, any remaining assets available for distribution to the holders of ordinary shares. The liquidator may deduct from the amount payable in respect of those ordinary shares any liabilities the holder has to or with us. The assets received by the holders of ordinary shares in a liquidation may consist in whole or in part of property. That property is not required to be of the same kind for all shareholders.

Stock Plans

Our incentive stock plan, the "1991 Performance Incentive Program," provides for grants of non-qualified or incentive stock options, restricted stock awards, restricted stock units, performance shares, performance units and stock appreciation rights ("SARs"). The plan is administered by a Committee designated by the Board of Directors (the "Committee"). Stock options may be granted with or without SARs. Exercise prices (which cannot be less per share than the fair market value per share on the grant date) are established by the Committee at the date of grant. Options and SARs have a life of not longer than 10 years and vest as set forth by the Committee.

Restricted stock awards issued under the 1991 Performance Incentive Program vest over such period as the Committee may approve. These shares contain certain restrictions, prior to vesting, relating to, among other things, forfeiture in the event of termination of employment and transferability. Restricted stock issued under the plan totaled 225,960 shares, 227,795 shares and 77,472 shares in 2002, 2001 and 2000, respectively. Restricted stock awards granted by NAC Re Corp. prior to our merger with it amounted to 3,627 shares in 1999. Vesting for such shares generally occurs over a four to six year period from the date of issue.

We also have stock plans in place for our non-employee directors. All options vest immediately on the grant date. The options granted to non-employee directors in the future will be granted under the Directors Stock & Option Plan. The Directors Stock & Option Plan also provides for grants of restricted stock and restricted stock units to non-

10

employee directors. Directors may also make an irrevocable election preceding the beginning of each fiscal year to defer cash compensation that would otherwise be payable as his or her annual retainer in increments of \$5,000 or receive their annual retainer fee currently in the form of shares instead of cash. Any deferred payments will be credited in the form of shares calculated by dividing 110% of the deferred payment by the market value of our stock on the date the fees would otherwise be payable. The shares are distributed in accordance with the terms of the plan. Shares issued under the plan totaled 3,622, 4,240 and 8,179 in 2002, 2001, and 2000, respectively.

A second stock plan, intended to replace the directors' Retirement Plan for Non-Employee Directors, provides for the issuance of share units determined by dividing the annual retainer by the market price of our ordinary shares on January 1 of each year. These units receive dividends in the form of additional units equal to the cash value divided by the market price on the payment date. Share units totaling 6,659, 7,318 and 12,903 were issued in 2002, 2001 and 2000, respectively.

In 1999, we adopted our 1999 Performance Incentive Program under which 1,250,000 options were available and issued to employees who were not directors or executive officers. Our 1999 Performance Incentive Program is substantially similar to our 1991 Performance Incentive Program.

Share Rights Plan

Rights to purchase ordinary shares (the "Rights") were distributed as a dividend at the rate of one Right for each ordinary share held of record as of the close of business on October 31, 1998. Each Right entitles holders of ordinary shares to buy one ordinary share at an exercise price of \$350. The Rights would be exercisable, and would detach from the ordinary shares, only if a person or group were to acquire 20% or more of our outstanding ordinary shares, or were to announce a tender or exchange offer that, if consummated, would result in a person or group beneficially owning 20% or more of ordinary shares. Upon a person or group without prior approval of the Board of Directors acquiring 20% or more of ordinary shares, each Right would entitle the holder (other than such an acquiring person or group) to purchase ordinary shares (or, in certain circumstances, ordinary shares of the acquiring person) with a value of twice the Rights exercise price upon payment of the Rights exercise price. We will be entitled to redeem the Rights at \$0.01 per Right at any time until the close of business on the tenth day after the Rights become exercisable. The Rights will expire at the close of business on September 30, 2008, and do not initially have a fair value. We have initially reserved 119,073,878 authorized ordinary shares for issuance upon exercise of Rights.

Classified Board

Our Board of Directors is divided into three classes that are elected for staggered three-year terms. A director may be removed by the shareholders without cause only by special resolution of the total voting power of our issued shares determined in accordance with our Articles of Association.

DESCRIPTION OF XL CAPITAL ORDINARY SHARE WARRANTS

General

XL Capital may issue ordinary share warrants independently or together with any securities offered by any prospectus supplement and such ordinary share warrants may be attached to or separate from such securities. Each series of ordinary share warrants will be issued under a separate warrant agreement to be entered into between XL Capital and a bank or trust company, as warrant agent, all as set forth in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the certificates representing the ordinary share warrants and will not assume any obligation or relationship of agency or trust for or with any holders of ordinary share warrant certificates or beneficial owners of ordinary share warrants.

The following summaries of certain provisions of the warrant agreement and ordinary share warrant certificate are not complete. You should look at the warrant agreement relating to, and the common stock warrant certificate representing, a series of ordinary share warrants.

The applicable prospectus supplement may also state that any of the terms set forth herein are inapplicable to such series; provided, that the information set forth in such prospectus supplement does not constitute material changes to the information herein such that it alters the nature of the offering or the securities offered. Ordinary share warrants for the purchase of ordinary shares will be offered and exercisable for U.S. dollars only and will be in registered form only.

Terms

An applicable prospectus supplement will set forth and describe other specific terms regarding each series of ordinary share warrants offered hereby, including:

- (1) the offering price;
- (2) the number of ordinary shares purchasable upon exercise of each such ordinary share warrant and the price at which such number of ordinary shares may be purchased upon such exercise;
- (3) the date on which the right to exercise such ordinary share warrants shall commence and the date on which such right shall expire; and
- (4) any other terms of such ordinary share warrants.

Exercise of Ordinary Share Warrants

Each ordinary share warrant will entitle the holder thereof to purchase such ordinary shares at such exercise price as shall in each case be set forth in, or calculable from, the prospectus supplement relating to the offered ordinary share warrants. After the close of business on the expiration date of each ordinary share warrant or such later date to which such expiration date may be extended by us, unexercised ordinary share warrants will become void.

Ordinary share warrants may be exercised by delivering to the warrant agent payment as provided in the applicable prospectus supplement of the amount required to purchase the ordinary shares purchasable upon such exercise, together with certain information set forth on the reverse side of the ordinary share warrant certificate. Upon receipt of such payment and the ordinary share warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement, we will, as soon as practicable, issue and deliver the ordinary shares purchasable upon such exercise. If fewer than all of the ordinary share warrants represented by such ordinary share certificate are exercised, a new ordinary share warrant certificate will be issued for the remaining amount of ordinary share warrants.

Amendments and Supplements to Warrant Agreement

The warrant agreement for a series of ordinary share warrants may be amended or supplemented without the consent of the holders of the ordinary share warrants issued thereunder to effect changes that are not inconsistent with the provisions of the ordinary share warrants and that do not adversely affect the interests of the holders of the ordinary share warrants.

Ordinary Share Warrant Adjustments

Unless otherwise indicated in the applicable prospectus supplement, the exercise price of, and the number of ordinary shares covered by, an ordinary share warrant are subject to adjustment in certain events, including:

- (1) the issuance of ordinary shares as a dividend or distribution on the ordinary shares;
- (2) certain subdivisions and combinations of the ordinary shares;
- (3) the issuance to all holders of ordinary shares of certain rights or warrants entitling them to subscribe for or purchase ordinary shares, at less than the current market value, as defined in the applicable warrant agreement for such series of ordinary share warrants; and

12

- (4) the distribution to all holders of ordinary shares of certain evidences of our indebtedness or assets, other than certain cash dividends and distributions described below.

No adjustment in the exercise price of, and the number of ordinary shares covered by, an ordinary share warrant will be made for regular quarterly or other periodic or recurring cash dividends or distributions or for cash dividends or distributions to the extent paid from retained earnings. No adjustment will be required unless such adjustment would require a change of at least one percent in the exercise price and exercise rate then in effect; *provided, however*, that any such adjustment not so made will be carried forward and taken into account in any subsequent adjustment; *provided, further*, that any such adjustment not so made shall be made no later than three years after the occurrence of the event requiring such adjustment to be made or carried forward. Except as stated above, the exercise price of, and the number of ordinary shares covered by, an ordinary share warrant will not be adjusted for the issuance of ordinary shares or any securities convertible into or exchangeable for ordinary shares, or securities carrying the right to purchase any of the foregoing.

In the case of:

- (1) a reclassification or change of the ordinary shares;
- (2) certain consolidation or merger events involving us; or
- (3) a sale or conveyance to another corporation of our property and assets as an entirety or substantially as an entirety;

in each case as a result of which holders of our ordinary shares shall be entitled to receive stock, securities, other property or assets (including cash) with respect to or in exchange for such ordinary shares, the holders of the ordinary share warrants then outstanding will be entitled thereafter to convert such ordinary share warrants into the kind and amount of ordinary shares and other securities or property which they would have received upon such reclassification, change, consolidation, merger, sale or conveyance had such ordinary share warrants been exercised immediately prior to such reclassification, change, consolidation, merger, sale or conveyance.

DESCRIPTION OF XL CAPITAL ORDINARY SHARE PURCHASE CONTRACTS AND ORDINARY SHARE PURCHASE UNITS

XL Capital may issue share purchase contracts, representing contracts obligating holders to purchase from XL Capital, and obligating XL Capital to sell to the holders, or holders to sell to XL Capital and XL Capital to purchase from the holders, a fixed or varying number of ordinary shares at a future date or dates. The price per ordinary share may be fixed at the time the share purchase contracts are entered into or may be determined by reference to a specific formula set forth in the share purchase contracts. Any share purchase contract may include anti-dilution provisions to adjust the number of shares to be delivered pursuant to such share purchase contract upon the occurrence of certain events. The share purchase contracts may be entered into separately or as a part of share purchase units consisting of one or more share purchase contracts and any one or more of:

- (1) debt securities of XL Capital (which may be senior or subordinated);

- (2) senior debt securities of XL Capital Finance (Europe) plc, fully and unconditionally guaranteed by XL Capital;
- (3) preference ordinary shares of XL Capital;
- (4) trust preferred securities of an XL Capital Trust; or
- (5) debt or equity obligations of third parties, including U.S. Treasury securities.

13

The share purchase contracts may require us to make periodic payments to the holders of the share purchase units or vice versa, and such payments may be unsecured or prefunded and may be paid on a current or on a deferred basis. The share purchase contracts may require holders to secure their obligations in a specified manner and in certain circumstances we may deliver newly issued prepaid share purchase contracts upon release to a holder of any collateral securing such holder's obligations under the original share purchase contract. Any one or more of the above securities, ordinary shares or the share purchase contracts or other collateral may be pledged as security for the holders' obligations to purchase or sell, as the case may be, the ordinary shares under the share purchase contracts. The share purchase contracts may also allow the holders, under certain circumstances, to obtain the release of the security for their obligations under such contracts by depositing with the collateral agent as substitute collateral, treasury securities with a principal amount at maturity equal to the collateral so released or the maximum number of ordinary shares deliverable by such holders under ordinary share purchase contracts requiring the holders to sell ordinary shares to XL Capital.

The applicable prospectus supplement will describe the terms of any share purchase contracts or share purchase units and, if applicable, prepaid share purchase contracts. The description in the prospectus supplement will be qualified in its entirety by reference to (1) the share purchase contracts, (2) the collateral arrangements and depository arrangements, if applicable, relating to such share purchase contracts or share purchase units and (3) if applicable, the prepaid share purchase contracts and the document pursuant to which such prepaid share purchase contracts will be issued.

DESCRIPTION OF XL CAPITAL DEBT SECURITIES

General

XL Capital may issue debt securities from time to time in one or more series, under one or more indentures, each dated as of a date on or prior to the issuance of the debt securities to which it relates. Senior debt securities and subordinated debt securities may be issued pursuant to separate indentures, a senior indenture and a subordinated indenture, respectively, in each case between us and a trustee qualified under the Trust Indenture Act. Such indentures are subject to such amendments or supplements as may be adopted from time to time. The senior indenture and the subordinated indenture, as amended or supplemented from time to time, are sometimes referred to individually as an "indenture" and collectively as the "indentures." Each indenture is subject to and governed by the Trust Indenture Act. The aggregate principal amount of debt securities which may be issued under each indenture is unlimited and each indenture provides that the specific terms of any series of debt securities will be set forth in, or determined pursuant to, an authorizing resolution, as defined in the applicable prospectus supplement, and/or a supplemental indenture, if any, relating to such series.

The statements made below relating to the debt securities and the indentures are summaries of the material provisions thereof and are subject to, and are qualified by reference to, the provisions of the applicable indenture and any applicable U.S. federal income tax considerations as well as any applicable supplements to the terms described below in the applicable prospectus supplement. The applicable prospectus supplement may also state that any of the terms set forth herein are inapplicable to such series of debt securities; provided, that the information set forth in such prospectus supplement does not constitute material changes to the information herein such that it alters the nature of the offering or the securities offered.

Terms

The debt securities will be our unsecured obligations.

The senior debt securities will rank equal in right of payment with all our other unsecured and unsubordinated indebtedness.

The subordinated debt securities will be subordinated in right of payment to the prior payment in full of all our senior indebtedness, which is defined in the section called "Ranking of Debt Securities" below.

14

The specific terms of each series of debt securities will be set forth in the applicable prospectus supplement relating thereto, including the following, as applicable:

- (1) the title of such debt securities and whether such debt securities are senior debt securities or subordinated debt securities and, if subordinated debt securities, the specific subordination provisions applicable thereto;
- (2) the aggregate principal amount of such debt securities and any limit on such aggregate principal amount;
- (3) the price (expressed as a percentage of the principal amount thereof) at which such debt securities will be issued and, if other than the principal amount thereof, the portion of the principal amount thereof payable upon declaration of acceleration of the maturity thereof, or, if applicable, the portion of the principal amount of such debt securities that is convertible into ordinary shares or preference ordinary shares or the method by which any such portion shall be determined;
- (4) if convertible into our ordinary shares or preference ordinary shares, the terms on which such debt securities are convertible, including the initial conversion price, the conversion period, any events requiring an adjustment of the applicable conversion price and any requirements relating to the reservation of such ordinary shares or preference ordinary shares for purposes of conversion;
- (5) the date(s), or the method for determining such date or dates, on which the principal of such debt securities will be payable and, if applicable, the terms on which such maturity may be extended;
- (6) the rate(s) (which may be fixed or floating), or the method by which such rate or rates shall be determined, at which such debt securities will bear interest, if any, including, if applicable, that such debt securities will bear interest at an increased rate (up to a specified maximum) upon the occurrence of an event of default and/or under certain circumstances described in the applicable prospectus supplement (which may include, among other things, a reduction in the trading price of our ordinary shares below certain levels for a minimum period of time);
- (7) the date(s), or the method for determining such date or dates, from which any such interest will accrue, the dates on which any such interest will be payable, the record dates for such interest payment dates, or the method by which such dates shall be determined, the persons to whom such interest shall be payable, and the basis upon which interest shall be calculated if other than that of a 360-day year of twelve 30-day months;
- (8) the place(s) where the principal of and interest, if any, on such debt securities will be payable, where such debt securities may be surrendered for registration of transfer or exchange and where notices or demands to or upon us in respect of such debt securities and the applicable indenture may be served;
- (9) the period(s), if any, within which, the price or prices at which and the other terms and conditions upon which such debt securities may, pursuant to any optional or mandatory redemption provisions, be redeemed, as a whole or in part, at our option;
- (10) our obligation, if any, to redeem, repay or repurchase such debt securities pursuant to any sinking fund (as defined in the applicable supplemental indenture) or analogous provision or at the option of a holder thereof, and the period or periods within which, the price or prices at which and the other terms and conditions upon which such debt securities will be redeemed, repaid or purchased, as a whole or in part, pursuant to such obligations;
- (11) if other than U.S. dollars, the currency or currencies in which the principal of and interest, if any, on such debt securities are denominated and payable, which may be a foreign currency or units of two or more

foreign currencies or a composite currency or currencies, and the terms and conditions relating thereto;

15

-
- (12) whether the amount of payments of principal of or interest, if any, on such debt securities may be determined with reference to an index, formula or other method (which index, formula or method may, but need not be, based on the yield on or trading price of other securities, including United States Treasury securities, or on a currency, currencies, currency unit or units, or composite currency or currencies) and the manner in which such amounts shall be determined;
 - (13) whether the principal of or interest, if any, on the debt securities of the series are to be payable, at our election or a holder thereof, in a currency or currencies, currency unit or units or composite currency or currencies other than that in which such debt securities are denominated or stated to be payable and the period or periods within which, and the terms and conditions upon which, such election may be made;
 - (14) provisions, if any, granting special rights to the holders of debt securities of the series upon the occurrence of such events as may be specified;
 - (15) any deletions from, modifications of or additions to the events of default or our covenants with respect to debt securities of the series, whether or not such events of default or covenants are consistent with the events of default or covenants described herein;
 - (16) whether debt securities of the series are to be issuable initially in temporary global form and whether any debt securities of the series are to be issuable in permanent global form and, if so, whether beneficial owners of interests in any such security in permanent global form may exchange such interests for debt securities of such series and of like tenor of any authorized form and denomination and the circumstances under which any such exchanges may occur, if other than in the manner provided in the applicable indenture, and, if debt securities of the series are to be issuable as a global security, the identity of the depository for such series;
 - (17) the applicability, if any, of the defeasance and covenant defeasance provisions of the applicable indenture to the debt securities of the series;
 - (18) if exchangeable into another series of debt securities of XL Capital, the terms on which such debt securities are exchangeable; and
 - (19) any other terms of the series of debt securities and any additions to the applicable indenture.

The debt securities, if convertible or exchangeable, will not be convertible into or exchangeable for securities of a third party.

If the applicable prospectus supplement provides, the debt securities may be issued at a discount below their principal amount and provide for less than the entire principal amount thereof to be payable upon declaration of acceleration of the maturity thereof. In such cases, all material U.S. federal income tax considerations will be described in the applicable prospectus supplement.

Except as may be set forth in the applicable prospectus supplement, the debt securities will not contain any provisions that would limit our ability to incur indebtedness or that would afford holders of debt securities protection from transactions involving us, including a highly leveraged transaction involving us or a change in control. The applicable prospectus supplement will contain information with respect to any additions to the events of default or covenants described below, including any addition of a covenant or other provision providing event risk or similar protection.

Denomination, Interest, Registration and Transfer

We will issue the debt securities of each series only in registered form, without coupons, in denominations of \$1,000, or in such other currencies or denominations as may be set forth in the applicable supplemental indenture or specified in, or pursuant to, an authorizing resolution, if any, relating to such series of debt securities.

16

The principal of and interest, if any, on any series of debt securities will be payable at the corporate trust office of the trustee, the address of which will be stated in the applicable prospectus supplement. However, at our option, interest payment may be made by check mailed to the address of the person entitled thereto as it appears in the applicable register for such debt securities.

Subject to certain limitations imposed upon debt securities issued in book-entry form, the debt securities of any series:

- will be exchangeable for any authorized denomination of other debt securities of the same series and of a like aggregate principal amount and tenor upon surrender of such debt securities at the trustee's corporate trust office or at the office of any registrar designated by us for such purpose; and
- may be surrendered for registration of transfer or exchange thereof at the corporate trust office of the trustee or at the office of any registrar designated by us for such purpose.

No service charge will be made for any registration of transfer or exchange, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with certain transfers and exchanges. We may act as registrar and may change any registrar without notice.

Certain Covenants

The applicable prospectus supplement will describe any material covenants in respect of a series of debt securities that are not described in this prospectus.

Provisions Applicable to all Debt Securities

Unless otherwise indicated in the applicable prospectus supplement, senior debt securities and the subordinated debt securities will include the provisions described below.

Merger, Consolidation or Sale of Assets

We may not (1) consolidate with or merge into any other person or convey, transfer, sell or lease our properties and assets substantially as an entirety to any person, (2) permit any person to consolidate with or merge into us or (3) permit any person to convey, transfer, sell or lease that person's properties and assets substantially as an entirety to us unless:

- in the case of (1) and (2) above, if we are not the surviving person, such surviving person is an entity organized and existing under the laws of the United States of America (including any State thereof or the District of Columbia), the United Kingdom, the Cayman Islands, Bermuda or any country which is, on the date of the applicable prospectus supplement and supplemental indenture, a member of the Organization of Economic Development or the European Union and the surviving person assumes the payment of the principal of premium, if any, and interest on the debt securities and the performance of our other covenants under the applicable indenture; and
- in all cases, immediately after giving effect to the transaction, no event of default, and no event that, after notice or lapse of time or both, would become an event of default, will have occurred and be continuing.

Provisions Applicable to Senior Debt Securities Only

Unless otherwise indicated in the applicable prospectus supplement, senior debt securities will include the provisions described below.

The following is a term used in the indentures relating to the senior debt securities.

A "change in control" will be deemed to have occurred at such time as:

- (1) any person, including any syndicate or group deemed to be a "person" under Section 13(d)(3) of the Exchange Act, acquires beneficial ownership, directly or indirectly, through a purchase, merger or other acquisition transaction or series of transactions, of shares of our capital stock entitling the person to exercise 50% or more of the total voting power of all shares of our capital stock that is entitled to vote generally in elections of directors, other than an acquisition by us, any of our subsidiaries or any of our employee benefit plans and other than any transaction contemplated by the second bullet point of clause (2) below; or
- (2) we merge or consolidate with or into any other person (other than a subsidiary), any merger of another person (other than a subsidiary) into us, or we convey, sell, transfer or lease all or substantially all of our assets to another person (other than a subsidiary), other than any transaction:
 - that does not result in a reclassification, conversion, exchange or cancellation of our outstanding ordinary shares (other than the cancellation of any of our outstanding ordinary shares held by the person with whom we merge or consolidate), or
 - pursuant to which the holders of our ordinary shares immediately prior to the transaction have the entitlement to exercise, directly or indirectly, 50% or more of the total voting power of all shares of capital stock entitled to vote generally in the election of directors of the continuing or surviving corporation immediately after the transaction, or
 - which is effected solely to change our jurisdiction of incorporation and results in a reclassification, conversion or exchange of our outstanding ordinary shares solely into shares of common stock of the surviving entity.

However, a change in control will not be deemed to have occurred if either:

(A) in the case of debt securities that are convertible into ordinary shares of XL Capital, the closing price for our ordinary shares for any five trading days within the period of 10 consecutive trading days ending immediately after the later of the change in control or the public announcement of the change in control, in the case of a change in control relating to an acquisition of capital stock, or the period of 10 consecutive trading days ending immediately before the change in control, in the case of a change in control relating to a merger, consolidation or asset sale, equals or exceeds 105% of the average of the closing prices for such convertible debt securities on each of such trading days; or

(B) all of the consideration (excluding cash payments for fractional shares and cash payments made pursuant to dissenters' appraisal rights) in a merger or consolidation otherwise constituting a change in control under clause (1) and/or clause (2) above consists of shares of common stock traded on a national securities exchange or quoted on the Nasdaq National Market (or will be so traded or quoted immediately following the merger or consolidation).

Ranking of Debt Securities

General

We currently conduct substantially all of our operations through our subsidiaries and our subsidiaries generate substantially all of our operating income and cash flow. As a result, distributions and advances from our subsidiaries are the principal source of funds necessary to meet our debt service obligations. Contractual provisions or laws, as well as our subsidiaries' financial condition and operating and regulatory requirements, may limit our ability to obtain cash from our subsidiaries that we require to pay our debt service obligations. For a description of certain regulatory restrictions on the payment of dividends by our subsidiaries, see Note 22 of the Notes to Consolidated Financial Statements of XL Capital included in our Form 10-K for the year ended December 31, 2002. In addition, because we are a holding company, holders of the debt securities will have a junior position to the claims of creditors of our subsidiaries on their assets and earnings.

Senior debt securities

The senior debt securities will be our unsecured unsubordinated obligations and will:

- rank equal in right of payment with all our other unsecured and unsubordinated indebtedness;
- be effectively subordinated in right of payment to all our secured indebtedness to the extent of the value of the assets securing such indebtedness; and
- be effectively subordinated to all of our subsidiaries' indebtedness and all mandatorily redeemable preferred stock of our subsidiaries.

As of March 31, 2003, the aggregate amount of our outstanding consolidated indebtedness for money borrowed was approximately \$1.9 billion, of which none was secured and all would rank equal in right of payment with the senior debt that may be issued under the senior debt indenture. As of March 31, 2003, the aggregate amount of outstanding indebtedness for money borrowed of our subsidiaries (other than XL Capital Finance (Europe) plc) that would effectively rank senior to the senior debt issued under the senior debt indenture was approximately \$355.0 million.

Except as otherwise set forth in the applicable senior indenture or specified in an authorizing resolution and/or supplemental indenture, if any, relating to a series of senior debt securities to be issued, there are no limitations in the senior indenture on the amount of additional indebtedness which may rank equal with the senior debt securities or on the amount of indebtedness, secured or otherwise, which may be incurred or preferred stock which may be issued by any of our subsidiaries.

Subordinated debt securities

The subordinated debt securities will be our unsecured subordinated obligations. Unless otherwise provided in the applicable prospectus supplement, the payment of principal of, interest on and all other amounts owing in respect of the subordinated debt securities will be subordinated in right of payment to the prior payment in full in cash of principal of, interest on and all other amounts owing in respect of all of our senior indebtedness. Upon any payment or distribution of our assets of any kind or character, whether in cash, property or securities, to creditors upon any total or partial liquidation, dissolution, winding up, reorganization, assignment for the benefit of creditors or marshaling of our assets or in a bankruptcy, reorganization, insolvency, receivership or other similar proceeding relating to us or our property, whether voluntary or involuntary, all principal of, interest on and all other amounts due or to become due shall be paid, first, to all senior indebtedness in full in cash, or such payment duly provided for to the satisfaction of the holders of senior indebtedness, before any payment or distribution of any kind or character is made on account of any principal of, interest on or other amounts owing in respect of the subordinated debt securities, or for the acquisition of any of the subordinated debt securities for cash, property or otherwise.

As of March 31, 2003, the aggregate amount of our outstanding consolidated indebtedness for money borrowed was approximately \$1.9 billion, of which all would rank senior in right of payment to the subordinated debt issuable under the subordinated debt indenture. As of March 31, 2003, the aggregate amount of outstanding indebtedness for money borrowed of our subsidiaries (other than XL Capital Finance (Europe) plc) that would effectively rank senior to the subordinated debt that may be issued under the subordinated debt indenture was approximately \$355.0 million.

If any default occurs and is continuing in the payment when due, whether at maturity, upon any redemption, by declaration or otherwise, of any principal of, interest on, unpaid drawings for letters of credit issued in respect of, or regularly accruing fees with respect to, any senior indebtedness, no payment of any kind or character shall be made by or on behalf of us or any other person on our or their behalf with respect to any principal of, interest on or other amounts owing in respect of the subordinated debt securities or to acquire any of the subordinated debt securities for cash, property or otherwise.

If any other event of default occurs and is continuing with respect to any senior indebtedness, as such event of default is defined in the instrument creating or evidencing such senior indebtedness, permitting the holders of such senior indebtedness then outstanding to accelerate the maturity thereof and if the representative (as defined in the

applicable indenture) for the respective issue of senior indebtedness gives written notice of the event of default to the trustee (a "default notice"), then, unless and until all events of default have been cured or waived or have ceased to exist or the trustee receives notice from the representative for the respective issue of senior indebtedness terminating the blockage period (as defined below), during the 179 days after the delivery of such default notice (the "blockage period"), neither we nor any other person on its behalf shall:

- (1) make any payment of any kind or character with respect to any principal of, interest on or other amounts owing in respect of the subordinated debt securities; or
- (2) acquire any of the subordinated debt securities for cash, property or otherwise.

Notwithstanding anything herein to the contrary, in no event will a blockage period extend beyond 179 days from the date the payment on the subordinated debt securities was due and only one such blockage period may be commenced within any 360 consecutive days. No event of default which existed or was continuing on the date of the commencement of any blockage period with respect to the senior indebtedness shall be, or be made, the basis for commencement of a second blockage period by the representative of such senior indebtedness whether or not within a period of 360 consecutive days unless such event of default shall have been cured or waived for a period of not less than 90 consecutive days (it being acknowledged that any subsequent action, or any breach of any financial covenants for a period commencing after the date of commencement of such blockage period that, in either case, would give rise to an event of default pursuant to any provisions under which an event of default previously existed or was continuing shall constitute a new event of default for this purpose).

The subordinated indentures do not and any supplemental subordinated indenture will not, restrict the amount of our or our subsidiaries' senior indebtedness or other indebtedness. As a result of the foregoing provisions, in the event of our insolvency, holders of the subordinated debt securities may recover ratably less than our general creditors.

"senior indebtedness," unless otherwise specified in one or more applicable supplemental indentures or approved pursuant to a board resolution in accordance with the applicable indenture, means, with respect to us,

- (1) the principal (including redemption payments), premium, if any, interest and other payment obligations in respect of (A) our indebtedness for money borrowed and (B) our indebtedness evidenced by securities, debentures, bonds, notes or other similar instruments issued by us, including any such securities issued under any deed, indenture or other instrument to which we are a party (including, for the avoidance of doubt, indentures pursuant to which senior debt securities have been or may be issued);
- (2) all of our capital lease obligations;
- (3) all of our obligations issued or assumed as the deferred purchase price of property, all of our conditional sale obligations, all of our hedging agreements and agreements of a similar nature thereto and all agreements relating to any such agreements, and all of our obligations under any title retention agreement (but excluding trade accounts payable arising in the ordinary course of business);
- (4) all of our obligations for reimbursement on any letter of credit, banker's acceptance, security purchase facility or similar credit transaction;
- (5) all obligations of the type referred to in clauses (1) through (4) above of other persons for the payment of which we are responsible or liable as obligor, guarantor or otherwise;
- (6) all obligations of the type referred to in clauses (1) through (5) above of other persons secured by any lien on any of our property or assets (whether or not such obligation is assumed by us); and
- (7) any deferrals, amendments, renewals, extensions, modifications and refundings of all obligations of the type referred to in clauses (1) through (6) above, in each case whether or not contingent and whether outstanding at the date of effectiveness of the applicable supplemental indenture or thereafter incurred;

except, in each case, for the subordinated debt securities and any such other indebtedness or deferral, amendment, renewal, extension, modification or refunding that contains express terms, or is issued under a deed,

indenture or other instrument, which contains express terms, providing that it is subordinate to or ranks equal with the subordinated debt securities.

Such senior indebtedness shall continue to be senior indebtedness and be entitled to the benefits of the subordination provisions of the applicable indenture irrespective of any amendment, modification or waiver of any term of such senior indebtedness and notwithstanding that no express written subordination agreement may have been entered into between the holders of such senior indebtedness and the trustee or any of the holders.

Discharge and Defeasance

Under the terms of the indenture, we will be discharged from any and all obligations in respect of the debt securities of any series and the applicable indenture (except in each case for certain obligations to register the transfer or exchange of debt securities, replace stolen, lost or mutilated debt securities, maintain paying agencies and hold moneys for payment in trust) if:

- (1) we deliver all outstanding debt securities of such series to the trustee for cancellation and pay all sums payable by us under such debt securities and the indenture with respect to such series; or
- (2) such debt securities either have become due and payable or will become due and payable within one year (or scheduled for redemption within one year) and we deposit with the debt securities trustee, in trust:
 - (a) in the case of any debt securities of any series denominated in U.S. dollars, cash or U.S. government obligations sufficient to pay all principal of and interest and premium, if any, on such debt securities; and
 - (b) in the case of any debt securities of any series denominated in any currency other than U.S. dollars, an amount of the applicable currency in which such debt securities are denominated sufficient to pay all principal of and interest and premium, if any, on such debt securities.

In addition, unless the applicable prospectus supplement and supplemental indenture provide otherwise, we may elect either (1) to defease and be discharged from any and all obligations with respect to such debt securities (□defeasance□) or (2) to be released from our obligations with respect to such debt securities under certain covenants in the applicable indenture, and any omission to comply with such obligations will not constitute a default or an event of default with respect to such debt securities (□covenant defeasance□):

- (1) by delivering all outstanding debt securities of such series to the trustee for cancellation and paying all sums payable by it under such debt securities and the indenture with respect to such series;
- (2) by delivering to the trustee an officers□ certificate as to solvency and the absence of intent of preferring holders of the debt securities over our other creditors; and
- (3) after giving notice to the trustee of our intention to defease all of the debt securities of such series, by irrevocably depositing with the trustee or a paying agent
 - (a) in the case of any debt securities of any series denominated in U.S. dollars, cash or U.S. government obligations sufficient to pay all principal of and interest on such debt securities; and
 - (b) in the case of any debt securities of any series denominated in any currency other than U.S. dollars, an amount of the applicable currency in which the debt securities are denominated sufficient to pay all principal of and interest on such debt securities.

21

Such a trust may only be established if, among other things:

- (1) the applicable defeasance or covenant defeasance does not result in a breach or violation of, or constitute a default under or any material agreement or instrument to which we are a party or by which we are bound;
- (2) no event of default or event which with notice or lapse of time or both would become an event of default with respect to the debt securities to be defeased will have occurred and be continuing on the date of establishment of such a trust after giving effect to such establishment and, with respect to defeasance only, no bankruptcy proceeding with respect to us will have occurred and be continuing at any time during the

period ending on the 91st day after such date; and

- (3) we have delivered to the trustee an opinion of counsel (as specified in the applicable supplemental indenture) to the effect that the holders will not recognize income, gain or loss for United States federal income tax purposes as a result of such defeasance or covenant defeasance and will be subject to United States federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance or covenant defeasance had not occurred, and such opinion of counsel, in the case of defeasance, must refer to and be based upon a letter ruling of the Internal Revenue Service received by us, a Revenue Ruling published by the Internal Revenue Service or a change in applicable United States federal income tax law occurring after the date of the applicable supplemental indenture.

In the event we effect covenant defeasance with respect to any debt securities and such debt securities are declared due and payable because of the occurrence of any event of default, other than an event of default with respect to any covenant as to which there has been covenant defeasance, the government obligations on deposit with the trustee will be sufficient to pay amounts due on such debt securities at the time of the stated maturity but may not be sufficient to pay amounts due on such debt securities at the time of the acceleration resulting from such event of default.

Modification and Waiver

We, when authorized by a board resolution, and the trustee may modify, amend and/or supplement the applicable indenture and the applicable debt securities with the consent of the holders of not less than a majority in principal amount of the outstanding debt securities of all series affected thereby (voting as a single class); *provided, however*, that such modification, amendment or supplement may not, without the consent of each holder of the debt securities affected thereby:

- (1) change the stated maturity of the principal of, or any premium or any installment of interest with respect to the debt securities;
- (2) reduce the principal amount of, or the rate of interest on or any premium payable upon the redemption of, the debt securities;
- (3) change the currency of payment of principal of or interest on the debt securities;
- (4) change the redemption provisions, if any, of any debt securities in any manner adverse to the holders of such series of debt securities;
- (5) impair the right to institute suit for the enforcement of any payment on or with respect to the debt securities;
- (6) reduce the above-stated percentage of holders of the debt securities of any series necessary to modify or amend the indenture relating to such series;
- (7) in the case of any subordinated indenture, modify the subordination provisions thereof in a manner adverse to the holders of such subordinated debt securities then outstanding;

22

-
- (8) in the case of any convertible debt securities, adversely affect the right to convert such debt securities into ordinary shares or preference ordinary shares in accordance with the provisions of the applicable indenture;
 - (9) modify or change any provision of the applicable indenture or the related definitions affecting the ranking of the applicable series of senior debt securities in a manner which adversely affects the holders of such senior debt securities; or
 - (10) modify the foregoing requirements or reduce the percentage of outstanding debt securities necessary to waive any covenant or past default.

Holders of not less than a majority in principal amount of the outstanding debt securities of all series affected thereby (voting as a single class) may waive certain past defaults and may waive compliance by us with any provision of the indenture relating to such debt securities (subject to the immediately preceding sentence); *provided, however*, that:

- (1) without the consent of each holder of debt securities affected thereby, no waiver may be made of a default in the payment of the principal of or interest on any debt security or in respect of a covenant or provision of the indenture that expressly states that it cannot be modified or amended without the consent of each holder affected; and
- (2) only the holders of a majority in principal amount of debt securities of a particular series may waive compliance with a provision of the indenture relating to such series or the debt securities of such series having applicability solely to such series.

We, when authorized by a board resolution, and the trustee may amend or supplement the indentures or waive any provision of such indentures and the debt securities without the consent of any holders of debt securities in some circumstances, including:

- to cure any ambiguity, omission, defect or inconsistency;
- to make any change that does not, in the good faith opinion of our board of directors and the trustee, adversely affect the interests of holders of such debt securities in any material respect;
- to provide for the assumption of our obligations under the applicable indenture by a successor upon any merger, consolidation or asset transfer permitted under the applicable indenture;
- to provide any security for or guarantees of such debt securities;
- to add events of default with respect to such debt securities;
- to add covenants that would benefit the holders of such debt securities or to surrender any rights or powers we have under the applicable indenture;
- to make any change necessary for the registration of the debt securities under the Securities Act or to comply with the Trust Indenture Act of 1939, or any amendment thereto, or to comply with any requirement of the SEC in connection with the qualification of the applicable indenture under the Trust Indenture Act of 1939; *provided, however*, that such modification or amendment does not, in the good faith opinion of our board of directors and the trustee, adversely affect the interests of the holders of such debt securities in any material respect;
- to provide for uncertificated debt securities in addition to or in place of certificated debt securities or to provide for bearer debt securities;

23

- to add to or change any of the provisions of the applicable indenture to such extent as shall be necessary to permit or facilitate the issuance of the debt securities in bearer form, registrable or not registrable as to principal, and with or without interest coupons;
- to change or eliminate any of the provisions of the applicable indenture, *provided, however*, that any such change or elimination shall become effective only when there is no debt security outstanding of any series created prior to the execution of such supplemental indenture which is entitled to the benefit of such provision;
- to establish the form or terms of debt securities of any series as permitted by the applicable indenture; or
- to evidence and provide for the acceptance of appointment by a successor trustee with respect to the debt securities of one or more series and to add to or change any of the provisions of the applicable indenture as shall be necessary to provide for or facilitate the administration of the trusts under the applicable indenture by more than one trustee, pursuant to the requirements of the applicable indenture.

Events of Default and Notice Thereof

The following events are [events of default] with respect to any series of debt securities issued hereunder:

- (1) failure to pay interest on any debt securities of such series within 60 days of when due or principal of any debt securities of such series when due (including any sinking fund installment);
- (2) failure to perform any other agreement contained in the debt securities of such series or the indenture relating to such series (other than an agreement relating solely to another series of debt securities) for 60 days after notice; and

(3) certain events of bankruptcy, insolvency or reorganization with respect to us.

Additional or different events of default, if any, applicable to the series of debt securities in respect of which this prospectus is being delivered will be specified in the applicable prospectus supplement.

The trustee under such indenture shall, within 90 days after the occurrence of any default (the term "default" to include the events specified above without grace or notice) with respect to any series of debt securities actually known to it, give to the holders of such debt securities notice of such default; *provided, however*, that, except in the case of a default in the payment of principal of or interest on any of the debt securities of such series or in the payment of a sinking fund installment, the trustee for such series shall be protected in withholding such notice if it in good faith determines that the withholding of such notice is in the interest of the holders of such debt securities; and *provided, further*, that in the case of any default of the character specified in clause (2) above with respect to debt securities of such series, no such notice to holders of such debt securities will be given until at least 30 days after the occurrence thereof. We shall certify to the trustee quarterly as to whether any default exists.

In the case of an event of default, other than an event of default resulting from bankruptcy, insolvency or reorganization, with respect to any series of debt securities shall occur and be continuing, the trustee for such series or the holders of at least 25% in aggregate principal amount of the debt securities of such series then outstanding, by notice in writing to us (and to the trustee for such series if given by the holders of the debt securities of such series), will be entitled to declare all unpaid principal of and accrued interest on such debt securities then outstanding to be due and payable immediately.

In the case of an event of default resulting from certain events of bankruptcy, insolvency or reorganization, all unpaid principal of and accrued interest on all debt securities of such series then outstanding shall be due and payable immediately without any declaration or other act on the part of the trustee for such series or the holders of any debt securities of such series.

Such acceleration may be annulled and past defaults (except, unless theretofore cured, a default in payment of principal of or interest on the debt securities of such series) may be waived by the holders of a majority in principal amount of the debt securities of such series then outstanding upon the conditions provided in the applicable indenture.

No holder of the debt securities of any series issued thereunder may pursue any remedy under such indenture unless the trustee for such series shall have failed to act after, among other things, notice of an event of default and request by holders of at least 25% in principal amount of the debt securities of such series of which the event of default has occurred and the offer to the trustee for such series of indemnity satisfactory to it; *provided, however*, that such provision does not affect the right to sue for enforcement of any overdue payment on such debt securities.

Conversion and Exchange Rights

The terms and conditions, if any, upon which the debt securities of any series will be convertible into our ordinary shares or preference ordinary shares or upon which the senior debt securities of any series will be exchangeable for another series of our debt securities will be set forth in the prospectus supplement relating thereto. Such terms will include the conversion or exchange price (or manner of calculation thereof), the conversion or exchange period, provisions as to whether conversion or exchange will be at the option of the holders of such series of debt securities or at our option or automatic, the events requiring an adjustment of the conversion or exchange price and provisions affecting conversion or exchange in the event of the redemption of such series of debt securities. The debt securities, if convertible or exchangeable, will not be convertible into or exchangeable for securities of a third party.

The Trustee

Subject to the terms of the applicable indenture, the trustee for each series of debt securities is U.S. Bank National Association. Each indenture contains certain limitations on a right of the trustee, as our creditor, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The trustee is permitted to engage in other transactions; *provided, however*, that if it acquires any conflicting interest, it must eliminate such conflict or resign.

Subject to the terms of the applicable indenture, the holders of a majority in principal amount of all outstanding debt securities of a series (or if more than one series is affected thereby, of all series so affected, voting as a single class) have the right to direct the time, method and place of conducting any proceeding for exercising any remedy or power available to the trustee for such series or all such series so affected.

In case an event of default shall occur (and shall not be cured) under any indenture relating to a series of debt securities and is actually known to a responsible officer of the trustee for such series, such trustee shall exercise such of the rights and powers vested in it by such indenture and use the same degree of care and skill in its exercise as a prudent person would exercise or use under the circumstances in the conduct of his own affairs. Subject to such provisions, the trustee will not be under any obligation to exercise any of its rights or powers under the applicable indenture at the request of any of the holders of debt securities unless they shall have offered to the trustee security and indemnity satisfactory to it.

Governing Law

The indentures and the debt securities are governed by the laws of the State of New York.

Global Securities; Book-Entry System

We may issue the debt securities of any series in whole or in part in the form of one or more global securities to be deposited with, or on behalf of, a depository (the "depository") identified in the prospectus supplement relating to such series. "Global securities" represent in the aggregate the total principal or face amount of the securities and, once on deposit with a depository, allow trading of the securities through the depository's book-entry system (as further described below). Global securities, if any, issued in the United States are expected to be deposited with The Depository Trust Company ("DTC"), as depository. Global securities will be issued in fully registered form and may be issued in either temporary or permanent form. Unless and until it is exchanged in whole or in part for the individual debt

securities represented thereby, a global security may not be transferred except as a whole by the depository for such global security to a nominee of such depository or by a nominee of such depository to such depository or another nominee of such depository or by such depository or any nominee of such depository to a successor depository or any nominee of such successor.

The specific terms of the depository arrangement with respect to any series of debt securities will be described in the prospectus supplement relating to such series. We expect that unless otherwise indicated in the applicable prospectus supplement, the following provisions will apply to depository arrangements.

Upon the issuance of a global security, the depository for such global security or its nominee will credit on its book-entry registration and transfer system the respective principal amounts of the individual debt securities represented by such global security to the accounts of persons that have accounts with such depository ("participants"). Such accounts will be designated by the underwriters, dealers or agents with respect to such debt securities or by us if such debt securities are offered directly by us. Ownership of beneficial interests in such global security will be limited to participants or persons that may hold interests through participants.

We expect that, pursuant to procedures established by DTC, ownership of beneficial interests in any global security with respect to which DTC is the depository will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC or its nominee (with respect to beneficial interests of participants) and records of participants (with respect to beneficial interests of persons who hold through participants). Neither we nor the trustee will have any responsibility or liability for any aspect of the records of

DTC or for maintaining, supervising or reviewing any records of DTC or any of its participants relating to beneficial ownership interests in the debt securities. The laws of some states require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and laws may impair the ability to own, pledge or transfer beneficial interest in a global security.

So long as the depositary for a global security or its nominee is the registered owner of such global security, such depositary or such nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by such global security for all purposes under the applicable indenture. Except as described below or in the applicable prospectus supplement, owners
