Item 8.01 Other Information

Honeywell International Inc. (the “Company”) today announced the completion on July 11, 2014 of the sale of its Friction Materials business to Federal-Mogul Corporation in a cash transaction valued at approximately \$155 million. The Company will realign its Transportation Systems business segment with its Aerospace business segment to better take advantage of the engineering and technology similarities and the shared business models between these two business segments. Under the realigned segment reporting structure, the Company will have three business segments: Aerospace, Automation and Control Solutions, and Performance Materials and Technologies.

This realignment has no impact on the Company’s historical consolidated financial position, results of operations or cash flows. Effective with the reporting of third quarter 2014 results, the Company will report its financial performance based on the inclusion of Transportation Systems in Aerospace. To provide historical information on a basis consistent with its new reporting structure, the Company will make available during the third quarter of 2014 certain historical segment results recast to conform to the new reporting structure. The recasted financial information will not represent a restatement of previously issued financial statements.
