PROXY STATEMENT

The enclosed Proxy is solicited on behalf of Neurocrine Biosciences, Inc., a Delaware corporation (the "Company"), for use at its 2009 Annual Meeting of Stockholders to be held on May 29, 2009 beginning at 8:30 a.m., local time, or at any continuations, postponements or adjournments thereof for the purposes set forth in this Proxy Statement and the accompanying Notice of Annual Meeting of Stockholders. The Annual Meeting will be held at the Company's corporate headquarters, located at 12780 El Camino Real, San Diego, California 92130. The Company's phone number is (858) 617-7600.

This proxy statement is being first mailed on or about April 21, 2009 to all stockholders entitled to vote at the Annual Meeting.

ABOUT THE ANNUAL MEETING

What is the purpose of the Annual Meeting?

At our Annual Meeting, stockholders will act upon the matters outlined in the Notice of Annual Meeting of Stockholders on the cover page of this proxy statement, including the election of the three nominees for director named herein, ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2009, approval of an amendment increasing the number of shares of common stock reserved for issuance under the Company's 2003 Incentive Stock Plan, as amended (the "2003 Plan") from 5,300,000 to 5,800,000, and consideration of a stockholder proposal to declassify the Board of Directors. In addition, management will report on the performance of the Company and respond to questions from stockholders.

Who can attend the Annual Meeting?

All stockholders of record at the close of business on April 1, 2009 (the "Record Date"), or their duly appointed proxies, may attend the Annual Meeting. If you attend, please note that you may be asked to present valid picture identification, such as a driver's license or passport. Cameras, recording devices and other electronic devices will not be permitted at the Annual Meeting.

Please also note that if you hold your shares in "street name" (that is, through a broker or other nominee), you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the record date and check in at the registration desk at the Annual Meeting.

Who is entitled to vote at the Annual Meeting?

Stockholders of record at the close of business on the Record Date are entitled to receive notice of and to participate in the Annual Meeting. At the close of business on the Record Date, 38,677,454 shares of the Company's common stock, \$0.001 par value per share, were issued and outstanding. If you were a stockholder of record on that date, you will be

entitled to vote all of the shares that you held on that date at the Annual Meeting, or any postponements or adjournments of the Annual Meeting.

Each outstanding share of the Company's common stock will be entitled to one vote on each proposal considered at the Annual Meeting.

What constitutes a quorum?

The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the aggregate voting power of the common stock outstanding on the Record Date will constitute a quorum, permitting the

Table of Contents

Company to conduct its business at the Annual Meeting. As of the Record Date, 38,677,454 shares of common stock, representing the same number of votes, were outstanding. Thus, the presence of the holders of common stock representing at least 19,338,728 shares will be required to establish a quorum. The presence of a quorum will be determined by the Inspector of Elections (the Inspector).

Proxies received but marked as abstentions as well as broker non-votes will be included in the calculation of the number of shares considered to be present at the Annual Meeting. Broker non-votes occur when a holder of shares in street name does not give instructions to the broker or nominee holding the shares as to how to vote on matters deemed non-routine under applicable regulations.

How do I vote?

If you complete and properly sign the accompanying proxy card and return it to the Company, it will be voted as you direct. If you are a registered stockholder (that is, if you hold your stock in certificate form or are a Neurocrine employee who participated in the Employee Stock Purchase Program and attend the Annual Meeting), you may deliver your completed proxy card in person. Street name stockholders who wish to vote at the Annual Meeting will need to obtain a proxy form from the institution that holds their shares.

The cost of solicitation of proxies will be borne by the Company. The Company will reimburse expenses incurred by brokerage firms and other persons representing beneficial owners of shares in forwarding solicitation material to beneficial owners. To assist in soliciting proxies (votes), the Company may retain Innisfree, a professional proxy solicitation firm, at an approximate cost of \$10,000, plus certain out-of-pocket expenses. Proxies also may be solicited by certain of the Company's directors, officers and regular employees, without additional compensation, personally, by telephone or by other appropriate means.

Can I vote by telephone or electronically?

If you are a registered stockholder you may vote by telephone, or electronically through the Internet, by following the instructions included with your proxy card. If your shares are held in street name, please check your proxy card or contact your broker or nominee to determine whether you will be able to vote by telephone or electronically. The deadline for voting by telephone or electronically is 11:59 p.m., Eastern Time, on May 28, 2009.

Can I change my vote after I return my proxy card?

Yes. Even after you have submitted your proxy, you may change your vote at any time before the proxy is exercised by filing with the Corporate Secretary of the Company either a notice of revocation or a duly executed proxy bearing a later date. Your proxy will also be revoked if you attend the Annual Meeting and vote in person. Attendance at the Annual Meeting will not by itself revoke a previously granted proxy.

What are the Board's recommendations?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Board of Directors. The Board's recommendation is set forth together with the description of each item in this proxy statement. In summary, the Board recommends a vote:

for election of the three nominees for director named herein (see Proposal One);

for ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for fiscal 2009 (see Proposal Two);

for approval of the amendment to the Company's 2003 Incentive Stock Plan, as amended, to increase the number of shares of common stock reserved for issuance thereunder from 5,300,000 to 5,800,000 (see Proposal Three); and

against the stockholder proposal to declassify the Board of Directors (see Proposal Four).

Table of Contents

With respect to any other matter that properly comes before the meeting, the proxy holders will vote as recommended by the Board of Directors or, if no recommendation is given, in their own discretion.

What vote is required to approve each item?

Election of Directors. The affirmative vote of a plurality of the votes cast at the Annual Meeting is required for the election of directors. A properly executed proxy marked **WITHHOLD AUTHORITY** with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum.

Other Items. For each other item, the affirmative vote of the holders of a majority of the shares represented in person or by proxy and entitled to vote on the item will be required for approval. A properly executed proxy marked **ABSTAIN** with respect to any such matter will not be voted, although it will be counted for purposes of determining the number of shares represented in person or by proxy at the Annual Meeting. Accordingly, an abstention will have the effect of a negative vote.

If you hold your shares in **street name** through a broker or other nominee, your broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. Thus, if you do not give your broker or nominee specific instructions, your shares may not be voted on and will not be counted in determining the number of shares represented in person or by proxy at the Annual Meeting. Shares represented by such **broker non-votes** will, however, be counted in determining whether there is a quorum.

Who counts the votes?

Votes cast by proxy or in person at the Annual Meeting will be tabulated by the Inspector.

What proxy materials are available on the Internet?

The proxy statement and annual report to stockholders are available on the Internet at www.proxyvote.com. Please have the control number on your proxy card available.

Table of Contents**STOCK OWNERSHIP*****Who are the principal stockholders, and how much stock does management own?***

Table of Contents

- (3) Shares of common stock subject to stock options currently exercisable or exercisable within 60 days of February 28, 2009, regardless of exercise price, and shares of common stock acquirable within such period pursuant to restricted stock awards, are deemed to be outstanding for computing the percentage ownership of the person holding such options and the percentage ownership of any group of which the holder is a member, but are not deemed outstanding for computing the percentage of any other person.
- (4) Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities. Except as indicated by footnote, and subject to community property laws where applicable, the persons named in the table have sole voting and investment power with respect to all shares of common stock shown as beneficially owned by them.
- (5) Based on Amendment No. 3 to Schedule 13G filed by Biotechnology Value Fund, L.P. (BVF), Biotechnology Value Fund II, L.P. (BVF2), BVF Investments, L.L.C. (BVLLC), Investment 10, L.L.C. (ILL10), BVF Partners L.P. (Partners) and BVF Inc. (BVF Inc.) on February 13, 2009, reporting ownership as of December 31, 2008. According to such filing, BVF beneficially owned 1,425,047 shares of Common Stock, BVF2 beneficially owned 979,000 shares of Common Stock, BVLLC beneficially owned 3,419,000 shares of Common Stock and ILL10 beneficially owned 412,000 shares of Common Stock. Beneficial ownership by Partners and BVF Inc. includes 6,235,047 shares of Common Stock. Pursuant to the operating agreement of BVLLC, Partners is authorized, among other things, to invest the funds of Samana Capital, L.P., the majority member of BVLLC, in shares of the Common Stock beneficially owed by BVLLC and to vote and exercise dispositive power over those shares of the Common Stock. Partners and BVF Inc. share voting and dispositive power over shares of the Common Stock beneficially owned by BVF, BVF2, BVLLC and those owned by ILL10, on whose behalf Partners acts as an investment manager, and, accordingly, Partners and BVF Inc. have beneficial ownership of all of the shares of the Common Stock owned by such parties.
- (6) Based on Amendment No. 3 to Schedule 13G filed by Federated Investors, Inc. (Federated) on February 17, 2009, reporting ownership as of December 31, 2008. According to such filing, Federated is the parent holding company of Federated Equity Management Company of Pennsylvania and Federated Global Investment Management Corp. (the Investment Advisers), which act as investment advisers to registered investment companies and separate accounts that own shares of common stock in the Company (the Reported Securities). The Investment Advisers are wholly owned subsidiaries of FII Holdings, Inc., which is a wholly owned subsidiary of Federated. All of Federated's outstanding voting stock is held in the Voting Shares Irrevocable Trust (the Trust) for which John F. Donahue, Rhodora J. Donahue and J. Christopher Donahue act as trustees (collectively, the Trustees). The Trustees have joined in filing the Schedule 13G because of the collective voting control that they exercise over Federated. Federated, the Trust, and each of the Trustees disclaim beneficial ownership of the Reported Securities.
- (7) Based on Schedule 13G dated February 5, 2009 reporting ownership as of December 31, 2008, filed jointly by Barclays Global Investors, NA., Barclays Global Fund Advisors, Barclays Global Investors, LTD, Barclays Global Investors Japan Limited, Barclays Global Investors Canada Limited, Barclays Global Investors Australia Limited and Barclays Global Investors (Deutschland) AG. According to this Schedule 13G, Barclays Global Investors, NA. reported beneficial ownership of 1,349,596 shares, sole voting power as to 1,135,951 shares and sole dispositive power as to 1,349,596 shares; and Barclays Global Fund Advisors reported beneficial ownership of 1,159,784 shares, sole voting power as to 1,159,784 shares and sole dispositive power as to 1,159,784 shares.
- (8) Based on Schedule 13G filed by Dimensional Fund Advisors LP (Dimensional) on February 9, 2009, reporting ownership as of December 31, 2008. According to such filing, Dimensional is an investment advisor registered under Section 203 of the Investment Advisors Act of 1940, furnishes investment advice to four investment

companies registered under the Investment Company Act of 1940, and serves as investment manager to certain other commingled group trusts and separate accounts. These investment companies, trusts and accounts are the Funds . In its role as investment advisor or manager, Dimensional possesses investment and/or voting power over the securities of the Company described in this schedule that are owned by the Funds, and may be deemed to be the beneficial owner of the shares of

Table of Contents

the Company held by the Funds. However, all securities reported in this schedule are owned by the Funds. Dimensional disclaims beneficial ownership of such securities.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the Exchange Act), requires the Company's officers and directors, and persons who beneficially own more than ten percent of a registered class of the Company's equity securities, to file reports of ownership on Form 3 and reports of changes in ownership on Form 4 or Form 5 with the SEC. Such officers, directors and 10% stockholders are also required by SEC rules to furnish the Company with copies of all Section 16(a) forms they file. Based solely on its review of the copies of such forms received by it, and written representations from certain reporting persons, the Company believes that its officers, directors and 10% stockholders complied with all Section 16(a) filing requirements applicable to them during the fiscal year ended December 31, 2008.

PROPOSAL ONE: ELECTION OF DIRECTORS

General

The Company's Bylaws provide that the Board of Directors will be comprised of eight directors. The Company's Certificate of Incorporation provides that the Board of Directors is divided into three classes. There are currently three directors in Class I (Joseph A. Mollica, Ph.D., Wylie W. Vale, Ph.D. and W. Thomas Mitchell), three directors in Class II (Corinne H. Lyle, Richard F. Pops, and Stephen A. Sherwin, M.D.), and two directors in Class III (Gary A. Lyons and Kevin C. Gorman, Ph.D.). With the exception of Kevin C. Gorman, Ph.D., who is the President and Chief Executive Officer of Neurocrine Biosciences, Inc., and Gary A. Lyons, who is the former President and Chief Executive Officer of Neurocrine Biosciences, Inc. all current members of the Board of Directors meet the definition of independent director under the Nasdaq Stock Market qualification standards.

The directors in Class I hold office until the 2009 Annual Meeting of Stockholders, the directors in Class II hold office until the 2010 Annual Meeting of Stockholders and the directors in Class III hold office until the 2011 Annual Meeting of Stockholders (or, in each case, until their earlier resignation, removal from office, or death). After each such election, the directors in each such case will then serve in succeeding terms of three years and until a successor is duly elected and qualified. Officers of the Company serve at the discretion of the Board of Directors. There are no family relationships among the Company's directors and executive officers.

The term of office for directors Joseph A. Mollica, Ph.D., Wylie W. Vale, Ph.D. and W. Thomas Mitchell, will expire at the 2009 Annual Meeting. At the 2009 Annual Meeting, the stockholders will elect three Class I directors for a term of three years.

Vote Required

The nominees receiving the highest number of affirmative votes of the shares present in person or represented by proxy at the 2009 Annual Meeting and entitled to vote on the election of directors will be elected to the Board of Directors.

Votes withheld from any director are counted for purposes of determining the presence or absence of a quorum, but have no other legal effect under Delaware law.

Unless otherwise instructed, the proxy holders will vote the proxies received by them for the Company's nominees named below. If any of the Company's nominees is unable or declines to serve as a director at the time of the Annual

Meeting, the proxies will be voted for any nominee who is designated by the present Board of Directors to fill the vacancy. It is not expected that any of the Company's nominees will be unable or will decline to serve as a director. **The Board of Directors unanimously recommends that stockholders vote FOR the nominees named below.**

Table of Contents**Nominees for Election at the Annual Meeting**

All of the nominees (Joseph A. Mollica, Ph.D., Wylie W. Vale, Ph.D. and W. Thomas Mitchell) are currently Class I directors of the Company. All of the nominees were previously elected to the Board of Directors by the Company's stockholders. Information about the nominees is set forth below:

Name of Director	Age	Position in the Company	Director Since
Joseph A. Mollica, Ph.D. (1)	68	Chairman of the Board	1997
W. Thomas Mitchell (1)(2)	63	Director	2002
Wylie W. Vale, Ph.D. (3)	67	Director	1992

(1) Member of the Nominating/Corporate Governance Committee.

(2) Member of the Audit Committee.

(3) Member of the Compensation Committee.

Joseph A. Mollica, Ph.D. has served as a director of the Company since June 1997 and became Chairman of the Board in April 1998. From 2004 to 2008, Dr. Mollica served as the Chairman of the Board of Pharmacopeia Drug Discovery, Inc., a biopharmaceutical company focused on drug discovery and development. From 1994 to 2004, Dr. Mollica served as the Chairman of the Board of Directors, President and Chief Executive Officer of Accelrys, the former parent of Pharmacopeia Drug Discovery. From 1987 to December 1993, Dr. Mollica served as Vice President, Medical Products of DuPont Company and then as President and CEO of DuPont Merck Pharmaceutical Company from 1991 to 1993. At Ciba-Geigy, where he was employed from 1966 to 1986, he served in a variety of positions of increasing responsibility, rising to Senior Vice President of Ciba-Geigy's Pharmaceutical Division. He is currently on the board of directors of Redpoint Bio Corporation, a company focused on developing compounds to affect taste. He received his B.S. from the University of Rhode Island, his M.S. and Ph.D. from the University of Wisconsin and his Sc.D.h.c. from the University of Rhode Island.

W. Thomas Mitchell has served on Neurocrine's Board of Directors since November 2002. He is the former Chairman of the Board and Chief Executive Officer of Genencor International, a biotechnology company. Under his guidance, Genencor's revenues grew from under \$30 million to over \$325 million. In addition, he successfully managed the acquisition and integration of three major businesses to build the global enterprise that is now Genencor. An industry leader, Mr. Mitchell has participated in a number of important policy initiatives including the 1999 federal executive order that created the national bioenergy initiative. He also served as a member of the Governor's Council on Biotechnology in California, which was responsible for helping to improve the state's competitiveness in the mid-1990's. Mr. Mitchell previously served on the Board of Directors of DJO, Inc. a medical device company, where he was a member of the audit committee. He also served on the Advisory Boards of the Chemical Engineering School at Cornell University and the University of Iowa's School of Engineering. Mr. Mitchell received his B.S. in chemical engineering from Drexel University. He also completed the Executive Development Program at the University of Michigan.

Wylie W. Vale, Ph.D. is one of the Company's academic co-founders, Chief Scientific Advisor, and a member of the Company's Founding Board of Scientific and Medical Advisors. Dr. Vale has served as a director of the Company since September 1992. He is The Helen McLoraine Professor of Molecular Neurobiology at The Salk Institute for Biological Studies and is the Senior Investigator and Head of The Clayton Foundation Laboratories for Peptide Biology at The Salk Institute, where he is a former member of the Board of Trustees and former Chairman of the Faculty. He is also an Adjunct Professor of Medicine at the University of California, San Diego. In addition, Dr. Vale is recognized for his work on the molecular, pharmacological and biomedical characterization of neuroendocrine peptides, growth factors and their receptors. In recognition of his discoveries, he has received numerous awards and he is a member of the American Academy of Arts and Sciences, the Institute of Medicine and the National Academy of Sciences. Dr. Vale is a co-founder and member of the Board of Directors of Acceleron Pharma, Inc., a biotechnology company focused on musculoskeletal and metabolic therapeutics. He is a past President of both the American

Table of Contents

Endocrine Society and the International Society of Endocrinology. Dr. Vale received a B.A. in biology from Rice University and a Ph.D. in physiology and biochemistry from the Baylor College of Medicine.

Who are the remaining directors that are not up for election this year?

The Class II and III directors will remain in office after the 2009 Annual Meeting. The names and certain other current information about the directors whose terms of office continue after the Annual Meeting are set forth below:

of Alkermes. Under his leadership, Alkermes has grown from a privately held company with 25 employees to a publicly traded pharmaceutical company with more than 500 employees in multiple locations in the United States. In addition to Alkermes, he currently serves on the Board of Directors of: CombinatoRx, Inc., a company focused on developing new medicines built from synergistic combinations of approved drugs; Acceleron Pharma, Inc., a biotechnology company focused on musculoskeletal and metabolic therapeutics; the Biotechnology Industry Organization; the New England Healthcare Institute; Pharmaceutical Research and Manufacturers of America (PhRMA) and Harvard Medical School Board of Fellows. He received a B.A. in economics from Stanford University in 1983.

Stephen A. Sherwin, M.D. was elected to the Board of Directors in April 1999. Since March 1990, Dr. Sherwin has served as Chief Executive Officer and Director of Cell Genesys, Inc., a biotechnology company. In March 1994, he was elected as Chairman of the Board of Cell Genesys. From 1983 to 1990, Dr. Sherwin held various positions at Genentech, Inc., a biotechnology company, most recently as Vice President of Clinical Research. Prior to 1983, Dr. Sherwin held various positions on the staff of the National Cancer Institute. Dr. Sherwin also serves as Chairman of the Board of Ceregene, Inc., a biotechnology company he co-founded in 2001 focused on developing neurotrophic growth factor treatments for major neurodegenerative disorders and a former subsidiary of Cell Genesys. Dr. Sherwin was also a co-founder of Abgenix, a company focused on the discovery, development and manufacture of human therapeutic antibodies, which was acquired by Amgen in 2006 and was a former subsidiary of Cell Genesys. Dr. Sherwin is a member of the Board of Directors of Rigol Pharmaceuticals, Inc., a biotechnology company focused on developing drugs for inflammatory/autoimmune and metabolic diseases, and is also a director of the Biotechnology Industry Organization. He holds a B.A. in biology from Yale and an M.D. from Harvard Medical School and is board-certified in internal medicine and medical oncology.

How often did the Board meet during fiscal 2008?

The Board of Directors of the Company held a total of nine meetings during 2008. During 2008, the Board of Directors had an Audit Committee, a Compensation Committee and a Nominating/Corporate Governance Committee. Charters for each of these committees have been established and approved by the Board of Directors and copies of the charters of the Audit and Compensation Committees have been posted on the Company's website at www.neurocrine.com. During 2008, no director attended fewer than 75% of the aggregate of the total number of meetings of the Board of Directors and the total number of meetings held by all committees of the Board of Directors on which such director served.

What are the various committees of the Board and which directors are on those committees?

The Company's Audit Committee is comprised entirely of directors who meet the independence requirements set forth in Nasdaq Stock Market Rule 4350(d)(2)(A). Information regarding the functions performed by the committee, its membership, and the number of meetings held during the fiscal year is set forth in the Report of the Audit Committee, included in this annual proxy statement. The current members of the audit committee are Corinne H. Lyle, Richard F. Pops, and W. Thomas Mitchell. The Board of Directors has determined that Corinne H. Lyle and Richard F. Pops are audit committee financial experts within the meaning of item 407(d)(5) of SEC Regulation S-K.

During 2008, the Compensation Committee consisted of directors Richard F. Pops, Stephen A. Sherwin, M.D. and Wylie W. Vale, who became a member of the Compensation Committee in February 2008. This committee met three times during 2008. The Compensation Committee reviews and recommends to the Board the compensation of executive officers and other employees of the Company. Each of the current members of the Compensation Committee is an independent director as defined by Nasdaq Stock Market Rule 4200(a)(15).

The Company also has a Nominating/Corporate Governance Committee currently comprised of W. Thomas Mitchell, Joseph A. Mollica, Ph.D. and Stephen A. Sherwin, M.D; all of whom are independent directors as defined by Nasdaq Stock Market Rule 4200(a)(15). The Nominating/Corporate Governance Committee is responsible for developing and implementing policies and practices relating to corporate governance, including administration of the Company's Code of Business Conduct and Ethics which is

Table of Contents

available on the Company's website at www.neurocrine.com. The functions of this committee also include consideration of the composition of the Board and recommendation of individuals for election as directors of the Company. The Nominating/Corporate Governance Committee will consider nominees recommended by stockholders provided such nominations are made pursuant to the Company's Bylaws and applicable law. The committee met once during 2008 to recommend the slate of directors that was approved at the 2008 Annual Meeting of Stockholders. The committee met in early 2009 to recommend that the Board of Directors nominate Joseph A. Mollica, Ph.D., Wylie W. Vale, Ph.D. and W. Thomas Mitchell for re-election as Class I directors for the upcoming three-year term.

What is our director nomination process?

Director qualifications

In selecting non-incumbent candidates and reviewing the qualifications of incumbent candidates for the Board of Directors, the Nominating/Corporate Governance Committee considers the Company's corporate governance principles, which include the following:

Directors should possess the highest ethics, integrity and values, and be committed to representing the long-term interest of the stockholders. They also must have experience they can draw upon to help direct the business strategies of the Company together with sound judgment. They must be actively engaged in the pursuit of information relevant to the Company's business and must constructively engage their fellow Board members and management in dialogue and the decision-making process.

Directors must be willing to devote sufficient time to carrying out their duties and responsibilities effectively, and should be committed to serve on the Board for an extended period of time. Directors should offer their resignation in the event of any significant change in their personal circumstances, including a change in their principal job responsibilities. In evaluating director nominees, the Nominating/Corporate Governance Committee considers the following factors: the appropriate size of the Company's Board of Directors; personal and professional integrity, ethics and values; experience in corporate management, such as serving as an officer or former officer of a publicly held company; and experience as a board member of another publicly held company.

The Nominating/Corporate Governance Committee's goal is to assemble a Board of Directors that brings to the Company a variety of perspectives and skills derived from high quality business and professional experience. In doing so, the Nominating/Corporate Governance Committee also considers candidates with appropriate non-business backgrounds.

Other than the foregoing, there are no stated minimum criteria for director nominees, although the Nominating/Corporate Governance Committee may also consider such other facts as it may deem are in the best interests of the Company and its stockholders. The Nominating/Corporate Governance Committee does, however, believe that at least one, and, preferably, several, members of the Board of Directors, meet the criteria for an audit committee financial expert as defined by Securities and Exchange Commission rules. The Nominating/Corporate Governance Committee also believes it appropriate for certain key members of the Company's management to participate as members of the Board of Directors.

Identification and evaluation of nominees for directors

The Nominating/Corporate Governance Committee identifies nominees for director by first evaluating the current members of the Board of Directors willing to continue in service. Current members with qualifications and skills that are consistent with the Nominating/Corporate Governance Committee's criteria for Board of Directors service and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by

existing members of the Board of Directors with that of obtaining a new perspective. If any member of the Board of Directors does not wish to continue in service or if the Board of Directors decides not to re-nominate a member for re-election, the Nominating/Corporate Governance Committee identifies the desired skills and experience of a new nominee in light of the criteria above. The Nominating/Corporate Governance Committee generally polls the Board of Directors and members of

Table of Contents

management for their recommendations and may also seek input from third-party search firms. The Nominating/Corporate Governance Committee may also seek input from industry experts or analysts. The Nominating/Corporate Governance Committee reviews the qualifications, experience and background of the candidates. Final candidates are then interviewed by the Company's independent directors and executive management. In making its determinations, the Nominating/Corporate Governance Committee evaluates each individual in the context of the Company's Board of Directors as a whole, with the objective of assembling a group that can best perpetuate the success of the Company and represent stockholder interests through the exercise of sound judgment. After review and deliberation of all feedback and data, the Nominating/Corporate Governance Committee makes its recommendation to the Board of Directors.

We have not received director candidate recommendations from the Company's stockholders and do not have a formal policy regarding consideration of such recommendations. However, any recommendations received from stockholders will be evaluated in the same manner that potential nominees suggested by board members, management or other parties are evaluated. Accordingly, our Board of Directors believes a formal policy regarding consideration of such recommendations is unnecessary.

What is our process for stockholder communications with the Board of Directors?

Stockholders of the Company wishing to communicate with the Company's Board of Directors or an individual director may send a written communication to the Board of Directors or such director c/o Neurocrine Biosciences, Inc., 12780 El Camino Real, San Diego, CA 92130, Attn: Corporate Secretary. Each communication must set forth:

the name and address of the Company stockholder on whose behalf the communication is sent; and

the number of Company shares that are owned beneficially by such stockholder as of the date of the communication.

Each communication will be reviewed by the Company's Corporate Secretary to determine whether it is appropriate for presentation to the Board or such director. Examples of inappropriate communications include advertisements, solicitations or hostile communications.

Communications determined by the Corporate Secretary to be appropriate for presentation to the Board or such director will be submitted to the Board or such director on a periodic basis.

What is our policy regarding Board member attendance at the Company's Annual Meeting?

The Company does not have a formal policy regarding attendance by members of the Board of Directors at the Annual Meeting. Joseph A. Mollica, Ph.D. and Kevin C. Gorman represented the Board of Directors at the 2008 Annual Meeting of Stockholders.

REPORT OF THE AUDIT COMMITTEE

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

The Audit Committee is currently comprised of directors Corinne H. Lyle, Richard F. Pops, and W. Thomas Mitchell. All current committee members satisfy the definition of independent director as established in the Nasdaq Stock Market qualification requirements. The Audit Committee met four times during the year ended December 31, 2008.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the Company's financial statements and the reporting process, including the Company's systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee has reviewed and discussed with management the Company's audited financial statements as of and for the year ended December 31, 2008 with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The Audit Committee also has reviewed and discussed the Company's audited financial statements as of and for the year ended December 31, 2008 with the Company's independent registered public accounting firm, who are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States, as well as their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under Statement on Auditing Standards No. 114 (The Auditor's Communication with Those Charged with Governance), as adopted by the Public Company Accounting Oversight Board (United States) (the "PCAOB") in Rule 3200T. The independent registered public accounting firm also is responsible for performing an independent audit of the Company's internal control over financial reporting in accordance with the auditing standards of the PCAOB. In addition, the Audit Committee has discussed the independent registered public accounting firm's independence from management and the Company, including the matters in the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the PCAOB and considered the compatibility of non-audit services with the auditors' independence.

The Audit Committee discussed with the Company's independent registered public accounting firm the overall scope and plans for their audits. The Audit Committee meets with the independent registered public accounting firm, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, for filing with the Securities and Exchange Commission. The Audit Committee and the Board are also seeking stockholder ratification of the selection of the Company's independent registered public accounting firm for the year ending December 31, 2009.

Respectfully submitted by:
AUDIT COMMITTEE

Table of Contents***Audit and non-audit fees***

The aggregate fees billed to the Company by Ernst & Young LLP, the Company's independent registered public accounting firm (Ernst & Young), for the indicated services for each of the last two fiscal years were as follows:

	2008	2007
Audit fees (1)	\$ 348,188	\$ 502,669
Audit related fees (2)	6,000	22,829
Tax fees (3)		
All other fees (4)		
Total	\$ 354,188	\$ 525,498

- (1) Audit fees consist of fees for professional services performed by Ernst & Young LLP for the integrated audit of the Company's annual financial statements and internal control over financial reporting and review of financial statements included in the Company's 10-Q filings, and services that are normally provided in connection with statutory and regulatory filings or engagements.
- (2) Audit related fees consist of fees for assurance and related services performed by Ernst & Young LLP that are reasonably related to the performance of the audit or review of the Company's financial statements.
- (3) Tax fees consist of fees for professional services performed by Ernst & Young LLP with respect to tax compliance, tax advice and tax planning.
- (4) All other fees consist of fees for other permissible work performed by Ernst & Young LLP that does not meet with the above category descriptions.

The Audit Committee has considered whether the provision of non-audit services is compatible with maintaining the independence of Ernst & Young LLP, and has concluded that the provision of such services is compatible with maintaining the independence of that firm. All of the services rendered by Ernst & Young LLP were pre-approved by the Audit Committee in accordance with the Audit Committee pre-approval policy described below.

Audit Committee policy regarding pre-approval of audit and permissible non-audit services of our independent registered public accounting firm

The Company's Audit Committee has established a policy that all audit and permissible non-audit services provided by the Company's independent registered public accounting firm will be pre-approved by the Audit Committee. These services may include audit services, audit-related services, tax services and other services. The Audit Committee considers whether the provision of each non-audit service is compatible with maintaining the independence of the Company's registered public accounting firm. Pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The Company's independent registered public accounting firm and management are required to periodically (at least quarterly) report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the

fees for the services performed to date.

**PROPOSAL TWO: RATIFICATION OF APPOINTMENT OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

General

The Audit Committee has selected Ernst & Young LLP to audit the financial statements of the Company for the current fiscal year ending December 31, 2009. Ernst & Young LLP has audited the Company's financial statements since 1992. Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they so desire, and are expected to be available to respond to appropriate questions.

Stockholders are not required to ratify the selection of Ernst & Young LLP as the Company's independent registered public accounting firm. However, the Audit Committee is submitting the selection of Ernst & Young LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee in their discretion may direct the selection of a different independent registered public accounting firm at any time during the year if they determine that such a change would be in the best interests of the Company and its stockholders.

Vote Required

The affirmative vote of the holders of a majority of the shares represented in person or by proxy at the Annual Meeting will be required to approve and ratify the Audit Committee's selection of Ernst & Young LLP. **The Board of Directors unanimously recommends voting FOR approval and ratification of such selection.** In the event of a negative vote on such ratification, the Audit Committee will reconsider its selection.

**PROPOSAL THREE: APPROVAL OF AN AMENDMENT TO THE 2003
INCENTIVE STOCK PLAN, AS AMENDED**

INCREASE OF 500,000 SHARES

General

The 2003 Incentive Stock Plan, as amended, of Neurocrine Biosciences, Inc. (the "2003 Plan") was originally approved by the Board of Directors and the stockholders of the Company in 2003. The Board has approved an increase in the number of shares of common stock reserved for issuance under the 2003 Plan from 5,300,000 to 5,800,000, subject to stockholder approval at the Annual Meeting.

The Board believes that the proposed increase in the number of shares of common stock reserved for issuance under the 2003 Plan will allow the Company to attract and retain valuable employees and continue to provide its employees, consultants and directors with a proprietary interest in the Company. At the Company, equity awards foster an ownership culture and are a critical tool for driving stockholder value and for recruiting, retaining and motivating employees. The Company grants annual equity awards to employees as an incentive to retain its work force and remain competitive. The terms of the Company's annual equity awards and the Company's employee policies are designed to align employee and stockholder interests. The Company grants equity awards to a broad group of employees and such awards constitute a significant component of the Company's employees' total compensation. The Company's equity awards contain long-term vesting and provisions designed to encourage employees to focus on the Company's long-term goals and success. If our stockholders do not approve the amendment to the Incentive Stock

Plan, the Company strongly believes that it will be unable to successfully use equity as part of its compensation program, as most of its competitors in the industry do, putting the Company at a significant disadvantage and compromising its ability to enhance stockholder value.

Table of Contents

The 2003 Plan authorizes the grant to our employees of options that qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"). The 2003 Plan also authorizes the grant of nonstatutory stock options, restricted stock awards, restricted stock units and stock bonus awards (collectively "Equity Awards") to our employees, directors and consultants. The 2003 Plan also provides that certain nonstatutory stock options will be automatically granted to non-employee directors and the Chairman of the Board of Directors of the Company, as described below. As of April 1, 2009, under the 2003 Plan there were options outstanding to purchase 2,103,280 shares of common stock, and 1,021,583 shares were available for future Equity Awards; 14,750 shares were outstanding as part of the Company's stock bonus program; 1,364,016 shares were subject to outstanding restricted stock units; and 796,371 shares previously issued upon exercise of options, restricted stock units and stock bonuses granted under the Plan are now outstanding shares of common stock. As of April 1, 2009, there were approximately 130 employees and directors eligible to receive grants under the 2003 Plan. The closing price of the Company's common stock on April 1, 2009 was \$3.71.

Since the inception of the Company through April 1, 2009, under all equity plans, 14.6 million options have been granted, 4.4 million option grants have been exercised at a weighted average price of \$13.00, and 6.6 million option grants have been cancelled, representing approximately 30%, and 45%, respectively, of the total options granted since inception of the Company. Additionally, 2.6 million restricted stock units have been granted of which, 0.9 million have vested and 0.6 million have been cancelled as of April 1, 2009.

Vote Required

At the Annual Meeting, the stockholders are being asked to approve the amendment to the 2003 Plan to increase the number of shares reserved for issuance thereunder. The affirmative vote of the holders of a majority of the shares represented in person or by proxy at the Annual Meeting will be required to approve the amendment of the 2003 Plan. **The Board of Directors unanimously recommends voting FOR the approval of the amendment to the 2003 Plan.**

Summary of the 2003 Incentive Stock Plan

The essential features of the 2003 Plan are summarized below. This summary does not purport to be complete and is subject to, and qualified by reference to, all provisions of the 2003 Plan.

General. The purpose of the 2003 Plan is to enable the Company to attract and retain the best available personnel, to provide additional incentives to the employees, directors and consultants of the Company and to promote the success of the Company's business.

Administration. The 2003 Plan is administered by the Board of Directors or a committee appointed by the Board (the Board or any such committee, the "Administrator"). The 2003 Plan may be administered by different committees with respect to different groups of employees and consultants. The Administrator may make any determinations deemed necessary or advisable for the 2003 Plan. All decisions, determinations and interpretations of the Administrator shall be final and binding on all holders.

Subject to stockholder approval of this Proposal Three, an aggregate of 5,800,000 shares of common stock is reserved for issuance under the 2003 Plan. Stock subject to the 2003 Plan may be unissued shares or reacquired shares, bought on the market or otherwise. If any award granted under the 2003 Plan expires or otherwise becomes unexercisable without being exercised in full, the shares of common stock not acquired pursuant to such award again become available for issuance under the 2003 Plan.

Eligibility. Nonstatutory stock options, restricted stock awards, restricted stock units and stock bonus awards may be granted under the 2003 Plan to employees, directors and consultants of the Company and any parent or subsidiary of the Company. Incentive stock options may be granted only to employees. The Administrator, in its discretion, selects the employees, directors and consultants to whom awards may be granted, the time or times at which such awards shall be granted, and the number of shares subject to each such grant. The 2003 Plan also provides that certain nonstatutory stock options will be automatically granted to non-employee directors and the Chairman of the Board of Directors of the Company, as described below.

Table of Contents

Limitations. Sections 162(m) of the Internal Revenue Code places limits on the deductibility for federal income tax purposes of compensation paid to certain executive officers of the Company. In order to preserve the Company's ability to deduct the compensation income associated with awards granted to such persons, the 2003 Plan provides that no employee may be granted, in any fiscal year of the Company, awards covering more than 250,000 shares of common stock. Notwithstanding this limit, however, in connection with an employee's initial employment, he or she may be granted awards covering up to an additional 250,000 shares of common stock.

Terms and Conditions of Options. Each option is evidenced by a stock option agreement between the Company and the optionee, and is subject to the following additional terms and conditions:

Exercise Price. The Administrator determines the exercise price of options at the time the options are granted. The exercise price of a stock option may not be less than 100% of the fair market value of the common stock on the date such option is granted. In the case of an incentive stock option granted to an optionee who owns more than 10% of all classes of stock of the Company or any parent or subsidiary of the Company, the exercise price may not be less than 110% of the fair market value of the common stock on the date such option is granted. The fair market value of the common stock is generally determined with reference to the closing sale price for the common stock on the date the option is granted or the last preceding date for which such quotation exists.

Exercise of Option; Form of Consideration. The Administrator determines when options become exercisable and may, in its discretion, accelerate the vesting of any outstanding option. The means of payment for shares issued upon exercise of an option is specified in each option agreement. The 2003 Plan permits payment to be made to the extent permitted under applicable laws by cash, check, other shares of common stock of the Company (with some restrictions), cashless exercise, any other form of consideration permitted by applicable law, or any combination thereof.

Term of Option. The term of options granted under the 2003 Plan may be no more than ten years from the date of grant. Additionally, the maximum term for options granted after January 1, 2006 is seven years. In the case of an incentive stock option granted to an optionee who owns more than 10% of all classes of stock of the Company or any parent or subsidiary of the Company, the term of the option may be no more than five years from the date of grant. No option may be exercised after the expiration of its term.

Limited Exception to Minimum Vesting Restrictions. Up to five percent (5%) of the total number of shares of Common Stock available for issuance under the Plan may in the aggregate be issued as awards of Restricted Stock, Restricted Stock Units, Stock Bonuses or a combination thereof that are not subject to the minimum vesting requirements set forth in the Plan.

Stock Subject to the Plan. Except for adjustments upon changes in capitalization or merger, the aggregate number of shares of common stock with respect to which awards of restricted stock, restricted stock units, stock bonuses or a combination thereof shall be made under the 2003 Plan shall not exceed 50% of the aggregate number of shares of common stock available under the 2003 Plan.

Termination of Employment. If an optionee's employment or consulting relationship terminates for any reason (other than death, retirement or disability), then all options held by the optionee under the 2003 Plan expire on the earlier of (1) the date set forth in his or her notice of grant (which date may not be more than three months after the date of such termination in the case of an incentive stock option or six months after the date of such termination in the case of a nonstatutory stock option), or (2) the expiration date of such option. To the extent the option is exercisable at the time of the optionee's termination, the optionee may exercise all or part of his or her option at any time before it terminates. Nonstatutory stock options granted to directors pursuant to the automatic grant provisions of the 2003 Plan will expire on the earlier of (1) three months after the date of termination of the director's service relationship for any reason

(other than death or disability) or (2) the expiration date of such option.

Disability. If an optionee's employment or consulting relationship terminates as a result of disability, then all options held by such optionee under the 2003 Plan expire on the earlier of (1) six months from

Table of Contents

the date of such termination (or such longer period of time not exceeding 12 months as determined by the Administrator) or (2) the expiration date of such option. The optionee (or the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance) may exercise all or part of the option at any time before such expiration to the extent that the option was exercisable at the time of such termination. Nonstatutory stock options granted to directors pursuant to the automatic grant provisions of the 2003 Plan will expire on the earlier of (1) 12 months after the date of termination of the director's service relationship as a result of disability or (2) the expiration date of such option.

Death. In the event of an optionee's death: (1) during the optionee's employment or consulting relationship with the Company, the option may be exercised, at any time within six months of the date of death (or such longer period of time as determined by the Administrator, but no later than the expiration date of such option) by the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance, but only to the extent that the optionee's right to exercise the option would have accrued if he or she had remained an employee or consultant of the Company six months after the date of death; or (2) within 30 days (or such other period of time not exceeding three months as determined by the Administrator) after the optionee's employment or consulting relationship with the Company terminates, the option may be exercised at any time within six months (or such other period of time as determined by the Administrator at the time of grant of the option) following the date of death (but in no event later than the expiration date of the option) by the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance, but only to the extent of the optionee's right to exercise the option at the date of termination. In the event of a director's death while serving on the Board or within 30 days after such director's service with the Company terminates, nonstatutory stock options granted to such director pursuant to the automatic grant provisions of the 2003 Plan will expire on the earlier of (1) 12 months after the date of the director's death or (2) the expiration date of such option.

Retirement. The 2003 Plan provides that upon the retirement of any Company employee at age 55 or greater following five or more years of service to the Company, all stock options held by such employee will vest and be exercisable for a term of three years from the date of retirement. Additionally, all other stock based awards will fully vest upon retirement with five years of service and age 55.

Other Provisions. The stock option agreement may contain other terms, provisions and conditions not inconsistent with the 2003 Plan as may be determined by the Administrator.

Automatic Director Grants. Options granted to non-employee directors are nonstatutory stock options to purchase shares of common stock under the 2003 Plan. Any new non-employee director will be granted an option to purchase 25,000 shares of common stock on the date of his or her initial election or appointment to the Board of Directors (a First Option). In addition, each non-employee director and the Chairman of the Board of Directors will be automatically granted an annual option (a Subsequent Option) to purchase, in the case of a non-employee director, 12,000 shares, and in the case of the Chairman of the Board of Directors, 15,000 shares, each on the date of each annual meeting of the stockholders of the Company, if on such date, he or she has served on the Board of Directors for at least six months and will be continuing in office following the meeting.

The exercise price of the options automatically granted to directors will be equal to 100% of the fair market value of a share of common stock on the date of grant. First Options and Subsequent Options shall become exercisable in cumulative monthly installments of 1/12 of the shares subject to such option on each of the monthly anniversaries of the date of grant of the option, commencing with the first such monthly anniversary, such that each such option shall be 100% vested on the first anniversary of its date of grant. No portion of an option automatically granted to a director will be exercisable after the 7th anniversary after the date of option grant. Additionally, an option automatically granted to a director will be exercisable after the termination of the director's services as described above.

Restricted Stock Awards. A restricted stock award gives the purchaser a period of no longer than six months from the date of grant to purchase common stock. The Administrator shall establish the purchase price, if any, and form of payment for each restricted stock award, which purchase price shall be no less than

Table of Contents

100% of the fair market value per share on the date of grant; provided that the purchase price per share for a restricted stock award may be reduced on a dollar-for-dollar basis to the extent the restricted stock award is granted to the purchaser in lieu of cash compensation otherwise payable to the purchaser. In all cases, legal consideration shall be required for each issuance of a restricted stock award. A restricted stock award is accepted by the execution of a restricted stock purchase agreement between the Company and the purchaser, accompanied by the payment of the purchase price for the shares. Unless the Administrator determines otherwise, the restricted stock purchase agreement shall give the Company a repurchase option exercisable upon the voluntary or involuntary termination of the purchaser's employment or consulting relationship with the Company for any reason (including death and disability). The purchase price for any shares repurchased by the Company shall be the original price paid by the purchaser. The repurchase option lapses at a rate determined by the Administrator.

Stock Bonus Awards. The Administrator may grant a stock bonus award to an employee, director or consultant that gives the recipient the right to purchase or receive a certain number of shares of common stock. The Administrator shall establish the purchase price and form of payment for each stock bonus award, which purchase price shall be no less than 100% of the fair market value per share on the date of grant; provided that the purchase price per share for a stock bonus award may be reduced on a dollar-for-dollar basis to the extent the stock bonus award is granted to the purchaser in lieu of cash compensation otherwise payable to the recipient. A stock bonus award is accepted by the execution of a stock bonus agreement between the Company and the recipient, accompanied by the payment of the purchase price for the shares, if any. Unless the Administrator determines otherwise, the stock bonus agreement shall give the Company a repurchase option exercisable upon the voluntary or involuntary termination of the recipient's employment or consulting relationship with the Company for any reason (including death and disability). The purchase price for any shares repurchased by the Company shall be the original price paid by the purchaser. The repurchase option lapses at a rate determined by the Administrator.

Restricted Stock Unit Awards. The Administrator may grant restricted stock units to an employee, director or consultant that gives the recipient the right to purchase or receive a certain number of shares of common stock. The Administrator is required to establish the purchase price and form of payment for each restricted stock unit award, which purchase price may be no less than 100% of the fair market value per share on the date of grant; provided that the purchase price per share for a restricted stock unit may be reduced on a dollar-for-dollar basis to the extent the restricted stock unit is granted to the purchaser in lieu of cash compensation otherwise payable to the recipient. The restricted stock unit conveys no rights as a stockholder to the recipient. A restricted stock unit is accepted by the execution of a restricted stock unit agreement between the Company and the recipient, accompanied by the payment of the purchase price for the shares, if any.

Minimum Vesting Requirements for Restricted Stock, Stock Bonus and Restricted Stock Unit Awards. Except as provided below, all restricted stock awards, stock bonus awards and restricted stock unit awards that are not performance awards may not vest any earlier than in pro-rata installments over a three year period measured from the date of grant, and such awards that are performance awards may not vest prior to the completion of one year of continuous service from the date of grant. However, vesting may occur earlier upon death, disability, retirement, or a change-in-control. Additionally, up to five percent of the total number of shares of common stock available for issuance under the 2003 Plan may in the aggregate be issued as any combination of restricted stock awards, stock bonus awards and restricted stock unit awards that are not subject to the foregoing vesting restrictions.

Awards Not Transferable. Awards may not be sold, pledged, transferred, or disposed of in any manner other than by will or by the laws of descent and distribution, or with respect to awards other than incentive stock options, with the Administrator's consent, and may be exercised, during the lifetime of the holder, only by the holder or such transferees as have been transferred an award with the Administrator's consent. If the Administrator makes an award transferable, such award shall contain such additional terms and conditions, as the Administrator deems appropriate.

Adjustments upon Changes in Capitalization. In the event that any dividend, distribution, stock split, reverse stock split, stock dividend, combination, reclassification, reorganization, merger, consolidation, split-up, repurchase, liquidation, dissolution or sale, transfer, exchange or other disposition of all or substantially all of the assets of the Company, exchange of common stock or other securities of the Company or other similar corporate transaction or event, in the Administrator's discretion, affects the common stock such that an adjustment is determined by the Administrator to be appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the 2003 Plan or with respect to awards granted under the 2003 Plan, appropriate adjustments shall be made in the number and kind of shares of stock (or other securities or property) subject to the 2003 Plan, the number and kind of shares of stock (or other securities or property) subject to any award outstanding under the 2003 Plan, and the exercise or purchase price of any such award.

In the event of a liquidation or dissolution, any unexercised awards will terminate. The Administrator shall notify the award holders 15 days prior to the consummation of the liquidation or dissolution.

Unless otherwise provided in the award agreement, in the event of a merger, sale of all or substantially all of the assets of the Company, tender offer or other transaction or series of related transactions resulting in a change of ownership of more than 50% of the voting securities of the Company, each outstanding award may be assumed or an equivalent option or right may be substituted by the successor corporation. The vesting of each outstanding award shall accelerate (i.e. become exercisable immediately in full) in any of the following events: (1) if the successor corporation refuses to assume the awards, or to substitute substantially equivalent awards, in which case the Administrator shall notify the award holders and the awards shall be fully vested and exercisable for 15 days following such notice, and all unexercised awards at the end of such period shall terminate, (2) if the employment of the optionee is involuntarily terminated without cause within one year following the date of closing of the merger or acquisition, or (3) if the merger or acquisition is not approved by the members of the Board of Directors in office prior to the commencement of such merger or acquisition.

Amendment and Termination of the 2003 Plan. The 2003 Plan will continue in effect until terminated by the Board; provided that no incentive stock option may be granted under the 2003 Plan after May 22, 2013. The Board may amend, alter, suspend or terminate the 2003 Plan, or any part thereof, at any time and for any reason. However, the 2003 Plan requires stockholder approval for any amendment to the 2003 Plan to the extent necessary to comply with applicable laws, rules and regulations. No action by the Board or stockholders may alter or impair any award previously granted under the 2003 Plan without the consent of the holder.

Federal Income Tax Consequences

Incentive Stock Options. An optionee who is granted an incentive stock option does not recognize taxable income at the time the option is granted or upon its exercise, although the exercise is an adjustment item for alternative minimum tax purposes and may subject the optionee to the alternative minimum tax. Upon a disposition of the shares more than two years after grant of the option and one year after exercise of the option, any gain or loss is treated as long-term capital gain or loss. If these holding periods are not satisfied, the optionee recognizes ordinary income at the time of disposition equal to the difference between the exercise price and the lower of (1) the fair market value of the shares at the date of the option exercise or (2) the sale price of the shares. Any gain or loss recognized on such a premature disposition of the shares in excess of the amount treated as ordinary income is treated as long-term or short-term capital gain or loss, depending on the holding period. A different rule for measuring ordinary income upon such a premature disposition may apply if the optionee is also an officer, director or 10% stockholder of the Company. Unless limited by Section 162(m) of the Code, the Company is entitled to a deduction in the same amount as the ordinary income recognized by the optionee.

Nonstatutory Stock Options. An optionee does not recognize any taxable income at the time he or she is granted a nonstatutory stock option. Upon exercise, the optionee recognizes taxable income generally measured by the excess of the then fair market value of the shares over the exercise price. Any taxable income recognized in connection with an option exercise by an employee of the Company is subject to tax withholding by the Company. Unless limited by Section 162(m) of the Code, the Company is entitled to a deduction in the

Table of Contents

same amount as the ordinary income recognized by the optionee. Upon a disposition of such shares by the optionee, any difference between the sale price and the optionee's exercise price, to the extent not recognized as taxable income as provided above, is treated as long-term or short-term capital gain or loss, depending on the holding period.

Restricted Stock Awards; Stock Bonuses. For federal income tax purposes, if an individual is granted a restricted stock award or a stock bonus, the recipient generally will recognize taxable ordinary income equal to the excess of the common stock's fair market value over the purchase price, if any. However, to the extent the common stock is subject to certain types of restrictions, such as a repurchase right in favor of the Company, the taxable event will be delayed until the vesting restrictions lapse unless the recipient makes a valid election under Section 83(b) of the Code. If the recipient makes a valid election under Section 83(b) of the Code with respect to restricted stock, the recipient generally will recognize ordinary income at the date of acquisition of the restricted stock in an amount equal to the difference, if any, between the fair market value of the shares at that date over the purchase price for the restricted stock. If, however, a valid Section 83(b) election is not made by the recipient, the recipient will generally recognize ordinary income when the restrictions on the shares of restricted stock lapse, in an amount equal to the difference between the fair market value of the shares at the date such restrictions lapse over the purchase price for the restricted stock. With respect to employees, the Company is generally required to withhold from regular wages or supplemental wage payments an amount based on the ordinary income recognized. Generally, the Company will be entitled to a business expense deduction (subject to the requirement of reasonableness, the provisions of Section 162(m) of the Code and the satisfaction of a tax reporting obligation) equal to the taxable ordinary income realized by the recipient. Upon disposition of the common stock, the recipient will recognize a capital gain or loss equal to the difference between the selling price and the sum of the amount paid for such common stock, if any, plus any amount recognized as ordinary income upon acquisition (or the lapse of restrictions) of the common stock. Such gain or loss will be long-term or short-term depending on how long the common stock was held. Slightly different rules may apply to recipients who are subject to Section 16(b) of the Exchange Act.

Restricted Stock Unit Awards. For federal income tax purposes, if an individual is granted a restricted stock unit award, the recipient generally will not recognize taxable income upon such issuance. However, when a restricted stock unit award vests and/or the underlying shares are issued to the recipient, the recipient generally will recognize taxable ordinary income equal to the excess of the common stock's fair market value over the purchase price, if any, on the vesting or distribution date. With respect to employees, the Company is generally required to withhold from regular wages or supplemental wage payments an amount based on the ordinary income recognized. Generally, the Company will be entitled to a business expense deduction (subject to the requirement of reasonableness, the provisions of Section 162(m) of the Code and the satisfaction of a tax reporting obligation) equal to the taxable ordinary income realized by the recipient. Upon disposition of the common stock, the recipient will recognize a capital gain or loss equal to the difference between the selling price and the sum of the amount paid for such common stock, if any, plus any amount recognized as ordinary income upon acquisition (or the lapse of restrictions) of the common stock. Such gain or loss will be long-term or short-term depending on how long the common stock is held. Slightly different rules may apply to recipients who are subject to Section 16(b) of the Exchange Act.

Potential Limitation on Company Deductions. Section 162(m) of the Code denies a deduction to any publicly held corporation for compensation paid to certain covered employees in a taxable year to the extent that compensation exceeds \$1 million for a covered employee. It is possible that compensation attributable to awards granted in the future under the 2003 Plan, when combined with all other types of compensation received by a covered employee from the Company, may cause this limitation to be exceeded in any particular year. Certain kinds of compensation, including qualified performance-based compensation, are disregarded for purposes of the deduction limitation. In accordance with Treasury regulations issued under Section 162(m) of the Code, compensation attributable to stock options will qualify as performance-based compensation, provided that: (1) the stock award plan contains a per-employee limitation on the number of shares for which awards may be granted during a specified period; (2) the per-employee limitation is approved by the stockholders; (3) the award is granted by a compensation committee

comprised solely of outside directors ; and (4) the exercise price of the award is no less than the fair market value of the stock on the date of grant.

Table of Contents

Restricted stock awards and stock bonus awards qualify as performance-based compensation under the Treasury regulations only if: (1) the award is granted by a compensation committee comprised solely of outside directors ; (2) the award is earned (typically through vesting) only upon the achievement of an objective performance goal established in writing by the compensation committee while the outcome is substantially uncertain; (3) the compensation committee certifies in writing prior to the earning of the awards that the performance goal has been satisfied; and (4) prior to the earning of the award, stockholders have approved the material terms of the award (including the class of employees eligible for such award, the business criteria on which the performance goal is based, and the maximum amount (or formula used to calculate the amount) payable upon attainment of the performance goal).

The 2003 Plan has been designed to permit the compensation committee to grant stock options, restricted stock awards, restricted stock unit awards and stock bonus awards which will qualify as performance-based compensation. However, restricted stock awards, restricted stock unit awards and stock bonus awards granted to date have not been structured to so qualify.

The foregoing is only a summary of the effect of federal income taxation upon optionees, holders of restricted stock awards, restricted stock unit awards or stock bonus awards and the Company with respect to the grant and exercise of awards under the 2003 Plan. It does not purport to be complete, and does not discuss the tax consequences of the employee s or consultant s death or the provisions of the income tax laws of any municipality, state or foreign country in which the employee or consultant may reside.

Plan Benefits

The following table sets forth information as of the Record Date about grants under the 2003 Plan during the fiscal year ended December 31, 2008 to the executive officers, directors and employees identified below.

- (1) Value based on the closing price of the Company's common stock on December 31, 2008 of \$3.20.
- (2) Mr. Lyons did not receive any grants in his capacity as an executive officer during the fiscal year ended December 31, 2008. However, he did receive an option grant in his capacity as a current non-executive director.
- (3) Pursuant to the terms of the 2003 Plan, non-employee directors are entitled to receive First Options and Subsequent Options as described in "Automatic Director Grants" above. Currently the Company has seven non-employee directors, all of whom are eligible to receive Subsequent Options on the day of the Annual Meeting. The actual value realized upon exercise of an option will depend on the excess, if any, of the stock price over the exercise price on the date of exercise. Only non-employee directors of the Company are eligible to receive automatic grants under the 2003 Plan. All other grants under the 2003 Plan are within the discretion of the Board or its committee and the benefits of such grants are, therefore, not determinable.

Equity Compensation Plans

The following table sets forth information regarding all of the Company's equity compensation plans as of December 31, 2008.

Plan Category	Number of Securities to be Issued upon Exercise of Outstanding Options, Warrants and Rights (a)	Weighted Average Exercise Price of Outstanding Options, Warrants and Rights (b)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column a) (c)

Equity compensation plans not approved by security holders (2)	168,149	\$ 28.09	
Total	5,065,708	\$ 15.51	1,004,792

- (1) Number of shares remaining available for future issuance under equity compensation plans as of December 31, 2008 is from the 2003 Plan. The shares available for issuance under the 2003 Plan may be issued in the form of option awards, restricted stock awards, restricted stock unit awards or stock bonus awards subject to limitations set forth in the 2003 Plan. The amounts in this table do not include the shares covered by the amendment to the 2003 Plan discussed in Proposal Three.
- (2) Consists of shares of common stock issuable under the Company's 2001 Stock Option Plan, as amended (the "2001 Plan") under which no further awards will be made, and an employment commencement nonstatutory stock option award. See the descriptions below.

Summary of the 2001 Stock Option Plan

The essential features of the 2001 Plan are summarized below. This summary does not purport to be complete and is subject to, and qualified by reference to, all provisions of the 2001 Plan.

General. The purpose of the 2001 Plan was to attract and retain the best available personnel, to provide additional incentive to the employees and consultants of the Company and to promote the success of the Company's business. Effective May 22, 2003, options and stock purchase rights may no longer be granted under the 2001 Plan.

Administration. The 2001 Plan may generally be administered by the Board of Directors or a Committee appointed by the Board (in either case, the Administrator). The Administrator may make any determinations deemed necessary or advisable for the Plan.

Table of Contents

Eligibility. Nonstatutory stock options and stock purchase rights may have been granted under the 2001 Plan to employees and consultants (including officers and directors) of the Company and any parent or subsidiary of the Company; provided that the aggregate number of shares issued or reserved for issuance pursuant to options granted to persons other than officers exceeded fifty percent (50%) of the total number of shares issued or reserved for issuance pursuant to options granted under the 2001 Plan. The Administrator, in its discretion, selected the employees and consultants to whom options and stock purchase rights may have been granted, the time or times at which such options and stock purchase rights were granted, and the number of shares subject to each such grant.

Terms and Conditions of Options. Options granted under the 2001 Plan were nonstatutory stock options. Each such option is evidenced by a stock option agreement between the Company and the optionee, and is subject to the following additional terms and conditions:

Exercise Price. The Administrator determined the exercise price of options at the time the options were granted. The exercise price of a nonstatutory stock option was no less than the par value per share on the date of grant. The fair market value of the common stock was determined with reference to the closing sale price for the common stock (or the closing bid if no sales were reported) on the last market trading day prior to the date the option was granted.

Exercise of Option; Form of Consideration. The Administrator determines when options become exercisable and may, in its discretion, accelerate the vesting of any outstanding option. The means of payment for shares issued upon exercise of an option is specified in each option agreement. The Plan permits payment to be made by cash, check, bearing a market rate of interest, other shares of common stock of the Company (with some restrictions), cashless exercise, any other form of consideration permitted by applicable law, or any combination thereof.

Term of Option. The term of options is no more than 10 years from the date of grant. No option may be exercised after the expiration of its term.

Termination of Employment. If an optionee's employment or consulting relationship terminates for any reason (other than death, retirement or disability), then all options held by the optionee under the 2001 Plan expire on the earlier of (i) the date set forth in his or her notice of grant (which date is typically six months after the date of such termination), or (ii) the expiration date of such option. To the extent the option is exercisable at the time of the optionee's termination, the optionee may exercise all or part of his or her option at any time before it terminates.

Disability. If an optionee's employment or consulting relationship terminates as a result of disability, then all options held by such optionee under the 2001 Plan expire on the earlier of (i) six months from the date of such termination (or such other period of time as determined by the Administrator) or (ii) the expiration date of such option. The optionee (or the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance) may exercise all or part of the option at any time before such expiration to the extent the right to exercise would have accrued had the optionee remained an employee or consultant for a period of six months from the time of termination due to disability.

Death. In the event of an optionee's death: (i) during the optionee's employment or consulting relationship with the Company, the option may be exercised, at any time within six months of the date of death (or at such later time as may be determined by the Administrator but in no event later than the expiration date of such option) by the optionee's estate or a person who has acquired the right to exercise the option by bequest or inheritance, but only to the extent that the optionee's right to exercise the option would have accrued if he or she had remained an employee or consultant of the Company six months after the date of death; or (ii) within 30 days (or such other period of time as determined by the Administrator) after the optionee's employment or consulting relationship with the Company terminates, the option may be exercised at any time within six months (or such other period of time as determined by the Administrator) following the date of death (but in no event later than the expiration date of the option) by the

optionee's estate or a person who has acquired the right to exercise the option by bequest

Table of Contents

or inheritance, but only to the extent of the optionee's right to exercise the option at the date of termination.

Retirement. The 2001 Plan provides that upon the retirement of any Company employee at age 55 or greater following five or more years of service to the Company, all stock options held by such employee will vest and be exercisable for a term of three years from the date of retirement.

Nontransferability of Options. Unless otherwise determined by the Administrator, options granted under the 2001 Plan are not transferable other than by will or the laws of descent and distribution, and may be exercisable during the optionee's lifetime only by the optionee.

Other Provisions. The stock option agreement may contain other terms, provisions and conditions not inconsistent with the 2001 Plan as may be determined by the Administrator.

Stock Purchase Rights. A stock purchase right gives the purchaser a period of no longer than six months from the date of grant to purchase common stock. The purchase price of common stock purchased pursuant to a stock purchase right granted under the 2001 Plan was determined in the same manner as for nonstatutory stock options. Each such stock purchase right was accepted by the execution of a restricted stock purchase agreement between the Company and the purchaser, accompanied by the payment of the purchase price for the shares. Unless the Administrator determines otherwise, the restricted stock purchase agreement gives the Company a repurchase option exercisable upon the voluntary or involuntary termination of the purchaser's employment or consulting relationship with the Company for any reason (including death and disability). The purchase price for any shares repurchased by the Company shall be the original price paid by the purchaser. The repurchase option lapses at a rate determined by the Administrator. A stock purchase right is nontransferable other than by will or the laws of descent and distribution, and may be exercisable during the optionee's lifetime only by the optionee.

Adjustments upon Changes in Capitalization. In the event that the stock of the Company changes by reason of any stock split, reverse stock split, stock dividend, combination, reclassification or other similar change in the capital structure of the Company effected without the receipt of consideration, appropriate adjustments shall be made in the number and class of shares of stock subject to the 2001 Plan, the number and class of shares of stock subject to any option or stock purchase right outstanding under the 2001 Plan, and the exercise price of any such outstanding option or stock purchase right.

In the event of a liquidation or dissolution, any unexercised options or stock purchase rights will terminate. The Administrator shall notify the optionee 15 days prior to the consummation of the liquidation or dissolution. To the extent it has not been previously exercised, the option or stock purchase right shall terminate immediately prior to the consummation of such proposed action.

In connection with any merger, consolidation, acquisition of assets or like occurrence involving the Company, each outstanding option or stock purchase right may be assumed or an equivalent option or right may be substituted by the successor corporation. The vesting of each outstanding option or stock purchase right shall accelerate (i.e. become exercisable immediately in full) in any of the following events: (1) if the successor corporation refuses to assume the option or stock purchase rights, or to substitute substantially equivalent options or rights, (2) if the employment of the optionee is involuntarily terminated without cause within one year following the date of closing of the merger or acquisition, or (3) if the merger or acquisition is not approved by the members of the Board of Directors in office prior to the commencement of such merger or acquisition.

Amendment and Termination of the Plan. The Board may amend, alter, suspend or terminate the 2001 Plan, or any part thereof, at any time and for any reason. However, the 2001 Plan requires stockholder approval for any amendment to the 2001 Plan to the extent necessary to comply with applicable laws, rules and regulations. No action

by the Board or stockholders may alter or impair any option or stock purchase right previously granted under the 2001 Plan without the consent of the optionee. Unless terminated earlier, the Plan shall terminate ten years from the date of its approval by the stockholders or the Board of the Company, whichever is earlier.

Summary of the Employment Commencement Nonstatutory Stock Option

The Company granted an employment commencement nonstatutory stock option award (the Option) to one of the current executive officers of the Company in connection with, and as an inducement to, his employment with the Company. The essential features of the Option are summarized below. This summary does not purport to be complete and is subject to, and qualified by reference to, all provisions of the Option Agreement with the executive officer. The Option covers the right to purchase an aggregate of 55,000 shares of the Company's common stock at an exercise price of \$52.82 per share. The Option is nonstatutory for tax purposes and may not be transferred other than by will or the laws of descent and distribution.

Exercise of Option; Form of Consideration; Term of Options. The Option vests and becomes exercisable with respect to 25% of the shares 12 months after issuance and with respect to an additional 1/48 of the shares each month thereafter, subject to the Optionee continuing to be an employee or consultant. The Option permits payment to be made by cash, check, other shares of common stock of the Company (with some restrictions), cashless exercise, any other form of consideration permitted by applicable law, or any combination thereof. The term of the Option is 10 years from the date of grant. The Option may not be exercised after the expiration of its term.

Termination of Employment; Retirement. If the Optionee's employment terminates for any reason other than death or disability, then his Option expires on the earlier of (i) 90 days after the date of such termination or (ii) the expiration date of such Option. If the Optionee's employment terminates upon death or disability, then his Option expires on the earlier of (i) six months after the date of such termination or (ii) the expiration date of such Option. The Option provides that upon the retirement of the Optionee at age 55 or greater following five or more years of service to the Company, his Option will vest and be exercisable for a term of three years from the date of retirement.

Adjustments upon Changes in Capitalization. In the event that the stock of the Company changes by reason of any stock split, reverse stock split, stock dividend, combination, reclassification or other similar change in the capital structure of the Company effected without the receipt of consideration, appropriate adjustments shall be made in the number and class of shares of stock subject to the Option and the exercise price of the Option. In connection with any merger, consolidation, acquisition of assets or like occurrence involving the Company, the Option may be assumed or an equivalent option or right may be substituted by the successor corporation. The vesting of the Option right shall accelerate (*i.e.*, become exercisable immediately in full) in any of the following events: (1) if the successor corporation refuses to assume the Option, or to substitute substantially equivalent options, (2) if the employment of the Optionee is involuntarily terminated without cause within one year following the date of closing of the merger or acquisition, or (3) if the merger or acquisition is not approved by the members of the Board of Directors in office prior to the commencement of such merger or acquisition.

PROPOSAL FOUR: STOCKHOLDER PROPOSAL TO DECLASSIFY THE BOARD OF DIRECTORS

General

The Comptroller of the City of New York is the custodian and trustee of the New York City Teachers' Retirement System, the New York City Police Pension Fund and the New York City Fire Department Pension Fund and the custodian of the New York City Board of Education Retirement System. The address of such stockholders is: The City of New York, Office of the Comptroller, Bureau of Asset Management, 1 Centre Street, New York, NY 10007-2341.

The stockholders identified above own an aggregate of 74,664 shares of our common stock and have submitted the following proposal for consideration in this proxy statement. We are not responsible for any of the contents of the language of the stockholder proposal, which is included below in italics and between quotation marks. The Board unanimously opposes this stockholder proposal for the reasons stated in the

Statement in Opposition of the Stockholder Proposal to Declassify the Board of Directors, which follows the stockholder proposal.

Submitted by William C. Thompson, Jr., Comptroller, City of New York, on behalf of the Boards of Trustees of the New York City Teachers Retirement System, the New York City Police Pension Fund, the New York City Fire Department Pension Fund, and the New York City Board of Education Retirement System

BE IT RESOLVED, that the stockholders of Neurocrine Biosciences, Inc. request that the Board of Directors take the necessary steps to declassify the Board of Directors and establish annual elections of directors, whereby directors would be elected annually and not by classes. This policy would take effect immediately, and be applicable to the re-election of any incumbent director whose term, under the current classified system, subsequently expires.

SUPPORTING STATEMENT

We believe that the ability to elect directors is the single most important use of the shareholder franchise. Accordingly, directors should be accountable to shareholders on an annual basis. The election of directors by classes, in our opinion, minimizes accountability and precludes the full exercise of the rights of shareholders to approve or disapprove annually the performance of a director or directors.

In addition, since only a fraction of the Board of Directors is elected annually, we believe that classified boards could frustrate, to the detriment of long-term shareholder interest, the efforts of a bidder to acquire control or a challenger to engage successfully in a proxy contest.

We urge your support for the proposal to repeal the classified board and establish that all directors be elected annually.

**STATEMENT IN OPPOSITION OF THE STOCKHOLDER PROPOSAL
TO DECLASSIFY THE BOARD OF DIRECTORS**

Our Certificate of Incorporation currently provides for a classified board, which is divided into three classes. The members of each class are elected to serve staggered three-year terms. The current classified board structure has been in place since our initial public offering in 1996. This same non-binding stockholder proposal was submitted at our 2007 and 2008 Annual Meetings of Stockholders. At the 2007 and 2008 meetings, the proposal received approximately 54% and 68%, respectively, of the votes cast on the proposal (including abstentions) and was therefore approved, but the affirmative votes represented substantially less than half of our outstanding shares as of the record date for the meetings. As described below, the vote that would be necessary to actually repeal the classified board provisions of our Certificate of Incorporation would be the affirmative vote of the holders of a majority of our outstanding common stock – a threshold beyond the affirmative votes cast in favor of the proposal at the 2007 and 2008 Annual Meetings. In addition, we continue to believe that our classified board structure offers important advantages and continues to be in the best interests of the Company and our stockholders.

Continuity and Stability. We believe that a classified Board enhances continuity and stability in our management and policies since a majority of the directors at any given time will have had prior experience and familiarity with our business. This continuity and stability fosters a greater focus on long-term strategic planning and other areas of oversight, thereby enhancing our value to stockholders. We believe that the long-term perspective resulting from Board continuity and stability is particularly important for a company such as ours that is engaged in the research and development of pharmaceutical products, given the significant time, money and effort that is required to successfully develop and commercialize such products, the fundamentally unpredictable nature of drug development, and the inherent volatility in stock prices for biotechnology and pharmaceutical companies. Moreover, this continuity helps us

attract and retain qualified individuals willing to commit the time and dedication necessary to understand the Company, our operations and our competitive environment and who we believe are therefore better positioned to make decisions that benefit our stockholders.

Table of Contents

Protection Against Hostile Bidders. In the event of an unfriendly or unsolicited effort to take over or restructure the Company, the classified Board structure facilitates our ability to obtain the best outcome for stockholders by giving us time to negotiate with the entity seeking to gain control of the Company and to consider alternative methods of maximizing stockholder value. If a corporation has a classified board and a hostile bidder stages and wins a proxy contest at the corporation's annual meeting, the bidder can replace approximately one-third of the existing directors at that meeting, meaning that the bidder would need to stage and win a second proxy contest at the next annual meeting to gain control of the board. In contrast, if the corporation's board was declassified, a hostile bidder could at the first annual meeting replace a majority of the directors with directors who are friendly to the bidder. Declassification of the Board would eliminate these benefits and therefore provide us with less time to evaluate a takeover proposal, negotiate the best result for all stockholders and consider alternatives.

Accountability to Stockholders. In the opinion of the Board, directors of a classified board are just as accountable to stockholders as those on an annually elected board. Since approximately one-third of our directors stand for election each year, stockholders have the opportunity annually to vote against, or withhold their votes from, those directors as a way of expressing any dissatisfaction with the Board or management. Moreover, the entire Board can be replaced in the course of three annual meetings, all held within approximately two years. Our directors believe that they are no less attentive to stockholder concerns as a result of having been elected to three-year terms, and that they are equally accountable to the stockholders in years when they do not face re-election. The Board is committed to the highest quality of corporate governance and has adopted Corporate Governance Guidelines that, among other things, focus on the independence of our directors and the effective performance and functioning of the Board.

Effect of the Stockholder Proposal. Approval of the stockholder proposal requires the affirmative vote of the holders of a majority of the shares represented in person or by proxy at the meeting. However, approval of the proposal would not automatically eliminate the classified Board, as it is a non-binding proposal requesting that the Board take the necessary steps to declassify the Board. A formal amendment repealing the classified board provisions of our Certificate of Incorporation would need to be approved by the Board and submitted to our stockholders at a subsequent meeting, and it would require approval by the affirmative vote of the holders of a majority of our outstanding common stock.

Vote Required

The affirmative vote of the holders of a majority of the shares represented in person or by proxy at the Annual Meeting will be required to approve the stockholder proposal to declassify the Board of Directors. **The Board of Directors unanimously recommends voting AGAINST the stockholder proposal to declassify the Board of Directors.**

Toxicology from the University of Nebraska Medical Center, and earned his Ph.D. in Pharmaceutical Sciences from the University of Arizona.

Dimitri E. Grigoriadis, Ph.D., became Vice President of Research in January 2007 and oversees all research functions including drug discovery, biology and chemistry. Dr. Grigoriadis joined Neurocrine in 1993, established the Pharmacology and drug screening groups and was most recently a Neurocrine Fellow and Vice President of Discovery Biology. Prior to joining Neurocrine, he was a Senior Scientist in the Neuroscience group at the Du Pont Pharmaceutical Company from 1990 to 1993. Dr. Grigoriadis received his B.Sc. from the University of Guelph in Ontario Canada, and his M.Sc. and Ph.D. in Pharmacology from the University of Toronto, Ontario, Canada. He conducted his postdoctoral research at the National Institute on Drug Abuse from 1987 to 1990.

COMPENSATION DISCUSSION AND ANALYSIS

Overview and Role of the Compensation Committee

The Compensation Committee (Committee) reviews and recommends to the Board of Directors for approval the Company s executive compensation policies.

The specific roles of the Committee include:

- reviewing and, if necessary, revising the compensation philosophy of the Company;

- reviewing and approving corporate goals and objectives relating to the compensation of the Company s executive officers, and evaluating the performance of the Company s executive officers in light of the Company s goals and objectives;

- reviewing and approving all employment agreements and compensation for all executive officers and guidelines for salaries, merit salary increases, bonus payments, stock based grants and performance stock based grants for all other employees of the Company;

- reviewing and approving all promotions to executive officers and all new hires of executive officers;

- managing and reviewing equity incentive, employee pension and benefit plans;

- managing and reviewing the grant of perquisite benefits;

- managing and reviewing executive officer and director indemnification and insurance matters; and

- overseeing the preparation of, and approving, this section of the Company s annual proxy statement.

Compensation Philosophy and Objectives

The Committee s philosophy in establishing the Company s compensation policy for executive officers and other employees is to:

- create a structure designed to attract and retain highly skilled individuals by establishing salaries, benefits, and incentive compensation which compare favorably with those for similar positions in other biotechnology companies; and

align compensation plans to both short-term and long-term goals and objectives of the Company.

In light of the Company's philosophy, the Committee attempts to provide a mix of compensation between base salary and cash bonuses such that approximately 30% to 40% of the executive officer's total cash compensation is at risk and that non-cash compensation is structured to provide a reward for corporate and individual performance. The Committee believes that this approach provides an appropriate incentive for executive officers to attain the Company's long-term strategic and performance goals, and also retains and motivates key executive officers. Although current general economic conditions in 2008 played a role in

Table of Contents

determining the amount of compensation awards for 2009, the Company made no changes to its compensation philosophy and objectives due to these conditions.

Role of Peer Group, Compensation Surveys and Consultants

In order to evaluate the Company's competitive position in the industry related to executive compensation, the Committee has historically reviewed and analyzed the compensation packages, including base salary levels, cash bonus awards and equity awards, offered by other biotechnology and pharmaceutical companies within a designated peer group.

As a result of a significant reduction of the Company's workforce, changes to the management team and a significant decrease in the Company's market capitalization in late 2007 and early 2008, the Committee believed that the 2007 peer group of companies no longer represented an appropriate peer group for the Company. Accordingly, when reviewing the Company's executive compensation policies for 2008 and making recommendations to the Board regarding such policies, and in setting 2008 compensation levels, the Committee used information obtained directly from the Radford Global Life Sciences Survey (Radford Survey). The Radford Survey is the leading source for compensation information in the biotechnology industry. Because the Committee viewed the Company as being in a transition stage due to the events described above, the Committee used data from the overall results and similarly sized company sections of the Radford Survey in setting 2008 compensation levels.

During 2008, the Committee determined that the Company would have completed its transition by year end and therefore established a new peer group to be used in setting 2009 compensation levels. This peer group was selected based on a variety of factors including business scope, market capitalization, stage of development, location and/or competition for talent, and consists of Acadia Pharmaceuticals, Inc., Alexza Pharmaceuticals, Inc., Arena Pharmaceuticals, Inc., CombinatoRx, Inc., Cytokinetics Incorporated, Dendreon Corporation, Geron Corporation, Halozyme Therapeutics, Inc., Incyte Corporation, Indevus Pharmaceuticals, Inc., Infinity Pharmaceuticals, Inc., ISIS Pharmaceuticals, Inc., Metabasis Therapeutics, Inc., Peregrine Pharmaceuticals, Inc., Rigel Pharmaceuticals, Inc., Santarus, Inc., Seattle Genetics, Inc., Somaxon Pharmaceuticals, Inc., Sunesis Pharmaceuticals, Inc., Theravance, Inc., Trubion Pharmaceuticals, Inc. and Vical Incorporated.

Compensation Consultant

The Committee used the services of Remedy Compensation Consulting (the Compensation Consultant) as a third party compensation consultant for establishing 2008 and 2009 compensation levels. The Compensation Consultant worked closely with the Committee in re-defining the peer group for 2009. The Compensation Consultant was engaged directly by the Committee, and its contract and related services are at the sole discretion of the Committee.

Establishment of 2008 Employee Retention Program

In February 2008, the Board approved an employee retention program (the Retention Program) to provide the Company with a mechanism to retain its non-officer and executive officer employees who were not subject to the December 2007 reduction in the Company's workforce. At the time, the Committee believed that employee and executive retention over the following two to three years was critical. As part of the Retention Program, the Board approved a one-time cash retention amount and the issuance of RSUs and stock options to its executive officers. The Retention Program was intended to provide both a short-term incentive to stay and a long-term incentive to help the Company meet its goals and objectives as well as retain those receiving the equity awards. The Committee reviewed each compensation component separately and in total versus the data obtained from the Radford Survey and determined that the executive compensation components of the Retention Program fell within the targeted ranges for executive compensation set forth below.

Table of Contents

Role of Executive Officers in Compensation Decisions

The Committee makes all final decisions regarding compensation for all executive officers (other than compensation for the President and Chief Executive Officer, which is decided by all non-employee members of the Board of Directors), including determining equity awards. The President and Chief Executive Officer annually reviews the performance of each executive officer (other than himself). The Committee reviews competitive market data for base salary, cash bonuses and equity awards. In addition, both the Committee and the Chief Executive Officer consulted with the Compensation Consultant in establishing the compensation levels for 2008 and 2009. From this review, conclusions and recommendations, including proposed base salary adjustments and annual award amounts, are presented to the Committee for its consideration and approval. The Committee, in its sole discretion, can accept, modify or reject any of the recommendations.

Components of Compensation

The Company's compensation for executive officers consists of six components: base salary, cash bonuses, equity awards, deferred compensation benefits, retirement benefits as provided under the Company's 401(k) plan, and severance agreements and other benefits. Due to the importance of the role, higher level of responsibility and enhanced stockholder accountability, the President and Chief Executive Officer typically receives a greater total compensation package, including stock equity grants. Base salaries, cash bonuses and equity award components of compensation are targeted at or above the average rates reflected by the Radford Survey for 2008 compensation and the peer group for 2009 compensation. Generally, this means targeting each of these three components between the 50th and 75th percentile of the actual benefits for all incumbents in an appropriately comparable position as reflected by the Radford Survey for 2008 compensation and the peer group for 2009 compensation. Using significant discretion, the Committee considers each executive's responsibilities, experience, and contribution to goals when determining the appropriate compensation level for each executive within the target percentiles. In turn, these same components, when added together, are also within these same targeted percentiles for compensation levels as compared to the Radford Survey for 2008 compensation and the peer group for 2009 compensation. There is no direct correlation between how amounts paid for one component affect amounts paid under another component. Each of these six components is described below.

Base Salary

The base salary component of compensation is designed to compensate executive officers competitively at levels necessary to attract and retain qualified executives in the pharmaceutical and biotechnology industry. For 2008 and 2009 compensation, base salaries have been targeted between the 50th and 75th percentiles of rates reflected by the Radford Survey and the 2009 peer group, respectively, to enable the Company to attract, motivate, reward and retain highly skilled executives. As a general matter, the base salary for each executive officer is initially established through negotiation at the time the officer is hired, taking into account such officer's qualifications, experience, prior salary, and competitive salary information. Year-to-year adjustments to each executive officer's base salary are based upon personal performance for the year, changes in the general level of base salaries of persons in comparable positions within the industry, and the average merit salary increase for such year for all employees of the Company established by the Committee, as well as other factors the Committee judges to be pertinent during an assessment period. In making base salary decisions, the Committee exercises its judgment to determine the appropriate weight to be given to each of these factors.

Cash Bonuses

The Committee's philosophy in establishing the Company's cash bonus compensation strategy for executive officers and other employees is to provide a mix of compensation between base salary and total cash compensation such that approximately 30% to 40% of the total target cash compensation is at risk for executives during 2009. The cash bonus targets at plan were set between the 50th and 75th percentiles of target bonuses reflected by the Radford Survey for 2008 compensation and the peer group for 2009 compensation to enable the Company to attract, motivate, reward and retain highly skilled executives for

Table of Contents

short-term performance. This supports the achievement of annual Company goals and objectives by basing compensation on a pay-for-performance basis.

To promote a pay-for-performance environment, the Company maintains a discretionary performance-based annual bonus program for its executive officers. Bonus payments are linked to the attainment of overall corporate goals established by the Board of Directors and individual performance for each executive officer. The Board of Directors establishes the target and maximum potential amount of each officer's bonus payment annually, based upon the recommendation of the Committee. Normally an appropriate weight is given to each of the various goals used to calculate the amount of each executive officer's bonus payment as determined by the Committee in its sole discretion.

In February 2008, the Board approved the Company's performance goals for 2008 along with eligible bonus percentages and weighting for executive officers. The Board decreased the President and Chief Executive Officer's bonus target percentage to 60% of base salary for 2008; this placed the President and Chief Executive Officer's target bonus closer to the 50th percentile of bonus targets in the Radford Survey. All other executive officers' eligible bonus at target remained at 50% of their respective base salaries and maximum bonus payouts (which was the same as in 2007) as both the target and maximum levels were substantially similar to the Radford Survey data. In addition, the Company no longer has an executive in the position of Chief Operating Officer. The performance goals for 2008 related to our lead development programs which comprise mainly GnRH, CRF, and urocortin 2, our earlier stage research and development programs and general administration activities. The Committee assigned a weighting of 55%, 25% and 20%, respectively, for each of these areas. Some of the specific 2008 goals were as follows: for the GnRH and urocortin 2 programs, the continuation of various clinical and pre-clinical development studies and entering into a research and development partnership for GnRH; for our earlier stage research and development program goals, the continuation of various pre-clinical development studies, preparation for clinical studies and various research and drug discovery goals; and for general administrative activities, maintaining the projected cash burn, exceeding the NASDAQ biotechnology and composite indices' returns, and supplementing the early stage drug development pipeline.

In general, achievement of the Company's goals determines the initial bonus pool for the Company, which is then allocated to the executive officers based on the individual performance of each executive officer during the year. As in previous years, the 2008 executive bonuses were discretionary and there were no formulaic calculations for determining the actual amount of the bonus for each executive. Accordingly, the Board or the Committee may, in its sole discretion, eliminate any individual bonus or reduce or increase the amount of compensation payable with respect to any individual bonus. An executive officer must be an employee of the Company on the date of payment to qualify for a bonus. Any executive officer who leaves the employment of the Company, voluntarily or involuntarily, prior to the payment, is ineligible for any bonus. An employee who becomes an executive officer during the fiscal year may be eligible for a pro-rated bonus at the option of the Committee, provided the executive has been employed a minimum of three months during the calendar year. No clawback provisions have been adopted at this time. The Committee believes that the performance goals established for bonuses do not encourage excessive risk taking or have potential for encouraging behavior that may impact the Company negatively in future years.

For 2008, executive officers were eligible for the following bonuses as a percentage of annualized base salary:

Executive Officer	Minimum Payout	Target Percentage	Maximum Payout
President and Chief Executive Officer	0 %	60 %	120 %
All Other Executive Officers	0 %	50 %	100 %

In reviewing performance for 2008, the Committee determined that a majority of the corporate goals had been met. Goals for GnRH included generation of positive top-line results for the 603 study, and initiation of the 702 and 703 studies for GnRH; however, the goal of obtaining a partnership was not reached. Other goals achieved included the pre-clinical work for urocortin 2, and the advancement of another compound, a VMAT2 inhibitor, which is now ready for clinical development. Most of the early stage research and development

Table of Contents

program goals were completed, including various pre-clinical development studies, preparation for clinical studies and advancement of drug candidates in the research and drug discovery areas. General administrative goals achieved include maintaining the projected cash burn, ending 2008 with over \$100 million in cash and investments and reorganizing the Company in early 2008. Notwithstanding the achievement of the majority of the corporate goals for the year, the Committee determined that no annual bonus payment would be awarded to the executive officers for 2008. This was primarily due to the failure to obtain a partnership for the GnRH program coupled with the need for the Company to conserve cash at this time.

In February 2009, the Board approved the Company's performance goals for 2009 along with eligible bonus percentages and weighting for executive officers. The performance goals for 2009 include goals for lead development programs, research and general administration. GnRH program goals include continuation of various clinical and pre-clinical development studies and entering into a partnership for GnRH. Early stage research and development program goals include various pre-clinical development studies, preparation for clinical studies and various research and drug discovery goals. VMAT2 goals include initiating a Phase I trial and other pre-clinical activities. General administrative activities include maintaining the projected cash burn and budgetary goals.

Equity Awards

The Committee provides the Company's executive officers with long-term incentive compensation through grants of stock options, restricted stock units (RSUs) and/or stock bonuses under the Company's equity compensation plans. These equity-based programs provide the Company's executive officers with the opportunity to purchase and maintain an equity interest in the Company and to share in the appreciation of the value of the Company's common stock. The Committee believes that these grants directly motivate an executive to maximize long-term stockholder value and create an effective tool for incentivizing and retaining those executives who are most responsible for influencing stockholder value by further aligning our executive's interests with those of our stockholders by increasing the reward to our executives when our stock price increases. The grants also utilize vesting periods that encourage key executives to continue in the employ of the Company. The Committee considers each grant subjectively, considering factors such as the individual performance of the executive officer, the anticipated contribution of the executive officer to the attainment of the Company's long-term strategic performance goals, and to retain and motivate key executives. The equity awards for each year are set between the 50th and 75th percentiles of the actual benefits reflected by the Radford Survey for 2008 and by the peer group in 2009 to enable the Company to attract, motivate, and retain highly skilled executives. Long-term incentives granted in prior years are also taken into consideration, but do not play a significant role in current year determinations.

It has been our practice to make equity-based awards to our executives on an annual basis. Annual stock option awards typically vest over three years and have a seven year term. Additionally, all stock option awards are priced based upon the closing price of the Company's common stock on the date of grant, which is also the approval date, by the Committee or Board of Directors. RSU awards typically vest over three years. The Committee typically reviews Company and executive performance during the first quarter of each year to determine the amount and types of awards to be granted. Prior year actual gains from the exercise of vested equity grants are not considered in the determination of current year compensation. The Company does not maintain any equity ownership guidelines for its executive officers.

Deferred Compensation Plan

Currently, employees at the Vice President level or above, inclusive of members of the Board of Directors, are eligible to participate in the Company's Deferred Compensation Plan (the "NQDC Plan"). Under the terms of the NQDC Plan, each eligible participant may elect to defer all or a portion of cash salary and bonus compensation, and RSUs received for services to the Company. The plan was established for the purpose of providing retirement and other benefits on

behalf of such employees. The plan is intended to be a nonqualified unfunded top-hat plan maintained primarily for the purpose of providing deferred compensation benefits for a select group of management or highly compensated employees. We do not provide a match on

Table of Contents

executive deferrals under the deferred compensation plan. We maintain this plan for the purpose of providing a competitive benefit allowing our executives an opportunity to defer income tax payments on their cash and equity compensation.

Retirement Benefits

The terms of the Company's 401(k) Savings Plan (the "401k Plan"), provide for executive officer and broad-based employee participation. Under the 401k Plan, all Company employees are eligible to receive basic matching contributions from the Company that vest three years from date of hire and monthly thereafter. The Company's basic matching contribution for the 401k Plan for 2008 was \$0.50 for each dollar on the first 6% of each participant's pretax contributions and was calculated on a payroll-by-payroll basis subject to applicable Federal matching limits (\$6,900 in 2008). Beyond the basic matching contribution, the Company made no discretionary contributions to the 401k Plan in 2008.

Severance Agreements and other Benefits

Executive officers are eligible to participate in the Company's employee benefit plans on the same terms as all other full-time employees. These plans include medical, dental and life insurance. In addition to the benefits available to all employees, we provide our executive officers with certain additional benefits that we believe reflect market standards and are reasonable and necessary to attract and/or retain each of our executive officers and, in the case of the tax planning services described below, allow the executive officers to realize the full benefit of the other elements of compensation we provide. Executive officers are also provided with one annual physical examination. Executive officers are eligible for four weeks of vacation from date of hire through ten years of employment, and five weeks of vacation per year thereafter. Additionally, all executive officers, as well as all other full-time employees, are eligible to receive a one-time additional two week vacation benefit after ten years of service. In certain cases, the Company may provide relocation expense reimbursement and related tax gross-up benefits, and tax preparation and planning services, to the executive officers.

In addition, executive officers are eligible to receive severance benefits in connection with terminations of employment due to death, disability, or termination without cause or constructive termination (including following a change-in-control) as set forth below and more fully described in *Potential Payments upon Termination or Change-In-Control*. The Board updated the executive severance agreements most recently in 2007 to reflect competitive market standards. In revising the agreements, the Board relied on input provided by Hewitt and Associates, a third party consultant, which provided a competitive analysis using primarily the 2007 peer group data and Committee recommendations. The Committee believes that the executive severance arrangements continue to reflect current market standards and severance benefits competitive with those provided by our peer group. The Committee believes that in order to continue to retain the services of our key executive officers, it is important to provide them with some income and benefit protection against an involuntary termination of employment.

Compensation components for executive officers in the event of death include partial stock award acceleration, prorata bonus payment, payments for accrued base salary, vested deferred compensation, any accrued vacation and any accrued benefits under any plans of the Company in which the executive officer is a participant and any appropriate business expenses incurred by the executive officer. In the event of death, there is no base salary continuation.

Compensation components for executive officers in the event of a qualifying long-term disability include partial stock award acceleration, prorata bonus payment, limited base salary continuation, payments for accrued base salary, limited Company-paid health insurance benefits, vested deferred compensation, and any accrued vacation and any accrued benefits under any plans of the Company in which the executive officer is a participant.

Compensation components for executive officers in the event of termination by the Company without cause or termination by the executive officer due to constructive termination include payments for accrued base salary, cash compensation payments, partial stock award acceleration, limited Company-paid health

insurance benefits, vested deferred compensation, and any accrued vacation and any accrued benefits under any plans of the Company in which the executive officer is a participant. Eligibility for these benefits under either situation requires a signed release agreement by the executive officer.

Compensation components for executive officers in the event of a termination by the Company without cause or termination by the executive officer due to constructive termination following a change-in-control include payments for accrued base salary, a cash compensation payment, cash compensation for the value of all outstanding stock awards, limited Company-paid health insurance benefits, vested deferred compensation, and any accrued vacation and any accrued benefits under any plans of the Company in which the executive officer is a participant. The change-in-control benefits also contain certain tax gross-up provisions. Eligibility for these benefits requires a signed release agreement by the executive officer.

The compensation committee believes that in order to continue to retain the services of our key executive officers and focus their efforts on stockholder interests when considering strategic alternatives, it is important to provide them with enhanced income and benefit protection against loss of employment in connection with a change-in-control of our company and thereby align the interests of our stockholders and our executive officers. However, we do not provide for such benefits solely in the event of a change-in-control because we believe that our executives are materially harmed only if a change in control results in our executives' involuntary loss of employment, reduced responsibilities, reduced compensation, or other adverse change in the nature of the employment relationship.

Chief Executive Officer Compensation

In January 2008, Dr. Gorman was promoted to President and Chief Executive Officer and his annualized base salary became \$440,000 reflecting a 10% promotional increase over his 2007 base salary. Dr. Gorman's new base salary was established based upon increased responsibilities and significantly similar to the Radford Survey data. Dr. Gorman's current base salary is slightly below the median for the 2009 peer group. In February 2008, Dr. Gorman was awarded a one-time cash payment under the Retention Program in the amount of \$240,000, 60% of which was paid immediately and 40% of which was paid in December 2008. This was the same payment schedule used in the Retention Program for all non-officer employees. In February 2008, Dr. Gorman was also awarded 125,000 RSUs and a stock option to purchase 45,000 shares under the Retention Program that ratably vest on an annual basis over three years. Due to the unmet goal of obtaining a partnership for our lead program, GnRH, the general downturn in the economy, and the need for the Company to conserve capital at this time, the Committee recommended, and the Board of Directors approved in January 2009, no change in Dr. Gorman's base salary for 2009, and no cash bonus or equity awards to Dr. Gorman for 2008 performance.

In January 2008, Mr. Lyons and the Company's Board of Directors reached mutual agreement that Mr. Lyons would no longer serve as the President and Chief Executive Officer of the Company, and Dr. Gorman was appointed President and Chief Executive Officer. For the remainder of the year, Mr. Lyons was compensated pursuant to the severance provisions in his employment agreement.

Other Executive Officer Compensation

The compensation of all other executive officers is reviewed annually as discussed above. In January 2008, Dr. O'Brien, Dr. Grigoriadis and Dr. Bozigian became executive officers of the Company.

Base Salary

Effective January 1, 2008, the executive officers' annualized base salaries became as follows: \$300,000 for Mr. Coughlin, \$395,000 for Dr. Valeur-Jensen, \$375,000 for Dr. O'Brien, and \$285,000 for each of Dr. Grigoriadis

and Dr. Bozigian. Mr. Coughlin's annualized base salary was determined through a combination of individual performance, initial success in the role of Chief Financial Officer and his prior annualized base salary being below the Company's targeted range. Dr. Valeur-Jensen's annualized base salary was determined through a combination of individual performance and her prior annualized base salary being near the top of the Company's targeted range. Dr. O'Brien's annualized base salary was determined through a

Table of Contents

combination of individual performance, additional responsibilities in regulatory affairs and his prior annualized base salary being near the top of the Company's targeted range. Both Dr. Bozigian and Dr. Griogriadis' annualized base salaries were determined through a combination of individual performance and their prior annualized base salaries being at or below the Company's targeted range.

Due to the unmet goal of obtaining a partnership for our lead program, GnRH, the general downturn in the economy, and the desire of the Company to conserve capital at this time, the Committee recommended, and the Board of Directors approved in January 2009, no change in the executive officers' base salary for 2009. Executive officer base salaries, as is, are within the peer group compensation parameters described in the Components of Compensation section above except for Mr. Coughlin, Dr. Grigoriadis and Dr. Bozigian whose base salaries are slightly below the 50th percentile.

Retention Program

Cash Payments. The Committee established the Retention Program as described in more detail above. As a result of the Retention Program, each executive officer, other than Dr. Grigoriadis, was awarded a one-time cash payment under the Retention Program, 60% of which was paid immediately and 40% of which was paid at the end of 2008, assuming the executive officer remained in good standing as an employee at such time. This is the same payment schedule was used in the Retention Program for all non-officer employees. Under the Retention Program, Mr. Coughlin received a total cash award of \$138,000, Dr. Valeur-Jensen received a total cash award of \$190,000, Dr. O'Brien received a total cash award of \$140,000, and Dr. Bozigian received a total cash award of \$104,000 in each case in accordance with the payment schedule described above.

Dr. Grigoriadis was not awarded a cash retention payment as the Company had agreed to forgive a loan to Dr. Grigoriadis which the Committee determined would make his additional participation in the Retention Program inappropriate. In 2001, the Company and Dr. Grigoriadis entered into a loan agreement pursuant to which the Company provided a home loan in the principal amount of \$230,000 to Dr. Grigoriadis secured by the real property and Dr. Grigoriadis' Company stock. Due to the prohibition on loans to executive officers under the Sarbanes-Oxley Act, prior to his promotion to an executive officer of the Company, Dr. Grigoriadis was given the option of repaying the loan in full and participating in the Retention Program at the officer level or foregoing participation in the Retention Program as a result of the forgiveness of the loan. Dr. Grigoriadis elected to forego participation in the Retention Program and the loan was forgiven prior to his promotion on January 10, 2008.

Long-Term Incentives. Long-term incentives are awarded to individuals to align the sharing of value creation between stockholders and executive officers. Long-term incentive awards are also used as a key retention and motivational tool. In February 2008, the Committee implemented the Retention Program and awarded the following long-term incentive grants: Dr. Valeur-Jensen, Mr. Coughlin, Dr. O'Brien, Dr. Grigoriadis, and Dr. Bozigian were each granted 100,000 RSUs and a stock option to purchase 30,000 shares. The Committee awarded long-term incentives that were within the compensation parameters described in the Components of Compensation section above. In addition, the mix of the awards was heavily weighted in favor of RSUs over stock options, which the Committee believes reinforces retention of the executive. These RSUs and stock option awards vest ratably on an annual basis over three years. The exercise price of the stock options was \$5.12 based on the closing price of the Company's common stock on the date of grant.

Cash Bonuses and Equity Awards

Due to the unmet goal of obtaining a partnership for our lead program, GnRH, and the desire of the Company to conserve capital at this time, the Committee recommended, and the Board of Directors approved in January 2009, no performance cash bonuses or equity awards to any of the executive officers for 2008 performance. Rising or falling

stock prices had no bearing on 2008 equity and bonus awards as none were given.

Table of Contents

Deferred Compensation Plan

For each year of the NQDC Plan, the Company may, but is not required to, make contributions to any of the executive officers' NQDC plan accounts. During 2008, the Company did not make any such contributions. Two executive officers elected to make voluntary contributions to the NQDC Plan during 2008 as described in the Nonqualified Deferred Compensation Table below.

Tax Considerations

Internal Revenue Code Section 162(m)

The Committee considers the potential impact under Internal Revenue Code Section 162(m) whereby we can only deduct up to \$1.0 million of the compensation we pay to named executive officers each taxable year unless such compensation is performance-based compensation within the meaning of the Internal Revenue Code. The Committee has determined that any gain related to the exercise of a stock option granted under any of our stockholder-approved stock option plans with an exercise price at least equal to the fair value of our common stock on the date of grant qualifies under the Internal Revenue Code as performance-based compensation and therefore is not subject to the \$1.0 million limitation.

However, deductibility is not the sole factor used by the committee in ascertaining appropriate levels or manner of compensation and corporate objectives may not necessarily align with the requirements for full deductibility under Section 162(m). Accordingly, we may enter into executive compensation arrangements under which payments are not deductible under Section 162(m).

Internal Revenue Code Section 409A

Section 409A of the Internal Revenue Code governs deferred compensation arrangements. The Committee reviewed our deferred compensation programs with the assistance of our counsel to ensure the programs are compliant with Section 409A and has determined the programs are compliant within the meaning of Internal Revenue Code Section 409A.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

Respectfully submitted by:
COMPENSATION COMMITTEE

Table of Contents***Compensation Committee interlocks and insider participation***

During 2008, the Compensation Committee consisted of Richard F. Pops, Stephen A. Sherwin, M.D. and Wylie W. Vale, Ph.D., who became a member of the Compensation Committee in February 2008. No interlocking relationship exists between any current member of the Compensation Committee and any member of any other company's Board of Directors or compensation committee.

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Summary Compensation Table. The following table sets forth the compensation paid by the Company for the fiscal years ended December 31, 2006, 2007 and 2008 to the current and former executive officers named below (the "Named Executive Officers"). Bonus amounts for 2008 were earned under a retention program as discussed above. All other years' bonus awards represent traditional annual performance bonuses:

(1)

The titles and capacities set forth in the table above are as of the Record Date. During 2007, Mr. Lyons served as the Company's President and Chief Executive Officer and Dr. Gorman served as the Company's Executive Vice President and Chief Operating Officer. On January 10, 2008, Mr. Lyons and the Company's Board of Directors reached mutual agreement that Mr. Lyons would no longer serve as the President and Chief Executive Officer of the Company, and Dr. Gorman was appointed President and Chief Executive Officer. Mr. Coughlin and Dr. Gorman became the Chief Financial Officer and Chief Operating Officer, respectively, on September 18, 2006. Drs. O'Brien, Grigoriadis and Bozigian were named to their current positions in January 2008, and Securities and Exchange Commission rules do not require their compensation for prior years to be reported.

- (2) Salary and bonus figures represent amounts earned during each respective fiscal year, regardless of whether part or all of such amounts were paid in subsequent fiscal year(s). Bonuses earned for 2006 and 2007 were based on performance for the year. Bonuses earned for 2008 were awarded pursuant to the Retention Program.
- (3) Stock awards granted to executive officers consist of restricted stock units and stock bonuses and may be subject to deferred delivery arrangements. The amounts shown are the share-based compensation costs recognized in accordance with SFAS 123R during the applicable fiscal year for stock awards vested

during the applicable year. The assumptions used to calculate the value of stock awards are set forth under Note 8 of the Notes to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 filed with the SEC on February 4, 2009. The grant date fair values of stock awards for 2006, 2007 and 2008 are based on per share prices of \$10.17, \$11.44 and \$5.12 respectively.

- (4) The amounts shown are the compensation costs recognized in accordance with SFAS 123R during the applicable fiscal year for any option awards vested during the applicable year. The assumptions used to calculate the value of stock awards are set forth under Note 8 of the Notes to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 filed with the SEC on February 4, 2009. The grant date fair values of option awards for 2006, 2007 and 2008 are based on per share Black-Scholes values of \$21.41, \$6.64 and \$2.93, respectively (except for 2007 awards to Gary A. Lyons which were based on a per share Black-Scholes value of \$6.31).
- (5) Includes all other compensation as described in the table below.
- (6) Of this amount, Dr. Gorman deferred the receipt of \$84,948 under the NQDC Plan.
- (7) Of this amount, Dr. Gorman deferred the receipt of \$140,000 under the NQDC Plan
- (8) Of these amounts, Dr. Gorman deferred the receipt of \$88,000 in salary and \$36,000 in bonus under the NQDC Plan, as also reported in the Nonqualified Deferred Compensation Table below.
- (9) Of this amount, Mr. Coughlin deferred the receipt of \$11,025 under the NQDC Plan.
- (10) Of this amount, Mr. Coughlin deferred the receipt of \$13,750 under the NQDC Plan.
- (11) Of this amount, Dr. Valeur-Jensen deferred the receipt of \$76,000 under the NQDC Plan.
- (12) Of these amounts, Dr. Valeur-Jensen deferred the receipt of \$79,000 in salary and \$112,347 in bonus under the NQDC Plan, as also reported in the Nonqualified Deferred Compensation Table below.

Haig P. Bozigian, Ph.D. has an employment contract that provides that: (i) Dr. Bozigian will serve as the Company's Senior Vice President, Pharmaceutical and Preclinical Development commencing on August 1, 2007 at an initial annual salary of \$260,000, subject to annual adjustment by the Board of Directors (subsequent to entering into the employment contract, Dr. Bozigian's annual base salary was increased to \$285,000); (ii) the agreement terminates upon death, disability, termination by the Company with or without cause, constructive termination or voluntary resignation; (iii) Dr. Bozigian is eligible for a discretionary annual bonus as determined by the Board of Directors, based upon achieving certain performance criteria; and (iv) Dr. Bozigian is eligible to receive stock option awards with the number of shares and exercise price as shall be determined by the Board of Directors.

Gary A. Lyons and the Company's Board of Directors reached a mutual agreement that Mr. Lyons would no longer serve as the President and Chief Executive Officer of the Company effective January 10, 2008. In connection with his departure, Mr. Lyons is receiving severance benefits substantially in accordance with Section 6.5 of his prior employment contract with the Company, which required payment of 2 times the amount of his annual base salary and target annual bonus to be paid equally over 24 months, an acceleration of unvested shares that would have vested during the 24 subsequent months after the date of termination, and payment of COBRA benefits for a period of 24 months following termination. Mr. Lyons continues to serve as a member of the Board of Directors of the Company.

Option Cancellation Agreements. On October 24, 2007, the Company entered into Stock Option Cancellation Agreements with certain of the Company's executive officers and directors, pursuant to which certain stock options with exercise prices in excess of \$50.00, previously granted to each such executive

Table of Contents

officer or director were cancelled in exchange for a nominal payment by the Company of \$100 in the aggregate.

The Stock Option Cancellation Agreements indicated that other than such nominal payment, the applicable executive officer or director had not received, and would not receive, any additional consideration in exchange for the cancellation of such options.

Accordingly, while each such executive officer or director will be eligible to receive future equity grants in connection with the Company's regular grant practices, no such executive officer or director will receive any future equity award in exchange for the cancellation of such options.

- (1) Stock awards granted to executive officers consist of RSUs and restricted stock, which are subject to deferred delivery arrangements. The market value of RSUs and restricted stock that have not vested is derived by multiplying the number of RSUs and restricted stock that have not vested as of December 31, 2008 by \$3.20, the closing price of the Company's common stock on December 31, 2008.
- (2) Vests monthly over four years.
- (3) On November 7, 2005, the Company accelerated vesting on all unvested stock options to purchase shares of common stock that were held by then-current employees and had an exercise price per share equal to or greater than \$50.00. The acceleration of these stock options was undertaken to eliminate the future compensation expense associated with the adoption of SFAS 123R in the Company's consolidated statements of operations.
- (4) Vests monthly over three years.
- (5) Vests annually over three years.
- (6) As of December 31, 2008 these options were held by limited liability companies formed by the executive officer listed immediately above the limited liability company for estate planning purposes.
- (7) Vests monthly over four years, subject to an initial one-year cliff.
- (8) Vests 50% upon FDA approval of indiplon and 50% upon commercialization of indiplon.

Table of Contents

- (9) Options are subject to accelerated vesting provisions based on certain years of service and age upon retirement. Mr. Lyons satisfied these requirements in April 2007.
- (10) Options are subject to accelerated vesting provisions based on severance arrangements.
- (11) Options are not subject to accelerated vesting provisions. These options will vest on the 3rd anniversary of the grant date.

Nonqualified Deferred Compensation. The following table sets forth information regarding the compensation deferred into the Company's NQDC Plan in the fiscal year ended December 31, 2008 by the Named Executive Officers:

Nonqualified Deferred Compensation Table

Name	Year	Executive Contributions in Last FY (1)	Aggregate Earnings/(Losses) in Last FY	Aggregate Balance at Last FYE (2)
Kevin C. Gorman, Ph.D.	2008	\$ 124,000	\$ (282,565)	\$ 575,047

Haig P. Bozigian, Ph.D.	2008		\$ (335)	\$ 800
Gary A. Lyons	2008		\$ (823,075)	\$ 1,433,703

- (1) Consists of cash contributions from salary and/or bonus payments paid by the Company in 2008.
- (2) Aggregate balance includes the value of stock based awards subject to future vesting for all Named Executive Officers who contributed stock based awards to the NQDC Plan.

Under the terms of the NQDC Plan, executive officers are eligible to defer base salary, bonus and/or special equity awards, such as RSUs. Generally, elections must be made by December 31 of each preceding year and are irrevocable once made. Because the Company expects to incur liabilities under the terms of the NQDC Plan, the Company elected, but was not required to, establish a rabbi trust with the intention to make contributions to the trust to provide a source of funds to assist in meeting its potential liabilities under the terms of the NQDC Plan. Upon receipt of an eligible participant's deferral election, the Company maintains a bookkeeping account on behalf of such participant. Benefits are paid to participants based on an elected payout schedule over a period of up to 15 years that may commence on an elected specified date, or if earlier, upon separation from service. Upon death or termination for cause, funds are paid out within 60 days following the event. Funds may also be withdrawn for hardship under some circumstances. Executive officers' accounts under the NQDC Plan are credited with deferrals made by him or her, and are thereafter adjusted to record earnings and losses matching the performance of various phantom investment options selected by the executive officer. All cash deferrals are 100% vested upon contribution. All equity award contributions vest according to the terms of the individual award.

Haig P. Bozigian, Ph.D.		\$	11,682	\$ 57,127
Gary A. Lyons		\$	7,474	\$ 38,694

- (1) There were no stock option exercises by the Named Executive Officers during 2008.
- (2) Information relates to stock awards, which consist of RSUs and restricted stock that vested during 2008.
- (3) Calculated by multiplying the number of shares acquired on vesting during fiscal 2008 by the closing price of the Company's common stock at the vesting date.

Potential Payments Upon Termination or Change-in-Control. The following tables set forth the potential severance benefits payable to the Named Executive Officers (excluding Gary A. Lyons, who was no longer employed by the Company as of December 31, 2008) in the event of a termination prior to or following a change in control, assuming such event occurred on December 31, 2008. As previously noted in the discussion that follows the Nonqualified Deferred Compensation Table, our Named Executive Officers may receive payments under our NQDC Plan in the event of termination of employment, based on an elected payout schedule of up to 15 years. Payout amounts under our NQDC Plan are additional to those set forth in the following table:

* Reflects a termination due to death.

- (1) Based on bonus targets established by the Board of Directors for 2008.
- (2) Accrued compensation is comprised of vacation pay earned and unpaid as of December 31, 2008 and one-time additional two week vacation benefit for eligible employees.
- (3) All options held by the Named Executive Officers at December 31, 2008 had an exercise price greater than the Company's closing price of its common stock at December 31, 2008. Therefore, using the intrinsic method or cash value method to calculate the expense associated with accelerating options results in \$0 under both calculations. The amounts in this column represent the market value of unvested restricted stock units as of December 31, 2008 that would vest in accordance with the Named Executive Officers' employment agreements. Restricted stock unit values were derived using the closing market price on December 31, 2008 of \$3.20.

The following is a description of the arrangements under which the Named Executive Officers may be entitled to potential payments upon a termination without cause or resignation due to a constructive termination (including following a change in control) or upon disability or death. Resignation due to constructive termination may include an executive's resignation following one or more of the following material adverse changes in the nature of executive's employment, as specified in the agreement, that is not cured following notification:

a significant reduction in the executive or the executive supervisor's duties or responsibilities,
a material reduction in base salary,
material relocation, or
material breach of the executive's employment agreement.

Dr. Gorman is entitled to 1.25 times the amount of his annual base salary and target annual bonus to be paid equally over 15 months, an acceleration of unvested shares that would have vested over the 15 continuous months after the date of termination, and payment of COBRA benefits to continue then-current coverage for a period of 15 months following termination in the event that the Company terminates his employment without cause, or he resigns due to a constructive termination. In the event of such termination within a specified time following a change of control, Dr. Gorman is entitled to 2 times the amount of his annual base salary and annual target bonus to be paid in one lump sum, a cash amount equal to the value of all unvested stock awards and all vested and outstanding stock awards, and payment of COBRA benefits to continue then-current coverage for a period of 24 months following termination. In addition, the Company has agreed to reimburse Dr. Gorman for the increase in federal and state income taxes payable by him by reason of the benefits

provided in connection with such a termination in connection with a change in control if the total payment exceeds 2.99 of his base amount by more than 15%. In the event of termination due to disability, Dr. Gorman is entitled to 15 months of base salary paid semi-monthly over 15 months, a lump sum amount equal to his target annual bonus multiplied by a fraction the numerator of which is the number of full months of employment by Dr. Gorman in the fiscal year and the denominator of which is 12, an acceleration of unvested shares that would have vested over the 15 continuous months after the date of termination, and payment of COBRA benefits to continue then-current coverage for a period of 15 months following termination. In the event of a termination due to Dr. Gorman's death, his beneficiaries or estate, would be entitled to an acceleration of unvested shares that would have vested over the 15 continuous months after the date of termination, a lump sum amount equal to his target annual bonus multiplied by a fraction the numerator of which is the number of full months of employment by Dr. Gorman in the fiscal year and the denominator of which is 12 and any accrued and unpaid compensation on the date of termination.

Mr. Coughlin is entitled to 1.25 times the amount of his annual base salary and target annual bonus to be paid equally over 15 months, an acceleration of unvested shares that would have vested over the 15 continuous months after the date of termination, and payment of COBRA benefits to continue then-current coverage for a period of 15 months following termination in the event that the Company terminates his employment without cause, or he resigns due to a constructive termination. In the event of such termination within a specified time following a change of control, Mr. Coughlin is entitled to 2 times his annual base salary and annual target bonus to be paid in one lump sum, a cash amount equal to the value of all unvested stock awards and all vested and outstanding stock awards, and payment of COBRA benefits to continue then-current coverage for a period of 24 months following termination. In addition, the Company has agreed to reimburse Mr. Coughlin for the increase in federal and state income taxes payable by him by reason of the benefits provided in connection with such a termination in connection with a change in control if the total payment exceeds 2.99 of his base amount by more than 15%. In the event of termination due to disability, Mr. Coughlin is entitled to 15 months of base salary paid semi-monthly over 15 months, a lump sum amount equal to his target annual bonus multiplied by a fraction the numerator of which is the number of full months of employment by Mr. Coughlin in the fiscal year and the denominator of which is 12, an acceleration of unvested shares that would have vested over the 15 continuous months after the date of termination, and payment of COBRA benefits to continue then-current coverage for a period of 15 months following termination. In the event of a termination due to Mr. Coughlin's death, his beneficiaries or estate, would be entitled to an acceleration of unvested shares that would have vested over the 15 continuous months after the date of termination, a lump sum amount equal to his target annual bonus multiplied by a fraction the numerator of which is the number of full months of employment by Mr. Coughlin in the fiscal year and the denominator of which is 12 and any accrued and unpaid compensation on the date of termination.

Dr. Valeur-Jensen is entitled to 1.25 times the amount of her annual base salary and target annual bonus to be paid equally over 15 months, an acceleration of unvested shares that would have vested over the 15 continuous months after the date of termination, and payment of COBRA benefits to continue then-current coverage for a period of 15 months following termination in the event that the Company terminates her employment without cause, or she resigns due to a constructive termination. In the event of such termination within a specified time following a change of control, Dr. Valeur-Jensen is entitled to 2 times the amount of her annual base salary and annual target bonus to be paid in one lump sum, a cash amount equal to the value of all unvested stock awards and all vested and outstanding stock awards, and payment of COBRA benefits to continue then-current coverage for a period of 24 months following termination. In addition, the Company has agreed to reimburse Dr. Valeur-Jensen for the increase in federal and state income taxes payable by her by reason of the benefits provided in connection with such a termination in connection with a change in control if the total payment exceeds 2.99 of her base amount by more than 15%. In the event of termination due to disability, Dr. Valeur-Jensen is entitled to 15 months of base salary paid semi-monthly over 15 months, a lump sum amount equal to her target annual bonus multiplied by a fraction the numerator of which is the number of full months of employment by Dr. Valuer-Jensen in the fiscal year and the denominator of which is 12, an acceleration of unvested shares that would have vested over the 15 continuous months after the date of termination,

and payment of COBRA benefits to continue then-current coverage for a period of 15 months following termination. In the event of a termination due to Dr. Valeur-Jensen's death, her beneficiaries or

- (1) Amounts in this column reflect amounts paid in cash in 2008, except for Dr. Mollica and Mr. Lyons who deferred receipt of cash payments of \$65,000 and \$35,478 (\$36,000 in cash director fees as reported in the table above, less applicable withholdings due to Mr. Lyons' employment by the company during a portion of 2008), respectively, into the Company's NQDC Plan as listed in the Directors Nonqualified Deferred Compensation Table.
- (2) The amounts shown are the compensation costs recognized by Neurocrine in fiscal 2008 for option awards granted in and prior to 2008 as determined pursuant to SFAS 123R. The assumptions used to calculate the value of option awards are set forth under Note 8 of the Notes to the Consolidated Financial Statements

included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 filed with the SEC on February 4, 2009.

- (3) During 2008, Dr. Gorman was an employee of the Company, and as such, did not receive any compensation for service on the Board of Directors. As of December 31, 2008, Dr. Gorman had outstanding options to purchase 315,144 shares of common stock and 175,000 outstanding RSUs and stock awards, of which a portion are subject to deferred delivery arrangements per the Company's NQDC Plan. As of December 31, 2008, the KCG Family Limited Liability Company had outstanding options to purchase 30,006 shares of common stock.
- (4) Mr. Lyons served as our President and Chief Officer until January 10, 2008, and in connection with his departure, is receiving severance benefits. The table above reflects solely the compensation paid by the Company to Mr. Lyons for his service as a director following January 10, 2008. As of December 31, 2008, Mr. Lyons had outstanding options to purchase 514,900 shares of common stock and 112,500 outstanding RSUs, 27,500 of which

are subject to deferred delivery arrangements per the Company's NQDC Plan. As of December 31, 2008, the GEL Family Limited Liability Company had outstanding options to purchase 188,019 shares of common stock.

- (5) As of December 31, 2008 Mr. Mitchell had outstanding options to purchase 83,000 shares of common stock.
- (6) As of December 31, 2008 Dr. Mollica had outstanding options to purchase 130,000 shares of common stock.
- (7) As of December 31, 2008 Mr. Pops had outstanding options to purchase 99,000 shares of common stock.
- (8) As of December 31, 2008 Dr. Sherwin had outstanding options to purchase 116,500 shares of common stock.
- (9) As of December 31, 2008 Ms. Lyle had outstanding options to purchase 51,000 shares of common stock.
- (10) As of December 31, 2008 Dr. Vale had outstanding options to purchase 87,000 shares of common stock. As of December 31, 2008, the WBV Limited Liability Company had outstanding options to purchase 14,429 shares of common stock.
- (11) Reflects fees paid pursuant to a consulting agreement with Dr. Vale in lieu of cash director fees. \$50,000 represents Dr. Vale's annual consulting fee and \$12,500 represents a catch-up payment due to a change in the method of payment, from payment quarterly in arrears to payment quarterly in advance as required by his consulting agreement. The consulting agreement with Dr. Vale was terminated in February 2009 and Dr. Vale will thereafter be compensated through regular cash director fees. See Related Person Transactions below.

Directors Compensation Summary

Non-employee directors are reimbursed for expenses incurred in connection with performing their duties as directors of the Company. Directors who are not employees or consultants of the Company receive a \$30,000 annual retainer and \$2,000 for each regular meeting of the Board of Directors. The Company has agreed to provide Joseph A. Mollica, Ph.D. as Chairman of the Board an additional \$20,000 making his total annual cash retainer \$50,000. In addition to the cash compensation set forth above, the Chairman of the Audit Committee, Corinne H. Lyle, receives an additional \$19,000 annual cash retainer. The Chairman of the Compensation Committee, Richard F. Pops, receives an additional \$12,000 annual cash retainer. The Chairman of the Nominating/Corporate Governance Committee, W. Thomas Mitchell, receives an additional annual cash retainer of \$9,000. Each other director who is a member of the Audit Committee, the Compensation Committee or the Nominating/Corporate Governance Committee receives an annual cash retainer of \$12,000, \$7,000 and \$5,000 respectively, for each Committee on which he or she serves.

Each non-employee director is eligible to participate in the Company's NQDC Plan. In addition to non-employee directors of the Company, the Company's officers, vice presidents, and higher ranking employees are also eligible to participate in the NQDC Plan. For the year 2008, Joseph A. Mollica, Ph.D. and Gary A. Lyons elected to defer 100% of their director cash compensation from the Company pursuant to the NQDC Plan.

Additionally, each non-employee director receives a grant of nonstatutory options to purchase 15,000 shares of the Company's common stock (except that Joseph A. Mollica, Ph.D. as Chairman of the Board, receives options to purchase 20,000 shares) at each Annual Meeting of Stockholders, provided that such non-employee director has been a director of the Company for at least six months prior to the date of such Annual Meeting. Each new non-employee director is automatically granted a nonstatutory stock option to purchase 25,000 shares of the Company's common stock upon the date such person joins the Board of Directors.

All options granted to non-employee directors are subject to a seven year term and vest monthly over the one-year period following the date of grant and have exercise prices equal to the fair market value of the Company's common stock on the date of the grant.

RELATED PERSON TRANSACTIONS**Review, approval or ratification of related person transactions**

In accordance with the Company's Audit Committee Charter, the Company's Audit Committee is responsible for reviewing and approving the terms and conditions of all related person transactions. In connection with its review, approval or ratification of related person transactions, the Company's Audit Committee takes into account all relevant available facts and circumstances in determining whether such transaction is in the best interests of the Company and its stockholders. Any transaction that would disqualify a director from meeting the independent director standard as defined under the Nasdaq Stock Market rules requires review by the Company's audit committee prior to entering into such transaction. For all other related person transactions the Company reviews all agreements and payments for related person transactions and based on this review, a report is made to the Company's audit committee quarterly disclosing all related person transactions during that quarter, if any. All related person transactions shall be disclosed in the Company's applicable filings with the Securities and Exchange Commission as required under SEC rules.

Related person transactions during fiscal 2008

During 2008, the Company had a consulting agreement with Wylie W. Vale, Ph.D. pursuant to which Dr. Vale spent a significant amount of time performing services for the Company, and was prohibited from providing consulting services to or participating in the formation of any company in Neurocrine's field of interest or that may be competitive with Neurocrine. Dr. Vale's agreement provided for an annual consulting fee of \$50,000 in exchange for his consulting services to the Company. The consulting agreement was terminated in February 2009 and Dr. Vale will thereafter be compensated through regular cash director fees. In addition, during 2008, the Company paid approximately \$425,000

to the Salk Institute, where Dr. Vale is a professor and head of the Clayton Foundation Laboratories for Peptide Biology, for license and patent expenses related to our corticotropin-releasing factor programs.

Householding of Proxy Materials. The Securities and Exchange Commission has adopted rules that permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as householding, potentially provides extra convenience for stockholders and cost savings for companies. The Company, and some brokers, household proxy materials, delivering a single proxy statement to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker or us that they or we will be householding materials to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement, please notify your broker if your shares are held in a brokerage account or us if you hold registered shares.

Advance Notice Procedures. To be considered for inclusion in next year's proxy materials, a stockholder must submit his, her or its proposal in writing by December 23, 2009, which is the first business day after the date that is 120 days prior to the first anniversary of the mailing date of this proxy statement, to the Company's Corporate Secretary at 12780 El Camino Real, San Diego, California 92130. Any proposal must comply with the requirements as to form and substance established by the Securities and Exchange Commission for such proposal to be included in our proxy statement. Stockholders are also advised to review our bylaws, which contain additional requirements about advance notice of stockholder proposals and director nominations.
