portfolio securities during the most recent 12-month period ended June 30, without charge. Simply visit AllianceBernstein's web site at www.alliancebernstein.com, or go to the Securities and Exchange Commission's (the "Commission") web site at www.sec.gov, or call AllianceBernstein at (800) 227-4618.

The Fund files its complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's web site at www.sec.gov. The Fund's Forms N-Q may also be reviewed and copied at the Commission's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

AllianceBernstein Investment Research and Management, Inc. is an affiliate of Alliance Capital Management L.P., the manager of the funds, and is a member of the NASD.

February 17, 2006

Annual Report

This report provides management's discussion of fund performance for ACM Income Fund (the "Fund") for the annual reporting period ended December 31, 2005. The Fund is a closed-end fund that trades under the New York Stock Exchange symbol "ACG".

Investment Objectives and Policies

This closed-end fund is designed to provide high current income consistent with the preservation of capital. The Fund invests principally in U.S. government obligations. The Fund may also invest a portion of its assets in other fixed-income securities, including those issued by foreign governments. Additionally, the Fund may utilize other investment instruments, including options and futures, and employ leverage.

For more information regarding the Fund's risks, please see "A Word About Risk" on page 4 and "Note G-Risks Involved in Investing in the Fund" of the Notes to Financial Statements on page 41.

Investment Results

The table on page 6 provides performance data for the Fund and its benchmark, the Lehman Brothers (LB) U.S. Aggregate Index, for the six- and 12-month periods ended December 31, 2005.

The Fund outperformed its benchmark for both the six- and 12-month periods ended December 31, 2005. The Fund's use of leverage during the year, and its allocation to emerging market debt, were the primary contributors to the outperformance for both periods. In addition, the Fund's emerging market country selection also added to the Fund's performance. Three of the Fund's largest emerging country weightings (Brazil, Mexico and Russia) posted solid returns, outperforming the U.S.-only investment-grade index. Low international interest rates, ample global liquidity, high commodity export prices and improved economic fundamentals in most emerging countries supported emerging debt bond prices.

Market Review and Investment Strategy

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Official interest rates rose in many developed countries during 2005, with U.S. rates gaining the most. The U.S. Federal Reserve (the "Fed") raised official rates another 200 basis points over the course of the year as the U.S. economy forged ahead despite surging oil prices. The Fed Funds rate was 4.25% as of December 31, 2005, 325 basis points higher than when the Fed started tightening 18 months ago. In December 2005, however, the Federal Open Market Committee removed the word "accommodative" from its release, which was widely interpreted to mean that the long period of monetary tightening was approaching a pause.

U.S. fixed-income returns were generally modest during the annual reporting period, reflecting higher U.S. interest rates, a significant flattening of the yield curve and modest spread movement in the non-Treasury sectors. U.S. Treasuries posted a modest return of 2.79%, according to Lehman Brothers, substantially underperforming developed non-U.S. dollar govern-

ACM INCOME FUND o 1

ment bond markets. Investment-grade corporates posted the weakest returns among U.S. bond sectors, returning 1.68%, according to Lehman Brothers. Investment-grade corporate returns were significantly dampened by both increasing event risk as well as a series of downgrades in the auto industry. Mortgage-backed securities returned 2.61%; however, they underperformed like-duration Treasuries, reflecting concerns about extension risk (the risk that mortgage durations will shorten or lengthen rapidly as interest rates fall or rise), and a flood of new supply.

Within the non-benchmark sectors, high yield debt in the U.S. returned 2.74%, according to Lehman Brothers, outperforming investment-grade corporates. High yield spreads remained at historically tight levels for the year, benefiting from low volatility and a historically low default rate. Dampening performance, however, was a greater incidence of idiosyncratic risk--similar to what unfolded in the investment-grade corporate sector--where shareholder-friendly events were on the rise, including an increase in merger and acquisition and leveraged buyout activity. Also, while the default rate remained quite low, it notched higher during the year.

The emerging market debt class posted the strongest returns within fixed-income sectors for the annual period, returning 10.73% according to the J.P. Morgan Emerging Markets Bond Index Global. All 31 countries represented within J.P. Morgan's index posted positive returns with the Latin region at 10.88% edging out non-Latin countries at 10.56%. Emerging market spreads continued to tighten throughout the year for an additional 110 basis points, ending the period at 237 basis points over Treasuries. The emerging markets enjoyed strong investor demand, a favorable low global interest rate environment and strong global liquidity. Additionally, strong capital inflows caused currencies to appreciate, which allowed central banks in almost every emerging country to accumulate reserves--one of the most important technical drivers supporting the sector.

The Fund's three largest emerging market holdings (Brazil, Mexico and Russia) performed strongly during the year. Brazil benefited from lower domestic interest rates while Russia continued to benefit from high oil revenues which it used to help in steadily reducing its external debt. The Fund's portfolio managers (the "managers") correctly anticipated that Russia would be upgraded by Standard & Poor's, which helped to contribute to the Fund's positive performance. Mexico experienced slowing growth with headline inflation below the 3.0% target and central bank easing.

During the period, the Fund generally maintained its allocations to U.S. government, corporate and emerging market debt. Although credit metrics

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

continued to be strong, evidenced by solid corporate earnings, cash flow and a historically low default rate, rising idiosyncratic and systematic risks caused the managers to assume a more cautious risk stance within the Fund's corporate holdings. Spread dispersion by industry was extremely low. As such,

2 o ACM INCOME FUND

the managers continued to focus on security selection as the key to adding value and avoiding problem credits. The Fund's corporate holdings were well diversified by issue and issuer. Within the Fund's emerging market allocation, Brazil and Russia continued to be the Fund's top holdings. Brazil's gross domestic product declined while inflation remained low. Russia continued to benefit from high oil revenues, a steady reduction of external debt and expectations of further rating upgrades.

HISTORICAL PERFORMANCE

An Important Note About the Value of Historical Performance

The performance on page 6 represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance information shown. Returns are annualized for periods longer than one year. All fees and expenses related to the operation of the Fund have been deducted. Performance assumes reinvestment of distributions and does not account for taxes.

ACM Income Fund Shareholder Information

The daily net asset value of the Fund's shares is available from the Fund's Transfer Agent by calling (800) 426-5523. The Fund also distributes its daily net asset value to various financial publications or independent organizations such as Lipper Inc., Morningstar, Inc. and Bloomberg. Daily market prices for the Fund's shares are published in the New York Stock Exchange Composite Transaction section of The Wall Street Journal under the abbreviation "ACM IncFd." The Fund's NYSE trading symbol is "ACG." Weekly comparative net asset value (NAV) and market price information about the Fund is published each Monday in The Wall Street Journal and each Sunday in The New York Times and other newspapers in a table called "Closed-End Bond Funds." For additional shareholder information regarding this Fund, please see page 67.

Benchmark Disclosure

The unmanaged Lehman Brothers (LB) U.S. Aggregate Index does not reflect fees and expenses associated with the active management of a fund portfolio or the costs and benefits of leverage. The Index covers the U.S. investment-grade fixed-rate bond market, including government and credit securities, agency mortgage passthrough securities, asset-backed securities and commercial mortgage-backed securities. An investor cannot invest directly in an index, and its results are not indicative of the performance for any specific investment, including the Fund.

A Word About Risk

The Fund participates in a credit facility for the purpose of utilizing investment leverage. The Fund may utilize additional leverage through the investment techniques of reverse repurchase agreements and dollar rolls.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Repurchase agreements involve sales by the Fund of portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price. Generally, the effect of such a transaction is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while it will be able to keep the interest income associated with those portfolio securities. Such transactions are only advantageous if the interest cost to the Fund of the reverse repurchase agreement transaction is less than the cost of otherwise obtaining the cash.

The Fund may enter into dollar rolls in which the Fund sells securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (same type and coupon) securities on a specified future date. During the roll period, the Fund forgoes principal and interest paid on the securities. The Fund is compensated by the difference between the current sales price and the lower forward price for the future purchase (often referred to as the "drop") as well as by the interest earned on the cash proceeds of the initial sale.

(Historical Performance continued on next page)

4 o ACM INCOME FUND

HISTORICAL PERFORMANCE
(continued from previous page)

Reverse repurchase agreements and dollar rolls are speculative techniques and are considered borrowings by the Fund.

The effect of leverage can realize shareholders higher returns than if the Fund were not leveraged, and the use of leverage techniques can add to net asset value (NAV). However, the risks of such techniques are potentially a higher volatility of the NAV of the Common Stock, potentially more volatility in the market value of the Common Stock and the relatively greater effect on the NAV of the Common Stock caused by favorable or adverse changes in the currency exchange rates. In addition, changes in the interest rate environment can increase or decrease shareholder returns. The Fund maintains asset coverage of at least 300%.

To the extent that the current interest rate on the Fund's indebtedness approaches the net return on the leveraged portion of the Fund's investment portfolio, then the benefit to the shareholders will be reduced. If the rate on indebtedness were to exceed the net return on the same portion of the portfolio, then this would result in a lower rate of return for the shareholders. Similarly, the use of leverage in a declining market can advance the decrease of the Fund's NAV more so than if the Fund were not leveraged, which would likely be reflected in a greater decline in the market price for shares of Common Stock than if the Fund were not leveraged. In extreme cases, if the Fund's current investment income were not sufficient to meet interest payments on indebtedness or if the Fund failed to maintain the asset coverage required by the 1940 Act, then it could be necessary for the Fund to liquidate certain investments at a time when it may be disadvantageous to do so, thereby reducing its NAV.

Part of the Fund's assets will be invested in foreign securities (including emerging markets) and is subject to greater risk than would a fund with a more diversified asset class portfolio. Since the Fund invests in foreign currency

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

denominated securities, fluctuations may be magnified by changes in foreign exchange rates. Foreign markets can be more volatile than the U.S. market due to increased risks of adverse issuer, political, regulatory, market or economic developments. While the Fund invests principally in fixed-income securities, in order to achieve its investment objectives, the Fund may at times use certain types of investment derivatives, such as options, futures, forwards and swaps. These instruments involve risks different from, and in certain cases, greater than, the risks presented by more traditional investments.

26 o ACM INCOME FUND

* Represents entire or partial securities out on loan. See Note E for securities lending information.

(a) Positions, or portion thereof, with an aggregate market value of \$1,030,545,581, have been segregated to collateralize the loan payable outstanding.

(b) Positions, or portion thereof, with an aggregate market value of \$628,216,989, have been segregated to collateralize reverse repurchase agreements.

(c) Positions, or portion thereof, with an aggregate market value of \$400,986,525 have been segregated to collateralize open forward exchange currency contracts.

(d) Security is exempt from registration under Rule 144A of the Securities Act of 1933. These securities are considered liquid and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At December 31, 2005, the aggregate market value of these securities amounted to \$433,605,851 or 22.9% of net assets.

(e) Coupon changes periodically based upon a predetermined schedule. Stated interest rate in effect at December 31, 2005.

(f) Indicates a security that has a zero coupon that remains in effect until a predetermined date at which time the stated coupon rate becomes effective until final maturity.

(g) Non-income producing security.

(h) Position, or portion thereof, with a market value of \$8,971,092, has been segregated to collateralize margin requirements for the open futures contracts.

32 o ACM INCOME FUND

NOTES TO FINANCIAL STATEMENTS
December 31, 2005

NOTE A
Significant Accounting Policies

ACM Income Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940 as a diversified, closed-end management investment company. The financial statements have been prepared in conformity with U.S. generally accepted accounting principles, which require management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

The following is a summary of significant accounting policies followed by the Fund.

1. Security Valuation

Portfolio securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at "fair value" as determined in accordance with procedures established by and under the general supervision of the Fund's Board of Directors.

In general, the market value of securities which are readily available and deemed reliable are determined as follows. Securities listed on a national securities exchange or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities not listed on an exchange but traded on The NASDAQ Stock Market, Inc. ("NASDAQ") are valued in accordance with the NASDAQ Official Closing Price; listed put or call options are valued at the last sale price. If there has been no sale on that day, such securities will be valued at the closing bid prices on that day; open futures contracts and options thereon are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used; securities traded in the over-the-counter market, ("OTC") (but excluding securities traded on NASDAQ) are valued at the mean of the current bid and asked prices as reported by the National Quotation Bureau or other comparable sources; U.S. Government securities and other debt instruments having 60 days or less remaining until maturity are valued at amortized cost if their original maturity was 60 days or less; or by amortizing their fair value as of the 61st day prior to maturity if their original term to maturity exceeded 60 days; fixed-income securities, including mortgage backed and asset backed securities, may be valued on the basis of prices provided by a pricing service or at a price obtained from one or more of the major broker/dealers. In cases where broker/dealer quotes are obtained, Alliance Capital Management, L.P. (the "Adviser") may establish procedures whereby changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security;

ACM INCOME FUND o 33

and OTC and other derivatives are valued on the basis of a quoted bid price or spread from a major broker/dealer in such security.

Securities for which market quotations are not readily available (including restricted securities) or are deemed unreliable are valued at fair value. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, analysis of the issuer's financial statements or other available documents. In addition, the Fund may use fair value pricing for securities primarily traded in non-U.S. markets because most foreign markets close well before the Fund values its securities at 4:00 p.m., Eastern Time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities.

2. Currency Translation

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Assets and liabilities denominated in foreign currencies and commitments under forward exchange currency contracts are translated into U.S. dollars at the mean of the quoted bid and asked prices of such currencies against the U.S. dollar. Purchases and sales of portfolio securities are translated into U.S. dollars at the rates of exchange prevailing when such securities were acquired or sold. Income and expenses are translated into U.S. dollars at the rates of exchange prevailing when accrued.

Net realized gain or loss on foreign currency transactions represents foreign exchange gains and losses from sales and maturities of foreign fixed income investments, foreign currency exchange contracts, holding of foreign currencies, currency gains or losses realized between the trade and settlement dates on foreign investment transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains and losses from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of unrealized appreciation and depreciation of investments and foreign currency denominated assets and liabilities.

3. Taxes

It is the Fund's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its investment company taxable income and net realized gains, if any, to shareholders. Therefore, no provisions for federal income or excise taxes are required. The Fund may be subject to taxes imposed by countries in which it invests. Such taxes are generally based on income and/or capital gains earned or repatriated. Taxes are accrued and applied to net investment income, net realized gains and net unrealized appreciation/depreciation as such income and/or gains are earned.

34 o ACM INCOME FUND

4. Investment Income and Investment Transactions

Interest income is accrued daily. Investment transactions are accounted for on the date the securities are purchased or sold. Investment gains and losses are determined on the identified cost basis. The Fund amortizes premiums and accretes discounts as adjustments to interest income.

5. Dividends and Distributions

Dividends and distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in accordance with U.S. generally accepted accounting principles. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such reclassification.

6. Repurchase Agreements

The Fund's custodian or designated subcustodian will take control of securities as collateral under repurchase agreements and determine on a daily basis that the value of such securities are sufficient to cover the value of the repurchase agreements. If the seller defaults and the value of collateral declines, or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of collateral by the Fund may be delayed or limited.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

NOTE B

Advisory, Administrative Fees and Other Transactions with Affiliates

Under the terms of the investment advisory agreement (the "Advisory Agreement"), the Fund pays the Adviser a monthly advisory fee in an amount equal to the sum of 1/12th of .30 of 1% of the Fund's average weekly net assets up to \$250 million, 1/12th of .25 of 1% of the Fund's average weekly net assets in excess of \$250 million, and for the period January 1, 2005 through February 10, 2005, 5.25% of the Fund's daily gross income (i.e., income other than gains from the sale of securities and foreign currency transactions or gains realized from options and futures contracts less interest on money borrowed by the Fund) accrued by the Fund during the month (the "Income Component"). For the period January 1, 2005 through February 10, 2005, such monthly advisory fee may not have exceeded in the aggregate 1/12th of 1% of the Fund's average weekly net assets during each respective month (approximately 1% on an annual basis).

Effective February 11, 2005, the terms of the Advisory Agreement were amended so that the Income Component of the advisory fee was reduced to 4.75% of the Fund's daily gross income, as described above, and so that the monthly advisory fee shall not exceed in the aggregate 1/12th of .95% of the Fund's average weekly net assets during each respective month (approximately .95% on an annual basis).

ACM INCOME FUND o 35

Under the terms of the Shareholder Inquiry Agency Agreement with Alliance Global Investor Services, Inc. ("AGIS"), a wholly-owned subsidiary of the Adviser, the Fund reimburses AGIS for costs relating to servicing phone inquiries on behalf of the Fund. During the year ended December 31, 2005, the Fund reimbursed AGIS \$9,660 for such costs.

Under the terms of the Administrative Agreement, the Fund pays its Administrator, Princeton Administrators, L.P., a fee at the annual rate of .02 of 1% of the Fund's average weekly net assets. Such fee is accrued daily and paid monthly. Princeton Administrators, L.P. prepares financial and regulatory reports for the Fund and provides other administrative services.

NOTE C

Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the year ended December 31, 2005 were as follows:

	Purchases	Sales
Investment securities (excluding		
U.S. government securities)	\$ 1,123,171,438	\$ 989,912,315
U.S. government securities	3,469,353,326	3,505,947,850

The cost of investments for federal income tax purposes, gross unrealized appreciation and unrealized depreciation (excluding foreign currency contracts, futures contracts, written options and swap contracts) are as follows:

Cost	\$ 3,004,842,117
Gross unrealized appreciation	\$ 144,073,831
Gross unrealized depreciation	(43,759,815)
Net unrealized appreciation	\$ 100,314,016

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

1. Financial Futures Contracts

The Fund may buy or sell financial futures contracts for the purpose of hedging its portfolio against adverse affects of anticipated movements in the market. The Fund bears the market risk that arises from changes in the value of these financial instruments and the imperfect correlation between movements in the price of the future contracts and movements in the price of the securities hedged or used for cover.

At the time the Fund enters into a futures contract, the Fund deposits and maintains as collateral an initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. Risks may arise from the potential inability of a counterparty to meet the terms of the contract. When the

36 o ACM INCOME FUND

contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed.

2. Forward Exchange Currency Contracts

The Fund may enter into forward exchange currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings and to hedge certain firm purchase and sales commitments denominated in foreign currencies. A forward exchange currency contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract would be included in net realized gain or loss on foreign currency transactions.

Fluctuations in the value of open forward exchange currency contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Fund.

The Fund's custodian will place and maintain cash not available for investment or other liquid assets in a separate account of the Fund having a value at least equal to the aggregate amount of the Fund's commitments under forward exchange currency contracts entered into with respect to position hedges.

Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The face or contract amount in U.S. dollars, reflects the total exposure the Fund has in that particular currency contract.

3. Option Transactions

For hedging and investment purposes, the Fund may purchase and write (sell) put and call options on U.S. and foreign government securities and foreign currencies that are traded on U.S. and foreign securities exchanges and over-the-counter markets.

The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised

ACM INCOME FUND o 37

are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

Transactions in written options for the year ended December 31, 2005 were as follows:

	Number of Contracts (000)	Premiums Received

Options outstanding at December 31, 2004	11,555	\$ 166,838
Options written	26,112	413,473
Options terminated in closing purchase transactions	(15,448)	(282,438)
Options expired	(22,219)	(297,873)
Options outstanding at December 31, 2005	-0-	\$ -0-

4. Swap Agreements

The Fund may enter into swaps to hedge its exposure to interest rates and credit risk or for investment purposes. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net interim payment to be received by the Fund, and/or the termination value at the end of the contract. Therefore, the Fund considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

in the value of the underlying securities.

38 o ACM INCOME FUND

As of January 1, 2004, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standard Board Statement No. 133. The Fund accrues for the interim payments on swap contracts on a daily basis, with the net amount recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities. Once the interim payments are settled in cash, the net amount is recorded as realized gain/loss on swaps, in addition to realized gain/loss recorded upon the termination of swap contracts on the statement of operations. Prior to January 1, 2004, these interim payments were reflected within interest income/expense in the statement of operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation/ depreciation of investments.

The Fund may enter into credit default swaps. The Fund may purchase credit protection on the referenced obligation of the credit default swap ("Buy Contract") or provide credit protection on the referenced obligation of the credit default swap ("Sale Contract"). A sale/(buy) in a credit default swap provides upon the occurrence of a credit event, as defined in the swap agreement, for the Fund to buy/(sell) from/(to) the counterparty at the notional amount (the "Notional Amount") and receive/(deliver) the principal amount of the referenced obligation. If a credit event occurs, the maximum payout amount for a Sale Contract is limited to the Notional Amount of the swap contract ("Maximum Payout Amount"). During the term of the swap agreement, the Fund receives/(pays) semi-annual fixed payments from/(to) the respective counterparty, calculated at the agreed upon interest rate applied to the Notional Amount. These interim payments are recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities.

Credit default swaps may involve greater risks than if a Fund had invested in the referenced obligation directly. Credit default swaps are subject to general market risk, liquidity risk, counterparty risk and credit risk. If the Fund is a buyer and no credit event occurs, it will lose its investment. In addition, if the Fund is a seller and a credit event occurs, the value of the referenced obligation received by the Fund coupled with the periodic payments previously received, may be less than the Maximum Payout Amount it pays to the buyer, resulting in a loss to the Fund.

At December 31, 2005, the Fund had Sale Contracts outstanding with Maximum Payout Amounts aggregating \$36,889,000 with net unrealized appreciation of \$863,002 and terms ranging from 1 year to 10 years, as reflected in the portfolio of investments.

In certain circumstances, the Fund may hold Sale Contracts on the same referenced obligation and with the same counterparty it has purchased credit protection, which may reduce its obligation to make payments on Sale Contracts, if a credit event occurs. The Fund had Buy Contracts outstanding with a

ACM INCOME FUND o 39

Notional Amount of \$8,330,000 with respect to the same referenced obligations and same counterparties of certain Sale Contracts outstanding, which reduced its obligation to make payments on Sale Contracts to \$28,559,000 as of December 31, 2005.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

5. Dollar Rolls

The Fund may enter into dollar rolls. Dollar rolls involve sales by the Fund of securities for delivery in the current month and the Fund's simultaneously contracting to repurchase substantially similar (same type and coupon) securities on a specified future date. During the roll period, the Fund forgoes principal and interest paid on the securities. The Fund is compensated by the difference between the current sales price and the lower forward price for the future purchase (often referred to as the "drop") as well as by the interest earned on the cash proceeds of the initial sale. Dollar rolls involve the risk that the market value of the securities the Fund is obligated to repurchase under the agreement may decline below the repurchase price. Dollar rolls are speculative techniques and may be considered to be borrowings by the Fund. For the year ended December 31, 2005, the Fund earned income of \$2,318,861 from dollar roll transactions.

6. Reverse Repurchase Agreements

Under a reverse repurchase agreement, the Fund sells securities and agrees to repurchase them at a mutually agreed upon date and price. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing liquid assets having a value at least equal to the repurchase price.

For the year ended December 31, 2005, the average amount of reverse repurchase agreements outstanding was \$562,288,423 and the daily weighted average annual interest rate was 3.09%.

NOTE D

Capital Stock

There are 300,000,000 shares of \$.01 par value common stock authorized of which 229,131,273 shares were issued and outstanding at December 31, 2005. During the year ended December 31, 2005 and December 31, 2004, the Fund issued 728,742 and 1,328,765 shares, respectively, in connection with the Fund's dividend reinvestment plan.

NOTE E

Securities Lending

The Fund has entered into a securities lending agreement with AG Edwards & Sons, Inc. (the "Lending Agent"). Under the terms of the agreement, the Lending Agent, on behalf of the Fund, administers the lending of portfolio securities to certain broker-dealers. In return, the Fund receives fee income from the lending transactions or it retains a portion of interest on the investment of any cash received as collateral. The Fund also continues to receive dividends or

40 o ACM INCOME FUND

interest on the securities loaned. Unrealized gain or loss on the value of the securities loaned that may occur during the term of the loan will be reflected in the accounts of the Fund. All loans are continuously secured by collateral exceeding the value of the securities loaned. All collateral consists of either cash or U.S. Government securities. The Lending Agent may invest the cash collateral received in accordance with the investment restrictions of the Fund in one or more of the following investments: U.S. government or U.S. government

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

agency obligations, bank obligations, corporate debt obligations, asset-backed securities, structured products, repurchase agreements and an eligible money market fund. The Lending Agent will indemnify the Fund for any loss resulting from a borrower's failure to return a loaned security when due. As of December 31, 2005, the Fund had loaned securities with a value of \$58,899,223 and received cash collateral of \$62,078,054, which was invested in a money market fund as included in the accompanying portfolio of investments. For the year ended December 31, 2005, the Fund earned fee income of \$280,133, which is included in interest income in the accompanying statement of operations.

NOTE F

Bank Borrowing

The Fund participated in a credit facility for a commercial paper asset securitization program with Societe Generale ("SG") as Administrative Agent, and Barton Capital Corporation ("Barton") as lender. The credit facility has a maximum limit of \$400 million. Under the SG Program, Barton will fund advances to the Fund through the issuance of commercial paper rated A-1+ by Standard & Poor's Ratings Services and P-1 by Moody's Investors Service, Inc. The collateral value must be at least 171% of outstanding borrowings. The borrowings under the SG program are secured by the pledging of the Fund's portfolio securities as collateral. The interest rate on the Fund's borrowings is based on the interest rate carried by the commercial paper. The weighted average annual interest rate was 3.31% and the average borrowing was \$400,000,000 for the year ended December 31, 2005. At December 31, 2005, the interest rate in effect was 4.20% and the amount of borrowings outstanding was \$400,000,000.

NOTE G

Risks Involved in Investing in the Fund

Interest Rate Risk and Credit Risk--Interest rate risk is the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income debt securities such as bonds or notes. Increases in interest rates may cause the value of the Fund's investments to decline. Credit risk is the risk that the issuer or guarantor of a debt security, or the counterparty to a derivative contract, will be unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. The degree of risk for a particular security may be reflected in its credit risk rating. Credit risk is greater for medium quality and lower-rated securities. Lower-rated debt securities and similar unrated securities (commonly known as "junk bonds") have speculative elements or are predominantly speculative risks.

ACM INCOME FUND o 41

Foreign Securities Risk--Investing in securities of foreign companies or foreign governments involves special risks which include changes in foreign exchange rates and the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign companies or foreign governments and their markets may be less liquid and their prices more volatile than those of comparable United States companies or the United States government.

The Fund invests in sovereign debt obligations of countries that are considered emerging market countries at the time of purchase. Therefore, the Fund is susceptible to governmental factors and economic and debt restructuring developments adversely affecting the economies of these emerging market countries. In addition, these debt obligations may be less liquid and subject

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

to greater volatility than debt obligations of more developed countries.

Indemnification Risk--In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

Leverage Risk--The Fund participates in a credit facility for the purpose of utilizing investment leverage. The Fund may utilize additional leverage through the investment techniques of reverse repurchase agreements and dollar rolls. Reverse repurchase agreements and dollar rolls are speculative techniques and are considered borrowings by the Fund.

The effect of leverage can realize shareholders higher returns than if the Fund were not leveraged, and the use of leverage techniques can add to net asset value (NAV). However, the risks of such techniques are potentially a higher volatility of the NAV of the Common Stock, potentially more volatility in the market value of the Common Stock and the relatively greater effect on the NAV of the Common Stock caused by favorable or adverse changes in the currency exchange rates. In addition, changes in the interest rate environment can increase or decrease shareholder returns. The Fund maintains asset coverage of at least 300%.

To the extent that the current interest rate on the Fund's indebtedness approaches the net return on the leveraged portion of the Fund's investment portfolio, then the benefit to the shareholders will be reduced. If the rate on indebtedness were to exceed the net return on the same portion of the portfolio, then this would result in a lower rate of return for the shareholders. Similarly, the use of leverage in a declining market can advance the decrease of the Fund's NAV more so than if the Fund were not leveraged, which would likely be reflected in a greater decline in the market price for shares of Common Stock than if the Fund

42 o ACM INCOME FUND

were not leveraged. In extreme cases, if the Fund's current investment income were not sufficient to meet interest payments on indebtedness or if the Fund failed to maintain the asset coverage required by the 1940 Act, then it could be necessary for the Fund to liquidate certain investments at a time when it may be disadvantageous to do so, thereby reducing its NAV.

NOTE H

Distributions to Shareholders

The tax character of distributions paid during the fiscal years ended December 31, 2005 and December 31, 2004 were as follows:

	2005	2004

Distributions paid from:		
Ordinary income	\$ 155,530,605	\$ 177,629,178
Total taxable distributions	155,530,605	177,629,178
Total distributions paid	\$ 155,530,605	\$ 177,629,178

As of December 31, 2005, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Accumulated capital and other losses	\$ (346,510,828) (a)
Unrealized appreciation/(depreciation)	101,082,886 (b)

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Total accumulated earnings/(deficit) \$ (245,427,942)

(a) On December 31, 2005, the Fund had a net capital loss carryforward of \$329,808,305 of which \$67,634,579 expires in the year 2006, \$67,513,083 expires in the year 2007, \$8,878,672 expires in the year 2008, \$48,113,872 expires in the year 2009 and \$137,668,099 expires in the year 2010. To the extent future capital gains are offset by capital loss carryforwards, such gains will not be distributed. Based on certain provisions in the Internal Revenue Code, various limitations regarding the future utilization of these carryforwards, brought forward as a result of the Fund's merger with ACM Government Securities Fund and ACM Government Spectrum Fund, may apply. During the fiscal year, the Fund utilized capital loss carryforwards of \$48,756,242. For the year ended December 31, 2005, the Fund deferred losses on straddles of \$3,495,315. Net capital losses incurred after October 31, and within the taxable year are deemed to arise in the first business day of the Funds next taxable year. For the year ended December 31, 2005, the Fund deferred to January 1, 2006 post October capital losses of \$12,170,401 and currency losses of \$1,036,807.

(b) The difference between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable primarily to the tax deferral of losses on wash sales, the difference between book and tax amortization methods for premium, the realization for tax purposes of unrealized gains and losses on certain derivative instruments and the difference between book and tax treatment of swap income.

During the current fiscal year, permanent differences primarily due to the tax treatment of foreign currency gains and losses, tax treatment of swap income, tax treatment of paydown losses, tax treatment of bond premium and distributions in excess of net investment income, resulted in a net decrease in distributions in excess of net investment income, a net increase in accumulated net realized loss

ACM INCOME FUND o 43

on investment and foreign currency transactions and a net decrease to additional paid-in capital. These reclassifications had no effect on net assets.

NOTE I

Legal Proceedings

As has been previously reported, the staff of the U.S. Securities and Exchange Commission ("SEC") and the Office of the New York Attorney General ("NYAG") have been investigating practices in the mutual fund industry identified as "market timing" and "late trading" of mutual fund shares. Certain other regulatory authorities have also been conducting investigations into these practices within the industry and have requested that the Adviser provide information to them. The Adviser has been cooperating and will continue to cooperate with all of these authorities. The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing and late trading practices that are the subject of the investigations mentioned above or the lawsuits described below. Please see below for a description of the agreements reached by the Adviser and the SEC and NYAG in connection with the investigations mentioned above.

Numerous lawsuits have been filed against the Adviser and certain other defendants in which plaintiffs make claims purportedly based on or related to the same practices that are the subject of the SEC and NYAG investigations referred to above. Some of these lawsuits name the Fund as a party. The

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

lawsuits are now pending in the United States District Court for the District of Maryland pursuant to a ruling by the Judicial Panel on Multidistrict Litigation transferring and centralizing all of the mutual funds involving market and late trading in the District of Maryland (the "Mutual Fund MDL"). Management of the Adviser believes that these private lawsuits are not likely to have a material adverse effect on the results of operations or financial condition of the Fund.

On December 18, 2003, the Adviser confirmed that it had reached terms with the SEC and the NYAG for the resolution of regulatory claims relating to the practice of "market timing" mutual fund shares in some of the AllianceBernstein Mutual Funds. The agreement with the SEC is reflected in an Order of the Commission ("SEC Order"). The agreement with the NYAG is memorialized in an Assurance of Discontinuation dated September 1, 2004 ("NYAG Order"). Among the key provisions of these agreements are the following:

(i) The Adviser agreed to establish a \$250 million fund (the "Reimbursement Fund") to compensate mutual fund shareholders for the adverse effects of market timing attributable to market timing relationships described in the SEC Order. According to the SEC Order, the Reimbursement Fund is to be paid, in order of priority, to fund investors based on (i) their aliquot share of losses suffered by the fund due to market timing, and (ii) a proportionate

44 o ACM INCOME FUND

share of advisory fees paid by such fund during the period of such market timing;

(ii) The Adviser agreed to reduce the advisory fees it receives from some of the AllianceBernstein long-term, open-end retail funds, commencing January 1, 2004, for a period of at least five years; and

(iii) The Adviser agreed to implement changes to its governance and compliance procedures. Additionally, the SEC Order contemplates that the Adviser's registered investment company clients, including the Fund, will introduce governance and compliance changes.

The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing practices described in the SEC Order and are not expected to participate in the Reimbursement Fund. Since the Fund is a closed-end fund, it will not have its advisory fee reduced pursuant to the terms of the agreements mentioned above.

On February 10, 2004, the Adviser received (i) a subpoena duces tecum from the Office of the Attorney General of the State of West Virginia and (ii) a request for information from West Virginia's Office of the State Auditor, Securities Commission (the "West Virginia Securities Commission") (together, the "Information Requests"). Both Information Requests require the Adviser to produce documents concerning, among other things, any market timing or late trading in the Adviser's sponsored mutual funds. The Adviser responded to the Information Requests and has been cooperating fully with the investigation.

On April 11, 2005, a complaint entitled The Attorney General of the State of West Virginia v. AIM Advisors, Inc., et al. ("WVAG Complaint") was filed against the Adviser, Alliance Capital Management Holding L.P. ("Alliance Holding"), and various other defendants not affiliated with the Adviser. The WVAG Complaint was filed in the Circuit Court of Marshall County, West Virginia by the Attorney General of the State of West Virginia. The WVAG Complaint makes factual allegations generally similar to those in certain of the complaints

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

related to the lawsuits discussed above. On May 31, 2005, defendants removed the WVAG Complaint to the United States District Court for the Northern District of West Virginia. On July 12, 2005, plaintiff moved to remand. On October 19, 2005, the WVAG Complaint was transferred to the Mutual fund MDL.

On August 30, 2005, the deputy commissioner of securities of the West Virginia Securities Commission signed a "Summary Order to Cease and Desist, and Notice of Right to Hearing" addressed to the Adviser and Alliance Holding. The Summary Order claims that the Adviser and Alliance Holding violated the West Virginia Uniform Securities Act, and makes factual allegations generally similar

ACM INCOME FUND o 45

to those in the SEC Order and the NYAG Order. On January 26, 2006, the Adviser, Alliance Holding, and various unaffiliated defendants filed a Petition for Writ of Prohibition and Order Suspending Proceedings in West Virginia state court seeking to vacate the Summary Order and for other relief. The Adviser intends to vigorously defend against the allegations in the WVAG Complaint.

On June 22, 2004, a purported class action complaint entitled Aucoin, et al. v. Alliance Capital Management L.P., et al. ("Aucoin Complaint") was filed against the Adviser, Alliance Capital Management Holding L.P., Alliance Capital Management Corporation, AXA Financial, Inc., AllianceBernstein Investment Research & Management, Inc., certain current and former directors of the AllianceBernstein Mutual Funds, and unnamed Doe defendants. The Aucoin Complaint names certain of the AllianceBernstein mutual funds as nominal defendants. The Fund was not named as a defendant in the Aucoin Complaint. The Aucoin Complaint was filed in the United States District Court for the Southern District of New York by an alleged shareholder of an AllianceBernstein mutual fund. The Aucoin Complaint alleges, among other things, (i) that certain of the defendants improperly authorized the payment of excessive commissions and other fees from fund assets to broker-dealers in exchange for preferential marketing services, (ii) that certain of the defendants misrepresented and omitted from registration statements and other reports material facts concerning such payments, and (iii) that certain defendants caused such conduct as control persons of other defendants. The Aucoin Complaint asserts claims for violation of Sections 34(b), 36(b) and 48(a) of the Investment Company Act, Sections 206 and 215 of the Advisers Act, breach of common law fiduciary duties, and aiding and abetting breaches of common law fiduciary duties. Plaintiffs seek an unspecified amount of compensatory damages and punitive damages, rescission of their contracts with the Adviser, including recovery of all fees paid to the Adviser pursuant to such contracts, an accounting of all fund-related fees, commissions and soft dollar payments, and restitution of all unlawfully or discriminatorily obtained fees and expenses.

Since June 22, 2004, nine additional lawsuits making factual allegations substantially similar to those in the Aucoin Complaint were filed against the Adviser and certain other defendants. All nine of the lawsuits (i) were brought as class actions filed in the United States District Court for the Southern District of New York, (ii) assert claims substantially identical to the Aucoin Complaint, and (iii) are brought on behalf of shareholders of the Funds.

On February 2, 2005, plaintiffs filed a consolidated amended class action complaint ("Aucoin Consolidated Amended Complaint") that asserts claims substantially similar to the Aucoin Complaint and the nine additional lawsuits referenced above. On October 19, 2005, the District Court dismissed each of the claims set forth in the Aucoin Consolidated Amended Complaint, except for plaintiff's claim under Section 36(b) of the Investment Company Act. On January 11,

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

46 o ACM INCOME FUND

2006, the District Court granted defendants' motion for reconsideration and dismissed the remaining Section 36(b) claim. Plaintiffs have moved for leave to amend their consolidated complaint.

The Adviser believes that these matters are not likely to have a material adverse effect on the Fund or the Adviser's ability to perform advisory services relating to the Fund.

See footnote summary on page 49.

48 o ACM INCOME FUND

(a) As of January 1 2004, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. These interim payments are reflected within net realized and unrealized gain (loss) on swap contracts, however prior to January 1 2004, these interim payments were reflected within interest income/expense on the statement of operations. The effect of this change for the year ended December 31, 2004, was to decrease net investment income per share and increase net realized and unrealized gain (loss) on investment transactions. The effect on the per share amounts was less than \$0.005. The ratio of net investment income to average net assets was decreased by 0.02%.

(b) As required, effective January 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies, and began amortizing premium on debt securities for financial reporting purposes only. The effect of this change for the year ended December 31, 2001, was to decrease net investment income per share by \$.05, decrease net realized and unrealized loss on investment transactions per share by \$.05, and decrease the ratio of net investment income to average net assets from 9.92% to 9.33%.

(c) Based on average shares outstanding.

(d) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale of common stock on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under the Fund's Dividend Reinvestment Plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods. Total investment return calculated for a period of less than one year is not annualized.

(e) Excludes net interest expense of 1.67%, .68%, .57%, .61% and 1.13%, respectively, on borrowings (see Notes C and F).

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of ACM Income Fund, Inc.

We have audited the accompanying statement of assets and liabilities of ACM Income Fund, Inc. (the "Fund"), including the portfolio of investments, as of December 31, 2005, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2005, by correspondence with the custodian and others, or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the ACM Income Fund, Inc. at December 31, 2005, the results of its operations and cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

/s/ Ernst & Young LLP

TAX INFORMATION (unaudited)

59% of the ordinary income dividends paid by the Fund during the fiscal year ended December 31, 2005, qualify as "interest related dividends" for non-U.S. shareholders.

50 o ACM INCOME FUND

ADDITIONAL INFORMATION

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

(unaudited)

Shareholders whose shares are registered in their own names may elect to be participants in the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), pursuant to which dividends and capital gain distributions to shareholders will be paid in or reinvested in additional shares of the Fund. Equiserve Trust Company, N.A. (the "Agent") will act as agent for participants under the Plan. Shareholders whose shares are held in the name of a broker or nominee should contact such broker or nominee to determine whether or how they may participate in the Plan.

If the Board declares an income distribution or determines to make a capital gain distribution payable either in shares or in cash, as holders of the Common Stock may have elected, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in shares of Common Stock of the Fund valued as follows:

(i) If the shares of Common Stock are trading at net asset value or at a premium above net asset value at the time of valuation, the Fund will issue new shares at the greater of net asset value or 95% of the then current market price.

(ii) If the shares of Common Stock are trading at a discount from net asset value at the time of valuation, the Agent will receive the dividend or distribution in cash and apply it to the purchase of the Fund's shares of Common Stock in the open market on the New York Stock Exchange or elsewhere, for the participants' accounts. Such purchases will be made on or shortly after the payment date for such dividend or distribution and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with Federal securities laws. If, before the Agent has completed its purchases, the market price exceeds the net asset value of a share of Common Stock, the average purchase price per share paid by the Agent may exceed the net asset value of the Fund's shares of Common Stock, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund.

The Agent will maintain all shareholders' accounts in the Plan and furnish written confirmation of all transactions in the account, including information needed by shareholders for tax records. Shares in the account of each Plan participant will be held by the Agent in non-certificate form in the name of the participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan.

There will be no charges with respect to shares issued directly by the Fund to satisfy the dividend reinvestment requirements. However, each participant will pay a pro-rata share of brokerage commissions incurred with respect to the Agent's open market purchases of shares. In each case, the cost per share of shares purchased for each shareholder's account will be the average cost, including brokerage commissions, of any shares purchased in the open market plus the cost of any shares issued by the Fund.

ACM INCOME FUND o 51

The automatic reinvestment of dividends and distributions will not relieve participants of any income taxes that may be payable (or required to be withheld) on dividends and distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to participants in the Plan at least 90 days before the record date for such dividend or distribution. The Plan may also be amended or terminated by the Agent on at least 90 days written notice to participants in the Plan. All correspondence concerning the Plan should be directed to the Agent at Equiserve Trust Company, N.A., P.O. Box 43011, Providence, RI 02940-3011.

Since the filing of the most recent amendment to the Fund's registration statement with the Securities and Exchange Commission, there have been (i) no material changes in the Fund's investment objectives or policies, (ii) no changes to the Fund's charter or by-laws that would delay or prevent a change of control of the Fund's, (iii) no material changes in the principal risk factors associated with investment in the Fund.

58 o ACM INCOME FUND

INFORMATION REGARDING THE REVIEW AND APPROVAL OF THE FUND'S ADVISORY AGREEMENT

The Fund's disinterested directors (the "directors") unanimously approved the continuance of the Advisory Agreement between the Fund and the Adviser at a meeting held on December 14, 2005.

In preparation for the meeting, the directors had requested from the Adviser and evaluated extensive materials, including performance and expense information for other investment companies with similar investment objectives as the Fund derived from data compiled by Lipper Inc. ("Lipper"). Prior to voting, the directors reviewed the proposed continuance of the Advisory Agreement with management and with experienced counsel who are independent of the Adviser and received a memorandum from such counsel discussing the legal standards for their consideration of the proposed continuance. The directors also discussed the proposed continuance in four private sessions at which only the directors, their independent counsel and the Fund's Independent Compliance Officer were present. In reaching their determinations relating to continuance of the Advisory Agreement, the directors considered all factors they believed relevant, including the following:

1. information comparing the performance of the Fund to other investment companies with similar investment objectives and to an index;
2. the nature, extent and quality of investment, compliance, administrative and other services rendered by the Adviser;
3. payments received by the Adviser from all sources in respect of the Fund and all investment companies in the AllianceBernstein Funds complex;
4. the costs borne by, and profitability of, the Adviser and its affiliates in providing services to the Fund and to all investment companies in the AllianceBernstein Funds complex;
5. comparative fee and expense data for the Fund and other investment companies with similar investment objectives;
6. the extent to which economies of scale would be realized to the extent the Fund grows and whether fee levels reflect any economies of scale for the benefit of investors;
7. the Adviser's policies and practices regarding allocation of portfolio transactions of the Fund, including the extent to which the Adviser

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

benefits from soft dollar arrangements;

ACM INCOME FUND o 59

8. portfolio turnover rates for the Fund compared to other investment companies with similar investment objectives;

9. fall-out benefits that the Adviser and its affiliates receive from their relationships with the Fund;

10. the Adviser's representation that there are no institutional products managed by the Adviser which have a substantially similar investment style as the Fund;

11. the professional experience and qualifications of the Fund's portfolio management team and other senior personnel of the Adviser;

12. the terms of the Advisory Agreement; and

13. a report of the Fund's effective and base fee rate as compared against five competitor funds selected by the Adviser.

The directors also considered their knowledge of the nature and quality of the services provided by the Adviser to the Fund gained from their experience as directors or trustees of most of the registered investment companies advised by the Adviser, their overall confidence in the Adviser's integrity and competence they have gained from that experience and the Adviser's responsiveness to concerns raised by them in the past, including the Adviser's willingness to consider and implement organizational and operational changes designed to improve investment results and the services provided to the AllianceBernstein Funds.

In their deliberations, the directors did not identify any particular information that was all-important or controlling, and the directors attributed different weights to the various factors.

The directors determined that the overall arrangements between the Fund and the Adviser, as provided in the Advisory Agreement, were fair and reasonable in light of the services performed, expenses incurred and such other matters as the directors considered relevant in the exercise of their business judgment.

The material factors and conclusions that formed the basis for the directors reaching their determinations to approve the continuance of the Advisory Agreement (including their determinations that the Adviser should continue to be the investment adviser for the Fund and that the fees payable to the Adviser pursuant to the Advisory Agreement are appropriate) were separately discussed by the directors.

60 o ACM INCOME FUND

Nature, extent and quality of services provided by the Adviser

The directors noted that, under the Advisory Agreement, the Adviser, subject to the control of the directors, administers the Fund's business and other affairs. The Adviser manages the investment of the assets of the Fund, including making purchases and sales of portfolio securities consistent with the Fund's investment objective and policies. The Adviser also provides the Fund with such office space, administrative and other services (exclusive of,

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

and in addition to, any such services provided by any others retained by the Fund) and executive and other personnel as are necessary for the Fund's operations. The Adviser pays all of the compensation of directors of the Fund who are affiliated persons of the Adviser and of the officers of the Fund.

The directors noted that the Advisory Agreement for the Fund does not contain a reimbursement provision for the cost of certain administrative and other services provided by the Adviser. The directors noted that the Fund has a separate administration agreement and pays separate administration fees to its administrator, which is not affiliated with the Adviser.

The directors considered the scope and quality of services provided by the Adviser under the Advisory Agreement and noted that the scope of services provided by advisers had expanded over time as a result of regulatory and other developments. The directors noted, for example, that the Adviser is responsible for maintaining and monitoring its own and, to varying degrees, the Fund's compliance programs, and that these compliance programs have recently been refined and enhanced in light of new regulatory requirements. The directors considered the quality of the in-house investment research capabilities of the Adviser and the other resources it has dedicated to performing services for the Fund. The quality of administrative and other services, including the Adviser's role in coordinating the activities of the Fund's other service providers, also were considered. The directors also considered the Adviser's response to recent regulatory compliance issues affecting a number of the investment companies in the AllianceBernstein Funds complex. The directors concluded that, overall, they were satisfied with the nature, extent and quality of services provided to the Fund under the Advisory Agreement.

Costs of Services Provided and Profitability to the Adviser

The directors reviewed a schedule of the revenues, expenses and related notes indicating the profitability of the Fund to the Adviser for calendar years 2003 and 2004. The directors also reviewed information in respect of 2004 that had been prepared with a revised expense allocation methodology. The directors noted that the revised expense allocation methodology would be used in 2005, and that it differed in various respects from the methodology used in prior years. The directors reviewed the assumptions and methods of allocation used by the Adviser in preparing fund-specific profitability data, and noted the Adviser's representation to them that it believed that the methods of allocation used in

ACM INCOME FUND o 61

preparing the profitability information were reasonable and appropriate and that the Adviser had previously discussed with the directors that there is no generally accepted allocation methodology for information of this type.

The directors recognized that it is difficult to make comparisons of profitability from fund advisory contracts because comparative information is not generally publicly available and is affected by numerous factors, including the structure of the particular adviser, the types of funds it manages, its business mix, numerous assumptions regarding allocations and the adviser's capital structure and cost of capital. In considering profitability information, the directors considered the effect of fall-out benefits on the Adviser's expenses. The directors focused on the profitability of the Adviser's relationship with the Fund before taxes. The directors recognized that the Adviser should generally be entitled to earn a reasonable level of profits for the services it provides to the Fund and, based on their review, concluded that they were satisfied that the Adviser's level of profitability from its relationship with the Fund was not excessive.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Fall-Out Benefits

The directors considered that the Adviser benefits from soft dollar arrangements whereby it receives brokerage and research services from many of the brokers and dealers that execute purchases and sales of securities on behalf of its clients on an agency basis. The directors noted that since the Fund does not engage in brokerage transactions, the Adviser does not receive soft dollar benefits in respect of portfolio transactions of the Fund. The directors also noted that a subsidiary of the Adviser provides certain shareholder services to the Fund and receives compensation from the Fund for such services.

The directors recognized that the Adviser's profitability would be somewhat lower if the Adviser's subsidiary did not receive the benefits described above. The directors understood that the Adviser also might derive reputational and other benefits from its association with the Fund.

Investment Results

In addition to the information reviewed by the directors in connection with the meeting, the directors receive detailed comparative performance information for the Fund at each regular Board meeting during the year. At the meeting, the directors reviewed information prepared by Lipper showing performance of the Fund as compared to a fund in its Lipper category (the "Lipper Data") for periods ended September 30, 2005 over the 1-, 3-, 5- and 10-year periods. The directors also reviewed information prepared by the Adviser showing performance of the Fund as compared to the Lipper General U.S. Government Funds (Leveraged) Average (the "Lipper Average") and the Lehman Brothers U.S. Aggregate Index (the "Index") for periods ended September 30, 2005 over the year to date, 1-, 3-, 5- and 10-year and since inception periods (August 1987 inception).

62 o ACM INCOME FUND

The directors noted that in both the Lipper Data and the Lipper Average comparison, the Fund was the only fund in its category for periods beyond 1 year. The directors did not give significant weight to the Lipper Data or Lipper Average information in such circumstances. The directors noted that the Fund had significantly outperformed the Index (which, they noted, is unleveraged) in all periods reviewed. Since the Fund was the only fund in its Lipper category for all but the most recent of the periods reviewed, the directors requested additional comparative information from the Adviser. In response to such request, the Adviser provided, and the directors reviewed, a report prepared by the Adviser (the "Adviser's Report"), based on information obtained from Lipper, of the Fund's effective and base fee rate, performance, leverage methods and total expenses (including interest expense), as compared to five peer funds (two of which were open-end, and none of which utilize leverage) selected by the Adviser. The directors noted that the Fund had outperformed each of the selected peer funds in all periods (1-, 3- and 5-year periods as of September 30, 2005), and that its shares traded at a slight premium to net asset value on September 30, 2005 while the shares of the three peer closed-end funds traded at an average discount of 9.10% on that date. Since none of the peer funds utilize leverage, the directors did not place great weight on this information. Based on their review, the directors concluded that the Fund's relative performance over time was satisfactory.

Advisory Fees and Other Expenses

The directors considered the combined advisory fee paid by the Fund to the Adviser and administrative fee paid to a third party and information in the

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Lipper Data concerning the combined advisory and administrative fee rate paid by the one other fund in the same Lipper category as the Fund that had been selected by Lipper and noted that the effective fee rate for this fund was materially lower than the Fund's pro forma total effective management fee rate (assuming the new lower contractual advisory fee rate implemented in February 2005 to reduce the advisory fee on the Fund's daily gross income from 525 basis points to 475 basis points had been in effect throughout fiscal 2004). The directors noted that the Fund's fee structure (pursuant to which the Fund pays a fee based on both its net asset value and its gross income) is fairly unusual in the asset management industry, although two of the peer funds identified by the Adviser have similar arrangements. The directors also took into account their general knowledge of advisory fees paid by open-end and closed-end funds that invest in fixed-income securities. The directors recognized that it is difficult to make comparisons of advisory fees because there are variations in the services that are included in the fees paid by other funds.

The directors noted that in connection with the settlement of the market timing matter with the New York Attorney General, the Adviser agreed to material reductions (averaging 20%) in the fee schedules of most of the open-end funds sponsored by the Adviser (other than money market funds). As a result of that

ACM INCOME FUND o 63

settlement, the Adviser's fees (i) for managing open-end high income funds are .50% of the first \$2.5 billion of average daily net assets, .45% for average daily net assets over that level to \$5 billion, and .40% for average daily net assets over \$5 billion; and (ii) for managing open-end low risk income funds are .45% of the first \$2.5 billion of average daily net assets, .40% for average daily net assets over that level to \$5 billion, and .35% for average daily net assets over \$5 billion. The directors noted that each of these fee schedules, if applied to the Fund, would result in a lower fee rate than that paid by the Fund pursuant to the Advisory Agreement.

The directors reviewed information in the Adviser's Form ADV and noted that it charges institutional clients lower fees for advising comparably sized accounts using strategies that differ from those of the Fund but which involve investments in securities of the same type that the Fund invests in (i.e., fixed income securities). They had previously received an oral presentation from the Adviser that supplemented the information in the Form ADV.

The Adviser reviewed with the directors the significant differences in the scope of services it provides to institutional clients and to the Fund. For example, the Advisory Agreement requires the Adviser to provide, in addition to investment advice, office facilities and officers (including officers to provide required certifications). The Adviser also coordinates the provision of services to the Fund by non-affiliated service providers and is responsible for the compensation of the Fund's Independent Compliance Officer and certain related expenses. The provision of these non-advisory services involves costs and exposure to liability. The Adviser explained that many of these services normally are not provided to non-investment company clients and that fees charged to the Fund reflect the costs and risks of the additional obligations. In light of these facts, the directors did not place significant weight on these fee comparisons.

The directors noted that at their December 14-16, 2004 meetings, the directors had requested a reduction in the advisory fees of the Fund to the levels in accordance with the fee schedules for open-end funds and deferred renewal of the Fund's Advisory Agreement pending receipt and consideration of their request by the Adviser. At their February 7-10, 2005 meeting, the directors considered and approved the Adviser's proposal to amend the Advisory Agreement

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

to reduce the fee on the Fund's daily gross income from 5.25% to 4.75% and to cap the fee at 0.95% on an annual basis instead of the then current 1% cap.

The Lipper Data reviewed by the directors showed that the Fund's latest fiscal period pro forma actual management fee rate was 76.8 basis points (combined advisory fee payable under the Advisory Agreement and a two basis point administration fee payable to an entity that is not affiliated with the Adviser), although it would have been significantly lower if expressed as a percentage of the Fund's average weekly total assets (i.e., net assets plus assets supported by leverage).

64 o ACM INCOME FUND

The directors also reviewed information in the Adviser's Report relating to the five peer funds identified by the Adviser. The directors noted that only two of the peer funds had fee arrangements similar to that of the Fund involving the adviser receiving a percentage of the fund's gross income, and that those two funds paid their advisers a materially higher percentage of such gross income. The directors noted that the total effective fee rate of the Fund was higher than the fee rates of the peer funds. They also noted that the total expense ratios of the peer funds were significantly lower than the Fund's total expense ratio although the peer funds (other than the merged funds) were significantly smaller than the Fund. The directors concluded that the Fund's expense ratio was acceptable.

Economies of Scale

The directors considered that the Fund is a closed-end fund and that it was not expected to have meaningful asset growth as a result. In such circumstances, the directors did not view the potential for realization of economies of scale as the Fund's assets grow to be a material factor in their deliberations. The directors noted that if the Fund's net assets were to increase materially as a result of, e.g., an acquisition or rights offering, they would review whether potential economies of scale would be realized.

In order to provide financial products and services to our customers efficiently and accurately, we may collect nonpublic personal information about our customers from the following sources: (1) information we receive from account documentation, including applications or other forms (which may include information such as a customer's name, address, social security number, assets and income) and (2) information about our customers' transactions with us, our affiliates and others (including information such as a customer's account balances and account activity).

It is our policy not to disclose nonpublic personal information about our customers (or former customers) except to our affiliates, or to others as permitted or required by law. From time to time, Alliance may disclose nonpublic personal information that we collect about our customers (or former customers), as described above, to non-affiliated third party providers, including those that perform processing or servicing functions and those that provide marketing services for us or on our behalf pursuant to a joint marketing agreement that requires the third party provider to adhere to Alliance's privacy policy. We have policies and procedures to safeguard nonpublic personal information about our customers (or former customers) which include: (1) restricting access to such nonpublic personal information and (2) maintaining physical, electronic and procedural safeguards that comply with federal standards to safeguard such nonpublic personal information.

ITEM 2. CODE OF ETHICS.

(a) The registrant has adopted a code of ethics that applies to its principal executive officer, principal financial officer and principal accounting officer. A copy of the registrant's code of ethics is filed herewith as Exhibit 12(a)(1).

(b) During the period covered by this report, no material amendments were made to the provisions of the code of ethics adopted in 2(a) above.

(c) During the period covered by this report, no implicit or explicit waivers to the provisions of the code of ethics adopted in 2(a) above were granted.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors has determined that independent directors David H. Dievler and William H. Foulk, Jr. qualify as audit committee financial experts.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) - (c) The following table sets forth the aggregate fees billed by the independent registered accounting firm Ernst & Young LLP, for the Fund's last two fiscal years for professional services rendered for: (i) the audit of the Fund's annual financial statements included in the Fund's annual report to stockholders; (ii) assurance and related services that are reasonably related to the performance of the audit of the Fund's financial statements and are not reported under (i), which include advice and education related to accounting and auditing issues and quarterly press release review (for those Funds that issue quarterly press releases), and preferred stock maintenance testing (for those Funds that issue preferred stock); and (iii) tax compliance, tax advice and tax return preparation.

	Audit Fees	Audit-Related Fees	Tax Fees
	-----	-----	-----
2004	\$58,000	\$10,030	\$17,000
2005	\$60,000	\$ 3,100	\$18,000

(d) Not applicable.

(e) (1) Beginning with audit and non-audit service contracts entered into on or

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

after May 6, 2003, the Fund's Audit Committee policies and procedures require the pre-approval of all audit and non-audit services provided to the Fund by the Fund's independent registered public accounting firm. The Fund's Audit Committee policies and procedures also require pre-approval of all audit and non-audit services provided to the Adviser and Service Affiliates to the extent that these services are directly related to the operations or financial reporting of the Fund.

(e) (2) All of the amounts for Audit Fees, Audit-Related Fees and Tax Fees in the table under Item 4 (a) - (c) are for services pre-approved by the Fund's Audit Committee.

(f) Not applicable.

(g) The following table sets forth the aggregate non-audit services provided to the Fund, the Fund's Adviser and entities that control, are controlled by or under common control with the Adviser that provide ongoing services to the Fund, which include conducting an annual internal control report pursuant to Statement on Auditing Standards No. 70 ("Service Affiliates"):

	Total Amount of All Fees for Non-Audit Services Provided to the Portfolio, the Adviser and Service Affiliates	Foregoing Column Pre-approved by the Audit Committee (Portion Comprised Audit Related Fee (Portion Comprised Tax Fees)
	-----	-----
2004	\$985,628	[\$102,910] (\$ 85,030) (\$ 17,880)
2005	\$848,540	[\$192,000] (\$173,100) (\$ 18,900)

(h) The Audit Committee of the Fund has considered whether the provision of any non-audit services not pre-approved by the Audit Committee provided by the Fund's independent registered public accounting firm to the Adviser and Service Affiliates is compatible with maintaining the auditor's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The audit committee members are as follows:

- Ruth Block
- Michael J. Downey
- David H. Dievler
- William H. Foulk, Jr
- John H. Dobkin
- D. James Guzy
- Marshall C. Turner, Jr.

ITEM 6. SCHEDULE OF INVESTMENTS.

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Please see Schedule of Investments contained in the Report to Shareholders included under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

October 2005

ALLIANCE CAPITAL MANAGEMENT L.P.

Statement of Policies and Procedures for Proxy Voting

Introduction

As a registered investment adviser, Alliance Capital Management L.P. ("Alliance Capital", "we" or "us") has a fiduciary duty to act solely in the best interests of our clients. We recognize that this duty requires us to vote client securities in a timely manner and make voting decisions that are in the best interests of our clients. Consistent with these obligations, we will disclose our clients' voting records only to them and as required by mutual fund vote disclosure regulations. In addition, the proxy committees may, after careful consideration, choose to respond to surveys regarding past votes.

This statement is intended to comply with Rule 206(4)-6 of the Investment Advisers Act of 1940. It sets forth our policies and procedures for voting proxies for our discretionary investment advisory clients, including investment companies registered under the Investment Company Act of 1940. This statement applies to Alliance Capital's growth and value investment groups investing on behalf of clients in both US and non-US securities.

Proxy Policies

This statement is designed to be responsive to the wide range of proxy voting subjects that can have a significant effect on the investment value of the securities held in our clients' accounts. These policies are not exhaustive due to the variety of proxy voting issues that we may be required to consider. Alliance Capital reserves the right to depart from these guidelines in order to avoid voting decisions that we believe may be contrary to our clients' best interests. In reviewing proxy issues, we will apply the following general policies:

Corporate Governance: Alliance Capital's proxy voting policies recognize the importance of good corporate governance in ensuring that management and the board of directors fulfill their obligations to the shareholders. We favor proposals promoting transparency and accountability within a company. We will vote for proposals providing for equal access to the proxy materials so that shareholders can express their views on various proxy issues. We also support the appointment of a majority of independent directors on key committees and separating the positions of chairman and chief executive officer. Finally, because we believe that good corporate governance requires shareholders to have a meaningful voice in the affairs of the company, we will support non-binding shareholder proposals that request that companies amend their by-laws to provide that director nominees be elected by an affirmative vote of a majority of the votes cast.

Elections of Directors: Unless there is a proxy fight for seats on the Board or we determine that there are other compelling reasons for withholding votes for directors, we will vote in favor of the management proposed slate of directors. That said, we believe that directors have a duty to respond to shareholder actions that have received significant shareholder support. We may withhold votes for directors that fail to act on key issues such as failure to

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

implement proposals to declassify boards, failure to implement a majority vote requirement, failure to submit a rights plan to a shareholder vote or failure to act on tender offers where a majority of shareholders have tendered their shares. In addition, we will withhold votes for directors who fail to attend at least seventy-five percent of board meetings within a given year without a reasonable excuse. Finally, we may withhold votes for directors of non-U.S. issuers where there is insufficient information about the nominees disclosed in the proxy statement.

Appointment of Auditors: Alliance Capital believes that the company remains in the best position to choose the auditors and will generally support management's recommendation. However, we recognize that there may be inherent conflicts when a company's independent auditor performs substantial non-audit related services for the company. Although we recognize that there may be special circumstances that could lead to high levels of non-audit fees in some years, we would normally consider non-audit fees in excess of 70% of total fees paid to the auditing firm to be disproportionate. Therefore, absent unique circumstances, we may vote against the appointment of auditors if the fees for non-audit related services exceed 70% of the total fees paid by the company to the auditing firm or there are other reasons to question the independence of the company's auditors.

Changes in Legal and Capital Structure: Changes in a company's charter, articles of incorporation or by-laws are often technical and administrative in nature. Absent a compelling reason to the contrary, Alliance Capital will cast its votes in accordance with the company's management on such proposals. However, we will review and analyze on a case-by-case basis any non-routine proposals that are likely to affect the structure and operation of the company or have a material economic effect on the company. For example, we will generally support proposals to increase authorized common stock when it is necessary to implement a stock split, aid in a restructuring or acquisition or provide a sufficient number of shares for an employee savings plan, stock option or executive compensation plan. However, a satisfactory explanation of a company's intentions must be disclosed in the proxy statement for proposals requesting an increase of greater than one hundred percent of the shares outstanding. We will oppose increases in authorized common stock where there is evidence that the shares will be used to implement a poison pill or another form of anti-takeover device.

Corporate Restructurings, Mergers and Acquisitions: Alliance Capital believes proxy votes dealing with corporate reorganizations are an extension of the investment decision. Accordingly, we will analyze such proposals on a case-by-case basis, weighing heavily the views of our research analysts that cover the company and our investment professionals managing the portfolios in which the stock is held.

Proposals Affecting Shareholder Rights: Alliance Capital believes that certain fundamental rights of shareholders must be protected. We will generally vote in favor of proposals that give shareholders a greater voice in the affairs of the company and oppose any measure that seeks to limit those rights. However, when analyzing such proposals we will weigh the financial impact of the proposal against the impairment of shareholder rights.

Anti-Takeover Measures: Alliance Capital believes that measures that impede corporate transactions such as takeovers or entrench management not only infringe on the rights of shareholders but may also have a detrimental effect on the value of the company. We will generally oppose proposals, regardless of whether they are advanced by management or shareholders, the purpose or effect of which is to entrench management or excessively or inappropriately dilute shareholder ownership. Conversely, we support proposals that would restrict or otherwise eliminate anti-takeover or anti-shareholder measures that have already been adopted by corporate issuers. For example, we will support

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

shareholder proposals that seek to require the company to submit a shareholder rights plan to a shareholder vote. We will evaluate, on a case-by-case basis, proposals to completely redeem or eliminate such plans. Furthermore, we will generally oppose proposals put forward by management (including the authorization of blank check preferred stock, classified boards and supermajority vote requirements) that appear to be anti-shareholder or intended as management entrenchment mechanisms.

Executive Compensation: Alliance Capital believes that company management and the compensation committee of the board of directors should, within reason, be given latitude to determine the types and mix of compensation and benefit awards offered to company employees. Whether proposed by a shareholder or management, we will review proposals relating to executive compensation plans on a case-by-case basis to ensure that the long-term interests of management and shareholders are properly aligned. In general, we will analyze the proposed plans to ensure that shareholder equity will not be excessively diluted. With regard to stock award or option plans, we consider whether the option exercise prices are below the market price on the date of grant and whether an acceptable number of employees are eligible to participate in such programs. We will generally oppose plans that have below market value exercise prices on the date of issuance or permit repricing of underwater stock options without shareholder approval. Other factors such as the company's performance and industry practice will generally be factored into our analysis. We will support proposals requiring managements to submit severance packages that exceed 2.99 times the sum of an executive officer's base salary plus bonus that are triggered by a change in control to a shareholder vote. Finally, we will support shareholder proposals requiring companies to expense stock options because we view them as a large corporate expense that should be appropriately accounted for.

Social and Corporate Responsibility: Alliance Capital will review and analyze on a case-by-case basis proposals relating to social, political and environmental issues to determine whether they will have a financial impact on shareholder value. We will vote against proposals that are unduly burdensome or result in unnecessary and excessive costs to the company. We may abstain from voting on social proposals that do not have a readily determinable financial impact on shareholder value.

Proxy Voting Procedures

Proxy Voting Committees

Our growth and value investment groups have formed separate proxy voting committees to establish general proxy policies for Alliance Capital and consider specific proxy voting matters as necessary. These committees periodically review these policies and new types of corporate governance issues, and decide how we should vote on proposals not covered by these policies. When a proxy vote cannot be clearly decided by an application of our stated policy, the proxy committee will evaluate the proposal. In addition, the committees, in conjunction with the analyst that covers the company, may contact corporate management and interested shareholder groups and others as necessary to discuss proxy issues. Members of the committee include senior investment personnel and representatives of the Legal and Compliance Department. The committees may also evaluate proxies where we face a potential conflict of interest (as discussed below). Finally, the committees monitor adherence to these policies.

Conflicts of Interest

Alliance Capital recognizes that there may be a potential conflict of interest when we vote a proxy solicited by an issuer whose retirement plan we manage, or we administer, who distributes Alliance Capital sponsored mutual funds, or with

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

whom we or an employee has another business or personal relationship that may affect how we vote on the issuer's proxy. Similarly, Alliance may have a potential material conflict of interest when deciding how to vote on a proposal sponsored or supported by a shareholder group that is a client. We believe that centralized management of proxy voting, oversight by the proxy voting committees and adherence to these policies ensures that proxies are voted with only our clients' best interests in mind. Additionally, we have implemented procedures to ensure that our votes are not the product of a material conflict of interests, including: (i) on an annual basis, the proxy committees will take reasonable steps to evaluate the nature of Alliance Capital's and our employees' material business and personal relationships (and those of our affiliates) with any company whose equity securities are held in client accounts and any client that has sponsored or has material interest in a proposal upon which we will be eligible to vote; (ii) requiring anyone involved in the decision making process to disclose to the chairman of the appropriate proxy committee any potential conflict that they are aware of (including personal relationships) and any contact that they have had with any interested party regarding a proxy vote; (iii) prohibiting employees involved in the decision making process or vote administration from revealing how we intend to vote on a proposal in order to reduce any attempted influence from interested parties; and (iv) where a material conflict of interests exists, reviewing our proposed vote by applying a series of objective tests and, where necessary, considering the views of third party research services to ensure that our voting decision is consistent with our clients' best interests.

Because under certain circumstances Alliance Capital considers the recommendation of third party research services, the proxy committees will take reasonable steps to verify that any third party research service is in fact independent based on all of the relevant facts and circumstances. This includes reviewing the third party research service's conflict management procedures and ascertaining, among other things, whether the third party research service (i) has the capacity and competency to adequately analyze proxy issues; and (ii) can make such recommendations in an impartial manner and in the best interests of our clients.

Proxies of Certain Non-US Issuers

Proxy voting in certain countries requires "share blocking." Shareholders wishing to vote their proxies must deposit their shares shortly before the date of the meeting (usually one-week) with a designated depository. During this blocking period, shares that will be voted at the meeting cannot be sold until the meeting has taken place and the shares are returned to the clients' custodian banks. Absent compelling reasons to the contrary, Alliance Capital believes that the benefit to the client of exercising the vote does not outweigh the cost of voting (i.e. not being able to sell the shares during this period). Accordingly, if share blocking is required we generally abstain from voting those shares.

In addition, voting proxies of issuers in non-US markets may give rise to a number of administrative issues that may prevent Alliance Capital from voting such proxies. For example, Alliance Capital may receive meeting notices without enough time to fully consider the proxy or after the cut-off date for voting. Other markets require Alliance Capital to provide local agents with power of attorney prior to implementing Alliance Capital's voting instructions. Although it is Alliance Capital's policy to seek to vote all proxies for securities held in client accounts for which we have proxy voting authority, in the case of non-US issuers, we vote proxies on a best efforts basis.

Loaned Securities

Many clients of Alliance Capital have entered into securities lending arrangements with agent lenders to generate additional revenue. Alliance

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

Capital will not be able to vote securities that are on loan under these types of arrangements. However, under rare circumstances, for voting issues that may have a significant impact on the investment, we may request that clients recall securities that are on loan if we determine that the benefit of voting outweighs the costs and lost revenue to the client or fund and the administrative burden of retrieving the securities.

Proxy Voting Records

You may obtain information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, without charge. Simply visit AllianceBernstein's web site at www.alliancebernstein.com, or go to the Securities and Exchange Commission's web site at www.sec.gov, or call AllianceBernstein at (800) 227-4618.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

(a) (1) The management of and investment decisions for the Fund's portfolio are made by the ACM Income Fund Investment Team.

The following table lists the five members of the team with the most significant responsibility for the day-to-day management of the Fund's portfolio, the length of time that each person has been jointly and primarily responsible for the Fund, and each person's principal occupation during the past five years:

Employee; Year; Title	Principal Occupation During the Past Five (5) Years
Andrew Aran; since 2002; Senior Vice President of ACMC	Senior Vice President of ACMC with which he has been associated since prior to 2000.
Paul DeNoon; since 2002; Senior Vice President of ACMC	Senior Vice President of ACMC with which he has been associated since prior to 2000.
Douglas J. Peebles; since 2002; Executive Vice President of ACMC	Executive Vice President of ACMC with which he has been associated since prior to 2000.
Michael Snyder; since 2002; Senior Vice President of ACMC	Senior Vice President of ACMC with which he has been associated since prior to 2000.
Kewjin Yuoh; since 2003; Vice President of ACMC	Vice President of ACMC with which he has been associated since prior to 2000.

(a) (2) The following tables provide information regarding registered investment companies other than the Fund, other pooled investment vehicles and other accounts over which the Fund's portfolio managers also have day-to-day management responsibilities. The tables provide the numbers of such accounts, the total assets in such accounts and the number of accounts and total assets whose fees are based on performance. The information is provided as of the Fund's fiscal year ended December 31, 2005.

Investment Professional Conflict of Interest Disclosure

As an investment adviser and fiduciary, Alliance owes its clients and shareholders an undivided duty of loyalty. We recognize that conflicts of

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

interest are inherent in our business and accordingly have developed policies and procedures (including oversight monitoring) reasonably designed to detect, manage and mitigate the effects of actual or potential conflicts of interest in the area of employee personal trading, managing multiple accounts for multiple clients, including AllianceBernstein Mutual Funds, and allocating investment opportunities. Investment professionals, including portfolio managers and research analysts, are subject to the above-mentioned policies and oversight monitoring to ensure that all clients are treated equitably. We place the interests of our clients first and expect all of our employees to meet their fiduciary duties.

Employee Personal Trading. Alliance has adopted a Code of Business Conduct and Ethics that is designed to detect and prevent conflicts of interest when investment professionals and other personnel of Alliance own, buy or sell securities which may be owned by, or bought or sold for, clients. Personal securities transactions by an employee may raise a potential conflict of interest when an employee owns or trades in a security that is owned or considered for purchase or sale by a client, or recommended for purchase or sale by an employee to a client. Subject to the reporting requirements and other limitations of its Code of Business Conduct and Ethics, Alliance permits its employees to engage in personal securities transactions, and also allows them to acquire investments in the AllianceBernstein Mutual Funds through direct purchase, 401K/profit sharing plan investment and/or notionally in connection with deferred incentive compensation awards. Alliance's Code of Ethics and Business Conduct requires disclosure of all personal accounts and maintenance of brokerage accounts with designated broker-dealers approved by Alliance. The Code also requires preclearance of all securities transactions and imposes a one-year holding period for securities purchased by employees to discourage short-term trading.

Managing Multiple Accounts for Multiple Clients. Alliance has compliance policies and oversight monitoring in place to address conflicts of interest relating to the management of multiple accounts for multiple clients. Conflicts of interest may arise when an investment professional has responsibilities for the investments of more than one account because the investment professional may be unable to devote equal time and attention to each account. The investment professional or investment professional teams for each client may have responsibilities for managing all or a portion of the investments of multiple accounts with a common investment strategy, including other registered investment companies, unregistered investment vehicles, such as hedge funds, pension plans, separate accounts, collective trusts and charitable foundations. Among other things, Alliance's policies and procedures provide for the prompt dissemination to investment professionals of initial or changed investment recommendations by analysts so that investment professionals are better able to develop investment strategies for all accounts they manage. In addition, investment decisions by investment professionals are reviewed for the purpose of maintaining uniformity among similar accounts and ensuring that accounts are treated equitably. No investment professional that manages client accounts carrying performance fees is compensated directly or specifically for the performance of those accounts. Investment professional compensation reflects a broad contribution in multiple dimensions to long-term investment success for our clients and is not tied specifically to the performance of any particular client's account, nor is it directly tied to the level or change in level of assets under management.

Allocating Investment Opportunities. Alliance has policies and procedures intended to address conflicts of interest relating to the allocation of investment opportunities. These policies and procedures are designed to ensure that information relevant to investment decisions is disseminated promptly within its portfolio management teams and investment opportunities are allocated equitably among different clients. The investment professionals at Alliance routinely are required to select and allocate investment opportunities

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

among accounts. Portfolio holdings, position sizes, and industry and sector exposures tend to be similar across similar accounts, which minimizes the potential for conflicts of interest relating to the allocation of investment opportunities. Nevertheless, investment opportunities may be allocated differently among accounts due to the particular characteristics of an account, such as size of the account, cash position, tax status, risk tolerance and investment restrictions or for other reasons.

Alliance's procedures are also designed to prevent potential conflicts of interest that may arise when Alliance has a particular financial incentive, such as a performance-based management fee, relating to an account. An investment professional may perceive that he or she has an incentive to devote more time to developing and analyzing investment strategies and opportunities or allocating securities preferentially to accounts for which Alliance could share in investment gains.

To address these conflicts of interest, Alliance's policies and procedures require, among other things, the prompt dissemination to investment professionals of any initial or changed investment recommendations by analysts; the aggregation of orders to facilitate best execution for all accounts; price averaging for all aggregated orders; objective allocation for limited investment opportunities (e.g., on a rotational basis) to ensure fair and equitable allocation among accounts; and limitations on short sales of securities. These procedures also require documentation and review of justifications for any decisions to make investments only for select accounts or in a manner disproportionate to the size of the account.

(a) (3) Portfolio Manager Compensation

Alliance's compensation program for investment professionals is designed to be competitive and effective in order to attract and retain the highest caliber employees. The compensation program for investment professionals is designed to reflect their ability to generate long-term investment success for our clients, including shareholders of the AllianceBernstein Mutual Funds. Investment professionals do not receive any direct compensation based upon the investment returns of any individual client account, nor is compensation tied directly to the level or change in level of assets under management. Investment professionals' annual compensation is comprised of the following:

(i) Fixed base salary: This is generally the smallest portion of compensation. The base salary is a relatively low, fixed salary within a similar range for all investment professionals. The base salary is determined at the outset of employment based on level of experience, does not change significantly from year-to-year and hence, is not particularly sensitive to performance.

(ii) Discretionary incentive compensation in the form of an annual cash bonus: Alliance's overall profitability determines the total amount of incentive compensation available to investment professionals. This portion of compensation is determined subjectively based on qualitative and quantitative factors. In evaluating this component of an investment professional's compensation, Alliance considers the contribution to his/her team or discipline as it relates to that team's overall contribution to the long-term investment success, business results and strategy of Alliance. Quantitative factors considered include, among other things, relative investment performance (e.g., by comparison to competitor or peer group funds or similar styles of investments, and appropriate, broad-based or specific market indices), and consistency of performance. There are no specific formulas used to determine this part of an investment professional's compensation and the compensation is not tied to any pre-determined or specified level of performance. Alliance also considers qualitative factors such as the complexity and risk of investment strategies involved in the style or type of assets managed by the investment professional; success of marketing/business development efforts and

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

client servicing; seniority/length of service with the firm; management and supervisory responsibilities; and fulfillment of Alliance's leadership criteria.

(iii) Discretionary incentive compensation in the form of awards under Alliance's Partners Compensation Plan ("deferred awards"): Alliance's overall profitability determines the total amount of deferred awards available to investment professionals. The deferred awards are allocated among investment professionals based on criteria similar to those used to determine the annual cash bonus. There is no fixed formula for determining these amounts. Deferred awards, for which there are various investment options, vest over a four-year period and are generally forfeited if the employee resigns or Alliance terminates his/her employment. Investment options under the deferred awards plan include many of the same AllianceBernstein Mutual Funds offered to mutual fund investors, thereby creating a close alignment between the financial interests of the investment professionals and those of Alliance's clients and mutual fund shareholders with respect to the performance of those mutual funds. Alliance also permits deferred award recipients to allocate up to 50% of their award to investments in Alliance's publicly traded equity securities.(1)

(1) Prior to 2002, investment professional compensation also included discretionary long-term incentive in the form of restricted grants of Alliance Capital's Master Limited Partnership Units.

(iv) Contributions under Alliance's Profit Sharing/401(k) Plan: The contributions are based on Alliance's overall profitability. The amount and allocation of the contributions are determined at the sole discretion of Alliance.

(a) (4) The dollar range of the Fund's equity securities owned directly or beneficially by the Fund's portfolio managers as of the Fund's fiscal year ended December 31, 2005 is set forth below:

	DOLLAR RANGE OF EQUITY SECURITIES IN THE FUND

Andrew Aran	None
Paul DeNoon	None
Douglas J. Peebles	None
Michael Snyder	None
Kewjin Yuch	None

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

There have been no purchases of equity securities by the Fund or by affiliated parties for the reporting period.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Directors since the Fund last provided disclosure in response to this item.

ITEM 11. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures

Edgar Filing: ACM INCOME FUND INC - Form N-CSR

(as defined in Rule 30a-2(c) under the Investment Company Act of 1940, as amended) are effective at the reasonable assurance level based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

(b) There were no changes in the registrant's internal controls over financial reporting that occurred during the second fiscal quarter of the period that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

The following exhibits are attached to this Form N-CSR:

EXHIBIT NO. -----	DESCRIPTION OF EXHIBIT -----
12 (a) (1)	Code of Ethics that is subject to the disclosure of Item 2 hereof
12 (b) (1)	Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
12 (b) (2)	Certification of Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
12 (c)	Certification of Principal Executive Officer and Principal Financial Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
