NEWS RELEASE

**BANNER CORPORATION REPORTS PROFITS INCREASE 17% TO \$4.1 MILLION AS ASSETS
TOP \$2.5 BILLION AND KEY CREDIT QUALITY RATIOS IMPROVE**

Walla Walla, WA - July 23, 2003 - Banner Corporation (Nasdaq: BANR), the parent of Banner Bank, today reported that strong growth in assets and deposits, as well as increased mortgage banking activities, contributed to a 17% growth in net income for the quarter ended June 30, 2003. For the second quarter, net income was \$4.1 million, or \$0.37 per diluted share, a 17% improvement compared to \$3.5 million, or \$0.30 per diluted share, in the same quarter a year earlier. For the first six months of the year, net income reached \$7.6 million, or \$0.68 per diluted share, compared to \$7.4 million, or \$0.65 per diluted share, in the same period of 2002.

"We are making progress toward generating improved earnings, better asset quality and growing our franchise," said D. Michael Jones, President and Chief Executive Officer. "While we continue to work to collect problem assets and strengthen our loan portfolio and credit culture, we are seeing significant growth in loans and deposits. We are also expanding our franchise with new branch openings in Yakima and the Belltown neighborhood of Seattle during 2003. In 2004, we expect to add branches in Walla Walla and Federal Way, Washington and in Hillsboro, Oregon near Portland. These branches complement our existing network and will help us deliver improved customer service and banking products more conveniently to new and existing customers."

Credit Quality

Non-performing assets were \$37.1 million, or 1.48% of total assets, at June 30, 2003, a 12% reduction from both \$42.4 million or 1.76% of total assets at March 31, 2003, and \$42.2 million or 1.86% of total assets at December 31, 2002. The loan loss provision for the second quarter was \$2.3 million, equal to the provision in the prior quarter and a reduction from \$4.0 million in the second quarter a year ago. At June 30, 2003, the allowance for loan losses totaled \$26.1 million, representing 1.57% of total loans outstanding, compared to \$25.6 million or 1.61% of total loans at

March 31, 2003, and \$16.6 million or 1.06% of loans at June 30, 2002.

Income Statement Review

Revenues (net interest income before the provision for loan losses plus other operating income) for the second quarter increased 11% to \$25.4 million, compared to \$23.0 million in the same quarter of 2002. For the first half of the year, revenues increased 10% to \$49.7 million, compared to \$45.1 million in the same period of 2002. Net interest margin was 3.57% for the quarter, compared to 3.66% in the prior quarter and 3.90% in the same quarter a year ago. "The decrease in net interest margin was largely the result of changes in the asset mix, with a higher percentage of investments in 2003 than in 2002, and the effect of the lower interest rate environment on investment yields as well as the higher level of non-performing assets in 2003 compared to the second quarter of 2002," said Jones.

"The significant growth in our deposit base contributed to a 19% increase in other fees and service charges. In addition, a record quarter for mortgage banking operations contributed to the 52% increase in other operating income despite a second quarter \$300,000 impairment charge related to accelerated loan payoffs of the residential loan servicing portfolio," added Jones. For the quarter, mortgage banking operations, including loan servicing fees, more than doubled to \$3.2 million, compared to \$1.5 million in the second quarter of 2002, and increased 22% from the first quarter level of \$2.6 million.

"Over the last twelve months, we have added two branches and three loan offices, moved one loan office to an expanded facility and added experienced personnel in a variety of positions, most importantly in our lending departments. Staffing has increased 10% from levels a year ago. These significant investments in people and facilities are beginning to produce the increased asset growth and revenues we were expecting," Jones said.

Other operating expense was \$17.3 million for the quarter ended June 30, 2003, compared to \$17.1 million in the first quarter of 2003 and \$13.8 million in the second quarter of 2002. The increased branches, lending centers, substantially augmented lending staff, along with increases in compensation to our real estate lenders due to their exceptional volumes, higher problem loan collection costs and increased marketing expenditures all contributed to the higher level of expenses.

Balance Sheet Review

Assets reached a record \$2.5 billion at June 30, 2003, a 16% increase from \$2.2 billion a year earlier. Deposits grew 19%, to \$1.7 billion, compared to \$1.4 billion at June 30, 2002. Book value per share increased to \$17.96 at June 30, 2003, from \$17.75 per share a year earlier. Tangible book value totaled \$14.59 per share at June 30, 2003, compared to \$14.44 a year earlier.

"The experienced commercial lending staff we have been building over the past year is now generating significant growth in C&I loans, including commercial and agricultural business loans," said Jones. "These loans grew 24%

year-over-year and now account for 27% of the total loan portfolio, compared to 23% a year ago. Our construction and land development lending operations also continue to produce strong results in the current interest rate environment. Despite record one-to-four family loan production, this portion of our portfolio continues to decline as a result of refinancing activity and our strategy of selling current production of these long-term, low-interest rate mortgages into the secondary market. Excluding one-to-four family loans, the remainder of the loan portfolio increased more than 12%.

"We are particularly pleased that strong deposit growth for the quarter and year-to-date has improved our balance sheet fundamentals and provided funding for our loan growth. Combined with increases in our cash and securities portfolio, we now have a stronger balance sheet and higher levels of liquidity than in prior years," concluded Jones.
