**PRESS RELEASE -- For Immediate Release**

---

**HOME FEDERAL BANCORP, INC. ANNOUNCES THIRD QUARTER EARNINGS**

**Nampa, ID (July 19, 2007)** - Home Federal Bancorp, Inc. (the "Company") (Nasdaq GSM: HOME), the parent company of Home Federal Bank (the "Bank"), today reported net income of \$1.6 million, or \$0.11 per diluted share, for the quarter ended June 30, 2007, compared to \$1.6 million, or \$0.11 per diluted share, for the same period a year ago. Net income for the nine months ended June 30, 2007 was \$4.1 million, or \$0.28 per diluted share, compared to \$4.6 million, or \$0.31 per diluted share, for the same nine-month period a year ago.

"We are seeing very positive results from the implementation of our commercial banking division as we extend our reputation for premier service to a new group of clients," said Daniel L. Stevens, the Company's Chairman and CEO. "The Bank has assembled a seasoned group of business bankers from the local market, led by experienced officers who are well known and highly regarded. I am very pleased with this new addition to the business model."

**Operating Results**

Revenues for the quarter ended June 30, 2007, which consisted of net interest income before the provision for loan losses plus noninterest income, decreased 6% to \$8.3 million for the quarter, compared to \$8.8 million for the quarter ended June 30, 2006. Net interest income before the provision for loan losses decreased 8% to \$5.3 million for the quarter ended June 30, 2007 compared to \$5.8 million for the same quarter of the prior year as the cost of deposits increased more rapidly than the yield on loans and investments. In addition, the current business strategy is to reduce the outstanding balances of the residential mortgage portfolio and mortgage-backed securities to re-deploy the proceeds in support of the commercial banking initiative.

Revenues for the nine months ended June 30, 2007 decreased 4% to \$24.8 million, compared to \$25.8 million for the same period of last year. Net interest income before the provision for loan losses decreased 7% to \$16.2 million, compared to \$17.4 million for the same period of last year.

A provision for loan losses was not required in connection with the analysis of the loan portfolio for the current quarter, compared to a provision for loan losses of \$175,000 established for the same quarter of the prior year. The decrease in the provision reflects a \$12 million reduction in loans receivable for the current quarter as compared to an increase of \$18 million for the same period of last year. The provision for loan losses was \$71,000 for the nine months ended June 30, 2007, compared to \$320,000 for the nine months ended June 30, 2006. The \$249,000, or 78% decrease in the provision reflects the decrease in net loans receivable for the comparable periods.

The Company's net interest margin decreased 23 basis points to 3.02% for the quarter ended June 30, 2007, from 3.25% for the same quarter last year. The net interest margin for the nine months ended June 30, 2007 decreased 39 basis points to 3.02% from 3.41% for the same period a year earlier. The decline in the net interest margin reflects competitive pricing pressures and the relatively flat yield curve that

---

<PAGE>

**Home Federal Bancorp, Inc.**

**July 19, 2007**

**Page 2 of 7**

exists, as the cost of shorter-term deposits and borrowed funds have increased more rapidly than the yield on longer-term assets. The Company believes the repricing of existing loans and the emphasis on expanding the commercial and small business banking programs, including both loan and deposit products, will help counter the

trend in net interest margin.

Noninterest income decreased 2% to \$3.0 million for the quarter ended June 30, 2007, compared to \$3.1 million for the same quarter a year ago. The decrease was primarily attributable to a \$161,000 decrease related to the value of the mortgage servicing rights and a \$107,000 decrease in fees and service charges offset by a \$203,000 increase in gains on the sale of residential loans. For the nine months ended June 30, 2007, noninterest income increased 3% to \$8.6 million, compared to \$8.3 million for the same period of the prior year. Increases in gains on the sale of residential loans of \$374,000 offset by a \$176,000 decrease related to the value of the mortgage servicing rights account for the majority of the increase. The Company currently sells the majority of the one-to four-family residential mortgage loans that it originates. For the three and nine months ended June 30, 2006, a larger percentage of the residential mortgage loans originated were held in the loan portfolio. During the quarter ended June 30, 2006, the Company had a \$201,000 write-up of the value of the mortgage servicing rights.

Noninterest expense for the quarter ended June 30, 2007 decreased \$337,000, or 5%, to \$5.8 million, from \$6.1 million for the comparable period a year earlier. Compensation and benefit expenses decreased \$354,000, or 9%, to \$3.5 million for the quarter ended June 30, 2007 as compared to \$3.9 million for the same quarter a year ago. As of June 30, 2007, the Company employed 215 full-time equivalent employees, compared to 240 at June 30, 2006. The Company's efficiency ratio was 69.9% for the quarter ended June 30, 2007, relatively unchanged from 69.3% for the same quarter a year ago. The efficiency ratio indicates how much is spent on non-interest expenses as a percentage of total revenue.

Noninterest expense for the nine months ended June 30, 2007 was unchanged at \$18.1 million from the comparable period ended June 30, 2006. Compensation and benefits were also unchanged at \$11.4 million for the nine months ended June 30, 2007 and 2006. Advertising costs increased \$232,000, or 31% primarily as a result of marketing costs related to a debit card rewards program and business banking campaign that were implemented during the current fiscal year. The debit card rewards program is designed to reward customers for their debit card usage which results in additional interchange income to the Company. The efficiency ratio was 73.1% for the nine months ended June 30, 2007 compared to 70.1% for the same period of the prior year. The reduction in the Company's net interest income was the primary factor related to the increase in the efficiency ratio.

### **Balance Sheet Growth**

Total assets decreased \$28.4 million, or 4%, to \$728.3 million at June 30, 2007, compared to \$756.7 million a year earlier. Net loans (excluding loans held for sale) at June 30, 2007 decreased less than 1% to \$491.8 million, compared to \$494.0 million at June 30, 2006. One- to four-family residential loans represented 57% of the Bank's loan portfolio at June 30, 2007, compared to 63% at June 30, 2006 as the Bank continues to sell the majority of the residential mortgage loans that it originates. Commercial real estate loans accounted for 32% of the Bank's loan portfolio at June 30, 2007, compared to 27% at June 30, 2006. In the future, the Bank plans to increase its emphasis on commercial and small business banking products. Mortgage-backed securities decreased \$36.2 million to \$166.8 million at June 30, 2007, compared to \$203.0 million at June 30, 2006. The decrease is primarily attributable to normal

---

<PAGE>

principal repayments during the period. During the quarter ended June 30, 2007, the Company transferred its entire portfolio of held-to-maturity mortgage-backed securities to available for sale to meet the additional liquidity needs associated with increasing commercial banking activities.

The Company's credit quality remains excellent, as non-performing assets were \$520,000, or 0.07% of total assets, at June 30, 2007, compared to \$30,000, or 0.004% of total assets, at June 30, 2006. The allowance for loan losses was \$2.7 million, or 0.56% of gross loans, at June 30, 2007 compared to \$3.2 million, or 0.64% of gross loans, at June 30, 2006. Prior to March 31, 2007, the allowance for loan losses included the estimated loss from unfunded loan commitments. The preferred accounting method is to separate the unfunded loan commitments from the disbursed loan amounts and record the unfunded loan commitment portion as a liability. At March 31, 2007, the reserve for unfunded loan commitments of \$192,000 was reclassified to other liabilities on the Consolidated Balance Sheet.

Deposits decreased \$20.8 million, or 5%, to \$418.7 million at June 30, 2007 compared to \$439.5 million at June 30, 2006. Demand deposits and savings accounts decreased \$14.2 million, or 7%, as customers migrated towards higher rate deposit products the past year. Noninterest-bearing demand deposits decreased \$14.4 million, or 30%, to \$34.4 million at June 30, 2007, compared to \$48.8 million at June 30, 2006. A significant portion of the decrease in noninterest-bearing demand deposits was the result of a single commercial relationship that reduced outstanding balances by approximately \$7.1 million. Interest-bearing demand deposits increased \$1.1 million, or less than 1%, to \$133.8 million at June 30, 2007, compared to \$132.7 million at June 30, 2006. Certificates of deposit decreased \$6.5 million, or 3%, to \$227.1 million at June 30, 2007, compared to \$233.6 million at June 30, 2006. The decrease in certificates of deposit was primarily the result of the Bank choosing not to match rates offered by local competitors that in some instances exceeded the Bank's alternative funding sources. Advances from the Federal Home Loan Bank ("FHLB") decreased \$8.4 million, or 4%, to \$189.3 million at June 30, 2007 compared to \$197.7 million at June 30, 2006. The Company utilizes advances from the FHLB as an alternative funding source to retail deposits in order to manage funding costs, manage interest rate risk and to leverage the Balance Sheet.

Stockholders' equity increased \$4.0 million, or 4%, to \$110.0 million at June 30, 2007, compared to \$106.0 million at June 30, 2006. The increase was primarily the result of \$5.7 million in net income for the period, \$801,000 in earned employee stock ownership plan ("ESOP") shares, \$1.0 million in equity compensation and \$854,000 proceeds from the exercise of stock options, offset by \$1.3 million of cash dividends paid to stockholders and \$3.2 million increase in unrealized losses on securities. During the quarter ended June 30, 2007, the Company transferred its entire portfolio of held-to-maturity mortgage-backed securities to available for sale for additional liquidity purposes. As a result, stockholders' equity was decreased by the securities unrealized holding loss of \$1.9 million at the date of transfer. The Company's book value per share as of June 30, 2007 was \$7.22 per share based upon 15,232,243 outstanding shares of common stock.

### **About the Company**

Home Federal Bancorp, Inc. is a federally chartered savings and loan holding company headquartered in Nampa, Idaho. It is the subsidiary of Home Federal MHC, a federally chartered mutual holding company, and the parent company of Home Federal Bank, a federally chartered savings bank that was originally organized as a building and loan association in 1920. The Company serves the Treasure Valley region of southwestern Idaho that includes Ada, Canyon, Elmore and Gem Counties, through 15 full-service banking offices and two mortgage loan centers. The Company's common stock is traded on

**Home Federal Bancorp, Inc.**
