• Please note that all financial data is consolidated and comprises that of Turkcell Iletisim Hizmetleri A.S. (the “Company”, or “Turkcell”) and its subsidiaries and associates (together referred to as the “Group”), unless otherwise stated.

- As previously announced, starting from Q115, we now have three reporting segments:

- o “Turkcell Turkey” which comprises all of our telecom related businesses in Turkey (as used in our previous releases, this term covered only mobile businesses). All non-financial data presented in this press release is unconsolidated and comprises Turkcell Turkey only figures, unless otherwise stated. The terms “we”, “us”, and “our” in this press release refer only to Turkcell Turkey, except in discussions of financial data, where such terms refer to the Group, and except where context otherwise requires.

- o “Turkcell International” which comprises all of our telecom related businesses outside of Turkey.

o

“Other subsidiaries” which is mainly comprised of our information and entertainment services, call center business revenues, financial services revenues and inter-business eliminations. Call centers were previously included in Turkcell Turkey but are, with effect from the fourth quarter of 2015, now included in “Other subsidiaries”. We have made this change because we believe that our third party call center revenues are not telecom related. All figures presented in this document for prior periods have been restated to reflect this change.

- In this press release, a year-on-year comparison of our key indicators is provided and figures in parentheses following the operational and financial results for March 31, 2016 refer to the same item as at March 31, 2015. For further details, please refer to our consolidated financial statements and notes as at and for March 31, 2016, which can be accessed via our website in the investor relations section ([www.turkcell.com.tr](http://www.turkcell.com.tr)).
- With effect from Q4 2015, our financial statements are presented in TRY only, the currency in which we recognize the majority of our revenues and expenses. We will no longer present financial statements in USD. This change allows us align our Turkish and US reporting.
- In the tables used in this press release totals may not foot due to rounding differences. The same applies for the calculations in the text.
- Year-on-year and quarter-on-quarter percentage comparisons appearing in this press release reflect mathematical calculation.

## First Quarter 2016 Results

## COMMENTS BY KAAAN TERZIOGLU, CEO

Turkcell had a solid start to 2016, focused on data and digital services, following a customer centric approach with differentiation through 4.5G

We made a strong start to 2016, in line with our plans. We registered all-time-high first quarter revenue and EBITDA, both at the Turkcell Turkey and Turkcell Group level. Turkcell Turkey, comprising 91% of Group revenues, continued its double-digit growth at 10.0% year-on-year, recording an EBITDA margin of 31.3%. Group revenues rose 8.3% to TRY3.2 billion, while EBITDA increased 8.1% to TRY1.0 billion, achieving a 31.1% EBITDA margin. Proforma Group net income<sup>1</sup> rose by 15.1% to TRY544 million, while net income as per IFRS increased 298.8% to TRY563 million.

In the first quarter of 2016, our key agenda item was the launch of 4.5G services on April 1st, which will underpin Turkey's digital transformation. The Turkcell team has established a strong 4.5G network and made mobile broadband with 4.5G speed available in 81 cities with a population coverage of over 70%, within a short period of time. And since the launch, Turkcell customers have registered high demand for 4.5G. As of today 4.5G customers have reached 5.0 million<sup>2</sup>, while 4.5G data traffic on our network reached 22%.

We have started to implement our action plans across the dealer network, at our call center and on digital channels to meet all our customers' needs through a single point of service with offers that bolster Turkcell's positioning as a converged communications and technology services company. We are working to provide our customers a unique convergence experience on the back of our strength in mobile and fixed services. In this regard, having declared a list of ten principles, we are using every means to ensure customer satisfaction.

#### Turkcell Turkey: Continued growth in Postpaid, Fiber and TV

In the first quarter of 2016, the total number of subscribers in the five countries where we have direct operations reached 50.8 million, of which 35.2 million<sup>3</sup> were in Turkey. Turkcell continued to gain postpaid, fiber and TV subscribers in the quarter. Postpaid customers rose by 1.2 million year on year, reaching 50% of our subscriber base. Fiber subscribers rose by 159 thousand year-on-year to 935 thousand, while total fixed subscribers amounted to 1.6 million. Turkcell TV+, which continues its rapid growth with 514 thousand yearly increase, reached 679 thousand total subscribers.

In accordance with our convergence strategy, the mobile triple play ratio, which includes voice, data and service users reached 17%<sup>4</sup> while multiplay with TV service users increased to 30% of fiber residential customers.

Mobile ARPU rose by 8.8% to TRY24.7 and fixed residential ARPU rose 6.8% to TRY50.3 in the first quarter of 2016 due to a larger postpaid subscriber base, and increased data and services revenues.

#### Turkcell Consumer Financing solution to our customers' technology needs

In March, our consumer financing company commenced operations across Turkey to facilitate the financing of our customers' technology needs, and to improve the Group balance sheet, which is among our strategic priorities. Within a short period of time, Turkcell Consumer Financing Company has provided more than 400 thousand loans of approximately TRY500 million worth and supported the penetration of smart devices. Indeed, smartphone penetration on our network rose by 13 percentage points to 55% year-on-year. With the increase in the number of

smartphones, our data and service revenues grew 31% to TRY1.2 billion year-on-year, and accounted for 42% of Turkcell Turkey revenues.

First Quarter 2016 Results

Additionally, through our mobile payment platform, named Paycell, we provide our customers various alternative means of payment, including via Turkcell invoice. Over the past 12 months, this platform has seen 16 million transactions amounting to TRY440 million. Paycell, redefined with advanced technological capabilities, will serve both Turkcell and non-Turkcell customers.

We are opening services to all-access, providing globally competitive services

Our innovative services continued to expand rapidly during this quarter as well. We opened BiP, Turkcell TV+, Smart Storage, Goals on Your Mobile and our renamed music service fizy, to all-access.

Our new generation communication platform BiP has been downloaded 7.5 million times to date, and in 192 countries. BiP is one of the world's most innovative applications with 39% of its users being from other operators.

Smart Storage, the most widely used personal cloud service in Turkey, has been downloaded 2.6 million times, while downloads on Turkey's most popular music platform, fizy, have reached 5.7 million. Meanwhile, Goals on Your Mobile services has been downloaded 2.1 million times. As a result, our service revenues increased 57.2% year-on-year.

We are advancing in line with our plans in 2016

Having seen a solid start to the year, we believe that we can achieve our 2016 targets by providing a strong 4.5G network, along with our converged services. We would like to congratulate the Turkcell team and all of our stakeholders for their contribution to our success, and to thank our Board of Directors for their continued support. We would also like to express our gratitude towards our customers, who have shown their trust in us throughout our success story.

(1) Including depreciation and amortization expenses.

(2) EBITDA is a non-GAAP financial measure. See page 13 for the reconciliation and an explanation of how we calculate Adjusted EBITDA to net income.

(3) EBIT is a non-GAAP financial measure and is equal to EBITDA minus depreciation and amortization expenses.

(4) We use “proforma net income” as a means of presenting our net income net of certain non-operating items and items that we believe are non-recurring. We define “proforma net income” in this document as net Income excluding FX gain / (loss) (including tax and minority impact), interest Income on time deposits of Turkcell Iletisim Hizmetleri, share of profit of equity accounted investees (Fintur), and one-off items. Please note that this is a non-GAAP measure and that we may in future presentations change the scope of items that we deduct from net income to arrive at “proforma net income.”

Revenues of the Group rose by 8.3% year-on-year.

Turkcell Turkey revenues, comprising 91% of Group revenues, grew by 10.0% to TRY2,928 million (TRY2,662 million) due to a 10.0% rise in consumer segment revenues to TRY2,338 million (TRY2,124 million) and an 8.7% increase in corporate segment revenues to TRY525 million (TRY483 million).

- Consumer and corporate segment revenues of Turkcell Turkey in total rose by 9.8%:

## First Quarter 2016 Results

-Voice revenues fell 4.1% to TRY1,398 million (TRY1,459 million) in line with the global trend.

-Data & services revenues, at 42% of Turkcell Turkey revenues, rose by 31.1% to TRY1,229 million (TRY937 million).

Data revenues grew by 26.4% to TRY1,003 million (TRY794 million). This was driven by a 25.8% rise in mobile broadband and 28.4% increase in fixed broadband revenues with higher smartphone penetration, more data users and a rise in data consumption.

Services and solutions revenues rose by 57.2% to TRY226 million (TRY144 million) mainly due to increased usage of Turkcell TV and fizy, along with other mobile services.

-SMS revenues fell 2.9% to TRY132 million (TRY136 million). The slowdown in SMS revenue decline was driven by higher bundle offer penetration.

-Other revenues comprising mainly hardware and software sales rose by 37.0% to TRY103 million (TRY75 million).

- Wholesale revenues grew by 13.9% to TRY81 million (TRY71 million).

Turkcell International revenues, constituting 6% of Group revenues, rose by 2.1% to TRY197 million (TRY193 million), turning to positive growth after 7 quarters of year-on-year decline.

Other subsidiaries' revenues, comprising 3% of Group revenues, which includes information and entertainment services in Turkey and Azerbaijan, call center revenues and revenues from financial services declined by 18.0% to TRY101 million (TRY123 million), due to lower revenues from Azerbaijan, partly driven by currency devaluation.

Direct cost of revenues rose to 62.6% (61.4%) as a percentage of revenues, mainly due to the rise in depreciation and amortization expenses (0.9pp) along with increase in various other cost items (0.3pp).

Administrative expenses rose to 5.5% (4.7%) as a percentage of revenues, mainly due to various cost items including new headquarters rental expense and performance related payments to personnel.

Selling and marketing expenses fell by 1.1pp to 14.9% (16.0%) as a percentage of revenues, driven by the decline in selling expenses (0.9pp) with our value focused customer acquisition strategy and other costs items (1.1pp). This was despite the rise in marketing expenses (0.9pp), mainly due to 4.5G launch costs.

EBITDA\*rose by 8.1% year-on-year, while the EBITDA margin was at 31.1% (31.1%). The decline in selling and marketing expenses of 1.1pp was offset by the increase in direct cost of revenues (excluding depreciation and amortization) of 0.3pp and administrative expenses of 0.8pp.

- Turkcell Turkey's EBITDA rose by 10.6% to TRY916 million (TRY828 million), while the EBITDA margin improved by 0.2pp to 31.3% (31.1%).
- Turkcell International EBITDA grew 0.9% to TRY54 million (TRY53 million), despite the impact of year-on-year devaluation in Ukraine and Belarus, while the EBITDA margin was at 27.2% (27.5%).

-

The EBITDA of other subsidiaries declined by 30.0% to TRY32 million (TRY46 million), mainly on lower revenues in Azerbaijan.

Net finance income of TRY166 million (net finance expense of TRY483 million) was recorded in Q116. This was mainly driven by lower translation losses of TRY5 million (TRY698 million) registered in Q116. This positive impact more than offset the decline in interest income from time deposits, due to a lower cash balance, and the rise in interest expense in relation to loans and 4.5G payables. Please see Appendix A for translation gain and loss details.

Income tax expense declined 38.8% year-on-year. Please see Appendix A for details.

## First Quarter 2016 Results

(\*)EBITDA is a non-GAAP financial measure. See page 13 for the reconciliation of an explanation of how we calculate Adjusted EBITDA to net income.

Net income of the Group as per IFRS rose 298.8% to TRY563 million (TRY141 million) in Q116 year-on-year. This was mainly driven by higher EBITDA, lower translation losses and tax expense, despite the decline in interest income on time deposits, a lower contribution from Fintur and increased interest expense on loans and 4.5G payables. Proforma net income\* rose 15.1% to TRY544 million (TRY473 million) in Q116. Please see Appendix A for a reconciliation of Group proforma net income to net income per IFRS.

Total debt as of March 31, 2016 declined to TRY4,028 million from TRY4,214 million as of December 31, 2015, in consolidated terms. The decrease in debt balance was mainly due to Turkcell Turkey's loan payments.

- Turkcell Turkey's debt balance was TRY3,630 million, of which TRY1,610 million (US\$568 million) was denominated in US\$, TRY1,651 (EUR515 million) in EUR and the remaining TRY369 million in TRY.
  - The debt balance of lifecell was TRY393 million, denominated in UAH.
  - BeST had a debt balance of TRY5 million, denominated in BYR.

TRY1,795 million of our consolidated debt is set at a floating rate, while TRY655 million will mature within less than a year. (Please note that the figures in parentheses refer to US\$ or EUR equivalents).

Cash flow analysis: Capital expenditures, including non-operational items, amounted to TRY738 million in Q116. The net change in debt mainly relates to Turkcell Turkey loan payments. The cash flow item noted as "other" includes regulatory fee payments (TRY491 million) and the negative impact of the change in working capital (TRY195 million).

In Q116, operational capital expenditures at the Group level stood at 20%\*\* of total revenues.

(1) As per our churn policy, prepaid subscribers are disconnected from the system if they do not top-up above TRY10 during a nine month period. Additionally, in the first quarter of 2016, 196 thousand subscriptions which had not topped-up at all within the stipulated period were also disconnected.

Mobile customers in Turkey declined by 673 thousand during the quarter to 33.3 million in total, mainly on losses in the more price-sensitive prepaid segment. We continued to disconnect subscriptions that had not topped-up at all within the stipulated period, which amounted to 196 thousand during the first quarter and reached 575 thousand in total in the last two quarters. Meanwhile, the postpaid customer base continued to expand by 124 thousand quarterly net additions to 16.7 million, to 50.1% (45.3%) of the total.

The fixed customer base reached 1.6 million supported by a strong fiber network, dedicated sales force and customer care. We recorded 61 thousand quarterly net additions, of which 36 thousand were fiber and 25 thousand were ADSL subscribers. The Turkcell TV platform reached 268 thousand customers on 44 thousand quarterly net additions. Including mobile TV and web TV users, Turkcell TV customers amounted to 679 thousand.

Mobile churn improved by 0.2pp year-on-year on the back of value focused customer acquisitions and targeted retention actions.

Mobile ARPU rose by 8.8% year-on-year with the continued favorable change in subscriber mix, our upsell strategy and a focus on high value customer groups, as well as increased package penetration. Fixed ARPU increased by 6.8% year-on-year with growth of multiplay customers with TV1, comprising 30% of total residential fiber customers.

Mobile MoU rose by 8.1% driven by our increased postpaid base and upsell strategy.

## First Quarter 2016 Results

Smartphone penetration on our network reached 55% as we registered 5142 thousand quarterly net additions. Accordingly, there were 16.6 million smartphones on our network at the end of the quarter, where 42% are 4.5G enabled.

(1) Multiplay customers with TV: Internet + TV users & internet + TV + voice users

(2) Approximately 80 thousand of these smartphone net additions were due to an adjustment in relation to devices which were not previously classified as smartphones.

(1) We may occasionally offer campaigns and tariff schemes that have an active subscriber life differing from the one that we normally use to deactivate subscribers and calculate churn.

(2) Active subscribers are those who in the past three months made a revenue generating activity.

(\*) Since July 10, 2015, we hold a 100% stake in lifecell.

lifecell revenues grew by 6.9% in local currency terms reflecting rising mobile broadband revenues on the back of 3G+ services and increased smartphone tariff subscriptions with higher ARPU. lifecell's EBITDA rose by 8.7% in local currency terms leading to an EBITDA margin improvement of 0.5pp to 31.4%, driven by effective cost management efforts and an increased share of mobile broadband in the revenue mix of lifecell. Meanwhile, the 4.9pp quarter-on-quarter decline in EBITDA margin was due to increased network related costs and marketing expenses.

In Q116, lifecell's revenues in TRY terms rose by 1.9% year-on-year turning to positive growth following a series of quarters of declining revenue trend. Meanwhile, lifecell's EBITDA in TRY terms grew by 3.6%.

lifecell has continued its 3G+ network roll-out, reaching 16 regional cities and smaller towns in 49 districts. 3G+ adoption momentum continued, reaching 2.3 million three-month active data users. Meanwhile, with a smartphone penetration of 48%, lifecell has almost doubled data usage per user post introduction of 3G+. lifecell's investment in

3-carrier technology allows it to provide the fastest 3G speed of 63.3 Mbps in Ukraine

In Q116, lifecell's three-month active subscriber base declined to 10.4 million on 199 thousand quarterly net losses. This was mainly due to increased competition and tension in the eastern part of the country, which led to temporary interruptions to the lifecell network.

Blended ARPU (3-month active) rose by 5.2% driven by increased mobile broadband usage. MoU (12-month active) fell by 9.3% due to changing consumer behavior.

(\*)BeST, in which we hold an 80% stake, has operated in Belarus since July 2008.

BeST registered solid year-on-year revenue growth of 30.7% in Q116 in local currency terms with the increasing active subscriber base and increased voice and terminal revenues. EBITDA margin improved by 1.5pp to 1.7% (0.2%), mainly driven by top-line growth and strict cost management.

In TRY terms, its performance remained impacted by yearly devaluation of the local currency. Revenues rose by 9.3% to TRY33 million (TRY30 million), while EBITDA improved to TRY0.5 million (TRY0.1 million).

(\*) KKTCELL, in which we hold a 100% stake, has operated in Northern Cyprus since 1999.

KKTCELL's revenues increased by 3.2% year-on-year to TRY32 million (TRY31 million), reflecting strong mobile broadband growth driven by higher data demand. EBITDA declined by 7.4% to TRY11 million (TRY12 million) leading to an EBITDA margin of 34.8% (38.9%). This was driven by regulatory amendment regarding the termination rates and additional frequency fees.

Fintur's consolidated revenues declined by 50.1% year-on-year, mainly due to tough competitive environment especially in Kazakhstan and pressure on currencies due to macroeconomic challenges.

## First Quarter 2016 Results

Fintur's subscribers declined to 16.8 million during the quarter driven by the decrease in Kcell subscribers due to the competitive environment. The contribution of Fintur to Group's net income decreased to US\$5 million (US\$38 million) year-on-year mainly driven by significant negative currency effects in reported figures and lower earnings impacted by negative revenue development in the several markets.

**RECONCILIATION OF NON-GAAP FINANCIAL MEASUREMENTS:** We believe Adjusted EBITDA, among other measures, facilitates performance comparisons from period to period and management decision making. It also facilitates performance comparisons from company to company. Adjusted EBITDA as a performance measure eliminates potential differences caused by variations in capital structures (affecting interest expense), tax positions (such as the impact of changes in effective tax rates on periods or companies) and the age and book depreciation of tangible assets (affecting relative depreciation expense). We also present Adjusted EBITDA because we believe it is frequently used by securities analysts, investors and other interested parties in evaluating the performance of other mobile operators in the telecommunications industry in Europe, many of which present Adjusted EBITDA when reporting their results.

Our Adjusted EBITDA definition includes Revenue, Direct Cost of Revenue excluding depreciation and amortization, Selling and Marketing expenses and Administrative expenses, but excludes translation gain/(loss), finance income,

share of profit of equity accounted investees, gain on sale of investments, income/(loss) from related parties, minority interest and other income/(expense).

Nevertheless, Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation from, or as a substitute for analysis of, our results of operations, as reported under IFRS. The following table provides a reconciliation of Adjusted EBITDA, as calculated using financial data prepared in accordance with IFRS as issued by the IASB, to net profit, which we believe is the most directly comparable financial measure calculated and presented in accordance with IFRS as issued by the IASB.

b) Comparative Information and Revision of Prior Period Financial Statements

The condensed interim consolidated financial statements of the Group have been prepared with the prior periods on a comparable basis in order to give consistent information about the financial position and performance. If the presentation or classification of the financial statements is changed, in order to maintain consistency, the financial statements of the prior periods are also reclassified in line with the related changes.

(c) New standards and interpretations

(i) Amendments to IFRSs affecting amounts reported and/or disclosures in the consolidated financial statements

None.

(ii) Standards, amendments and interpretations applicable as at 31 March 2016

-Amendment to IFRS 11, “Joint arrangements” on acquisition of an interest in a joint operation is effective from annual periods beginning on or after 1 January 2016. This amendment adds new guidance on how to account for the acquisition of an interest in a joint operation that constitutes a business. The amendments specify the appropriate accounting treatment for such acquisitions.

-Amendments to IAS 16, “Property, plant and equipment”, and IAS 41, “Agriculture”, regarding bearer plants are effective from annual periods beginning on or after 1 January 2016. These amendments change the financial reporting for bearer plants, such as grape vines, rubber trees and oil palms. It has been decided that bearer plants should be accounted for in the same way as property, plant and equipment because their operation is similar to that of manufacturing. Consequently, the amendments include them within the scope of IAS 16, instead of IAS 41. The produce growing on bearer plants will remain within the scope of IAS 41.

-Amendment to IAS 16, “Property, plant and equipment” and IAS 38, “Intangible assets”, on depreciation and amortization are effective from annual periods beginning on or after 1 January 2016. In this amendment, it has clarified that the use of revenue based methods to calculate the depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the

consumption of the economic benefits embodied in the asset. It is also clarified that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset.

-IFRS 14 “Regulatory deferral accounts” is effective from annual periods beginning on or after 1 January 2016. IFRS 14, “Regulatory deferral accounts” permits first-time adopters to continue to recognise amounts related to rate regulation in accordance with their previous GAAP requirements when they adopt IFRS. However, to enhance comparability with entities that already apply IFRS and do not recognise such amounts, the standard requires that the effect of rate regulation must be presented separately from other items.

3. Significant accounting policies (continued)

(ii) Standards, amendments and interpretations applicable as at 31 March 2016 (continued)

-Amendments to IAS 27, "Separate financial statements" on the equity method is effective from annual periods beginning on or after 1 January 2016. These amendments allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements.

-Amendments to IFRS 10, "Consolidated financial statements" and IAS 28, "Investments in associates and joint ventures" are effective from annual periods beginning on or after 1 January 2016. These amendments address an inconsistency between the requirements in IFRS 10 and those in IAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognised when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary.

-Annual improvements 2014 are effective from annual periods beginning on or after 1 January 2016. These set of amendments impacts 4 standards:

- IFRS 5, "Non-current assets held for sale and discontinued operations" regarding methods of disposal.
- IFRS 7, "Financial instruments: Disclosures", (with consequential amendments to IFRS 1) regarding servicing contracts.
- IAS 19, "Employee benefits" regarding discount rates.
- IAS 34, "Interim financial reporting" regarding disclosure of information.

-Amendment to IAS 1, "Presentation of financial statements" on the disclosure initiative is effective from annual periods beginning on or after 1 January 2016, these amendments are as part of the IASB initiative to improve presentation and disclosure in financial reports

-Amendment to IFRS 10 "Consolidated financial statements" and IAS 28, "Investments in associates and joint ventures" are effective from annual periods beginning on or after 1 January 2016. These amendments clarify the application of the consolidation exception for investment entities and their subsidiaries.

3. Significant accounting policies (continued)

(iii) Standards, amendments and interpretations effective after 31 March 2016:

-IAS 7 “Statement of Cash flows” is effective from annual periods beginning on or after 1 January 2017. The improvements are part of the Board’s Disclosure Initiative. The amendments require companies to provide information about changes in their financing liabilities and come as a response to requests from investors for information that helps them better understand changes in a company’s debt. The amendments will help to evaluate changes in liabilities arising from financing activities, including changes from cash flows and non-cash changes (such as foreign exchange gains or losses).

-IAS 12 “Income Taxes” is effective from annual periods beginning on or after 1 January 2017. The amendments clarify the accounting for deferred tax where an asset is measured at fair value and that fair value is below the asset’s tax base. It also clarify certain other aspects of accounting for deferred tax assets.

-IFRS 15 “Revenue from contracts with customers” is effective from annual periods beginning on or after 1 January 2018. IFRS 15, “Revenue from contracts with customers” is a converged standard from the IASB and FASB on revenue recognition. The standard will improve the financial reporting of revenue and improve comparability of the top line in financial statements globally.

-IFRS 9 “Financial instruments” is effective from annual periods beginning on or after 1 January 2018. This standard replaces the guidance in IAS 39. It includes requirements on the classification and measurement of financial assets and liabilities; it also includes an expected credit losses model that replaces the current incurred loss impairment model.

-IFRS 16 “Leases” is effective from annual periods beginning on or after 1 January 2019, with earlier application permitted if IFRS 15, “Revenue from Contracts with Customers”, is also applied. New standard requires lessees to recognise a lease liability reflecting future lease payments and a ‘right-of-use asset’ for virtually all lease contracts. The IASB has included an optional exemption for certain short-term leases and leases of low-value assets; however, this exemption can only be applied by lessees. For lessors, the accounting stays almost the same.

The Group is evaluating the effects of these standards on the condensed interim consolidated financial statements.

4. Operating Segments

The Group has two main reportable segments in accordance with its integrated communication and technology services strategy as Turkcell Turkey and Turkcell International. Some of these strategic segments offer the same types of services, however they are managed separately because they operate in different geographical locations and are affected by different economic conditions.

Turkcell Turkey reportable segment includes the operations of Turkcell, Superonline İletişim Hizmetleri A.S. (“Turkcell Superonline”), Turkcell Satis ve Dagitim Hizmetleri A.S. (“Turkcell Satis”), group call center operations of Global Bilgi Pazarlama Danisma ve Cagri Servisi Hizmetleri A.S. (“Turkcell Global Bilgi”), Turkcell Bilisim Servisleri A.S. (“Turktell”), Turkcell Teknoloji Arastirma ve Gelistirme A.S. (“Turkcell Teknoloji”), Turkcell Interaktif Dijital Platform ve Icerik Hizmetleri A.S. (“Turktell Interaktif”), Kule Hizmet ve Isletmecilik A.S. (“Global Tower”), Rehberlik Hizmetleri Servisi A.S. (“Rehberlik”), Turkcell Odeme Hizmetleri A.S. (“Turkcell Odeme”), Turkcell Gayrimenkul Hizmetleri A.S. (“Turkcell Gayrimenkul”). Turkcell International reportable segment includes the operations of Kibris Mobile Telekomunikasyon Limited Sirketi (“Kibris Telekom”), Eastasia, Euroasia, lifecell, Beltur, Beltel, Belarusian Telecom, UkrTower, Global LLC, Turkcell Europe, Lifetech LLC and Fintur Holdings B.V. (“Fintur”). The operations of these legal entities aggregated into one reportable segment as the nature of services are similar and most of them share similar economic characteristics. Other reportable segment mainly comprises the information and entertainment services in Turkey and Azerbaijan, non-group call center operations of Turkcell Global Bilgi and Turkcell Finansman AS (“TFS”).

In first, second and third quarter of the year 2015, the operations of Turkcell Global Bilgi were included in Turkcell Turkey reportable segment. Since the Group changed its reportable segments which are the dominant source of information to evaluate the performance and to allocate resources in the fourth quarter of 2015, group call center operations of Global Bilgi were included in Turkcell Turkey reportable segment whereas non-group call center operations of Global Bilgi were included in other reportable segment. Corresponding information for prior years have been also restated in the current period according to the new reportable segments. Since the assets and liabilities of Turkcell Global Bilgi could not be allocated to group and non-group operations and are mainly related to group operations, total assets and liabilities of Turkcell Global Bilgi are reported under Turkcell Turkey reportable segment except trade receivables.

Information regarding the operations of each reportable segment is included below. Adjusted EBITDA is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Adjusted EBITDA definition includes revenue, direct cost of revenues excluding depreciation and amortization, selling and marketing expenses and administrative expenses.

Adjusted EBITDA is not a financial measure defined by IFRS as a measurement of financial performance and may not be comparable to other similarly-titled indicators used by other companies. Reconciliation of Adjusted EBITDA to consolidated profit before income tax and profit for the period in the accompanying notes.

## 5. Seasonality of operations

The Turkish mobile communications market is affected by seasonal peaks and troughs. Historically, the effects of seasonality on mobile communications usage had positively influenced the Company's results in the second and third quarters of the fiscal year and negatively influenced the results in the first and fourth quarters of the fiscal year. Recently, however, due to changing market dynamics, such as the Information Technologies and Communications Authority ("ICTA")'s intervention in tariffs and increasing competition in the Turkish telecommunications market, the effects of seasonality on the Company's subscribers' mobile communications usage has decreased. Local and religious holidays in Turkey also affect the Company's operational results.

6. Finance income and costs

Net finance income or expense amounts to TL 166,247 and TL (483,429) for the three months ended 31 March 2016 and 2015, respectively.

The foreign exchange income amounting to TL 9,863 and TL 349,546 have been presented on net basis with foreign exchange losses for the three months ended 31 March 2016 and 2015, respectively.

Net finance income for the three months ended 31 March 2016 is mainly attributable to interest income from contracted handset sales.

Net finance expense for the three months ended 31 March 2016 is mainly attributable to financing cost of loans and borrowings and payable for 4.5G license.

Net foreign exchange loss for the three months ended 31 March 2015 is mainly attributable to the foreign exchange losses in Belarusian Telecom operating in Belarus amounting to TL 337,768 and foreign exchange loss in lifecell operating in Ukraine amounting to TL 654,081. Foreign exchange losses from Belarusian Telecom and lifecell exclude foreign exchange losses arising in the foreign operations' individual financial statements which have been recognized directly in equity in the foreign currency translation differences in the consolidated financial statements in accordance with accounting policy for net investment in foreign operations.

7. Income tax expense

Effective tax rates are 20% and 258% for the three months ended 31 March 2016 and 2015, respectively.

Since it is not probable that taxable profit will be available against which the unused tax losses or unused tax credits of lifecell and Belarusian Telecom can be utilized, no deferred tax asset is recognized on any loss incurred as a result of Ukraine and Belarus.

When the effects of unused tax losses of lifecell and Belarusian Telecom are excluded, the effective tax rate is 20% for the three months ended 31 March 2015.

## 10. Investments in equity accounted investees

The Group's share of profit in its equity accounted investees for the three months ended 31 March 2016 and 2015 are TL 15,180 and TL 94,830, respectively.

The Company's investment in Fintur Holdings BV ("Fintur") amounts to TL 974,390 as at 31 March 2016 (31 December 2015: TL 981,939).

As of 26 February 2016, the Company has submitted a binding offer to acquire TeliaSonera's 58.55% stake in Fintur and its 24% direct stake in Kcell JSC (Kazakhstan).

## 11. Trade receivables and accrued income

	31 March 2016	31 December 2015
Undue assigned contracted receivables	2,178,877	2,216,010
Receivables from subscribers	1,222,656	1,218,126
Accrued income	411,164	393,049
Accounts and checks receivable	258,603	271,743
	4,071,300	4,098,928

Trade receivables are shown net of allowance for doubtful debts amounting to TL 867,384 as at 31 March 2016 (31 December 2015: TL 816,071). The change in allowance for trade receivables and due from related parties is disclosed in Note 16.

The undue assigned contracted receivables are the remaining portion of the assigned receivables from the distributors related to the handset campaigns which will be collected from subscribers in instalments by the Company. When monthly instalment is invoiced to the subscriber, related portion is transferred to "receivables from subscribers". The Company measures the undue assigned contracted receivables at amortized cost, bears the credit risk and recognizes interest income throughout the contract period.

The accrued income represents revenue accrued for subscriber calls (air-time) which have not been billed and will be billed within one year. Due to the volume of subscribers, there are different billing cycles; accordingly, an accrual is made at each period end to accrue revenue for rendered but not yet billed. Contracted receivables related to handset campaigns, which will be invoiced after one year is presented under non-current trade receivables amounting to TL 749,402 (31 December 2015: TL 834,833).

The Group's exposure to currency risks and impairment losses related to trade receivables are disclosed in Note 16.

## Fair values

Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

	Fair values			
	31 March 2016	31 December 2015	Fair Value hierarchy	Valuation Techniques
Consideration payable in relation to acquisition of Belarusian Telecom	(237,306 )	(235,281 )	Level 3	Net present value (*) Pricing models based on discounted cash flow analysis using the applicable yield curve
Currency swap contracts	(2,945 )	(2,290 )	Level 3	Pricing models based on discounted cash flow analysis using the applicable yield curve
Currency forward contracts	(26 )	216	Level 3	Pricing models based on discounted cash flow analysis using the applicable yield curve

There were no transfers between Level 2 and 3 in the period.

(\*)Discount rate of 4.5% was used for the present value calculation for the consideration payable in relation to acquisition of Belarusian Telecom as of 31 March 2016 (31 December 2015: 5.1%). Company management expects consideration payable to be paid during the first quarter of 2020 (31 December 2015: the first quarter of 2020).

Relationship of unobservable inputs to fair value is the higher the discount rate, the lower the fair value.

17. Guarantees and purchase obligations

As at 31 March 2016, outstanding purchase commitments with respect to the acquisition of property, plant and equipment, inventory and purchase of sponsorship, rent and advertisement services amount to TL 2,326,346 (31 December 2015: TL 2,752,139). Payments for these commitments are going to be made in a 5 year period.

As at 31 March 2016, the Group is contingently liable in respect of bank letters of guarantee obtained from banks given to customs authorities, private companies and other public organizations, provided guarantees to private companies and financial guarantees to subsidiaries totaling to TL 1,874,870 as at 31 March 2016 (31 December 2015: TL 2,058,810).

As at 31 March 2016, the amounts the Company has commitments regarding lifecell's 3G license purchases amounted to UAH 428,427 (equivalent to TL 46,300 as of 31 March 2016).

18. Commitments and Contingencies

The following disclosures comprise of material legal lawsuits, investigations and in-depth investigations against the Company.

18.1 Onerous Contracts

Universal Project, executed from 17 January 2013 by the Company, regarding setting up and operation of mobile communication infrastructure by the Ministry of Transport, Maritime Affairs and Communications in rural areas that are not in the coverage area, has ended as of 3 March 2016.

18.2 Dispute on Treasury Share Amounts

The Company pays Treasury Share to Undersecretariat of Treasury calculated over its telecommunication revenues. Undersecretariat of Treasury time to time claimed that the Company underpaid Treasury Share in the past and requested additional payments. The Company objected to these claims and initiated legal processes which are still pending. The maximum loss, excluding accrued interest, of the company arising from several disputes could be TL 339,385.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the period ended 31 March 2016 (31 December 2015: None).

18.3 Dispute on Special Communication Tax

Large Tax Payers Office levied Special Communication Tax and tax penalty on Turkcell in the amount of TL 211,056 principal and TL 316,583 totaling to TL 527,639 based upon the claim, stated on Tax Investigation Reports prepared for the years 2008-2012, that Turkcell should pay Special Communication Tax over the prepaid card sales made by

the distributors. Turkcell filed 60 lawsuits before the Tax Courts for the cancellation of each tax and tax penalty demand.

Respective Courts accepted 24 of the cases filed for the cancellation of the fined tax assessment prepared for the year 2008 and 2009. Large Taxpayer Office appealed the decisions. Turkcell replied this requests.

The Court partially accepted 12 of the cases filed for the cancellation of the fined tax assessment prepared for the year 2011. Turkcell appealed the decisions regarding the parts against Turkcell. The Large Tax Payers Office appealed the decisions regarding the parts against the Large Tax Payers Office. The Council of State rejected the stay of execution requests, made during the appeal process by Turkcell.

The Large Tax Payers Office has collected TL 80,355 (TL 77,480 and TL 2,875 overdue interest) calculated for the parts against Turkcell for the year 2011 by offsetting the receivables of Turkcell from Public Administrations.

18.3 Dispute on Special Communication Tax (continued)

The Court partially accepted 12 of the cases filed for the cancellation of the fined tax assessment prepared for the year 2010 (TL 65,950). The Company appealed the decisions regarding the parts against Turkcell.

The Court rejected the other 12 cases filed for the cancellation of the fined tax assessment (TL 122,802), related to the year 2012. Turkcell appealed the respective decisions.

In the case of payments, Turkcell shall pay the amounts subject to aforementioned lawsuits with their accrued interest. This interest would be calculated as a case by case basis. Accordingly, the interest that may be paid in some or all of the cases, could amount to a significant portion of the tax assessment.

Limited tax investigation has been performed for the year 2013, regarding the aforementioned case and any notification has been received regarding the result of the investigation by Turkcell.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the period ended 31 March 2016 (31 December 2015: None).

18.4 Investigation initiated by ICTA on subscription numbers and radio utilization and usage fees

ICTA commenced in-depth investigations, against the GSM operators, on the accuracy of the subscriber numbers report for the terms, 2004-2009, 2010-2011 and 2012 which are the essential for the payment of radio utilization and usage fees. As result of the investigations, ICTA imposed 3 dividual administrative fine to the Company in the total amount of TL 8,251. The administrative fines were paid within 1 month following the notification of the decision of ICTA, with 25% discount. The Company filed lawsuits for the cancellation of aforementioned administrative fines and ICTA's administrative acts implied on the Company for the collection of the radio utilization and usage fees which was claimed to have been paid deficiently. The cases are pending.

ICTA filed 4 lawsuits on 13 October 2014, 23 December 2014, 3 March 2015 and 11 April 2016 for the collection of the total amount of TL 196,383. The amount which was alleged that the Company paid deficiently by the ICTA decision took upon the investigation for the periods 2004 – 2009, 2010 – 2011, 2012 and July – December 2013 on the radio utilization and usage fees, with its accrued interest, which will be calculated. The Courts decided to take expert report for the cases dated 13 October 2014, 23 December 2014 and 3 March 2015. The Courts decided to consolidate the lawsuits filed by ICTA on 13 October 2014 and 23 December 2014. The cases are pending.

On the other hand, the related investigations on the same subjects for periods of 2013 and 2014 are currently pending and according to the inquiry of investigations which are notified to the Company, it is alleged that the amount of 21,315 TL have been paid deficiently. The inquiry of investigation for the period of 2013 was notified to the Company and the Company's written defense was submitted to ICTA within due date. The inquiry of investigation for the period

of 2014 was notified to the Company and Company's written defense will be submitted to ICTA within due date.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the period ended 31 March 2016 (31 December 2015: None).
