ITEM 5. OTHER EVENTS.

Honeywell published its third quarter 2001 financial results on October 24, 2001. Honeywell reported free cash flow of \$353 million, and stated that the events of September 11 had resulted in an abrupt and unprecedented decline in the aviation industry. In response, Honeywell has accelerated its cost-reduction actions and further accelerated efforts to improve performance. Census reductions are expected to total 15,800 by the end of the year. Honeywell's income statements for the three- and nine-month periods ended September 30, as well as the results of its business segments, are set forth below:

The following table sets forth the historical ratios of earnings to fixed charges of Honeywell for the periods indicated:

Nine Months Ended September 30,		Year Ended December 31,				
-----	-----	-----	-----	-----	-----	-----
2001	2000	2000	1999	1998	1997	1996
----	----	----	----	----	----	----
0.26(d)	5.73(c)	5.24(b)	6.74(a)	8.05	7.20	6.65

The ratio of earnings to fixed charges is generally computed by dividing the sum of net income, income taxes and fixed charges (net of capitalized interest) less undistributed equity income by fixed charges. Fixed charges represent gross interest and amortization of debt discount and expense and the interest factor of all rentals, consisting of an appropriate interest factor on operating leases.

- (a) Included in earnings for 1999 were merger, repositioning and other charges, a gain on the sale of our Laminate Systems business and a gain on the sale of our investment in AMP Incorporated common stock resulting in a net pretax charge of \$913 million. Excluding such charge, the ratio of earnings to fixed charges would have been 9.12.
- (b) Included in earnings for 2000 were repositioning, environmental and other charges and asset impairments, and a gain on the sale of the TCAS product line of Honeywell Inc. resulting in a net pretax charge \$854 million. Excluding such charge, the ratio of earnings to fixed charges would have been 6.66.
- (c) Included in earnings for the nine months 2000 were repositioning and other charges and asset impairments, and a gain on the sale of the TCAS product line of Honeywell Inc. resulting in a net pretax charge \$444 million. Excluding such charge, the ratio of earnings to fixed charges would have been 6.72.
- (d) Included in earnings for the nine months 2001 were repositioning and other charges, asset impairments and legal and environmental claims resulting in a net pretax charge \$2,254 million. Excluding such charge, the ratio of earnings to fixed charges would have been 5.86.
