**Table of Contents****Item 2.02 Results of Operations and Financial Condition.**

On January 21, 2010, Digi International Inc. ( Digi ) issued a press release regarding Digi's financial results for its first fiscal quarter ended December 31, 2009. A copy of Digi's press release is attached hereto as Exhibit 99.1.

The information contained in this Current Report shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act ), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

**NON-GAAP FINANCIAL MEASURES**

Certain information Digi intends to disclose on the conference call includes a non-GAAP financial measure, earnings before taxes, depreciation and amortization ( EBTDA ). A reconciliation of the EBTDA measure to the most directly comparable GAAP financial measure is included below.

Digi's management understands that there are material limitations on the use of non-GAAP measures. Non-GAAP measures are not substitutes for GAAP measures, such as operating income or net income, for the purpose of analyzing financial performance. The disclosure of the non-GAAP measure mentioned above does not reflect all charges and gains that were actually recognized by the Company. The non-GAAP measure is not prepared in accordance with, or an alternative for measures prepared in accordance with, generally accepted accounting principles and may be different from non-GAAP measures used by other companies. In addition, the non-GAAP measure is not based on any comprehensive set of accounting rules or principles. Management believes that the non-GAAP measure has limitations in that it does not reflect all of the amounts associated with Digi's results of operations as determined in accordance with GAAP and that the measure should only be used to evaluate Digi's results of operations in conjunction with the corresponding GAAP measures.

Digi's management believes that the presentation of EBTDA as a percentage of net sales, as well as the presentation of the increase in EBTDA compared to prior periods, is useful to investors because it provides a reliable and consistent approach to measuring Digi's performance from year to year and in assessing Digi's performance against other companies. Management uses EBTDA as a key performance indicator of how Digi is performing compared to prior periods and compared to its operating plan. In addition, EBTDA is also used by management as a metric for executive compensation, as well as incentive compensation for the rest of the employee base, and it is monitored quarterly for these purposes. Management uses the aforementioned non-GAAP measure to monitor and evaluate ongoing operating results and trends and to gain an understanding of the comparative operating performance of Digi. Management also believes that such information helps investors compare operating results and corporate performance exclusive of the impact of Digi's capital structure and the method by which assets were acquired. The use of EBTDA does not reflect Digi's cash expenditures, the cash requirements for the replacement of depreciated and amortized assets, or changes in cash requirements for Digi's working capital needs.

**Reconciliation of Net Income to Earnings before Taxes, Depreciation and Amortization**  
**(In thousands of dollars and as a percent of Net Sales)**
