Report of Independent Registered Public Accounting Firm

The Deferred Salary Savings Plan Committee

The Board of Directors

Univest Corporation of Pennsylvania:

We have audited the accompanying statements of net assets available for benefits of the Univest Corporation of Pennsylvania Deferred Salary Savings Plan (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule H, Line 4i Schedule of Assets (Held at End of Year) as of December 31, 2009, is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure Under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

(1) Description of Plan

The following brief description of the Univest Corporation of Pennsylvania Deferred Salary Savings Plan (the Plan) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

(a) General

The Plan is a deferred salary savings plan established June 23, 1982 and restated effective January 1, 2008, covering all employees of Univest Corporation of Pennsylvania and its wholly owned subsidiaries (the Corporation or the Employer) who have attained the age of 18. Employees can enter the Plan on the first day of the month following the fulfillment of the eligibility requirements. However, with respect to matching contributions, qualified non-elective contributions and discretionary profit-sharing contributions, employees are eligible to receive these contributions in the Plan after they have completed at least six months of service. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is administered by the Deferred Salary Savings Plan Committee appointed by the board of directors of the Corporation. The trustees have appointed Univest National Bank and Trust Company (the Bank), a wholly owned subsidiary of the Corporation, as investment manager of the Plan.

(b) Contributions

Participants may contribute a percentage of eligible compensation up to the Internal Revenue Code (IRC) maximum allowable limit for 2009 of \$16,500 if under age 50 and \$22,000 if over age 50. Participant contributions may be subject to additional limitations imposed by the IRC as detailed in the Plan.

The Employer makes a matching contribution of up to 50% of the participants' contributions under the plan provisions. Matching contributions are limited to the initial 6% of compensation a participant contributes. Additional amounts may be contributed at the election of the Corporation's board of directors. Participants may also contribute amounts representing distributions from other qualified plans (rollovers).

(c) Investment Options

Participants direct the investment of their contributions, matching contributions, qualified non-elective contributions and discretionary contributions into various investment options offered by the Plan. The Plan currently offers investments in the Corporation's common stock, registered investment companies and guaranteed interest accounts.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Employer's contribution, (b) Plan earnings (losses), and (c) an allocation of forfeitures of terminated participants' nonvested accounts attributable to the Employer's matching and discretionary contributions. Allocations are based on participant contributions or account balances, as defined in the Plan document.

Table of Contents

**UNIVEST CORPORATION OF PENNSYLVANIA
DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

(e) Vesting

Participants are considered fully vested at all times in their voluntary contributions, plus actual earnings (losses) thereon.

Vesting in the remainder of participant accounts is based upon the number of years of continuous service. A participant is 50% vested at the end of two years of service, 75% vested at the end of three years of service, and fully vested at the end of four years of service. Participants attaining their normal retirement age, participants who become disabled and beneficiaries of participants who die are entitled to 100% of participant's accrued benefits, regardless of credited service period.

(f) Payment of Benefits

The benefit to which a participant is entitled is that which can be provided from the participant's account. Benefits shall be paid in either a lump-sum payment or calculated periodic payments when payable, based upon the election of the participant and as specified in the Plan agreement. Generally, benefit payments must commence not later than the year in which a participant attains age 70^{1/2}.

(g) Participant Loans

Loans to participants from the Plan are not permitted.

(h) Plan Termination

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

(i) Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts that were unallocated to participants totaled \$2,315 and \$7,048, respectively. These amounts will be used to reduce future employer contributions. During 2009 and 2008, the Corporation used forfeited amounts to reduce employer contributions by \$13,028 and \$10,477, respectively.

DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

(2) Summary of Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual method of accounting in accordance with U.S. generally accepted accounting principles.

(b) Investment Valuation and Income Recognition

Investments are stated at fair value. The underlying securities in each registered investment company are listed on national securities exchanges and valued on the basis of year-end closing prices; securities traded in the over-the-counter market are valued at the closing price on the last business day of the year; and guaranteed interest accounts are valued at cost plus accrued interest which approximates fair value. Gain or loss on securities sold is based on average cost. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(c) Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(d) Expenses

The Corporation pays the costs of trust and other administrative services.

(e) Payment of Benefits

Benefit payments to participants are recorded when paid.

(f) Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued an Accounting Standard Codification Update for improving disclosures about fair value measurements. This update requires companies to disclose, and provide the reasons for, all transfers of assets and liabilities between the Level 1 and 2 fair value categories. It also clarifies that companies should provide fair value measurement disclosures for classes of assets and liabilities which are subsets of line items within the statement of financial position, if necessary. In addition, the update clarifies that companies are required to provide disclosures about the fair value techniques and inputs for assets and liabilities classified within Level 2 or 3 categories. The disclosure requirements prescribed by this update are effective for fiscal years beginning after December 31, 2009 or the year ending December 31, 2010 for the Plan. This update also requires companies to reconcile changes in Level 3 assets and liabilities by separately providing information about Level 3 purchases, sales, issuances and settlements on a gross basis. This provision of this update is effective for fiscal years beginning after December 15, 2010 or the year ending December 31, 2011 for the Plan. The adoption of this update is not expected to materially impact the Plan's fair value measurement disclosures.

Table of Contents

**UNIVEST CORPORATION OF PENNSYLVANIA
DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

In September 2009, the FASB issued an Accounting Standard Codification Update for fair value measurements and disclosures related to investments in certain entities that calculate net asset value per share or its equivalent. The update permits, as a practical expedient, a reporting entity to measure the fair value of an investment that is within the scope of the amendments in this update on the basis of the net asset value per share of the investment (or its equivalent) if the net asset value of the investment (or its equivalent) is calculated in a manner consistent with the measurement principles of this update as of the reporting entity's measurement date. The update also requires disclosures by major category of investment about the attributes of investments within the scope of the update. The update is effective for annual periods ending after December 15, 2009. The adoption of this update did not have a material impact on the Plan's financial statements as of December 31, 2009.

In June 2009, the FASB issued the Accounting Standards Codification (the ASC or the Codification) establishing the Codification as the single source of authoritative nongovernmental U.S. generally accepted accounting principles (GAAP). The Codification did not change current GAAP, but was intended to simplify user access to all authoritative GAAP by providing all the authoritative literature related to a particular topic in one place. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. On the effective date of the Codification, all existing accounting standard documents were superseded and all other accounting literature not included in the Codification was considered nonauthoritative, other than guidance issued by the SEC. The Codification was effective for annual reporting periods ending after September 15, 2009. The adoption of the Codification did not have a material impact on the Plan's financial statements as of December 31, 2009.

In April 2009, the FASB issued standards for determining fair value when the volume and level of activity for the asset or liability have significantly decreased and for identifying transactions that are not orderly. The standards were effective prospectively for annual reporting periods ending after June 15, 2009. The application of the provisions of these standards did not have a material impact on the Plan's financial statements as of December 31, 2009.

(3) Investments

Investments that represent 5% or more of the fair value of the Plan's net assets as of December 31, 2009 and 2008 are indicated below. The December 31, 2009 balances reported for the Federated Total Return Bond Fund and John Hancock Money Market Fund did not represent 5% or more of the fair value of the Plan's net assets as of December 31, 2009 but were shown for comparative purposes.

	At December 31,	
	2009	2008
Univest Corporation of Pennsylvania common stock	\$ 3,151,894	\$ 5,682,352
Federated Total Return Bond Fund	1,097,643	1,101,829
John Hancock Money Market Fund	913,883	1,228,163
John Hancock Lifestyle Balanced Fund	3,067,598	2,148,231
John Hancock Lifestyle Growth Fund	2,903,642	2,078,060

Table of Contents

**UNIVEST CORPORATION OF PENNSYLVANIA
DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

For the years ended December 31, 2009 and 2008, the Plan's investments, including investments purchased and sold, as well as held during the year appreciated (depreciated) in fair value as follows:

	For the Years Ended December 31,	
	2009	2008
Univest Corporation of Pennsylvania common stock	\$ (2,577,445)	\$ 1,950,104
Shares of registered investment companies	3,816,314	(5,479,460)
John Hancock guaranteed interest accounts	2,159	250
	\$ 1,241,028	\$ (3,529,106)

(4) Fair Value Disclosure

Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date. The Plan determines the fair value of its financial instruments based on the fair value hierarchy. The Plan maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's assumptions that the market participants would use in pricing the asset or liability based on the best information available in the circumstances. Three levels of inputs are used to measure fair value. A financial instrument's level within the fair value hierarchy is based on the lowest level of input significant to the fair value measurement.

Level 1 Valuations are based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

Level 2 Valuations are based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 Valuations are based on inputs that are unobservable and significant to the overall fair value measurement. Assets and liabilities utilizing Level 3 inputs include: financial instruments whose value is determined using pricing models, discounted cash-flow methodologies, or similar techniques, as well as instruments for which the fair value calculation requires significant management judgment or estimation.

Where quoted prices are available in an active market for identical instruments, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of investments with similar characteristics or discounted cash flows. In cases where there is limited activity or less transparency around inputs to the valuation, investments are classified within Level 3 of the valuation hierarchy.

Table of Contents

UNIVEST CORPORATION OF PENNSYLVANIA
DEFERRED SALARY SAVINGS PLAN

Notes to Financial Statements

December 31, 2009 and 2008

Following is a description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Common stock is valued at the closing price reported on the active market on which the individual securities are traded.

The Federated Total Return Bond Fund is a registered investment company which is valued at the net asset value (NAV) of shares on a market exchange as of the close of business at year end. The Plan had \$17,419,128 and \$11,801,668 of investments in shares of registered investment companies held through sub-accounts of a separate account of an insurance company at December 31, 2009 and 2008, respectively. The Plan has concluded that the NAV as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company approximates fair value of the investments. The investments are redeemable at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemptions rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in the market conditions, liquidity requirements, and the economic environment may significantly affect the NAV of the registered investment companies and, consequently, the fair value of the Plan's investments. The following are the major categories that comprise the investments in shares of the registered investment companies and the fair values as of December 31, 2009:

Conservative (a)	\$ 913,883
Income (b)	2,459,588
Growth and income (c)	4,512,294
Growth (d)	6,248,233
Aggressive growth (e)	2,753,924
Lifecycle (f)	531,207
 Total John Hancock registered investment companies	 \$ 17,419,129

a) Conservative
the safety of
principal is the
primary
objective and
may have a
secondary
objective of
income from
exposure to
short-term
securities or
certain types of
fixed contracts
and money
markets.

b)

Income a high level of current income is sought by broadly investing in fixed income securities through various sectors of the bond market and gaining exposure to various types of credit and interest rate risk.

c) Growth and Income seeks a balance between a high level of income and the growth of capital, with a higher degree of emphasis on growth from exposure to various equity allocations.

d) Growth pursues capital appreciation foremost by investing in equity securities across domestic and international markets, and across certain market capitalizations; may be exposed to all market risks.

e) Aggressive Growth rapid growth and

appreciation are the key objectives by utilizing domestic, international or emerging country equity markets and market capitalizations, including heavier concentrations or through riskier techniques than core growth strategies.

- f) Lifecycle model portfolios designed to provide a balance of growth, income and capital conservation through a mix of equity and fixed income exposures based on a participant's age and projected retirement date, adjusting asset allocations and associated risk levels with the objective of becoming more conservative as the target date approaches.

Guaranteed interest accounts are valued at cost plus accrued interest. Interest rates range from 0.15% to 1.40% at December 31, 2009 and from 2.40% to 3.45% at December 31, 2008.

Table of Contents

**UNIVEST CORPORATION OF PENNSYLVANIA
DEFERRED SALARY SAVINGS PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

The methods described previously may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the end of the reporting date.

The following table presents the fair value of the Plan's investments as of December 31, 2009 and 2008, classified using the fair value hierarchy:

	Fair Value Measurements at December 31, 2009			
	Level 1	Level 2	Level 3	Total
Investments:				
Cash money market account	\$ 170,081	\$	\$	\$ 170,081

Notes to Financial Statements

December 31, 2009 and 2008

The following tables provide a reconciliation of the beginning and ending balances for measurements in hierarchy Level 3 at December 31, 2009 and 2008:

	Balance at December 31, 2008	Total Realized Gains	Unrealized Gains relating to Instruments still held at the Reporting Date	Purchases	Sales	Balance at December 31, 2009
John Hancock guaranteed interest accounts	\$ 17,271	\$ 676	\$ 1,483	\$ 41,295	\$ (11,707)	\$ 49,018
Total Level 3 assets	\$ 17,271	\$ 676	\$ 1,483	\$ 41,295	\$ (11,707)	\$ 49,018

	Balance at December 31, 2007	Total Realized Gains	Unrealized Gains relating to Instruments still held at the Reporting Date	Purchases	Sales	Balance at December 31, 2008
John Hancock guaranteed interest accounts	\$ 462	\$ 112	\$ 138	\$ 16,559	\$	\$ 17,271
Total Level 3 assets	\$ 462	\$ 112	\$ 138	\$ 16,559	\$	\$ 17,271

(5) Parties-in-Interest Transactions

At December 31, 2009 and 2008, the Plan had interest-bearing deposits with the Bank of \$170,081 and \$8,223 respectively. In addition, the Plan holds common stock of the Corporation. At December 31, 2009 and 2008, the Plan held 179,800 and 176,800 shares, respectively of the Corporation's common stock and the fair value of this common stock was \$3,151,894 and \$5,682,352, respectively.

The Bank, a subsidiary of the Corporation, is the custodian of the Plan's investments in the common stock of the Corporation and the Federated Total Return Bond Fund.

(6) Income Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service (IRS) dated October 15, 2009, stating that the Plan and related trust is qualified under Section 401(a) of the Internal Revenue Code (IRC); therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is

qualified and the related trust is tax-exempt. Accordingly, no provision for income taxes was included in the accompanying financial statements.

(7) Risks and Uncertainties

The Plan has holdings in various investments including common stock of the Corporation, registered investment companies, and guaranteed accounts sponsored by an insurance company. These investments are exposed to various risks such as interest rate risk, market, and credit risk. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant account balances and the amounts recorded in the statement of net assets available for benefits.
