**CAPITAL SENIOR LIVING CORPORATION**  
**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**  
**June 30, 2010**

**1. BASIS OF PRESENTATION**

Capital Senior Living Corporation, a Delaware corporation (together with its subsidiaries, the Company), is one of the largest operators of senior living communities in the United States in terms of resident capacity. The Company owns, operates, develops and manages senior living communities throughout the United States. As of June 30, 2010, the Company operated 66 senior living communities in 23 states with an aggregate capacity of approximately 10,200 residents, including 32 senior living communities which the Company either owned or in which the Company had an ownership interest, 33 senior living communities that the Company leased and one senior living community it managed for a third party. As of June 30, 2010, the Company also operated one home care agency. The accompanying consolidated financial statements include the financial statements of Capital Senior Living Corporation and its wholly owned subsidiaries. All material intercompany balances and transactions have been eliminated in consolidation. The Company accounts for significant investments in unconsolidated companies, in which the Company has significant influence, using the equity method of accounting.

The accompanying consolidated balance sheet, as of December 31, 2009, has been derived from audited consolidated financial statements of the Company for the year ended December 31, 2009, and the accompanying unaudited consolidated financial statements, as of June 30, 2010 and 2009, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in the annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to those rules and regulations. For further information, refer to the financial statements and notes thereto for the year ended December 31, 2009 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 11, 2010.

In the opinion of the Company, the accompanying consolidated financial statements contain all adjustments (all of which were normal recurring accruals) necessary to present fairly the Company's financial position as of June 30, 2010, results of operations for the three and six months ended June 30, 2010 and 2009, respectively, and cash flows for the six months ended June 30, 2010 and 2009. The results of operations for the six months ended June 30, 2010 are not necessarily indicative of the results for the year ending December 31, 2010.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Investments in Joint Ventures*

The Company accounts for its investments in joint ventures under the equity method of accounting. The Company owns member interests in seven joint ventures. The Company has not consolidated these joint venture interests because the Company has concluded that the limited partners or the other members of each joint venture have substantive kick-out rights or substantive participating rights. Under the equity method of accounting, the Company records its investments in joint ventures at cost and adjusts such investments for its share of earnings and losses of the joint ventures.

*Development Guarantees*

The Company, on three joint venture developments, has guarantees that the communities will be completed and operated at budgeted costs approved by the joint venture members. These costs include the hard and soft construction costs and operating costs until each community reaches breakeven. The budgeted costs include contingency reserves for potential cost overruns and other unforeseen costs. The terms of these guarantees generally do not provide for a limitation on the maximum potential future payments. The Company has not made any payments under these guarantees. These joint ventures are currently in lease up and one of the joint ventures has exhausted all of its reserves under the existing loan commitment at June 30, 2010. The Company will be required to fund these deficits until the joint venture reaches breakeven for three consecutive months. Any amounts funded by the Company under this commitment, up to \$0.5 million, could be recoverable from the joint venture in the event of liquidation. The Company does not currently anticipate funding any deficits in excess of the amounts potentially recoverable under this guarantee.

## **Table of Contents**

### *Assets Held for Sale*

Assets are classified as held for sale when the Company has committed to selling the asset and believes that it will be disposed of within one year. The Company determines the fair value, net of costs of disposal, of an asset on the date the asset is categorized as held for sale, and the asset is recorded at the lower of its fair value, net of cost of disposal, or carrying value on that date. The Company periodically reevaluates assets held for sale to determine if the assets are still recorded at the lower of fair value, net of cost of disposal, or carrying value. The fair value of properties are generally determined based on market rates, industry trends and recent comparable sales transactions. The Company had one parcel of land, in Fort Wayne, Indiana, held for sale at June 30, 2010.

The Company currently estimates that the parcel of land held for sale in Fort Wayne, Indiana, has an aggregate fair value, net of costs of disposal, that exceeds its carrying value of \$0.4 million at June 30, 2010. The amount that the Company will ultimately realize on the parcel of land could differ materially from this estimate.

### *Lease Accounting*

The Company determines whether to account for its leases as either operating, capital or financing leases depending on the underlying terms of each lease agreement. This determination of classification is complex and requires significant judgment relating to certain information including the estimated fair value and remaining economic life of the community, the Company's cost of funds, minimum lease payments and other lease terms. As of June 30, 2010, the Company leased 33 communities and classified each of the leases as an operating lease. The Company incurs lease acquisition costs and amortizes these costs over the term of the respective lease agreement. Certain leases entered into by the Company qualified as sale/leaseback transactions and as such any related gains have been deferred and are being amortized over the respective lease term.

Facility lease expense in the Company's statement of income includes rent expense plus amortization expense relating to leasehold acquisition costs offset by the amortization of deferred gains.

There are various financial covenants and other restrictions in our lease agreements. The Company was in compliance with all of its lease covenants at June 30, 2010.

### *Income Taxes*

At June 30, 2010, the Company had recorded on its consolidated balance sheet deferred tax assets of approximately \$8.5 million. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Management regularly evaluates the future realization of deferred tax assets and provides a valuation allowance, if considered necessary, based on such evaluation. As part of the evaluation, management has evaluated future expectations of net income and various tax planning strategies that it believes are both prudent and feasible, including various strategies to utilize net built-in gains on the Company's appreciated assets. However, the benefits of the net deferred tax assets might not be realized if actual results differ from expectations. The Company believes based upon this analysis that the realization of the net deferred tax assets is reasonably assured and therefore has not provided for a valuation allowance.

The Company evaluates uncertain tax positions through consideration of accounting and reporting guidance on thresholds, measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial-statement comparability among different companies. The Company is required to recognize a tax benefit in its financial statements for an uncertain tax position only if management's assessment is that its position is more likely than not (i.e., a greater than 50 percent likelihood) to be upheld on audit based only on the technical merits of the tax position. The Company's policy is to recognize interest related to unrecognized tax benefits as interest expense and penalties as income tax expense. The Company is not subject to income tax examinations for tax years prior to 2006.

### *Net Income Per Share*

Basic net income per common share is computed by dividing net income remaining after allocation to unvested restricted shares by the weighted average number of common shares outstanding for the period. Except when the effect would be anti-dilutive, the calculation of diluted net income per common share includes the net impact of unvested restricted shares and shares that could be issued under outstanding stock options.

**Table of Contents**

The following table sets forth the computation of basic and diluted net income per share (in thousands, except for per share amounts):

*Treasury Stock*

The Company accounts for treasury stock under the cost method and includes treasury stock as a component of stockholders' equity.

*New Accounting Guidance*

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810-10 (formerly FASB Statement No. 167, Amendments to FASB Interpretation No. 46(R)) requires an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity. This analysis identifies the primary beneficiary of a variable interest entity as the enterprise that has both the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity that could potentially be significant to the variable interest entity or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. This guidance also requires ongoing reassessments of whether an enterprise is the primary beneficiary of a variable interest entity and was effective for the Company on January 1, 2010. The adoption did not have an impact on the Company's earnings or financial position.

The Company is authorized to issue preferred stock in series and to fix and state the voting powers and such designations, preferences and relative participating, optional or other special rights of the shares of each such series and the qualifications, limitations and restrictions thereof. Such action may be taken by the Board without stockholder approval. The rights, preferences and privileges of holders of common stock are subject to the rights of the holders of preferred stock. No preferred stock was outstanding as of June 30, 2010 and 2009.

*Share Repurchases*

On January 22, 2009, the Company's board of directors approved a share repurchase program that authorized the Company to purchase up to \$10.0 million of the Company's common stock. Purchases may be made from time to time using a variety of methods, which may include open market purchases, privately negotiated transactions or block trades, or by any combination of such methods, in accordance with applicable insider trading and other securities laws and regulations. The size, scope and timing of any purchases will be based on business, market and other conditions and factors, including price, regulatory and contractual requirements or consents, and capital availability. The repurchase program does not obligate the Company to acquire any particular amount of common stock and the share repurchase authorization has no stated expiration date. Shares of stock repurchased under the program will be held as treasury shares. Pursuant to this authorization, during fiscal 2009, the Company purchased 349,800 shares at an average cost of \$2.67 per share for a total cost to the Company of approximately \$0.9 million. All such purchases were made in open market transactions. No shares have been purchased by the Company during the first six months of fiscal 2010.

**7. STOCK-BASED COMPENSATION**

The Company recognizes compensation expense for share-based stock awards to employees, including grants of employee stock options and awards of restricted stock, in the statement of income based on their fair values.

On May 8, 2007, the Company's stockholders approved the 2007 Omnibus Stock and Incentive Plan for Capital Senior Living Corporation (the 2007 Plan), which provides for, among other things, the grant of restricted stock awards and stock options to purchase shares of the Company's common stock. The 2007 Plan authorizes the Company to issue up to 2.6 million shares of common stock and the Company has reserved 1.9 million shares of common stock for future issuance pursuant to awards under the 2007 Plan. Effective May 8, 2007, the 1997 Omnibus Stock and Incentive Plan (as amended, the 1997 Plan) was terminated and no additional shares will be granted under the 1997 Plan. The Company has reserved 0.9 million shares of common stock for future issuance upon the exercise of outstanding stock options pursuant to the 1997 Plan.

*Stock Options*

The Company's stock option program is a long-term retention program that is intended to attract, retain and provide incentives for employees, officers and directors and to align more closely stockholder and employee interests. The Company's options generally vest over a period of one to five years and the related expense is amortized on a straight-line basis over the vesting period.

A summary of the Company's stock option activity and related information for the six months ended June 30, 2010, is presented below:

	Outstanding at Beginning of	Granted	Exercised	Forfeited	Outstanding End of	Options Exercisable
	Period				Period

Weighted average price	\$ 4.34	\$	\$ 3.63	\$ 3.63	\$ 4.48	\$ 4.48

The options outstanding and the options exercisable at June 30, 2010, each had an intrinsic value of \$0.7 million. The Company awarded no stock options during the first six months of fiscal 2010.

**Table of Contents***Restricted Stock*

The Company may grant restricted stock awards to employees, officers, and directors. Restricted stock awards generally vest over a period of three to four years but such awards are considered outstanding at the time of grant, since the holders thereof are entitled to dividends and voting rights. The Company recognizes compensation expense of a restricted stock award over its vesting period based on the fair value of the award on the grant date, net of forfeitures.

A summary of the Company's restricted stock awards activity and related information for the six months ended June 30, 2010, is presented below:

	Outstanding at Beginning of	Period	Issued	Vested	Forfeited	Outstanding End of Period
Shares	649,207		53,000	214,347	10,532	477,328

The restricted stock outstanding at June 30, 2010, had an intrinsic value of \$2.4 million.

During the six months ended June 30, 2010, the Company awarded 53,000 shares of restricted common stock to certain employees and directors of the Company. The average market value of the common stock on the date of grant was \$4.91. These awards of restricted shares vest over a three to four year period and had an intrinsic value of \$0.3 million on the date of issue.

*Stock Based Compensation*

The Company uses the Black-Scholes option pricing model to estimate the grant date fair value of its stock options. The Black-Scholes model requires the input of certain assumptions including expected volatility, expected dividend yield, expected life of the option and the risk free interest rate. The expected volatility used by the Company is based primarily on an analysis of historical prices of the Company's common stock. The expected term of options granted is based primarily on historical exercise patterns on the Company's outstanding stock options. The risk free rate is based on zero-coupon U.S. Treasury yields in effect at the date of grant with the same period as the expected option life. The Company does not currently plan to pay dividends on its common stock and therefore has used a dividend yield of zero in determining the fair value of its awards. The option forfeiture rate assumption used by the Company, which affects the expense recognized as opposed to the fair value of the award, is based primarily on the Company's historical option forfeiture patterns.

The Company has total stock-based compensation expense, net of estimated forfeitures, of \$1.4 million not recognized as of June 30, 2010, and expects this expense to be recognized over approximately a three to four year period.

**8. CONTINGENCIES**

The Company has claims incurred in the normal course of its business. Most of these claims are believed by management to be covered by insurance, subject to normal reservations of rights by the insurance companies and possibly subject to certain exclusions in the applicable insurance policies. Whether or not covered by insurance, these claims, in the opinion of management, based on advice of legal counsel, should not have a material effect on the consolidated financial statements of the Company if determined adversely to the Company.

**9. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The carrying amounts and fair values of financial instruments are as follows (in thousands):

	June 30, 2010		December 31, 2009	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$ 35,180	\$ 35,180	\$ 28,972	\$ 28,972

The following methods and assumptions were used in estimating its fair value disclosures for financial instruments:  
*Cash and cash equivalents and Restricted cash:* The carrying amounts reported in the balance sheets for cash and cash equivalents and restricted cash approximate fair value.

**Table of Contents**

*Notes payable:* The fair value of notes payable is estimated using discounted cash flow analysis, based on current incremental borrowing rates for similar types of borrowing arrangements.

The global markets have experienced disruption in the credit markets. The full extent of these disruptions on the market and the ultimate severity and length is not predictable. Therefore, the estimated fair value of these assets and liabilities could be affected by these market changes and this effect could be material.

**Overview**

The following discussion and analysis addresses (i) the Company's results of operations for the three and six months ended June 30, 2010 and 2009, respectively, and (ii) liquidity and capital resources of the Company, and should be read in conjunction with the Company's consolidated financial statements contained elsewhere in this report and the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

The Company is one of the largest operators of senior living communities in the United States. The Company's operating strategy is to provide quality senior living services to its residents, while achieving and sustaining a strong, competitive position within its chosen markets, as well as to continue to enhance the performance of its operations. The Company provides senior living services to the elderly, including independent living, assisted living, skilled nursing and home care services.

As of June 30, 2010, the Company operated 66 senior living communities in 23 states with an aggregate capacity of approximately 10,200 residents, including 25 senior living communities that the Company owned, 7 senior living communities in which the Company had an ownership interest, 33 senior living communities that the Company leased and one senior living community that it managed for a third party. As of June 30, 2010, the Company also operated one home care agency.

**Significant Financial and Operational Highlights**

The Company's operating strategy is to provide quality senior living communities and services to its residents, while achieving and sustaining a strong, competitive position within its chosen markets, as well as to continue to enhance the performance of its operations. The Company provides senior living services to the elderly, including independent living, assisted living, skilled nursing and home care services. Many of the Company's communities offer a continuum of care to meet its residents' needs as they change over time. This continuum of care, which integrates independent living and assisted living and is bridged by home care through independent home care agencies or the Company's home care agency, sustains residents' autonomy and independence based on their physical and mental abilities. The Company primarily derives its revenue by providing senior living and healthcare services to the elderly and operating senior living communities for real estate investment trusts ( REITs ) and under joint venture arrangements. Despite challenging economic conditions, the Company has been able to increase total revenues approximately 3.4% when comparing the first six months of fiscal 2010 to 2009, of which approximately 91.2% of these revenues were derived from resident and healthcare services.

In April 2010, the Company and GE Healthcare sold its respective ownership interests in Midwest I and II to HCN in sale/leaseback transactions of eight senior living communities owned by subsidiaries of Midwest I and II. Upon closing the sales, the Company leased the senior housing communities from HCN. As a result of these sale/leaseback transactions, the Company received cash proceeds of approximately \$4.5 million, net of closing costs, resulting in gains to the Company of approximately \$1.1 million which have been deferred and are being recognized in the Company's statement of income as a reduction in facility lease expense over the initial 15 year lease term.

During the first six months of fiscal 2010, the Company repaid \$7.3 million of its outstanding debt obligations which included a pay-off settlement with a Lehman securitized trust for a promissory note of one of the Company's wholly owned subsidiaries. The securitized promissory note carried an outstanding principal balance of \$4.6 million which was collateralized with the assets of the

**Table of Contents**

subsidiary and was nonrecourse to the Company. The pay-off settlement was for \$3.7 million, excluding amounts reserved and escrowed, with no further obligation to the Company's subsidiary and resulted in a gain to the Company of approximately \$0.7 million. These principal repayments further reduced the Company's exposure to the volatility in the credit markets and enabled the Company to reduce interest expense by approximately \$0.3 million or 4.7% during the first six months of fiscal 2010 when compared to the first six months of fiscal 2009.

The senior living industry continues to be negatively impacted by unfavorable conditions in the housing, credit and financial markets and deteriorating conditions in the overall economy, generally resulting in lower than anticipated occupancy rates. During the first six months of fiscal 2010, in response to these conditions, the Company has continued to focus on maintaining an emphasis on occupancy increases, improvement in rental rates, expense management and growth in net operating income per unit, increasing levels of care through conversions, and other opportunities to enhance cash flow and shareholder value.

***Joint Venture Transactions and Management Contracts***

As of June 30, 2010, the Company managed 7 communities owned by joint ventures in which the Company has a minority interest and one community owned by a third party. For communities owned by joint ventures and third parties, the Company typically receives a management fee of 5% of gross revenues.

The Company believes that the factors affecting the financial performance of communities managed under contracts with third parties do not vary substantially from the factors affecting the performance of owned and leased communities, although there are different business risks associated with these activities.

The Company's third-party management fees are primarily based on a percentage of gross revenues. As a result, the cash flow and profitability of such contracts to the Company are more dependent on the revenues generated by such communities and less dependent on net cash flow than for owned or leased communities. Further, the Company is not responsible for capital investments in managed communities. The management contracts are generally terminable only for cause or upon the sale of a community, subject to the Company's right to offer to purchase such community.

***Midwest I Transaction***

In January 2006, the Company and GE Healthcare formed Midwest I to acquire five senior housing communities from a third party. Midwest I was owned approximately 89% by GE Healthcare and 11% by the Company. The Company had contributed \$2.7 million for its interest in Midwest I. Midwest I paid approximately \$46.9 million for the five communities. The five communities currently comprise 293 assisted living units with a combined capacity of 391 residents. The Company accounted for its investment in Midwest I under the equity method of accounting and the Company recognized earnings in the equity of Midwest I of \$0.1 million in each of the six month periods ended June 30, 2010 and 2009. The Midwest I Agreements were for an initial term of five years, extended until various dates through February 2011, and contained automatic one year renewals thereafter. On April 16, 2010, Midwest I closed the sale of the Midwest I subsidiaries that own the five senior housing communities to Health Care REIT, Inc. (HCN). Upon closing the sale, the Company leased the five senior housing communities from HCN. Midwest II paid approximately \$38.2 million for the three communities. The three communities currently comprise 300 assisted living and memory care units with a combined capacity of 348 residents. The Company accounted for its investment in Midwest II under the equity method of accounting and the Company recognized earnings in the equity of Midwest II of \$16,000 and 42,000 during the first six months ended June 30, 2010 and 2009, respectively. In addition, the Company earned \$0.2 million and \$0.3 million in management fees on the Midwest II communities during the first six months ended June 30, 2010 and

**Recently Issued Accounting Standards**

FASB ASC 810-10 (formerly FASB Statement No. 167, Amendments to FASB Interpretation No. 46(R)) requires an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity. This analysis identifies the primary beneficiary of a variable interest entity as the enterprise that has both the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity that could potentially be significant to the variable interest entity or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. This guidance also requires ongoing reassessments of whether an enterprise is the primary beneficiary of a variable interest entity and was effective for the Company on January 1, 2010. The adoption did not have an impact on the Company's earnings or financial position.

### Three Months Ended June 30, 2010 Compared to the Three Months Ended June 30, 2009

#### Revenues.

Total revenues were \$50.5 million for the three months ended June 30, 2010 compared to \$47.2 million for the three months ended June 30, 2009, representing an increase of approximately \$3.3 million or 7.0%. This increase in revenue is primarily the result of an increase in resident and healthcare revenue of \$4.4 million offset by a decrease in affiliated management services revenue of \$0.2 million and a decrease in community reimbursement revenue of \$0.9 million.

The increase in resident and healthcare revenue primarily results from an increase of \$4.2 million from the consolidation of eight communities previously owned by Midwest I and Midwest II that were sold to HCN and leased back by the Company in April 2010 and an increase in average rental rates of 0.7% and occupancy of 0.4% at the Company's other consolidated communities.

The decrease in affiliated management services revenue of \$0.2 million primarily results from the sale of the eight communities owned by Midwest I and Midwest II to HCN.

Community reimbursement revenue is comprised of reimbursable expenses from non-consolidated communities that the Company operates under long-term management agreements.

#### Expenses.

Total expenses were \$45.8 million in the second quarter of fiscal 2010 compared to \$43.4 million in the second quarter of fiscal 2009, representing an increase of \$2.4 million or 5.4%. This increase in expenses is primarily the result of a \$2.4 million increase in operating expenses, a \$1.4 million increase in facility lease expense, and a \$0.2 million increase in depreciation and amortization expense offset by a \$0.6 million decrease in general and administrative expenses and a \$0.9 million decrease in community reimbursement expense.

The increase in operating expenses primarily results from an increase of \$2.3 million from the consolidation of eight communities previously owned by Midwest I and Midwest II and an increase in operating costs at the Company's other consolidated communities of \$0.1 million.

**Table of Contents**

Facility lease expense increased \$1.3 million due to the consolidation of eight communities previously owned by Midwest I and Midwest II that were sold to HCN and leased back by the Company in April 2010 and \$0.1 million for contingent annual rental rate escalations for certain existing leases.

Depreciation and amortization expense increased \$0.2 million primarily as a result of an increase in depreciable assets at the Company's consolidated communities.

General and administrative expenses decreased \$0.6 million or 19.2% primarily due to a reduction in employee benefit claims paid which resulted in lower health insurance costs to the Company.

Community reimbursement expense represents payroll and administrative costs paid by the Company for the benefit of non-consolidated communities and joint ventures.

*Other income and expense.*

Interest income reflects interest earned on the investment of cash balances and interest earned on escrowed funds. Interest income decreased primarily due to lower interest rates in the second quarter of fiscal 2010 compared to the second quarter of fiscal 2009.

Interest expense decreased \$0.2 million in the second quarter of fiscal 2010 when compared to the second quarter of fiscal 2009. The decrease in interest expense results from less debt outstanding during the second quarter of fiscal 2010 compared to the second quarter of fiscal 2009. The decrease in debt obligations is primarily due to the negotiated a pay-off settlement on April 15, 2010, with a Lehman securitized trust for a promissory note of one of the Company's wholly owned subsidiaries. The securitized promissory note carried an outstanding principal balance of \$4.6 million with a fixed interest rate of 8.2%.

Gain on settlement of debt in the second quarter of fiscal 2010 represents the recognition of the gain associated with the pay-off settlement of the promissory note with the Lehman securitized trust on April 15, 2010.

Other (expense) income in the second quarter of fiscal 2010 and 2009 relates to the Company's equity in the net (losses) earnings of unconsolidated affiliates, which represents the Company's share of the net (losses) earnings on its investments in joint ventures.

*Provision for income taxes.*

Provision for income taxes for the second quarter of fiscal 2010 was \$1.1 million or 44.1% of income before taxes compared to a provision for income taxes of \$0.4 million, or 47.9% of income before taxes, for the second quarter of fiscal 2009. The effective tax rates for the second quarters of fiscal 2010 and 2009 differ from the statutory tax rates due to state income taxes and permanent tax differences. The Company is impacted by the Texas Margin Tax ( TMT ) and Michigan Business Tax ( MBT ) which effectively impose taxes on modified gross revenues for communities within the States of Texas and Michigan. The Company consolidated 17 Texas communities and two Michigan communities in the second quarter of fiscal 2010 and the TMT and MBT increased the overall provision for income taxes. Management regularly evaluates the future realization of deferred tax assets and provides a valuation allowance, if considered necessary, based on such evaluation. At June 30, 2010, no valuation allowance was considered necessary based on this evaluation.

*Net income.*

As a result of the foregoing factors, the Company reported net income of \$1.5 million for the three months ended June 30, 2010, compared to a net income of \$0.4 million for the three months ended June 30, 2009.

**Six Months Ended June 30, 2010 Compared to the Six Months Ended June 30, 2009**

*Revenues.*

Total revenues were \$98.4 million for the six months ended June 30, 2010 compared to \$95.2 million for the six months ended June 30, 2009, representing an increase of approximately \$3.2 million or 3.4%. This increase in revenue is primarily the result of a \$4.6

million increase in resident and healthcare revenue offset by a decrease in affiliated management services revenue of \$0.1 million and a decrease in community reimbursement revenue of \$1.3 million.

The increase in resident and healthcare revenue primarily results from an increase of \$4.2 million from the consolidation of eight communities previously owned by Midwest I and Midwest II that were sold to HCN and leased back by the Company in April 2010 and an increase in average rental rates of 0.1% and occupancy of 0.7% at the Company's other consolidated communities.

The decrease in affiliated management services revenue reflects a decrease of \$0.2 million from the sale of the eight communities owned by Midwest I and Midwest II to HCN offset by an increase of \$0.1 million for management services revenue earned by the Company from the two SHPIII/CSL joint venture communities that opened in April 2009.

Community reimbursement revenue is comprised of reimbursable expenses from non-consolidated communities that the Company operates under long-term management agreements.

*Expenses.*

Total expenses were \$89.6 million in the first six months of fiscal 2010 compared to \$87.1 million in the first six months of fiscal 2009, representing an increase of \$2.5 million or 2.9%. This increase is primarily the result of a \$2.7 million increase in operating expenses, a \$1.4 million increase in facility lease expense, and a \$0.4 million increase in depreciation and amortization expense offset by a \$0.6 million decrease in general and administrative expenses, a \$0.1 million decrease in stock-based compensation, and a \$1.3 million decrease in community reimbursement expense.

The increase in operating expenses primarily results from an increase of \$2.3 million from the consolidation of eight communities previously owned by Midwest I and Midwest II and an increase in operating costs at the Company's other consolidated communities of \$0.4 million.

The increase in facility lease expense results from an increase of \$1.3 million from the consolidation of eight communities previously owned by Midwest I and Midwest II and \$0.1 million for contingent annual rental rate escalations for certain existing leases.

Depreciation and amortization expense increased \$0.4 million primarily as a result of an increase in depreciable assets at the Company's consolidated communities.

General and administrative expenses decreased \$0.6 million or 9.6% primarily due to a reduction in employee benefit claims paid which resulted in lower health insurance costs to the Company.

Stock-based compensation decreased \$0.1 million in the first six months of fiscal 2010 compared to the first six months of fiscal 2009 primarily due to a decrease in the number of unvested restricted shares outstanding during the first six months of fiscal 2010 when compared to the first six months of fiscal 2009.

Community reimbursement expense represents payroll and administrative costs paid by the Company for the benefit of non-consolidated communities and joint ventures.

*Other income and expense.*

Interest income reflects interest earned on the investment of cash balances and interest earned on escrowed funds. Interest income decreased primarily due to lower interest rates in the first six months of fiscal 2010 compared to the first six months of fiscal 2009.

Interest expense decreased \$0.3 million in the first six months of fiscal 2010 when compared to the first six months of fiscal 2009. The decrease in interest expense results from less debt outstanding during the first six months of fiscal 2010 compared to the first six months of fiscal 2009. The decrease in debt obligations is

primarily due to the negotiated a pay-off settlement on April 15, 2010, with a Lehman securitized trust for a promissory note of one of the Company's wholly owned subsidiaries. The securitized promissory note carried an outstanding principal balance of \$4.6 million with a fixed interest rate of 8.2%.

Other income in the first six months of fiscal 2010 and 2009 relates to the Company's equity in the net earnings of unconsolidated affiliates, which represents the Company's share of the net earnings on its investments in joint ventures.

*Provision for income taxes.*

Provision for income taxes for the first six months of fiscal 2010 was \$1.7 million or 43.7% of income before taxes compared to a provision for income taxes of \$1.0 million, or 44.5% of income before taxes, for the first six months of fiscal 2009. The effective tax rates for the first six months of fiscal 2010 and 2009 differ from the statutory tax rates due to state income taxes and permanent tax differences. The Company is impacted by the Texas Margin Tax ( TMT ) and Michigan Business Tax ( MBT ) which effectively impose taxes on modified gross revenues for communities within the States of Texas and Michigan. The Company consolidated 17 Texas communities and two Michigan communities in the first six months of fiscal 2010 and 2009 and the TMT and MBT increased the overall provision for income taxes. Management regularly evaluates the future realization of deferred tax assets and provides a valuation allowance, if considered necessary, based on such evaluation. At June 30, 2010, no valuation allowance was considered necessary based on this evaluation.

*Net income.*

As a result of the foregoing factors, the Company reported net income of \$2.2 million for the six months ended June 30, 2010, compared to a net income of \$1.2 million for the six months ended June 30, 2009.

**Liquidity and Capital Resources**

The impact of the current economic environment could result in decreases in the fair value of assets, slowing of transactions, and tightening liquidity and credit markets. These impacts could make securing debt for acquisitions or refinancings for the Company, its joint ventures, or buyers of the Company's properties more difficult or on terms not acceptable to the Company.

In addition to approximately \$35.2 million of unrestricted cash balances on hand as of June 30, 2010, the Company's principal sources of liquidity are expected to be cash flows from operations, proceeds from the sale of assets, cash flows from SHPIII/CSL Miami, SHP III/CSL Richmond Heights, and SHPIII/CSL Levis Commons and/or additional debt refinancings. The Company expects its available cash and cash flows from operations, proceeds from the sale of assets, and cash flows from SHPIII/CSL Miami, SHP III/CSL Richmond Heights, and SHPIII/CSL Levis Commons to be sufficient to fund its short-term working capital requirements and the Company's stock repurchase program. The Company's long-term capital requirements, primarily for acquisitions and other corporate initiatives, could be dependent on its ability to access additional funds through joint ventures and the debt and/or equity markets. The Company from time to time considers and evaluates transactions related to its portfolio including refinancings, purchases and sales, reorganizations and other transactions. There can be no assurance that the Company will continue to generate cash flows at or above current levels or that the Company will be able to obtain the capital necessary to meet the Company's short and long-term capital requirements.

In summary, the Company's cash flows were as follows (in thousands):

	<b>Six Months Ended June 30,</b>

*Operating Activities.*

The net cash provided by operating activities for the first six months of fiscal 2010 primarily results from net income of \$2.2 million, net non-cash charges of \$7.1 million, a decrease in property tax and insurance deposits of \$0.4 million, an increase in accrued expenses of \$3.0 million, a decrease in federal and state income taxes receivable of \$1.5 million, and an increase in customer deposits of \$0.1 million offset by an increase in accounts receivable of \$0.1 million, an increase in prepaid expenses and other of \$0.4 million,

**Table of Contents**

The net cash used in investing activities for the first six months of fiscal 2009 primarily results from capital expenditures of \$3.8 million offset by net investments in joint ventures of \$0.4 million.

*Financing Activities.*

The net cash used in financing activities for the first six months of fiscal 2010 results from net repayments of notes payable of \$3.0 million and additions to restricted cash of \$1.8 million offset by proceeds and excess tax benefits from the issuance of common stock of \$0.4 million. The net cash used in financing activities for the first six months of fiscal 2009 primarily results from net repayments of notes payable of \$2.8 million, additions to restricted cash of \$2.2 million, and purchases of treasury stock of \$0.9 million.

*Debt Transactions.*

On May 31, 2010, the Company renewed certain insurance policies and entered into a finance agreement totaling \$3.7 million. The finance agreement has a fixed interest rate of 3.30% with principal being repaid over a 12-month term.

On April 15, 2010, the Company negotiated a pay-off settlement with a Lehman securitized trust for a promissory note of one of the Company's wholly owned subsidiaries that matured on September 1, 2009. The securitized promissory note carried an outstanding principal balance of \$4.6 million which was collateralized with the assets of the subsidiary and was nonrecourse to the Company. The pay-off settlement was for \$3.7 million, excluding amounts reserved and escrowed, with no further obligation to the Company's subsidiary and resulted in a gain to the Company of approximately \$0.7 million.

On October 31, 2009, the Company renewed certain insurance policies and entered into a finance agreement totaling \$0.5 million. The finance agreement has a fixed interest rate of 3.66% with principal being repaid over a 10-month term.

On May 31, 2009, the Company renewed certain insurance policies and entered into a finance agreement totaling \$1.6 million. The finance agreement has a fixed interest rate of 3.66% with principal being repaid over a 10-month term.

The 25 senior housing communities owned by the Company and encumbered by mortgage debt are provided as collateral under their respective loan agreements. At June 30, 2010, and December 31, 2009, these communities carried a total net book value of \$221.9 million and \$224.9 million, respectively, with total mortgage loans outstanding of \$175.8 million and \$182.3 million, respectively.

The Company must maintain certain levels of tangible net worth and comply with other restrictive covenants under the terms of certain promissory notes. The Company was in compliance with all of its debt covenants at June 30, 2010 and 2009.

**Recent Developments**

Effective June 25, 2010, the Company entered into a Purchase and Sale Agreement (the "Signature Purchase Agreement") with Signature Assisted Living of Texas, L.L.C. ("Signature") to acquire Signature's interests in certain lease agreements with HCN for 12 purpose-built assisted living and memory care communities for approximately \$25.8 million. Funds for the purchase price are expected to be provided by HCN. The 12 Signature communities are located in Texas, average less than three years of age, and consist of approximately 532 assisted living units and 145 memory care units with a combined capacity of 764 residents. This transaction is expected to close in the third quarter of fiscal 2010, subject to further due diligence, customary closing conditions and approvals, including approval of

final lease and related documents with HCN and approval of HCN's lender, Freddie Mac. Upon closing, the Company will lease these communities from HCN.

**Table of Contents**

**Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

The Company's primary market risk is exposure to changes in interest rates on debt and lease instruments. As of June 30, 2010, the Company had \$179.2 million in outstanding debt comprised solely of fixed rate debt instruments. In addition, as of June 30, 2010, the Company had \$293.8 million in future lease obligations with contingent rent increases based on changes in the consumer price index.

Changes in interest rates would affect the fair market values of the Company's fixed rate debt instruments, but would not have an impact on the Company's earnings or cash flows. Increases in the consumer price index could have an effect on future facility lease expense if the leased community exceeds the contingent rent escalation thresholds set forth in each of the Company's lease agreements.

**Item 4. CONTROLS AND PROCEDURES.**

**Effectiveness of Controls and Procedures**

The Company's management, with the participation of the Company's Chief Executive Officer ( CEO ) and Chief Financial Officer ( CFO ), has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the

Exchange Act )) as of the end of the period covered by this report. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. The Company's disclosure controls and procedures are also designed to ensure that such information is accumulated and communicated to the Company's management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Based upon the controls evaluation, the Company's CEO and CFO have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective.

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's fiscal quarter ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Part II. OTHER INFORMATION**

**Item 1. LEGAL PROCEEDINGS.**

The Company has claims incurred in the normal course of its business. Most of these claims are believed by management to be covered by insurance, subject to normal reservations of rights by the insurance companies and possibly subject to certain exclusions in the applicable insurance policies. Whether or not covered by insurance, these claims, in the opinion of management, based on advice of legal counsel, should not have a material effect on the consolidated financial statements of the Company if determined adversely to the Company.

**Item 1A. RISK FACTORS.**

Our business involves various risks. When evaluating our business the following information should be carefully considered in conjunction with the other information contained in our periodic filings with the SEC. Additional risks and uncertainties not known to us currently or that currently we deem to be immaterial also may impair our business operations. If we are unable to prevent events that have a negative effect from occurring, then our business may suffer. Negative events are likely to decrease our revenue, increase our costs, make our financial results poorer and/or decrease our financial strength, and may cause our stock price to decline. There have been no material changes in our risk factors from those disclosed in Part 1, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2009.
