-

Item 7.01 Regulation FD Disclosure

Fleet Status

On January 12, 2011, Hercules Offshore, Inc. (the Company) is posting on its website at www.herculesoffshore.com a report entitled Hercules Offshore Fleet Status Report (the Fleet Status Report). The Fleet Status Report includes the Hercules Offshore Rig Fleet Status (as of January 12, 2011), which contains information for each of the Company's drilling rigs, including contract dayrate and duration. The Fleet Status Report also includes the Hercules Offshore Liftboat Fleet Status Report, which contains information by liftboat class for December 2010, including revenue per day and operating days. The Fleet Status Report is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

Potential Management Contract

The Company is currently considering alternatives for entering into a fee-based management contract to market, manage, crew and operate two new-build high specification harsh environment jackup drilling rigs, each with a maximum water depth of 400 feet. Subject to negotiation of contractual terms, the Company would also invest up to \$10 million in cash but would not incur any debt or further financial obligations with respect to the contract or the rigs. The rigs would be scheduled for delivery in 2013. There can be no assurances that the Company will be able to negotiate satisfactory terms and arrangements with respect to the management of the two new-build drilling rigs.

The information furnished pursuant to Item 7.01, including Exhibit 99.1, shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934 and will not be incorporated by reference into any registration statement filed by the Company under the Securities Act of 1933 unless specifically identified therein as being incorporated therein by reference.

The information and statements made in this Form 8-K that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements include statements concerning estimated contract expiration dates, dayrates, estimated dates for completion of repairs and upgrades and commencement dates of new contracts, as well as information that may be affected by the continued delays in obtaining drilling permits in the Gulf of Mexico. Such statements are subject to a number of risks, uncertainties and assumptions, including without limitation, early termination by the customer pursuant to the contract or otherwise, cancellation or completion of certain contracts earlier than expected, our ability to renew or extend our long-term international contracts, or enter into new contracts, at current dayrates when such contracts expire, the potential inability of our customers to obtain drilling permits that would cover the entire duration of our contracts in the U.S. Gulf of Mexico or otherwise satisfy regulatory requirements that may be then in effect, operational difficulties, shipyard and other delays, government and regulatory actions and other factors described in the Company's annual report on Form 10-K and its most recent periodic reports and other documents filed with the Securities and Exchange Commission, which are available free of charge at the SEC's website at www.sec.gov or the company's website at www.herculesoffshore.com. The Company cautions you that forward-looking statements are not guarantees of future performance and that actual results or developments may differ materially from those projected or implied in these statements.
