Pittsburgh, PA, July 21, 2004 - WESCO International, Inc. [NYSE:WCC], a leading provider of electrical MRO products, construction materials, and advanced integrated supply procurement outsourcing services, today announced its 2004 second quarter financial results.

Stephen A. Van Oss, Senior Vice President and Chief Financial and Administrative Officer, stated, "Our operating results were strong, continuing the momentum demonstrated over the last two quarters as initiatives in sales, margin, cost and working capital are generating solid returns. Demonstrating the effectiveness of our cost controls and the significant operating leverage in our business, a 13.5% increase in sales and a 130 basis point improvement in gross margins resulted in operating profit of \$42.9 million, more than doubling last year's second quarter results. Net income of \$19.1 million and earnings per share of \$0.44 are the best achieved by WESCO since it became a public company in 1999."

Net sales for the second quarter of 2004 were \$931.0 million compared to \$820.2 million in 2003, an increase of 13.5%. Gross margins for the quarter improved to 19.7% from 18.4% for the comparable 2003 quarter. Operating income for the current quarter totaled \$42.9 million versus \$19.0 million in last year's comparable quarter. Depreciation and amortization included in operating income was \$4.6 million for 2004 compared to \$5.1 million in 2003. Net income in 2004's second quarter was \$19.1 million versus \$7.4 million in the comparable 2003 quarter. Earnings per share were \$0.44 per share versus \$0.16 per share in 2003.

Net sales for the six months ended June 30, 2004 were \$1,778.8 million versus \$1,611.0 million in last year's comparable period, a 10.4% increase. Gross margins in the current six-month period were 19.4% versus 18.4% last year and operating income totaled \$69.1 million versus \$37.5 million last year. Depreciation and amortization included in operating income was \$9.7 million versus \$10.3 million last year. Net income for the 2004 year-to-date period was \$28.8 million versus \$12.2 million last year, while diluted earnings per share were \$0.67 per share in 2004 versus \$0.26 per share in 2003.

4

Mr. Van Oss continued, "We have been successful in incorporating recent raw material price increases into our pricing programs and expect to make further progress in margin improvement initiatives. Working capital dollars increased for the quarter, reflecting the investment required for the significant increase in sales and higher raw material costs, although the working capital days' performance showed continued improvement."

Chairman and CEO, Roy W. Haley, commented, "Financial and operational results for the second quarter were excellent. We were particularly pleased with the significant increase in sales volume and progress made with several targeted market development programs. Sales growth and productivity benefits associated with our active implementation of LEAN continuous improvement programs drove record levels of earnings per share."

Mr. Haley continued, "Economic conditions have generally been favorable for our business, even though capital spending on industrial, commercial, and institutional building or expansion projects has continued to be below peak levels of several years ago. Recent reports by economists suggest some weakness in market conditions, but we are anticipating that sales growth for the third

Edgar Filing: WESCO INTERNATIONAL INC - Form 8-K

quarter could again top 10%."

#

Teleconference

WESCO will conduct a teleconference to discuss the second quarter earnings as described in this News Release on July 21, 2004, at 11:00 a.m. E.S.T. The conference call will be broadcast live over the Internet and can be accessed at (http://www.shareholder.com/wesco/medialist.cfm) or from the Company's home page at (http://www.wescodist.com). The conference call will be archived on this Internet site for seven days.

Note: Trade accounts receivable and long-term debt have each been reduced by \$300 million and \$225 million as of June 30, 2004 and December 31, 2003, respectively, in accordance with WESCO's accounting for its accounts receivable securitization facility. In addition, the carrying value of long-term debt decreased a net \$2.9 million during the six months ended June 30, 2004 as a result of the decrease in fair value of the Company's interest rate derivative instruments and as a result of non-cash amortization of discounts associated with the Company's Senior Notes.

Edgar Filing: WESCO INTERNATIONAL INC - Form 8-K

	JUNE 30, 2004 -----	MARCH 31, 2004 -----
Total debt	\$435.6	\$424.8
Plus: A/R Securitization	300.0	215.0
Less: Cash and cash equivalents	(9.4)	(13.8)
	-----	-----
Total indebtedness (including A/R Securitization Program), net of cash (See Note)	\$726.2 =====	\$626.0 =====

Note: Total indebtedness (including A/R Securitization Program), net of cash is provided by the Company as an additional measure of the Company's leverage. Generally accepted accounting principles require that this financing facility be presented off-balance sheet. As management internally evaluates the A/R Securitization Facility as an additional form of indebtedness, management believes it is helpful to provide the readers of its financial statements an evaluation of its total indebtedness from all sources of financing. Cash and cash equivalents are deducted from this total to determine total indebtedness (including A/R Securitization Program), net of cash. This amount represents the Company's net obligation due under all of its financing facilities.

WESCO INTERNATIONAL, INC.
RECONCILIATION OF NON-GAAP FINANCIAL MEASURES
(dollar amounts in millions)
(Unaudited)

	SIX MONTHS ENDED JUNE 30, 2004 -----
Cash flow provided by operations	\$ 72.3
Less: Increase in A/R Securitization	(75.0)
Less: Capital expenditures	(5.2)

Free cash flow (excluding effects of A/R Securitization Program) (See Note)	\$ (7.9) =====

Note: Free cash flow (excluding the effects of A/R Securitization Program) is provided by the Company as an additional liquidity measure. Generally accepted accounting principles require that changes in this facility be reflected within operating cash flows in the Company's consolidated statement of cash flows. As management internally evaluates the A/R Securitization Facility as an additional form of liquidity, management believes it is helpful to provide the readers of its financial statements with the cash flow from operating activities other than those related to the A/R Securitization Facility. Capital expenditures are deducted from this adjusted operating cash flow amount to determine free cash flow (excluding effects of A/R Securitization Program). This amount represents excess funds available to management to service all of its financing needs (including needs of its A/R Securitization Program) and other investing needs.
