NABORS INDUSTRIES COMMENTS ON PENSION FUND STATEMENTS

HOUSTON, JUNE 6, 2002 - Nabors Industries, Inc. (AMEX:NBR) issued the following statement in response to comments made in a press release issued today by Central Laborers' Pension Fund and related union entities:

We are disappointed that Central Laborers' Pension Fund and some related shareholders do not recognize the benefits our proposed reorganization offers to all stakeholders. We believe this reorganization will facilitate growth, and enhance value, by enabling Nabors to gain business, financial, tax and strategic advantages that are not available under our current corporate structure.

On May 31st, Institutional Shareholder Services (ISS), the country's leading independent proxy advisory service and a recognized expert on corporate governance matters, issued a recommendation to its clients to vote FOR the Nabors reorganization. In its exhaustive report, ISS concluded that the reorganization offers improved value for all stakeholders while maintaining stakeholder rights and director accountability. The May 31st report states:

"We conclude that there are sufficient protections embodied in Bermuda law to preserve director and officer accountability and provide mechanisms for redress. This is further reinforced by the company's recent efforts to bolster accountability and improve its corporate governance structure by committing to creating an independent nominating committee and to adding an additional independent director to the board so that a majority of directors are independent outsiders.... In view of these factors, ISS believes this reincorporation is consistent with our objective of striking a balance between economic gains and the preservation of shareholder rights."

Nabors' Board of Directors and management continue to believe that the proposed reorganization provides an important opportunity to improve value for all of the Company's stakeholders.

A special stockholders meeting to vote on the reincorporation of the company will be held on June 14, 2002.

The Nabors companies own and operate over 530 land drilling and 933 land
