ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

The Series A Preferred Stock has an 8% cumulative dividend rate, is convertible into our common stock with a conversion rate of \$2.25, is redeemable at our option at \$1,000 per share plus accrued dividends, contains a liquidation preference of \$1,000 per share plus accrued dividends, has voting rights on all matters submitted to a vote of our stockholders, has separate voting rights with respect to matters that would affect the rights of the holders of the Preferred Stock, and has aggregate voting rights of the affiliate limited to 49% of our total outstanding common and preferred shares with voting rights. In respect to the Series A Preferred Stock, the affiliate has agreed to waive its conversion rights until our EBITDA (as defined) reaches a mutually agreed upon level. Pursuant to an agreement with the preferred stockholders, dividends did not accrue on the outstanding stock from April 2001 through June 2002. Dividends were accreted at 8% during the free dividend period. As of September 2003, there were approximately \$0.3 million dividends in arrears relating to these outstanding shares of Series A Preferred Stock. The affiliate previously agreed that dividends would not accrue after June 30, 2002, until our EBITDA reached a mutually agreed upon level. During the third quarter of 2003, we agreed with the holders of the preferred stock that our EBITDA had reached an acceptable level for the resumption of conversion rights and the accrual of dividends. Pursuant to our senior secured credit agreements, the dividends will be paid "in kind" (in shares of like preferred stock) rather than in cash. At December 31, 2003, we had a total of 7,500 shares of Series A Preferred Stock outstanding.

Edgar Filing: OMNI ENERGY SERVICES CORP - Form 10-K/A

Subsequent to December 31, 2003, we issued \$10 million of 6.5% Subordinated Convertible Debentures. The proceeds were used to redeem \$8.2 million of the Series A Preferred Stock, including accrued dividends paid in cash.

In May 2001, we committed to issue 4,600 shares of Series B Preferred Stock to an affiliate of ours in satisfaction of all outstanding principal and interest owed under the subordinated debt agreements (See Note 3). These shares were issued in March 2002. The Series B Preferred Stock has an 8% cumulative dividend rate, is convertible into our common stock with an initial conversion rate of \$3.75, is redeemable at our option at \$1,000 per share plus accrued dividends, contains a liquidation preference of \$1,000 per share plus accrued dividends and has no voting rights until such time as it becomes convertible. The Series B Preferred Stock does not have conversion rights until our EBITDA (as defined) reaches a mutually agreed upon level, and until all shares of Series A Preferred Stock become convertible. Pursuant to an agreement with the preferred stockholders, dividends did not accrue on the outstanding stock from April 2001 through June 2002. Dividends were accreted at 8% during the free dividend period. The affiliate previously agreed that dividends would not accrue after June 30, 2002 until our EBITDA reached a mutually agreed upon level. During the third quarter of 2003 we agreed with the holders of the preferred stock that our EBITDA had reached an acceptable level for the resumption of conversion rights and the accrual of dividends. Pursuant to our senior secured credit agreements, the dividends will be paid "in kind" (in shares of like preferred stock) rather than in cash. At December 31, 2003, we had a total of 4,600 shares of Series B Preferred Stock outstanding. Subsequent to December 31, 2003, we redeemed approximately \$4.9 million of the Series B Stock, including accrued dividends paid in cash.

In connection with the original issuance of the subordinated debentures, we issued to the affiliate detachable warrants to purchase 1,912,833 shares of our common stock, of which 967,000 have been cancelled as of December 31, 2002. The remaining 945,833 warrants were outstanding at December 31, 2003 and have all been exercised at April 26, 2004.

During 2003, we entered into an agreement to facilitate the private placement of approximately 1,650,000 shares of our common stock owned by an affiliate and certain investors. The sale of the stock covered by this agreement closed in the fourth quarter of 2003 and resulted in our receipt of \$0.4 million cash, which is reflected as a reduction in our general and administrative expense.

In order to facilitate a settlement of ongoing litigation between certain affiliates, we agreed to re-price and extend the maturity dates of 293,055 warrants owned by the defendant affiliates but transferred in settlement of the litigation to the plaintiff affiliates. The exercise prices of the transferred warrants ranged from \$2.25 - \$6.00 per share. The maturity dates of the transferred warrants ranged from November 1, 2004 to July 1, 2005. The transferred warrants were re-priced at \$1.54 per share and the maturity dates were extended to November 1, 2006. Our statement of operations includes a non-recurring charge of approximately \$0.1 million representing the differences if the fair market value of the originally issued warrants and the re-priced warrants. As of December 31, 2003, all 293,055 re-priced warrants remained outstanding, but have all been exercised at April 26, 2004.

The following table summarizes the exercise prices of warrants as of December 31, 2003:
