PROXY STATEMENT

FOR

ANNUAL MEETING OF STOCKHOLDERS

TO BE HELD JANUARY 22, 2004

This proxy statement is furnished in connection with the solicitation of proxies by the board of directors of Commercial Metals Company for use at the annual meeting of our stockholders to be held on January 22, 2004, and at any and all adjournments of the meeting. The approximate date on which this proxy statement and accompanying proxy card are first being sent or given to stockholders is December 11, 2003.

Shares represented by each proxy, if properly executed and returned to us prior to the meeting, will be voted as directed, but if not otherwise specified, will be voted for the election of five directors, for approval of the proposal to amend our restated certificate of incorporation to increase the number of authorized shares of our common stock from 40,000,000 to 100,000,000 and for the approval of the proposal to ratify the appointment of Deloitte & Touche LLP as independent auditors, all as recommended by our board of directors. A stockholder executing the proxy may revoke it at any time before it is voted by giving written notice to the Secretary of Commercial Metals Company, by subsequently executing and delivering a new proxy or by voting in person at the meeting (although attending the meeting without executing a ballot or executing a subsequent proxy will not constitute revocation of a proxy).

Stockholders of record can simplify their voting and reduce our cost by voting their shares via telephone or the Internet. The telephone and Internet voting procedures are designed to authenticate stockholders' identities, allow stockholders to vote their shares and to confirm that their instructions have been properly recorded. If a stockholder's shares are held in the name of a bank or broker, the availability of telephone and Internet voting will depend upon the voting processes of the bank or broker. Accordingly, stockholders should follow the voting instructions on the form they receive from their bank or broker.

Stockholders who elect to vote via the Internet may incur telecommunications and Internet access charges and other costs for which they are solely responsible. The Internet and telephone voting facilities for

Edgar Filing: COMMERCIAL METALS CO - Form DEF 14A

stockholders of record will close at 11:59 p.m., Eastern Standard Time, on the evening before the annual meeting. Instructions for voting via telephone or the Internet are contained in the enclosed proxy card.

OUTSTANDING VOTING SECURITIES

On November 24, 2003, the record date for determining stockholders entitled to vote at the annual meeting, we had outstanding 28,320,895 shares of our common stock, par value \$5.00 per share, not including 3,944,271 treasury shares. Each share of our common stock is entitled to one vote for each director to be elected and upon all other matters to be brought to a vote. We had no shares of preferred stock outstanding at November 24, 2003.

The presence of a majority of our outstanding common stock represented in person or by proxy at the meeting will constitute a quorum. Shares represented by proxies that are marked "abstain" will be counted as shares present for purposes of determining the presence of a quorum. Proxies relating to "street name" shares that are voted by brokers on some matters will be treated as shares present for purposes of determining the presence of a quorum, but will not be treated as shares entitled to vote at the annual meeting on those matters

as to which authority to vote is withheld by the broker. Such shares as to which authority to vote is withheld are called broker non-votes.

The five nominees receiving the highest vote totals will be elected as directors. Accordingly, abstentions and broker non-votes will not affect the outcome of the election of directors.

The proposal to amend our restated certificate of incorporation to increase the number of authorized shares of common stock, par value \$5.00 per share, from 40,000,000 to 100,000,000 shares will require the affirmative vote of the holders of a majority of our outstanding common stock. Accordingly, abstentions and broker non-votes will have the same effect as a vote against such proposal.

All other matters to be voted on will be decided by the affirmative vote of a majority of the shares present or represented at the meeting and entitled to vote. On any such matter, an abstention will have the same effect as a negative vote. A broker non-vote on such matters will not be counted as an affirmative vote or a negative vote because shares held by brokers will not be considered entitled to vote on matters as to which the brokers withhold authority.

Management has designated the proxies named in the accompanying form of proxy.

PROPOSAL I

ELECTION OF DIRECTORS

We are adding two directors to our board of directors at this annual meeting of stockholders, bringing the size of our board of directors to 11 members. Our restated certificate of incorporation divides the board of directors into three classes. To divide our 11 directors as equally as possible among the three classes, we are adding one additional Class I director and one additional Class III director. The term of office of the three existing Class III directors expires at this annual meeting of stockholders. Three of the four Class III nominees, Moses Feldman, Ralph E. Loewenberg and Stanley A. Rabin, were previously elected by the stockholders, currently serve as directors and are standing for election to a three year term of office expiring at

the 2007 annual meeting and until their successors are duly elected. In

Edgar Filing: COMMERCIAL METALS CO - Form DEF 14A

addition, nominee Harold L. Adams stands for election as a Class III director to serve a three year term of office expiring at the 2007 annual meeting and until his successor is duly elected. Mr. Adams has been the Chairman Emeritus of RTKL Associates Inc., an international architecture, engineering and planning firm headquartered in Baltimore, Maryland, since April 2003 and has been associated with RTKL since 1969, having previously served as Chairman since 1987, Chief Executive Officer since 1971 and President from 1969 through 1999. The three continuing Class I directors and nominee J. David Smith, if elected, will serve as a Class I director until the 2005 annual meeting of stockholders. Mr. Smith has been Chairman, President and Chief Executive Officer of Euramax International, Inc., since its inception in 1996 when it acquired certain portions of the fabricated products operations of Alumax, Inc. Mr. Smith had been President of the Amerimax Fabricated Product group since 1990 and was a Vice President of Alumax from 1994 to 1996. Euramax is an international producer of aluminum, steel, vinyl and fiberglass products for original equipment manufacturers, distributors, contractors and home centers in North America and Western Europe. The term of office of the three continuing Class II directors expires at the 2006 annual meeting of stockholders. Proxies cannot be voted for the election of more than five persons to the board of directors at the meeting.

Each nominee has consented to being named in this proxy statement and to serve if elected. If any nominee becomes unavailable for any reason, the shares represented by the proxies will be voted for the person, if any, as may be designated by our board of directors. However, management has no reason to believe that any nominee will be unavailable.

The following table sets forth information about the directors. All directors have been employed in substantially the same positions set forth in the table for at least the past five years except for Messrs. Rabin, Adams, Womack and Selig. Mr. Rabin was elected to the additional position of Chairman of Commercial Metals Company in March 1999. Mr. Adams was named Chairman Emeritus of RTKL Associates Inc. in April 2003 having been Chairman and Chief Executive Officer for more than five years. Mr. Womack was Chairman and Chief Executive Officer of Zurn Industries, Inc. prior to its merger in 1998 with U.S. Industries. Mr. Womack retired as Chairman and Chief Executive Officer of Zurn Industries, Inc. and Chief Executive of U.S. Industries Bath and Plumbing Products Group in January 2000. Mr. Selig was elected to the additional position of Chief Executive Officer of the CMC Steel Group in June 2002.

ADDITIONAL INFORMATION RELATING TO CORPORATE GOVERNANCE AND THE BOARD OF DIRECTORS

Corporate Governance. Our board of directors has determined, after considering all the relevant facts and circumstances, that Messrs. Loewenberg, Feldman, Neary, Massaro and Womack and nominee Mr. Smith and nominee Mr. Adams and Ms. Owen are independent, as "independence" is defined by the recently approved revised listing standards of the New York Stock Exchange, because they have no direct or indirect material relationship with us (either directly or as a partner, shareholder or officer of an organization that has a relationship with the company).

Edgar Filing: COMMERCIAL METALS CO - Form DEF 14A

We have three standing board committees, audit, compensation and nominating and corporate governance. Membership of each of these committees is comprised entirely of independent directors. The board of directors has adopted charters for each of these committees describing the authority and responsibilities delegated to each committee by the board. Our board of directors has also adopted corporate governance guidelines. In addition to the charter of the audit committee, as recently amended and attached to this proxy statement, all committee charters, corporate governance guidelines, financial code of ethics and other information is available at our website, www.commercialmetals.com. The board recognizes that there is an

5

ongoing and energetic debate about corporate governance and it will review these charters, guidelines and other aspects of governance as deemed necessary.

Non-management directors regularly schedule executive sessions in which non-management directors meet without the presence of management. The presiding director of such executive sessions rotates among the Chairs of the audit committee, compensation committee and the nominating and corporate governance committee. Interested parties may communicate with the non-management directors by submitting a letter addressed to Non-management Directors c/o General Counsel at P.O. Box 1046, Dallas, Texas 75221.

Meetings of the Board of Directors. During the fiscal year ended August 31, 2003, the entire board of directors met ten times, of which seven were regularly scheduled meetings and three were special meetings. All directors attended at least seventy-five percent or more of the meetings of the board and of the committees on which they served.

Audit Committee. The board of directors has a standing audit committee which performs the activities more fully described in the Audit Committee Report on page 17. The members of the audit committee during fiscal year 2003 were Messrs. Womack (Chairman), Feldman, and Neary and Ms. Owen. During the fiscal year ended August 31, 2003, the audit committee met nine times.

Compensation Committee. The board of directors has a standing compensation committee that is responsible for the matters described in the committee's charter including annually reviewing and approving corporate goals and objectives relevant to the CEO's compensation, evaluating the CEO's performance in light of those goals and objectives and setting the CEO's compensation based on this evaluation as well as assisting the board in the discharge of its responsibilities relating to the establishment, administration and monitoring of fair and competitive compensation and benefits programs for the company's executive officers and other executives. During 2003, the compensation committee consisted of Messrs. Loewenberg (Chairman), Feldman, Neary and Massaro. The compensation committee met three times during the fiscal year ended August 31, 2003, to establish the CEO's salary and bonus, make recommendations to the board of directors as to salary and bonus compensation for other executive officers, to review compensation policies, approve the issuance of stock options and consider the committee's charter.

Nominating and Corporate Governance Committee. The board of directors has a standing nominating and corporate governance committee that is responsible for the matters described in the committee's charter including efforts to identify and make recommendations as to individuals qualified to be nominated for election to the board of directors, reviewing management succession planning, and corporate governance matters. During 2003, the nominating and corporate governance committee consisted of Messrs. Massaro (Chairman), Feldman,

Edgar Filing: COMMERCIAL METALS CO - Form DEF 14A

Loewenberg, Neary and Womack and Ms. Owen. The nominating and corporate governance committee met four times during the fiscal year ended August 31, 2003, to consider board structure, corporate governance matters including governance guidelines and committee charters, candidates for directors and executive officer succession. The committee will consider persons recommended by stockholders for inclusion as nominees for election to our board of directors if the names, biographical data and qualifications of such persons are submitted in writing in a timely manner addressed to the attention of the committee and delivered to the Secretary of Commercial Metals Company at P.O. Box 1046, Dallas, Texas 75221.

Compensation of Non-employee Directors. None of our employees receive additional compensation for serving as a director. Messrs. Feldman, Loewenberg, Massaro, Neary and Womack and Ms. Owen were paid an annual retainer fee of \$27,000 and \$1,200 for each board meeting or \$600 for each committee meeting they attended prior to April 1, 2003. Effective April 1, 2003, the annual retainer fee was increased to \$34,000 and board and committee meeting attendance fees were increased to \$1,500. Chairmen of the audit, compensation and nominating and corporate governance committees receive an additional payment, which was \$1,500 per year prior to April 1, 2003 and was increased to \$5,000 per year effective April 1, 2003. We also reimburse the directors for expenses in connection with their attendance at board and committee meetings.

The Non-Employee Director Stock Option Plan approved at the 2000 annual meeting of stockholders provides that each non-employee director receive on the date of each annual meeting of stockholders an option

6

to acquire, as adjusted for our June, 2002, two-for-one stock dividend, 3,000 shares. Directors elected to fill vacancies between annual meetings receive a grant for a pro rata amount based on their period of service before the next annual meeting. Each non-employee director received on January 23, 2003, an option to acquire 3,000 shares of common stock at an exercise price of \$15.10 per share. In addition, each non-employee director may make an irrevocable election prior to January 1 of each year to accept an additional option grant in lieu of all or part of the annual cash retainer to be paid for that year. The number of shares subject to option as a result of this election is determined by dividing the amount of the annual retainer by the Black-Scholes value for one share as of the grant date. The grant date is the date of the annual meeting of stockholders following the calendar year covered by the election. Messrs. Loewenberg, Massaro and Ms. Owen each received an option to acquire 6,560 shares of common stock at an exercise price of \$15.10 per share on January 23, 2003, in lieu of receipt of the annual cash retainer for calendar year 2002. Messrs. Loewenberg and Massaro and Ms. Owen have also elected to accept an option for a number of shares to be determined and granted January 22, 2004, in lieu of their retainer fee for the calendar year 2003.

The exercise price for all options granted non-employee directors shall be the fair market value on the day of grant. One-half of the number of the shares covered by each 3,000 share option vests on the first anniversary of the date of grant with the remaining one-half vesting on the second anniversary or immediately upon a change in control. All options received as a result of a non-employee director's election to receive an option in lieu of the cash retainer are fully vested on the date of grant. All non-employee director options terminate on the earliest of (i) the seventh anniversary of the date of grant; (ii) one year after termination of service by reason of death or disability; (iii) two years after termination of service by reason of retirement after age sixty-two; or (iv) thirty days following termination of service for any other reason. These options are "non-qualified" options under Section 422A of the Internal Revenue Code.

Edgar Filing: COMMERCIAL METALS CO - Form DEF 14A

SECTION 16 BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires directors, executive officers and beneficial owners of more than 10% of our common stock to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of our common stock and any of our other equity securities. Based solely upon our review of the copies of such forms received by us or written representations that no Form 5's were required from reporting persons, we believe that all such reports were submitted on a timely basis during the fiscal year ended August 31, 2003, except as follows:

Hugh M. Ghormley, a former executive officer, inadvertently failed to timely report two transactions, a purchase of 573 shares that occurred in April, 2002 and a gift of 400 shares in July, 2002. The transactions were reported on two Form 4s filed on April 4, 2003 with the Securities and Exchange Commission.

Robert R. Womack, a non-employee director, inadvertently failed to timely report 18 separate small acquisitions for an aggregate of 670.86 shares that occurred one per quarter during each quarter from the fourth quarter of fiscal 1999 through the first quarter of fiscal 2004 pursuant to a broker-administered automatic dividend reinvestment program. The transactions were reported on a Form 4 filed on November 12, 2003 with the Securities and Exchange Commission.

EMPLOYMENT CONTRACTS AND TERMINATION OF EMPLOYMENT ARRANGEMENTS

We entered into an employment agreement with Murray R. McClean on September 1, 1999. Mr. McClean is employed as a Vice President of Commercial Metals Company and as President of the Marketing and Distribution segment. The initial term of the employment agreement expired August 31, 2002, but the agreement automatically extends for three consecutive one-year terms, beginning September 1, 2002, unless either party terminates the agreement. Mr. McClean's minimum base salary is \$300,000 per year. He is

also eligible to earn a discretionary annual bonus. Mr. McClean is eligible to participate in or receive benefits under any plan or arrangement made generally available to our employees. If we terminate Mr. McClean's employment for cause, or for nonperformance due to disability, or if Mr. McClean terminates his own employment, then we have no further payment obligations. If we terminate Mr. McClean's employment without cause, then we must pay his base salary for a period of 12 months. Mr. McClean has agreed that during the term of his employment and for two years after his termination, he will not participate in

Edgar Filing: COMMERCIAL METALS CO - Form DEF 14A

any business that is competitive with our business.

RETIREMENT BENEFITS

Substantially all of our employees and employees of our domestic subsidiaries participate in one of three profit sharing and 401(k) plans, all defined contribution plans. We have no defined benefit pension plan.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The members of the compensation committee of our board of directors are Messrs. Loewenberg, Feldman, Massaro and Neary. None of the members of the compensation committee was at any time during fiscal year 2003, or at any other time, an officer or employee of Commercial Metals Company. No member of the compensation committee serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of our board of directors or compensation committee.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

This report is submitted by the compensation committee concerning compensation policies applicable to our twelve executive officers and the basis for Mr. Rabin's compensation as Chief Executive Officer, for the fiscal year ended August 31, 2003. The compensation committee is comprised of non-employee directors, Messrs. Loewenberg (Chairman), Feldman, Massaro and Neary.

OBJECTIVES AND STRATEGY

We have two cash incentive plans in existence, the Key Employee Annual Incentive Plan and the Key Employee Long-Term Performance Plan. During the fiscal year ten of our thirteen executive officers (one retired at year end) and certain other key employees participated in both plans. Two executive officers participate only in the Key Employee Long-Term Performance Plan although eligible for discretionary bonus payments which are also subject to review and approval by the committee. Only one of our executive officers has an employment contract (described at Certain Relationships and Related Transactions on page 14) although most have many years of service with the company.

The objectives of our annual incentive plan include:

- payment for short-term results which encourages longer term value creation by achieving annual business and financial performance targets;
- directly linking compensation to consolidated financial results;
- maintaining an entrepreneurial culture among management by linking compensation to results in defined areas of responsibility;
- communicating expectations, results and incentive payouts;
- paying competitive or above market total cash compensation for high performance; and
- funding incentive payouts from financial results while maintaining acceptable stockholder returns.

This plan provides for target award opportunities expressed as a percentage of base salary with threshold and superior award levels. The plan establishes a maximum limitation as a percentage of operating profit on all

annual bonuses. The plan's primary performance measure is operating profit defined as FIFO operating profit before certain items, including taxes, but after interest expense. The plan provides for the participant's award opportunity to be determined based on corporate, business unit and individual performance. For instance, the chief executive officer's annual award is based entirely on our consolidated performance, and the annual award of each president of our segments is a pro rata performance award based on that segment's performance and our consolidated performance.

The objectives of our long-term performance plan include:

- linking compensation to factors that create long-term financial success;
- providing greater long-term orientation and competitiveness in total compensation by establishing a performance based component in addition to our existing stock option incentives;
- providing a balance to short-term incentives in the decision making process;
- encouraging management to promote our overall interest by linking performance to company-wide financial results;
- remaining competitive with respect to compensation in attracting and retaining superior talent; and
- funding cash payments through improved business results.

This plan provides cash payments contingent on the attainment of multi-year performance goals. At the beginning of the performance period, the committee establishes goals and measures results over a three-year period. The committee establishes target award opportunities as a percentage of base salary for each participant. The awards may be paid if we achieve the targeted performance at the end of the performance period. Threshold and maximum award levels are also established. The plan's primary performance measure is growth in earnings before interest, taxes, depreciation and amortization, which we call EBITDA. The committee establishes achievement levels at the beginning of each performance period using our historical EBITDA as a base line. We measure growth in EBITDA against our highest EBITDA amount prior to the commencement of the three-year measurement period. Participants earn awards only if we exceed the previous record EBITDA. Since the plan uses overall corporate financial performance to determine award levels, we do not consider individual segment results.

The committee believes these plans support our long-standing practice of basing a significant portion of total compensation for key executives as risk contingent upon financial results. This strategy continues our philosophy of having competitive base salaries, and providing an opportunity for above-average annual cash bonuses with attainable long-term equity incentive expectations. In addition, the committee has continued to award stock option grants to executive officers in lower amounts and subject to shorter exercise time periods than levels and terms at comparable companies. The committee believes this strategy is consistent with the highly cyclical nature of our business which is characterized by wide periodic swings in steel and metal prices.

In evaluating compensation matters, the committee reviews information prepared or compiled by our employees, confers with independent executive compensation consultants as appropriate and makes decisions based on the business experience of each committee member.

CASH COMPENSATION

Base Salary. Fiscal year 2003 base salaries for all executive officers increased in the aggregate approximately 6.6%. Two factors considered by the committee resulted in approval of this larger than customary aggregate increase. Eight of the executive officers' salaries had not increased since 2001 and four received above normal increases (comprising approximately 48% of the aggregate group increase) as a result of their assumption of additional responsibilities following the retirement of a senior executive officer the prior year. Fiscal year 2004 base salaries for the twelve continuing executive officers have been approved by the committee at levels which result in an aggregate increase of approximately 1.5%. Seven of the twelve executive officers received no base salary increase from 2003. The committee believes the base salary of each executive

11

officer reflects his or her individual contribution, is within the salary range for similar positions in companies of comparable size and complexity, and is aligned with our total compensation strategy.

Annual Incentive Bonus. The committee approved cash bonus payments for each executive officer in 2003 based upon the committee's evaluation of individual contribution, the respective segment performance and our overall consolidated financial results for 2003. Net earnings decreased 53% over the prior year. Consolidated fiscal year 2003 results were significantly below expectations although results varied dramatically between segments with the Recycling segment and the Marketing and Distribution segment exceeding expectations. Consistent with the objectives of the annual incentive plan, those two executive officers with direct responsibilities for the two of our three segments with excellent financial results received bonus awards which increased in aggregate 66% over the prior year and were heavily influenced by those segments' results. All other executive officers, with annual incentives more aligned with consolidated results or our weaker performing segment, received aggregate bonus payments which declined 26% from 2002. The aggregate amount of bonuses paid all executive officers for their 2003 performance decreased \$316,500 or approximately 16% compared to 2002. The committee believes these bonus payments are consistent with the evaluation of our overall financial results and the intent of our annual incentive plan, taking into consideration the unusually mixed segment financial results.

LONG-TERM COMPENSATION

Equity-Based. We issued stock option grants to nine of the twelve executive officers during fiscal year 2003 and to 230 other employees. The number of shares subject to grants awarded to executive officers during the fiscal year 2003 was 131,525, approximately 16% of the shares awarded to all employees for option grants during the fiscal year 2003. We made these periodic grants based on an evaluation of each executive's responsibilities and ability to influence long-term growth and profitability. The committee believes equity based incentives align stockholder interest with compensation levels. The committee intends to continue issuing equity incentives, when and in the form it considers appropriate, subject to stockholder approval of any increase to the number of shares available for issuance beyond that previously authorized by stockholders.

Long-Term Incentive Plan. No awards were earned during fiscal year 2003 or in 2002 under the long-term incentive plan because performance measures established under the plan were not met. The committee will continue to review the appropriateness of the performance measures adopted under the plan. The committee considers high, yet attainable, results over a three-year period to be

Edgar Filing: COMMERCIAL METALS CO - Form DEF 14A

a significant factor in executive officer compensation strategy.

Retirement Benefits. We have no defined benefit pension plans. The only long-term compensation retirement plans we have for our employees in the United States are the defined contribution profit sharing and 401(k) plans. As a result of limitations mandated by federal tax law and regulations that limit defined contribution plan retirement benefits of more highly compensated employees, including executive officers, our board of directors in 1996 approved the Benefit Restoration Plan. The Benefit Restoration Plan is a non-qualified plan for certain executives subject to reduced benefits. Following each year-end we contribute to a trust created under the Benefit Restoration Plan an amount equal to the additional contribution which the participant would have received under the profit sharing and 401(k) plan had the executive's benefit not been reduced. The payments we make to the Benefit Restoration Plan for the benefit of participants, including executive officers, vest under the same terms and conditions as the relevant profit sharing and 401(k) plan. The committee believes these payments are an important element in our long-term compensation program because they restore a reasonable level of retirement benefits for executive officers and other key employees.

CEO COMPENSATION

The committee annually sets Mr. Rabin's salary based on similar positions in comparable companies. Mr. Rabin's annual bonus is based on the same factors considered for other members of the executive officer group as described under the annual incentive plan and is tied to our overall performance with no weighting for individual segment performance. Mr. Rabin's salary for fiscal year 2003 was \$525,000, an increase of \$50,000 over the prior year. Mr. Rabin's cash bonus for fiscal year 2003 was set at \$240,000, a decrease of \$110,000, or

12

31% below the prior year cash bonus amount. As a result, his overall compensation decreased 7.3%. The decreased annual incentive cash bonus paid to Mr. Rabin reflected the committee's determination that as Chief Executive Officer with responsibility for consolidated financial performance his earnings should decline notwithstanding the committee's evaluation of his performance as continuing to be superior. In particular the committee is cognizant of the prolonged difficult industry-wide market conditions faced by our Manufacturing segment during the past year and the ameliorating impact of strategic objectives implemented under his guidance. The committee believes Mr. Rabin's bonus is consistent with the intent of our annual incentive plan. The committee determined that Mr. Rabin's salary for fiscal year 2004 should be increased to \$550,000. Mr. Rabin received a stock option grant for 41,800 shares during fiscal year 2003, a 10% increase from his last option grant in 2002.

CONCLUSION

The committee believes that current total compensation arrangements are reasonable, competitive, and consistent with the compensation philosophy and plans described above and reflect our financial results. The committee will continue to monitor the federal tax treatment to us and to our executive officers of various payments and benefits and in particular the limitations on deductibility of compensation payments to certain officers under Section 162(m) of the Internal Revenue Code. To date, this limitation has not had a significant impact on the deductibility of compensation we have paid. The committee has not recommended that the annual incentive plan or long-term incentive plan be submitted to stockholders for approval due, in part, to the fact that we have incurred no significant loss of tax deductions for compensation to our executive officers. The committee will continue to monitor the impact of this restriction

Edgar Filing: COMMERCIAL METALS CO - Form DEF 14A

and may in certain circumstances limit executive compensation to that which is deductible under Section 162(m) of the Internal Revenue Code. The committee shall continue to evaluate and set the CEO's compensation, administer compensation programs for executive officers, evaluate recommendations for establishment of performance measures under existing plans, consider new compensation policies when appropriate and perform the responsibilities delegated to the committee in its charter.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Commencing in July, 2000, pursuant to the terms of Murray R. McClean's employment agreement, we made three loans evidenced by three notes to Mr. McClean. The purpose of the loans was to assist with Mr. McClean's expenses, including the purchase of a home, in connection with his relocation from Australia to our headquarters in Dallas. The largest aggregate amount of Mr. McClean's indebtedness during fiscal year 2003 was \$628,110. Two unsecured notes in the original aggregate principal amount of \$330,000 bear interest at a variable rate fixed annually each September 1 equal to U.S. Treasury Securities adjusted to a constant maturity of one year for the preceding month of July plus one percent. As of September 1, 2002, the applicable rate on the unpaid balance of \$330,000 on these two notes was 2.96%. As of September 1, 2003, the interest rate was 2.12%. A third note in the original principal amount of \$385,000 was secured by a second lien on a residence purchased by Mr. McClean and did not bear interest.

During fiscal year 2003, Mr. McClean made early prepayments and mandatory principal payments totaling \$364,110 and interest payments of \$14,606 on the three notes. The note secured by the second lien on the residence was paid in full in November, 2002. The unpaid principal balance at August 31, 2003, on the remaining two unsecured notes was \$264,000. In October, 2003, Mr. McClean made additional payments of principal totaling \$66,000 thereby reducing the aggregate principal outstanding under the remaining two unsecured notes to \$198,000.

Pursuant to the Sarbanes-Oxley Act of 2002, new loans to executive officers and directors are prohibited, and existing loans may not be amended or extended. As a result, we will not grant any new loans or extend or amend any existing loans to our executive officers or directors. The loans to Mr. McClean were made prior to the effective date of the Sarbanes-Oxley Act of 2002, there have been no extensions or amendments of these loans after such date and all required payments of principal and interest have been made on or before the due dates.

PROPOSAL II

PROPOSED AMENDMENT TO THE RESTATED CERTIFICATE OF INCORPORATION

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE PROPOSAL.

On November 17, 2003, the board of directors adopted a resolution to amend our restated certificate of incorporation to increase the number of authorized shares of common stock, par value \$5.00 per share, from 40,000,000 to 100,000,000 shares and to propose such an amendment to be voted on by the stockholders at this annual meeting. The board of directors strongly recommends the adoption by the stockholders of such an amendment.

On November 24, 2003, there were 28,320,895 shares of common stock issued and outstanding not including 3,944,271 treasury shares. In addition, as of such date, 3,753,689 shares of common stock were reserved for issuance upon exercise of outstanding stock options and subscriptions under our employee stock purchase plan. A total of 2,342,930 shares of common stock were reserved for future issuance under our equity compensation plans. Accordingly, as of November 24, 2003, 5,582,486 shares were otherwise available for future issuance. If this proposal is approved and effected, we will have available 65,582,486 authorized but unissued and unreserved shares of common stock.

The board of directors believes that it is in the best interests of our company and its stockholders to increase the number of authorized but unissued shares of common stock in order to have additional shares available to meet future business needs as they arise. The board of directors believes the availability of these additional shares will provide our company with the flexibility to issue common stock for a variety of purposes including, among others, the declaration of stock splits or distributions, the sale of common stock or securities that may convert into common stock to obtain additional funding, the purchase of property, the acquisition of other companies, the use (subject to stockholder approval as required) of additional shares for various equity compensation and other employee benefit plans, and other bona fide corporate purposes. Historically the board of directors has declared stock dividends when, in the discretion of the board of directors, the earnings, business prospects, share price and cash requirements of the company permitted. Since 1966 we have declared and paid 15 stock dividends ranging from 5% to 100%. For example, in June, 2002, a two-for-one stock split in the form of a stock dividend was declared and paid to stockholders.

While no stock dividend, acquisition for stock or use of stock for additional financing is presently proposed or contemplated and we have no immediate plans, understandings, agreements or commitments to issue any portion of the additional authorized shares that would result from the proposed

Edgar Filing: COMMERCIAL METALS CO - Form DEF 14A

amendment, the board of directors believes that the proposed increase will provide desired flexibility should a need arise.

Although not designed or intended for such purposes, the effect of the proposed increase in the authorized number of common stock might render more difficult or discourage a merger, tender offer, proxy contest or change in control and the removal of management, which stockholders might otherwise deem favorable. The authority of the board of directors to issue common stock might be used to create voting impediments or to frustrate an attempt by another person or entity to effect a takeover or otherwise gain control of our company because the issuance of additional common stock would dilute the voting power of the common stock and preferred stock then outstanding. The additional shares of common stock could also be issued to purchasers who would support the board of directors in opposing a takeover bid which the board of directors determines not to be in the best interests of our company and the interest of its stockholders. We are not currently aware of any pending or proposed transaction involving a change in control. While authorization of additional shares may be deemed to have potential anti-takeover effects, this proposal is not prompted by any specific effort or perceived threat of takeover.

The proposed amendment would not alter any of the rights incident to the ownership of shares of common stock or affect the terms and conditions upon which shares of common stock currently may be issued. Holders of shares of common stock currently have no preemptive rights to acquire any additional securities including any shares of common stock, and this will continue to be the case if the proposed amendment is approved and adopted.

16

The proposed amendment authorizing the increase in the authorized shares of the common stock will amend the Article Fourth of our restated certificate of incorporation. If the amendment is approved, the text of the Article Fourth will read in its entirety as set forth below:

FOURTH: The aggregate number of shares of capital stock which the corporation shall have authority to issue is One Hundred Two Million (102,000,000) of which One Hundred Million (100,000,000) shares shall be Common Stock at the Par Value of Five Dollars (\$5.00) per share and Two Million (2,000,000) shares shall be Preferred Stock of the Par Value of One Dollar (\$1.00).

If this proposal is approved, we plan to file a certificate of amendment to the restated certificate of incorporation with the Secretary of State of Delaware as soon as possible after the annual meeting.

VOTE REQUIRED

The affirmative vote of the holders of a majority of our common stock issued and outstanding is required to adopt the amendment to the restated certificate of incorporation.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF THE AMENDMENT TO THE RESTATED CERTIFICATE OF INCORPORATION.

AUDIT COMMITTEE REPORT

For many years we have had a standing audit committee of our board of directors. Our board of directors annually selects the members of the committee. Four non-employee directors, Messrs. Womack (Chairman), Feldman and Neary and Ms. Owen are presently members of the committee. Our board of directors has

Edgar Filing: COMMERCIAL METALS CO - Form DEF 14A

determined that each member of the committee is qualified to serve. The committee satisfies all applicable financial literacy requirements and each member is independent as required by the Sarbanes-Oxley Act and as "independence" is defined by the recently revised listing standards of the New York Stock Exchange. Our board of directors has determined that Messrs. Womack and Neary meet the definition of "audit committee financial expert" as defined by the Securities and Exchange Commission.

The Audit Committee Charter sets forth the duties and responsibilities of the committee. The Audit Committee Charter was initially adopted on March 17, 2000. As part of the review of all corporate governance matters by our board of directors, during the past fiscal year the committee and our board of directors evaluated the provisions of that initial charter in light of new laws and regulations and proposed and recently adopted revisions to New York Stock Exchange listing requirements. On September 22, 2003, our board of directors adopted the Audit Committee Charter attached to this proxy statement as Appendix "A" to replace the initial charter. During the fiscal year ended August 31, 2003, the committee met nine times. The committee, among the other activities described in its charter, has sole authority for the appointment (subject to stockholder ratification), retention, oversight, termination and replacement of the independent auditor, recommends to our board of directors whether the audited financial statements should be included in our Annual Report on Form 10-K, reviews quarterly financial statements with management and the independent auditor, reviews with our internal audit staff and independent auditor our controls and procedures and approves, prior to rendition of services, all audit and engagement fees of the independent auditor.

The committee has reviewed and discussed the audited financial statements for the fiscal year ended August 31, 2003, with management and with the independent auditors. Those discussions included the matters required to be disclosed by Statement on Auditing Standards No. 61 (Communication with Audit Committees). The committee has received the written disclosures and letter from the independent auditors as required by Independence Standards Board Standard No. 1 concerning independence discussions with audit committees. The committee has discussed with the independent auditors their independence under such standards and has determined that the services provided by Deloitte & Touche LLP are compatible with maintaining their independence. Based on the committee's discussion and review with management and the independent auditors, the committee recommended to our board of directors that the audited financial statements for the

17

fiscal year ended August 31, 2003, be included in our Annual Report on Form 10-K as filed November 24, 2003 with the Securities and Exchange Commission.

Deloitte & Touche LLP or its predecessors have conducted the audits of our financial statements for many years. Fees billed by Deloitte & Touche LLP to us for services during the fiscal years ended August 31, 2002 and August 31, 2003 were:

TYPE OF FEES -----	FISCAL YEAR 2002 -----	FISCAL YEAR 2003 -----
Audit Fees.....	\$768,075	\$ 954,470

Deloitte & Touche LLP Total Fees.....	\$889,894	\$1,308,932

In accordance with new SEC definitions and rules which we elected to adopt for this year's proxy statement, the above table discloses all fees we have paid Deloitte & Touche LLP for services during our fiscal years ended August 31, 2003 and 2002. The caption "audit fees" are fees we paid Deloitte & Touche LLP for professional services for the audit of our consolidated financial statements included in Form 10-K and review of financial statements included in Form 10-Qs, or for services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements. "Audit-related fees" are fees billed by Deloitte & Touche LLP for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements, "tax fees" are fees for tax compliance, tax advice, and tax planning, and "all other fees" are fees billed by Deloitte & Touche LLP for any services not included in the first three categories.

Representatives of Deloitte & Touche LLP will be present at the meeting, will have the opportunity to make a statement if they so desire and will be available to respond to appropriate questions. The board of directors requests that stockholders ratify the appointment by the audit committee of Deloitte & Touche LLP as independent auditors to conduct the 2004 audit of our financial statements.

VOTE REQUIRED

The affirmative vote of the holders of a majority of shares present or represented at the meeting and entitled to vote is required to adopt the proposal to ratify the appointment of Deloitte & Touche LLP as our independent auditors for the fiscal year ending August 31, 2004.

APPENDIX A

COMMERCIAL METALS COMPANY

AUDIT COMMITTEE CHARTER

This Audit Committee Charter (Charter) sets forth the purpose and membership requirements of the Audit Committee (the Committee) of the Board of Directors (the Board) of Commercial Metals Company (CMC or Company) and establishes the authority and responsibilities delegated to it by the Board.

1. Purpose.

The purpose of the Committee is to oversee:

- The integrity of the Company's financial statements and disclosures,

- The qualifications, independence and performance of the Company's independent auditing firm (the Independent Auditor),
- The performance of the Company's internal audit function,
- The Company's internal control systems, and

In addition, each member of the Committee must meet the independence requirements of applicable federal laws, including the Sarbanes-Oxley Act of 2002, (the Act), securities laws, including the rules and regulations of the SEC and of the NYSE as such requirements are interpreted by the Board in its business judgment.

2.4. Simultaneous Service on Other Audit Committees.

If a member of the Committee serves on the audit committee (or, in the absence of an audit committee, the board committee performing equivalent functions, or, in the absence of such committee, the board of directors) of more than four (4) public companies in addition to the Company, the Board must affirmatively determine that such simultaneous service on multiple audit committees will not impair the ability of such member to serve on the Committee. The basis for the Board's determination shall be disclosed in the Company's proxy statement prepared in connection with its annual meeting of stockholders.

2.5. Compensation.

The members of the Committee shall not receive any direct or indirect compensation from the Company, other than director's fees. Members of the Committee shall, at the discretion of the Board, be entitled to receive fees for service on the Committee or for service as Chairman of the Committee in addition to the normal fees paid to all directors.

If the Committee approves an audit service within the scope of the engagement of the Independent Auditor, such audit service shall be deemed to have been pre-approved for purposes of this Section.

6.2.2. Delegation of Pre-Approval Authority. The Committee may delegate to one (1) or more members of the Committee the authority to grant pre-approval of non-audit services required by this Section.
