PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

We are furnishing this Proxy Statement to stockholders of record as of the close of business on August 4, 2003 in connection with the solicitation of proxies by our Board of Directors for use at the Annual Meeting of Stockholders to be held on September 15, 2003. This Proxy Statement and the accompanying form of proxy are being mailed to the stockholders on or about August 14, 2003. Our Annual Report on Form 10-KSB for the year ended December 31, 2002 (which does not form a part of the proxy solicitation materials) is being distributed concurrently herewith to stockholders.

VOTING SECURITIES; PROXIES; REQUIRED VOTE

VOTING SECURITIES

We have two classes of voting securities: Common Stock and Series B Convertible Preferred Stock. The Common Stock and Series B Convertible Preferred Stock vote together as a single class. At the annual meeting, each holder of record of Common Stock at the close of business on August 4, 2003 will be entitled to one vote for each share of Common Stock owned on that date as to each matter presented at the Annual Meeting. In addition, the Series B Convertible Preferred Stock votes on an as converted to Common Stock basis. Accordingly, each stockholder of record on August 4, 2003 of Series B Convertible Preferred Stock will be entitled to 15.19 votes for each share of Series B Convertible Preferred Stock owned as to each matter presented at the Annual Meeting. However, fractional votes will not be permitted, and any fractional votes on an as-converted basis will be rounded to the nearest whole number of votes. On June 30, 2003, 27,622,379 shares of Common Stock and 119,662 shares of Series B Convertible Preferred Stock, representing a total of 1,817,379 votes, were outstanding.

PROXIES

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

You cannot vote your shares at the meeting unless you are present in person or represented by proxy. All properly executed and unrevoked proxies in the accompanying form that are received in time for the meeting will be voted at the meeting or any adjournment or postponement thereof in accordance with instructions thereon, or if no instructions are given, will be voted "FOR" the election of all of the named nominees as Directors, "FOR" the amendment to our Amended and Restated Certificate of Incorporation to increase the number of authorized shares of Common Stock, "FOR" the approval of the sale and issuance of Common Stock and warrants in the private placement, "FOR" the amendment to our Amended and Restated 1995 Omnibus Incentive Plan, "FOR" the ratification of Ernst and Young LLP as our independent auditors, and in accordance with the judgment of the persons appointed as proxies with respect to other matters which properly come before the Annual Meeting. You may revoke a proxy by written notice to us at any time prior to exercise of the proxy. In addition, although mere attendance at the Annual Meeting will not revoke a proxy, you may withdraw your proxy by voting in person.

REQUIRED VOTE

At the Annual Meeting, (1) a plurality of the votes cast in person or by proxy is required to elect Directors; (2) the affirmative vote of holders of at least a majority of the voting power of the outstanding shares of Common Stock and Series B Preferred Stock represented in person or by proxy at the meeting, voting together as a single class, is required to (a) approve the sale and issuance of shares of Common Stock and warrants in the private placement, (b) approve the amendment to our Amended and Restated 1995 Omnibus Incentive Plan and (c) ratify the appointment of Ernst and Young LLP as the independent auditors of our financial statements for the year ending December 31, 2003 and (3) the affirmative vote of holders of at

least a majority of the voting power of the outstanding shares of Common Stock and the Series B Preferred Stock, voting together as a single class, is required to approve the amendment our Amended and Restated Certificate of Incorporation. In addition, the affirmative vote of holders of at least a majority of the voting power of the outstanding shares of Common Stock, voting as a separate class, is required to approve the amendment to our Amended and Restated Certificate of Incorporation. Stockholders are not allowed to cumulate their votes in the election of directors. With respect to the proposal to amend our Amended and Restated Certificate of Incorporation, both abstentions and broker non-votes (which occur when a broker holding shares for a beneficial owner does not vote on a particular proposal because the broker does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner) will have the same effect as votes against that proposal. Abstentions will have the same effect as votes against the proposals to approve the sale and issuance of Common Stock and warrants in the private placement, to amend our Amended and Restated 1995 Omnibus Incentive Plan and to ratify the appointment of Ernst and Young LLP, but broker non-votes will have no effect on the voting on such proposals. Neither abstentions nor broker non-votes will have any effect on the voting to elect directors.

QUORUM

The required quorum for the transaction of business at the Annual Meeting will be a majority of the voting power of shares of Common Stock and Series B Convertible Preferred Stock issued and outstanding on the record date, voting together as a single class. Abstentions and broker non-votes will be included in determining the presence of a quorum.

PROPOSAL 1

ELECTION OF DIRECTORS

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

Unless otherwise directed, the persons appointed in the accompanying form of proxy intend to vote at the Annual Meeting for the election of the eight nominees named below as directors to serve until our next annual meeting of stockholders or until their successors have been duly elected and qualified. If any nominee is unable to be a candidate when the election takes place, the shares represented by valid proxies will be voted in favor of such substitute nominee as the Board of Directors recommends or to allow the vacancy to remain open until filled by the Board of Directors, as the Board of Directors recommends. The Board of Directors does not currently anticipate that any nominee will be unable to be a candidate for election. The eight nominees who receive the greatest number of "FOR" votes of our outstanding Common Stock and Series B Convertible Preferred Stock, voting together as a single class, cast at the Annual Meeting will be elected as directors. Stockholders are not permitted to cumulate their votes in the election of directors.

The Board of Directors currently has eight members, all of whom are nominees for re-election. Each Director will serve until the next annual meeting of stockholders or until his successor has been duly elected and qualified, unless he dies, resigns or is removed from office prior to that time. Three of the eight nominees were appointed to the Board of Directors since the last election of directors at the 2002 annual stockholders meeting on May 23, 2002: Alexander M. Haig Jr. was appointed on December 23, 2002, Evan Myrianthopoulos was appointed on October 13, 2002, and Ralph M. Ellison was appointed on March 17, 2003.

Dr. Salomon has previously been a member of the Board of Directors of Genta Inc. and PolaRx and has been a scientific advisor to Cypress Biosciences Inc.

RECOMMENDATION OF THE BOARD OF DIRECTORS

The Board of Directors recommends that you vote "FOR" the election of all of the nominees listed above.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

We are required to identify each person who was an officer, director or beneficial owner of more than 10% of our Common Stock during our most recent fiscal year and who failed to file on a timely basis reports required by Section 16(a) of the Securities Exchange Act of 1934. Based solely on our review of the copies of such reports received by us, and representatives from certain reporting persons, we believe that, during the year ended December 31, 2002, our directors, executive officers and beneficial owners of more than 10% of our Common Stock complied with all such filing requirements applicable to them, except that (a) William Milling filed one late Form 3 and one late Form 4 reporting one transaction; (b) Steve Kanzer filed one late Form 4 reporting one transaction; (c) Peter Salomon filed one late Form 4 reporting one transaction; (d) Paul Rubin filed one late Form 4 reporting one transaction; (e) Larry Kessel filed one late Form 4 reporting one transaction and (f) Arthur Asher Kornbluth filed one late Form 4 reporting one transaction.

BOARD AND COMMITTEE MEETINGS

During the year ended December 31, 2002, the Board of Directors held 12 meetings. During 2002, each of the current members of the Board of Directors attended at least 75 percent of all of the Board meetings, while a director, and meetings of the committees on which he served, while a member of those committees. In addition to formal meetings, the Board of Directors and the members of the Audit and Compensation Committees conferred frequently on an informal basis.

The Compensation Committee of the Board of Directors determines the salaries and incentive compensation of our officers and provides recommendations

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

for the salaries and incentive compensation of our

5

other employees and consultants. The Compensation Committee also administers various incentive compensation, stock and benefit plans. Dr. Salomon and Dr. Kessel are currently the Compensation Committee members, with Dr. Salomon serving as Chairman. The Compensation Committee held two meetings during 2002.

The Audit Committee of the Board of Directors reviews, acts on and reports to the Board of Directors with respect to various auditing and accounting matters, including the selection of our independent auditors, the scope of the annual audits, fees to be paid to the auditors, the performance of the auditors and our accounting practices. Messrs. Kanzer and Myriantopoulos were for the fiscal year ended December 31, 2002, and currently are, the Audit Committee members, with Mr. Myriantopoulos serving as Chairman. For the fiscal year ended December 31, 2002, Messrs. Kanzer and Myriantopoulos were independent as defined by Section 121(A) of the American Stock Exchange's listing standards; and the Board of Directors believes that each of these individuals has the requisite financial skills and experience to discharge his obligations as a member of the Audit Committee. The Audit Committee held four meetings during 2002.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The Audit Committee exercises oversight responsibilities regarding the quality and integrity of our accounting, auditing and financial reporting practices. In discharging its oversight responsibilities regarding the audit process for the year ended December 31, 2002, the Audit Committee:

- reviewed and discussed the audited financial statements with management and with Ernst and Young LLP, our independent auditors;
- discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 as amended;
- reviewed the selection, application and disclosure of our critical accounting policies pursuant to SEC Financial Release No. 60, "Cautionary Advice Regarding Disclosure About Critical Accounting Policies;" and
- reviewed the written disclosures and the letter from the independent auditors required by the Independence Standards Board's Standard No. 1, and discussed with the independent auditors any relationships that may impact their objectivity and independence.

Based upon the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in our Annual Report on Form 10-KSB for the fiscal year ended December 31, 2002, as filed with the SEC.

The Audit Committee has considered and determined that the level of fees of Ernst and Young LLP for provision of services other than the audit services is compatible with maintaining the auditor's independence. The Audit Committee has approved the appointment of Ernst and Young LLP as our auditors of our financial statements for the year ending December 31, 2003, subject to ratification by our stockholders at the Annual Meeting (See "Proposal 5. Ratification of Independent Auditors").

EMPLOYMENT AND SEVERANCE AGREEMENTS

Following the implementation of our restructuring plan in June 2002, we entered into Separation and General Release Agreements with Dr. Colin Bier, our

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

former Chairman and Chief Executive Officer, and Michael S. Rosen, our former President and Chief Operating Officer. Under these agreements, our former executives immediately received six months' severance pay, and any options to purchase our Common Stock held by these executives which were not vested at the time of termination immediately became vested, and the options remained exercisable for one year following the execution of the separation agreements. Each of the terminated executives was also entitled to receive six additional months of severance pay beginning six months after termination, however this severance was offset by any earnings the executives received from other sources.

On September 20, 2002, we entered into an employment agreement with William Milling, CPA, our Controller, Corporate Secretary and Treasurer. Under this agreement, we agreed to pay Mr. Milling a base salary of \$95,000 per year and we granted Mr. Milling options to purchase 200,000 shares of our Common Stock, vesting over three years.

On October 7, 2002, we entered into an employment agreement with Robin Simuncak, our Director of Clinical Affairs. Under the this agreement, we agreed to pay Ms. Simuncak a base salary of \$90,000 per year and we granted Ms. Simuncak options to purchase 100,000 shares of our Common Stock, vesting over three years.

On December 10, 2002, we entered into an employment agreement with Robert N. Brey, Ph.D., our Vice President of Research and Development. Under this agreement, we agreed to pay Dr. Brey a base salary of \$155,000 per year and we granted Dr. Brey options to purchase 100,000 shares of our Common Stock, vesting over three years.

During March 2003, we entered into a three-year employment agreement with Ralph M. Ellison M.D., M.B.A., our Chief Executive Officer and President. Pursuant to this Employment Agreement we agreed to pay Dr. Ellison a base salary of \$200,000 per year, as well as a bonus of 30% of his base salary. Upon the completion of an equity financing of at least \$1,000,000, such as the private placement for which stockholder approval is being sought at the Annual Meeting, Dr. Ellison will receive an increase in base salary

8

to \$300,000 per year. In addition, we agreed to issue options to Dr. Ellison to purchase 2,000,000 shares of our Common Stock, with one-third immediately vesting and the remainder vesting over three years. Upon the termination of Dr. Ellison without "just cause," as defined by this agreement, we would pay Dr. Ellison six months' severance, as well as any earned but unpaid bonuses, and all unvested options would immediately become vested.

AGREEMENT WITH DIRECTOR

On December 23, 2002, we entered into an agreement with Alexander M. Haig, Jr. to serve as the Chairman of our Board of Directors. We agreed to pay Mr. Haig a retainer of \$50,000 per year for consulting services and to issue him options to purchase 2,000,000 shares of our Common Stock.

DIRECTOR COMPENSATION

Directors who are compensated as full-time employees receive no additional compensation for service on our Board of Directors or its committees. During 2002, each director who was not a full-time employee was paid \$1,000 for each Board or committee meeting attended (\$500 if attended telephonically). This rate applied until the October 23, 2002 Board meeting. At that meeting, the rate was changed to \$2,000 for each meeting attended (\$1,000 if attended telephonically).

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

We maintain a stock option grant program pursuant to the Amended and Restated 1995 Omnibus Incentive Plan, whereby members of our Board of Directors who are not full-time employees receive an initial grant of fully vested options to purchase 50,000 shares of Common Stock, and subsequent yearly grants of fully vested options to purchase 50,000 shares of Common Stock after re-election to our Board of Directors. In addition, each member of the Board of Directors received a one-time grant of fully vested options to purchase 100,000 shares of Common Stock on October 23, 2002.

In 2002, Mr. Haig received, instead of the regular initial grant, options to purchase an aggregate of 2,000,000 shares of our Common Stock, of which options to purchase 900,000 shares of Common Stock are subject to stockholder approval of the amendment to our option plan at the Annual Meeting, in connection with our retention of him as Chairman of the Board. In addition, Mr. Kanzer also received additional options to purchase 100,000 shares of Common Stock in consideration for his service as our Non-Employee Interim President during 2002, and Mr. Haig will receive an additional \$50,000 a year for consulting services outside of his service as Chairman of the Board. (See "Proposal 4. Proposal to Amend the 1995 Omnibus Incentive Plan").

RELATED PARTY TRANSACTIONS

In December 2002, we completed a private placement of 3,093,569 shares of our Common Stock and warrants to purchase 1,546,789 shares of our Common Stock. In this private placement we received total proceeds of \$1,082,750. Purchasers in this private placement on the same terms and conditions as the other subscribers, included (i) David M. Kent, our former Chief Executive Officer and President, who purchased 142,857 shares of Common Stock and warrants to purchase 71,429 shares of Common Stock for an aggregate price of \$50,000, (ii) Ralph M. Ellison, M.D., our current President, Chief Executive Officer and a member of our Board of Directors, who purchased 142,857 shares of Common Stock and warrants to purchase 71,429 shares of Common Stock for an aggregate price of \$50,000, (iii) Steve H. Kanzer, a member of our Board of Directors who purchased 285,714 shares of Common Stock and warrants to purchase 285,714 shares of Common Stock for an aggregate price of \$100,000, (iv) Lawrence Kessel, a member of our Board of Directors who purchased 42,857 shares of Common Stock and warrants to purchase 10,000 shares of Common Stock for an aggregate price of \$15,000, and (v) Peter Salomon, a member of our Board of Directors who purchased 10,000 shares of Common Stock and warrants to purchase 5,000 shares of Common Stock for an aggregate price of \$3,500.

In connection with our 2002 private placement, we issued warrants to purchase 463,073 shares of our Common Stock to certain individuals and entities, including warrants to purchase 80,913 shares of our Common Stock to Mr. Kanzer, in consideration for placement services rendered in connection with this

9

private placement. In addition, Evan Myriantopoulos, a member of our Board of Directors, acted as a placement agent, introducing certain investors to us. For these services, we paid Mr. Myriantopoulos \$15,375 in cash compensation and issued to him warrants to purchase 65,454 shares of Common Stock.

In connection with the private placement we are seeking approval of at this Annual Meeting (see "Proposal 3. Proposal to Approve the Sale and Issuance of Shares of Common Stock and Warrants in a Private Placement"), upon the issuance of the securities to the subscribers in this private placement, we have agreed to (i) issue warrants to purchase 150,754 shares of our Common Stock to Mr. Kanzer and to pay Mr. Kanzer \$21,000, and (ii) issue warrants to purchase 260,554 shares of our Common Stock to Mr. Myriantopoulos and to pay Mr.

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

Myrianthopoulos \$69,721.64, each in consideration for placement services rendered in connection with this private placement. In addition, Mr. Kanzer has agreed to purchase 125,628 shares of Common Stock and warrants to purchase 125,628 shares of Common Stock for \$100,000, on the same terms and conditions as were offered to the other subscribers in this private placement.

SECURITY OWNERSHIP OF PRINCIPAL STOCKHOLDERS AND MANAGEMENT

The table below provides information regarding the beneficial ownership of the Common Stock and Series B Convertible Preferred Stock as of June 30, 2003. The table reflects ownership by: (1) each person or entity who owns beneficially 5% or more of the shares of our outstanding Common Stock or Series B Convertible Preferred Stock; (2) each of our directors, (3) each of the Named Executive Officers, and (4) our directors and officers as a group. Except as otherwise indicated, and subject to applicable community property laws, we believe the persons named in the table have sole voting and investment power with respect to all shares of Common Stock held by them. Except as otherwise indicated, each stockholder's percentage ownership of our Common Stock in the following table is based on 27,622,379 shares of Common Stock outstanding as of June 30, 2003.

EQUITY COMPENSATION PLAN INFORMATION

As of December 31, 2002, we maintained our 1995 Amended and Restated Omnibus Incentive Plan, which was approved by our stockholders. In December 2002, our Board of Directors approved an amendment to our 1995 Plan to increase the number of shares available for issuance under the 1995 Plan to 11,000,000 and increase the maximum number of shares for which any participant may receive options or separately exercisable stock appreciation rights in the aggregate per calendar year under the 1995 Plan to 2,500,000, subject to stockholder approval. In June 2003, our Board of Directors modified the amendment to the 1995

12

Plan, to reduce the maximum number of shares available for issuance under the 1995 Plan to 10,000,000, subject to stockholder approval of the amendment at the Annual Meeting. Because this amendment, and options issued based upon that amendment, are subject to stockholder approval, the additional shares and those options are included in the category "Equity Compensation Plans Not Approved by Security Holders."

PROPOSAL 2

PROPOSAL TO AMEND THE AMENDED AND RESTATED CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES

GENERAL

Our Amended and Restated Certificate of Incorporation currently authorize the issuance of 50,000,000 shares of Common Stock. In June 2003, the Board of Directors adopted a resolution proposing that the Amended and Restated Certificate of Incorporation be amended to increase the authorized number of shares of Common Stock to 100,000,000 shares, subject to stockholder approval of

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

the amendment. No changes will be made to the number of authorized shares of our preferred stock.

The proposed amendment to the Amended and Restated Certificate of Incorporation will be effected by amending paragraph A. of Article FOURTH thereof to read in full as follows:

"A. AUTHORIZATION

The total number of shares of all classes of stock which we shall have authority to issue is 105,000,000 consisting of 100,000,000 shares of Common Stock, par value \$.001 per share (the "Common Stock"), and 5,000,000 shares of Preferred Stock, par value \$.001 per share (the "Preferred Stock").

The Board may divide the Preferred Stock into any number of series, fix the designation and number of shares of each such series, and determine or change the designation, relative rights, preferences, and limitations of any series of Preferred Stock. The Board (within the limits and restrictions of any resolutions adopted by it originally fixing the number of any shares of any series of Preferred Stock) may increase or decrease the number of shares initially fixed for any series, but no such decrease shall reduce the number below the number of shares then outstanding and shares duly reserved for issuance."

PURPOSE OF THE CHARTER AMENDMENT

As of June 30, 2003 we had 27,622,379 shares of Common Stock outstanding. In addition, as of such date, 764,961 shares reserved for future option grants and 7,143,326 shares reserved for issuance upon exercise of presently outstanding options under the Amended and Restated 1995 Omnibus Incentive Plan. Based upon

13

the foregoing number of outstanding and reserved shares of Common Stock, we have 7,424,975 shares remaining available for other purposes.

The proposed increase in the number of shares available for issuance under the Certificate is required in order for our company to have sufficient shares of Common Stock available for the issuance of shares of Common Stock which we have agreed to sell in the private placement and the shares of Common Stock issuable upon exercise of the warrants to be issued in the private placement. If stockholders do not approve of the amendment to our Certificate, we will be required to make a payment equal to 25% of the amount raised in the recent private placement (see "Proposal 3. Proposal to Approve the Sale and Issuance of Shares of Common Stock and Warrants in a Private Placement"). In addition, the proposed increase in the number of shares available for issuance under the Certificate is intended to provide the Board of Directors with authority, without further action of the stockholders, to issue the additional shares of Common Stock, from time to time in such amounts as the Board of Directors deems necessary. Without limitation of the foregoing, the additional shares may be issued in connection with (1) private financings, including the July private placement; and (2) strategic partnering transactions involving the issuance of securities pursuant to exemptions from the registration requirements of the Securities Act. In addition to the July private placement, we may decide to seek additional capital through the sale of Common Stock and/or securities convertible into or exercisable for Common Stock in the private and/or public equity markets to support a higher level of growth, respond to competitive pressures, develop new products and services and support new strategic partnership expenditures.

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

In the absence of a proportionate increase in our earnings and book value, an increase in the aggregate number of outstanding shares of Common Stock caused by the issuance of the additional shares would dilute the earnings per share (including projected future earnings per share) and book value per share of all outstanding shares of our Common Stock. If such factors were reflected in the price per share of the Common Stock, the potential realizable value of a stockholder's investment could be adversely affected. An issuance of additional shares of Common Stock, could therefore have an adverse effect on the potential realizable value of a stockholder's investment. The holders of outstanding shares of Common Stock have no preemptive rights to purchase additional shares.

The proposed increase in the authorized number of shares of Common Stock could have other effects on our stockholders. The increase could deter takeovers, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover of us more difficult. For example, additional shares could be issued by us so as to dilute the stock ownership or voting rights of persons seeking to obtain control. Similarly, the issuance of additional shares to certain persons allied with our management could have the effect of making it more difficult to remove our current management by diluting the stock ownership or voting rights of persons seeking to cause such removal.

RECOMMENDATION OF THE BOARD OF DIRECTORS

The Board of Directors recommends that you vote "FOR" the approval of the amendment to our Amended and Restated Certificate of Incorporation.

PROPOSAL 3

PROPOSAL TO APPROVE THE SALE AND ISSUANCE OF SHARES OF COMMON STOCK AND WARRANTS IN A PRIVATE PLACEMENT

GENERAL

You are being asked to approve the sale and issuance of (i) 6,796,919 shares of Common Stock at \$0.796 per share and (ii) warrants exercisable for 6,796,919 shares of Common Stock, to selected institutional and accredited investors, in a private placement exempt from registration under the Securities Act of 1933.

The following is a summary of the terms of the private placement. Copies of the principal documents relating to the transaction have been filed with the Securities and Exchange Commission as Exhibits to a Form 8-K filed on July 21, 2003.

14

We entered into Subscription Agreements dated as of July 18, 2003, with selected accredited and institutional investors to sell an aggregate of (i) 6,796,919 shares of our Common Stock at \$0.796 per share and (ii) warrants exercisable for 6,796,919 shares of our Common Stock, to selected institutional and accredited investors. The gross proceeds from this private placement will, upon satisfaction of all the requirements of the private placement, including stockholder approval of this private placement, be \$5,410,348. After the satisfaction of all the requirements of the private placement and the issuance of the shares of Common Stock and warrants, we would have 34,190,101 shares of Common Stock outstanding and 57,299,049 shares of Common Stock outstanding on a fully diluted basis.

The shares of Common Stock and warrants have been offered in transactions exempt from registration under the Securities Act of 1933 in reliance upon Rule

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

506 of Regulation D under Section 4(2) of the Securities Act, as transactions not involving a public offering. Each of the subscribers represented to us that it was an "accredited investor" under Rule 501(a) of Regulation D.

USE OF PROCEEDS

The net proceeds from this private placement, after the payment of the placement agent fees and other expenses of the offering will be approximately \$4,900,000. We intend to use these net proceeds, after the transaction is completed, to continue the research and development of our current drug candidates as well as to possibly expand our portfolio of drug candidates, if a describable drug candidate becomes available to us. Specifically, we will use the proceeds to fund ongoing clinical activities for orBec(R), which is currently in a pivotal phase III trial for the treatment of Graft vs. Host Disease. In addition, we have recently announced that we will begin a phase II trial using orBec(R) to treat Irritable Bowel Syndrome. Proceeds from this private placement will also be used to further progress of our biodefense vaccines, including development of a novel synthetic ricin vaccine in both the injectable and oral forms, and continued research on a Botulinum toxin vaccine. We will also use the proceeds of this financing for general and administrative expenses. Furthermore, on June 27, 2003, the American Stock Exchange notified us that we are below the current minimum listing requirement of \$4,000,000 in stockholders equity. We have agreed to submit a plan by August 4, 2003 which outlines how we will regain compliance with the minimum listing requirement within the next 18 months. This private placement will raise our stockholders equity to over \$7,000,000, thereby bringing us back into compliance with the American Stock Exchange's minimum stockholder equity requirement. There can be no assurances, however, that the American Stock Exchange will accept our compliance plan or that our Common Stock will remain listed on the American Stock Exchange.

THE WARRANTS

The exercise price on the warrants is \$0.8756 per share of Common Stock. The warrants are exercisable until 5 years from the original date of issuance of the warrant; provided however, that upon notice to the subscribers, we may accelerate the expiration date of the warrants, to that date which is 60 days from the date of notice, if the closing price for our Common Stock is greater than \$2.62 per share for a period of 20 consecutive trading days. If each of the warrants sold in this private placement were exercised, the aggregate gross proceeds to our company would be \$5,951,382, and 6,796,919 shares of Common Stock would be issued. Until July 18, 2004, however, if the shares of Common Stock issuable upon exercise of the warrants are not registered under an effective registration statement as required by the Subscription Agreements (as discussed below), the warrants will have a cashless exercise feature until a registration statement covering the shares of Common Stock issuable upon exercise of the warrants is declared effective by the SEC.

ANTI-DILUTION PROTECTION

Until July 18, 2004, the exercise price of the warrants will be subject to (i) adjustment in connection with any stock split or stock dividend and (ii) anti-dilution adjustment on a price-based weighted average basis if we issue Common Stock or Common Stock equivalents (other than certain excluded issuances) at a purchase price per share that is less than the exercise price of the warrants.

OTHER TERMS OF THE PRIVATE PLACEMENT

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

REGISTRATION RIGHTS

We are required to file a shelf registration statement on Form S-3 under the Securities Act, covering resales of the shares of Common Stock and shares of Common Stock issuable upon the exercise of the warrants sold in the private placement, within 30 days of the issuance of the shares and warrants. If that shelf registration statement has not been declared effective by the SEC within 120 days of the issuance of the Common Stock and warrants, we will be required to pay a penalty equal to 2% of the purchase price paid by the subscribers for each month the shares remain unregistered.

PREEMPTIVE RIGHTS

If we receive the required stockholder approvals and issue the Common Stock and warrants to the subscribers, each of the subscribers under this private placement will have preemptive rights on all future issuances of any equity securities, or other securities convertible into any equity securities, until July 18, 2004. If prior to July 18, 2004, we propose to issue any equity securities, or other securities convertible into any equity securities, we will give each of the subscribers under this private placement 15 days' prior notice of such proposed issuance, and each of the subscribers will have the right to provide notice of their intent to purchase its pro rata share of such proposed issuance during such 15-day period. These preemptive rights will not apply to (i) issuances of Common Stock pursuant to stock incentive plans, (ii) shares of Common Stock issued upon the conversion of outstanding warrants, (iii) shares of Common Stock issued and sold in a firm commitment underwritten public offering or (iv) shares of Common Stock issued as consideration for the acquisition of another company or business, which has been approved by the Board.

SHORT SALES

The subscribers are not permitted to "short" or "short against the box" (as those terms are generally understood) our Common Stock from July 18, 2003 until the earlier of (i) two months after the date of issuance of the shares and warrants or (ii) such time as the Company's Common Stock trades at or above \$1.592 for a period of 20 consecutive trading days.

RELEASE OF PROCEEDS FROM ESCROW

All of the proceeds from this private placement have been placed into an Escrow Account with US Bank Trust National Association, pursuant to the terms of an Escrow Agreement by and between us and US Bank. The primary condition for the release of the proceeds from the private placement being released to us is stockholder approval of (i) the amendment to our Amended and Restated Certificate of Incorporation increasing the number of authorized shares of Common Stock from 50,000,000 to 100,000,000 (see "Proposal 2. Proposal to Amend the Amended and Restated Certificate of Incorporation to Increase the Number of Authorized Shares") and (ii) this private placement pursuant to this Proposal 3. Upon stockholder approval of the amendment to the Amended and Restated Certificate of Incorporation and the terms of the private placement, and the satisfaction of certain other conditions contained in the Subscription Agreements, the proceeds from the private placement will be released to us and DOR will issue the shares of Common Stock and the warrants purchased by the subscribers under the Subscription Agreements.

FAILURE TO RECEIVE STOCKHOLDER APPROVAL

If our stockholders do not approve both (i) the amendment to our Amended and Restated Certificate of Incorporation increasing the number of authorized shares of Common Stock from 50,000,000 to 100,000,000 (see "Proposal 2. Proposal to Amend the Amended and Restated Certificate of Incorporation to Increase the Number of Authorized Shares") and (ii) the terms of the private placement

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

pursuant to this Proposal 3, then (a) the proceeds from the private placement will be returned to the subscribers and (b) we will be required to pay to each of the subscribers a penalty equal to 25% of the purchase price for the shares of Common Stock and warrants. We will be permitted to pay up to 50% of this amount through the issuance of our Common

16

Stock, which will be valued at the average closing price of our Common Stock for the five trading days immediately preceding the date of the payment of the penalty.

During the course of negotiating this private placement with the potential investors, some of the investors indicated that they were not prepared to take all of the risk relating to the stockholder approval requirements, without some countervailing consideration. Specifically, investors explained that they are taking the risk that, if the market price for our Common Stock has decreased at the time of the Annual Meeting, they will still be committed to buying the Common Stock at a price that is higher than the then current market price. Investors believe they have additionally assumed the risk that, if the market price of our Common Stock were to move substantially higher, our stockholders might choose to not approve the financing, freeing us from the obligation to sell the Common Stock and warrants at a price lower than the then current market price and allowing us to enter the capital markets with a higher market price for our Common Stock. Under such a scenario, the investors felt they would have all of the risk of a fall in the market price for the Common Stock, but might not receive the benefit of an increase in the market price for our Common Stock during the period between the signing of the Subscription Agreements and the Annual Meeting. As a result, certain of the investors demanded that we agree to pay them some meaningful consideration if the transaction were in fact turned down by our stockholders. These investors clearly indicated that they would not make the investment if this demand was met. The amount payable to investors if stockholder approval is not obtained, and our option to pay up to 50% in the form of Common Stock, represents a negotiated compromise reached with these investors.

EFFECTS OF THE PRIVATE PLACEMENT

In the absence of a proportionate increase in our earnings and book value, the increase in the aggregate number of outstanding shares of Common Stock caused by the issuance of the additional shares of Common Stock and warrants will dilute our earnings per share (including projected future earnings per share) and book value per share of all outstanding shares of our Common Stock. If such factors are reflected in the price per share of the Common Stock, the potential realizable value of a stockholder's investment may be adversely affected. The issuance of the shares of Common Stock and warrants, may therefore have an adverse effect on the potential realizable value of a stockholder's investment. The holders of outstanding shares of Common Stock have no preemptive rights to purchase additional shares.

PLACEMENT AGREEMENT

On April 15, 2003, we entered into a Placement Agreement with Paramount Capital, Inc., pursuant to which, Paramount will receive (i) a placement fee equal to 7% of the gross proceeds on the securities sold to investors introduced to us by Paramount and (ii) warrants to purchase 10% of the securities purchased by such investors, exercisable until July 18, 2008. Paramount has entered in to Selected Dealer Agreements with KJM Securities, Inc. and Accredited Equities, Inc., pursuant to which KJM and Accredited will receive certain consideration

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

from Paramount with respect to investors introduced to us by them. Steve Kanzer and Evan Myriantopoulos, members of our Board of Directors, are affiliated with Accredited and KJM, respectively, and will receive consideration of \$21,000 and warrants to purchase 150,754 shares of Common Stock and \$69,721.64 and warrants to purchase 260,554 shares of Common Stock, respectively, from this private placement. If we receive stockholder approval of the amendment to our Amended and Restated Certificate of Incorporation and the terms of the private placement, then Paramount will receive: (i) \$378,727 in gross commissions and (ii) warrants to purchase 1,359,383 shares of Common Stock.

RECOMMENDATION OF THE BOARD OF DIRECTORS

The Board of Directors recommends that you vote "FOR" the approval the sale and issuance of shares of Common Stock and warrants in the private placement.

PROPOSAL 4

PROPOSAL TO AMEND THE AMENDED AND RESTATED 1995 OMNIBUS INCENTIVE PLAN TO INCREASE THE NUMBER OF AUTHORIZED SHARES

Subject to the approval of stockholders at the Annual Meeting, the Board of Directors has adopted an amendment to the DOR BioPharma, Inc. Amended and Restated 1995 Omnibus Incentive Plan, or 1995 Plan, which will have the following effects:

(1) increase the number of shares of Common Stock issuable under the 1995 Plan by an additional 5,291,743 shares to an aggregate of 10,000,000 shares; and

(2) increase from 750,000 to 2,500,000 the maximum number of shares of Common Stock for which any participant may receive options or separately exercisable stock appreciation rights in the aggregate per calendar year.

Stockholder approval of this amendment is sought to (a) meet the requirements of the American Stock Exchange, (b) qualify awards under the 1995 Plan as performance-based compensation that is tax deductible without limitation under Section 162(m) of the Code, and (c) qualify certain stock options granted under the 1995 Plan as incentive stock options.

As of June 30, 2003, options to purchase a total of 3,943,326 shares of Common Stock were either (1) outstanding (excluding options granted subject to stockholder approval of the amendment to the 1995 Omnibus Incentive Plan) or (2) already been exercised under the 1995 Plan. As a result, 764,931 shares remained available for issuance under the 1995 Plan. In December 2002, our Board of Directors approved an amendment to the 1995 Plan to increase the number of shares available for issuance under the 1995 Plan to 11,000,000 and increase the maximum number of shares for which any participant may receive options or separately exercisable stock appreciation rights in the aggregate per calendar year under the 1995 Plan to 2,500,000, subject to stockholder approval. In June 2003, our Board of Directors modified the amendment to the 1995 Plan, to reduce the maximum number of shares available for issuance under the 1995 Plan to 10,000,000, subject to stockholder approval of the amendment at the Annual Meeting. The 5,291,743 shares of Common Stock by which the amendment will increase the shares available for awards under the 1995 Plan, representing approximately 16% of the shares of Common Stock outstanding as of June 30, 2003. Since December 2002, we have granted (i) Mr. Haig options to purchase 900,000 shares of our Common Stock; (ii) Dr. Ellison options to purchase 2,000,000 shares of our Common Stock; (iii) Dr. Salomon options to purchase 150,000 shares of our Common Stock and (iv) Dr. Kessel options to purchase 150,000 shares of

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

our Common Stock, each subject to stockholder approval of the amendment to the 1995 Plan. If stockholders do not approve this proposal, these grants to Mr. Haig, Dr. Ellison, Dr. Salomon, and Dr. Kessel will terminate.

The 1995 Plan provides the Compensation Committee, which currently administers the Employee Plan, with the flexibility to award stock-based and performance-related incentives to our executive officers and other employees, as the Compensation Committee deems appropriate. We believe the amendment to increase the share reserve and increase the maximum aggregate annual award size per participant is necessary to allow us continue to utilize equity incentives to attract and retain the services of key individuals essential to our long term growth and financial success. We rely significantly on equity incentives in the form of stock option grants in order to attract and retain key employees and believe that such equity incentives are necessary for us to remain competitive in the marketplace for executive talent and other key employees. Option grants made to newly-hired or continuing employees will be based on both competitive market conditions and individual performance.

The following is a summary of the principal features of the 1995 Plan, as most recently amended. Any stockholder who wishes to obtain a copy of the actual plan document may do so upon written request to us at 28101 Ballard Drive, Suite F, Lake Forest, Illinois 60045.

18

EQUITY INCENTIVE PROGRAMS

The 1995 Plan consists of four separate equity incentive programs: (1) the Discretionary Option Grant Program, (2) the Salary Investment Option Grant Program, (3) the Automatic Option Grant Program for non-employee Board members and (4) the Director Fee Option Grant Program for non-employee Board members. The principal features of each program are described below. The Compensation Committee of the Board of Directors administers the Discretionary Option Grant Program, determines the calendar year or years in which the Salary Investment Option Grant Program are in effect and selects the individuals who are to participate in such program. The Board of Directors may at any time appoint a secondary committee of one or more Board members to have separate but concurrent authority with the Compensation Committee to make option grants under the Discretionary Option Grant Program to individuals other than our executive officers and non-employee Board members. All grants under the Salary Investment Option Grant, the Automatic Option Grant and the Director Fee Option Grant Programs are made in strict compliance with the express provisions of each such program. Neither the Compensation Committee nor any secondary committee exercises any administrative discretion under those programs. The term plan administrator, as used in this summary, means the Compensation Committee and any secondary committee, to the extent each such entity is acting within the scope of its administrative jurisdiction under the 1995 Plan.

SHARE RESERVE

An aggregate of 10,000,000 shares of Common Stock has been reserved for issuance over the term of the 1995 Plan, including the increase of 5,291,743 shares of Common Stock that forms part of this proposal. In addition, on the first trading day of each calendar year during the term of the 1995 Plan, the number of shares of Common Stock available for issuance under the 1995 Plan will automatically increase by an amount equal to 1% of the total number of shares of our Common Stock outstanding on the last trading day of the immediately preceding fiscal year. In no event will any such annual increase exceed 500,000 shares of Common Stock.

As of June 30, 2003, 3,943,326 shares of Common Stock were either subject

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

to outstanding options under the 1995 Plan or had been issued pursuant to the exercise of options granted under the 1995 Plan, and 764,931 shares of Common Stock remained available for future issuance under the 1995 Plan (without giving effect to the options issued subject to stockholder approval of the amendment).

Subject to stockholder approval of the amendment, no participant in the 1995 Plan may receive option grants or separately exercisable stock appreciation rights for more than 2,500,000 shares of Common Stock in the aggregate per calendar year.

The shares of Common Stock issuable under the 1995 Plan may be drawn from shares of our authorized but unissued shares of Common Stock or shares of Common Stock reacquired by us, including shares repurchased on the open market.

In the event any change is made to the outstanding shares of Common Stock by reason of any recapitalization, stock dividend, stock split, combination of shares, exchange of shares or other change in corporate structure effected without the receipt of consideration by us, appropriate adjustments will be made to: (1) the maximum number and/or class of securities issuable under the 1995 Plan, (2) the maximum number and/or class of securities by which the share reserve may increase annually under the automatic share increase reserve provisions, (3) the number and/or class of securities for which any one person may be granted options or separately exercisable stock appreciation rights per calendar year, (4) the number and/or class of securities for which automatic option grants are to be subsequently granted to eligible Directors, and (5) the number and/or class of securities and the exercise price per share in effect under each outstanding option (including any options incorporated from the predecessor 1994 Non-Employee Stock Option Plan and Incentive Stock Option Plan which were incorporated into the 1995 Plan).

19

ELIGIBILITY

Employees, non-employee Board members and independent consultants in our service or the service of our parent and subsidiaries (whether now existing or subsequently established) are eligible to participate in the Discretionary Option Grant Program. Executive officers and other highly paid employees are also eligible to participate in the Salary Investment Option Grant Program. Participation in the Automatic Option Grant and Director Fee Option Grant Programs is limited to non-employee members of the Board.

As of June 30, 2003 three executive officers, seven non-employee Board members and approximately 11 other employees and consultants were eligible to participate in the Discretionary Option Grant Program. The seven non-employee Board members were also eligible to participate in the Automatic Option Grant and Director Fee Option Grant Programs.

VALUATION

The fair market value per share of Common Stock on any relevant date under the 1995 Plan is deemed to be equal to the closing selling price per share on that date on a stock exchange where shares of our Common Stock are traded. On July 23, 2003, the fair market value per share determined on that basis was \$0.77.

DISCRETIONARY OPTION GRANT PROGRAM

The plan administrator has complete discretion under the Discretionary Option Grant Program to determine which eligible individuals are to receive option grants, the time or times when those grants are to be made, the number of

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

shares subject to each such grant, the status of any granted option as either an incentive stock option or a non-statutory option under the federal tax laws, the vesting schedule (if any) to be in effect for the option grant and the maximum term for which any granted option is to remain outstanding.

Each granted option must have an exercise price per share no less than 85% of the fair market value of the shares on the grant date unless otherwise determined by the plan administrator. No granted option may have a term in excess of 10 years, and the option will generally become exercisable in one or more installments over a specified period of service measured from the grant date. However, one or more options may be structured so that they will be immediately exercisable for any or all of the option shares. The shares acquired under immediately exercisable options will be subject to repurchase by us, at the exercise price paid per share, if the optionee ceases service with us prior to any required vesting in those shares.

Upon cessation of service, the optionee will have a limited period of time in which to exercise any outstanding option to the extent exercisable for vested shares. The plan administrator will have complete discretion to extend the period following the optionee's cessation of service during which his or her outstanding options may be exercised and/or to accelerate the exercisability or vesting of such options in whole or in part. Such discretion may be exercised at any time while the options remain outstanding, whether before or after the optionee's actual cessation of service.

The plan administrator is authorized to issue two types of stock appreciation rights in connection with option grants made under the Discretionary Option Grant Program:

- Tandem Stock Appreciation Rights, which provide the holders with the right to surrender their options for an appreciation distribution from us equal in amount to the excess of (a) the fair market value of the vested shares of Common Stock subject to the surrendered option over (b) the aggregate exercise price payable for such shares (which appreciation distribution may, at the discretion of the plan administrator, be made in cash or in shares of Common Stock); and
- Limited Stock Appreciation Rights, which may be granted to our officers as part of their option grants. Any option with such a limited stock appreciation right in effect may be surrendered to us upon the successful completion of a hostile takeover of us. In return for the surrendered option, the officer will be entitled to a cash distribution from us in an amount per surrendered option share equal to the excess of (a) the take-over price per share over (b) the exercise price payable for such share.

20

The plan administrator also has the authority to effect the cancellation of outstanding options under the Discretionary Option Grant Program (and outstanding options incorporated from the predecessor 1994 Non-Employee Stock Option Plan and Incentive Stock Option Plan which were incorporated into the 1995 Plan) that have exercise prices in excess of the then-current market price of our Common Stock and to issue replacement options with an exercise priced on the market price of our Common Stock at the time of the new grant.

SALARY INVESTMENT OPTION GRANT PROGRAM

The Compensation Committee has complete discretion to implement the Salary Investment Option Grant Program for one or more calendar years and in selecting the executive officers and other eligible individuals who are to participate in

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

the program. As a condition to such participation, each selected individual must, prior to the start of the calendar year of participation, file with the Compensation Committee an irrevocable authorization directing us to reduce his or her base salary for the upcoming calendar year by a specified dollar amount not less than \$10,000 nor more than \$75,000 and to apply that amount to the acquisition of a special option grant under the program. Each selected individual who files such a timely election will automatically be granted a non-statutory option on or before the last trading day in January of the calendar year for which that salary reduction is to be in effect.

The number of shares subject to each option will be determined by dividing the salary reduction amount by two-thirds of the fair market value per share of our Common Stock on the grant date. The exercise price will be equal to one-third of the fair market value of our Common Stock per share on the grant date. As a result, the total spread on the option shares at the time of grant (the fair market value of the option shares on the grant date less the aggregate exercise price payable for those shares) will be equal to the amount by which the optionee's salary is to be reduced for the calendar year. In effect, the salary reduction serves as an immediate prepayment, as of the time of the option grant, of two thirds of the then-current market price of the shares of Common Stock subject to the option.

The option will become exercisable in a series of 12 equal monthly installments upon the optionee's completion of each month of service in the calendar year for which such salary reduction is in effect and will become immediately exercisable for all the option shares on an accelerated basis should we experience certain changes in ownership or control. Each option will remain exercisable for any vested shares until the earlier of (1) the expiration of the ten-year option term or (2) the end of the three-year period measured from the date of the optionee's cessation of service.

We have not yet implemented the Salary Investment Option Grant Program.

AUTOMATIC OPTION GRANT PROGRAM

Under the Automatic Option Grant Program, eligible non-employee Board members receive a series of option grants over their period of Board service. Each non-employee Board member, at the time of his or her initial election or appointment to the Board receives a non-statutory stock option grant for 50,000 shares of Common Stock. In addition, on the date of each annual stockholders meeting, including this Annual Meeting, each individual who is re-elected to serve as a non-employee Board member is automatically granted an option to purchase 50,000 shares of Common Stock (provided such individual has served as a non-employee Board member for at least six months). There is no limit on the number of such 50,000-share option grants any one eligible non-employee Board member may receive over his or her period of continued Board service.

Each automatic grant has an exercise price per share equal to the fair market value per share of Common Stock on the grant date and has a maximum term of 10 years, subject to earlier termination following the optionee's cessation of Board service.

The shares subject to each 50,000 share automatic grant vest immediately. Each 50,000 share option is immediately exercisable for the option shares, and the shares acquired under the option are subject to repurchase by us at the option exercise price paid per share, upon the optionee's cessation of Board service prior to vesting in those shares.

Each outstanding automatic option grant will automatically accelerate and

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

become immediately exercisable for any or all of the option shares as fully-vested shares upon certain changes in control or ownership of our company or upon the optionee's death or disability while a member of the Board of Directors. Following the optionee's cessation of Board service for any reason, each option will remain exercisable for a 12-month period and may be exercised during that time for any or all shares in which the optionee is vested at the time of such cessation of Board service.

DIRECTOR FEE OPTION GRANT PROGRAM

The Compensation Committee has complete discretion to implement the Director Fee Option Grant Program for one or more calendar years in which non-employee Board members may participate. As a condition to such participation, each non-employee Board member must, prior to the start of the calendar year of participation, file with our Treasurer an irrevocable authorization directing us to apply all or a portion of his or her cash retainer fee for the upcoming calendar year to the acquisition of a special option grant under the program.

Each non-employee Board member who files such a timely election will automatically be granted a non-statutory option on the first trading day in January of the calendar year for which that retainer fee election is to be in effect.

The number of shares subject to each such option will be determined by dividing the amount of the retainer fee for the calendar year to be applied to the program by two-thirds of the fair market value per share of our Common Stock on the grant date. The exercise price will be equal to one-third of the fair market value of our Common Stock per share on the grant date. As a result, the total spread on the option shares at the time of grant (the fair market value of the option shares on the grant date less the aggregate exercise price payable for those shares) will be equal to the portion of the retainer fee that optionee has elected to be applied to the program. In effect, the portion of the annual retainer fee otherwise payable in cash serves as an immediate prepayment, as of the time of the option grant, of two thirds of the then-current market price of the shares of Common Stock subject to the option.

The option will become exercisable for 50% of the option shares upon the optionee's completion of six months of service in the calendar year for which such retainer fee election is in effect and the balance will become exercisable in a series of six equal monthly installments upon the optionee's completion of each additional month of service during that calendar year. The option will become immediately exercisable for all the option shares on an accelerated basis should we experience certain changes in ownership or control. Each option will remain exercisable for any vested shares until the earlier of (1) the expiration of the ten-year option term or (2) the end of the three-year period measured from the date of the optionee's cessation of service.

We have not yet implemented the Director Fee Option Grant Program.

GENERAL PROVISIONS

ACCELERATION

In the event that we are acquired by merger or asset sale, each outstanding option under the Discretionary Option Grant Program that is not to be assumed or replaced by the successor corporation will automatically accelerate in full, and all unvested shares outstanding under the Discretionary Option Grant Program will immediately vest, except to the extent our repurchase rights with respect to those shares are to be assigned to the successor corporation.

The plan administrator will have the authority under the Discretionary

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

Option Grant Program to provide that options granted under such program will automatically vest in full (1) upon an acquisition of DOR, whether or not those options are assumed or replaced, (2) upon a hostile change in control of our company effected through a tender offer for more than 50% of our outstanding voting stock or by proxy contest for the election of Board members, or (3) in the event the individual's service is terminated, whether involuntarily or through a resignation for good reason, within a designated period (not to exceed 18 months) following an

22

acquisition in which those options are assumed or replaced or a hostile change in control. The options granted under the Salary Investment Option Grant Program, the Automatic Option Grant Program and the Director Fee Option Grant Program will automatically accelerate and become exercisable in full upon an acquisition or change in control transaction.

The acceleration of vesting in the event of a change in the ownership or control may be seen as an anti-takeover provision and may have the effect of discouraging a merger proposal, a takeover attempt or other efforts to gain control of our company.

LIMITED STOCK APPRECIATION RIGHTS

Each option granted under the Automatic Option Grant and Director Fee Option Grant Programs includes a limited stock appreciation right so that upon the successful completion of a hostile tender offer for more than 50% of our outstanding voting securities, the option may be surrendered to us in return for a cash distribution from us. The amount of the distribution per surrendered option share will be equal to the excess of (1) the fair market value per share at the time the option is surrendered or, if greater, the tender offer price paid per share in the hostile takeover over (2) the exercise price payable per share under such option. In addition, the plan administrator may grant such rights to our officers as part of their option grants under the Discretionary Option Grant Program.

FINANCIAL ASSISTANCE

The plan administrator may institute a loan program to assist one or more participants in financing the exercise of outstanding options under the Discretionary Option Grant Program through full-recourse interest bearing promissory notes. However, the maximum amount of financing provided any participant may not exceed the cash consideration payable for the issued shares plus all applicable withholding taxes incurred in connection with the acquisition of those shares.

SPECIAL TAX ELECTION

The plan administrator may provide one or more holders of non-statutory options under the 1995 Plan with the right to have us withhold a portion of the shares otherwise issuable to such individuals in satisfaction of the withholding taxes to which such individuals become subject in connection with the exercise of those options or the vesting of those shares. Alternatively, the plan administrator may allow such individuals to deliver previously acquired shares of Common Stock in payment of such withholding tax liability.

AMENDMENT AND TERMINATION

The Board may amend or modify the 1995 Plan at any time, subject to any required stockholder approval pursuant to applicable laws and regulations. Unless sooner terminated by the Board, the 1995 Plan will terminate on the earliest of (1) April 23, 2005, (2) the date on which all shares available for

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

issuance under the 1995 Plan have been issued as fully-vested shares or (3) the termination of all outstanding options in connection with certain changes in control or ownership of DOR.

FEDERAL INCOME TAX CONSEQUENCES

OPTION GRANTS

Options granted under the 1995 Plan may be either incentive stock options which satisfy the requirements of Section 422 of the Internal Revenue Code or non-statutory options which are not intended to meet such requirements. The Federal income tax treatment for the two types of options differs as follows:

Incentive Options. No taxable income is recognized by the optionee at the time of the option grant, and no taxable income is generally recognized at the time the option is exercised. The optionee will, however, recognize taxable income in the year in which the purchased shares are sold or otherwise disposed. For Federal income tax purposes, dispositions are divided into two categories: (1) qualifying and (2) disqualifying. A qualifying disposition occurs if the sale or other disposition is made after the optionee has held the shares for

23

more than two years after the option grant date and more than one year after the exercise date. If either of these two holding periods is not satisfied, then a disqualifying disposition will result.

If the optionee makes a disqualifying disposition of the purchased shares, the optionee will recognize compensation income and we will be entitled to an income tax deduction, for the taxable year in which such disposition occurs, equal to the excess of (1) the fair market value of such shares on the option exercise date over (2) the exercise price paid for the shares. If the optionee makes a qualifying disposition, we will not be entitled to any income tax deduction and the entire gain for the optionee will be treated as a capital gain.

Non-Statutory Options. No taxable income is recognized by an optionee upon the grant of a non-statutory option. The optionee will in general recognize ordinary income in the year in which the option is exercised equal to the excess of the fair market value of the purchased shares on the exercise date over the exercise price paid for the shares, and the optionee will be required to satisfy the tax withholding requirements applicable to such income.

If, however, the shares acquired upon exercise of the non-statutory option are unvested and subject to repurchase by us in the event of the optionee's termination of service prior to vesting in those shares, then the optionee will not recognize any taxable income at the time of exercise but will have to report as ordinary income, as and when our repurchase right lapses, an amount equal to the excess of (1) the fair market value of the shares on the date the repurchase right lapses over (2) the exercise price paid for the shares. The optionee may, however, elect under Section 83(b) of the Internal Revenue Code to include as ordinary income in the year of exercise of the option an amount equal to the excess of (1) the fair market value of the purchased shares on the exercise date over (2) the exercise price paid for such shares. If the Section 83(b) election is made, the optionee will not recognize any additional income as and when the repurchase right lapses.

We will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the optionee with respect to the exercised non-statutory option. The deduction will in general be allowed for the taxable year in which such ordinary income is recognized by the optionee.

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

STOCK APPRECIATION RIGHTS

No taxable income is recognized upon receipt of a stock appreciation right. The holder will recognize ordinary income, in the year in which the stock appreciation right is exercised, in an amount equal to the appreciation distribution. We will be entitled to an income tax deduction equal to the appreciation distribution in the taxable year in which such ordinary income is recognized by the optionee.

DEDUCTIBILITY OF EXECUTIVE COMPENSATION

We anticipate that any compensation deemed paid by us in connection with the disqualifying dispositions of incentive stock option shares or the exercise of non-statutory options with exercise prices equal to the fair market value of the option shares on the grant date will qualify as performance-based compensation for purposes of Internal Revenue Code Section 162(m) and will not have to be taken into account for purposes of the \$1 million limitation per covered individual on the deductibility of the compensation paid to certain of our executive officers. Accordingly, all compensation deemed paid with respect to those options will remain deductible by us without limitation under Code Section 162(m).

ACCOUNTING TREATMENT

Option grants made to employees and directors under the 1995 Plan with exercise prices equal to the fair market value of the option shares on the grant date will not result in any direct charge to our reported earnings. However, the fair value of those options is required to be disclosed in the notes to our annual and quarterly financial statements, and we must also disclose, in notes to our financial statements, the pro forma impact those options would have upon our reported earnings were the fair value of those options at the time of grant treated as a compensation expense. In addition, the number of outstanding options may be a factor in determining our earnings per share on a fully diluted basis.

24

For any options issued pending approval of the amendment of the Amended and Restated 1995 Omnibus Incentive Plan, we will be required to record compensation expense as the options vest if the market price of our Common Stock exceeds the option price on the date stockholder approval is obtained. Option grants made to employees and directors under the 1995 Plan with exercise prices less than the fair market value of the shares on the grant or issue date will result in a direct compensation expense in an amount equal to the excess of such fair market value over the exercise or issue price. The expense must be amortized against our earnings over the period that the option shares or issued shares are to vest.

Option grants made to consultants (but not non-employee Board members) will result in a direct charge to our reported earnings based upon the fair value of the option measured initially as of the grant date and then subsequently on the vesting date of each installment of the underlying option shares. Such charge will accordingly include the appreciation in the value of the option shares over the period between the grant date of the option and the vesting date of each installment of the option shares.

Should one or more individuals be granted tandem stock appreciation rights under the 1995 Plan, then such rights would result in a compensation expense to be charged against our reported earnings. Accordingly, at the end of each fiscal quarter, the amount (if any) by which the fair market value of the shares of Common Stock subject to such outstanding stock appreciation rights has increased

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

from the prior quarter-end would be accrued as compensation expense, to the extent such fair market value is in excess of the aggregate exercise price in effect for those rights.

NEW PLAN BENEFITS

The table below presents the number of shares of Common Stock underlying options that have been previously granted under the 1995 Plan to our current executive officers, other employees and non-executive directors.

STOCKHOLDER PROPOSALS

Under SEC Rule 14a-8, stockholder proposals for the annual meeting of stockholders to be held in 2004 will not be included in the Proxy Statement for that meeting unless the proposal is proper for inclusion in the Proxy Statement and for consideration at the next annual meeting of stockholders, and is received by our Secretary at our executive offices, no later than April 16, 2004. Stockholders must also follow the other procedures prescribed in SEC Rule 14a-8 under the Exchange Act, as well as our By-Laws, which contain requirements that are separate and apart from the SEC requirements of Rule 14a-8. Our By-Laws provide that stockholders desiring to bring business before the 2004 annual meeting, including nomination of a person for election to our Board of Directors, must provide written notice to our Secretary at our executive offices no earlier than 75 days, and no later than 45 days, before the one year anniversary of the mailing of this Proxy Statement. The written notice must include the information required by Section 2.4 of the By-Laws.

OTHER MATTERS

Management knows of no matters that are to be presented for action at the meeting other than those set forth above. If any other matters properly come before the meeting, the persons named in the enclosed form of proxy will vote the shares represented by proxies in accordance with their judgment on such matters.

The cost of this proxy solicitation will be borne by us. In addition to the solicitation of proxies by mail, our directors, officers and employees may also solicit proxies by telephone, facsimile, e-mail or other forms of communication, without special compensation for such activities. We will also request banks, brokers,

fiduciaries, custodians, nominees and certain other record holders to send proxies, proxy statements and other materials to their principals at our expense. We will reimburse such banks, brokers, fiduciaries, custodians, nominees and other record holders for their reasonable out-of-pocket expenses of solicitation. We do not anticipate that costs and expenses incurred in

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

connection with this proxy solicitation will exceed those normally expended for a proxy solicitation for an election of directors in the absence of a contest.
