**CAUTION REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus, and information incorporated by reference in this prospectus, contain, and supplements to this prospectus might contain, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include all statements based on future expectations and specifically include, among other things, all statements relating to increasing revenue, improving margins, growth of our Fitness and Health Management business segments, the development of new business models, our ability to expand our programs and services and the sufficiency of our liquidity and capital resources. In addition, the estimated annualized revenue value of our new and lost contracts is a forward looking statement, which is based upon an estimate of the anticipated annualized revenue to be realized or lost. Such information should be used only as an indication of the activity we have recently experienced in our two business segments. These estimates, when considered together, should not be considered an indication of the total net, incremental revenue growth we expect to generate in any year, as actual net growth may differ from these estimates due to actual staffing levels, participation rates and contract duration, in addition to other revenue we may lose in the future due to contract termination. Any statements that are not based upon historical facts, including the outcome of events that have not yet occurred and our expectations for future performance, are forward-looking statements. The words potential, believe, estimate, expect, intend, may, could, will, plan, anticipate, and similar words are intended to identify forward-looking statements. Such statements are based upon the current beliefs and expectations of our management. Such forward-looking information involves important risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ from those expressed in any forward-looking statements made by or on behalf of the Company.

You are cautioned not to place undue reliance upon our forward-looking statements. Our actual results, and the outcome of other events identified in forward-looking statements, could differ materially from the expectations disclosed in our forward-looking statements. Although it is not possible to foresee all of the risks we may face and the other factors that may cause actual results to be materially different than those expressed in our forward-looking statements, the Risk Factors section of our Annual Report on Form 10-K for the fiscal year ended December 31, 2006, incorporated by reference herein, describes the risks and factors we believe are most likely to cause our actual results or events to differ materially from the forward-looking statements that we make. Other risks, uncertainties and factors, both known and unknown, could cause our actual results to differ materially from those described in our forward-looking statements.

Our forward-looking statements do not reflect all potential effects of any future acquisitions, mergers, dispositions, joint ventures or strategic investments we may make, which are difficult to predict and assess. We do not assume any obligation to update or revise any forward-looking statements, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.

**PROSPECTUS SUMMARY**

This summary does not contain all of the information you should consider before buying shares of our common stock. You should read the entire prospectus (including information incorporated by reference herein) and any prospectus supplements carefully, especially the section entitled **Caution Regarding Forward Looking Statements** contained herein and the sections entitled **Risk Factors** and **Management's Discussion and Analysis of Financial Condition and Results of Operations** contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2006. You should also read carefully our financial statements and the related notes included in such Annual Report on Form 10-K and in any prospectus supplements before deciding to invest in shares of our common stock.

**Our Business**

Health Fitness Corporation, a Minnesota corporation (also referred to as **we**, **us**, **our**, **the Company**, or **Health Fitness**), is a leading provider of population health improvement services and programs to corporations, hospitals, communities and universities located in the United States and Canada. We currently manage 265 corporate fitness center sites for 140 customers, and 154 corporate health improvement programs for 163 customers.

We provide staffing services as well as a comprehensive menu of programs, products and consulting services within our Health Management and Fitness Management business segments. Our broad suite of services enables our clients' employees to live healthier lives, and our clients to control rising healthcare costs, through participation in our assessment, education, coaching, physical activity, weight management and wellness program services, which can be offered as follows: (i) through on-site fitness centers we manage; (ii) remotely via the web; and (iii) through telephonic health coaching.

Major corporations, hospitals and universities invest in fitness centers and health improvement programs for several reasons. First, it is widely understood that healthier employees are more productive, experience reduced levels of stress and are absent from work less often due to illness. At the same time, companies are struggling to deal with the rising cost of employee healthcare, which has historically increased at double-digit rates. Many companies realize that they may be able to decrease the financial burden of employee healthcare and lost productivity by making the implementation of health improvement programs a top business priority. We believe the services we offer will help employees make better lifestyle behavior choices, thus improving their health, in addition to helping companies decrease the rate of spending on employee healthcare costs.

To capitalize on the growth opportunities within the employer marketplace, we organized our business into two segments effective with the fourth quarter of 2006: Fitness Management Services and Health Management Services. Within each of these business segments, we provide two types of service: (i) Staffing Services, and (ii) Program and Consulting Services. Our decision to move to segment reporting was based on the evolution of our Health Management business model, and our belief that the future financial results for our Health Management segment may outpace the financial results of our Fitness Management segment. Another factor contributing to this decision relates to the higher level of resources we expect to invest in order to maximize the future growth opportunities we believe exist in our Health Management segment.

In the long-term, we believe that we can enhance our position as the leading integrator of fitness and health management services for corporations and other large organizations. Key elements of our growth strategy include:

Pursue both aggressive, organic growth and strategic opportunities in our Health Management business segment. We believe the market for population health management programs will continue to grow.

## **Table of Contents**

Pursue new customers in our Fitness Management business segment to expand market share. As the largest provider of corporate fitness management services, we believe we can continue to add new customers, and sell additional fitness services to our current customers. However, this segment operates in a mature market, and price competition is common.

Maximize opportunities to sell our Fitness Management customers on adopting the services we offer in our integrated Health Management model.

Pursue strategic opportunities that provide operational capabilities and long-term financial value.

We intend to make strategic investments in our Health Management business segment in order to implement this growth strategy, including investments in people, systems and infrastructure in order to enhance our ability to scale, gain greater cost efficiencies and provide a broader base of services.

**OUR BUSINESS**

**Overview**

Health Fitness Corporation, a Minnesota corporation, is a leading provider of population health improvement services and programs to corporations, hospitals, communities and universities located in the United States and Canada. We currently manage 265 corporate fitness center sites for 140 customers, and 154 corporate health improvement programs for 163 customers.

We provide staffing services as well as a comprehensive menu of programs, products and consulting services within our Health Management and Fitness Management business segments. Our broad suite of services enables our clients' employees to live healthier lives, and our clients to control rising healthcare costs, through participation in our assessment, education, coaching, physical activity, weight management and wellness program services, which can be offered as follows: (i) through on-site fitness centers we manage; (ii) remotely via the web; and (iii) through telephonic health coaching.

On December 8, 2003, we purchased the business assets of the Health & Fitness Management Services Division of Johnson & Johnson Health Care Systems Inc. ( "JJHCS" ). We completed the JJHCS acquisition primarily to obtain additional expertise in the area of employee health management services, but also to broaden our platform of fitness center management contracts.

On December 23, 2005, we acquired all of the capital stock of HealthCalc.Net, Inc. ( "HealthCalc" ), a leading provider of web-based fitness, health management and wellness programs to corporations, health care organizations, physicians and athletic/fitness centers. We believe owning the technology platform developed by HealthCalc is an important element of our overall strategy of growing our health management services. HealthCalc had been one of our technology providers for approximately ten years prior to the acquisition. Our new web-based platform provides customers with a variety of tools and resources to identify opportunities to impact health care costs through lifestyle improvement programs for individuals. In addition to other services, the our new technology platform allows individuals to take periodic online health assessments, track their daily exercise, receive online health coaching, and provide access to the latest health education and information in an internet-based environment. In 2006, we integrated HealthCalc's capabilities into the service offerings we provide in our two business segments.

Major corporations, hospitals and universities invest in fitness centers and health improvement programs for several reasons. First, it is widely understood that healthier employees are more productive, experience reduced levels of stress and are absent from work less often due to illness. At the same time,

companies are struggling to deal with the rising cost of employee healthcare, which has historically increased at double-digit rates. According to a recent government report, U.S. spending on prescription drugs, hospital care and other health services is expected to double to \$4.1 trillion over the next decade, up from \$2.1 trillion in 2006. This dramatic increase in expected healthcare costs is primarily attributed to an aging population and poor lifestyle choices relating to diet and exercise. Many companies realize that they may be able to decrease the financial burden of employee healthcare and lost productivity by making the implementation of health improvement programs a top business priority. We believe the services we offer will help employees make better lifestyle behavior choices, thus improving their health, in addition to helping companies decrease the rate of spending on employee healthcare costs.

To capitalize on the growth opportunities within the employer marketplace, we organized our business into two segments effective with the fourth quarter of 2006: Fitness Management Services and Health Management Services. More information about our business, properties, share price, management, executive compensation, directors, principal shareholders, financial and other information is available through our periodic reports filed with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the fiscal year ended December 31, 2006 and our Definitive Proxy Statement on Form 14A for 2007, both of which are incorporated by reference herein.

### **Limitation Of Liability And Indemnification Of Directors And Officers**

Section 302A.521 of the Minnesota Business Corporation Act provides that unless prohibited or limited by a corporation's articles of incorporation or bylaws, a corporation must indemnify its current and former officers, directors, employees and agents against expenses (including attorneys' fees), judgments, penalties, fines and amounts paid in settlement which, in each case, were incurred in connection with actions, suits or proceedings in which such person is a party by reason of the fact that he or she was an officer, director, employee or agent of the corporation, if such person (i) has not been indemnified by another organization or employee benefit plan for the same judgments, penalties, fines, including without limitation, excise taxes assessed against the person with respect to an employee benefit plan, settlements and reasonable expenses, including attorneys' fees and disbursements, incurred by the person in connection with the proceeding with respect to the same acts or omissions, (ii) acted in good faith, (iii) received no improper personal benefit and statutory procedure has been followed in the case of any conflict of interest by a director, (iv) in the case of any criminal proceedings, had no reasonable cause to believe the conduct was unlawful, and (v) in the case of acts or omissions occurring in the person's performance in the official capacity of director or, for a person not a director, in the official capacity of officer, committee member, employee or agent, reasonably believed that the conduct was in the best interests of the corporation, or, in the case of performance by a director, officer, employee or agent of the corporation as a director, officer, partner, trustee, employee or agent of another organization or employee benefit plan, reasonably believed that the conduct was not opposed to the best interests of the corporation. Section 302A.521 requires the corporation to advance, in certain circumstances and upon written request, reasonable expenses prior to final disposition. Section 302A.521 also permits a corporation to purchase and maintain insurance on behalf of its officers, directors, employees and agents against any liability which may be asserted against, or incurred by, such persons in their capacities as officers, directors,

**Table of Contents**

employees and agents of the corporation, whether or not the corporation would have been required to indemnify the person against the liability under the provisions of such section.

Our articles of incorporation limit personal liability for breach of the fiduciary duty of our directors to the fullest extent provided by the Minnesota Business Corporation Act. Our articles of incorporation eliminate the personal liability of directors for damages occasioned by breach of fiduciary duty, except for liability based on (i) the director's duty of loyalty to us, (ii) acts or omissions not made in good faith, (iii) acts or omissions involving intentional misconduct, (iv) payments of improper dividends, (v) violations of state securities laws and (vi) acts occurring prior to the date such provision was added. Any amendment to or repeal of such provision shall not adversely affect any right or protection of a director of ours for or with respect to any acts or omissions of such director occurring prior to such amendment or repeal. Our bylaws provide that each director and officer, past or present, and each person who serves or may have served at our request as a director, officer, employee or agent of another corporation or employee benefit plan and their respective heirs, administrators and executors, will be indemnified by us to such extent as permitted by Minnesota Statutes, Section 302A.521, as now enacted or hereafter amended.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

**PLAN OF DISTRIBUTION**

The Selling Stockholders may, from time to time, sell any or all of their shares of common stock covered by this prospectus on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at prevailing market prices or at other negotiated prices. The Selling Stockholders may use any one or more of the following methods when selling shares covered by this prospectus:

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately negotiated transactions;

to cover short sales;

broker-dealers may agree with the Selling Stockholders to sell a specified number of such shares at a stipulated price per share;

a combination of any such methods of sale; and

any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell shares covered by this prospectus under Rule 144 under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The Selling Stockholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved.

The Selling Stockholders may from time to time pledge or grant a security interest in some or all of the common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell shares of common stock from time to time under this prospectus, or under an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act of 1933 amending the list of Selling Stockholders to include the pledgee, transferee or other successors in interest as Selling Stockholders under this prospectus. The Selling Stockholders also may transfer the shares of common stock in other circumstances, in which case the transferees or other successors in interest identified in a prospectus supplement, if required, will be Selling Stockholders for purposes of this prospectus.

In connection with the sale of common stock or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The Selling Stockholders may also sell shares of common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers

or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

Upon the Company being notified in writing by a Selling Stockholder that any material arrangement has been entered into with a broker-dealer for the sale of common stock through a block trade, special offering, exchange distribution or secondary distribution or a purchase by a broker or dealer, a supplement to this prospectus will be filed, if required, pursuant to Rule 424(b) under the Securities Act, disclosing (i) the name of each such Selling Stockholder and of the participating broker-dealer(s), (ii) the number of shares involved, (iii) the price at which such the shares of common stock were sold, (iv) the commissions paid or discounts or concessions allowed to such broker-dealer(s), where applicable, (v) that such broker-dealer(s) did not conduct any investigation to verify the information set out in this prospectus, and (vi) other facts material to the transaction. In addition, upon the Company being notified in writing by a Selling Stockholder that a donee or pledge intends to sell more than 500 shares of common stock, a supplement to this prospectus will be filed if then required in accordance with applicable securities law.

To our knowledge, based upon information provided to us by Selling Stockholders, the only Selling Stockholder who is a registered broker-dealer is Brown Advisory Securities, LLC. As such, they are deemed to be underwriters of the common stock underlying their warrants within the meaning of the Securities Act. We are not aware of any underwriting plan or agreement, underwriter's or dealer's compensation, or passive market-making or stabilization transactions involving the purchase or distribution of its common stock.

Each Selling Stockholder who is an affiliate of a registered broker-dealer has represented to us that it purchased the securities in the ordinary course of business and that at the time of such purchase, the Selling Stockholder had no agreements or understandings, directly or indirectly, with any person to distribute such securities.

The Selling Stockholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be underwriters within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Discounts, concessions, commissions and similar selling expenses, if any, that can be attributed to the sale of Securities will be paid by the Selling Stockholder and/or the purchasers.

The Selling Stockholders will be responsible to comply with the applicable provisions of the Securities Act and Exchange Act, and the rules and regulations thereunder promulgated, including, without limitation, Regulation M, as applicable to such Selling Stockholders in connection with resales of their respective shares under this Registration Statement.

The Company is required to pay all fees and expenses (but not selling commissions) incident to the registration of the shares, but the Company will not receive any proceeds from the sale of the common stock. The Company has agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act. If the Selling Stockholders use this prospectus for any sale of the common stock, they will be subject to the prospectus delivery requirements of the Securities Act.

The Selling Stockholders and any other person participating in such distribution will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of common stock by the Selling Stockholders and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to

engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

**DESCRIPTION OF CAPITAL STOCK**

**General**

Pursuant to our Amended and Restated Articles of Incorporation, we have 60,000,000 shares of authorized capital stock, which consists of 50,000,000 shares of common stock, 1,500,000 shares of Series A Convertible Preferred Stock (the Series A Stock ), 1,000 shares of Series B Convertible Preferred Stock (the Series B Stock ) and 8,499,000 shares of undesignated stock.

**Common Stock**

Holders of common stock are entitled to receive such dividends as are declared by the Board of Directors, out of funds legally available for the payment of dividends. We expect to retain any earnings to finance development of our business. Accordingly, we do not anticipate payment of any dividends on our common stock for the foreseeable future.

In the event of any liquidation, dissolution or winding up, the holders of each share of common stock are entitled to share equally in any balance of our assets available for distribution.

Holders of common stock are entitled to one vote per share on all matters to be voted upon by the shareholders. There is no cumulative voting for election of directors, which means that a majority of the shareholders may elect all of the members of the Board of Directors. Holders of common stock have no preemptive rights to subscribe for or to purchase any additional shares of common stock or other obligations convertible into shares of common stock or Preferred Stock which we may, hereafter, issue.

All of the outstanding shares of common stock are fully paid and non-assessable. Holders of common stock are not liable for further calls or assessments.

Our common stock is listed on the Over-the-Counter Bulletin Board under the symbol HFIT. On April 12, 2007, we had issued and outstanding 19,642,740 shares of common stock. According to the records of our transfer agent, as of April 12, 2007, there were 559 holders of record of our common stock (not including shares held in street name).

**Series A Convertible Preferred Stock**

Our Amended and Rested Articles of Incorporation designate 1,500,000 shares of Series A Convertible Preferred Stock (the Series A Stock ). Effective November 15, 2005, we redeemed all issued and outstanding shares of Series A Stock, which are not available for reissuance. As of the date of this prospectus, no shares of Series A Stock were outstanding. Although future issuance of shares of Series A Stock is unlikely, 391,178 shares of Series A Stock are available for original issuances after the date of this prospectus.

The rights and preferences of the Series A Stock include:

Each share of Series A Stock is entitled to a number of votes equal to the number of shares of common stock into which it is then convertible. Holders of Series A Stock vote together as one class together with holders of common stock, except in certain limited circumstances.

## **Table of Contents**

Each share of Series A Stock is convertible at the option of the holder into two shares of common stock (or such greater number as may result from weighted average anti-dilution adjustments that reduce the conversion price).

Holders of Series A Stock are entitled to certain pre-emptive rights in connection with future direct or indirect issuances of equity securities.

Each share of Series A Stock has a stated dividend rate of 6% per year calculated based upon the initial per share issuance price of \$1.00. Dividends are payable in-kind in the form of additional shares of Series A Stock using a price of \$1.00 per share.

In the event of a liquidation, dissolution or winding up, holders of Series A Stock are entitled to a liquidation preference of \$1 per share plus a decreasing liquidation premium of 3% prior to December 8, 2006, 2% prior to December 8, 2007 and 1% prior to December 8, 2007.

Each share of Series A Stock contains redemption provisions upon a change of control, among other events. The redemption price is the greater of the liquidation value (described above) or the fair market value of the Series A Stock on an as-converted basis.

## **Series B Convertible Preferred Stock**

Effective November 14, 2005, our Board of Directors authorized the designation of 1,000 shares of Series B Convertible Preferred Stock (the "Series B Stock"). Effective November 14, 2005, we issued 1,000 shares of Series B Stock. As of December 31, 2005, all 1,000 shares of Series B Stock we issued on November 14, 2005 remained outstanding. Effective March 10, 2006, the date that the SEC first declared effective the registration statement to which this prospectus relates, all shares of Series B Stock were automatically converted into an aggregate of 5,100,000 shares of common stock (i.e., a conversion rate of 5,100 for each share of Series B Stock).

Each share of Series B Stock was entitled to a number of votes equal to the number of shares of common stock into which it is then convertible (i.e., 5,100 votes). Except as required by law, holders of Series B Stock would have voted together as one class together with holders of common stock. Each share of Series B Stock had a stated dividend rate of 5% per year calculated based upon the initial per share issuance price of \$10,200.

## **Undesignated Shares**

Our Amended and Restated Articles of Incorporation authorize the Board of Directors to establish more than one class or series of shares. As of the date of this prospectus, we had 8,499,000 undesignated shares available for the Board of Directors to establish additional classes or series. In establishing a class or series, the Board is authorized to set the voting rights, liquidation preferences, dividend rights, conversion rights, redemption rights, and certain other rights and preferences. Although there is no current intention to do so, the Board of Directors may issue shares of a class or series of Preferred Stock with rights which could adversely affect the voting power of the holders of common stock.

## **Anti-Takeover Provisions**

Certain provisions of Minnesota law described below could have an anti-takeover effect. These provisions are intended to provide management flexibility and to enhance the likelihood of continuity and stability in the composition of our Board of Directors and in the policies formulated by our Board and to discourage an unsolicited takeover of the Company, if the Board determines that such a takeover is not in the best interests of the Company and our shareholders. However, these provisions could have the effect

**Table of Contents**

of discouraging certain attempts to acquire us which could deprive our shareholders of opportunities to sell their shares of common stock at prices higher than prevailing market prices.

Section 302A.671 of the Minnesota Business Corporation Act applies, with certain exceptions, to any acquisition of our voting stock (from a person other than the company and other than in connection with certain mergers and exchanges to which the company is a party) resulting in the acquiring person owning 20% or more of our voting stock then outstanding. Section 302A.671 requires approval of any such acquisitions by a majority vote of our shareholders prior to its consummation. In general, shares acquired in the absence of such approval are denied voting rights and are redeemable at their then fair market value by the company within 30 days after the acquiring person has failed to give a timely information statement to us or the date the shareholders voted not to grant voting rights to the acquiring person's shares.

Section 302A.673 of the Minnesota Business Corporation Act generally prohibits us or any of our subsidiaries from entering into any transaction with a shareholder under which the shareholder purchases 10% or more of our voting shares (an interested shareholder) within four years following the date the person became an interested shareholder, unless the transaction is approved by a committee of all of the disinterested members of our board of directors serving before the interested shareholder acquires the shares.

**Transfer Agent And Registrar**

The transfer agent and registrar for our common stock is Wells Fargo Shareowner Services. Its address is P.O. Box 64854, St. Paul, Minnesota 55164.

**Listing**

Our common stock is listed on the Over-the-Counter Bulletin Board under the symbol HFIT.

**LEGAL MATTERS**
