Item 2.02 Results of Operations and Financial Condition.

On October 20, 2008, IDEX Corporation (the Company) issued a press release announcing financial results for the third quarter ended September 30, 2008.

A copy of the press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

Item 2.06 Material Impairments.

On October 16, 2008, the Company concluded that a significant non-cash impairment charge is required in the third quarter of 2008 to reduce the carrying value of the goodwill associated with the Company's Fluid Management Americas subsidiary (a reporting unit within the Company's Dispensing Segment). The Company determined that the charge is appropriate due to the combination of the recent downturn in capital spending by the customer base and the loss of a major retail customer during the third quarter. The Company currently estimates the pre-tax charge to be in the range of \$15 to \$35 million. The final charge will be determined following the completion of certain asset valuations and will be recorded and reported in the filing of the Company's Form 10-Q for the period ended September 30, 2008. Prior to the adjustment relating to the charge, the carrying value of Fluid Management Americas goodwill was \$51.3 million as of September 30, 2008.

While the goodwill impairment charge will reduce reported results under accounting principles generally accepted in the United States of America, it will be non-cash in nature and will not affect the Company's liquidity, cash flows from operating activities, debt covenants, nor have any impact on future operations.

Item 7.01 Regulation FD Disclosure.

On October 16, 2008, the Company issued a press release announcing the acquisition of Integrated Environmental Technology Group (IETG), a leading provider of flow monitoring and underground utility surveillance services for the water and wastewater markets. IETG products and services enable water companies to effectively manage their water distribution and sewerage networks, while its surveillance service specializes in underground asset detection and mapping for utilities and other private companies.

A copy of the press release is furnished as Exhibit 99.2 to this Current Report on Form 8-K and is incorporated herein by reference.
