Item 9. Regulation FD Disclosure

Seabulk International, Inc. held a conference call to discuss fourth quarter and year end 2003 results at 11:00 a.m. E.S.T. on Friday, March 26, 2004, as previously announced by press release on March 19, 2004, which included instructions as to when and how to access the presentation and location on the registrant's Web site where the information would be available. An audio replay of the presentation is currently available on the Seabulk Web site at www.seabulkinternational.com (click on Investors link) and will continue to be available for the next 90 days.

In addition to the scripted remarks made by the Company, the Company made the following points in the Question and Answer period in response to questions from the audience:

The Company's asset sales in 2004 are not likely to result in significant revenue.

The debt incurred in the recent acquisition of two modern double hull foreign flag tankers is \$49.6 million, representing 80% of the purchase price. The debt is recourse to the Company.

The Company anticipates that the two new foreign flag tankers will be profitable. Per diem operating costs for each of the two tankers are approximately \$4,700 per day, while pool revenue is currently averaging \$23,000 per day. The revenue amount is subject to change as the product tanker market changes.

Operating expenses for 2004 are expected to be similar to 2003.

The Company anticipates a profit for the first quarter of 2004.

The Company does not currently see factors which make it likely that the Gulf of Mexico offshore market will improve significantly in the near future.

The Company expects to drydock 60 vessels in 2004 at a cost of approximately \$28 million, of which approximately \$21 million will be incurred in the first two quarters of 2004
