The enclosed proxy is for use at the Meeting if the shareholder will not be able to attend in person. Any shareholder who executes a proxy may revoke it at any time before it is voted by delivering to the Secretary of the Company either an instrument revoking the proxy or a duly executed proxy bearing a later date. A proxy also may be revoked by any shareholder present at the Meeting who votes his or her shares in person.

The Notice of the 2004 Annual Meeting of Shareholders, this Proxy Statement, the accompanying proxy, and the 2003 Annual Report to Shareholders were first mailed to Shareholders on or about April 20, 2004. The cost of soliciting proxies will be paid by the Company. In addition to solicitation by use of the mail, certain officers and employees of the Company may solicit the return of proxies by telephone, telegram, in person, or by electronic mail (e-mail). All shares represented by valid proxies received pursuant to this solicitation and not revoked before they are exercised will be voted in the manner specified therein. A plurality of the shares of Common Stock present in person or represented by proxy and entitled to vote at the meeting is required for the election of directors. The affirmative vote of the holders of a majority of the shares of Common Stock present in person or represented by proxy and entitled to vote at the meeting is required for approval of all other items being submitted to the shareholders for their consideration. Abstentions will be considered present for purposes of calculating the vote, but will not be considered to have been voted in favor of the matter voted upon, and broker non-votes will not be considered present for purposes of calculating the vote. A broker non-vote occurs if a broker or other nominee does not have discretionary authority and has not received instructions with respect to a particular item.

Certain Board Information

The Board of Directors supervises the management of the Company as provided by Delaware law. The Board of Directors has four committees: the Audit Committee, the Compensation Committee, the Finance Committee, and the Nominating and Corporate Governance Committee. Each of the committees has a charter, which is available for viewing on the Company's Web site at www.seabulkinternational.com. The Board has three independent directors, Messrs. Cressy, Keiser and Moore.

The Audit Committee hires the Company's independent public accountants; oversees the Company's financial reporting process and reports the results of its activities to the Board; reviews the work of, and approves audit services performed by, the independent public accountants; oversees the work of the Company's internal audit department; makes recommendations to the Board; and administers the Company's policy with respect to transactions with affiliated persons and with respect to grievances relating to accounting and controls. The Committee pre-approves the yearly audit plan of the independent public accountants. Its current members are Messrs. Moore (Chairman), Cressy and Keiser. Each member is independent as defined by the Rules of the Securities and Exchange Commission and NASDAQ. Consequently, the Company is not utilizing Rule 10A-3 exemptions from the SEC's requirements for Audit Committee member independence. The Board of Directors has determined that Mr. Moore is a qualified financial expert as defined by the Rules of the Securities and Exchange Commission and NASDAQ. The Company has a Code of Business Conduct, which includes a hotline number for accounting and controls grievances. The Chairman of the Audit Committee can be contacted directly about such grievances through procedures in the Code of Business Conduct. The Code of Business Conduct is posted on the Company's Web site and available for viewing at www.seabulkinternational.com.

The Compensation Committee reviews and recommends to the Board of Directors the compensation and benefits of all executive officers of the Company and general policy matters relating to compensation and benefits of employees of the Company. The Compensation Committee supervises the administration of the Company's Management Annual Incentive Compensation Plan by reviewing and recommending for approval by the Board bonuses consistent with the Plan. The Compensation Committee has oversight responsibility for the Amended and Restated Equity Ownership Plan and reviews and approves grants under the Plan for review and ratification by the Board. Together with the CEO, the Compensation Committee is also responsible for executive succession planning. Its current members are Messrs. Keiser (Chairman), Benacerraf and Lapeyre.

The Finance Committee was formed in August 2003. The Finance Committee reviews and advises the Board and the Company's management on the Company's financial policies, plans and programs, capital structure, tax policies, as well as the Company's credit facilities, credit ratings, insurance programs, investment management of the Company's benefit plans and related matters. Its current members are Messrs. Moore (Chairman), Benacerraf, Cressy and Lapeyre.

The Nominating and Corporate Governance Committee reviews and advises the Board and the Company's management on the Company's external affairs programs, such as legal and regulatory compliance, communications and crisis planning programs, as well as the Company's strategic initiatives. It also monitors the Company's investor relations initiatives, corporate governance procedures, and internal, non-accounting grievance procedures. Dr. Cressy, the Committee's chairman, is the only independent member of the Committee. He can be contacted directly through procedures in the Code of Business Conduct for ethics and conflicts of interest grievances. The Committee reviews director qualifications and performance on an annual basis and recommends directors for appointment and election to the Board of Directors, subject to the terms of the Stockholders Agreement among the Company and the Investors dated as of September 13, 2002. Each of

Table of Contents

the Board members up for re-election was found by the Committee to possess appropriate experience and background for the position. The Committee did not receive any other nominees for director from any other shareholders. The Committee does not have a policy with regard to consideration of director candidates recommended by shareholders. The Company does not believe that it is necessary or appropriate for the Committee to have such a policy due to the fact that the Company is controlled by two groups of shareholders who hold approximately 75% of the shares of the Company and that the Stockholders Agreement (see below) provides for selection of a majority of the Company's directors by the controlling shareholders, as well as provisions governing the remaining directors. The Committee also reviews in detail the qualifications of the chairman of the Audit Committee and its members under SEC and Nasdaq requirements. The Committee has not established a formal process for shareholders to send communications to the Board, other than as set out elsewhere in this proxy. It has not done so due primarily to its status as a controlled company in which the controlling shareholders hold approximately 75% of the shares of the Company. Neither the Board nor the Committee received shareholder recommendations during 2003. Its current members are Messrs. Cressy (Chairman), Leuschen and Webster.

The Board of Directors held ten meetings during the year ended December 31, 2003. The Audit Committee held eight meetings; the Compensation Committee held three meetings; the Finance Committee, which was formed in August 2003, held one meeting; and the Nominating and Corporate Governance Committee held three meetings. The Company's directors had an average rate of attendance of 91% at the meetings of the Board, 100% attendance at the meetings of the Audit Committee, 100% attendance at the meetings of the Compensation Committee, 75% attendance at the one meeting of the Finance Committee, and 89% attendance at the meetings of the Nominating and Corporate Governance Committee. The Annual Meeting of Shareholders in 2003 was attended by eight of the ten directors. The Company encourages its directors to attend the Annual Meeting of Shareholders and schedules a Board meeting on the same day. One director, Mr. Durkin, attended fewer than 75% of the Board meetings.

Stockholders Agreement

The Stockholders Agreement among Nautilus Acquisition, L.P. (which we refer to as Nautilus in this proxy statement); C/R Marine Domestic Partnership, L.P., C/R Marine Non-U.S. Partnership, L.P., C/R Marine Coinvestment, L.P., and C/R Marine Coinvestment II, L.P. (which we refer to as the C/R Entities in this proxy statement) and the Company and amendments to the Company's Certificate of Incorporation include several provisions intended, for certain periods following the closing of the change of control investment transaction completed in September 2002, to ensure independent director oversight of affiliated party transactions and to provide certain protective rights to minority shareholders.

Controlled Company Status

New NASDAQ marketplace rules will require that the board of directors of NASDAQ listed companies consist of a majority of directors who are independent within the meaning of the rules. These rules also impose additional independence requirements on members of certain committees of the board. The Company has determined that, except with respect to the required independence of members of the Audit Committee, it is exempt from the application of these rules as a controlled company, as defined in the rules. The Company believes it qualifies as a controlled company under NASDAQ rules because more than 50% of the voting power of its capital stock is held by a single person, Nautilus.

Director Compensation

Directors not employed by the Company are paid an annual retainer of \$24,000 plus \$1,500 per Board meeting and \$1,000 per Committee meeting (\$750 and \$500, respectively, if telephonic) attended. They are reimbursed by the Company for reasonable out-of-pocket expenses incurred for attendance at such meetings in accordance with Company policy. All Committee chairmen not employed by the Company are also paid an annual retainer of \$5,000.

Under the Stock Option Plan for Directors, each director not employed by the Company is granted annual stock options exercisable for 4,000 shares. The Chairman of the Board of Directors, if not an employee of the Company, is entitled to receive annual stock options for 8,000 shares. In 2003 each of the outside independent directors, Messrs. Cressy, Keiser and Moore, was granted options to purchase 4,000 shares, and each of the six directors appointed as part of the investment transaction in September 2002 was granted 10,000 shares for their initial year of service. In his initial year, a director is granted options to purchase 10,000 shares on the date of the Annual Meeting. Thereafter each director not employed by the Company is eligible for grants of options to purchase 4,000 shares on every Annual Meeting date.

The Board of Directors unanimously recommends that the shareholders vote FOR the election of Messrs. Benacerraf, Cressy, Durkin, Huseman, Keiser, Kurz, Lapeyre, Leuschen, Moore and Webster as Directors to serve for a term of one year.

Election of directors requires the affirmative vote of a plurality of the votes cast in person or by proxy at the Meeting. Under the terms of the Stockholders Agreement among the Company; Nautilus Acquisition, L.P. (which we refer to as Nautilus in this proxy statement); C/R Marine Domestic Partnership, L.P., C/R Marine Non-U.S. Partnership, L.P., C/R Marine Coinvestment, L.P., and C/R Marine Coinvestment II, L.P. (which we refer to as the C/R Entities in this proxy statement); and Mr. Kurz, the parties to the Stockholders Agreement, other than the Company, have agreed, subject to the limitations described in the Stockholders Agreement, to vote the shares of our common stock owned by them to cause our Board of Directors to consist of ten members and be constituted as follows:

four directors will be designated by Nautilus,

two directors will be designated by the C/R Entities,

one director will be our Chief Executive Officer, and

three directors will be mutually acceptable independent directors.

Table of Contents

Pursuant to the Stockholders Agreement and as recommended by the Nominating and Corporate Governance Committee and the Board of Directors, the following Persons have been nominated to serve as directors:

Messrs. Benacerraf, Durkin, Webster and Huseman, as designees of Nautilus,

Messrs. Lapeyre and Leuschen, as designees of the C/R Entities,

Mr. Kurz, as our Chief Executive Officer, and

Messrs. Cressy, Keiser and Moore, as independent directors.

Shares represented by the enclosed proxy will be voted for the election of the aforementioned candidates unless authority is withheld. If for any reason any of these directors is not a candidate for election as a director at the Meeting as the result of an event not now anticipated, the shares represented by the enclosed proxy will be voted for such substitute as shall be designated by the Board and the Investors pursuant to the Stockholders Agreement.

One of Credit Suisse First Boston (USA), Inc.'s wholly owned subsidiaries, CSFB Private Equity, Inc., has a partnership interest in Nautilus GP, LLC, a general partnership which owns approximately 50% of the Company. As part of the equity investment transaction completed in September 2002, the Company, the investors, Nautilus Acquisition, L.P. (which we refer to as Nautilus in this proxy statement); C/R Marine Domestic Partnership, L.P., C/R Marine Non-U.S. Partnership, L.P., C/R Marine Coinvestment, L.P., and C/R Marine Coinvestment II, L.P. Employment Agreements

The agreement, which expires September 13, 2007, provides for an annual base salary of \$500,000, subject to annual review by the Board of Directors for possible upward adjustment based on Company policy and contributions made by Mr. Kurz. Mr. Kurz is eligible for a bonus targeted to 100% of his base salary, based upon the Company's achievement of performance targets agreed upon annually. As part of the employment agreement, he was granted options to purchase 75,000 shares of the Company's Common Stock upon effectiveness of the agreement, and options to purchase an additional 225,000 shares, 112,500 of which vested on January 1, 2001, and 112,500 of which vested on December 31, 2002, which grants were approved by the Company's stockholders under the Company's Amended and Restated Equity Ownership Plan in June 2000. On December 3, 2001 the options for 75,000 shares were cancelled and in exchange Mr. Kurz was granted 75,000 shares of restricted stock pursuant to the Amended and Restated Equity Ownership Plan. The forfeiture restrictions lapsed as to 25,000 shares of restricted stock on December 4, 2001, and lapsed as to 50,000 shares on December 3, 2003. If Mr. Kurz's employment is terminated by the Company without cause or for good reason (each as defined in the agreement), he is entitled to an amount equal to the sum of two times his annual base salary and two times his annual maximum bonus for the year in which termination occurs.

In April 2003 the Company entered into Severance Agreements with four senior executives - Vincent deSostoa, Senior Vice President and Chief Financial Officer, Larry Francois, Senior Vice President and President of Seabulk Offshore, Hubert Thyssen, Vice President and Senior Vice President International of Seabulk Offshore, and Alan R. Twaits, Senior Vice President, General Counsel and Secretary - which would provide for severance payments in the amount of one year's salary and one year's bonus in the event of future involuntary terminations without cause, including terminations after a change in control. The Agreements have an initial term of two years, with renewals for additional two year terms unless terminated by the Company. The Severance Agreements do not require shareholders approval.

Under the agreement, the Company agreed to make a severance payment in the lump sum amount of \$145,384. Management Annual Incentive Compensation Plan

In March 2003 the Compensation Committee of the Board of Directors recommended and the Board of Directors approved a Management Annual Incentive Compensation Plan for eligible management employees. The Plan established a bonus pool for 2003 based on the Company's targeted budget amounts for EBITDA (earnings before interest, taxes, depreciation and amortization) and for cash flow. Individual awards were based on various performance tests including EBITDA versus budget, cash flow versus budget, operating income versus budget, revenue versus budget, safety performance and individual performance, depending on whether the eligible employee is an administrative/corporate employee, operations employee or marketing employee. The purpose of the Plan is to incentivize management employees and align an important element of their compensation with the Company's performance. The Plan does not require shareholder approval. Pursuant to the Plan the Compensation Committee recommended and the Board of Directors approved cash bonuses to 32 employees in the total amount of \$732,500. In addition, seven senior executives were granted restricted stock, becoming non-forfeitable ratably over three years, in the aggregate amount of 31,400 shares, representing one-third of their bonus award and, in one case, two-thirds of his bonus award.

Executive Deferred Compensation Plan

In February 2003 the Company established an Executive Deferred Compensation Plan for highly compensated employees as defined by the IRS. Under the Plan, an eligible employee may elect to defer up to 50% of his salary and 100% of bonuses and grants of restricted Company stock for periods of at least five years or until retirement. Income tax on deferred amounts is payable when distributed to the employee after such deferral periods. The Company is permitted to make contributions to the Plan. Salary, bonus and restricted stock deferred by employees under the Plan are funded into a trust for the benefit of the eligible employees. The Company together with an outside consultant/administrator administers the Plan. The Deferred Compensation Plan does not require shareholder approval.

Report of the Compensation Committee on Executive Compensation

The Compensation Committee is responsible for supervising the Company's executive compensation policies and reviewing, recommending and approving for review and ratification by the Board employee stock compensation awards under approved plans. The Committee is also responsible for reviewing and recommending to the Board officers' salaries and bonuses under the Company's Management Annual Incentive Compensation Plan, significant changes in executive employee benefits, other forms of remuneration and compensation policies as it deems appropriate, compliance with SEC and Nasdaq rules regarding executive compensation, and executive succession strategies. The Compensation Committee is composed of three directors who are not employees of the Company.

Compensation Philosophy

The Company's executive compensation program is designed to attract, retain, and motivate highly qualified and experienced senior management. The Compensation Committee believes that these objectives can best be obtained by directly tying executive compensation to meeting annual and long-term financial performance goals and to appreciation in the Company's stock price. In accordance with these objectives, the total compensation program for the executive officers of the Company and its subsidiaries consists of three components, which are examined and utilized by the Compensation Committee:

- (1) base salary;
- (2) annual performance bonuses based upon achievement of company and business unit financial and operational performance criteria and individual performance goals, as set out in the terms of the Management Annual Incentive Compensation Plan; and
- (3) long-term equity incentives such as stock options and restricted stock grants, which may vest over a period of years.

To assist in making its decisions, the Committee utilizes outside consultants and data to assure the three components are aligned with the compensation philosophy. During the year the Committee meets with the executives of the Company and reviews Company performance to assist with its review of individual compensation. The Committee also receives detailed performance reviews and recommendations from the CEO on all executives to aid in its determination of individual recommendations to the Board.

Base Salary

The base salaries of the Company's executive officers are reviewed annually by the Compensation Committee and are set at levels reflecting the responsibilities of the position, the level of experience required to effectively perform the requirements of the position, individual performance, and industry and comparable company standards. Base salaries are established in conjunction with individual performance evaluations and on the recommendations of the CEO. The Company's financial performance is an important factor. To assist in establishing salary levels, the Compensation Committee may from time to time take into consideration salary levels of executives at other comparable companies in the marine industry and at other companies of comparable size in the geographic region of the Company.

Annual Bonus

The Company's Management Annual Incentive Compensation Plan is intended to promote superior performance by (i) aligning annual management incentive compensation with financial and operating performance metrics that create long term shareholder value and appreciation in the Company's stock price, and (ii) making management incentive compensation a material and important part of an executive's total compensation. In calculating bonuses, the Compensation Committee examines both objective performance, in which a given executive's performance is measured in terms of Company and business unit financial and operational results compared to budgeted targets, as well as individual goals and subjective performance. Management employees' individual bonuses are based upon a percentage of their base salaries, and can go up or down based on Company and business unit financial and operational performance as well as personal performance. The Company's budgeted bonus pool is calculated based upon the target percentage of eligible executives' current salary, assuming Company and individual performance goals are achieved. The bonus pool

Table of Contents

amount can go up or down based upon the Company's performance against budgeted EBITDA (earnings before interest, taxes, depreciation, and amortization) and cash flow.

For 2003 the Committee recommended and approved, and the Board reviewed and approved bonuses for executives generally below Plan target levels based on the performance of the Company and its business units. For seven key executives a portion of the bonus was paid in restricted stock, becoming non-forfeitable over three years, to further align them with the interests of the shareholders. The restricted stock was granted from shares under the Company's approved Amended and Restated Equity Ownership Plan.

Long-Term Incentives

The Compensation Committee believes that it is important to provide executive officers incentive compensation based upon the Company's stock price performance, thus aligning the interests of its executive officers with those of its shareholders and encouraging them to contribute to the Company's long-term success. Executive officers are eligible to receive awards of stock options and restricted stock which vest over a period of years. These equity based incentive awards are structured to encourage key employees to remain in the service of the Company.

CEO Compensation

In setting the compensation payable to the Company's Chairman, President and Chief Executive Officer, the Compensation Committee seeks to achieve two objectives: (i) establish a level of base salary which is (a) competitive with that paid by comparable companies within the industry; (b) competitive with that paid by companies outside the industry with which the Company competes for executive talent; and (c) commensurate with the high risks inherent in the waterborne transportation of petroleum and chemical products; the strict governmental regulation of such operations and large penalties provided by law in certain instances of groundings, collisions, and spills; and the complexities of the Chief Executive Officer's duties and responsibilities growing out of the Company's diverse operations within its three segments; and (ii) make a significant percentage of the total compensation package contingent upon the Company's performance and financial results. The employment agreement for the Chief Executive Officer provides for base salary compensation and also targets annual bonus to salary. His bonus is also based on the Management Annual Incentive Compensation Plan described above. For 2003 the Committee reviewed the Chief Executive Officer's contribution to the Company's financial and operating performance together with the Company's financial and operating targets in awarding his bonus, which was then reviewed and approved by the Board. For 2003 a substantial portion of the Chief Executive Officer's bonus was paid in restricted stock becoming non-forfeitable over three years, to further align him with the interests of the shareholders.

Report of the Audit Committee

The Audit Committee of the Board was composed of three independent directors during the fiscal year 2003. The Audit Committee operates under a charter, which was amended and approved by the Board in October 2003 and which is attached as Exhibit A to this Proxy Statement. (The charter is also available for viewing, like our other Committee charters, on our Web site at www.seabulkinternational.com.) Under the guidelines of the charter, the Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the accurate preparation of the financial statements and maintaining the reporting process and systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed and discussed the audited financial statements in the Annual Report with management, including a discussion of the quality, not just the acceptability, of the accounting principles, and the reasonableness of significant judgments.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards, including the matters required to be discussed by SAS 61, and has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1. In addition, the Committee discussed with the independent auditors the auditors' independence from management, the Company and the Board, including the matters in the written disclosures required by the Independence Standards Board.

The Committee engaged the Company's independent auditors, discussed with them the overall scope and plans for the audit, and approved their remuneration for 2003. The Committee met with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee held eight meetings during fiscal year 2003 with the independent auditors present.

The Committee met with the Company's management, and an independent accounting firm which was engaged to assist the Company in performing accounting and financial controls reviews and testing, in response to the requirements of section 404 of the Sarbanes Oxley Act. In addition, the Committee reviewed with management the elements and compliance requirements of other applicable sections of the Sarbanes Oxley Act, including the independent director requirement for membership on the Audit Committee, the financial expert criteria for the chairman for the Audit Committee, and the disclosure and certification requirements of the CEO and CFO under the Sarbanes Oxley Act in connection with the filing of the Company's financial reports.

During 2003 the Company also established an audit services department with an internal audit function which reports to the Committee.

In reliance on the reviews and discussions referred to above, the Committee recommended that the

audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2003 for filing with the Securities and Exchange Commission. The Committee has also recommended, subject to shareholder approval, the selection of the Company's independent auditors for fiscal year 2004.

AUDIT COMMITTEE CHARTER

Organization

This charter governs the operations of the Audit Committee. The Committee shall review and reassess the charter annually and obtain the approval of the Board of Directors for any revisions. The Committee shall be appointed by the Board of Directors and shall comprise at least three directors, each of whom is independent of management and the Company. Members of the Committee shall be considered independent if they have no relationship that may interfere with the exercise of their independence from management and the Company and if they are otherwise in compliance with the Sarbanes-Oxley Act, SEC rules, and NASDAQ rules. All Committee members shall be financially literate, or shall become financially literate within a reasonable period of time after appointment to the Committee, and at least one member shall have accounting or related financial and/or financial management expertise in order to qualify as a financial expert under SEC rules.

Statement of Policy

The Audit Committee shall provide assistance to the Board of Directors in fulfilling its oversight responsibility to the shareholders, the investment community, and others. This oversight responsibility relates to the Company's financial statements and the financial reporting process, the systems of internal accounting and financial controls, the internal audit function, the annual independent audit of the Company's financial statements, and the legal compliance and ethics programs, including employee complaint and grievance procedures relating to internal financial controls and accounting as established by management and the Board and reviewed and monitored by the Committee. In so doing, it is the responsibility of the Committee to maintain free and open communication among its members, the independent auditors, the internal auditors and management of the Company. In discharging its oversight role, the Committee is empowered to investigate any matter brought to its attention with full access to all books, records, facilities, and personnel of the Company and the power to retain independent outside counsel, consultants, or other experts for this purpose.

Responsibilities and Processes

The primary responsibility of the Audit Committee is to oversee the Company's financial reporting process on behalf of the Board and report the results of its activities to the Board. Management is responsible for preparing the Company's financial statements, and the independent auditors are responsible for auditing those financial statements. The Committee, in carrying out its responsibilities, believes its policies and procedures should remain flexible, in order to best react to changing conditions and circumstances. The Committee should take the appropriate actions to set the overall corporate tone for quality financial reporting, sound business risk practices, and ethical behavior. Additionally, the Audit Committee shall have responsibility for hiring and firing the Company's independent external auditors, and for fee arrangements with the independent external auditors.

Table of Contents

The following shall be the principal recurring processes of the Audit Committee in carrying out its oversight responsibilities. The processes are set forth as a guide with the understanding that the Committee may supplement them as appropriate.

The Committee shall have a clear understanding with management and the independent auditors that the independent auditors are ultimately accountable to the Board and the Audit Committee, as representatives of the Company's shareholders. The Committee shall have the authority and responsibility to hire, evaluate and, where appropriate, replace the independent auditors. The Committee shall discuss with the auditors their independence from management and the Company and the matters included in the written disclosures required by the Independence Standards Board. Annually, the Committee shall review and recommend to the Board the selection of the Company's independent auditors, subject to shareholders' approval.

The Committee shall discuss with the internal auditors and the independent auditors the overall scope and plans for their respective audits including the adequacy of staffing and compensation. Also, the Committee shall discuss with management, the internal auditors, and the independent auditors the adequacy and effectiveness of the accounting and financial controls, including the Company's system to monitor and manage business risk, and legal and ethical compliance programs. Further, the Committee shall meet separately with the internal auditors and the independent auditors, with and without management present, to discuss the result of their examinations.

The Committee shall review the interim financial statements with management and the independent auditors prior to the filing of the Company's Quarterly Report on Form 10-Q. Also, the Committee shall discuss the results of the quarterly review and any other matters required to be communicated to the committee by the independent auditors under generally accepted auditing standards.

The Committee shall review with management and the independent auditors the financial statements to be included in the Company's Annual Report on Form 10-K (or the annual report to shareholders if distributed prior to the filing of Form 10-K), including their judgment about the quality, not just acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements. Also, the Committee shall discuss the results of the annual audit and any other matters required to be communicated to the Committee by the independent auditors under generally accepted auditing standards.
