- (2) We do not know when or in what amounts a selling securityholder may offer the Notes, subsidiary guarantees or shares of common stock for sale. The selling securityholder might not sell any or all of the Notes and subsidiary guarantees or shares offered by this prospectus. Because the selling securityholders may offer all or some of the Notes and subsidiary guarantees or shares pursuant to this offering, we cannot estimate the number of the Notes and subsidiary guarantees or shares that will be held by the selling securityholders after completion of the offering. However, for purposes of this table, we have assumed that, after completion of the offering, none of the Notes and subsidiary guarantees or shares covered by this prospectus will be held by the selling securityholders.
- (3) Percentage ownership is based on \$400 million principal amount of Notes and related subsidiary guarantees outstanding.
- (4) Amounts assume conversion of all the selling securityholders' Notes at the initial conversion rate of 48.0031 shares of common stock per \$1,000 principal amount of Notes, excluding fractional shares. However, the conversion ratio, and therefore the number of shares of our common stock issuable upon conversion of the Notes, is subject to adjustment. Accordingly, the number of shares of common stock issuable upon conversion of the Notes may increase or decrease.
- (5) Beneficial ownership includes the following additional shares of common stock which are not being offered hereby and which we have assumed will remain outstanding after the offering: 13,333 shares currently held by Allstate Insurance Company, 15,700 shares held by Agents Pension Plan and 58,000 shares of common stock held by Allstate Retirement Plan.
- (6) Beneficial ownership includes 717,000 additional shares of common stock which are not being offered hereby and which we have assumed will remain outstanding after the offering.
- (7) Beneficial ownership includes 71,000 additional shares of common stock which are not being offered hereby and which we have assumed will remain outstanding after the offering.
- (8) The aggregate principal amount of Notes and related subsidiary guarantees reflected in the table is less than the \$400 million principal amount of Notes and related subsidiary guarantees outstanding because some securityholders have advised us that they have sold their Notes and related subsidiary guarantees under this prospectus. There may be other securityholders included in the table who have sold their Notes and related subsidiary guarantees but have not yet notified us.
- (9) Represents shares of our common stock issuable upon conversion of Notes, at the present conversion rate, which were acquired from other selling securityholders under this prospectus and which we have assumed will remain outstanding after the offering.
