AGCO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. BASIS OF PRESENTATION

The Condensed Consolidated Financial Statements of AGCO Corporation and its subsidiaries (the Company or AGCO) included herein have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and the rules and regulations of the Securities and Exchange Commission (SEC). In the opinion of management, the accompanying unaudited Condensed Consolidated Financial Statements reflect all adjustments, which are of a normal recurring nature, necessary to present fairly the Company's financial position, results of operations and cash flows at the dates and for the periods presented. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. Certain reclassifications of previously reported financial information were made to conform to the current presentation. Results for interim periods are not necessarily indicative of the results for the year.

Stock Compensation Plans

During the first quarter of 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 123R (Revised 2004), Share-Based Payment (SFAS No. 123R), which is a revision of SFAS No. 123, Accounting for Stock-Based Compensation. During the three months and nine months ended September 30, 2007, the Company recorded approximately \$7.0 million and \$10.6 million, respectively, of stock compensation expense in accordance with SFAS No. 123R. During the three months and nine months ended September 30, 2006, the Company recorded approximately \$1.4 million and \$4.6 million, respectively, of stock compensation expense in accordance with SFAS No. 123R. The stock compensation expense was recorded as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Cost of goods sold	\$ 0.3	\$ 0.1	\$ 0.4	\$ 0.1
Selling, general and administrative expenses	6.7	1.3	10.2	4.5
Total stock compensation expense	\$ 7.0	\$ 1.4	\$ 10.6	\$ 4.6

Stock Incentive Plans

In 2006, the Company obtained stockholder approval for the 2006 Long Term Incentive Plan (the 2006 Plan) under which up to 5,000,000 shares of AGCO common stock may be issued. The 2006 Plan allows the Company, under the direction of the Board of Directors' Compensation Committee, to make grants of performance shares, stock appreciation rights, stock options and stock awards to employees, officers and non-employee directors of the Company. The Company's Board of Directors approved the grants of awards during 2006 effective under the employee and director stock incentive plans described below.

Employee Plans

The 2006 Plan encompasses two stock incentive plans to Company executives and key managers. The primary long-term incentive plan is a performance share plan that provides for awards of shares of common stock based on achieving financial targets, such as targets for earnings per share and return on invested capital, as determined by the Company's Board of Directors. The stock awards are earned over a performance period, and the number of shares earned is determined based on the cumulative or average results for the period, depending on the measurement. Performance periods are consecutive and overlapping three-year cycles and performance targets are set at the beginning of each cycle. In order to transition to the 2006 Plan, the Company established award targets in 2006 for both a one-year and two-year performance period in addition to the normal three-year period. The plan provides for participants to earn from 33% to 200% of the target awards depending

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)

on the actual performance achieved, with no shares earned if performance is below the established minimum target. Awards earned under the performance share plan will be paid in shares of the Company's common stock at the end of each performance period. The compensation expense associated with these awards is being amortized ratably over the vesting or performance period based on the Company's projected assessment of the level of performance that will be achieved and earned. No compensation expense was recorded associated with the Company's one-year performance period transition plan during 2006, as no shares were earned as of December 31, 2006. During the nine months ended September 30, 2007, the Company granted 509,000 awards under the 2006 Plan for the three-year performance period commencing in 2007 and ending in 2009. Compensation expense recorded with respect to these awards was based upon the stock price as of the grant date. The weighted average grant-date fair value of performance awards granted under the 2006 Plan during the nine months ended September 30, 2007 was \$37.39. Performance award transactions during the nine months ended September 30, 2007 were as follows and are presented as if the Company were to achieve its target levels of performance under the plan:

Shares awarded but not earned at January 1	642,083
Shares awarded	509,000
Shares forfeited or unearned	(209,083)
Shares earned	
Shares awarded but not earned at September 30	942,000

As of September 30, 2007, the total compensation cost related to unearned performance awards not yet recognized, assuming the Company's current projected assessment of the level of performance that will be achieved and earned, was approximately \$30.7 million, and the weighted average period over which it is expected to be recognized is approximately two years.

In addition to the performance share plan, certain executives and key managers are eligible to receive grants of stock settled stock appreciation rights (SSARs) or incentive stock options depending on the participant's country of employment. The SSARs provide a participant with the right to receive the aggregate appreciation in stock price over the market price of the Company's common stock at the date of grant, payable in shares of the Company's common stock. The participant may exercise his or her SSAR at any time after the grant is vested but no later than seven years after the date of grant. The SSARs vest ratably over a four-year period from the date of grant. SSAR award grants made to certain executives and key managers under the 2006 Plan are made with the base price equal to the price of the Company's common stock on the date of grant. During the first quarter of 2007, the Company granted 224,500 SSAR awards. During the three and nine months ended September 30, 2007, the Company recorded stock compensation expense of approximately \$0.3 million and \$0.8 million, respectively. The compensation expense associated with these awards is being amortized ratably over the vesting period. The Company estimated the fair value of the grants using the Black-Scholes option pricing model. The weighted average grant-date fair value of SSARs granted under the 2006 Plan and the weighted average assumptions under the Black-Scholes option model were as follows for the nine months ended September 30, 2007:

	Nine Months Ended September 30, 2007
SSARs weighted average grant date fair value	\$ 13.59
Weighted average assumptions under Black-Scholes option model:	
Expected life of awards (years)	5.5

Risk-free interest rate	4.7%
Expected volatility	41.4%
Expected dividend yield	

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)

SSAR transactions during the nine months ended September 30, 2007 were as follows:

SSARs outstanding at January 1	221,750
SSARs granted	224,500
SSARs exercised	(27,312)
SSARs canceled or forfeited	(32,875)
SSARs outstanding at September 30	386,063

SSAR price ranges per share:

Granted	\$	37.38
Exercised		23.80
Canceled or forfeited		23.80 37.38

Weighted average SSAR exercise prices per share:

Granted	\$	37.38
Exercised		23.80
Canceled or forfeited		29.79
Outstanding at September 30		31.24

At September 30, 2007, the weighted average remaining contractual life of SSARs outstanding was six years and there were 25,875 SSARs currently exercisable with prices ranging from \$23.80 to \$26.00 with a weighted average exercise price of \$23.99 and an aggregate intrinsic value of \$0.7 million. As of September 30, 2007, the total compensation cost related to unvested SSARs not yet recognized was approximately \$3.9 million and the weighted-average period over which it is expected to be recognized is approximately three years.

The following table sets forth the exercise price range, number of shares, weighted average exercise price, and remaining contractual lives by groups of similar price:

Range of Exercise Prices	Number of Shares	SSARs Outstanding		SSARs Exercisable	
		Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Exercisable as of September 30, 2007	Weighted Average Exercise Price
\$23.80 \$26.00	176,063	5.6	\$23.91	25,875	\$23.99
\$37.38	210,000	6.4	\$37.38		
	386,063			25,875	

The total intrinsic value of SSARs exercised during the nine months ended September 30, 2007 was \$0.5 million and the total fair value of shares vested during the same period was \$0.4 million. The Company did not realize a tax benefit from the exercise of these SSARs. There were 360,188 SSARs that were not vested as of September 30, 2007. The total intrinsic value of outstanding SSARs as of September 30, 2007 was approximately \$7.5 million.

Director Restricted Stock Grants

The 2006 Plan provides \$25,000 in annual restricted stock grants to all non-employee directors effective on the first day of each calendar year. The shares are restricted as to transferability for a period of three years, but are not

subject to forfeiture. In the event a director departs from the Board of Directors, the non-transferability period would expire immediately. The plan allows for the director to have the option of forfeiting a portion of the shares awarded in lieu of a cash payment contributed to the participant's tax withholding to satisfy the participant's statutory minimum federal, state and employment taxes which would be payable at the time of grant. The January 1, 2006 grant equated to 11,550 shares of common stock, of which 8,832 shares of common stock were issued, after shares were withheld for withholding taxes. The Company recorded stock compensation expense of approximately \$0.3 million during the second quarter of 2006 associated with these grants. The January 1, 2007 grant equated to 8,080 shares of common stock, of which 6,346 shares of common stock were issued, after shares were withheld for withholding taxes. The Company recorded stock

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)

compensation expense of approximately \$0.3 million during the first quarter of 2007 associated with these grants.

As of September 30, 2007, of the 5,000,000 shares reserved for issuance under the 2006 Plan, 2,687,446 shares were available for grant, assuming the maximum number of shares are earned related to the performance award grants discussed above.

Stock Option Plan

The Company's Option Plan provides for the granting of nonqualified and incentive stock options to officers, employees, directors and others. The stock option exercise price is determined by the Company's Board of Directors except in the case of an incentive stock option for which the purchase price shall not be less than 100% of the fair market value at the date of grant. Each recipient of stock options is entitled to immediately exercise up to 20% of the options issued to such person, and the remaining 80% of such options vest ratably over a four-year period and expire no later than ten years from the date of grant.

There were no grants under the Company's Option Plan during the nine months ended September 30, 2007. The Company does not intend to make any grants under the Option Plan in the future. Stock option transactions during the nine months ended September 30, 2007 were as follows:

Options outstanding at January 1	511,170
Options granted	
Options exercised	(390,710)
Options canceled or forfeited	(14,960)
Options outstanding at September 30	105,500
Options available for grant at September 30	1,930,437
Option price ranges per share:	
Granted	\$
Exercised	8.50-31.25
Canceled or forfeited	11.00-31.25
Weighted average option exercise prices per share:	
Granted	\$
Exercised	20.14
Canceled or forfeited	16.29
Outstanding at September 30	13.97

At September 30, 2007, the outstanding options had a weighted average remaining contractual life of approximately four years and there were 103,500 options currently exercisable with option prices ranging from \$9.10 to \$22.31 with a weighted average exercise price of \$13.84 and an aggregate intrinsic value of \$3.8 million. The total intrinsic value of outstanding options as of September 30, 2007 was approximately \$3.9 million.

The following table sets forth the exercise price range, number of shares, weighted average exercise price, and remaining contractual lives by groups of similar price:

Number of	Options Outstanding		Options Exercisable	
	Weighted Average Remaining	Weighted Average Exercise	Exercisable as of	Weighted Average Exercise

Edgar Filing: AGCO CORP /DE - Form 10-Q

Range of Exercise Prices		Shares	Contractual Life (Years)	Price	September 30, 2007	Price
\$9.10	\$11.88	47,700	3.0	\$10.99	47,700	\$10.99
\$15.12	\$22.31	57,800	4.1	\$16.43	55,800	\$16.28
		105,500			103,500	

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)

The total intrinsic value of options exercised during the nine months ended September 30, 2007 was \$7.0 million and the total fair value of shares vested during the same period was less than \$0.1 million. There were 2,000 stock options that were not vested as of September 30, 2007. Cash received from stock option exercises was approximately \$7.9 million for the nine months ended September 30, 2007. The Company did not realize a tax benefit from the exercise of these options.

Former Non-employee Director Stock Incentive Plan and Long-Term Incentive Plan

In December 2005, the Company's Board of Directors elected to terminate the Company's Long-Term Incentive Plan and its Non-employee Director Incentive Plan, and the outstanding awards under those plans were cancelled. Awards cancelled prior to December 31, 2005 did not result in any compensation expense under the provisions of Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees. However, awards cancelled after January 1, 2006 were subject to the provisions of SFAS No. 123R, and, therefore, the Company recorded approximately \$1.3 million of stock compensation expense during the first quarter of 2006 associated with those cancellations.

Recent Accounting Pronouncements

In March 2007, the Emerging Issues Task Force (EITF) reached a consensus on EITF Issue No. 06-10, Accounting for Collateral Assignment Split-Dollar Life Insurance Arrangements (EITF 06-10), which requires that an employer should recognize a liability for the postretirement benefit related to a collateral assignment split-dollar life insurance arrangement in accordance with either SFAS No. 106, Employers' Accounting for Postretirement Benefits Other Than Pensions (SFAS No. 106) (if, in substance, a postretirement benefit plan exists), or APB Opinion No. 12 (if the arrangement is, in substance, an individual deferred compensation contract) if the employer has agreed to maintain a life insurance policy during the employee's retirement or provide the employee with a death benefit based on the substantive agreement with the employee. In addition, the EITF reached a consensus that an employer should recognize and measure an asset based on the nature and substance of the collateral assignment split-dollar life insurance arrangement. The EITF observed that in determining the nature and substance of the arrangement, the employer should assess what future cash flows the employer is entitled to, if any, as well as the employee's obligation and ability to repay the employer. EITF 06-10 is effective for fiscal years beginning after December 15, 2007. The Company may have certain insurance policies subject to the provisions of this new pronouncement, but does not believe the adoption of EITF 06-10 will have a material impact on its consolidated results of operations or financial position during its 2008 fiscal year.

In February 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS No. 159). SFAS No. 159 provides companies with an option to report selected financial assets and liabilities at fair value and to provide additional information that will help investors and other users of financial statements to understand more easily the effect on earnings of a company's choice to use fair value. It also requires companies to display the fair value of those assets and liabilities for which a company has chosen to use fair value on the face of the balance sheet. The Company is required to adopt SFAS No. 159 on January 1, 2008 and is currently evaluating the impact, if any, of SFAS No. 159 on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS No. 157). SFAS No. 157 establishes a common definition for fair value to be applied to guidance regarding U.S. generally accepted accounting principles requiring use of fair value, establishes a framework for measuring fair value, and expands disclosure about such fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Company is currently assessing the impact of SFAS No. 157 on its consolidated financial position and results of operations for its 2008 fiscal year.

In September 2006, the FASB issued FASB Staff Position AUG AIR-1 Accounting for Planned Major Maintenance Activities (FSP AUG AIR-1). FSP AUG AIR-1 amends the guidance on the accounting for planned major maintenance activities; specifically it precludes the use of the previously acceptable accrue in advance method. FSP AUG AIR-1 is effective for fiscal years beginning after December 15, 2006. The

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)

implementation of this standard did not have a material impact on the Company's consolidated financial position or results of operations, as the Company does not employ the accrue in advance method.

In June 2006, the EITF reached a consensus on EITF Issue No. 06-4, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements (EITF 06-4), which requires the application of the provisions of SFAS No. 106 to endorsement split-dollar life insurance arrangements. SFAS No. 106 would require the Company to recognize a liability for the discounted future benefit obligation that the Company will have to pay upon the death of the underlying insured employee. An endorsement-type arrangement generally exists when the Company owns and controls all incidents of ownership of the underlying policies. EITF 06-4 is effective for fiscal years beginning after December 15, 2007. The Company may have certain insurance policies subject to the provisions of this new pronouncement, but does not believe the adoption of EITF 06-4 will have a material impact on its consolidated results of operations or financial position during its 2008 fiscal year.

In June 2006, the FASB issued FASB Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, and disclosure. The Company adopted FIN 48 effective January 1, 2007. The adoption of FIN 48 did not have a material effect on the Company's consolidated results of operations or financial position. See Note 9 where the adoption of FIN 48 is discussed.

In March 2006, the FASB issued SFAS No. 156, Accounting for Servicing of Financial Assets an amendment of FASB Statement No. 140 (SFAS No. 156). SFAS No. 156 requires an entity to recognize a servicing asset or liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in specified situations. Such servicing assets or liabilities would be initially measured at fair value, if practicable, and subsequently measured at amortized value or fair value based upon an election of the reporting entity. SFAS No. 156 also specifies certain financial statement presentations and disclosures in connection with servicing assets and liabilities. SFAS No. 156 is effective for fiscal years beginning after September 15, 2006 and may be adopted earlier but only if the adoption is in the first quarter of the fiscal year. The adoption of SFAS No. 156 did not have a material effect on the Company's consolidated financial position.

In March 2006, the EITF reached a consensus on EITF Issue No. 06-3, How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (that is, Gross versus Net Presentation) (EITF 06-3), which allows companies to adopt a policy of presenting taxes in the income statement on either a gross or net basis. Taxes within the scope of EITF 06-3 would include taxes that are imposed on a revenue transaction between a seller and a customer; for example, sales taxes, use taxes, value-added taxes, and some types of excise taxes. EITF 06-3 is effective for interim and annual reporting periods beginning after December 15, 2006. The adoption of EITF 06-3 by the Company did not impact the method for recording and reporting these taxes in the Company's consolidated results of operations or financial position, as the Company's policy is to exclude all such taxes from net sales and present such taxes in the consolidated statements of operations on a net basis.

2. JOINT VENTURE AND ACQUISITION

On September 28, 2007, the Company acquired 50% of Laverda S.p.A. (Laverda), an operating joint venture between the Company and the Italian ARGO group, for approximately 46.0 million (or approximately \$65.6 million). Laverda is located in Breganze, Italy and manufactures harvesting equipment. In addition to producing Laverda branded combines, the Breganze factory has been manufacturing mid-range combine harvesters for AGCO's Massey Ferguson, Fendt and Challenger brands for distribution in Europe, Africa and the Middle East since 2004. The joint venture also includes Laverda's ownership in Fella-Werke GmbH (Fella), a German manufacturer of grass and hay machinery, and its 50% stake in Gallignani S.p.A. (Gallignani), an Italian manufacturer of balers. The addition of the Fella and Gallignani product lines enables the Company to provide a comprehensive harvesting offering to its customers. The investment was financed with available cash on hand. The Company has accounted for the operating joint venture in accordance with APB Opinion No. 18, The Equity Method of Accounting for Investments in Common

Stock (APB No. 18).

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)

In accordance with APB No. 18, the Company recorded approximately \$25.9 million of goodwill and other identifiable intangible assets as the Company's investment was greater than the preliminary estimate of the fair value of the underlying equity in the net assets received. The amortization of the other identifiable intangible assets will be included in the Company's share of its earnings or losses from its investment within the Equity in net earnings of affiliates line item of the Company's Consolidated Statements of Operations. In addition, the Company allocated approximately \$28.2 million of its investment to property, plant and equipment to reflect land, buildings, and machinery and equipment at their preliminary respective fair values as compared to their historical net book values. The depreciation expense associated with the step up in recorded amounts with respect to property, plant and equipment will also be included in the Company's share of its earnings or losses from its investment. The investment balance as of September 30, 2007 includes transaction costs and related fees incurred during 2007.

On September 10, 2007, the Company acquired Industria Agricola Fortaleza Limitada (SFIL), a privately owned Brazilian company, for approximately R\$38.0 million (or approximately \$20.0 million). In accordance with the purchase agreement, cash of approximately R\$5.2 million (or approximately \$2.7 million) was placed in escrow on the date of acquisition. This portion of the purchase price was established to fund certain disclosed contingent obligations and to compensate the Company for potential customer bad debt losses. The escrowed funds are reflected within Other current assets and Other assets in the Company's Condensed Consolidated Balance Sheet as of September 30, 2007. SFIL is located in Ibirubá, Brazil and manufactures and distributes a line of farm implements, including drills, planters, corn headers and front loaders. The acquisition was financed with available cash on hand. The SFIL acquisition has been accounted for in accordance with SFAS No. 141, Business Combinations, and, accordingly, the Company allocated the purchase price to the assets acquired and the liabilities assumed based on a preliminary estimate of their fair values as of the acquisition date. The results of operations for the SFIL acquisition have been included in the Company's Condensed Consolidated Financial Statements as of and from the date of acquisition. The Company recorded approximately \$6.5 million of goodwill and approximately \$0.4 million for an identifiable intangible asset, the SFIL tradename, associated with the acquisition. The acquired intangible asset has a useful life of approximately five years. The net assets acquired include transaction costs and related fees incurred during 2007.

3. RESTRUCTURING AND OTHER INFREQUENT (INCOME) EXPENSES

In the third quarter of 2004, the Company announced and initiated a plan related to the restructuring of its European combine manufacturing operations located in Randers, Denmark to include the elimination of the facility's component manufacturing operations, as well as the rationalization of the combine model range assembled in Randers. Component manufacturing operations ceased in February 2005. The Company recorded an impairment charge in the third quarter of 2004 to write down certain property, plant and equipment within the component manufacturing operation as the rationalization eliminated a majority of the square footage utilized in the facility. The impairment charge was based upon the estimated fair value of the assets compared to their carrying value. The estimated fair value of the property, plant and equipment was based on current conditions in the market. The machinery, equipment and tooling was disposed of or sold in 2005. The Company sold a portion of the buildings, land and improvements and received cash proceeds of approximately \$4.4 million in September 2007. A gain of approximately \$3.0 million was recorded related to the sale in the third quarter of 2007 and was reflected within Restructuring and other infrequent expenses within the Company's Condensed Consolidated Statements of Operations.

During the second quarter of 2007, the Company announced the closure of its Valtra sales office located in France. The closure will result in the termination of approximately 15 employees. The Company recorded severance costs of approximately \$0.2 million associated with the closure during the second quarter of 2007 and an additional \$0.4 million in severance costs during the third quarter of 2007. Approximately \$0.1 million of severance costs had been paid as of September 30, 2007, and two of the employees had been terminated. The \$0.5 million of severance costs accrued at September 30, 2007 are expected to be paid and completed during 2008.

During the third quarter of 2006, the Company announced the closure of two sales offices located in Germany, including a Valtra sales office. The closures will result in the termination of approximately 13

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)

employees. The Company recorded severance costs of approximately \$0.5 million associated with the closures during 2006. During the second quarter of 2007, the Company recorded and paid employee relocation costs associated with the rationalizations of approximately \$0.1 million. During the third quarter of 2007, the Company recorded additional severance costs of approximately \$0.1 million. Approximately \$0.4 million of the severance costs accrued had been paid as of September 30, 2007 and eight of the employees had been terminated. The \$0.2 million of severance costs accrued at September 30, 2007 are expected to be paid during 2007.

During the second quarter of 2005, the Company announced that it was changing its distribution arrangements for its Valtra and Fendt products in Scandinavia by entering into a distribution agreement with a third-party distributor to distribute Valtra and Fendt equipment in Sweden and Valtra equipment in Norway and Denmark. As a result of this agreement and the decision to close other Valtra European sales offices, the Company initiated the restructuring and closure of its Valtra sales offices located in the United Kingdom, Spain, Denmark and Norway, resulting in the termination of approximately 24 employees. The Danish and Norwegian sales offices were transferred to the third-party Scandinavian equipment distributor in October 2005, which included the transfer of certain employees, assets and lease and supplier contracts. The Company recorded severance costs, asset write-downs and other facility closure costs of approximately \$0.4 million, \$0.1 million and \$0.1 million, respectively, related to these closures during 2005. During the fourth quarter of 2005, the Company completed the sale of property, plant and equipment associated with the sales offices in the United Kingdom and Norway and recorded a gain of approximately \$0.2 million, which was reflected within Restructuring and other infrequent expenses within the Company's Condensed Consolidated Statements of Operations. During the first quarter of 2006, the Company recorded an additional \$0.1 million of severance costs related to these closures. As of December 31, 2006, all of the employees had been terminated and all severance and other facility closure costs had been paid.

During the fourth quarter of 2004, the Company initiated the restructuring of certain administrative functions within its Finnish tractor manufacturing operations, resulting in the termination of approximately 58 employees. During 2004, the Company recorded severance costs of approximately \$1.4 million associated with this rationalization. During 2005, the Company paid approximately \$0.8 million of severance costs. As of March 31, 2006, all of the 58 employees had been terminated. The \$0.6 million of severance payments accrued at September 30, 2007 are expected to be paid through 2009.

4. GOODWILL AND OTHER INTANGIBLE ASSETS

Changes in the carrying amount of acquired intangible assets during the nine months ended September 30, 2007 are summarized as follows (in millions):

	Trademarks		Patents		
	and	Customer	and		
	Tradenames	Relationships	Technology		Total
Gross carrying amounts:					
Balance as of December 31, 2006	\$ 32.9	\$ 89.6	\$ 50.1		\$ 172.6
Acquisition	0.4				0.4
Foreign currency translation		10.8	3.9		14.7
Balance as of September 30, 2007	\$ 33.3	\$ 100.4	\$ 54.0		\$ 187.7

	Trademarks		Patents		
	and	Customer	and		
	Tradenames	Relationships	Technology		Total

Edgar Filing: AGCO CORP /DE - Form 10-Q

	Trademarks and Tradenames
Indefinite-lived intangible assets:	
Balance as of December 31, 2006	\$ 92.1
Foreign currency translation	3.2
Balance as of September 30, 2007	\$ 95.3

Changes in the carrying amount of goodwill during the nine months ended September 30, 2007 are summarized as follows (in millions):

	North America	South America	Europe/Africa/ Middle East	Consolidated
Balance as of December 31, 2006	\$ 3.1	\$ 146.4	\$ 442.6	\$ 592.1
Acquisition		6.5		6.5
Foreign currency translation		24.5	33.6	58.1
Balance as of September 30, 2007	\$ 3.1	\$ 177.4	\$ 476.2	\$ 656.7

SFAS No. 142, *Goodwill and Other Intangible Assets* (SFAS No. 142) establishes a method of testing goodwill and other indefinite-lived intangible assets for impairment on an annual basis or on an interim basis if an event occurs or circumstances change that would reduce the fair value of a reporting unit below its carrying value. The Company's annual assessments involve determining an estimate of the fair value of the Company's reporting units in order to evaluate whether an impairment of the current carrying amount of goodwill and other indefinite-lived intangible assets exists. Fair values are derived based on an evaluation of past and expected future performance of the Company's reporting units. A reporting unit is an operating segment or one level below an operating segment (e.g., a component). A component of an operating segment is a reporting unit if the component constitutes a business for which discrete financial information is available and the Company's executive management team regularly reviews the operating results of that component. In addition, the Company combines and aggregates two or more components of an operating segment as a single reporting unit if the components have similar economic characteristics. The Company's reportable segments reported under the guidance of SFAS No. 131, *Disclosures About Segments of an Enterprise and Related Information*, are not its reporting units, with the exception of its Asia/Pacific geographical segment.

The Company utilizes a combination of valuation techniques, including a discounted cash flow approach and a market multiple approach, when making its annual and interim assessments. As stated above, goodwill is tested for impairment on an annual basis and more often if indications of impairment exist. During the fourth quarter of 2007, the Company will be performing its annual impairment testing of goodwill and other intangible assets under SFAS No. 142.

The Company amortizes certain acquired intangible assets primarily on a straight-line basis over their estimated useful lives, which range from three to 30 years.

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)**5. INDEBTEDNESS**

Indebtedness consisted of the following at September 30, 2007 and December 31, 2006 (in millions):

	September 30, 2007	December 31, 2006
Credit facility	\$	\$
6 ⁷ / ₈ % Senior subordinated notes due 2014	285.3	264.0
1 ³ / ₄ % Convertible senior subordinated notes due 2033	201.3	201.3
1 ¹ / ₄ % Convertible senior subordinated notes due 2036	201.3	201.3
Other long-term debt	3.4	7.0
	691.3	785.0
Less: Current portion of long-term debt	(1.0)	(6.3)
1 ³ / ₄ % Convertible senior subordinated notes due 2033	(201.3)	(201.3)
Total indebtedness, less current portion	\$ 489.0	\$ 577.4

6. INVENTORIES

Inventories are valued at the lower of cost or market using the first-in, first-out method. Market is net realizable value for finished goods and repair and replacement parts. For work in process, production parts and raw materials, market is replacement cost. Cash flows related to the sale of inventories are reported within Cash flows from operating activities within the Company's Condensed Consolidated Statements of Cash Flows.

Inventories at September 30, 2007 and December 31, 2006 were as follows (in millions):

	September 30, 2007	December 31, 2006
Finished goods	\$ 589.6	\$ 468.7
Repair and replacement parts	351.9	331.9
Work in process	106.1	59.8
Raw materials	286.1	204.5
Inventories, net	\$ 1,333.7	\$ 1,064.9

7. PRODUCT WARRANTY

The warranty reserve activity for the three months ended September 30, 2007 and 2006 consisted of the following (in millions):

	Three Months Ended September 30,	
	2007	2006
Balance at beginning of period	\$ 147.3	\$ 128.5
Accruals for warranties issued during the period	35.0	27.9
Settlements made (in cash or in kind) during the period	(28.7)	(29.9)
Foreign currency translation	5.9	(0.9)

Balance at September 30

\$ 159.5

\$ 125.6

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)

The warranty reserve activity for the nine months ended September 30, 2007 and 2006 consisted of the following (in millions):

	Nine Months Ended September 30,	
	2007	2006
Balance at beginning of period	\$ 136.9	\$ 122.8
Accruals for warranties issued during the period	100.0	85.8
Settlements made (in cash or in kind) during the period	(86.9)	(86.9)
Foreign currency translation	9.5	3.9
Balance at September 30	\$ 159.5	\$ 125.6

The Company's agricultural equipment products are generally warranted against defects in material and workmanship for a period of one to four years. The Company accrues for future warranty costs at the time of sale based on historical warranty experience.

8. NET INCOME PER COMMON SHARE

The computation, presentation and disclosure requirements for earnings per share are presented in accordance with SFAS No. 128, Earnings Per Share. Basic earnings per common share is computed by dividing net income by the weighted average number of common shares outstanding during each period. Diluted earnings per common share assumes exercise of outstanding stock options and vesting of restricted stock when the effects of such assumptions are dilutive.

The Company's \$201.3 million aggregate principal amount of 3 3/4% convertible senior subordinated notes and its \$201.3 million aggregate principal amount of 1 1/4% convertible senior subordinated notes provide for (i) the settlement upon conversion in cash up to the principal amount of the converted notes with any excess conversion value settled in shares of the Company's common stock, and (ii) the conversion rate to be increased under certain circumstances if the new notes are converted in connection with certain change of control transactions. Dilution of weighted shares outstanding will depend on the Company's stock price for the excess conversion value using the treasury stock method. A reconciliation of net income and weighted average common shares outstanding for purposes of calculating basic and diluted earnings per share for the three and nine months ended September 30, 2007 and 2006 is as follows (in millions, except per share data):

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Basic net income per share:				
Net income	\$ 76.9	\$ 5.4	\$ 165.2	\$ 63.6
Weighted average number of common shares outstanding	91.6	91.0	91.4	90.8
Basic net income per share	\$ 0.84	\$ 0.06	\$ 1.81	\$ 0.70
Diluted net income per share:				
Net income	\$ 76.9	\$ 5.4	\$ 165.2	\$ 63.6
Weighted average number of common shares outstanding	91.6	91.0	91.4	90.8
Dilutive stock options and restricted stock awards	0.1	0.2	0.2	0.3
Weighted average assumed conversion of contingently convertible senior subordinated notes	4.7	0.8	4.1	0.4
Weighted average number of common and common equivalent shares outstanding for purposes of computing diluted earnings per share	96.4	92.0	95.7	91.5
Diluted net income per share	\$ 0.80	\$ 0.06	\$ 1.73	\$ 0.69

There were SSARs to purchase 0.2 million shares for both the three and nine months ended September 30, 2007 that were excluded from the calculation of diluted earnings per share because they had an antidilutive impact. There were SSARs and options to purchase 0.1 million and 0.5 million shares for the three and nine months ended September 30, 2006, respectively, that were excluded from the calculation of diluted earnings per share because the option exercise prices were higher than the average market price of the Company's common stock during the related period and the SSARs had an antidilutive impact.

9. INCOME TAXES

The Company adopted the provisions of FIN 48 on January 1, 2007. As a result of the implementation of FIN 48, the Company recognized no material adjustment with respect to liabilities for unrecognized income tax benefits. As of the adoption date of January 1, 2007, the Company had \$12.9 million of unrecognized income tax benefits, all of which would affect the Company's effective tax rate if recognized. As of September 30, 2007, the Company had approximately \$3.0 million of current accrued taxes related to uncertain income tax positions connected with ongoing income tax audits in various jurisdictions that it expects to settle or pay in the next 12 months.

The Company recognizes interest and penalties related to uncertain income tax positions in income tax expense. As of January 1, 2007, the Company had approximately \$0.8 million of accrued interest and penalties related to uncertain income tax positions.

The tax years 2001 through 2006 remain open to examination by taxing authorities in the United States and other certain foreign taxing jurisdictions, primarily the United Kingdom, France, Germany and Brazil.

10. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company applies the provisions of SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended by SFAS No. 138, Accounting for Certain Derivative Instruments and Certain Hedging Activities An Amendment of FASB Statement No. 133. All derivatives are recognized on the Company's Condensed Consolidated Balance Sheets at fair value. On the date the derivative contract is entered into, the Company designates the derivative as either (1) a fair value hedge of a recognized liability, (2) a cash flow hedge of a forecasted transaction, (3) a hedge of a net investment in a foreign operation, or (4) a non-designated derivative instrument.

The Company formally documents all relationships between hedging instruments and hedged items, as well as the risk management objectives and strategy for undertaking various hedge transactions. The Company formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)

hedging transactions are highly effective in offsetting changes in fair values or cash flow of hedged items. When it is determined that a derivative is no longer highly effective as a hedge, hedge accounting is discontinued on a prospective basis.

Foreign Currency Risk

The Company has significant manufacturing operations in the United States, France, Germany, Finland, Brazil and Denmark, and it purchases a portion of its tractors, combines and components from third-party foreign suppliers, primarily in various European countries and in Japan. The Company also sells products in over 140 countries throughout the world. The Company's most significant transactional foreign currency exposures are the Euro, Brazilian Real and the Canadian dollar in relation to the United States dollar.

The Company attempts to manage its transactional foreign exchange exposure by hedging foreign currency cash flow forecasts and commitments arising from the settlement of receivables and payables and from future purchases and sales. Where naturally offsetting currency positions do not occur, the Company hedges certain, but not all, of its exposures through the use of foreign currency forward and option contracts. The Company's hedging policy prohibits foreign currency forward contracts for speculative trading purposes.

The Company uses foreign currency forward contracts to economically hedge receivables and payables on the Company and its subsidiaries' balance sheets that are denominated in foreign currencies other than the functional currency. These forward contracts are classified as non-designated derivative instruments. Gains and losses on such contracts are historically substantially offset by losses and gains on the remeasurement of the underlying asset or liability being hedged. Changes in the fair value of non-designated derivative contracts are reported in current earnings.

During 2006 and 2007, the Company designated certain foreign currency option contracts as cash flow hedges of expected future sales. The effective portion of the fair value gains or losses on these cash flow hedges are recorded in other comprehensive income, with the cumulative gain or loss subsequently reclassified into cost of goods sold during the same period as the sales are recognized. These amounts offset the effect of the changes in foreign exchange rates on the related sale transactions. The amount of the gain recorded in other comprehensive loss that was reclassified to net sales during the year ended December 31, 2006 was approximately \$4.0 million on an after-tax basis. The amount of the gain recorded to other comprehensive loss related to the outstanding cash flow hedges as of September 30, 2007 was approximately \$6.4 million. The outstanding contracts range in maturity from October of 2007 through December of 2008.

The following table summarizes activity in accumulated other comprehensive loss related to derivatives held by the Company during the nine months ended September 30, 2007 (in millions):

	Before-Tax Amount	Income Tax	After-Tax Amount
Accumulated derivative net gains as of December 31, 2006	\$ 0.1	\$	\$ 0.1
Net changes in fair value of derivatives	10.4	3.1	7.3
Net gains reclassified from accumulated other comprehensive loss into income	1.0		1.0
Accumulated derivative net gains as of September 30, 2007	\$ 9.5	\$ 3.1	\$ 6.4

The Company's senior management establishes the Company's foreign currency and interest rate risk management policies. These policies are reviewed periodically by the Audit Committee of the Company's Board of Directors. These policies allow for the use of derivative instruments to hedge exposures to movements in foreign currency and interest rates.

Table of ContentsNotes to Condensed Consolidated Financial Statements Continued
(unaudited)**11. COMPREHENSIVE INCOME (LOSS)**

Total comprehensive income (loss) for the three and nine months ended September 30, 2007 and 2006 was as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Net income	\$ 76.9	\$ 5.4	\$ 165.2	\$ 63.6
Other comprehensive income, net of tax:				
Defined benefit pension plans	8.5		8.5	
Foreign currency translation adjustments	78.4	(7.5)	164.7	69.7
Unrealized gain (loss) on derivatives	6.3	(0.6)	6.4	2.5
Unrealized loss on derivatives held by affiliates	(1.6)	(3.7)	(3.1)	(1.8)
Total comprehensive income (loss)	\$ 168.5	\$ (6.4)	\$ 341.7	\$ 134.0

12. ACCOUNTS RECEIVABLE SECURITIZATION

At September 30, 2007, the Company had accounts receivable securitization facilities in the United States, Canada and Europe totaling approximately \$492.7 million. Under the securitization facilities, wholesale accounts receivable are sold on a revolving basis to commercial paper conduits either through a wholly-owned special purpose U.S. subsidiary or a qualifying special purpose entity (QSPE) in the United Kingdom. The Company accounts for its securitization facilities and its wholly-owned special purpose U.S. subsidiary in accordance with SFAS No. 140,

Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities a Replacement of FASB Statement No. 125 (SFAS No. 140), and FIN No. 46R, Consolidation of Variable Interest Entities An Interpretation of ARB No. 51 (FIN 46R). In North America, due to the fact that the receivables sold to the commercial paper conduits are an insignificant portion of the conduits total asset portfolios and such receivables are not siloed, consolidation is not appropriate under FIN 46R, as the Company does not absorb a majority of losses under such transactions. In Europe, the commercial paper conduit that purchases a majority of the receivables is deemed to be the majority beneficial interest holder of the QSPE, and thus consolidation by the Company is not appropriate under FIN 46R, as the Company does not absorb a majority of losses under such transactions. In addition, these facilities are accounted for as off-balance sheet transactions in accordance with SFAS No. 140.

Outstanding funding under these facilities totaled approximately \$433.5 million at September 30, 2007 and \$429.6 million at December 31, 2006. The funded balance has the effect of reducing accounts receivable and short-term liabilities by the same amount. Losses on sales of receivables primarily from securitization facilities included in other expense, net were \$8.7 million and \$6.5 million for the three months ended September 30, 2007 and 2006, respectively, and \$25.5 million and \$20.3 million for the nine months ended September 30, 2007 and 2006, respectively. The losses are determined by calculating the estimated present value of receivables sold compared to their carrying amount. The present value is based on historical collection experience and a discount rate representing the spread over LIBOR as prescribed under the terms of the agreements.

During the second quarter of 2005, the Company completed an agreement to permit transferring, on an ongoing basis, the majority of its wholesale interest-bearing receivables in North America to AGCO Finance LLC and AGCO Finance Canada, Ltd., its U.S. and Canadian retail finance joint ventures. The Company has a 49% ownership interest in these joint ventures. The transfer of the receivables is without recourse to the Company, and the Company continues to service the receivables. As of September 30, 2007, the balance of interest-bearing receivables transferred to AGCO Finance LLC and AGCO Finance Canada, Ltd. under this agreement was approximately \$90.0 million compared to approximately \$124.1 million as of December 31, 2006.

13. EMPLOYEE BENEFIT PLANS

The Company has defined benefit pension plans covering certain employees, principally in the United States, the United Kingdom, Germany, Finland, Norway, France, Australia and Argentina. The Company also provides certain postretirement health care and life insurance benefits for certain employees, principally in the United States, as well as a supplemental executive retirement plan, which is an unfunded plan that provides Company executives with retirement income for a period of ten years after retirement.

Net pension and postretirement cost for the plans for the three months ended September 30, 2007 and 2006 are set forth below (in millions):

	Three Months Ended September 30,	
	2007	2006
Pension benefits		
Service cost	\$ 2.3	\$ 1.5
Interest cost	10.8	9.7
Expected return on plan assets	(10.6)	(9.1)
Amortization of net actuarial loss and prior service cost	3.8	4.6
Net pension cost	\$ 6.3	\$ 6.7
Postretirement benefits	2007	2006
Service cost	\$	\$ 0.1
Interest cost	0.3	0.4
Amortization of prior service credit and unrecognized net(gain) loss	(0.1)	0.2
Other	0.2	
Net postretirement cost	\$ 0.4	\$ 0.7

Net pension and postretirement cost for the plans for the nine months ended September 30, 2007 and 2006 are set forth below (in millions):

	Nine Months Ended September 30,	
	2007	2006
Pension benefits		
Service cost	\$ 7.0	\$ 4.3
Interest cost	32.5	28.9
Expected return on plan assets	(32.0)	(27.3)
Amortization of net actuarial loss and prior service cost	11.4	13.9
Net pension cost	\$ 18.9	\$ 19.8
Postretirement benefits	2007	2006
Service cost	\$ 0.1	\$ 0.2
Interest cost	1.0	1.3
Amortization of prior service cost	(0.1)	(0.1)
Amortization of unrecognized net loss		0.5
Other	0.2	
Net postretirement cost	\$ 1.2	\$ 1.9

During the nine months ended September 30, 2007, approximately \$27.9 million of contributions had been made to the Company's defined benefit pension plans. The Company currently estimates its minimum contributions for 2007 to

its defined benefit pension plans will aggregate approximately \$37.1 million. During the nine months ended September 30, 2007, the Company made approximately \$1.5 million of contributions to its U.S.-based postretirement health care and life insurance benefit plans. The Company currently estimates that it will make approximately \$2.2 million of contributions to its U.S.-based postretirement health care and life insurance benefit plans during 2007.

14. SEGMENT REPORTING

The Company has four reportable segments: North America; South America; Europe/Africa/Middle East; and Asia/Pacific. Each regional segment distributes a full range of agricultural equipment and related replacement parts. The Company evaluates segment performance primarily based on income from operations. Sales for each regional segment are based on the location of the third-party customer. The Company's selling, general and administrative expenses and engineering expenses are charged to each segment based on the region and division where the expenses are incurred. As a result, the components of income from operations for one segment may not be comparable to another segment. Segment results for the three and nine months ended

15. COMMITMENTS AND CONTINGENCIES

As a result of Brazilian tax legislative changes impacting value added taxes (VAT), the Company has recorded a reserve of approximately \$19.5 million and \$20.0 million against its outstanding balance of Brazilian VAT taxes receivable as of September 30, 2007 and December 31, 2006, respectively, due to the uncertainty of the Company's ability to collect the amounts outstanding.

The Company is a party to various legal claims and actions incidental to its business. The Company believes that none of these claims or actions, either individually or in the aggregate, is material to its business or financial condition.

As disclosed in Item 3 of the Company's Form 10-K for the year ended December 31, 2006, in February 2006, the Company received a subpoena from the SEC in connection with a non-public, fact-finding inquiry entitled "In the Matter of Certain Participants in the Oil for Food Program." This subpoena requested documents concerning transactions in Iraq under the United Nations Oil for Food Program by the Company and certain of its subsidiaries. Subsequently the Company was contacted by the Department of Justice (the DOJ) regarding the same transactions, although no subpoena or other formal process has been initiated by the DOJ. Similar inquiries have been initiated by the Danish and French governments regarding two of the Company's subsidiaries. The inquiries arose from sales of approximately \$58.0 million in farm equipment to the Iraq ministry of agriculture between 2000 and 2002. The SEC's staff has asserted that certain aspects of those transactions were not properly recorded in the Company's books and records. The Company is cooperating fully in these inquiries. It is not possible to predict the outcome of these inquiries or their impact, if any, on the Company, although if the outcomes were adverse the Company could be required to pay fines and make other payments as well as take appropriate remedial actions.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

Our operations are subject to the cyclical nature of the agricultural industry. Sales of our equipment have been and are expected to continue to be affected by changes in net cash farm income, farm land values, weather conditions, demand for agricultural commodities, commodity prices and general economic conditions. We record sales when we sell equipment and replacement parts to our independent dealers, distributors or other customers. To the extent possible, we attempt to sell products to our dealers and distributors on a level basis throughout the year to reduce the effect of seasonal demands on manufacturing operations and to minimize our investment in inventory. Retail sales by dealers to farmers are highly seasonal and are a function of the timing of the planting and harvesting seasons. As a result, our net sales have historically been the lowest in the first quarter and have increased in subsequent quarters.

RESULTS OF OPERATIONS

For the three months ended September 30, 2007, we generated net income of \$76.9 million, or \$0.80 per share, compared to net income of \$5.4 million, or \$0.06 per share, for the same period in 2006. For the first nine months of 2007, we generated net income of \$165.2 million, or \$1.73 per share, compared to net income of \$63.6 million, or \$0.69 per share, for the same period in 2006.

Net sales during the third quarter and first nine months of 2007 were \$1,613.0 million and \$4,657.0 million, respectively, which were approximately 37% and 23% higher than the third quarter and first nine months of 2006, respectively, primarily due to improved market conditions in Brazil, sales growth in Europe and the impact of currency translation.

Third quarter income from operations was \$110.4 million in 2007 compared to \$32.2 million in the third quarter of 2006. Income from operations was \$266.6 million for the first nine months of 2007 compared to \$158.7 million for the same period in 2006. The increase in income from operations was primarily due to the increase in net sales, as well as the result of improved operating margins.

Income from operations increased in our Europe/Africa/Middle East region in the third quarter and first nine months of 2007 primarily due to increased sales volumes, currency translation, cost control initiatives, and a better sales mix, which included more high-margin high horsepower tractor and parts sales. In the South America region, income from operations increased in the third quarter and first nine months of 2007 due to sales growth resulting from stronger market conditions, primarily in the major market of Brazil. Higher sales volumes combined with focused cost management resulted in improved operating margins in the region for the third quarter and first nine months of 2007 compared to 2006. Income from operations in North America was higher in the third quarter of 2007 compared to the third quarter of 2006, primarily due to net sales growth and cost reduction initiatives. Income from operations in North America was lower for the first nine months of 2007 compared to the same period in 2006, primarily due to negative currency impacts on products sourced from Brazil and Europe, as well as higher engineering expenses. Income from operations in our Asia/Pacific region was higher in the third quarter of 2007, primarily due to strengthening market demand and successful new product introductions. Income from operations in our Asia/Pacific region was lower for the first nine months of 2007, primarily due to weaker markets in Australia caused by drought conditions.

Retail Sales

In North America, industry unit retail sales of tractors for the first nine months of 2007 increased approximately 1% compared to the first nine months of 2006 resulting from increases in the utility and high horsepower tractor segments largely offset by a decrease in the compact tractor segment. Industry unit retail sales of combines for the first nine months of 2007 were approximately 11% higher than the prior year period. The strongest growth in North America in 2007 has been in the professional farming segment with increasing

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations
(Continued)

sales of high horsepower tractors, combines and hay equipment primarily due to higher commodity prices. Our unit retail sales of tractors were lower in the first nine months of 2007 compared to the first nine months of 2006. Our unit retail sales of combines were higher in the first nine months of 2007 compared to the same period in 2006.

In Europe, industry unit retail sales of tractors for the first nine months of 2007 increased approximately 5% compared to the prior year period. Retail demand improved in Central and Eastern Europe, the United Kingdom, Scandinavia and France. The improved market conditions were primarily due to improving economic conditions and higher crop prices. Our unit retail sales were also higher in the first nine months of 2007 compared to the same period in 2006.

South American industry unit retail sales of tractors in the first nine months of 2007 increased approximately 44% over the prior year period. Industry unit retail sales of combines for the first nine months of 2007 were approximately 64% higher than the prior year period. Industry unit retail sales of tractors and combines in the major market of Brazil increased approximately 51% and 126%, respectively, during the first nine months of 2007 compared to the same periods in 2006. Favorable weather conditions, robust demand from the sugar cane sector, and recovering commodity prices have resulted in increased industry demand. Our South American unit retail sales of tractors and combines were also higher in the first nine months of 2007 compared to the same period in 2006.

Outside of North America, Europe and South America, net sales for the first nine months of 2007 were approximately 8% lower than 2006 due to lower sales in the Middle East.

STATEMENTS OF OPERATIONS

Net sales for the third quarter of 2007 were \$1,613.0 million compared to \$1,180.9 million for the same period in 2006. Net sales for the first nine months of 2007 were \$4,657.0 million compared to \$3,801.2 million for the prior year period. For the first nine months of 2007, net sales increased in all four of AGCO's geographical segments, with strong growth in South America, where improved market conditions in Brazil led to higher sales. Foreign currency translation positively impacted net sales by approximately \$106.9 million, or 9.1%, in the third quarter of 2007 and by \$280.8 million, or 7.4%, in the first nine months of 2007. The following table sets forth, for the three and nine months ended September 30, 2007 and 2006, the impact to net sales of currency translation by geographical segment (in millions, except percentages):

	Three Months Ended September 30,		Change		Change due to currency translation	
	2007	2006	\$	%	\$	%
North America	\$ 349.0	\$ 259.5	\$ 89.5	34.5%	\$ 2.5	1.0%
South America	300.1	169.0	131.1	77.6%	30.0	17.8%
Europe/Africa/Middle East	913.3	709.0	204.3	28.8%	69.4	9.8%
Asia/Pacific	50.6	43.4	7.2	16.5%	5.0	11.4%
	\$ 1,613.0	\$ 1,180.9	\$ 432.1	36.6%	\$ 106.9	9.1%

	Nine Months Ended September 30,		Change		Change due to currency translation	
	2007	2006	\$	%	\$	%
North America	\$ 1,017.9	\$ 923.5	\$ 94.4	10.2%	\$ 3.0	0.3%
South America	747.2	470.8	276.4	58.8%	55.1	11.7%
Europe/Africa/Middle East	2,766.5	2,295.2	471.3	20.5%	211.4	9.2%

Edgar Filing: AGCO CORP /DE - Form 10-Q

Asia/Pacific	125.4	111.7	13.7	12.2%	11.3	10.1%
	\$ 4,657.0	\$ 3,801.2	\$ 855.8	22.5%	\$ 280.8	7.4%

Regionally, net sales in North America increased during the third quarter and first nine months of 2007. Improved market conditions and higher combine and hay equipment sales from new products contributed to

23

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations
(Continued)

higher net sales during the third quarter of 2007. In the Europe/Africa/Middle East region, net sales increased in the third quarter and first nine months of 2007, primarily due to sales growth in Eastern Europe, France, Germany, Scandinavia, the United Kingdom and Finland. The net sales increase in the third quarter of 2007 was largely due to increased sales of our Fendt products, as well as an increase in parts sales in Europe. Net sales in South America increased significantly during the third quarter and first nine months of 2007, primarily as a result of stronger market conditions in the region, predominantly in Brazil. In the Asia/Pacific region, net sales increased in the third quarter and first nine months of 2007 compared to the same periods in 2006 due to strengthening market demand. We estimate that consolidated price increases during the third quarter and the first nine months of 2007 contributed approximately 1.7% and 1.5% to the increase in sales in the third quarter and first nine months of 2007, respectively. Consolidated net sales of tractors and combines, which comprised approximately 73% and 71% of our net sales in the third quarter and first nine months of 2007, respectively, increased approximately 43% and 26% in the third quarter and first nine months of 2007, respectively, compared to the same periods in 2006. Unit sales of tractors and combines increased approximately 20% and 13% in the third quarter and first nine months of 2007, respectively, compared to the same periods in 2006. The difference between the unit sales increase and the increase in net sales was primarily the result of foreign currency translation, pricing and sales mix changes.

The following table sets forth, for the periods indicated, the percentage relationship to net sales of certain items in our Condensed Consolidated Statements of Operations (in millions, except percentages):

	Three Months Ended September 30,			
	2007	% of Net sales	2006	% of Net sales
	\$		\$	
Gross profit	\$ 307.6	19.1%	\$ 204.3	17.3%
Selling, general and administrative expenses	156.6	9.7%	135.0	11.4%
Engineering expenses	38.6	2.4%	31.9	2.7%
Restructuring and other infrequent (income) expenses	(2.5)	(0.1)%	0.9	0.1%
Amortization of intangibles	4.5	0.3%	4.3	0.4%
Income from operations	\$ 110.4	6.8%	\$ 32.2	2.7%

	Nine Months Ended September 30,			
	2007	% of Net sales	2006	% of Net sales
	\$		\$	
Gross profit	\$ 824.0	17.7%	\$ 661.9	17.4%
Selling, general and administrative expenses	438.2	9.4%	394.1	10.4%
Engineering expenses	108.3	2.3%	95.5	2.5%
Restructuring and other infrequent (income) expenses	(2.2)		1.0	
Amortization of intangibles	13.1	0.3%	12.6	0.3%

Income from operations	\$ 266.6	5.7%	\$ 158.7	4.2%
------------------------	----------	------	----------	------

Gross profit as a percentage of net sales increased during the third quarter and the first nine months of 2007 compared to the prior year, primarily due to increased sales, higher production and sales mix, offset by currency impacts. Our North American margins continue to be affected by the negative impacts of currency movements on products sourced from Brazil and Europe. Third quarter gross margins benefited from a richer sales mix in Europe, which included more high-horsepower tractors and part sales than in the prior year. Supplier constraints and the production roll-out of a new high-horsepower tractor series pushed sales of certain higher margin products from the first half of the year into the third quarter. The supplier constraints that limited our production and sales in the first six months of 2007 improved in the third quarter but remain a concern for the balance of 2007. If additional supplier constraints occur, they could negatively impact our future results. We recorded approximately \$0.3 million and \$0.4 million of stock compensation expense, within cost of goods sold, during the third quarter and first nine months of 2007, respectively, as is more fully explained in Note 1 to our Condensed Consolidated Financial Statements.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations
(Continued)

Selling, general and administrative (SG&A) expenses as a percentage of net sales decreased during the third quarter and first nine months of 2007 compared to the prior year primarily due to higher sales and cost control initiatives. We recorded approximately \$6.7 million and \$10.2 million of stock compensation expense, within SG&A, during the third quarter and first nine months of 2007, respectively, as is more fully explained in Note 1 to our Condensed Consolidated Financial Statements. Engineering expenses increased during the third quarter and first nine months of 2007 compared to the prior year as a result of continued spending to fund product improvements and cost reduction projects.

We recorded restructuring and other infrequent income of \$2.5 million and \$2.2 million during the third quarter and the first nine months of 2007, respectively. We sold a portion of the buildings, land and improvements associated with our Randers, Denmark facility and received cash proceeds of approximately \$4.4 million in September 2007. A gain of approximately \$3.0 million was recorded related to the sale in the third quarter of 2007. This gain was partially offset by charges primarily related to severance and employee relocation costs associated with the rationalization of our Valtra sales office located in France as well as the rationalization of certain parts, sales and marketing and administration functions in Germany. During the third quarter and first nine months of 2006, we recorded restructuring and other infrequent expenses of \$0.9 million and \$1.0 million, respectively, primarily related to severance costs associated with the rationalization of certain parts, sales, marketing and administrative functions in the United Kingdom and Germany, as well as the rationalization of certain Valtra European sales offices located in Denmark, Norway and the United Kingdom. See Note 2 to our Condensed Consolidated Financial Statements for further discussion of restructuring activities.

Interest expense, net was \$3.4 million and \$17.6 million for the third quarter and first nine months of 2007, respectively, compared to \$13.3 million and \$41.2 million, respectively, for the comparable periods in 2006. The decrease was primarily due to the reduction in debt levels from 2006. In December 2006, we issued \$201.3 million aggregate principal amount of 1¹/₄% convertible senior subordinated notes. The net proceeds received from the issuance of the notes, as well as available cash on hand, were used to repay a portion of our outstanding United States dollar and Euro denominated term loans, which bear a higher variable interest rate. In June 2007, we repaid the remaining balances of our outstanding United States dollar and Euro denominated term loans with available cash on hand.

Other expense, net was \$10.5 million and \$28.6 million during the third quarter and first nine months of 2007, respectively, compared to \$7.6 million and \$24.4 million for the same periods in 2006. Losses on sales of receivables, primarily under our securitization facilities, were \$8.7 million and \$25.5 million in the third quarter and first nine months of 2007, respectively, compared to \$6.5 million and \$20.3 million for the same periods in 2006. The increase is primarily due to higher interest rates in 2007 compared to 2006.

We recorded an income tax provision of \$26.7 million and \$75.6 million for the third quarter and first nine months of 2007, respectively, compared to \$13.9 million and \$48.6 million for the comparable periods in 2006. The effective tax rate was 27.7% and 34.3% for the third quarter and first nine months of 2007, respectively, compared to 123.0% and 52.2% in the comparable prior year periods. During the third quarter of 2007, the governments of the United Kingdom and Germany enacted legislation that will lower their respective corporate tax rates effective in early 2008. Our effective tax rate for the three and nine months ended September 30, 2007 reflect the impact of such legislative changes on the Company's deferred tax balances which was a benefit of approximately \$7.4 million. Our effective tax rate was negatively impacted in both periods by losses in the United States, where we recorded no tax benefit.

RECENT JOINT VENTURE AND ACQUISITION

On September 28, 2007, we acquired 50% of Laverda S.p.A. (Laverda), an operating joint venture between AGCO and the Italian ARGO group, for approximately 46.0 million (or approximately \$65.6 million). Laverda is located in Breganze, Italy and manufactures harvesting equipment. In addition to producing Laverda branded combines, the Breganze factory has been manufacturing mid-range combine harvesters for AGCO's Massey Ferguson, Fendt and Challenger brands for distribution in Europe, Africa and the Middle East since 2004. The joint venture also includes Laverda's ownership in Fella-Werke GMBH (Fella), a German manufacturer of grass and hay machinery, and its 50% stake in Gallignani S.p.A. (Gallignani), an Italian manufacturer of balers. The addition of the Fella and Gallignani product lines enables us to provide a comprehensive harvesting offering to our customers. The investment was financed with available cash on hand. We have accounted for the operating joint venture in accordance with Accounting Principle Board Opinion No. 18, The Equity Method of Accounting for Investments in Common Stock. See Note 2 to our Condensed Consolidated Financial Statements where the Laverda operating joint venture is more fully discussed.

On September 10, 2007, we acquired Industria Agricola Fortaleza Limitada (SFIL), a privately owned Brazilian company, for approximately R\$38.0 million (or approximately \$20.0 million). SFIL is located in Ibirubá, Brazil and manufactures and distributes a line of farm implements including drills, planters, corn headers and front loaders. The addition of this line of implements will allow us to leverage the strength of our brands and our dealer networks in the South American region. The acquisition was financed with available cash on hand. The SFIL acquisition has been accounted for in accordance with Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations. The results of operations for the SFIL acquisition have been included in our results of operations and balance sheet as of and from the date of acquisition. See Note 2 to our Condensed Consolidated Financial Statements where the SFIL acquisition is more fully discussed.

LIQUIDITY AND CAPITAL RESOURCES

Our financing requirements are subject to variations due to seasonal changes in inventory and receivable levels. Internally generated funds are supplemented when necessary from external sources, primarily our revolving credit facility and accounts receivable securitization facilities.

Our current financing and funding sources, with balances outstanding as of September 30, 2007, are our 200.0 million (or approximately \$285.3 million) principal amount 8% senior subordinated notes due 2014, \$201.3 million principal amount 1³/₄% convertible senior subordinated notes due 2033, \$201.3 million principal amount 1¹/₄% convertible senior subordinated notes due 2036, approximately \$492.7 million of accounts receivable securitization facilities (with approximately \$433.5 million in outstanding funding as of September 30, 2007), and a \$300.0 million multi-currency revolving credit facility (with no amounts outstanding as of September 30, 2007). For a full description of all of our outstanding notes and facilities refer to the Liquidity and Capital Resources section of our Annual Report on Form 10-K for the year ended December 31, 2006.

On December 4, 2006, we issued \$201.3 million aggregate principal amount of 1¹/₄% convertible senior subordinated notes due 2036 and received proceeds of approximately \$196.4 million, after related fees and expenses. The notes are unsecured obligations and are convertible into cash and shares of our common stock upon satisfaction of certain conditions, as discussed below. The notes provide for (i) the settlement upon conversion in cash up to the principal amount of the notes with any excess conversion value settled in shares of our common stock, and (ii) the conversion rate to be increased under certain circumstances if the notes are converted in connection with certain change of control transactions occurring prior to December 15, 2013. The notes are convertible into shares of our common stock at an effective price of \$40.73 per share, subject to adjustment. Holders may convert the notes only under the following circumstances: (1) during any fiscal quarter, if the closing sales price of our common stock exceeds 120% of the conversion price for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter; (2) during the five business day period after a five consecutive trading day period in which the trading price per note for each day of that period was less than 98% of the product of the closing sale price of our common stock and the conversion rate; (3) if the notes have been called for redemption; or (4) upon

the occurrence of certain corporate transactions.

On June 29, 2005, we exchanged our \$201.3 million of 1³/₄% convertible senior subordinated notes due

26

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations
(Continued)

2033 for new notes which provide for (i) the settlement upon conversion in cash up to the principal amount of the converted new notes with any excess conversion value settled in shares of our common stock, and (ii) the conversion rate to be increased under certain circumstances if the new notes are converted in connection with certain change of control transactions occurring prior to December 10, 2010, but otherwise are substantially the same as the old notes. The notes are unsecured obligations and are convertible into cash and shares of our common stock upon satisfaction of certain conditions, as discussed below. The notes are convertible into shares of our common stock at an effective price of \$22.36 per share, subject to adjustment. Holders may convert the notes only under the following circumstances: (1) during any fiscal quarter, if the closing sales price of our common stock exceeds 120% of the conversion price for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter; (2) during the five business day period after a five consecutive trading day period in which the trading price per note for each day of that period was less than 98% of the product of the closing sale price of our common stock and the conversion rate; (3) if the notes have been called for redemption; or (4) upon the occurrence of certain corporate transactions.

The 1³/₄% convertible senior subordinated notes and the 1¹/₄% convertible senior subordinated notes will impact the diluted weighted average shares outstanding in future periods depending on our stock price for the excess conversion value using the treasury stock method. On July 25, 2007, the Financial Accounting Standards Board (FASB) directed its staff to prepare a proposed FASB Staff Position (FSP) that would require the liability and equity components of convertible debt instruments that may be settled in cash upon conversion (including partial cash settlement) to be separately accounted for in a manner that reflects the issuer's nonconvertible debt borrowing rate. The FASB issued the proposed FSP, FSP APB 14-a, on August 31, 2007. The proposed FSP would be effective for financial statements issued for fiscal years beginning after December 15, 2007, and interim periods within those fiscal years. The guidance in the proposed FSP would be applied retrospectively to all periods presented. If the FSP is approved by the FASB, it is likely that the interest expense related to our convertible notes will increase significantly.

As of December 31, 2006 and September 30, 2007, the closing sales price of our common stock had exceeded 120% of the conversion price of \$22.36 per share for at least 20 trading days in the 30 consecutive trading days ending December 31, 2006 and September 30, 2007, and, therefore, we classified the 1³/₄% convertible senior subordinated notes as a current liability. Future classification of the notes between current and long-term debt is dependent on the closing sales price of our common stock during future quarters. Based upon current sales prices of our common stock, it is likely that our 1¹/₄% convertible senior subordinated notes will be classified as a current liability at the end of 2007. We believe it is unlikely the holders of the notes will convert the notes under the provisions of the indenture, as typically convertible securities are not converted prior to expiration unless called for redemption, thereby requiring us to repay the principal portion in cash. In the event the notes were converted, we believe we could repay the notes with available cash on hand, funds from our existing \$300.0 million multi-currency revolving credit facility, or a combination of these sources.

On January 5, 2004, we entered into a credit facility that provided for a \$300.0 million multi-currency revolving credit facility, a \$300.0 million United States dollar denominated term loan and a 120.0 million Euro denominated term loan. The maturity date of the revolving credit facility is December 2008 and the maturity date for the term loan facility is June 2009. We were required to make quarterly payments towards the United States dollar denominated term loan and Euro denominated term loan of \$0.75 million and 0.3 million, respectively (or an amortization of one percent per annum until the maturity date of each term loan). On June 29, 2007, we repaid the remaining balances of our outstanding United States dollar and Euro denominated term loans, totaling \$72.5 million and 28.6 million, respectively, with available cash on hand. As of September 30, 2007, we had no outstanding borrowings under the credit facility. As of September 30, 2007, we had availability to borrow \$291.1 million under the revolving credit facility. As of September 30, 2006, we had total borrowings of \$407.1 million under the credit facility, which included \$270.2 million under the United States dollar denominated term loan facility, 108.0 million (approximately \$137.5 million) under the Euro denominated term loan facility and no amounts outstanding under the multi-currency revolving credit facility. As of September 30, 2006, we had availability to borrow \$292.2 million under the revolving

credit facility.

Under our securitization facilities, we sell accounts receivable in the United States, Canada and Europe on a revolving basis to commercial paper conduits through a wholly-owned special purpose U.S. subsidiary and a

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations
(Continued)

qualifying special purpose entity (QSPE) in the United Kingdom. The United States and Canadian securitization facilities expire in April 2009 and the European facility expires in October 2011, but each is subject to annual renewal. The European facility was renewed in October 2006 and restructured so that wholesale receivables are sold through a QSPE. As of September 30, 2007, the aggregate amount of these facilities was \$492.7 million. The outstanding funded balance of \$433.5 million as of September 30, 2007 has the effect of reducing accounts receivable and short-term liabilities by the same amount. Our risk of loss under the securitization facilities is limited to a portion of the unfunded balance of receivables sold, which is approximately 15% of the funded amount. We maintain reserves for doubtful accounts associated with this risk. If the facilities were terminated, we would not be required to repurchase previously sold receivables but would be prevented from selling additional receivables to the commercial paper conduit.

These facilities allow us to sell accounts receivables through financing conduits which obtain funding from commercial paper markets. Future funding under securitization facilities depends upon the adequacy of receivables, a sufficient demand for the underlying commercial paper and the maintenance of certain covenants concerning the quality of the receivables and our financial condition. In the event commercial paper demand is not adequate, our securitization facilities provide for liquidity backing from various financial institutions, including Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A. These liquidity commitments would provide us with interim funding to allow us to find alternative sources of working capital financing, if necessary.

In May 2005, we completed an agreement to permit transferring, on an ongoing basis, the majority of our wholesale interest-bearing receivables in North America to our United States and Canadian retail finance joint ventures, AGCO Finance LLC and AGCO Finance Canada, Ltd. We have a 49% ownership interest in these joint ventures. The transfer of the wholesale interest-bearing receivables is without recourse to AGCO and we will continue to service the receivables. As of September 30, 2007, the balance of interest-bearing receivables transferred to AGCO Finance LLC and AGCO Finance Canada, Ltd. under this agreement was approximately \$90.0 million compared to approximately \$124.1 million as of December 31, 2006.

Our business is subject to substantial cyclical variations, which generally are difficult to forecast. Our results of operations may also vary from time to time resulting from costs associated with rationalization plans and acquisitions. As a result, we have had to request relief from our lenders on occasion with respect to financial covenant compliance. While we do not currently anticipate asking for any relief, it is possible that we would require relief in the future. Based upon our historical working relationship with our lenders, we currently do not anticipate any difficulty in obtaining that relief.

Cash flow provided by operating activities was \$32.2 million for the first nine months of 2007 compared to cash flow provided by operating activities of \$53.7 million for the first nine months of 2006. In both years, cash flow for the first nine months was impacted by cash used for seasonal working capital requirements.

Our working capital requirements are seasonal, with investments in working capital typically building in the first half of the year and then reducing in the second half of the year. We had \$773.6 million in working capital at September 30, 2007, as compared with \$685.4 million at December 31, 2006 and \$926.8 million at September 30, 2006. Working capital balances as of September 30, 2007 and December 31, 2006 include the classification of the 1³/₄% convertible notes as current obligations. Accounts receivable and inventories, combined, at September 30, 2007 were \$331.3 million higher than at December 31, 2006 and \$229.1 million higher than at September 30, 2006. The increase was due to seasonal requirements and increases in sales and production levels compared to the prior year.

Capital expenditures for the first nine months of 2007 were \$83.6 million compared to \$80.7 million for the first nine months of 2006. We anticipate that capital expenditures for the full year of 2007 will range from approximately \$130 million to \$140 million and will primarily be used to support our manufacturing operations, systems initiatives, and the development and enhancement of new and existing products.

Our debt to capitalization ratio, which is total long-term debt divided by the sum of total long-term debt and stockholders' equity, was 27.2% at September 30, 2007 compared to 34.5% at December 31, 2006.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations
(Continued)

From time to time we review and will continue to review acquisition and joint venture opportunities, as well as changes in the capital markets. If we were to consummate a significant acquisition or elect to take advantage of favorable opportunities in the capital markets, we may supplement availability or revise the terms under our credit facilities or complete public or private offerings of equity or debt securities.

We believe that available borrowings under the revolving credit facility, funding under the accounts receivable securitization facilities, available cash and internally generated funds will be sufficient to support our working capital, capital expenditures and debt service requirements for the foreseeable future.

COMMITMENTS AND OFF-BALANCE SHEET ARRANGEMENTS

Commitments

We adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an interpretation of FASB Statement No. 109 (FIN 48) on January 1, 2007. As a result of the implementation of FIN 48, we recognized no material adjustment with respect to liabilities for unrecognized income tax benefits. As of the adoption date of January 1, 2007, we had \$12.9 million of unrecognized income tax benefits. We recognize interest and penalties related to uncertain income tax positions in income tax expense. As of January 1, 2007, we had approximately \$0.8 million of accrued interest and penalties related to uncertain income tax positions. As of September 30, 2007, we had approximately \$3.0 million of current accrued taxes related to uncertain tax positions connected with ongoing income tax audits in various jurisdictions that we expect to settle or pay in the next 12 months. At this time, the settlement period for the noncurrent portion of our income tax liabilities cannot be determined; however it is not expected to be due within the next 12 months. We will include our income tax liabilities in our *Contractual Obligations* table in our Annual Report on Form 10-K for the year ended December 31, 2007.

Guarantees

At September 30, 2007, we were obligated under certain circumstances to purchase, through the year 2010, up to \$5.9 million of equipment upon expiration of certain operating leases between AGCO Finance LLC and AGCO Finance Canada, Ltd., our retail finance joint ventures in North America, and end users. We also maintain a remarketing agreement with these joint ventures whereby we are obligated to repurchase repossessed inventory at market values, limited to \$6.0 million in the aggregate per calendar year. We believe that any losses, which might be incurred on the resale of this equipment, will not materially impact our consolidated financial position or results of operations.

From time to time, we sell certain trade receivables under factoring arrangements to financial institutions throughout the world. We evaluate the sale of such receivables pursuant to the guidelines of SFAS No. 140,

Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities a Replacement of FASB Statement No. 125, and have determined that these facilities should be accounted for as off-balance sheet transactions in accordance with SFAS No. 140.

At September 30, 2007, we guaranteed indebtedness owed to third parties of approximately \$125.9 million, primarily related to dealer and end-user financing of equipment. We believe the credit risk associated with these guarantees is not material to our financial position.

Other

At September 30, 2007, we had foreign currency forward contracts to buy an aggregate of approximately \$369.8 million United States dollar equivalents and foreign currency forward contracts to sell an aggregate of approximately \$323.0 million United States dollar equivalents. All contracts have a maturity of less than one year. See

Item 3. Quantitative and Qualitative Disclosures About Market Risk *Foreign Currency Risk Management* for further information.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations
(Continued)

Contingencies

As a result of Brazilian tax legislative changes impacting value added taxes (VAT), we have recorded a reserve of approximately \$19.5 million against our outstanding balance of Brazilian VAT taxes receivable as of September 30, 2007, due to the uncertainty as to our ability to collect the amounts outstanding.

As disclosed in Item 3 of our Form 10-K for the year ended December 31, 2006, in February 2006, we received a subpoena from the Securities and Exchange Commission (the SEC) in connection with a non-public, fact-finding inquiry entitled In the Matter of Certain Participants in the Oil for Food Program. See Part II, Item 1, Legal Proceedings for further discussion of the matter.

OUTLOOK

Global farm equipment demand is forecasted to be improved in 2007 compared to 2006 levels due to higher commodity prices and increased farm income. Our net sales for the full year of 2007 are expected to be higher than 2006, driven primarily by stronger market conditions in South America, growth in Europe and favorable currency impacts. For the full year, we are targeting earnings improvement resulting primarily from sales growth, cost reduction efforts and lower interest costs. Our results are expected to also include spending on strategic investments including increased engineering expenses, plant restructurings, system initiatives, and new market development and distribution expenditures. Earnings growth and a focus on working capital reduction for the remainder of the year are expected to produce strong cash flow from operations.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The discussion and analysis of our financial condition and results of operations are based upon our Condensed Consolidated Financial Statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an ongoing basis, management evaluates estimates, including those related to reserves, intangible assets, income taxes, pension and other postretirement benefit obligations, derivative financial instruments and contingencies. Management bases these estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of critical accounting policies and related judgment and estimates that affect the preparation of our Condensed Consolidated Financial Statements is set forth in our Annual Report on Form 10-K for the year ended December 31, 2006.

FORWARD LOOKING STATEMENTS

Certain statements in Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this Quarterly Report on Form 10-Q are forward looking, including certain statements set forth under the headings General, Statements of Operations, Recent Joint Venture and Acquisition, Liquidity and Capital Resources, Commitments and Off-Balance Sheet Arrangements and Outlook. Forward looking statements reflect assumptions, expectations, projections, intentions or beliefs about future events. These statements, which may relate to such matters as industry demand conditions, earnings per share, net sales and income, cash flow from operations, spending on strategic initiatives, interest costs, future capital expenditures, working capital needs and currency translation, are forward-looking statements within the meaning of the federal securities laws. These statements do not relate strictly to historical or current facts, and you can identify certain of these statements, but not necessarily all, by the use of the words anticipate, assumed, indicate, estimate, believe, predict, forecast, rely, expect, continue, of similar meaning. Although we believe that the expectations and assumptions reflected in these statements are reasonable in view of the information currently available to us, there can be no assurance that these expectations will prove to be correct. These forward-looking statements involve a number of risks and uncertainties, and actual results may differ materially from the results discussed in or implied by the forward-looking statements. The following are among the important factors that could cause actual results to differ materially from the forward-looking statements:

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations
(Continued)

general economic and capital market conditions;

the worldwide demand for agricultural products;

grain stock levels and the levels of new and used field inventories;

cost of steel and other raw materials;

government policies and subsidies;

weather conditions;

interest and foreign currency exchange rates;

pricing and product actions taken by competitors;

commodity prices, acreage planted and crop yields;

farm income, land values, debt levels and access to credit;

pervasive livestock diseases;

production disruptions;

supply and capacity constraints;

our cost reduction and control initiatives;

our research and development efforts;

dealer and distributor actions;

technological difficulties; and

political and economic uncertainty in various areas of the world.

Any forward-looking statement should be considered in light of such important factors.

New factors that could cause actual results to differ materially from those described above emerge from time to time, and it is not possible for us to predict all of such factors or the extent to which any such factor or combination of factors may cause actual results to differ from those contained in any forward-looking statement. Any forward-looking statement speaks only as of the date on which such statement is made, and we disclaim any obligation to update the information contained in such statement to reflect subsequent developments or information except as required by law.

Table of Contents

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK
FOREIGN CURRENCY RISK MANAGEMENT**

We have significant manufacturing operations in France, Germany, Brazil, Finland and Denmark, and we purchase a portion of our tractors, combines and components from third-party foreign suppliers, primarily in various European countries and in Japan. We also sell products in over 140 countries throughout the world. The majority of our net sales outside the United States are denominated in the currency of the customer location with the exception of sales in the Middle East, Africa and Asia, where net sales are primarily denominated in British pounds, Euros or United States dollars (See Segment Reporting in Note 14 to our Consolidated Financial Statements for the year ended December 31, 2006 for sales by customer location). Our most significant transactional foreign currency exposures are the Euro, the Brazilian Real and the Canadian dollar in relation to the United States dollar. Fluctuations in the value of foreign currencies create exposures, which can adversely affect our results of operations.

We attempt to manage our transactional foreign exchange exposure by hedging foreign currency cash flow forecasts and commitments arising from the settlement of receivables and payables and from future purchases and sales. Where naturally offsetting currency positions do not occur, we hedge certain, but not all, of our exposures through the use of foreign currency forward and option contracts. Our hedging policy prohibits foreign currency forward contracts for speculative trading purposes. Our translation exposure resulting from translating the financial statements of foreign subsidiaries into United States dollars is not hedged. Our most significant translation exposures are the Euro, the British pound and the Brazilian Real in relation to the United States dollar. When practical, this translation impact is reduced by financing local operations with local borrowings.

All derivatives are recognized on our Condensed Consolidated Balance Sheets at fair value. On the date a derivative contract is entered into, we designate the derivative as either (1) a fair value hedge of a recognized liability, (2) a cash flow hedge of a forecasted transaction, (3) a hedge of a net investment in a foreign operation, or (4) a non-designated derivative instrument. Changes in fair value of non-designated derivative contracts are reported in current earnings. During 2006 and 2007, we designated certain foreign currency option contracts as cash flow hedges of expected future sales. The effective portion of the fair value gains or losses on these cash flow hedges are recorded in other comprehensive income, with the cumulative gain or loss subsequently reclassified into cost of goods sold during the same period as the sales are recognized. These amounts offset the effect of the changes in foreign exchange rates on the related sale transactions. The amount of the gain recorded in other comprehensive loss that was reclassified to net sales during the year ended December 31, 2006 was approximately \$4.0 million on an after-tax basis. The amount of the gain recorded to other comprehensive loss related to the outstanding cash flow hedges as of September 30, 2007 was approximately \$6.4 million. The outstanding contracts range in maturity from October of 2007 through December of 2008.

The following is a summary of foreign currency derivative contracts used to hedge currency exposures. All contracts have a maturity of less than one year. The net notional amounts and fair value gains or losses as of September 30, 2007 stated in United States dollars are as follows (in millions, except average contract rate):

Table of Contents

	Net Notional Amount (Sell)/Buy	Average Contract Rate*	Fair Value Gain/(Loss)
Australian dollar	\$ (44.5)	1.14	\$ (0.4)
Brazilian Real	327.9	1.93	15.9
British pound	29.1	0.48	(0.4)
Canadian dollar	(27.5)	1.05	(1.5)
Euro dollar	(222.6)	0.70	1.3
Japanese yen	7.3	113.78	(0.1)
Mexican peso	(12.3)	11.16	(0.2)
New Zealand dollar	(2.2)	1.31	
Norwegian krone	(1.1)	3.33	0.7
Polish zloty	(3.0)	2.59	0.1
Russian ruble	(9.8)	25.09	(0.1)
Swedish krona	5.5	6.52	0.1
			\$ 15.4

* per United
States dollar

Because these contracts were entered into for hedging purposes, the gains and losses on the contracts would largely be offset by gains and losses on the underlying firm commitment.

Interest Rates

We manage interest rate risk through the use of fixed rate debt and may in the future utilize interest rate swap contracts. We have fixed rate debt from our senior subordinated notes and our convertible senior subordinated notes. Our floating rate exposure is related to our credit facility and our securitization facilities, which are tied to changes in United States and European LIBOR rates. Assuming a 10% increase in interest rates, interest expense, net and the cost of our securitization facilities for the nine months ended September 30, 2007 would have increased by approximately \$2.0 million.

We had no interest rate swap contracts outstanding in the nine months ended September 30, 2007.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of September 30, 2007, have concluded that, as of such date, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms.

The Company's management, including the Chief Executive Officer and the Chief Financial Officer, does not expect that the Company's disclosure controls or the Company's internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Because of the inherent limitations in a cost effective control system, misstatements due to error or fraud may occur and not be detected. We will conduct periodic evaluations of our internal controls to enhance, where necessary, our procedures and controls.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation described above that occurred during the nine months ended September 30, 2007 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are a party to various legal claims and actions incidental to our business. We believe that none of these claims or actions, either individually or in the aggregate, is material to our business or financial condition.

As disclosed in Item 3 of our Form 10-K for the year ended December 31, 2006, in February 2006, we received a subpoena from the SEC in connection with a non-public, fact-finding inquiry entitled In the Matter of Certain Participants in the Oil for Food Program. This subpoena requested documents concerning transactions in Iraq under the United Nations Oil for Food Program by AGCO and certain of our subsidiaries. Subsequently we were contacted by the Department of Justice (the DOJ) regarding the same transactions, although no subpoena or other formal process has been initiated by the DOJ. Similar inquiries have been initiated by the Danish and French governments regarding two of our subsidiaries. The inquiries arose from sales of approximately \$58.0 million in farm equipment to the Iraq ministry of agriculture between 2000 and 2002. The SEC's staff has asserted that certain aspects of those transactions were not properly recorded in our books and records. We are cooperating fully in these inquiries. It is not possible to predict the outcome of these inquiries or their impact, if any, on us; although if the outcomes were adverse we could be required to pay fines and make other payments as well as take appropriate remedial actions.
