REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants and the Harris Corporation Employee Benefits Committee
Harris Corporation Retirement Plan

We have audited the accompanying statements of net assets available for benefits of Harris Corporation Retirement Plan as of June 27, 2008 and June 29, 2007, and the related statement of changes in net assets available for benefits for the year ended June 27, 2008. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at June 27, 2008 and June 29, 2007, and the changes in its net assets available for benefits for the year ended June 27, 2008, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of June 27, 2008 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Notes to the Financial Statements

June 27, 2008 and June 29, 2007

NOTE 1 DESCRIPTION OF PLAN

The following description of the Harris Corporation Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- A. **General** The Plan is a defined contribution plan with a 401(k) feature covering substantially all eligible employees of Harris Corporation and certain of its subsidiaries (collectively, the Company or Employer) as defined in the Plan document. The Plan Administrator is the Harris Corporation Employee Benefits Committee comprised of persons appointed by Harris Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.
- B. **Contributions** Participants may contribute a percentage of both pre-tax and after-tax eligible compensation, as defined in the Plan document and subject to Internal Revenue Code (the Code) limitations. After-tax contributions may be made either on a regular after-tax basis or on a designated Roth after-tax basis. Participants age 50 and older by the end of the calendar year can contribute an additional amount above the annual pre-tax limitation, as defined in the Plan document and subject to Code limitations. The Company matches up to 50% or 100% (depending on business unit) of pre-tax and after-tax contributions subject to a limit of 4% or 6% (depending on business unit) of eligible compensation for any eligible employee who has completed the Plan's service requirement (either six months or one year, depending on business unit). Full-time regular participants who make no election with respect to their contribution percentage are deemed to have elected deferment of 6% of eligible compensation on a pre-tax basis. With respect to the fiscal year ended June 29, 2007, the Company made non-discretionary profit sharing contributions based on a formula tied to the Company's earnings per share and related financial targets. With respect to the fiscal year ended June 27, 2008, no profit sharing contributions were made; instead, the Company's cash-based Performance Reward Plan (which replaced the Company's non-discretionary profit sharing contribution program) permitted each participant to elect a special, unmatched pre-tax contribution to the Plan of 0%, 50% or 100% of the amount, if any, otherwise payable to the participant by the Company in cash under the Performance Reward Plan, subject to Code limitations. The Company may make discretionary profit sharing contributions to the Plan in an amount determined by the Company, allocated to eligible participants based on compensation as defined in the Plan document. In addition, participants also may rollover amounts to the Plan from other qualified plans.
- C. **Payments of Benefits** Prior to termination of employment, a participant may withdraw all or any portion of his or her regular after-tax account balance or rollover balance. A participant may also receive a distribution while employed for financial hardship or upon attainment of age 59½ per the Plan document. Upon retirement or other termination of employment, a participant may elect to receive either a lump-sum amount equal to all or a portion of the participant's vested interest in his or her account, or installments over a future period.
- D. **Participant Loans** The loan program permits participants to borrow against their pre-tax, regular after-tax, designated Roth after-tax and rollover contributions. A participant may borrow in increments of \$100 from a minimum of \$500 to a maximum of 50% of the vested portion of the participant's account or \$50,000 whichever is lower, within certain limitations established by the Plan document. Payback periods range from one to five years unless the loan is to be used for the purchase of a principal residence, in which case the payback period may not exceed ten years. Interest rates are established by the Company based on market rates. Loans are paid back ratably through payroll deductions. The outstanding loans have been established as a separate fund.
- E. **Participant Accounts** Each participant's account is credited with the participant's contribution, including the contribution, if any, in respect of the participant's election under the Company's cash-based Performance

Reward Plan, and allocations of (a) the Company's matching contribution, (b) the Company's discretionary profit sharing contribution, if any, and (c) Plan earnings, and is charged with an allocation of Plan losses and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Table of Contents**HARRIS CORPORATION RETIREMENT PLAN**

Notes to Financial Statements (continued)

June 27, 2008 and June 29, 2007

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

- F. **Vesting** Participants are immediately vested in their pre-tax, regular after-tax, designated Roth after-tax and rollover contributions plus actual earnings thereon. Vesting in the Employer matching and any profit sharing contributions, plus earnings thereon, is based on years of continuous service. Commencing July 1, 2007, a participant is 100% vested after four years of credited service, based on the following schedule:

Years of Service	Vesting Percentage
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 years	100%

Prior to July 1, 2007, a participant was 100% vested after six years of credited service, based on the following schedule:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

However, certain vesting schedules applicable to assets merged into the Plan have been preserved, as legally required, and may result in the vesting of Employer contributions more quickly than described above.

A participant also becomes 100% vested in Employer contributions upon his or her termination of employment after attaining age 55 or on account of his or her death or disability.

- G. **Forfeitures** A terminated participant who is not 100% vested will forfeit the non-vested portion of the Company's contributions unless the participant returns to employment within five years. The forfeited contributions are used first, to restore the accounts of recently located missing participants, as defined in the Plan document; next, to restore accounts of participants who are reemployed prior to incurring a break in service of five consecutive years; next, to fund any matching or profit sharing contributions to be allocated to participants who are reemployed after a period of qualified military service, as defined in the Plan document; and finally, to reduce future contributions to the Plan by the Company. Forfeited amounts included in Plan assets at June 27, 2008 and June 29, 2007 were \$315,913 and \$672,454, respectively. For the fiscal years ended June 27, 2008 and June 29, 2007, Employer contributions were reduced by \$1,600,000 and \$900,516, respectively, from forfeited non-vested accounts.
- H. **Plan Termination** Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
- I.

Investment Options Upon enrollment into the Plan, a participant may direct Employer and participant contributions into any of several investment options, including the Harris Stock Fund. A participant may transfer amounts from other investment options into the Harris Stock Fund, provided that no transfer shall cause more than 20% of a participant's account to be invested in the Harris Stock Fund. The investment options are fully described in the Employer Summary Plan Description, which is available to all participants. In the event no investment option is selected by the participant, the default investment option for contributions is the LifeCycle Fund that is age-appropriate for the participant. Elections to change funds can be made daily; however, amounts in the Stable Value Fund, which is comprised of unallocated insurance contracts, cannot be transferred directly to the Money Market Fund. Investments are also governed by other limitations described in the Plan document.

- J. **Plan Mergers** During the fiscal year ended June 27, 2008, three defined contribution plans maintained by business units or subsidiaries of the Company were merged into the Plan. The Harris Broadcast Communications Division 401(k) Plan was merged into the Plan effective September 30, 2007. The Harris Technical Services Corporation 401(k) Plan was merged into the Plan effective October 31, 2007. The Multimax, Inc. 401(k) Retirement Savings Plan was merged into the Plan effective December 31, 2007. The total fair value of assets transferred into the Plan as a result of these mergers was \$82,518,510.

HARRIS CORPORATION RETIREMENT PLAN

Notes to Financial Statements (continued)

June 27, 2008 and June 29, 2007

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accounting records of the Plan are maintained on the accrual basis. Certain prior year data have been reclassified to conform to the fiscal 2008 presentation.

Recent Accounting Pronouncement In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 establishes a framework for measuring fair value under U.S. generally accepted accounting principles (GAAP), clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Plan adopted SFAS 157 as of June 28, 2008 for fiscal 2009, subsequent to the end of the Plan s fiscal 2008 on June 27, 2008. Plan management is currently evaluating the effect that the provisions of SFAS 157 will have on the Plan s financial statements.

The Plan adopted FASB Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), in fiscal 2007, which ended June 29, 2007. As described in the FSP, investment contracts held by a defined contribution plan are required to be reported at fair value. However, because contract value is the relevant measurement attribute for investment contracts including fully benefit-responsive synthetic guaranteed investment contracts (synthetic GICs), the FSP requires that both fair value and the difference between fair value and contract value be disclosed in the Statements of Net Assets Available for Benefits, and accordingly both are so disclosed.

Valuation of Investments The Plan s investments are stated at fair value. Quoted market prices are used, when available, to value investments. Investments for which quoted market values are not available are stated at fair values as reported by the trustee or investee company. Participant loans are valued at their outstanding balances, which approximate fair value.

Investments in common/collective trusts are stated at fair value, based on quoted redemption values as determined by Northern Trust, the Trustee, as defined by the Plan document. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation (depreciation) in fair value of investments represents the sum of the unrealized appreciation (depreciation) in aggregate fair value of investments and the realized gain (loss) on sale of investments.

During fiscal 2008, the Plan held traditional guaranteed investment contracts (traditional GICs) and synthetic GICs in its Stable Value Fund (the Fund). A corresponding contract wrapper with the issuer of the synthetic GICs was also held in order to provide a variable rate of return on the cost of the investment. The fair value of the traditional GICs and the synthetic GICs was determined using a discounted cash flow method or quoted market value of underlying investments. The fair value of the wrapper contracts was based on the present value of the difference between the current fee and fee re-bids provided by the issuers and was \$379,413 and zero dollars at June 27, 2008 and June 29, 2007, respectively. During fiscal 2008, the Plan discontinued all of its traditional GICs and held only synthetic GICs as of June 27, 2008.

The interest crediting rate of synthetic GICs is based on the contract value, and the fair value, duration, and yield to maturity of the portfolio of bonds underlying the synthetic GICs. The interest crediting rate is reset quarterly. The minimum crediting rate is zero percent.

The interest crediting rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

The primary variables impacting the future interest crediting rates of synthetic GICs include the current yield of the assets underlying the contract, the duration of the assets underlying the contract and the existing difference between the fair value and contract value of the assets within the contract.

As required by the FSP, the investments in traditional GICs and synthetic GICs are presented at fair value on the Statements of Net Assets Available for Benefits. To the extent that the underlying portfolio of a synthetic GIC has

unrealized and/or realized losses, a positive adjustment is made to the adjustment from fair value to contract value under contract value accounting. As a result, the future interest crediting rate may be lower over time than the then-current market rates. Similarly, if the underlying portfolio generates unrealized and/or realized gains, a negative adjustment is made to the adjustment from fair value to contract value, and the future interest crediting rate may be higher than the then-current market rates. The adjustments ensure that ending net assets available for benefits are recorded at contract value and reflect the unrealized and/or realized gains and losses on the underlying portfolio of synthetic GICs.

Table of Contents

HARRIS CORPORATION RETIREMENT PLAN

Notes to Financial Statements (continued)

June 27, 2008 and June 29, 2007

Synthetic GICs generally provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment. Such events include but are not limited to the following: material amendments to the Plan or in the administration of the Fund; changes to the Plan's competing investment options including the elimination of equity wash provisions; complete or partial termination of the Plan, including a merger with another plan; the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; the redemption of all or a portion of the interests in the Fund held by the Plan at the direction of the Plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the Plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of the Plan sponsor, the merger of the Plan with another plan, or the Plan sponsor's establishment of another tax qualified defined contribution plan; any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Fund or the Plan; or the delivery of any communication to Plan participants designed to influence a participant not to invest in the Fund.

At this time, the Plan does not believe that the occurrence of any such market value adjustment-triggering event, which would limit the Plan's ability to transact at contract value with participants, is probable.

If the Plan defaults in its obligations under any synthetic GIC (including the issuer's determination that the agreement constitutes a non-exempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the Plan will receive the fair value of the underlying investments as of the date of termination. With the exception of this circumstance, termination of the contract by the issuer would be settled at contract value.

The average yield based on actual earnings was approximately 5.28% at June 27, 2008 and 5.05% at June 29, 2007.

The average yield based on interest rate credited to participants was approximately 4.79% at June 27, 2008 and 5.04% at June 29, 2007.

Use of Estimates The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative Expenses Unless otherwise elected by Harris Corporation, all reasonable charges and expenses incurred in connection with the administration of the Plan are paid by the Trustee from the assets of the trust.

Table of Contents**HARRIS CORPORATION RETIREMENT PLAN**

Notes to Financial Statements (continued)

June 27, 2008 and June 29, 2007

NOTE 3 INVESTMENTS

During the fiscal year ended June 27, 2008, the Plan's investments (including investments bought, sold and held during the fiscal year) depreciated in value as follows:

	June 27, 2008
Net depreciation in fair value as determined by quoted market prices:	
Preferred stocks	\$ (724,794)
Common stocks	(89,918,003)
Registered investment companies	(27,537,020)
Corporate bonds and debentures	(262,166)
	(118,441,983)
Net depreciation in fair value as determined by investee company/trustee:	
Real estate investments	(199,343)
Common/collective trusts	(66,939,610)
	(67,138,953)
Total net depreciation in fair value	\$ (185,580,936)

The fair value of individual investments that represent 5% or more of Plan net assets at June 27, 2008 and June 29, 2007 is as follows:

	June 27, 2008	June 29, 2007
MFB NTGI-QM Collective Daily Russell 1000 Equity Index Fund	\$ 251,003,015	\$ 232,370,374
MFB NTGI-QM Collective Daily S&P500 Equity Index Fund	230,213,288	291,468,618

Galliard Capital Management Wells Fargo Bank NA Fixed Income Fund F	242,687,071	
Harris Corporation common stock	129,814,846	158,203,946

Table of Contents**HARRIS CORPORATION RETIREMENT PLAN**

Notes to Financial Statements (continued)

June 27, 2008 and June 29, 2007

NOTE 4 RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of common stock of Harris Corporation and balances in a common/collective trust fund that are managed by Northern Trust. Harris Corporation is the Plan sponsor and Northern Trust is the Trustee and, therefore, these transactions qualify as exempt party-in-interest transactions.

Harris Corporation common stock is included with other common stock at June 27, 2008 and June 29, 2007 as follows:

	June 27, 2008		June 29, 2007	
	Shares	Fair Value	Shares	Fair Value
Harris Corporation common stock	2,536,437	\$ 129,814,846	2,900,164	\$ 158,203,946

Transactions in shares of the Company's common stock qualify as exempt party-in-interest transactions under the provisions of ERISA. During the fiscal year ended June 27, 2008, the Plan made purchases of \$8,342,839 and sales of \$18,631,158 of the Company's common stock.

NOTE 5 INCOME TAX STATUS

The Plan received a determination letter from the Internal Revenue Service dated April 21, 2004, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended and restated and has been further amended several times. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan sponsor has indicated that it will take the necessary steps, if any, to bring the Plan's operations in compliance with the Code.

NOTE 6 CREDIT RISKS AND UNCERTAINTIES

Cash amounts at the Trustee may exceed the federally insured limit from time to time. The Plan provides for investments in various investment securities, which, in general, are exposed to certain risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 7 RECONCILIATION OF PLAN FINANCIAL STATEMENTS TO THE FORM 5500

Form 5500 requires the recording of a liability for benefit amounts processed prior to year-end but not yet paid and requires fully benefit-responsive contracts to be reported at fair value. These requirements conflict with accounting principles generally accepted in the United States and the presentation of such amounts in the financial statements where they remain as part of net assets available for benefits.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at June 27, 2008 and at June 29, 2007:

	June 27, 2008	June 29, 2007
Net assets available for benefits per the financial statements	\$ 2,610,109,103	\$ 2,790,542,535
Due to participants	(251,175)	(2,956,866)
Adjustment to fair value from contract value for fully benefit-responsive investment contracts	(14,407,298)	(11,141,939)
Net assets available for benefits per the Form 5500	\$ 2,595,450,630	\$ 2,776,443,730

Table of Contents**HARRIS CORPORATION RETIREMENT PLAN**

Notes to Financial Statements (continued)

June 27, 2008 and June 29, 2007

The following is a reconciliation of investment income per the financial statements to the Form 5500 for the fiscal year ended June 27, 2008:

	June 27, 2008
Net depreciation in the fair value of investments in the financial statements	\$ (185,580,936)
Adjustment to fair value from contract value for fully benefit-responsive investment contracts	(3,265,359)
Investment income per the Form 5500	\$ (188,846,259)

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the fiscal year ended June 27, 2008:

	June 27, 2008
Benefits paid to participants per the financial statements	\$ 233,488,718
Add: benefits due but unpaid at June 27, 2008	251,175
Less: benefits due but unpaid at June 29, 2007	(2,956,866)
Benefits paid to participants per the Form 5500	\$ 230,783,027

NOTE 8 SUBSEQUENT EVENT

Subsequent to the end of the fiscal year ended June 27, 2008, credit and capital markets disruptions resulted in substantial volatility in financial markets and the banking system. These and other economic events have had a significant adverse impact on investment portfolios. As a result, the Plan's investments have incurred a significant decline in fair value since June 27, 2008.
