NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. In the opinion of management, all adjustments (consisting of only normal and recurring adjustments) have been made as of December 29, 2001 and December 30, 2000 to present the financial statements fairly. However, the results of operations for the nine months then ended are not necessarily indicative of results for the fiscal year. The financial statements and notes are presented as permitted by Form 10-Q, and do not contain certain information included in the annual financial statements. The financial statements for the prior year have been restated for a change in accounting policy. The financial statements accompanying this report should be read in conjunction with the financial statements and notes thereto included in the Annual Report to Shareholders for the year ended March 31, 2001.
2. The provision for income taxes is as follows:

	Three Months Ended		Nine Months Ended	
	December 29 2001	December 30 2000	December 29 2001	December 30 2000
Income (loss) before income taxes	\$33,429	\$ (5,256)	\$ (686,967)	\$ (543,412)
Provision for (recoverable) income taxes:				
Current				
Deferred				
18,000 3,000 (217,000) (168,000)				
Change in valuation allowance				
(18,000) (3,000) 217,000 168,000				
Net provision for (recoverable) income taxes				
\$ \$ \$ \$				

The Company has deferred tax assets amounting to \$1,280,000 at December 29, 2001 and March 31, 2001 which reflect the impact of temporary differences between the amount of assets and liabilities recorded for financial reporting purposes and such amounts as measured by tax laws and regulations. The Company believes that it is more likely than not that these assets are realizable and represent its best estimate based on management assumptions and resulting projections of future operating results including projected increases in the number of Lowes events. For the current year through December 29, 2001 the Company has established a \$217,000 valuation allowance against its provision for recoverable income taxes because of the uncertainty of realizing its benefit.

Edgar Filing: SHOPSMITH INC - Form 10-Q

3. Basic income (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the period. Diluted income (loss) per share reflects per share amounts that would have resulted if stock options had been converted into common stock. The following reconciles amounts reported in the financial statements:

-7-

Table of Contents

	Three Months Ended		Nine Months Ended	
	December 29 2001	December 30 2000	December 29 2001	December 30 2000
Net income (loss)	\$ 33,429	\$ (5,256)	\$ (686,967)	\$ (543,412)
Weighted average shares	2,605,233	2,605,233	2,605,233	2,605,233
Additional dilutive shares 8,400				
Total dilutive shares				
2,613,633 2,605,233 2,605,233 2,605,233				
Basic income (loss) per share				
\$0.01 \$(0.00) \$(0.26) \$(0.21)				
Diluted income (loss) per share				
\$0.01 \$(0.00) \$(0.26) \$(0.21)				

There were no additional dilutive shares included in the computation at December 30, 2000 because the stock options were anti-dilutive.

4. An arrangement exists with John R. Folkerth, the Company's CEO, which allows for up to \$500,000 in borrowing with interest at twelve percent. Substantially all assets except for certain receivables are pledged as collateral. At December 29, 2001, there was \$400,000 outstanding under this arrangement.

-8-

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Third quarter sales increased to \$4,617,000 or 11.3% from \$4,148,000 generated a year ago. This quarter, Shopsmith began sales to Lowes through demonstration sales events held at Lowe's stores. The increase in the Company's field demonstration sales channel resulting from these events was the primary cause of the sales increase. The sales to Lowe's do result in a lower margin percentage that is offset by reductions in occupancy costs that are normally incurred at demonstration sales events. On a year-to-date basis sales have declined by \$876,000 or 7.4% to \$10,943,000.

Gross margin rates decreased by five and one tenth of a percentage point compared to last year. Operating expenses increased to \$2,306,000 in the current fiscal year from \$2,170,000 last year. For the year, gross margin rates decreased by one and nine tenths of a percentage point from last year.

Provisions for recoverable Federal income taxes (\$0 in FY2002 and FY 2001) are based on estimated annual effective rates, less a valuation reserve.

A net income of \$33,000 or \$.01 per diluted share was experienced in the quarter ended December 29, 2001 (after taking into account the non-recurring gain described below) compared to a restated net loss of \$5,000 or \$.00 per diluted share for the same period of last year. On a year-to-date basis, a net loss of \$687,000 or .26 per diluted share was experienced compared to a restated net loss of \$543,000 or .21 per diluted share for last year.

Non-recurring Gain from Demutualization of Insurance Company

During the third quarter, the Company received a stock distribution from its mutual insurance carrier in connection with the carrier's conversion to a publicly-held corporation (demutualization). The Company has recorded the distribution at its fair value and recognized the resulting non-recurring gain of \$153,000.

Liquidity and Financial Position

Cash used in operations totaled \$468,000 in the current year compared with \$880,000 for the preceding year. Net losses of \$687,000 were the main reason for the cash usage this year.

Shopsmith has concluded arrangements with Lowe's to do Mark V sales demonstration events within Lowe's stores. This venture (which started at the end of October) has resulted in additional cash requirements for both receivables and for startup costs. The company has entered into an one year agreement with Metro Financial Services to factor the receivables generated from the sales to Lowes. CitiFinance has notified Shopsmith that they will be terminating their consumer financing agreement with Shopsmith. With the increasing volume of sales done through events within Lowe's stores, the volume of consumer financing had substantially decreased.

The Huntington National line of credit agreement terminated November 14, 2001. The Company has an arrangement to borrow up to \$500,000 from John Folkerth, the Company's CEO. At the end of the third quarter, Shopsmith had borrowed \$400,000 on a secured basis from John Folkerth. Borrowings from Mr. Folkerth are subject to Mr. Folkerth's approval and are payable upon demand by Mr. Folkerth.

The Company's assets include \$1,280,000 of deferred income tax assets at December 29, 2001. Presently, the Company believes that these assets are realizable and represent management's best estimate based on the weight of available evidence as prescribed in SFAS 109. If the Company is unable to generate sufficient operating income in the future, a valuation allowance will have to be established by means of a charge against operating results.

The current ratio was .84 to 1 at December 29, 2001 compared to 2.00 to 1 at the beginning of the current fiscal year. The change in current ratio was due to a balloon payment of \$2,500,000 on the Company's mortgage that is due December 2002. The debt to equity ratio increased to 2.12 to 1 from 1.32 to 1 at March 31, 2001.

The company has now experienced losses in the last three fiscal years as well as the year to date in the current year. Continuation of operating losses will negatively affect the Company's liquidity as a result of negative cash flow caused by the losses.

Table of Contents

Forward Looking Statements

The foregoing discussion and the Company's consolidated financial statements contain certain forward-looking statements that involve risks and uncertainties, including but not limited to the following: (a) the adequacy of operating cash flows together with currently available working capital to finance the operating needs of the Company and (b) generation of future taxable income to utilize existing deferred tax assets, (c) ability of the Company to extend or refinance the \$2,500,000 mortgage payment that becomes due in December 2002, and (d) the continuation of, or the obtaining of alternative credit arrangements to replace the borrowing and factoring arrangements the Company currently has in place with Mr. John R. Folkerth and Metro Financial Services, respectively.
