MERCHANTS GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Principles of Consolidation and Basis of Presentation

The consolidated balance sheet as of June 30, 2005 and the related consolidated statements of operations and comprehensive income for the three and six month periods ended June 30, 2005 and 2004, and changes in stockholders' equity and cash flows for the six months ended June 30, 2005 and 2004, respectively, are unaudited. In the opinion of management, the interim financial statements reflect all adjustments necessary for a fair presentation of financial position and results of operations. Such adjustments consist only of normal recurring items. Interim results are not necessarily indicative of results for a full year.

The consolidated financial statements include the accounts of Merchants Group, Inc. (the Company), its wholly-owned subsidiary, Merchants Insurance Company of New Hampshire, Inc. (MNH), and M.F.C. of New York, Inc., an inactive premium finance company which is a wholly-owned subsidiary of MNH. The accompanying consolidated financial statements should be read in conjunction with the following notes and the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

The consolidated financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) which differ in some respects from those followed in reports to insurance regulatory authorities. All significant intercompany balances and transactions have been eliminated.

2. Related Party Transactions

The Company and MNH operate and manage their business in conjunction with Merchants Mutual Insurance Company (Mutual) under a services agreement (the Services Agreement) which became effective on January 1, 2003. At June 30, 2005 Mutual owned 12.1% of the Company's issued and outstanding common stock. The Company and MNH do not have any operating assets or employees. Under the Services Agreement, Mutual provides the Company and MNH with the facilities, management and personnel required to operate their day-to-day business. The Services Agreement covers substantially the same services previously provided under a management agreement amongst the Company, MNH and Mutual from 1986 to 2002. The Services Agreement provides for negotiated fees (subject to periodic adjustment) for administrative, underwriting, claims and investment management services.

As of January 1, 2003 MNH and Mutual entered into a reinsurance pooling agreement (the Reinsurance Pooling Agreement) that provides for the pooling, or sharing, of the insurance business traditionally written by Mutual and MNH. The Reinsurance Pooling Agreement applies to premiums earned and losses incurred on or after its effective date.

Table of Contents

The terms of these agreements are more fully described under the heading Administration in Part I, Item 1, Business, in the Company's Annual Report on Form 10-K for the year ended December 31, 2004. In accordance with the terms of the Services Agreement in June 2005 the Company and MNH issued notice to Mutual to terminate the Investment and Cash Management Services Annex of the Services Agreement as of June 30, 2006. The Company and MNH intend to solicit bids, including possibly from Mutual, for the management of their investment portfolios after the effective date of termination.

3. Earnings Per Share

Basic and diluted earnings per share were computed by dividing net income by the weighted average number of shares of common stock outstanding during each period. For diluted earnings per share, the weighted average number of shares outstanding was increased by the assumed exercise of options for each period. The effect on the number of shares outstanding assumes the proceeds to the Company from exercise were used to purchase shares of the Company's common stock at its average market value per share during the period. The number of options assumed to be exercised and the incremental effect on average shares outstanding for purposes of calculating diluted earnings per share are shown below:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
Options assumed exercised	31,500	31,500	31,500	31,500
Incremental shares outstanding	5,022	5,260	4,988	5,043
	10			

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Results of Operations for the Six Months Ended June 30, 2005 As Compared to the Six Months Ended June 30, 2004**

The following discussion should be considered in light of the statements under the heading "Safe Harbor Statement" under the Securities Litigation Reform Act of 1995, at the end of this Item. All capitalized terms used in this Item that are not defined in this Item have the meanings given to them in Notes to Consolidated Financial Statements contained in Item 1 of this Form 10-Q, which is incorporated herein by reference.

Results of operations for the six months ended June 30, 2005 and 2004 reflect the effects of the Services Agreement and the Reinsurance Pooling Agreement among the Company and its wholly-owned insurance subsidiary, Merchants Insurance Company of New Hampshire, Inc. (MNH), and Merchants Mutual Insurance Company (Mutual), effective January 1, 2003. The Services Agreement calls for Mutual to provide underwriting, administrative, claims and investment services to the Company and MNH. The Reinsurance Pooling Agreement provides for the pooling, or sharing, of insurance business traditionally written by Mutual and MNH on or after the effective date. MNH's share of pooled (combined Mutual and MNH) premiums earned and losses and loss adjustment expenses (LAE) for 2005 in accordance with the Reinsurance Pooling Agreement is 30%. MNH's share of pooled premiums earned and losses and LAE was 35% in 2004. The Reinsurance Pooling Agreement pertains to premiums earned and incurred losses and LAE. Pursuant to the terms of the Reinsurance Pooling Agreement, MNH's share of pooled premiums earned will be 25% in 2006 and 2007, though not to exceed \$42,500,000 and \$37,500,000 in net premiums written, respectively. Total combined Mutual and MNH or group-wide direct premiums written (DWP) for the six months ended June 30, 2005 were \$100,538,000, an increase of \$3,172,000 from \$97,366,000 in 2004. The Company's pro-forma share of combined direct premiums written in 2005, in accordance with the Reinsurance Pooling Agreement, was \$30,161,000 compared to \$34,077,000 in 2004. The table below shows a comparison of direct premiums written by major category in 2005 and 2004:

Major Category	Group-wide DWP Six months ended June 30,			MNH Pro-forma Share Six months ended June 30,		
	2005	2004	Change	2005	2004	Change
	(000's omitted)			(30%)*	(35%)*	
Voluntary Personal Lines	\$ 19,505	\$25,927	(25%)	\$ 5,852	\$ 9,074	(36%)
Voluntary Commercial Lines	67,414	59,469	13%	20,224	20,814	(3%)
Umbrella Program	12,011	10,138	18%	3,603	3,548	2%
Involuntary	1,608	1,832	(12%)	482	641	(25%)
Total Direct Written Premiums	\$100,538	\$97,366	3%	\$30,161	\$34,077	(11%)

*Pooling
Percentages

Table of Contents

The 25% (or \$6,422,000) decrease in group-wide voluntary personal lines direct premiums written resulted from a 36% (or \$6,453,000) decrease in private passenger automobile (PPA) direct premiums written. The decrease in PPA direct premiums written is the result of the companies' decision, implemented in 2002, not to write new policies in certain jurisdictions. In addition, the approval by the New Jersey Department of Banking and Insurance of the companies' request to withdraw from the New Jersey PPA market was effective in June 2003 and provided for the non-renewal of New Jersey PPA policies beginning in June 2004 and completed in May 2005. As a result, voluntary PPA policies in force at June 30, 2005 were 16,444, a decrease of 33%, from 24,640 at June 30, 2004.

The monoline commercial umbrella program (the Umbrella Program) resulted in \$12,011,000 of direct premiums written in the first six months of 2005 compared to \$10,138,000 in the first six months of 2004. The Umbrella Program is marketed exclusively through one independent agent and approximately 95% of the premiums and losses related to Umbrella Program Policies are reinsured with an A rated national reinsurer through a quota share reinsurance treaty.

Group-wide voluntary commercial lines direct premiums written increased \$7,945,000, or 13%, to \$67,414,000 for the six months ended June 30, 2005, from \$59,469,000 for the six months ended June 30, 2004. This increase resulted from period to period increases in every group wide commercial line of business. The average premium per group-wide, non-Umbrella Program commercial lines policy increased 5% from the year earlier period. Total non-Umbrella commercial lines policies in force at June 30, 2005 were 35,197, an increase of 10% from 31,907 at June 30, 2004.

Group-wide involuntary direct premiums written decreased \$224,000 or 12%. Direct premiums written related to the New York Automobile Insurance Plan (NYAIP) comprised approximately 68% of group-wide involuntary direct premiums written in the six months ended June 30, 2005. The NYAIP provides coverage for individuals who are unable to obtain auto insurance in the voluntary market. Assignments from the NYAIP vary depending upon a company's PPA market share and the size of the NYAIP. Direct premiums written related to policies assigned from the NYAIP increased 10% to \$1,089,000 for the six months ended June 30, 2005 from \$994,000 for the six months ended June 30, 2004. This increase in involuntary direct premiums written related to the NYAIP was more than offset by decreases in other, non-NYAIP direct premiums written primarily related to New Jersey PPA. The Company is unable to predict the volume of future assignments from the NYAIP.

Group-wide pooled net premiums written for 2005 were \$83,809,000, an increase of \$1,338,000, or 2% from \$82,471,000 for the six months ended June 30, 2004. This increase in group-wide net premiums written is due to the increase in group wide direct premiums written. The Company's share of 2005 pooled net premiums written was \$20,987,000, a decrease of \$3,739,000, or 15%, from \$24,726,000 in 2004. The decrease in the Company's share of net premiums written resulted primarily from the Company's decreased percentage participation in the Reinsurance Pooling Agreement for 2005 as compared to 2004.

Total revenues for the six months ended June 30, 2005 were \$28,838,000, a decrease of \$4,347,000 or 13% from \$33,185,000 for the six months ended June 30, 2004.

Table of Contents

The Company's share of pooled net premiums earned in accordance with the Reinsurance Pooling Agreement for the six months ended June 30, 2005 was \$24,744,000, compared to \$28,433,000 for the six months ended June 30, 2004. This \$3,689,000, or 13%, decrease in net premiums earned resulted primarily from the five percentage point decrease in the Company's participation in the Reinsurance Pooling Agreement.

Net investment income was \$3,844,000 for the six months ended June 30, 2005, a decrease of 4% from \$4,019,000 for the six months ended June 30, 2004, primarily due to a 6% decrease in average invested assets resulting from declining net premiums written.

Net losses and LAE were \$11,911,000 for the six months ended June 30, 2005, a decrease of \$7,330,000, or 38%, from \$19,241,000 for the six months ended June 30, 2004. The decrease in net losses and LAE was due to the 13% decrease in net premiums earned and a 19.6 percentage point decrease in the loss and LAE ratio to 48.1% for the six months ended June 30, 2005 from 67.7% for the six months ended

June 30, 2004. The decrease in the loss and LAE ratio is due to an improvement in the loss and LAE ratio for the 2005 accident year (losses occurring in the first six months of 2005) compared to the 2004 accident year (losses occurring in the first six months of 2004) and favorable development of losses related to prior accident years. The Company recorded a decrease to its estimate of losses and LAE related to prior accident years of \$2,567,000 in the first six months of 2005. This decrease in losses and LAE for prior accident years reduced the loss and LAE ratio by 10.4 percentage points. There was no similar decrease in prior accident year reserves recorded in 2004. The changes in the estimate of losses and LAE related to prior accident years recorded in 2005 for the Company's major lines of business is as follows:

Accident Year	Home-owners	PPA Liability	Commercial Auto Liability	Workers Compensation	Commercial Package	General Liability	All Other	Total
Prior to			Increases (decreases) (in thousands)					
2001	\$ 134	\$ 71	\$ (560)	\$(1,499)	\$ 725	\$610	\$ 304	\$ (215)
2002	109	(13)	(116)	(155)	727	(93)	7	466
2003	123	(344)	(99)	50	(183)	38	(98)	(513)
2004	(303)	(1,052)	(645)	95	(195)	247	(452)	(2,305)
Total	\$ 63	\$(1,338)	\$(1,420)	\$(1,509)	\$1,074	\$802	\$(239)	\$(2,567)

The Company's reduction in its estimate of losses and LAE related to prior accident years represented 2% of the recorded reserve for losses and LAE at December 31, 2004. During 2005, both paid and incurred losses and LAE emerged at amounts that were less than anticipated when reserves for loss and LAE were estimated and recorded at December 31, 2004 for the workers' compensation and auto liability lines of business. This favorable emergence was offset by greater than anticipated loss and LAE emergence in the Company's commercial liability lines of business. The Company made no changes to the key assumptions used in evaluating the adequacy of its reserves for losses and LAE during the first six months of 2005. A reasonable possibility exists in any year that relatively minor fluctuations in the estimate of reserves for losses and LAE may have a significant impact on the Company's net income. This is due primarily to the size of the Company's reserves for losses and LAE (\$120,431,000 at June 30, 2005) relative to its net income.

Table of Contents

The ratio of amortization of deferred policy acquisition costs and other underwriting expenses to net premiums earned increased to 43.6% for the six months ended June 30, 2005 from 38.2% for the six months ended June 30, 2004. Amortization of deferred acquisition costs decreased \$964,000 or 13% compared to the year earlier period. Other underwriting expenses as a percentage of net premiums earned increased by 5.4 percentage points due to an increase in retrospective commissions related to the Reinsurance Pooling Agreement, which provides for retrospective commission income or expense based on actual cumulative experience of the pooled business compared to a target loss and LAE ratio of 74%. The commission is owed to Mutual based on a decrease during the first six months of 2005 in the estimated cumulative loss and LAE ratio on the pooled business since the inception of the Reinsurance Pooling Agreement which includes favorable experience for the first six months of the 2005 accident year. Retrospective commission expense totaled \$1,863,000 (7.5 percentage points of the expense ratio) for the six months ended June 30, 2005 compared to \$749,000 (2.6 percentage points of the expense ratio) for the six months ended June 30, 2004. The Company is reducing its reliance on the traditional business by reducing its percentage participation in the Reinsurance Pooling Agreement and by seeking alternative opportunities in which to invest its capital. To the extent that the Company does not invest in such alternative opportunities, fixed expenses will become a greater percentage of net premiums earned in future periods. Commissions (other than retrospective commissions under the Reinsurance Pooling Agreement), premium taxes and other state assessments that vary directly with the Company's premium volume represented 19.7% of net premiums earned in the six month period ended June 30, 2005 compared to 19.2% of net premiums earned in the six months ended June 30, 2004. The Company's effective income tax rate for the six months ended June 30, 2005 and 2004 was 28.8% and 24.2%, respectively. These rates were calculated based upon the Company's estimate of its effective income tax rate for all of 2005 and 2004 as applicable. In 2005, the effective income tax rate differed from the federal statutory rate of 34% due to non-taxable income, primarily tax-exempt income from fixed maturity investments. In 2004, the effective income tax rate differed from the federal statutory rate of 34% due to non-taxable income, primarily tax-exempt income and to an adjustment to prior years' taxes and the reversal of certain excess tax reserves related to uncertain tax positions.

Table of Contents**Results of Operations for the Three Months Ended June 30, 2005 As Compared to the Three Months Ended June 30, 2004**

Total combined Mutual and MNH direct premiums written (DWP) for the three months ended June 30, 2005 were \$55,251,000, an increase of \$2,986,000 from \$52,265,000 in 2004. The Company's pro-forma share of combined direct premiums written in 2005, in accordance with the Reinsurance Pooling Agreement, was \$16,575,000 compared to \$18,293,000 in 2004. The table below shows a comparison of direct premiums written by major category in 2005 and 2004:

Major Category	Group-wide DWP Three months ended March 31,			MNH Pro-forma Share Three months ended March 31,		
	2005	2004	Change	2005	2004	Change
	(000's omitted)			(000's omitted)		
				(30%)*	(35%)*	
Voluntary Personal Lines	\$ 10,294	\$ 13,371	(23%)	\$ 3,088	\$ 4,680	(34%)
Voluntary Commercial Lines	37,247	32,608	14%	11,174	11,413	(2%)
Umbrella Program	6,795	5,339	27%	2,039	1,869	9%
Involuntary	915	947	(3%)	274	331	(17%)
Total Direct Written Premiums	\$55,251	\$52,265	6%	\$ 16,575	\$ 18,293	(9%)

*** Pooling****Percentages**

The 23% (or \$3,077,000) decrease in group-wide voluntary personal lines direct premiums written resulted from a 34% (or \$3,097,000) decrease in private passenger automobile (PPA) direct premiums written. The decrease in PPA direct premiums written is the result of the companies' decision, implemented in 2002, not to write new policies in certain jurisdictions. In addition, the approval by the New Jersey Department of Banking and Insurance of the companies' request to withdraw from the New Jersey PPA market was effective in June 2003 and provided for non-renewal of New Jersey PPA policies beginning in June 2004 and completed in May 2005.

Group-wide voluntary commercial lines direct premiums written increased \$4,639,000, or 14%, to \$37,247,000 for the three months ended June 30, 2005, from \$32,608,000 for the three months ended June 30, 2004. This increase resulted from period to period increases in every group-wide commercial line of business.

Group-wide pooled net premiums written for the three months ended June 30, 2005 were \$46,940,000, an increase of \$2,379,000, or 5% from \$44,561,000 for the three months ended June 30, 2004. This increase in group-wide net premiums written is due to the increase in group wide direct premiums written. The Company's share of 2005 pooled net premiums written was \$14,082,000, a decrease of \$1,514,000, or 10%, from \$15,596,000 in 2004. The decrease in the Company's share of net premiums written resulted primarily from the Company's decreased percentage participation in the Reinsurance Pooling Agreement for 2005 as compared to 2004.

Total revenues for the three months ended June 30, 2005 were \$14,789,000, a decrease of \$1,730,000 or 10% from \$16,519,000 for the three months ended June 30, 2004.

Table of Contents

The Company's share of pooled net premiums earned in accordance with the Reinsurance Pooling Agreement for the three months ended June 30, 2005 was \$12,767,000, compared to \$14,364,000 for the three months ended June 30, 2004. This \$1,597,000, or 11%, decrease in net premiums earned resulted primarily from the five percentage point decrease in the Company's participation in the Reinsurance Pooling Agreement.

Net investment income was \$1,908,000 for the three months ended June 30, 2005, a decrease of 3% from \$1,965,000 for the three months ended June 30, 2004, primarily due to a 6% decrease in average invested assets resulting from declining net premiums written.

Net losses and LAE were \$4,617,000 for the three months ended June 30, 2005, a decrease of \$4,535,000, or 50%, from \$9,152,000 for the three months ended June 30, 2004. The decrease in net losses and LAE was due to the 11% decrease in net premiums earned and a 27.5 percentage point decrease in the loss and LAE ratio to 36.2% for the three months ended June 30, 2005 from 63.7% for the three months ended June 30, 2004. The decrease in the loss and LAE ratio related to an improvement in the loss and LAE ratio for the 2005 accident year compared to the 2004 accident year and to favorable development of losses related to prior accident years. The favorable development for prior accident years resulted in a decrease in the loss and LAE ratio of 18.4 percentage points in the quarter. Because of the relative size of reserves for losses and LAE compared to net earned premiums, a relatively small change in reserves may have a significant impact on the loss and LAE ratio.

The ratio of amortization of deferred policy acquisition costs and other underwriting expenses to net premiums earned increased to 44.2% for the three months ended June 30, 2005 from 37.7% for the three months ended June 30, 2004. Amortization of deferred acquisition costs decreased \$420,000 or 11% compared to the year earlier period. Other underwriting expenses as a percentage of net premiums earned increased by 6.6 percentage points due to an increase in retrospective commissions related to the Reinsurance Pooling Agreement. The commission is owed to Mutual based on a decrease during the second quarter of 2005 in the estimated cumulative loss and LAE ratio on the pooled business since the inception of the Reinsurance Pooling Agreement. Retrospective commission expense totaled \$1,007,000 (7.9 percentage points of the expense ratio) for the three months ended June 30, 2005 compared to \$405,000 (2.8 percentage points of the expense ratio) for the three months ended June 30, 2004. Commissions (other than retrospective commissions under the Reinsurance Pooling Agreement), premium taxes and other state assessments that vary directly with the Company's premium volume represented 19.1% of net premiums earned in the three month period ended June 30, 2005 compared to 19.6% of net premiums earned in the three months ended June 30, 2004.

The Company's effective income tax rate for the three months ended June 30, 2005 and 2004 was 29.9% and 20.8%, respectively. These rates were calculated based upon the Company's estimate of its effective income tax rate for all of 2005. In 2005, the effective income tax rate differed from the federal statutory rate of 34% due to non-taxable income, primarily tax-exempt income from fixed maturity investments. In 2004, the effective income tax rate differed from the federal statutory rate of 34% due to non-taxable income, primarily tax-exempt income and to an adjustment to prior years' taxes and the reversal of certain excess tax reserves related to uncertain tax positions.

Table of Contents

Liquidity and Capital Resources

In developing its investment strategy the Company determines a level of cash and short-term investments which, when combined with expected cash flow, is estimated to be adequate to meet expected cash obligations. Due to declining written premiums however, the Company's operating activities have resulted in a use of cash each year since 2001. The Company's decreasing participation percentage in the pooled business over the remaining years of the Reinsurance Pooling Agreement will likely result in continued negative cash flows from operations. Net cash used in operations during the six months ended June 30, 2005 was \$1,589,000. The Company believes that careful management of the relationship between assets and liabilities will minimize the likelihood that investment portfolio sales will be necessary to fund insurance operations, and that the effect of any such sales, if any, on the Company's stockholders equity will not be material.

The Company's objectives with respect to its investment portfolio include maximizing total return within investment guidelines while protecting policyholders' surplus and maintaining flexibility. The Company relies on premiums as a major source of cash, and therefore liquidity. Cash flows from the Company's investment portfolio, in the form of interest or principal payments as well as from the maturity of fixed income investments, are an additional source of liquidity.

The Company designates newly acquired fixed maturity investments as available for sale and carries these investments at fair value. Unrealized gains and losses related to these investments are recorded as accumulated other comprehensive income (loss) within stockholders' equity. At June 30, 2005, the Company recorded \$731,000 of unrealized losses, net of taxes, associated with its investments as accumulated other comprehensive loss in its Consolidated Balance Sheet.

At June 30, 2005, the Company's portfolio of fixed maturity investments represented 92.1% of invested assets. Management believes that this level of fixed maturity investments is consistent with the Company's liquidity needs because it anticipates that cash receipts from net premiums written, investment income and maturing securities will enable the Company to satisfy its cash obligations. Furthermore, a portion of the Company's fixed maturity investments are invested in mortgage-backed and other asset-backed securities which, in addition to interest income, provide monthly paydowns of bond principal.

At June 30, 2005, \$106,818,000, or 59.7%, of the Company's fixed maturity portfolio was invested in mortgage-backed and other asset-backed securities. The Company invests in a variety of collateralized mortgage obligation (CMO) products but has not invested in the derivative type of CMO products such as interest only, principal only or inverse floating rate securities. All of the Company's CMO investments have a secondary market and their effect on the Company's liquidity does not differ from that of other fixed maturity investments.

At June 30, 2005 \$4,144,000, or 2%, of the Company's investment portfolio was invested in non-investment grade securities compared to \$2,150,000, or 1%, at December 31, 2004.

Table of Contents

The Company has arranged for a \$2,000,000 unsecured credit facility from a bank. Any borrowings under this facility are payable on demand and carry an interest rate which can be fixed or variable and is negotiated at the time of each advance. This facility is available for general working capital purposes and for repurchases of the Company's common stock. At June 30, 2005 no amount was outstanding on this loan.

As a holding company, the Company is dependent on cash dividends from MNH to meet its obligations and to pay any cash dividends. MNH is subject to New Hampshire insurance laws which place certain restrictions on its ability to pay dividends without the prior approval of state regulatory authorities. These restrictions limit dividends to those that, when added to all other dividends paid within the preceding twelve months, would not exceed 10% of the insurer's statutory policyholders' surplus as of the preceding December 31st. The maximum amount of dividends that MNH could pay during any twelve month period ending in 2005 without the prior approval of the New Hampshire Insurance Commissioner is \$6,171,000. MNH paid \$1,200,000 and \$800,000 of dividends to the Company in August 2004 and February 2005, respectively. On July 28, 2005 MNH declared a dividend payable to the Company for \$1,200,000 on August 19, 2005. The Company paid cash dividends to its common stockholders of \$.10 per share in the first six months of 2005 amounting to \$424,000. On July 28, 2005 the Company declared a quarterly cash dividend of \$.10 per share payable on September 2, 2005 to shareholders of record as of the close of business on August 18, 2005.

Under the Services Agreement, Mutual has provided services and facilities for MNH to conduct its insurance business. The balance in the payable to or receivable from affiliate account represents the amount owing to or owed by Mutual by or to the Company for the difference between premiums collected and payments made for losses, commissions (including retrospective commissions), employees, services and facilities by Mutual on behalf of MNH. Regulatory guidelines suggest that the ratio of a property-casualty insurer's annual net premiums written to its statutory surplus should not exceed 3 to 1. MNH has consistently followed a business strategy that would allow it to meet this 3 to 1 regulatory guideline. For the first six months of 2005, MNH's ratio of net premiums written to statutory surplus, annualized for a full year, was .6 to 1.

Table of Contents

Relationship with Mutual

The Company's and MNH's business and day-to-day operations are closely aligned with those of Mutual. This is the result of a combination of factors. Mutual has had a historical ownership interest in the Company and MNH. Prior to November 1986 MNH was a wholly-owned subsidiary of Mutual. Following the Company's initial public offering in November 1986 and until a secondary stock offering in July 1993 the Company was a majority-owned subsidiary of Mutual. Mutual currently owns 12.1% of the Company's common stock. Under the Services Agreement, Mutual provides the Company and MNH with all facilities and personnel to operate their business. All of the officers of the Company or MNH are employees of Mutual whose services are provided to, and paid for by, the Company and MNH through the Services Agreement. Also, the operation of MNH's insurance business, which offers substantially the same lines of insurance as Mutual through the same independent insurance agents, creates a very close relationship among the Companies. By reducing its percentage under the Reinsurance Pooling Agreement, the Company is making capital available for other opportunities in an effort to increase return on shareholders' equity and maximize shareholder value. The Company announced on February 2, 2005 that it retained Philo Smith Capital Corporation to explore strategic alternatives for its long-term development, and that initiative continues. In accordance with the Services Agreement, in June of 2005 the Company and MNH notified Mutual that they will terminate the Cash Management Services Annex to the Services Agreement as of June 30, 2006. The Company and MNH intend to solicit bids, including possibly from Mutual, for the management of their investment portfolios after the effective date of the termination.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995:

With the exception of historical information, the matters and statements discussed, made or incorporated by reference in this Quarterly Report on Form 10-Q constitute forward-looking statements and are discussed, made or incorporated by reference, as the case may be, pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, statements relating to the Company's plans, strategies, objectives, expectations and intentions. Words such as believes, forecasts, intends, possible, expects, anticipates, estimates, or plans and similar expressions are intended to identify forward looking statements. Such forward-looking statements involve certain assumptions, risks and uncertainties that include, but are not limited to, those associated with factors affecting the property-casualty insurance industry generally, including price competition, the Company's dependence on state insurance departments for approval of rate increases; size and frequency of claims, escalating damage awards, natural disasters, fluctuations in interest rates and general business conditions; the Company's dependence on investment income; the geographic concentration of the Company's business in the northeastern United States and in particular in New York, New Hampshire, New Jersey, Rhode Island, Pennsylvania and Massachusetts; the adequacy of the Company's loss reserves; the Company's dependence on the general reinsurance market; government regulation of the insurance industry; exposure to environmental claims; dependence of the Company on its relationship with Mutual; and the other risks and uncertainties discussed or indicated in all documents filed by the Company with the Securities and Exchange Commission.

Table of Contents

There may be other risks and uncertainties that we have not identified that may affect whether our forward-looking statements will prove accurate. New factors may emerge from time to time that cause our business not to develop as we predict, and it is not possible for us to predict all of them. You should not place undue reliance on forward-looking statements. Further, any forward-looking statement speaks only as of the date on which it is made and, except as required by law, the Company undertakes no obligation to update any forward-looking statement to reflect events or other circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk

Market risk represents the potential for loss due to changes in the fair value of financial instruments. The market risk related to the Company's financial instruments primarily relates to its investment portfolio. The value of the Company's investment portfolio of \$194,278,000 at June 30, 2005 is subject to changes in interest rates and to a lesser extent on credit quality. Further, certain mortgage-backed and asset-backed securities are exposed to accelerated prepayment risk generally caused by interest rate movements. If interest rates were to decline, mortgage holders would be more likely to refinance existing mortgages at lower rates. Acceleration of future repayments could adversely affect future investment income, if reinvestment of the accelerated receipts was made in lower yielding securities.

The following table provides information related to the Company's fixed maturity investments at June 30, 2005. The table presents cash flows of principal amounts and related weighted average interest rates by expected maturity dates. The cash flows are based upon the maturity date or, in the case of mortgage-backed and asset-backed securities, expected payment patterns. Actual cash flows could differ from those shown in the table.

Table of Contents**Fixed Maturities**

Expected Cash Flows of Principal Amounts (\$in 000 s):

	2005	2006	2007	2008	2009	There- after	TOTAL Amor- tized Cost	Esti- mated Market Value
Available for Sale								
U.S. Treasury securities and obligations of U.S. Government corporations and agencies	\$ 2,010	\$ 0	\$ 0	\$ 3,005	\$ 0	\$ 0	\$ 5,015	\$ 4,976
Average interest rate	4.4%	0.0%	0.0%	3.2%	0.0%	0.0%		
Obligations of states and political subdivisions	3,784	9,466	3,867	15,467	8,231	4,150	44,965	44,645
Average interest rate	3.4%	3.4%	4.3%	3.9%	4.5%	4.9%		
Corporate securities	7,024	998	0	3,241	7,078	4,330	22,671	22,499
Average interest rate	4.0%	3.2%	0.0%	3.7%	4.9%	7.0%		
Mortgage & asset backed securities	13,409	24,834	19,889	13,499	6,338	28,819	106,788	106,818
Average interest rate	4.8%	4.8%	4.8%	4.9%	5.0%	5.1%		
Total	\$26,227	\$35,298	\$23,756	\$35,212	\$21,647	\$37,299	\$179,439	\$178,938

The discussion and the estimated amounts referred to above include forward-looking statements of market risk which involve certain assumptions as to market interest rates and the credit quality of the fixed maturity investments. Actual future market conditions may differ materially from such assumptions. Accordingly, the forward-looking statements should not be considered projections of future events by the Company.

Item 4. Controls and Procedures

The Company's chief executive officer and chief financial officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report, concluded that the Company's disclosure controls and procedures were designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

There was no change in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 or 15d-15 under the Securities Exchange Act of 1934 that occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
