of 2006 compared to a net loss of \$1,226 million for the same period in 2005. The primary factors resulting in the year-over-year reduction in the net loss were a valuation allowance for net U.S. and U.K. deferred tax assets that reduced net income by \$918 million in 2005 and an impairment charge of \$290 million before tax that was recorded in 2005 in connection with our plans to divest our non-core engine hard parts, fluid products and pump products businesses. The primary factors leading to the net loss for the first nine months in 2006 were reorganization costs of \$114 million associated with our bankruptcy filing and asset impairment charges of \$226 million to write off goodwill in our axle business and adjust the carrying value of leased assets in our subsidiary Dana Credit Corporation to expected fair value less costs to sell.
