As previously reported, in January 2008, PolyOne Corporation (PolyOne or the Company) acquired 100% of the outstanding capital stock of GLS Corporation (GLS), a global provider of specialty thermoplastic elastomer compounds for consumer, packaging and medical applications. On March 20, 2008, PolyOne announced changes to its segment reporting structure that were effective January 1, 2008. PolyOne created a new segment, the Specialty Engineered Materials segment, which includes PolyOne s thermoplastic elastomer compounds product line in Europe and Asia (historically included in the International Color and Engineered Materials segment), North American Engineered Materials (historically included in All Other) and GLS. Additionally, as of April 15, 2008, PolyOne renamed the Vinyl Business segment as the Geon Performance Polymers segment.

Accordingly, effective as of January 1, 2008, the Company is operating within five reportable segments: Geon Performance Polymers, International Color and Engineered Materials, PolyOne Distribution, Resin and Intermediates, and Specialty Engineered Materials. All Other is comprised of the remaining operating segments and includes North American Color and Additives, Producer Services, and Specialty Inks and Polymer Systems operating segments.

The Company is filing this Current Report on Form 8-K to reclassify financial information and disclosures for its reportable segments and certain related financial information and disclosures previously set forth in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2007 (the Form 10-K) to be consistent with the Company s current presentation of its reportable segments. The change in the Company s segment structure had no effect on the Company s previously reported results of operations, financial condition or cash flows, and all other information in the Form 10-K remains unchanged and has not been otherwise updated for events occurring after the date of the Form 10-K, including, without limitation, any forward-looking information such as that contained in

Outlook Management s Discussion and Analysis of Financial Condition and Results of Operations contained in Part II, Item 7 of the Form 10-K. The Company is required to provide reclassified financial information for its segments so that its previously reported prior period financial statements can be incorporated by reference into certain filings with the Securities and Exchange Commission.

Each of Business contained in Part I, Item 1 of the Form 10-K, Properties contained in Part I, Item 2 of the Form 10-K, Management s Discussion and Analysis of Financial Condition and Results of Operations contained in Part II, Item 7 of the Form 10-K, and Financial Statements and Supplementary Data contained in Part II, Item 8 of the Form 10-K included in Exhibit 99.1 of this Current Report on Form 8-K has been revised from its previous presentation solely to reflect the Company s new segment structure. Exhibit 99.1 is incorporated herein by reference.
