UNICO AMERICAN CORPORATION

AND SUBSIDIARIES

CONDENSED NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Unico American Corporation is an insurance holding company that underwrites property and casualty insurance through its insurance company subsidiary; provides property, casualty, and health insurance through its agency subsidiaries; and provides insurance premium financing and membership association services through its other subsidiaries. Unico American Corporation is referred to herein as the "Company" or "Unico" and such references include both the corporation and its subsidiaries, all of which are wholly owned. Unico was incorporated under the laws of Nevada in 1969.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Unico American Corporation and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2013, are not necessarily indicative of the results that may be expected for the year ending December 31, 2013. Quarterly financial statements should be read in conjunction with the consolidated financial statements and related notes in the Company's 2012 Annual Report on Form 10-K as filed with the Securities and Exchange Commission.

Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect its reported amounts of assets and liabilities and its disclosure of any contingent assets and liabilities at the date of its financial statements, as well as its reported amounts of revenues and expenses during the reporting period. The most significant assumptions in the preparation of these consolidated financial statements relate to losses and loss adjustment expenses. While every effort is made to ensure the integrity of such estimates, actual results may differ.

Fair Value of Financial Instruments

The Company employs a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Financial assets and financial liabilities recorded on the consolidated balance sheets at fair value are categorized based on the reliability of inputs to the valuation techniques. (See Note 8.)

The Company has used the following methods and assumptions in estimating its fair value disclosures:

- Fixed Maturities:

- Investment securities, excluding long-term certificates of deposit – Fair values are obtained from a national quotation service.

- Long-term certificates of deposit – The carrying amounts reported at cost in the balance sheet for these instruments approximate their fair values.

- Cash and short-term investments – The carrying amounts reported at cost in the balance sheet approximate their fair values given the short term nature of these instruments.
- Receivables, net – The carrying amounts reported at cost in the balance sheet approximate their fair values given the short-term nature of these instruments.
- Accrued expenses and other liabilities – The carrying amounts reported at cost in the balance sheet approximate the fair values given the short-term nature of these instruments.

NOTE 2 – REPURCHASE OF COMMON STOCK – EFFECTS ON STOCKHOLDERS’ EQUITY

On December 19, 2008, the Board of Directors authorized a stock repurchase program to acquire from time to time up to an aggregate of 500,000 shares of the Company’s common stock. This program has no expiration date and may be terminated by the Board of Directors at any time. As of September 30, 2013, the Company had remaining authority under the 2008 program to repurchase up to an aggregate of 222,669 shares of its common stock. The 2008 program is the only program under which there is authority to repurchase shares of the Company’s common stock. The Company did not repurchase any stock during the three and nine months ended September 30, 2013. The Company has or will retire all stock repurchased.

NOTE 3 – EARNINGS (LOSS) PER SHARE

The following table represents the reconciliation of the Company's basic earnings (loss) per share and diluted earnings (loss) per share computations reported on the Consolidated Statements of Operations for the three and nine months ended September 30, 2013 and 2012:

	Three Months Ended September 30		Nine Months Ended September 30	
	2013	2012	2013	2012
<u>Basic earnings (loss) per share</u>				
Net income (loss)	\$(368,366 )	\$745,595	\$(109,823 )	\$1,402,740
Weighted average shares outstanding	5,341,147	5,337,913	5,341,147	5,341,296
Basic earnings (loss) per share	\$(0.07 )	\$0.14	\$(0.02 )	\$0.26
<u>Diluted earnings (loss) per share</u>				
Net income (loss)	\$(368,366 )	\$745,595	\$(109,823 )	\$1,402,740
Weighted average shares outstanding	5,341,147	5,337,913	5,341,147	5,341,296
Effect of dilutive securities	—	12,008	—	15,455
Diluted shares outstanding	5,341,147	5,349,921	5,341,147	5,356,751
Diluted earnings (loss) per share	\$(0.07 )	\$0.14	\$(0.02 )	\$0.26

Basic earnings (loss) per share exclude the impact of common share equivalents and are based upon the weighted average common shares outstanding. Diluted earnings per share utilize the average market price per share when applying the treasury stock method in determining common share dilution. When outstanding stock options are dilutive, they are treated as common share equivalents for purposes of computing diluted earnings per share and represent the difference between basic and diluted weighted average shares outstanding. In loss periods, options are excluded from the calculation of diluted earnings per share, as the inclusion of such options would have an anti-dilutive effect.

NOTE 4 – RECENTLY ISSUED ACCOUNTING STANDARDS

Accounting Guidance Adopted

In February 2013, the Financial Accounting Standards Board (FASB) issued ASU 2013-02, “Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income” (ASC 220). The ASU requires entities to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the financial statements or in the notes thereto, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income, but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures that provide additional details about those amounts. The new standard is effective prospectively for reporting periods beginning after December 15, 2012. The Company adopted the new standard effective January 1, 2013. The adoption of the new standard had no effect on the Company’s consolidated financial statements.

Accounting Guidance Not Yet Adopted

In July 2013, the Financial Accounting Standards Board (FASB) issued ASU 2013-11 “Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carry-forward, a Similar Tax Loss, or a Tax Credit Carry-forward Exists” (“ASU 2013-11”). The objective of the ASU is to improve the financial statement presentation of an unrecognized tax benefit when a net operating loss carry-forward, a similar tax loss, or a tax credit carry-forward exists. The ASU seeks to reduce the diversity in practice by providing guidance on the presentation of unrecognized tax benefits to better reflect the manner in which an entity would settle at the reporting date any additional income taxes that would result from the disallowance of a tax position when net operating loss carry-forwards, similar tax losses, or tax credit carry-forwards exist. ASU 2013-11 will be effective for annual and interim reporting periods beginning after December 15, 2013, with both early adoption and retrospective application permitted. The Company is currently evaluating the impact of this guidance; however, the Company does not expect this standard to have a material impact on the Company’s consolidated financial statements.

There have been no other recent accounting standards issued during the three and nine months ended September 30, 2013, that are expected to have a material impact on the Company's consolidated financial statements.

#### NOTE 5 – ACCOUNTING FOR INCOME TAXES

The Company and its wholly owned subsidiaries file consolidated federal and state income tax returns. Pursuant to the tax allocation agreement, Crusader Insurance Company (Crusader) and American Acceptance Corporation are allocated taxes or tax credits in the case of losses, at current corporate rates based on their own taxable income or loss. The Company files income tax returns under U.S. federal and various state jurisdictions. The Company is subject to examination by U.S. federal income tax authorities for tax returns filed starting at taxable year 2010 and California state income tax authorities for tax returns filed starting at taxable year 2009. There are no ongoing examinations of income tax returns by federal or state tax authorities.

As a California insurance company, Crusader is obligated to pay a premium tax on gross premiums written in all states that Crusader is admitted. Premium taxes are deferred and amortized as the related premiums are earned. The premium tax is in lieu of state franchise taxes and is not included in the provision for state taxes.

As of September 30, 2013, the Company had no unrecognized tax benefits or liabilities. In addition, the Company had not accrued interest and penalties related to unrecognized tax benefits or liabilities. However, if interest and penalties would need to be accrued related to unrecognized tax benefits or liabilities, such amounts would be recognized as a component of federal income tax expense.

#### NOTE 6 – PROPERTY AND EQUIPMENT, NET

Property and equipment consist of the following:

	September 30 2013	December 31 2012
Land and building located in Calabasas, California		
Land	\$1,787,485	\$—
Building	7,212,515	—
Other property and equipment located in Woodland Hills, California		
Furniture, fixtures, leasehold improvements, computer and office equipment	3,235,458	2,647,971
Accumulated depreciation and amortization	(1,952,548)	(1,791,121)
Net property and equipment	\$10,282,910	\$856,850

On September 26, 2013, Crusader closed escrow on the purchase of land and building located in Calabasas, California. There is no relationship between the seller and the Company. The real estate consists of a two-story office building located on commercial land in Calabasas, California, about four miles from the Company's current location. The office building has approximately 46,843 square feet. The purchase price of the land and building was \$9,500,000 plus acquisition costs of \$106,505. Acquisition costs were expensed as period costs. The Company determined that the purchase price represented the fair value of the assets acquired. No liabilities were assumed. The consideration for the land and building was cash. The purchase price included \$500,000 to reimburse the seller for rents on existing tenants in excess of current market through June 30, 2014. The \$500,000 is recorded as a deferred asset and will be amortized monthly through June 30, 2014, the remaining life of the lease terms. The deferred asset is reflected in Other Assets on the Consolidated Balance Sheets. Crusader intends to hold the property for rental income until approximately July 1, 2014. After that date, Crusader intends to lease approximately half of the building to non-affiliated companies. The remaining half is intended to be occupied by Crusader with the remaining portion leased to its affiliated companies. This property is intended to be the new home office of the Company.

The Company considered many factors in its decision to purchase a building. Some of the factors considered by management, though not definitive, include:

1. The Company has been paying rent at its present location since 1987 and, therefore, has not received any benefit from equity buildup or long-term appreciation.
2. The current and expected cost benefit of ownership versus renting is favorable to ownership.
3. The Company would have a facility that can accommodate any future growth.
4. The timing of the current real estate marketplace is favorable.
5. The purchase is a more efficient use of the Company's available cash compared to maintaining the funds in the Company's current investment portfolio.
6. The new building will provide the Company with a substantial improvement in the quality and appearance of its office space.
7. Ownership will provide the Company a hedge against possible future inflation of occupancy costs.

The Company is in the process of completing its purchase price allocations and costs segregation analysis for the acquisition of the Calabasas building, including the determination of depreciable lives. The Company expects this analysis to be completed within one year of the purchase date. The Company's best estimate of the fair values of the assets acquired on the purchase date of September 26, 2013, includes the land and building as reflected in the above table. No deferred charges or other assets were acquired and no liabilities were assumed.

Since the date of the acquisition, the Company has included the Calabasas, California land and building in its consolidated financial statements. The property has generated incremental revenue and income which was considered insignificant for the reporting period due to the timing of the acquisition.

Depreciation on other property and equipment located in Woodland Hills, California is computed using straight line methods over 3 to 7 years. Amortization of leasehold improvements is computed using the shorter of the useful life of the leasehold improvements or the remaining years of the lease. Depreciation and amortization expense for the nine months ended September 30, 2013 and 2012 were \$161,427 and \$91,129, respectively.

#### NOTE 7 – SEGMENT REPORTING

ASC 280 establishes standards for the way information about operating segments are reported in financial statements. The Company has identified its insurance company operation as its primary reporting segment. Revenues from this segment comprised 89% of consolidated revenues for the three and nine months ended September 30, 2013, compared to 90% of consolidated revenues for the three and nine months ended September 30, 2012, respectively. The Company's remaining operations constitute a variety of specialty insurance services, each with unique characteristics and individually insignificant to consolidated revenues.

Edgar Filing: UNICO AMERICAN CORP - Form 10-Q

Revenues, income before income taxes, and assets by segment are as follows:

	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2013	2012	2013	2012

Total insurance company operation	119,764,548	123,674,825
Other insurance operations	16,345,368	16,333,201
Total assets	\$ 136,109,916	\$ 140,008,026

(1) Intersegment revenue eliminations reflect commission paid by Crusader to Unifax Insurance Systems, Inc., (Unifax) a wholly owned subsidiary of Unico.

(2) Intersegment asset eliminations reflect the elimination of Crusader receivables and Unifax payables.

#### NOTE 8 – FAIR VALUE OF FINANCIAL INSTRUMENTS

In determining the fair value of its financial instruments, the Company employs a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Financial assets and financial liabilities recorded on the consolidated balance sheets at fair value are categorized based on the reliability of inputs to the valuation techniques as follows:

Level 1 – Financial assets and financial liabilities whose values are based on unadjusted quoted prices in active markets for identical assets or liabilities as of the reporting date.

Level 2 – Financial assets and financial liabilities whose values are based on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in non-active markets; or valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability as of the reporting date.

Level 3 – Financial assets and financial liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect the Company's estimates of the assumptions that market participants would use in valuing the financial assets and financial liabilities as of the reporting date.

The hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. Thus, a Level 3 fair value measurement may include inputs that are observable (Level 1 or Level 2) or unobservable (Level 3). The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

The following table presents information about the Company's consolidated financial instruments and their estimated fair values, which are measured on a recurring basis, and are allocated among the three levels within the fair value hierarchy as of September 30, 2013, and December 31, 2012:

	Level 1	Level 2	Level 3	Total
September 30, 2013				
Financial instruments:				
Fixed maturities securities:				
U.S. treasury securities	\$7,100,054	\$—	\$—	\$7,100,054
Certificates of deposit	—	6,698,000	—	6,698,000
Total fixed maturity securities	7,100,054	6,698,000	—	13,798,054
Cash and short-term investments	93,486,082	—	—	93,486,082
Total financial instruments at fair value	\$100,586,136	\$6,698,000	\$—	\$107,284,136

	Level 1	Level 2	Level 3	Total
December 31, 2012				
Financial instruments:				
Fixed maturities securities:				
U.S. treasury securities	\$23,538,002	\$—	\$—	\$23,538,002
Certificates of deposit	—	10,090,000	—	10,090,000
Total fixed maturity securities	23,538,002	10,090,000	—	33,628,002
Cash and short-term investments	86,416,755	—	—	86,416,755
Total financial instruments at fair value	\$109,954,757	\$10,090,000	\$—	\$120,044,757

The carrying amount of the Company's financial instruments as reflected in the consolidated balance sheets approximate the fair values given the short-term nature. Fair value measurements are not adjusted for transaction costs. The Company recognizes transfers between levels at either the actual date of the event or a change in circumstances that caused the transfer. The Company did not have any transfers between Levels 1, 2 and 3 of the fair value hierarchy during the three and nine months ended September 30, 2013 and 2012.

#### NOTE 9 – INVESTMENTS

A summary of total investment income is as follows:

	Three Months Ended		Nine Months Ended	
	<u>September 30</u>		<u>September 30</u>	
	2013	2012	2013	2012
Fixed maturities	\$51,006	\$284,149	\$239,167	\$1,326,250
Short-term investments	17,616	19,392	62,562	33,760
Total investment income	\$68,622	\$303,541	\$301,729	\$1,360,010

The amortized cost and estimated fair values of investments in fixed maturities by category are as follows:

	<u>Amortized Cost</u>	Gross	Gross	Estimated
		Unrealized	Unrealized	Fair
		<u>Gains</u>	<u>Losses</u>	<u>Value</u>
September 30, 2013				
Available for sale:				
<u>Fixed maturities</u>				
Certificates of deposit	\$6,698,000	\$—	\$—	\$6,698,000
U.S. treasury securities	7,100,353	2,170	(2,469)	) 7,100,054
Total fixed maturities	\$13,798,353	\$2,170	\$(2,469)	) \$13,798,054

December 31, 2012

Available for sale:

Fixed maturities

Certificates of deposit	\$ 10,090,000	\$—	\$—	\$ 10,090,000
U.S. treasury securities	23,354,211	183,791	—	23,538,002
Total fixed maturities	\$33,444,211	\$ 183,791	\$—	\$33,628,002

A summary of the unrealized appreciation (depreciation) on investments carried at fair value and the applicable deferred federal income taxes are shown below:

	September 30 2013	December 31 2012
Gross unrealized appreciation of fixed maturities	\$2,170	\$ 183,791
Gross unrealized (depreciation) of fixed maturities	(2,469)	) —
Net unrealized (depreciation) appreciation on investments	(299)	) 183,791
Deferred federal tax benefit (expense)	102	(62,489 )
Net unrealized (depreciation) appreciation, net of deferred income taxes	\$(197	) \$121,302

The Company had one U.S. treasury security in an unrealized loss position for a continuous period of less than nine months as of September 30, 2013, and had no investments in an unrealized loss position at December 31, 2012.

The Company monitors its investments closely. If an unrealized loss is determined to be other-than-temporary, it is written off as a realized loss through the Consolidated Statements of Operations. The Company's methodology of assessing other-than-temporary impairments is based on security-specific analysis as of the balance sheet date and considers various factors including the length of time to maturity and the extent to which the fair value has been less than the cost, the financial condition and the near-term prospects of the issuer, and whether the debtor is current on its contractually obligated interest and principal payments. The Company does not have the intent to sell its fixed maturity investments and it is not likely that the Company would be required to sell any of its fixed maturity investments prior to recovery of its amortized costs. The Company did not sell any fixed maturity investments during the three and nine months ended September 30, 2013 and 2012.

The Company's investment in Certificates of Deposit (CDs) included \$6,098,000 and \$9,490,000 of brokered CDs as of September 30, 2013 and December 31, 2012, respectively. Brokered CDs provide the safety and security of a CD combined with the convenience gained by one-stop shopping for rates at various institutions. This allows the Company to spread its investments across multiple institutions so that all of its CD investments are insured by the Federal Deposit Insurance Corporation (FDIC). Brokered CDs are purchased through UnionBanc Investment Services, LLC, a registered broker-dealer, investment advisor, member of FINRA/SIPC, and a subsidiary of Union Bank, N.A. Brokered CDs are a direct obligation of the issuing depository institution, are bank products of the issuing depository institution, are held in the name of Union Bank as Custodian for the benefit of the Company, and are FDIC insured within permissible limits. All the Company's brokered CDs are within the FDIC insured permissible limits. As of September 30, 2013 and December 31, 2012, the Company's remaining CDs totaling \$600,000 are from four different banks and represent statutory deposits that are assigned to and held by the California State Treasurer and the Insurance Commissioner of the State of Nevada. These deposits are required for writing certain lines of business in California and for admission in the state of Nevada. All the Company's brokered and non-brokered CDs are within the FDIC insured permissible limits. Due to nature of the Company's business, certain bank accounts may exceed FDIC insured permissible limits.

Short-term investments consist of the following:

	September 30, 2013	December 31, 2012
U.S. treasury bills	\$90,989,635	\$78,776,954
U.S. treasury money market fund	3,362	3,494,729
Bank money market accounts	2,327,061	3,982,804
Bank savings accounts	1,762	1,762
Total short-term investments	\$93,321,820	\$86,256,249

#### NOTE 10 – CONTINGENCIES

One of the Company's agents that was appointed in 2008 to assist the Company in implementing its Trucking Program, failed to pay the net premium and policy fees due Unifax, the exclusive general agent for Crusader. The agent was initially late in paying its February 2009 production that was due to Unifax on April 15, 2009. In May 2009, as a result of the agent's failure to timely pay its balance due to Unifax, the Company terminated its agency agreement and assumed ownership and control of that agent's policy expirations written with the Company. The Company

subsequently commenced legal proceedings against the agent corporation, its three principals (who personally guaranteed the agent's obligations), and another individual for the recovery of the balance due and any related recovery costs incurred. All related recovery costs have been expensed as incurred. The agent corporation and two of its principals filed bankruptcy. The corporation was adjudicated bankrupt. The Company obtained judgments, non-dischargeable in bankruptcy, for the full amount due from the two principals who filed bankruptcy. The other principal stipulated to a judgment of \$1,200,000. The claim against the other individual was resolved. The Company collected \$62,750 during the nine months ended September 30, 2013, and \$101,204 during the year ended December 31, 2012. As of September 30, 2013, the agent's balance due to Unifax was \$1,331,272. The Company's bad debt reserve was \$931,272 which represents approximately 70% of the current balance due to Unifax. The Company's bad debt reserve is subject to change as more information becomes available.

## ITEM 2 – MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### General

Unico American Corporation is an insurance holding company that underwrites property and casualty insurance through its subsidiary Crusader Insurance Company (Crusader); provides property, casualty, and health insurance through its agency subsidiaries; and provides insurance premium financing and membership association services through its other subsidiaries.

Total revenue for the three months ended September 30, 2013, was \$7,682,727 compared to \$8,228,464 for the three months ended September 30, 2012, a decrease of \$545,737 (7%). Total revenue for the nine months ended September 30, 2013, was \$23,395,744 compared to \$24,830,485 for the nine months ended September 30, 2012, a decrease of \$1,434,741 (6%). The Company had a net loss of \$368,366 for the three months ended September 30, 2013, compared to net income of \$745,595 for the three months ended September 30, 2012, a decrease of \$1,113,961 (149%). The Company had a net loss of \$109,823 for the nine months ended September 30, 2013, compared to net income of \$1,402,740 for the nine months ended September 30, 2012, a decrease of \$1,512,563 (108%).

This overview discusses some of the relevant factors that management considers in evaluating the Company's performance, prospects, and risks. It is not all inclusive and is meant to be read in conjunction with the entirety of the management discussion and analysis, the Company's consolidated financial statements and notes thereto, and all other items contained within the report on this Form 10-Q.

### Revenue and Income Generation

The Company receives its revenue primarily from earned premium derived from the insurance company operations, commission and fee income generated from the insurance agency operations, finance charges and fee income from the premium finance operations, and investment income from cash generated primarily from the insurance company operation. The insurance company operation generated approximately 89% of consolidated revenues for the three and nine months ended September 30, 2013, compared to 90% of consolidated revenues for the three and nine months ended September 30, 2012, respectively. The Company's remaining operations constitute a variety of specialty insurance services, each with unique characteristics and individually not material to consolidated revenues.

### Insurance Company Operation

As of September 30, 2013, Crusader was licensed as an admitted insurance carrier in the states of Arizona, California, Nevada, Oregon, and Washington. Since 2004, all of Crusader's business has been written in the state of California. In October of 2013, A.M. Best Company reaffirmed Crusader's financial strength rating of A- (Excellent) and a rating outlook of "stable." In addition, Crusader was assigned an Issuer Credit Rating of a- (Excellent).

The California Department of Insurance (the insurance department) conducts periodic financial examinations of Crusader. During 2012, the insurance department began conducting a financial examination of Crusader's December 31, 2009 through December 31, 2011, statutory financial statements. On June 6, 2013, Crusader was notified that the report of examination was officially filed and became part of the records of the insurance department. No comments or recommendations were identified in the current report of examination or the previous report of examination.

The property and casualty insurance business is cyclical in nature, and the previous years have been characterized as a "soft market." The conditions of a soft market include premium rates that are stable or falling and insurance is readily

available. Contrarily, “hard market” conditions occur during periods in which premium rates rise, coverage may be more difficult to find, and there is a potential for insurers’ profits to increase. The Company believes that the California property and casualty insurance market has transitioned from a soft market to a market that is stabilizing.

Premium written (before reinsurance) is a non-GAAP financial measure which is defined, under statutory accounting, as the contractually determined amount charged by the company to the policyholder for the effective period of the contract based on the expectation of risk, policy benefits, and expenses associated with the coverage provided by the terms of the policies. Premiums written is a required statutory measure designed to determine written premium production levels. Premium earned, the most directly comparable GAAP measure, represents the portion of premiums written that is recognized as income in the financial statements for the period presented and earned on a pro-rata basis over the terms of the policies.

For the three months ended September 30, 2013, direct written premium as reported on the Company’s statutory statement was \$7,853,295 compared to \$8,176,524, for the three months ended September 30, 2012, a decrease of \$323,229 (4%). For the nine months ended September 30, 2013, direct written premium as reported on the Company’s statutory statement was \$24,037,406 compared to \$24,914,049, for the nine months ended September 30, 2012, a decrease of \$876,643 (4%).

The Company’s insurance operations underwriting profitability is defined by pre-tax underwriting profit, which is calculated as net earned premium less losses and loss adjustment expenses and policy acquisition costs.

Crusader's underwriting profit (before income taxes) is as follows:

	Three Months Ended September 30			Nine Months Ended September 30		
	<u>2013</u>	<u>2012</u>	Increase (Decrease)	<u>2013</u>	<u>2012</u>	Increase (Decrease)
Net written premium	\$6,558,401	\$6,881,642	\$(323,241 )	\$20,189,668	\$21,066,018	\$(876,350 )
Net change in unearned premium	200,225	59,368	140,857	16,194	(629,347 )	(645,541 )
Net premium earned	6,758,626	6,941,010	(182,384 )	20,205,862	20,436,671	(230,809 )
Less:						
Losses and loss adjustment expenses	4,765,616	3,571,972	1,193,644	13,212,802	11,620,183	1,592,619
Policy acquisition costs	1,538,087	1,659,945	(121,858 )	4,515,924	5,128,473	(612,549 )
Total	6,303,703	5,231,917	1,071,786	17,728,726	16,748,656	980,070
Underwriting profit (before income taxes)	\$454,923	\$1,709,093	\$(1,254,170)	\$2,477,136	\$3,688,015	\$(1,210,879)

The following table provides an analysis of the losses and loss adjustment expenses:

	Three months ended September 30			Nine months ended September 30		
	<u>2013</u>	<u>2012</u>	Increase (Decrease)	<u>2013</u>	<u>2012</u>	Increase (Decrease)
Losses and loss adjustment expenses						
Provision for insured events of current year	\$5,997,260	\$4,597,500	\$1,399,760	\$16,568,055	\$15,259,868	\$1,308,187
Decrease in provision for events of prior years	1,231,644	1,025,528	206,116	3,355,253	3,639,685	(284,432 )
Total losses and loss adjustment expenses	\$4,765,616	\$3,571,972	\$1,193,644	\$13,212,802	\$11,620,183	\$1,592,619

Losses and loss adjustment expenses were 71% and 65% of net premium earned for the three and nine months ended September 30, 2013, respectively, compared to 51% and 57% of net premium earned for the three and nine months ended September 30, 2012, respectively.

#### Other Operations

The Company's other revenues from insurance operations consist of commissions, fees, finance charges, and investment and other income. Excluding investment and other income, these operations accounted for approximately 11% of total revenues in the three and nine months ended September 30, 2013, compared to 10% of total revenues in the three and nine months ended September 30, 2012, respectively.

#### Investments and Liquidity

The Company generates revenue from its investment portfolio, which consisted of total invested assets of approximately \$107,120,173 (at amortized cost) and \$124,545,446 (at amortized cost) as of September 30, 2013 and 2012, respectively. Investment income decreased \$234,919 (77%) and \$1,058,281 (78%) to \$68,622 and \$301,729 for the three and nine months ended September 30, 2013, respectively, compared to \$303,541 and \$1,360,010 for the three and nine months ended September 30, 2012, respectively. The decrease in investment income is primarily a result of a decrease in invested assets and a decrease in the rate of return on those invested assets. The Company's annualized weighted average investment yield on its fixed maturity obligations decreased to 0.2% and 0.4% for the three and nine months ended September 30, 2013, respectively, from 1.4% and 1.0% for the three and nine months ended September 30, 2012, respectively. Due to the current interest rate environment, management believes it is prudent to purchase fixed maturity investments with maturities of five years or less and with minimal credit risk.

#### Liquidity and Capital Resources

Crusader holds a significant amount of cash primarily as a result of its holdings of unearned premium reserves, its reserves for loss payments, and its capital and surplus. Crusader's loss and loss adjustment expense payments are the most significant cash flow requirement of the Company. These payments are continually monitored and projected to ensure that the Company has the liquidity to cover these payments without the need to liquidate its investments. Cash and investments (at amortized cost) of the Company at September 30, 2013, were \$107,284,435 compared to \$124,639,965 at September 30, 2012. Crusader's cash and investments were 98% of the total cash and investments (at amortized cost) held by the Company as of September 30, 2013 and 2012.

As of September 30, 2013, the Company had invested \$13,798,353 (at amortized cost) (13%) in long-term fixed maturity obligations and \$93,321,820 (87%) in short-term investments. The long-term investments include \$7,100,353 (51%) of U.S. treasury securities and \$6,698,000 (49%) of long-term FDIC insured certificates of deposit. The short-term investments include U.S. treasury bills of \$90,989,635, bank money market and savings accounts of \$2,328,823, and a U.S. treasury money market fund of \$3,362. All of the Company's short-term investments are all highly rated and redeemable within one year

The Company is required to classify its investment securities into one of three categories: held-to-maturity, available-for-sale, or trading securities. Although all of the Company's investment in fixed maturity securities are classified as available-for-sale and while the Company may sell investment securities from time to time in response to economic and market conditions, its investment guidelines place primary emphasis on buying and holding high-quality investments to maturity.

The Company's investment guidelines on equity securities limit investments in equity securities to an aggregate maximum of \$2,000,000. The Company's investment guidelines on fixed maturities limit those investments to high-grade obligations with a maximum term of 8 years. The maximum investment authorized in any one issuer is \$2,000,000. This dollar limitation excludes bond premiums paid in excess of par value and U.S. government or U.S. government guaranteed issues. When the Company invests in fixed maturity municipal securities, preference is given to issues that are pre-refunded and secured by U.S. treasury securities. The short-term investments are either U.S. government obligations, FDIC insured, or are in an institution with a Moody's rating of P2 and/or a Standard & Poor's rating of A1. All of the Company's fixed maturity investment securities are rated, readily marketable, and could be liquidated without any materially adverse financial impact.

On December 19, 2008, the Board of Directors authorized a stock repurchase program to acquire from time to time up to an aggregate of 500,000 shares of the Company's common stock. This program has no expiration date and may be terminated by the Board of Directors at any time. As of September 30, 2013, the Company had remaining authority under the 2008 program to repurchase up to an aggregate of 222,669 shares of its common stock. The 2008 program is the only program under which there is authority to repurchase shares of the Company's common stock. The Company did not repurchase any stock during the three and nine months ended September 30, 2013. The Company has or will retire all stock repurchased.

The Company reported \$2,984,800 net cash used by operating activities for the nine months ended September 30, 2013, an increase of \$988,412 (50%) compared to \$1,996,388 net cash used by operating activities for the nine months ended September 30, 2012. Cash flows can change from period to period depending largely on the amount and the timing of claims payments. The variability of the Company's losses and loss adjustment expenses is primarily due to its small population of claims which may result in greater fluctuations in claim frequency and/or severity. As of September 30, 2013, the Company had only 674 open claims. Although the Consolidated Statements of Cash Flows continue to reflect net cash used by operating activities, the Company does not anticipate future liquidity problems; and it continues well capitalized, and adequately reserved. As of September 30, 2013, all of the Company's

investments are in U.S. treasury securities, FDIC insured certificates of deposit and money market funds. The Company's investments in U.S treasury securities and money market funds are readily marketable. The weighted average maturity of the Company's investments is approximately 0.7 years.

Although material capital expenditures may also be funded through borrowings, the Company believes that its cash and short-term investments at September 30, 2013, net of statutory deposits of \$700,000, and California insurance company statutory dividend restrictions applicable to Crusader plus the cash to be generated from operations, should be sufficient to meet its operating requirements during the next twelve months without the necessity of borrowing funds. There were no trust restrictions on cash and short-term investments at September 30, 2013.

The increase in Property and Equipment, net, primarily relates to the purchase of property in Calabasas, California in the amount of \$9,000,000 on September 26, 2013. The total purchase price was \$9,500,000 and included a deferred asset of \$500,000 related to the in-place leases and is reflected in Other Assets. The acquisition cost of the property of \$106,505 was expensed. See Note 6 of Item I for the details of the purchase and discussion of the factors considered by management in its decision to purchase the property. The increase in other property and equipment located in Woodland Hills, California of \$587,487 (before depreciation and amortization) was primarily due to the costs incurred by the Company related to computer hardware and software systems: its new policy administration system, new general ledger system, new phone system, and the upgrading of its networks. The Company is currently implementing and configuring these systems. The Company depreciates and amortizes these costs as the systems become operational.

## **Results of Operations**

For the three and nine months ended September 30, 2013 compared to the three and nine months ended September 30, 2012, total revenues decreased by \$545,737 (7%) and \$1,434,741 (6%), income (loss) before taxes decreased by \$1,678,291 and \$2,207,892, and net income (loss) decreased by \$1,113,961 and \$1,512,563, respectively. The decrease in revenues was primarily due to a decrease in investment income of \$234,919 (77%) and \$1,058,281 (78%) and a decrease in earned premium of \$182,384 (3%) and \$230,809 (1%), respectively. The decrease in income before taxes was primarily due to the decrease in revenues as discussed above and due to an increase in total loss and loss adjustment expenses of \$1,193,644 (33%) and \$1,592,619 (14%) for the three and nine months ended September 30, 2013, respectively.

**Premium written** (before reinsurance) is a required statutory measure designed to determine written premium production levels. Direct written premium reported on the Company's statutory statement decreased \$323,229 (4%) to \$7,853,295 and decreased \$876,643 (4%) to \$24,037,406 for the three and nine months ended September 30, 2013, respectively, compared to \$8,176,524 and \$24,914,049 for the three and nine months ended September 30, 2012, respectively.

The decrease in written premium was primarily due to the termination of relations with certain specialty producers in the Company's Used Car Dealers and Towing programs and from management's continued emphasis on rate adequacy and underwriting discipline. The property casualty insurance marketplace continues to be intensely competitive. While Crusader attempts to meet such competition with competitive prices, its emphasis is on service, promotion, and distribution. Crusader believes that rate adequacy is more important than premium growth and that underwriting profit (net earned premium less losses and loss adjustment expenses and policy acquisition costs) is its primary goal. Nonetheless, Crusader believes that it can grow its sales and profitability by continuing to focus upon three areas of its operations: (1) product development, (2) improved service to retail brokers, and (3) appointment of captive and independent retail agents. In order to enhance service, the Company is currently implementing and configuring a new policy administration system that is primarily focused on transacting business through the internet, as well as providing more options to make the brokers' and agents' time more efficient. Crusader does not intend to substantially increase its number of appointed retail agents until the Company implements its new policy administration system.

**Premium earned** before reinsurance decreased \$186,659 (2%) and \$182,402 (1%) to \$8,046,383 and \$24,053,485 for the three and nine months ended September 30, 2013, respectively, compared to \$8,233,042 and \$24,235,887 for the three and nine months ended September 30, 2012, respectively. The Company writes annual policies and, therefore, earns written premium ratably over the one-year policy term.

Earned ceded premium decreased \$4,275 (less than 1%) to \$1,287,757 and increased \$48,407 (1%) to \$3,847,623 for the three and nine months ended September 30, 2013, respectively, compared to \$1,292,032 and \$3,799,216 for the

three and nine months ended September 30, 2012, respectively. Earned ceded premium as a percentage of direct earned premium was 16% for the three and nine months ended September 30, 2013 and 2012, respectively.

In calendar years 2013, 2012 and 2011 Crusader retained a participation in its excess of loss reinsurance treaties of 10% in its 1<sup>st</sup> layer (\$500,000 in excess of \$500,000), 5% in its 2<sup>nd</sup> layer (\$1,000,000 in excess of \$1,000,000), and 0% in its property and casualty clash treaty.

In calendar years 2010, 2009 and 2008 Crusader retained a participation in its excess of loss reinsurance treaties of 20% in its 1<sup>st</sup> layer (\$700,000 in excess of \$300,000), 15% in its 2<sup>nd</sup> layer (\$1,000,000 in excess of \$1,000,000), and 0% in its property and casualty clash treaty. In 2007 Crusader retained a participation in its excess of loss reinsurance treaties of 15% in its 1<sup>st</sup> layer (\$700,000 in excess of \$300,000), 15% in its 2<sup>nd</sup> layer (\$1,000,000 in excess of \$1,000,000), and 15% in its property clash treaty. In 2006 and 2005 Crusader retained a participation in its excess of loss reinsurance treaties of 10% in its 1<sup>st</sup> layer (\$700,000 in excess of \$300,000), 10% in its 2<sup>nd</sup> layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property clash treaty. In 2004 Crusader retained a participation in its excess of loss reinsurance treaties of 10% in its 1<sup>st</sup> layer (\$750,000 in excess of \$250,000), 10% in its 2<sup>nd</sup> layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property clash treaty. In 2003 Crusader retained a participation in its excess of loss reinsurance treaties of 5% in its 1<sup>st</sup> layer (\$750,000 in excess of \$250,000), 10% in its 2<sup>nd</sup> layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property clash treaty.

Crusader's 2006 1<sup>st</sup> layer primary excess of loss reinsurance treaty provides for a contingent commission equal to 20% of the net profit, if any, accruing to the reinsurer. The first accounting period for the contingent commission covers the period from January 1, 2006, through December 31, 2006. The 2005 excess of loss reinsurance treaties do not provide for a contingent commission. Crusader's 2004 and 2003 1<sup>st</sup> layer primary excess of loss reinsurance treaties provide for a contingent commission to the Company equal to 45% of the net profit, if any, accruing to the reinsurer. The first accounting period for the contingent commission covers the period from January 1, 2003, through December 31, 2004. For each accounting period as described above, the Company will calculate and report to the reinsurers its net profit (excluding incurred but not reported losses), if any, within 90 days after 36 months following the end of the first accounting period, and within 90 days after the end of each 12-month period thereafter until all losses subject to the agreement have been finally settled. Any contingent commission received is subject to return based on future development of ceded losses and loss adjustment expenses. As of September 30, 2013, the Company has received a total net contingent commission of \$3,647,706 for the years subject to contingent commission. Of this amount, the Company has recognized \$3,572,009 of contingent commission income, of which \$29,566 and \$286,152 was recognized in the three and nine months ended September 30, 2013, respectively. The remaining balance of the net payments received of \$75,697 is currently unearned and included in "Accrued Expenses and Other Liabilities" in the consolidated balance sheets. The unearned contingent commission may be subsequently earned or returned to the reinsurer depending on the future development of the ceded IBNR for the years subject to contingent commission. The 2007 through 2013 excess of loss reinsurance treaties do not provide for a contingent commission.

The Company evaluates each of its ceded reinsurance contracts at its inception to determine if there is a sufficient risk transfer to allow the contract to be accounted for as reinsurance under current accounting literature. As of September 30, 2013, all such ceded contracts are accounted for as risk transfer reinsurance.

Crusader's direct, ceded and net earned premium are as follows:

	Three Months Ended September 30			Nine Months Ended September 30		
	<u>2013</u>	<u>2012</u>	(Decrease)	<u>2013</u>	<u>2012</u>	(Decrease)
Direct earned premium	\$8,046,383	\$8,233,042	\$(186,659)	\$24,053,485	\$24,235,887	\$(182,402)
Earned ceded premium	1,287,757	1,292,032	(4,275)	3,847,623	3,799,216	48,407
Net earned premium	\$6,758,626	\$6,941,010	\$(182,384)	\$20,205,862	\$20,436,671	\$(230,809)
Ratio of earned ceded premium to direct earned premium	16	% 16	%	16	% 16	%

**Investment income** decreased \$234,919 (77%) and \$1,058,281 (78%) to \$68,622 and \$301,729 for the three and nine months ended September 30, 2013, respectively, compared to \$303,541 and \$1,360,010 for the three and nine months ended September 30, 2012, respectively. The Company had no realized gains or losses for the three and nine months ended September 30, 2013 and 2012. The decrease in investment income is primarily a result of a decrease in invested assets and a decrease in the rate of return on those invested assets. The Company's annualized weighted average investment yield on its fixed maturity obligations decreased to 0.2% and 0.4% for the three and nine months ended September 30, 2013, respectively, compared to 1.0% and 1.4% for the three and nine months ended September 30, 2012, respectively. The decrease in the annualized yield on average invested assets is primarily a result of the short duration of the Company's investments and lower yields in the marketplace on both new and reinvested assets.

Investment income and average annualized yields on the Company's average invested assets are as follows:

	Three Months Ended		Nine Months Ended	
	<u>September 30</u> 2013	2012	<u>September 30</u> 2013	2012
Average invested assets* - at amortized cost	\$ 112,817,399	\$ 124,323,946	\$ 113,410,316	\$ 126,293,796
Interest income				
Insurance company operations	\$ 68,450	\$ 303,234	\$ 300,613	\$ 1,359,260
Other operations	172	307	1,116	750
Total investment income and realized gains	\$ 68,622	\$ 303,541	\$ 301,729	\$ 1,360,010
Annualized yield on average invested assets	0.2	% 1.0	% 0.4	% 1.4

\*The average is based on the beginning and ending balance of the amortized cost of the invested assets.

The par value, amortized cost, estimated market value and weighted average yield of fixed maturity investments at September 30, 2013, by contractual maturity are as follows. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without penalties.

Maturities by	Par			Weighted	
<u>Calendar Year</u>	<u>Value</u>	<u>Amortized Cost</u>	<u>Fair Value</u>	<u>Average Yield</u>	
December 31, 2013	\$8,099,000	\$8,099,000	\$8,101,170	0.3	%
December 31, 2014	1,950,000	1,950,000	1,950,000	0.5	%
December 31, 2015	3,299,000	3,299,000	3,299,000	0.5	%
December 31, 2016	350,000	350,000	350,000	1.1	%
December 31, 2018	100,000	100,353	97,884	0.7	%
Total	\$13,798,000	\$13,798,353	\$13,798,054	0.4	%

The weighted average maturity of the Company's fixed maturity investments was 0.7 years as of September 30, 2013, and 2012. Due to the current interest rate environment, management believes it is prudent to purchase fixed maturity investments with maturities of five years or less and with minimal credit risk.

As of September 30, 2013, the Company held fixed maturity investments with unrealized appreciation of \$2,170 and held one fixed maturity investment with unrealized depreciation of \$2,469 for a continuous period of less than nine months. As of September 30, 2012, the Company held fixed maturity investments with unrealized appreciation of \$297,451 and held no fixed maturity investments with unrealized depreciation. The Company monitors its investments closely. If an unrealized loss is determined to be other-than-temporary, it is written off as a realized loss through the Consolidated Statements of Operations. The Company's methodology of assessing other-than-temporary impairments is based on security-specific analysis as of the balance sheet date and considers various factors including the length of time to maturity and the extent to which the fair value has been less than the cost, the financial condition and the near-term prospects of the issuer, and whether the debtor is current on its contractually obligated interest and principal payments. The Company does not have the intent to sell its fixed maturity investments and it is not likely that the Company would be required to sell any of its fixed maturity investments prior to recovery of its amortized costs. The Company did not sell any fixed maturity investments in the three months ended September 30, 2013 and 2012.

**Other Income** included in Insurance Company Revenues decreased \$100,191 (71%) and \$116,767 (27%) to \$40,955 and \$321,121 for the three and nine months ended September 30, 2013, respectively, compared to \$141,146 and \$437,888 for the three and nine months ended September 30, 2012, respectively. Fluctuations in other income included in Insurance Company Revenues in any given period are primarily related to the change in the amount of contingent commission recognized during any given period. The Company recognized \$29,566 and \$286,152 of contingent commission during the three and nine months ended September 30, 2013, respectively, compared to \$133,600 and \$403,320 recognized during the three and nine months ended September 30, 2012, respectively.

**Gross commissions and fees** decreased \$42,415 (5%) and \$45,735 (2%) to \$778,314 and \$2,490,227 for the three and nine months ended September 30, 2013, respectively, compared to \$820,729 and \$2,535,962 for the three and nine months ended September 30, 2012, respectively.

Edgar Filing: UNICO AMERICAN CORP - Form 10-Q

The increases and (decreases) in gross commission and fee income for the three and nine months ended September 30, 2013, as compared to the three and nine months ended September 30, 2012, are as follows:

	Three Months Ended September 30			Nine Months Ended September 30		
	2013	2012	Increase (Decrease)	2013	2012	Increase (Decrease)
Policy fee income	\$419,566	\$442,984	\$(23,418)	\$1,273,585	\$1,335,801	\$(62,216)
Health insurance program	294,056	285,566	8,490	937,918	874,723	63,195
Membership and fee income	28,286	33,645	(5,359)	87,669	103,249	(15,580)
Daily automobile rental insurance program:						
Commission income (excluding contingent commission)	36,406	58,534	(22,128)	132,310	180,970	(48,660)
Contingent commission	—	—	—	58,745	41,219	17,526
Total	\$778,314	\$820,729	\$(42,415)	\$2,490,227	\$2,535,962	\$(45,735)

Unifax primarily sells and services insurance policies for Crusader. The commissions paid by Crusader to Unifax are eliminated as intercompany transactions and are not reflected as income in the financial statements. Unifax also receives non-refundable policy fee income that is directly related to the Crusader policies it sells. For financial reporting purposes, policy fees are earned ratably over the life of the related insurance policy. The unearned portion of the policy fee is recorded as a liability on the balance sheet under "Accrued Expenses and Other Liabilities." Policy fee income decreased \$23,418 (5%) and \$62,216 (5%) in the three and nine months ended September 30, 2013, respectively, compared to the three and nine months ended September 30, 2012. The decrease in policy fee income is due to a decrease in policies issued in the current amortization period as compared to the prior year amortization period.

American Insurance Brokers, Inc. (AIB), a subsidiary of the Company, markets health insurance in California through non-affiliated insurance companies for individuals and groups. For these services, AIB receives commission based on the premiums that it writes. Commission income increased \$8,490 (3%) and increased \$63,195 (7%) in the three and nine months ended September 30, 2013, respectively, compared to the three and nine months ended September 30, 2012.

The Company's subsidiary Insurance Club, Inc., dba AAQHC An Administrator (AAQHC), is a third party administrator for contracted insurance companies and is a membership association that provides various consumer benefits to its members, including participation in group health care insurance policies that AAQHC negotiates for the association. For these services, AAQHC receives membership and fee income from its members. Membership and fee income decreased \$5,359 (16%) and \$15,580 (15%) for the three and nine months ended September 30, 2013, respectively, compared to the three and nine months ended September 30, 2012. This decrease is primarily a result of a decrease of 16% in the number of association members enrolled in AAQHC during the three months and a 16% decrease in the nine months ended September 30, 2013, compared to the number of association members enrolled during the three and nine months ended September 30, 2012.

The daily automobile rental insurance program is produced by Bedford Insurance Services, Inc. (Bedford), a wholly owned subsidiary of the Company. Bedford receives commission from non-affiliated insurance companies based on premium written. Bedford no longer writes new business for the non-affiliated insurance company it previously represented as a general agent. Bedford entered into a Producer Agreement effective June 1, 2013, with a non-affiliated group of insurance companies. Under this agreement, Bedford has the authority to solicit and refer to these companies its daily automobile rental insurance policy submissions. Bedford does not have the authority to bind any risk or commit to any course of action without first requesting their prior written permission. For its services, Bedford receives a commission. Commission in the daily automobile rental insurance program (excluding contingent commission) decreased \$22,128 (38%) and \$48,660 (27%) for the three and nine months ended September 30, 2013, respectively, compared to the three and nine months ended September 30, 2012. The decrease in commission income in the three and nine months ended September 30, 2013, is primarily due to a continued decline in premiums written in this program from the non-affiliated insurance companies that it previously represented as a general agent.

**Finance charges and fees earned** by the Company's premium finance subsidiary, American Acceptance Corporation (AAC), increased \$703 (4%) and \$5,663 (11%) to \$19,206 and \$56,531 for the three and nine months ended September 30, 2013, respectively, compared to \$18,503 and \$50,868 for the three and nine months ended September 30, 2012. The increase in fees earned during for the three and nine months ended September 30, 2013 period is a result of an increase in the number of loans issued and outstanding in the current periods compared to the prior year periods. AAC only provides premium financing for Crusader policies produced by Unifax in California. AAC reduced the interest rate charged on premiums financed to 0% beginning July 20, 2010 and, therefore, did not earn any finance charges during the nine months ended September 30, 2013 and 2012. This reduction in the interest rate charged was initiated in an effort to increase the sales of existing renewal and new business written by Unifax for Crusader. Due to the low interest rate environment, the cost of money to provide this incentive is not material. The Company monitors the cost of providing this incentive and depending on the cost/benefit determination, can continue to offer it or withdraw it at any time.

**Losses and loss adjustment expenses** were 71% and 65% of net premium earned for the three and nine months ended September 30, 2013, respectively, compared to 51% and 57% of net premium earned for the three and nine months ended September 30, 2012, respectively.

Losses and loss adjustment expenses and loss ratios are as follows:

	Three Months Ended September 30			
	<u>2013</u>	<u>2012</u>	<u>Increase (Decrease)</u>	
Net earned premium	\$6,758,626	\$6,941,010	\$(182,384 )	
Net losses and loss adjustment expenses				
Provision for insured events of current accident year	5,997,260	4,597,500	1,399,760	
Decrease in provision for insured events of prior accident years	1,231,644	1,025,528	206,116	
Total net losses and loss adjustment expenses	\$4,765,616	\$3,571,972	\$1,193,644	
Calendar year loss ratio	71	% 51	%	
	Nine Months Ended September 30			
	<u>2013</u>	<u>2012</u>	<u>Increase (Decrease)</u>	
Net earned premium	\$20,205,862	\$20,436,671	\$(230,809 )	
Net losses and loss adjustment expenses				
Provision for insured events of current accident year	16,568,055	15,259,868	1,308,187	
Decrease in provision for insured events of prior accident years	3,355,253	3,639,685	(284,432 )	
Total net losses and loss adjustment expenses	\$13,212,802	\$11,620,183	\$1,592,619	
Calendar year loss ratio	65	% 57	%	

The loss and loss adjustment expense provision for insured events of the current accident year incurred in the three and nine months ended September 30, 2013, increased \$1,399,760 and \$1,308,187 compared to the three and nine months ended September 30, 2012, respectively, primarily due to an increase in large property losses. In the quarter ending September 30, 2013, the Company incurred a fire loss that affected a restaurant and a building, both insured by separate policies issued by the Company to separate customers. This event resulted in the Company incurring two retentions from its reinsurers on its working layer treaties. Such an event has never before occurred in the history of the Company. The Company's Catastrophe treaties were not utilized because the combined total loss did not significantly exceed the Catastrophe treaty's retention. The total net incurred loss and loss adjustment expense in that fire loss was \$1,001,450 in the three months ended September 30, 2013. The Company is currently reviewing its risk management policies and working with its reinsurers to better protect it from a possible repeat of this type of event.

A decrease in the loss and loss adjustment expense provision for insured events of prior accident years represents favorable development. As indicated in the above table, the favorable development increased \$206,116 in the three months ended September 30, 2013 and decreased \$284,432 in the nine months ended September 30, 2013 compared to the prior year periods. The decrease in favorable development in the nine months ended September 30, 2013, includes unusual adverse development of property claims that occurred in December 2012.

The preparation of the Company's consolidated financial statements requires judgments and estimates. The most significant is the estimate of loss and loss adjustment expense reserves. At the end of each fiscal quarter, the Company's unpaid claims costs (reserves) for each accident year (i.e., for all claims incurred within each year) are re-evaluated independently by the Company's president, by the Company's chief financial officer, and by an independent consulting actuary. Generally accepted actuarial methods including the widely used Bornhuetter-Ferguson and loss development methods are employed to estimate ultimate claims costs. Estimates are based on a variety of industry data and on the Company's current and historical accident year claims data, including but not limited to reported claim counts, open claim counts, closed claim counts, closed claim counts with payments, paid losses, paid loss adjustment expenses, case loss reserves, case loss adjustment expense reserves, earned premiums and policy exposures, salvage and subrogation, and unallocated loss adjustment expenses paid. Many other factors, including changes in reinsurance, changes in pricing, changes in policy forms and coverage, changes in underwriting and risk selection, legislative changes, results of litigation and inflation are also taken into account.

An actuarial central estimate of the ultimate claims costs and IBNR reserves is determined by management and tested for reasonableness by an independent consulting actuary. In addition to applying the various standard methods to the data, an extensive series of diagnostic tests are applied to the resultant reserve estimates to assist management in assessing the propriety of the actuarial central estimates of the unpaid claims liability recorded on its financial records. Among the statistics reviewed for each accident year are loss and loss adjustment expense development patterns, frequencies (expected claim counts), severities (average cost per claim), loss and loss adjustment expense ratios to premium, and loss adjustment expense ratios to loss. When there is clear evidence that the actual claims costs emerged are different than expected for any accident year, the claims cost estimates for that accident year are revised accordingly.

The establishment of loss and loss adjustment expense reserves is a difficult process as there are many factors that can ultimately affect the final settlement of a claim and, therefore, the reserve that is needed. Due to the inherent uncertainties in estimating the Company's unpaid claims costs, actual loss and loss adjustment expense payments are expected to vary, perhaps significantly, from any estimate made prior to the settling of all claims. Uncertainty is inherent in establishing loss and loss adjustment expense reserves, especially for a relatively small insurer like the Company. For any given line of insurance, accident year, or other group of claims, there is a continuum of possible reserve estimates, each having its own unique degree of propriety or reasonableness. Due to the complexity and nature of the insurance claims process, there are potentially an infinite number of reasonably likely scenarios. The Company does not specifically identify reasonably likely alternative scenarios other than management's best estimate.

**Policy acquisition costs** consist of commissions, premium taxes, inspection fees, and certain other underwriting costs, which are related to the production of Crusader insurance policies. These costs include both Crusader expenses and the allocated expenses of other Unico subsidiaries. Crusader's reinsurers pay Crusader a ceding commission, which is primarily a reimbursement of the acquisition cost related to the ceded premium. Policy acquisition costs, net of ceding commission, are deferred and amortized as the related premiums are earned. These costs were approximately 22% and 23% of net premium earned for the three and nine months ended September 30, 2013, respectively, compared to 24% and 25% of net premium earned for the three and nine months ended September 30, 2012, respectively.

Current and prior year policy acquisition costs were affected by the implementation of FASB ASU 2010-26 during the three months ended March 31, 2012. The implementation reduced the acquisition costs available to be capitalized and deferred beginning in 2012. The primary policy acquisition costs affected were salary and salary related costs. The effect of a reduced deferred policy acquisition balance is a reduction of policy acquisition costs charged to expense.

Policy acquisition costs and the ratio to net earned premium are as follows:

	Three Months Ended September 30			Nine Months Ended September 30		
	<u>2013</u>	<u>2012</u>	(Decrease)	<u>2013</u>	<u>2012</u>	(Decrease)
Policy acquisition costs	\$1,538,087	\$1,659,945	\$(121,858)	\$4,515,924	\$5,128,473	\$(612,549)
Ratio to net earned premium (GAAP ratio)	23	% 24	%	22	% 25	%

**Salaries and employee benefits** decreased \$24,948 (2%) and \$140,032 (4%) to \$1,227,619 and \$3,777,242 for the three and nine months ended September 30, 2013, respectively, compared to salary and employee benefits of \$1,252,567 and \$3,917,274 for the three and nine months ended September 30, 2012, respectively. The decrease in salaries and benefits is primarily a result of a reduction in employee benefit costs of approximately \$24,000 for the three months and \$97,000 for the nine months ended September 30, 2013.

Salaries and employee benefits incurred and charged to operating expenses are as follows:

	Three Months Ended September 30		
			Increase
	<u>2013</u>	<u>2012</u>	<u>(Decrease)</u>
Total salaries and employee benefits incurred	\$1,815,684	\$1,809,354	\$6,330
Less: charged to losses and loss adjustment expenses	(246,042 )	(206,429 )	(39,613 )
Less: capitalized to policy acquisition costs	(342,023 )	(350,358 )	8,335
Net Amount Charged to Operating Expenses	\$1,227,619	\$1,252,567	\$(24,948 )

21 of 24

	Nine Months Ended September 30		
			Increase
	<u>2013</u>	<u>2012</u>	<u>(Decrease)</u>
Total salaries and employee benefits incurred	\$5,444,226	\$5,552,564	\$(108,338)
Less: charged to losses and loss adjustment expenses	(642,165 )	(589,768 )	(52,397 )
Less: capitalized to policy acquisition costs	(1,024,819)	(1,045,522)	20,703
Net Amount Charged to Operating Expenses	\$3,777,242	\$3,917,274	\$(140,032)

**Commissions to agents/brokers** decreased \$3,745 (6%) to \$55,481, and increased \$2,538 (1%) to \$178,329 for the three and nine months ended September 30, 2013, respectively, compared to \$59,226 and \$175,791 for the three and nine months ended September 30, 2012. The fluctuation in commission expense is related to the mix of business written in the health insurance program that resulted in commissions paid to agents and brokers producing the business for that program. Commission income in the life and health insurance program has increased approximately 3% and 7% for the three and nine months ended September 30, 2013.

**Other operating expenses** increased \$89,461 (16%) to \$639,786 and decreased \$69,425 (4%) to \$1,813,060 for the three and nine months ended September 30, 2013, respectively, compared to \$550,325 and \$1,882,485 for the three and nine months ended September 30, 2012, respectively. The increase in other operating expenses in the three months ended September 30, 2013, compared to the three months ended September 30, 2012, was primarily due to the acquisition costs of \$106,505 related to the new building purchase that were expensed as incurred. The decrease in other operating expenses in the nine months ended September 30, 2013, when compared to the nine months ended September 30, 2012, were primarily due to a decrease in rent expense as a result of a new lease agreement the Company signed for its corporate headquarters that became effective April 1, 2012, and due to fees paid to the California Department of Insurance which were primarily related to the tri-annual financial examination of Crusader that was ongoing in 2012. These decreases were partially offset by increases depreciation and amortization related to the tenant improvements incurred to relocate staff at the current headquarters and the expenses of the new building acquisition costs.

**Income tax provision** was a benefit of \$175,496 (32% of pre-tax loss) and an expense of \$8,210 (8% of pre-tax loss) for the three and nine months ended September 30, 2013, respectively, compared to an income tax expense of \$388,834 (34% of pre-tax income) and \$703,539 (33% of pre-tax income) for the three and nine months ended September 30, 2012, respectively. The decrease in the effective tax rate for the nine months ended September 30, 2013, compared to the nine months ended September 30, 2012, was primarily the result of providing a state income tax valuation allowance against the current operating results of the Company's non-insurance subsidiaries.

## Forward Looking Statements

Certain statements contained herein, including the sections entitled “Business,” “Legal Proceedings” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” that are not historical facts are forward looking. These statements, which may be identified by forward looking words or phrases such as “anticipate,” “appear,” “believe,” “estimate,” “expect,” “intend,” “may,” “plan,” “should,” and “would” involve risks and uncertainties, many of which are beyond the control of the Company. Such risks and uncertainties could cause actual results to differ materially from these forward looking statements. Factors which could cause actual results to differ materially include: underwriting or marketing actions not being effective; rate increases for coverages not being sufficient; premium rate adequacy relating to competition or regulation; actual versus estimated claim experience; the outcome of rate change filings with regulatory authorities; acceptance by insureds of rate changes; adequacy of rate changes; changes in Crusader’s A.M. Best rating; regulatory changes or developments; the outcome of regulatory proceedings; unforeseen calamities; general market conditions; and the Company’s ability to introduce new profitable products.

### ITEM 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company’s consolidated balance sheet includes a substantial amount of invested assets whose fair values are subject to various market risk exposures including interest rate risk and equity price risk.

The Company's invested assets consist of the following:

	September 30	December 31	Increase
	<u>2013</u>	<u>2012</u>	<u>(Decrease)</u>
Fixed maturity bonds (at amortized value)	\$7,100,353	\$23,354,211	\$(16,253,858)
Short-term cash investments (at cost)	93,321,820	86,256,249	7,065,571
Certificates of deposit - over 1 year (at cost)	6,698,000	10,090,000	(3,392,000 )
Total Invested Assets	\$107,120,173	\$119,700,460	\$(12,580,287)

There have been no material changes in the composition of the Company's invested assets or market risk exposures since the end of the preceding fiscal year end.

#### ITEM 4 – CONTROLS AND PROCEDURES

An evaluation was carried out by the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of September 30, 2013, as defined in Rule 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective.

During the period covered by this report, there has been no change in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or 15d-15 under the Securities Exchange Act of 1934 that has materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.

## **PART II - OTHER INFORMATION**

### **ITEM 1A – RISK FACTORS**

There were no material changes from risk factors as previously disclosed in the Company's Form 10-K for the year ended December 31, 2012, in response to Item 1A to Part I of Form 10-K.

### **ITEM 6 – EXHIBITS**
