### NOTE 6 - COMMITMENTS

On June 28, 2000, the Company entered into a Sino-Foreign Cooperative Joint Venture Contract to establish a joint venture named Capital Entertainment Company Limited. The Company holds 50% of the Joint Venture's registered capital. The Joint Venture will be responsible for constructing and managing a series of entertainment websites, including "estage" and "TalkShow". For its share of the equity, the Company, via its Entertainment subsidiary, will contribute \$10,000,000 in several installments, which may be in the form of cash, technology and/or equipment. Of this amount, \$660,000 already has been invested. The specific date of each installment will be determined by the needs of the project, provided that a total of \$2,000,000 is contributed within 30 days after the issuance of the Joint Venture's business license. A second installment of \$3,000,000 will be due within 90 days after the issuance of the business license, and the final installment of \$5,000,000 will be due by January 31, 2001. Entertainment presently is in technical default in the timing of its payment obligations, but expects to remedy the situation in due course by way of either a renegotiation of the Joint Venture agreement, or by withdrawing from participation.

Pursuant to an agreement dated June 15, 2000 between SNet Communications (HK) Limited ("SNet") and Bancorp, the Company has issued 500,000 shares of common stock valued at \$4 per share to SNet and will pay \$700,000 to SNet. Upon completion of the entertainment websites to be owned by the Joint Venture, the Company will issue 250,000 shares of the Company's common stock to SNet. Upon obtaining the necessary license to operate talk show programs, the Company will issue 250,000 shares of the Company's common stock to SNet. To date, the Company has issued the 500,000 shares discussed above to SNet, valued at \$4 per share.

## Edgar Filing: CATHAYONE INC - Form 10KSB

In the event that the Joint Venture is canceled, or the agreement is renegotiated, then the further obligations of the company to SNet will either be greatly reduced or eliminated.

Pursuant to a joint venture contract dated April 22, 2000, CMD agreed to establish a joint venture for the purpose of establishing an investment information portal in China, with a version to be created for Hong Kong. For its share of the equity, the Company will contribute \$3,000,000. CMD will hold 70% of the joint venture's registered capital. The contributions will be determined by the needs of the project provided that for the China portal, \$100,000 was paid within 10 working days after execution of the contract, \$700,000 must be paid within 22 days of obtaining a business license, which includes the first \$100,000, \$1,400,000 must be paid within 140 days after the launch of the website and \$900,000 must be paid within 280 working days after receipt of a business license. Pursuant to a cooperation agreement dated April 22, 2000, CMD will contribute \$2,000,000 to the Hong Kong version of the PRC Website, of which \$100,000 must be paid within 10 days after the agreement takes effect and of which \$600,000 must be paid within 22 working days after the agreement takes effect (this amount includes the initial \$100,000). \$600,000 must be paid within 70 working days and \$800,000 within 140 working days after the official publication of the Hong Kong version. This project along with funding is on hold and will remain on hold until either funding is developed for the project or the project is sold.

### Company Overview

CathayOne Inc. (the "Company") is a publicly traded Delaware corporation whose purpose is to develop a foreign entertainment content as well as provide foreign entertainment into China and its greater China Region. While the Company is located in the United States, the Company has positioned itself to take advantage of the appetite for foreign entertainment content and foreign entertainment in China.

The Company's principal objective is to maximize shareholder value. Management believes that the best returns for investments in the next decade will be in the People's Republic of China, Hong Kong, Macao and Taiwan (collectively, "Greater China"). The Greater China market is increasingly looking outward in its appetite for foreign content entertainment, as well as in its utilization of Internet applications. The Company believes it can capitalize on the growth in information technology, and will initially focus on developing companies in the following markets: entertainment, including music, theater and sporting events; business-to-government-to-business e-commerce.

It seeks well-managed entities with existing revenue flows and either existing cash flow or the likelihood of achieving positive cash flow over the short term. The Company may take an active role in providing guidance and introducing strategic relationships and, in certain circumstances, may take an active role in the management of the companies in which it invests.

The Company will provide its North American expertise in management, entertainment contacts, and financial acumen to its joint venture operations in China. As the Company matures, it will seek to enhance value and liquidity for its shareholders.

Though the Company still strongly believes in the afore-referenced, the recent downturn in both the traditional and non-traditional capital markets has forced the Company to suspend various development activities and actively seek to restructure the company from cost, administration, and direction perspectives. Though the Company is placing its various ventures and activities on hold, the company is pursuing through its previous efforts related to entertainment ventures, opportunities to produce entertainment projects which are intended to provide a dramatic short-term ROI. Once funds are provided, either by the capital markets or internal generation, the Company will re-address the currently suspended projects and then re-activate them on an ROI basis.

### Results of Operations

General and administrative expenses for the period of March 1, 2000 to December 31, 2000 were \$1,433,368.

## Edgar Filing: CATHAYONE INC - Form 10KSB

### Liquidity and Capital Resources

On December 31, 2000, the Company had cash of \$ 63,772 and a working capital deficit of \$ 1,839,166. Factors attributable to the increase in the working capital deficit include an increase in the Company's accounts payable and an increase in accrued expenses. Net cash provided by operating activities was \$ 997,228 for the period of March 1, 2000 (Inception) to December 31, 2000. Cash used in investing activities totaled \$ 934,056 due to the Company's initial investment in an unrelated foreign entity. Cash provided by financing activities totaled \$ 500,000 for the period of March 1, 2000 (Inception) to December 31, 2000 due to the issuance of common stock. Due to the development of the Company and the proposed commitments as outlined in the preceding notes, the Company will require additional cash funds within the next twelve months. The Company proposes to accomplish this through various debt and equity placements. If the Company fails to raise capital, it would materially and adversely affect the Company.
