

NAUTILUS, INC.
Form 10-Q
August 06, 2015

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended June 30, 2015

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission file number: 001-31321

NAUTILUS, INC.
(Exact name of Registrant as specified in its
charter)

Washington
(State or other jurisdiction of
incorporation or organization)

94-3002667
(I.R.S. Employer
Identification No.)

17750 S.E. 6th Way
Vancouver, Washington 98683
(Address of principal executive offices, including zip code)

(360) 859-2900
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T

Edgar Filing: NAUTILUS, INC. - Form 10-Q

(§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act:

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

(do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

The number of shares outstanding of the registrant's common stock as of July 31, 2015 was 31,552,269 shares.

NAUTILUS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) GENERAL INFORMATION

Basis of Consolidation and Presentation

The accompanying condensed consolidated financial statements present the financial position, results of operations and cash flows of Nautilus, Inc. and its subsidiaries, all of which are wholly owned. Intercompany transactions and balances have been eliminated in consolidation.

The accompanying condensed consolidated financial statements have not been audited. We have condensed or omitted certain information and footnote disclosures normally included in financial statements presented in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). Management believes the disclosures contained herein are adequate to make the information presented not misleading. However, these condensed consolidated financial statements should be read in conjunction with our consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2014 (the “2014 Form 10-K”).

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Further information regarding significant estimates can be found in our 2014 Form 10-K.

In the opinion of management, the accompanying condensed consolidated financial statements reflect all adjustments necessary to present fairly our financial position as of June 30, 2015 and December 31, 2014, and our results of operations, comprehensive income and cash flows for the three and six months ended June 30, 2015 and 2014. Interim results are not necessarily indicative of results for a full year. Our revenues typically vary seasonally and this seasonality can have a significant effect on operating results, inventory levels and working capital needs.

Unless indicated otherwise, all information regarding our operating results pertain to our continuing operations.

New Accounting Pronouncements

ASU 2015-11

In July 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-11, “Simplifying the Measurement of Inventory (Topic 330).” ASU 2015-11 simplifies the accounting for the valuation of all inventory not accounted for using the last-in, first-out (“LIFO”) method by prescribing inventory be valued at the lower of cost and net realizable value. ASU 2015-11 is effective for public companies' annual periods, including interim periods within those fiscal years, beginning after December 15, 2016 on a prospective basis. Early adoption is permitted. We do not expect the adoption of ASU 2015-11 to have a material effect on our financial position, results of operations or cash flows.

ASU 2015-05

In April 2015, the FASB issued ASU 2015-05, “Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40).” ASU 2015-05 provides guidance regarding the accounting for a customer's fees paid in a cloud computing arrangement; specifically about whether a cloud computing arrangement includes a software license, and if so, how to account for the software license. ASU 2015-05 is effective for public companies' annual periods, including interim periods, beginning after December 15, 2015. Early adoption is permitted. We do not expect the adoption of ASU

2015-05 to have a material effect on our financial position, results of operations or cash flows.

ASU 2015-03

In April 2015, the FASB issued ASU 2015-03, "Interest - Imputation of Interest (Subtopic 835-30)." ASU 2015-03 simplifies the presentation of debt issuance costs. ASU 2015-03 is effective for public company financial statements issued for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted for financial statements that have not been previously issued. We do not expect the adoption of ASU 2015-03 to have any effect on our financial position, results of operations or cash flows.

ASU 2015-02

In February 2015, the FASB issued ASU 2015-02, "Consolidation (Topic 810)." ASU 2015-02 amends guidance regarding the consolidation of certain legal entities. ASU 2015-02 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015, with early adoption permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. We do not expect the adoption of ASU 2015-02 to have any effect on our financial position, results of operations or cash flows.

ASU 2014-12

In June 2014, the FASB issued ASU No. 2014-12, "Compensation - Stock Compensation (Topic 718)". ASU No. 2014-12 addresses accounting for share-based payments when the terms of an award provide that a performance target could be achieved after the requisite service period. ASU 2014-12 indicates that, in such situations, the performance target should be treated as a performance condition and, accordingly, the performance target should not be reflected in estimating the grant-date fair value of the award. Instead, compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved. ASU 2014-12 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. We do not expect the adoption of ASU 2014-12 to have a material effect on our financial position, results of operations or cash flows.

ASU 2014-09

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers." ASU 2014-09 clarifies the principles for recognizing revenue and develops a common revenue standard for U.S. GAAP and the International Accounting Standards Board that:

- removes inconsistencies and weaknesses in revenue requirements;
- provides a more robust framework for addressing revenue issues;
- improves comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets;
- provides more useful information to users of financial statements through improved disclosure requirements; and
- simplifies the preparation of financial statements by reducing the number of requirements to which an entity must refer.

ASU 2014-09 is effective, as amended, for annual and interim periods beginning on or after December 15, 2017. While we do not expect the adoption of ASU 2014-09 to have a material effect on our business, we are still evaluating any potential impact that adoption of ASU 2014-09 may have on our financial position, results of operations or cash flows.

ASU 2014-08

In April 2014, the FASB issued ASU No. 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) and Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU 2014-08 amends the definition for what types of asset disposals are to be considered discontinued operations, and amends the required disclosures for discontinued operations and assets held for sale. ASU 2014-08 also enhances the convergence of the FASB's and the International Accounting Standard Board's reporting requirements for discontinued operations. ASU 2014-08 is effective for annual periods beginning on or after December 15, 2014, and interim periods within annual periods beginning on or after December 15, 2015. We do not expect the adoption of ASU 2014-08 to have a material effect on our financial position, results of operations or cash flows.

(2) DISCONTINUED OPERATIONS

There was no revenue related to discontinued operations for the six months ended June 30, 2015 or the year ended December 31, 2014. However, we continue to have legal and accounting expenses as we work with authorities on final deregistration of certain foreign entities and product liability expenses associated with product previously sold into the Commercial channel.

The following table summarizes liabilities for exit costs related to discontinued operations, included in accrued liabilities and other long-term liabilities in our Condensed Consolidated Balance Sheets (in thousands):

	Facilities Leases	
Balance, December 31, 2014	\$573	
Payments	(134)
Balance, June 30, 2015	\$439	

We expect the lease obligations to be paid out through 2016.

7

(3) FAIR VALUE MEASUREMENTS

Factors used in determining the fair value of financial assets and liabilities are summarized into three broad categories:

Level 1 - observable inputs such as quoted prices (unadjusted) in active liquid markets for identical securities as of the reporting date;

Level 2 - other significant directly or indirectly observable inputs, including quoted prices for similar securities, interest rates, prepayment speeds and credit risk; or observable market prices in markets with insufficient volume and/or infrequent transactions; and

Level 3 - significant inputs that are generally unobservable inputs for which there is little or no market data available, including our own assumptions in determining fair value.

Assets measured at fair value on a recurring basis as of June 30, 2015 and December 31, 2014 were as follows (in thousands):

	June 30, 2015			Total
	Level 1	Level 2	Level 3	
Cash Equivalents				
Money market funds	\$17,083	\$—	\$—	\$17,083
Commercial paper	—	6,498	—	6,498
Corporate bonds	—	6,037	—	6,037
Total cash equivalents	17,083	12,535	—	29,618
Available-for-Sale Securities				
Certificates of deposit ⁽¹⁾	—	24,523	—	24,523
Commercial paper	—	2,999	—	2,999
Corporate bonds	—	22,226	—	22,226
Total available-for-sale securities	—	49,748	—	49,748
Total assets measured at fair value	\$17,083	\$62,283	\$—	\$79,366

⁽¹⁾ All certificates of deposit are within current FDIC insurance limits.

	December 31, 2014			Total
	Level 1	Level 2	Level 3	
Cash Equivalents				
Money market funds	\$2,591	\$—	\$—	\$2,591
Certificates of deposit ⁽¹⁾	—	980	—	980
Commercial paper	—	12,497	—	12,497
Variable rate demand notes	—	8,000	—	8,000
Total cash equivalents	2,591	21,477	—	24,068
Available-for-Sale Securities				
Certificates of deposit ⁽¹⁾	—	14,202	—	14,202
Corporate bonds	—	12,782	—	12,782
Total available-for-sale securities	—	26,984	—	26,984
Total assets measured at fair value	\$2,591	\$48,461	\$—	\$51,052

⁽¹⁾ All certificates of deposit are within current FDIC insurance limits.

We did not have any liabilities measured at fair value on a recurring basis as of June 30, 2015 or December 31, 2014.

We recognize transfers between levels at the actual date of the event or change in circumstance that caused the transfer. There were no transfers between levels during the six months ended June 30, 2015, nor for the year ended December 31, 2014.

We did not have any changes to our valuation techniques during the six months ended June 30, 2015, nor for the year ended December 31, 2014.

We classify our marketable securities as available-for-sale and, accordingly, record them at fair value. Level 1 investment valuations are obtained from real-time quotes for transactions in active exchange markets involving identical assets. Level 2 investment valuations are obtained from inputs, other than quoted market prices in active markets, that are directly or indirectly observable in the marketplace and quoted prices in markets with limited volume or infrequent transactions. The factors or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Unrealized holding gains and losses are excluded from earnings and are reported net of tax in comprehensive income until realized.

We recognize or disclose the fair value of certain assets, such as non-financial assets, primarily property, plant and equipment, goodwill, other intangible assets and certain other long-lived assets in connection with impairment evaluations. All of our nonrecurring valuations use significant unobservable inputs and therefore fall under Level 3 of the fair value hierarchy. We did not perform any valuations on assets or liabilities that are valued at fair value on a nonrecurring basis during the first six months of 2015. During the fourth quarter of 2014, we performed our annual goodwill and indefinite-lived trade names impairment analyses effective as of October 1, 2014. During the six months ended June 30, 2015 and the year ended December 31, 2014, we did not record any other-than-temporary impairments on our financial assets required to be measured at fair value on a nonrecurring basis.

(4) INVENTORIES

Inventories are stated at the lower of cost or market, with cost determined based on the first-in, first-out method. We establish inventory allowances for excess, slow-moving and obsolete inventory based on inventory levels, expected product life and forecasted sales. Inventories are written down to market value based on historical demand, competitive factors, changes in technology and product lifecycles.

Inventories consisted of the following (in thousands):

	As of	
	June 30, 2015	December 31, 2014
Finished goods	\$26,741	\$23,765
Parts and components	1,638	1,131
Total inventories	\$28,379	\$24,896

(5) PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment consisted of the following (in thousands):

	Estimated Useful Life (in years)	As of June 30, 2015	December 31, 2014
Automobiles	5	\$23	\$23
Leasehold improvements	5 to 20	1,974	2,144
Computer software and equipment	3 to 7	23,209	25,397
Machinery and equipment	3 to 5	6,709	6,709
Furniture and fixtures	5	1,240	1,108
Work in progress ⁽¹⁾	N/A	1,131	421
Total cost		34,286	35,802
Accumulated depreciation		(23,742) (26,168
Total property, plant and equipment, net		\$10,544	\$9,634

⁽¹⁾ Work in progress includes production tooling and internal use software development.

(6) GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

All goodwill is assigned to our Direct reporting segment. The rollforward of goodwill was as follows (in thousands):

Balance, January 1, 2014	\$2,740
Currency exchange rate adjustment	(220
Balance, December 31, 2014	2,520
Currency exchange rate adjustment	(148
Balance, June 30, 2015	\$2,372

Other Intangible Assets

Other intangible assets consisted of the following (in thousands):

	Estimated Useful Life (in years)	As of June 30, 2015	December 31, 2014
Other intangible assets:			
Indefinite-lived trademarks	N/A	\$9,052	\$9,052
Patents	8 to 16	18,154	18,154
		27,206	27,206
Accumulated amortization - patents		(17,100) (16,631
Other intangible assets, net		\$10,106	\$10,575

Edgar Filing: NAUTILUS, INC. - Form 10-Q

Amortization expense was as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Patent amortization	\$179	\$510	\$469	\$1,020

Future amortization of patents is as follows (in thousands):

Remainder of 2015	\$359
2016	431
2017	143
2018	65
2019	35
Thereafter	21
	\$1,054

(7) ACCRUED LIABILITIES

Accrued liabilities consisted of the following (in thousands):

	As of	
	June 30, 2015	December 31, 2014
Payroll and related liabilities	\$3,355	\$5,058
Other	3,985	4,793
Total accrued liabilities	\$7,340	\$9,851

(8) PRODUCT WARRANTIES

Our products carry limited, defined warranties for defects in materials or workmanship which, according to their terms, generally obligate us to pay the costs of supplying and shipping replacement parts to customers and, in certain instances, pay for labor and other costs to service products. Outstanding product warranty periods range from thirty days to, in limited circumstances, the lifetime of certain product components. We record a liability at the time of sale for the estimated costs of fulfilling future warranty claims. If necessary, we adjust the liability for specific warranty-related matters when they become known and are reasonably estimable. Estimated warranty expense is included in cost of sales, based on historical warranty claim experience and available product quality data. Warranty expense is affected by the performance of new products, significant manufacturing or design defects not discovered until after the product is delivered to the customer, product failure rates, and higher or lower than expected repair costs. If warranty expense differs from previous estimates, or if circumstances change such that the assumptions inherent in previous estimates are no longer valid, the amount of product warranty obligations is adjusted accordingly.

Changes in our product warranty obligations were as follows (in thousands):

	Six Months Ended June 30,	
	2015	2014
Balance, beginning of period	\$2,246	\$1,638
Accruals	1,691	1,318
Payments	(1,118)	(881)
Balance, end of period	\$2,819	\$2,075

(9) ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

Accumulated other comprehensive income (loss), net of applicable taxes, reported on our Condensed Consolidated Balance Sheets consists of unrealized holding gains and losses on available-for-sale securities and foreign currency translation adjustments. The following tables set forth the changes in accumulated other comprehensive income (loss), net of tax (in thousands):

11

Edgar Filing: NAUTILUS, INC. - Form 10-Q

	Unrealized Gain (Loss) on Available-for-Sale Securities	Foreign Currency Translation Adjustments	Accumulated Other Comprehensive Income (Loss)
Balance, March 31, 2015	\$(19)	\$(774)	\$(793)
Current period other comprehensive income	14	132	146
Balance, June 30, 2015	\$(5)	\$(642)	\$(647)
	Unrealized Gain (Loss) on Available-for-Sale Securities	Foreign Currency Translation Adjustments	Accumulated Other Comprehensive Loss

Balance, June 30, 2014	\$(10)	\$256	\$246

(10) INCOME PER SHARE

Basic per share amounts were computed using the weighted average number of common shares outstanding. Diluted per share amounts were calculated using the number of basic weighted average shares outstanding increased by dilutive potential common shares related to stock-based awards, as determined by the treasury stock method. The weighted average numbers of shares outstanding used to compute income per share were as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Shares used to calculate basic income per share	31,485	31,226	31,441	31,203
Dilutive effect of outstanding stock options, performance stock units and restricted stock units	306	372	360	383
Shares used to calculate diluted income per share	31,791	31,598	31,801	31,586

The weighted average numbers of shares outstanding listed in the table below were anti-dilutive and excluded from the computation of diluted income per share because, in the case of stock options, the average market price did not exceed the exercise price, and for the performance stock units, because these shares are subject to performance conditions that had not been met. These shares may be dilutive potential common shares in the future (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Stock options	8	271	11	282
Performance stock units	—	151	—	84

(11) STOCK REPURCHASE PROGRAM

On November 3, 2014, our Board of Directors approved a stock repurchase program that authorized us to repurchase up to \$15.0 million of our outstanding common stock from time to time over a period of 24 months. The repurchase program expires November 3, 2016. Share repurchases will be funded with existing cash balances and repurchased shares will be retired and returned to unissued authorized shares. To date, we have repurchased 133,877 shares at an average price of \$14.91 per share for a total of \$2.0 million, all of which occurred during the first quarter of 2015. As of June 30, 2015, \$13.0 million remains available for future repurchases.

(12) SEGMENT AND ENTERPRISE-WIDE INFORMATION

We have two reportable segments - Direct and Retail. Contribution is the measure of profit or loss, defined as net sales less product costs and directly attributable expenses. Directly attributable expenses include selling and marketing expenses, general and administrative expenses, and research and development expenses that are directly related to segment operations. Segment assets are those directly assigned to an operating segment's operations, primarily accounts receivable, inventories, goodwill and other intangible assets. Unallocated assets primarily include cash and cash equivalents, available-for-sale securities, prepaids and other current assets, deferred income tax assets, other assets, shared information technology infrastructure, distribution centers and corporate headquarters. Capital expenditures directly attributable to the Direct and Retail segments were not significant in either period presented.

Following is summary information by reportable segment (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Net sales:				
Direct	\$41,662	\$32,355	\$115,719	\$83,091
Retail	17,404	15,039	38,694	35,142
Unallocated royalty income	629	1,152	1,521	2,217
Consolidated net sales	\$59,695	\$48,546	\$155,934	\$120,450
Contribution:				
Direct	\$5,106	\$3,889	\$24,677	\$14,242
Retail	1,176	1,325	2,676	3,834
Unallocated royalty income	629	1,152	1,521	2,217
Consolidated contribution	\$6,911	\$6,366	\$28,874	\$20,293
Reconciliation of consolidated contribution to income from continuing operations:				
Consolidated contribution	\$6,911	\$6,366	\$28,874	\$20,293
Amounts not directly related to segments:				
Operating expenses	(2,979)) (3,987)) (7,337)) (8,912)
Other expense, net	(228)) (45)) (305)) (105)
Income tax expense	(1,485)) (836)) (8,154)) (4,030)
Income from continuing operations	\$2,219	\$1,498	\$13,078	\$7,246

There was no material change in the allocation of assets by segment during the first six months of 2015 and, accordingly, assets by segment are not presented.

For the three months ended June 30, 2015, Amazon.com accounted for 13.2% of our total net sales, and no customer represented 10.0% or more of total net sales for the first six months of 2015. For the three and six months ended June 30, 2014, Amazon.com accounted for 10.9% and 10.3%, respectively, of our total net sales.

(13) COMMITMENTS AND CONTINGENCIES

Guarantees, Commitments and Off-Balance Sheet Arrangements

As of June 30, 2015, we had approximately \$0.5 million in standby letters of credit with certain vendors expiring April 2016.

We have long lead times for inventory purchases and, therefore, must secure factory capacity from our vendors in advance. As of June 30, 2015, we had approximately \$25.4 million in noncancelable market-based purchase obligations, primarily for inventory purchases expected to be received within the next twelve months. Purchase obligations can vary from quarter-to-quarter and versus the same period in prior years due to a number of factors, including the amount of products that are shipped directly to Retail customer warehouses versus through Nautilus warehouses.

In the ordinary course of business, we enter into agreements that require us to indemnify counterparties against third-party claims. These may include: agreements with vendors and suppliers, under which we may indemnify them against claims arising from use of their products or services; agreements with customers, under which we may indemnify them against claims arising from their use or sale of our products; real estate and equipment leases, under which we may indemnify lessors against third-party claims relating to the use of their property; agreements with licensees or licensors, under which we may indemnify the licensee or licensor against claims arising from their use of our intellectual property or our use of their intellectual property; and agreements with parties to debt arrangements, under which we may indemnify them against claims relating to their participation in the transactions.

The nature and terms of these indemnification obligations vary from contract to contract, and generally a maximum obligation is not stated within the agreements. We hold insurance policies that mitigate potential losses arising from certain types of indemnification obligations. Management does not deem these obligations to be significant to our financial position, results of operations or cash flows and, therefore, no related liabilities were recorded as of June 30, 2015.

Legal Matters

In 2004, we were sued in the Southern District of New York by BioSig Instruments, Inc. for alleged patent infringement in connection with our incorporation of heart rate monitors into certain cardio products. No significant activity in the litigation occurred until 2008. In 2012, the United States District Court granted summary judgment to us on grounds that BioSig's patents were invalid as a matter of law. BioSig appealed the grant of summary judgment and, in April 2013, the United States Court of Appeals for the Federal Circuit reversed the District Court's decision on summary judgment and remanded the case to the District Court for further proceedings. On January 10, 2014, the U.S. Supreme Court granted our petition for a writ of certiorari to address the legal standard applied by the Federal Circuit in determining whether the patents may be valid under applicable law. The case was argued before the Supreme Court on April 28, 2014. By decision dated June 2, 2014, the Supreme Court unanimously reversed the Federal Circuit, holding that its standard of when a patent may be "indefinite" was incorrect and remanding to the Federal Circuit for reconsideration under the correct standard. The remand hearing in the Federal Circuit was held on October 29, 2014. By decision dated April 27, 2015, the same panel of the Federal Circuit affirmed its earlier reversal of the District Court's decision on summary judgment. On May 27, 2015, we filed a petition for a rehearing en banc in the Federal Circuit, which was denied on August 4, 2015. Accordingly, the case will be returned to the District Court for further proceedings. We do not believe that our use of heart rate monitors utilized or purchased from third parties, and otherwise, infringes the BioSig patents.

In August 2014, we initiated an arbitration proceeding under a 1999 license agreement pursuant to which we had licensed certain rights relating to our TreadClimber® products. We believe that our obligation to pay royalties under the license agreement ceased in the fourth quarter of 2013. The licensor disputes this and issued a notice under the contract claiming breach of the license agreement and asserting various remedies. We are seeking a declaratory ruling in the arbitration that we have performed all of our obligations under the license agreement, and that there is no continuing obligation for us to pay royalties. The licensor has asserted various counterclaims in the arbitration, including contract and intellectual property claims, and asserted various remedies, including termination of the license agreement. We replied to the counterclaim, denying the allegations and demanding remedies and asserting defenses. The arbitration is being administered by the American Arbitration Association and is in its preliminary stages of discovery and litigation with an anticipated hearing date in February 2016.

In addition to the matters described above, from time to time, we may be involved in various claims, lawsuits and other proceedings. These legal and tax proceedings involve uncertainty as to the eventual outcomes and losses which may be realized when one or more future events occur or fail to occur.

Litigation and jury verdicts are, to some degree, inherently unpredictable, and, although we have determined that a loss is not probable in connection with any current legal proceeding, it is reasonably possible that a loss may be incurred in connection with proceedings to which we are a party. Assessment of whether incurrence of a loss is probable, or a reasonable possibility, in connection with a particular proceeding, and estimation of the loss, or a range of loss, involves complex judgments and numerous uncertainties. Management is unable to estimate a range of reasonably possible losses related to litigation in its early stages, especially when the damages sought are indeterminate, or the legal and factual basis for the relevant claims have not been developed with specificity. As such, zero liability is recorded as of June 30, 2015.

We regularly monitor our estimated exposure to these contingencies and, as additional information becomes known, may change our estimates accordingly. We evaluate, on a quarterly basis, developments in legal proceedings, investigations or claims that could affect the amount of any accrual, as well as any developments that would make a loss probable or reasonably possible, and whether the amount of a probable or reasonably possible loss is estimable. Among other factors, we evaluate the advice of internal and external counsel, the outcomes from similar litigation, current status of the lawsuits (including settlement initiatives), legislative developments and other factors. Due to the numerous variables associated with these judgments and assumptions, both the precision and reliability of the resulting estimates of the related loss contingencies are subject to substantial uncertainties.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis is based upon our financial statements as of the dates and for the periods presented in this section. You should read this discussion and analysis in conjunction with the financial statements and notes thereto found in Part I, Item 1 of this Form 10-Q and our consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2014 (the "2014 Form 10-K"). All references to the second quarter and first six months of 2015 and 2014 mean the three and six-month periods ended June 30, 2015 and 2014, respectively. Unless the context otherwise requires, "Nautilus," "we," "us" and "our" refer to Nautilus, Inc. and its subsidiaries. Unless indicated otherwise, all information regarding our operating results pertains to our continuing operations.

Our results of operations may vary significantly from period-to-period. Our revenues typically fluctuate due to the seasonality of our industry, customer buying patterns, product innovation, the nature and level of competition for health and fitness products, our ability to procure products to meet customer demand, the level of spending on, and effectiveness of, our media and advertising programs and our ability to attract new customers and maintain existing sales relationships. In addition, our revenues are highly susceptible to economic factors, including, among other things, the overall condition of the economy and the availability of consumer credit in both the United States and Canada. Our profit margins may vary in response to the aforementioned factors and our ability to manage product costs. Profit margins may also be affected by fluctuations in the costs or availability of materials used to manufacture our products, product warranty costs, the cost of fuel, and changes in costs of other distribution or manufacturing-related services. Our operating profits or losses may also be affected by the efficiency and effectiveness of our organization. Historically, our operating expenses have been influenced by media costs to produce and distribute advertisements of our products on television, the Internet and other media, facility costs, operating costs of our information and communications systems, product supply chain management, customer support and new product development activities. In addition, our operating expenses have been affected from time-to-time by asset impairment charges, restructuring charges and other significant unusual or infrequent expenses.

As a result of the above and other factors, our period-to-period operating results may not be indicative of future performance. You should not place undue reliance on our operating results and should consider our prospects in light of the risks, expenses and difficulties typically encountered by us and other companies, both within and outside our industry. We may not be able to successfully address these risks and difficulties and, consequently, we cannot assure you of any future growth or profitability. For more information, see our discussion of risk factors located at Part I, Item 1A of our 2014 Form 10-K.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "plan," "expect," "aim," "believe," "project," "intend," "estimate," "will," "should," "could," and other terms of similar meaning typically identify forward-looking statements. The forward-looking statements in this report include, without limitation: our prospects, resources or capabilities; current or future financial trends; future operating results; future plans for introduction of new products; anticipated demand for our new and existing products; maintenance of appropriate inventory levels; growth in revenues and profits; leverage of operating expenses; results of increased media investment in the Direct segment; continued improvement in operating margins; expectations for increased research and development expenses; the amount expected to be spent on software and equipment in 2015; fluctuations in net sales due to seasonality; and our ability to continue to fund our operating and capital needs for the following twelve-month period. Forward-looking statements also include any statements related to our expectations regarding future business and financial performance or conditions, anticipated sales growth across markets, distribution channels and product categories, expenses and gross margins, profits or losses, losses from discontinued operations, settlements of warranty obligations, the anticipated outcome of litigation to which we are a party, new product introductions, financing and working capital requirements and resources. These

forward-looking statements, and others we make from time-to-time, are subject to a number of risks and uncertainties. Many factors could cause actual results to differ materially from those projected in forward-looking statements, including the risks described in Part I, Item 1A, "Risk Factors," in our 2014 Form 10-K as supplemented or modified in our quarterly reports on Form 10-Q. We do not undertake any duty to update forward-looking statements after the date they are made or conform them to actual results or to changes in circumstances or expectations.

Overview

We are committed to providing innovative, quality solutions to help people achieve a fit and healthy lifestyle. Our principal business activities include designing, developing, sourcing and marketing high-quality cardio and strength fitness products and related accessories for consumer use, primarily in the United States and Canada. Our products are sold under some of the most-recognized brand names in the fitness industry: Nautilus[®], Bowflex[®], Schwinn[®] and Universal[®].

We market our products through two distinct distribution channels, Direct and Retail, which we consider to be separate business segments. Our Direct business offers products directly to consumers through television advertising, catalogs and the Internet. Our Retail business offers our products through a network of independent retail companies with stores and websites located in the United States and internationally. We also derive a portion of our revenue from the licensing of our brands and intellectual property.

Net sales for the first six months of 2015 were \$155.9 million, an increase of \$35.5 million, or 29.5%, as compared to net sales of \$120.5 million for the first six months of 2014. Net sales of our Direct segment increased \$32.6 million, or 39.3%, in the first six months of 2015, compared to the first six months of 2014, primarily due to increased consumer demand for our cardio products, especially the recently released Bowflex Max Trainer®, which started shipping in January 2014. Net sales of our Retail segment increased by \$3.6 million, or 10.1%, in the first six months of 2015, compared to the first six months of 2014, primarily due to favorable retailer sell-through of our lineup of cardio products launched in late 2013 and fall 2014, together with increased sales of SelectTech® dumbbells.

Gross profit for the first six months of 2015 was \$84.5 million, or 54.2% of net sales, an increase of \$21.3 million, or 33.6%, as compared to gross profit of \$63.3 million, or 52.5% of net sales, for the first six months of 2014. The increase in gross profit dollars was primarily due to the increase in net sales, while the increase in gross profit margin percentage was due to a shift in channel mix to the Direct segment.

Operating expenses for the first six months of 2015 were \$63.0 million, an increase of \$11.1 million, or 21.4%, as compared to operating expenses of \$51.9 million for the first six months of 2014. The growth in operating expenses was primarily related to increases in selling and marketing expenses.

Operating income for the first six months of 2015 was \$21.5 million, an increase of \$10.2 million, or 89.2%, as compared to operating income of \$11.4 million for the first six months of 2014. The improvement in our operating results for the first six months of 2015 compared to the first six months of 2014 was driven primarily by higher net sales and improved gross profit margins coupled with leveraging operating expenses over higher net sales.

Income from continuing operations was \$13.1 million for the first six months of 2015, or \$0.41 per diluted share, compared to income from continuing operations of \$7.2 million, or \$0.23 per diluted share, for the first six months of 2014. The effective tax rates for the first six months of 2015 and 2014 were 38.4% and 35.7%, respectively.

Net income for the first six months of 2015 was \$13.2 million, compared to net income of \$5.9 million for the first six months of 2014. Net income per diluted share was \$0.41 for the first six months of 2015, compared to \$0.19 for the first six months of 2014.

Discontinued Operations

Results from discontinued operations relate to the disposal of our former Commercial business, which was completed in April 2011. We reached substantial completion of asset liquidation at December 31, 2012. Although there was no revenue related to the Commercial business in either the 2015 or 2014 periods, we continue to have legal and accounting expenses as we work with authorities on final deregistration of each entity, and product liability and other legal expenses associated with product previously sold into the Commercial channel.

RESULTS OF OPERATIONS

	\$59,695	\$48,546	\$11,149	23.0	%

(1) Cardio products include: TreadClimber®, Max Trainer®, treadmills, exercise bikes, ellipticals, Bowflex Boost®, Bowflex Body™ and DVDs.

(2) Strength products include: home gyms, selectorized dumbbells, kettlebell weights, UpperCut™ and accessories.

	Six Months Ended June 30,		Change		
	2015	2014	\$	%	
Direct net sales:					
Cardio products ⁽¹⁾	\$107,883	\$75,247	\$32,636	43.4	%
Strength products ⁽²⁾	7,836	7,844	(8)	(0.1)	%
	115,719	83,091	32,628	39.3	%
Retail net sales:					
Cardio products ⁽¹⁾	23,238	20,905	2,333	11.2	%
Strength products ⁽²⁾	15,456	14,237	1,219	8.6	%
	38,694	35,142	3,552	10.1	%
Royalty income	1,521	2,217	(696)	(31.4)	%
	\$155,934	\$120,450	\$35,484	29.5	%

(1) Cardio products include: TreadClimber®, Max Trainer®, treadmills, exercise bikes, ellipticals, Bowflex Boost®, Bowflex Body™ and DVDs.

(2) Strength products include: home gyms, selectorized dumbbells, kettlebell weights, UpperCut™ and accessories.

Direct

Direct net sales increased by 28.8% and 39.3%, respectively, for the three and six-month periods ended June 30, 2015 compared to the same periods of 2014. The increases in net sales were primarily related to our cardio products, especially the Bowflex Max Trainer®, which started shipping in early 2014. Strength sales increased 28.3% for the three-month period ended June 30, 2015 compared to the same period of 2014, due to stronger sales in both the SelectTech® dumbbell and home gym categories.

Combined consumer credit approvals by our primary and secondary U.S. third-party financing providers for the second quarter 2015 increased to 46.1%, compared to 38.8% in the same period of 2014. We attribute the increase to sales of the Bowflex Max Trainer®, which has attracted consumers with better credit scores, and our media strategy focused on driving quality consumer leads.

The increases in cost of sales of our Direct business in the three and six-month periods ended June 30, 2015 compared to the same periods of 2014 were almost entirely related to the growth in Direct net sales as discussed above.

For the second quarter of 2015, Direct gross margin increased 50 basis points as compared to the same period of 2014 primarily due to leveraging supply chain costs. The 130 basis point increase in gross margin for the six-month period of 2015 compared to the same period of 2014 was primarily due to the non-recurrence of inventory write-downs for discontinued product required in the prior year.

Retail

Retail net sales increased by 15.7% and 10.1%, respectively, for the three and six-month periods ended June 30, 2015 compared to the same periods of 2014. The increases were primarily driven by an increase of SelectTech® dumbbell sales coupled with increased sales of the lineup of cardio products launched in late 2013 and Fall 2014.

For the second quarter of 2015, Retail gross margin decreased 90 basis points compared to the same period of 2014 due to unfavorable product and customer mix. The 220 basis point decrease in gross margin in the six-month period of 2015 compared to the same period of 2014 was primarily due to unfavorable product and customer mix, and higher distribution related costs. As previously disclosed, the Company has plans in place to continue to mitigate the recent Retail margin decrease.

Selling and Marketing

Dollars in thousands	Three Months Ended June 30,		Change	
	2015	2014	\$	%
Selling and Marketing	\$20,052	\$15,690	\$4,362	27.8%
As % of net sales	33.6%	32.3%		
Dollars in thousands	Six Months Ended June 30,		Change	
	2015	2014	\$	%
Selling and Marketing	\$48,451	\$37,463	\$10,988	29.3%
As % of net sales	31.1%	31.1%		

The increases in selling and marketing expense in the three and six-month periods ended June 30, 2015 compared to the same periods of 2014 were primarily related to increases in media advertising of \$3.3 million and \$6.9 million, respectively, and increases in incremental variable sales expense of \$0.9 million and \$3.7 million, respectively, mainly financing fees, related to the increases in net sales.

The increase as a percentage of net sales in the second quarter of 2015 compared to the same period of 2014 was primarily due to the increase in media advertising.

Media advertising expense of our Direct business is the largest component of selling and marketing and was as follows:

Dollars in thousands	Three Months Ended June 30,		Change	
	2015	2014	\$	%
Media advertising	\$11,459	\$8,182	\$3,277	40.1%
Dollars in thousands	Six Months Ended June 30,		Change	
	2015	2014	\$	%
Media advertising	\$25,701	\$18,849	\$6,852	36.4%

The increases in media advertising in the three and six-month periods ended June 30, 2015 compared to the same periods of 2014 were primarily to drive incremental sales in the Direct business.

Edgar Filing: NAUTILUS, INC. - Form 10-Q

General and Administrative				
Dollars in thousands				
	Three Months Ended June 30,		Change	
	2015	2014	\$	%
General and Administrative	\$4,293	\$4,959	\$(666)	(13.4)%
As % of net sales	7.2%	10.2%		
Dollars in thousands				
	Six Months Ended June 30,		Change	
	2015	2014	\$	%
General and Administrative	\$9,871	\$10,762	\$(891)	(8.3)%
As % of net sales	6.3%	8.9%		

The decreases in general and administrative in the three and six-month periods ended June 30, 2015 compared to the same periods of 2014 were primarily due to lower spending on patent legal expenses of \$0.1 million and \$0.4 million, respectively, and credits related to state business tax refunds of \$0.5 million and \$0.4 million, respectively, resulting from a recent audit.

The decreases as a percentage of net sales in the three and six-month periods ended June 30, 2015 compared to the same periods of 2014 were primarily due to the increases in net sales, coupled with lower spending and tax refunds as discussed above.

Research and Development				
Dollars in thousands				
	Three Months Ended June 30,		Change	
	2015	2014	\$	%
Research and Development	\$2,379	\$1,752	\$627	35.8%
As % of net sales	4.0%	3.6%		
Dollars in thousands				
	Six Months Ended June 30,		Change	
	2015	2014	\$	%
Research and Development	\$4,686	\$3,655	\$1,031	28.2%
As % of net sales	3.0%	3.0%		

The increases in research and development in the three and six-month periods ended June 30, 2015 compared to the same periods of 2014 were primarily due to our continued investment in resources required to innovate and broaden our product portfolio.

The increase as a percentage of net sales in the second quarter of 2015 compared to the same period of 2014 was primarily due to the increased investment.

Other Income (Expense)

Other income (expense) primarily relates to the effect of exchange rate fluctuations between the U.S. and Canada.

Income Tax Provision				
Dollars in thousands				
	Three Months Ended June 30,		Change	
	2015	2014	\$	%
Income Tax Provision	\$1,485	\$836	\$649	77.6%
Effective tax rate	40.1%	35.8%		
Dollars in thousands				
	Six Months Ended June 30,		Change	
	2015	2014	\$	%
Income Tax Provision	\$8,154	\$4,030	\$4,124	102.3%
Effective tax rate	38.4%	35.7%		

Income tax provision from continuing operations for the three and six-month periods ended June 30, 2015 was based on a 40.1% and 38.4% effective tax rate, respectively, primarily related to our profitable U.S. and Canadian operations. The lower effective

tax rates of 35.8% and 35.7% for the comparable periods of 2014, respectively, were mainly driven by certain U.S. tax credit benefits recognized during the first half of 2014.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2015, we had total cash and investments of \$87.2 million compared to \$72.2 million as of December 31, 2014. Cash provided by operating activities was \$18.7 million for the six months ended June 30, 2015, compared to \$17.2 million for the six months ended June 30, 2014. We expect our cash, cash equivalents and available-for-sale securities at June 30, 2015, along with cash expected to be generated from operations, to be sufficient to fund our operating and capital requirements for at least twelve months from June 30, 2015.

The increase in cash flows from operating activities for the six months ended June 30, 2015 as compared to the same period of 2014 was primarily due to improved operating performance, partially offset by changes in our operating assets and liabilities as discussed below.

Trade receivables decreased \$13.6 million to \$12.6 million as of June 30, 2015, compared to \$26.3 million as of December 31, 2014, due to seasonally lower net sales in the Retail business. Days sales outstanding ("DSO") at June 30, 2015 were 19.9 days compared to 17.6 days as of December 31, 2014 and 15.4 days as of June 30, 2014. The increase in DSO at June 30, 2015 compared to December 31, 2014 and June 30, 2014 was due to the timing of Retail sales within the quarter.

Inventories increased \$3.5 million to \$28.4 million as of June 30, 2015, compared to \$24.9 million as of December 31, 2014, due to increased stocking levels of high demand products. Inventories as of June 30, 2015 compared to June 30, 2014 increased by \$5.2 million, primarily due to higher revenues, new product introductions, and the addition of a new distribution center.

Prepaid and other current assets decreased \$2.5 million to \$4.5 million as of June 30, 2015, compared to \$7.0 million as of December 31, 2014, primarily due to seasonality of the business and reduction of royalties receivable of \$1.7 million. Prepaid marketing as of June 30, 2015 compared to December 31, 2014 also decreased by \$0.9 million, primarily due to expensing of catalog and video production costs.

Deferred income tax assets decreased \$7.3 million to \$14.6 million as of June 30, 2015, compared to \$21.9 million as of December 31, 2014, primarily due to the utilization of net operating loss carryforwards from prior periods.

Trade payables decreased \$14.9 million to \$32.7 million as of June 30, 2015, compared to \$47.6 million as of December 31, 2014, primarily due to seasonality of the business.

Accrued liabilities decreased \$2.5 million to \$7.3 million as of June 30, 2015, compared to \$9.9 million as of December 31, 2014, primarily due to net pay downs of accrued incentive compensation of \$1.9 million in the first half of 2015. In addition, reductions in deferred revenues of \$0.4 million and financing fees of \$0.3 million occurred in the first six months of 2015, both related to seasonality of the business.

Cash used in investing activities of \$24.0 million for the first six months of 2015 was primarily related to the purchase of \$43.2 million of marketable securities, offset by maturities and sales of marketable securities of \$17.1 million and \$3.4 million, respectively, during the period. Additionally, \$1.3 million in capital expenditures was incurred during the period primarily for new software and information technology equipment. We anticipate spending between \$5.5 million to \$6.5 million in 2015 for software, equipment, leasehold improvements and product tooling.

Cash used in financing activities of \$1.8 million for the first six months of 2015 was primarily related to the share buyback program payouts of \$2.0 million during the first quarter of 2015, partially offset by proceeds of the stock

option exercises.

Financing Arrangements

On December 5, 2014, we entered into a Credit Agreement (the "Credit Agreement") with JPMorgan Chase Bank, N.A. ("Chase Bank") that provides for a \$20.0 million maximum revolving secured credit line. The line of credit is available through December 5, 2017 for working capital, letters of credit and general corporate purposes. Borrowing availability under the Credit Agreement is subject to our compliance with certain financial and operating covenants at the time borrowings are requested. Letters of credit under the Credit Agreement are treated as a reduction of the available borrowing amount and are subject to covenant testing.

The interest rate applicable to each advance under the Credit Agreement is based on either Chase Bank's floating prime rate or adjusted LIBOR, plus an applicable margin. Our borrowing rate was 1.19% as of June 30, 2015. The Credit Agreement contains customary covenants, including minimum fixed charge coverage ratio and asset coverage ratio, and limitations on capital

23

expenditures, mergers and acquisitions, indebtedness, liens, dispositions, dividends and investments. Borrowings under the Credit Agreement are collateralized by substantially all of our assets pursuant to a continuing security agreement. The Credit Agreement also contains customary events of default. Upon an event of default, the lender may terminate its credit line commitment, accelerate all outstanding obligations and exercise its remedies under the continuing security agreement.

As of June 30, 2015, we had no outstanding borrowings and \$0.5 million in letters of credit issued under the Credit Agreement that expire April 2016. As of June 30, 2015, we were in compliance with the financial covenants of the Credit Agreement and approximately \$19.5 million was available for borrowing.

Commitments and Contingencies

For a description of our commitments and contingencies, refer to Note 13 to our Condensed Consolidated Financial Statements in Item 1 of this Form 10-Q.

Off-Balance Sheet Arrangements

In the ordinary course of business, we enter into agreements that require us to indemnify counterparties against third-party claims. These may include: agreements with vendors and suppliers, under which we may indemnify them against claims arising from our use of their products or services; agreements with customers, under which we may indemnify them against claims arising from their use or sale of our products; real estate and equipment leases, under which we may indemnify lessors against third party claims relating to the use of their property; agreements with licensees or licensors, under which we may indemnify the licensee or licensor against claims arising from their use of our intellectual property or our use of their intellectual property; and agreements with parties to debt arrangements, under which we may indemnify them against claims relating to their participation in the transactions.

The nature and terms of these indemnifications vary from contract to contract, and generally a maximum obligation is not stated. We hold insurance policies that mitigate potential losses arising from certain types of indemnifications. Because we are unable to estimate our potential obligation, and because management does not expect these obligations to have a material adverse effect on our consolidated financial position, results of operations or cash flows, no liabilities are recorded at June 30, 2015.

Stock Repurchase Program

On November 3, 2014, our Board of Directors approved a stock repurchase program that authorized us to repurchase up to \$15.0 million of our outstanding common stock from time to time over a period of 24 months. The repurchase program expires November 3, 2016. Share repurchases will be funded with existing cash balances and repurchased shares will be retired and returned to unissued authorized shares. To date, we have repurchased 133,877 shares at an average price of \$14.91 per share for a total of \$2.0 million, all of which occurred during the first quarter of 2015. As of June 30, 2015, \$13.0 million remains available for future repurchases.

SEASONALITY

We expect our sales from fitness equipment products to vary seasonally. Sales are typically strongest in the first and fourth quarters, followed by the third quarter, and are generally weakest in the second quarter. We believe that, during the spring and summer months, consumers tend to be involved in outdoor activities, including outdoor exercise, which impacts sales of indoor fitness equipment. This seasonality can have a significant effect on our inventory levels, working capital needs and resource utilization.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our critical accounting policies have not changed from those discussed in our 2014 Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our reported market risks or risk management policies since the filing of our 2014 Form 10-K, which was filed with the Securities and Exchange Commission on February 26, 2015.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

In accordance with Rule 13a-15 of the Securities Exchange Act of 1934 (the “Exchange Act”), as of the end of the period covered by this Quarterly Report on Form 10-Q, our management evaluated, with the participation of our Chief Executive Officer and our Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act). Based upon their evaluation of these disclosure controls and procedures, our management, including the Chief Executive Officer and Chief Financial Officer, have concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the three months ended June 30, 2015, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In 2004, we were sued in the Southern District of New York by BioSig Instruments, Inc. for alleged patent infringement in connection with our incorporation of heart rate monitors into certain cardio products. No significant activity in the litigation occurred until 2008. In 2012, the United States District Court granted summary judgment to us on grounds that BioSig’s patents were invalid as a matter of law. BioSig appealed the grant of summary judgment and, in April 2013, the United States Court of Appeals for the Federal Circuit reversed the District Court’s decision on summary judgment and remanded the case to the District Court for further proceedings. On January 10, 2014, the U.S. Supreme Court granted our petition for a writ of certiorari to address the legal standard applied by the Federal Circuit in determining whether the patents may be valid under applicable law. The case was argued before the Supreme Court on April 28, 2014. By decision dated June 2, 2014, the Supreme Court unanimously reversed the Federal Circuit, holding that its standard of when a patent may be “indefinite” was incorrect and remanding to the Federal Circuit for reconsideration under the correct standard. The remand hearing in the Federal Circuit was held on October 29, 2014. By decision dated April 27, 2015, the same panel of the Federal Circuit affirmed its earlier reversal of the District Court’s decision on summary judgment. On May 27, 2015, we filed a petition for a rehearing en banc in the Federal Circuit, which was denied on August 4, 2015. Accordingly, the case will be returned to the District Court for further proceedings. We do not believe that our use of heart rate monitors utilized or purchased from third parties, and otherwise, infringes the BioSig patents.

In August 2014, we initiated an arbitration proceeding under a 1999 license agreement pursuant to which we had licensed certain rights relating to our TreadClimber® products. We believe that our obligation to pay royalties under the license agreement ceased in the fourth quarter of 2013. The licensor disputes this and issued a notice under the contract claiming breach of the license agreement and asserting various remedies. We are seeking a declaratory ruling in the arbitration that we have performed all of our obligations under the license agreement, and that there is no continuing obligation for us to pay royalties. The licensor has asserted various counterclaims in the arbitration, including contract and intellectual property claims, and asserted various remedies, including termination of the license agreement. We replied to the counterclaim, denying the allegations and demanding remedies and asserting defenses. The arbitration is being administered by the American Arbitration Association and is in its preliminary stages of discovery and litigation with an anticipated hearing date in February 2016.

In addition to the matters described above, from time to time we are subject to litigation, claims and assessments that arise in the ordinary course of business, including disputes that may arise from intellectual property related matters. Management believes that any liability resulting from such additional matters will not have a material adverse effect on our financial position, results of operations or cash flows.

Item 1A. Risk Factors

We operate in an environment that involves a number of risks and uncertainties. The risks and uncertainties described in our 2014 Form 10-K are not the only risks and uncertainties that we face. Additional risks and uncertainties that presently are not considered material or are not known to us, and therefore are not mentioned herein, may impair our business operations. If any of the risks described in our 2014 Form 10-K actually occur, our business, operating results and financial position could be adversely affected. There has not been a material change to the risk factors as set forth in our 2014 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The following table provides information about our repurchases of our equity securities during the second quarter ended June 30, 2015:

Period	(a) Total Number of Shares (or Units) Purchased ⁽¹⁾	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
April 1 - April 30	2,306	\$16.81	—	\$13,004,018
May 1 - May 31	2,306	21.12	—	13,004,018
June 1 - June 30	—	—	—	13,004,018
Total	4,612	\$18.97	—	\$13,004,018

⁽¹⁾ Consists of shares withheld from the vesting portions of stock unit awards to our Chief Executive Officer to satisfy his tax withholding obligation incident to such vesting.

⁽²⁾ On November 3, 2014, our Board of Directors approved a stock repurchase program that authorizes us to repurchase up to \$15.0 million of our outstanding common stock from time to time over a period of 24 months. The repurchase program expires November 3, 2016.

Item 6. Exhibits

The following exhibits are filed herewith and this list is intended to constitute the exhibit index:

Exhibit No.	Description
31.1	Certification of Chief Executive Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended.
31.2	Certification of Chief Financial Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended.
32.1	Certification of Chief Executive Officer and Chief Financial Officer pursuant to Rule 13a-14(b) of the Securities and Exchange Act of 1934, as amended, and 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

Edgar Filing: NAUTILUS, INC. - Form 10-Q
