\* The selling securityholders identified with an asterisk have identified that they are, or are affiliates of, registered broker-dealers. These selling securityholders have represented that they acquired their securities in the ordinary course of business and, at the time of the acquisition of the securities, had no agreements or understandings, directly or indirectly, with any person to distribute the securities.

\*\* Unless otherwise noted, none of these selling securityholders would beneficially own 1% or more of the outstanding notes.

\*\*\* Represents the maximum number of shares of our common stock issuable upon conversion of all of the holder's notes at the initial conversion rate of approximately 13.2933 shares of our common stock per \$1,000 aggregate principal amount of the notes. This conversion rate is subject to adjustment as described under "Description of the Notes Conversion of Notes." As a result, the number of shares of our common stock issuable upon conversion of the notes may change in the future. Excludes shares of our common stock that may be issued by us upon the repurchase of the notes and fractional shares. Holders will receive cash equal to the lesser of the conversion value or the par value of notes to be converted and in the event the conversion value exceeds the par value of notes to be converted, shares of our common stock in respect of that excess. Holders will receive a cash adjustment for any fractional share amount resulting from conversion of the notes, as described under "Description of the Notes Conversion of Notes."

\*\*\*\* Calculated based on Rule 13d-3 of the Securities Exchange Act of 1934, using 21,446,194 shares of our common stock outstanding. In calculating these percentages for each holder of notes, we also treated as outstanding the number of shares of our common stock issuable upon conversion of that holder's notes. However, we did not assume the conversion of any other holder's notes. Based on the 21,446,194 outstanding shares of our common stock as of January 19, 2007, unless otherwise noted, none of these selling securityholders would beneficially own 1% or more of the outstanding shares of our common stock following the sale of securities in the offering.
