CHINA NATURAL RESOURCES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Amounts in thousands of RMB, except share and per share data)

1.

BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month and six-month periods ended June 30, 2006, are not necessarily indicative of the results that may be expected for the year ending December 31, 2006.

The balance sheet at December 31, 2005 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 20-F for the year ended December 31, 2005, and to the Company's Form 6-K filed on June 19, 2006.

For the convenience of the reader, amounts in Renminbi (RMB) have been translated into United States dollars (US\$) at the rate of US\$1.00 = RMB8.00 quoted by the People's Bank of China as at June 30, 2006. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate.

Certain comparative amounts have been reclassified to conform with the current period classifications.

2.

ACQUISITION

On February 3, 2006 (the Acquisition Date), the Company consummated the acquisition of all of the issued and outstanding capital stock of Feishang Mining Holdings Limited (FMH), a British Virgin Islands corporation (the Acquisition). FMH, through its wholly owned subsidiary, Wuhu Feishang Mining Development Co. Ltd., is principally engaged in the mining of zinc, iron and other minerals for distribution in the PRC. The transaction was structured as a reorganization of FMH with and into the Company. As consideration for the Acquisition, the Company issued to the former FMH shareholder 9,980,593 of the Company's common shares, as well as warrants (the Warrants) to purchase an additional 4,500,000 of the Company's common shares. In connection with the Acquisition, the 320,000 series B preferred shares were converted into 320,000 common shares. The Warrants entitle the holder to purchase: 2,000,000 common shares of the Company at an exercise price of US\$4.00 per share for a period of two years from the Acquisition Date; 1,500,000 common shares at an exercise price of US\$4.50 per share for a period of three years from the Acquisition Date; and 1,000,000 common shares at an exercise price of US\$5.00 per share for a period of four years from the Acquisition Date. Other than the exercise price and exercise period, all other terms and conditions of the Warrants are identical.

The acquisition of FMH by the Company was accounted for using the purchase method of accounting and is treated as a reverse acquisition because on a post-merger basis, the former FMH shareholder holds 86.4% of the outstanding common shares of the Company. As a result, FMH is deemed to be the acquirer for accounting purposes.

2.

ACQUISITION (Continued)

Accordingly, the accompanying financial statements represent the operations of FMH through February 2, 2006 and the consolidated operations of FMH and the Company subsequent to February 2, 2006. We have retroactively restated our issued share capital to reflect the acquisition by FMH.

The following table summarizes the initial estimated fair values of the Company's assets and liabilities acquired by FMH at the Acquisition Date. The purchase price was determined by multiplying the number of outstanding shares immediately prior to consummating the acquisition of 1,567,823 by the closing price of our common shares the day prior to the public announcement of the Acquisition Agreement between the Company and FMH. The allocation of the purchase price is preliminary and subject to refinement:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NET SALES AND GROSS PROFIT

Sales for the six months ended June 30, 2006 increased by 20% compared to June 30, 2005. The increase was mainly due to the 100% increase in the average selling price of zinc, partly offset by the decrease in the sales volume of zinc as actual zinc mined was 41% lower during the current period.

Sales for the second quarter of 2006 increased by 55% compared to the corresponding period in 2005. The increase was mainly due to the increase in the average selling price of zinc of 153%, partly offset by the decrease in the sales volume of zinc of 15% as the actual zinc mined was lower during the current period.

The gross profit margin for the three months and six months ended June 30, 2006 was 72% and 67%, respectively, compared to 58% and 60% for the corresponding period in 2005. The increase was primarily due to the increase in selling price of zinc as a result of increased demand.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses increased by RMB1,667,000 (US\$208,000) or 31% to RMB7,106,000 (US\$888,000) for the six months ended June 30, 2006 from RMB5,439,000 (US\$680,000) for the six months ended June 30, 2005. The increase was primarily attributable to the consolidation of CHNR's expenses following the reverse acquisition.

Selling, general and administrative expenses increased by RMB1,901,000 (US\$238,000) or 105% to RMB3,715,000 (US\$464,000) for the second quarter of 2006 from RMB1,814,000 (US\$227,000) for the second quarter of 2005. The increase was primarily attributable to consolidation of CHNR's expenses following the reverse acquisition.

INTEREST INCOME, NET

Interest income decreased by RMB35,000 (US\$4,000) or 13% to RMB235,000 (US\$29,000) for the six months ended June 30, 2006 from RMB270,000 (US\$34,000) for the six months ended June 30, 2005. The decrease was primarily due to a decrease in interest income earned on loans and advances to related parties in 2005 of RMB190,000 (US\$24,000), partly offset by an increase in cash balances in 2006.

Interest income decreased by RMB105,000 (US\$13,000) or 44% to RMB135,000 (US\$17,000) for the second quarter of 2006 from RMB240,000 (US\$30,000) for the second quarter of 2005. The decrease was primarily due to a decrease in interest income earned on loans and advances to related parties in 2005 of RMB133,000 (US\$17,000).

OTHER (EXPENSE)/INCOME, NET

Other income, net for the three and six months ended June 30, 2006 primarily consisted of a net gain on trading of marketable securities of RMB1,083,000 (US\$135,000) and RMB4,958,000 (US\$620,000), respectively.

INCOME TAXES

Management believes that the Company is not subject to US taxes.

Under the current laws of the BVI, dividends and capital gains arising from the Company's investments in the BVI are not subject to income taxes and no withholding tax is imposed on payments of dividends to the Company.

Net cash inflows/outflows from the Company's operating activities are attributable to the Company's net income and changes in operating assets and liabilities.
