Houston American Energy Corp. (the "Company") provides the following updated

Edgar Filing: HOUSTON AMERICAN ENERGY CORP - Form 8-K

information regarding the status of drilling on its Cabiona prospect in Colombia:

On November 8, 2006 Hupecol LLC completed the Cabiona #8 well as an oil well in the C5B Sand after reaching a total depth of 4,348 feet. The well was turned to production on November 8, 2006 at an initial rate of 1,544 barrels of oil per day from 1 of 3 pay sands in the well. Production is expected increase as the well stabilizes. The well's pump (ESP) is currently running at the lowest rate possible for this well. The drilling rig is moving to drill the Cabiona #11 well followed by the Cabiona #10 well. Both of these wells are expected to be drilled by year-end 2006.

The Company holds, through its interest in Hupecol Dorotea and Cabiona LLC ("HDC LLC"), a 12.5% interest in the Cabiona concession. HDC LLC owns the Cabiona concession through a contract with the Colombian National Hydrocarbon Agency (ANH) and Hupecol LLC is the operator of the Cabiona concession.

Hupecol LLC currently plans to drill 37 wells in Colombia by the end of 2007 utilizing the two drilling rigs currently under contract and engaged in actual drilling operations. Of these 37 wells, 22 wells are planned for contracts in which the Company owns a 12.5% Working Interest and 15 wells are planned for contracts in which the Company owns a 1.6% Working Interest.

The Company plans to update its Colombian activities in this same manner on a quarterly basis.

This report contains forward-looking statements within the meaning of the federal securities laws. These forwarding-looking statements include, without limitation, statements regarding our expectations and beliefs about the expected increase in production from the Cabiona #8 well and the timing of drilling the Cabiona #10 and Cabiona #11 wells. These statements are subject to risks and uncertainties that could cause actual results and events to differ materially. We undertake no obligation to update forward-looking statements to reflect events or circumstances occurring after the date of this report.
