Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company	<input checked="" type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

State the number of shares outstanding of each of the issuer's classes of common equity, as of the latest practicable date: At May 17, 2010, there were 107,857,417 outstanding shares of common stock, \$.001 par value per share.

Transitional Small Business Disclosure Format (Check one): Yes No

EXPLANATORY NOTE

IceWEB, Inc. (which may be referred to as the "Company," "we," "us," or "our") filed its Quarterly Report on Form 10-Q for the quarter ended March 31, 2010, filed with the U.S. Securities and Exchange Commission (the "SEC") on May 17, 2010 (the "Original Filing"). The Original Filing included a discussion of our Controls and Procedures under Item 4, which did not adequately describe the changes in control over financial reporting that we implemented during the quarter. We have previously amended the Original Filing on August 30, 2010 (the "Amended Filing") filing in response to staff comments to correct the omission.

We are further amending the Original Filing in further response to staff comments to correct this omission in Item 4. Controls and Procedures by restating that section in its entirety. We are not amending any other part of the Original Filing or the Amended Filing. This amended Form 10-Q also contains currently dated certifications pursuant to Sections 302 and 906 of the Sarbanes-Oxley Act of 2002 as Exhibits 31.1, 31.2, 32.1 and 32.2. This amendment speaks as of the date of the Original Filing.

Part I

Item 4. Controls and Procedures.

Evaluation of disclosure controls and procedures. Our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") have evaluated the effectiveness of our disclosure controls and procedures (as defined in the Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by the Quarterly Report (the "evaluation date"). They have concluded that, as of the evaluation date, these disclosure controls and procedures were effective in providing reasonable assurance that information required to be disclosed in our reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods prescribed by SEC rules and regulations, and that such information is accumulated and communicated to our management, including our CEO and CFO to allow timely decisions regarding required disclosure as a result of continuing weaknesses in our internal control over financial reporting.

As disclosed in our Annual Report on Form 10-K for the year ended September 30, 2009, our management had previously concluded that our disclosure controls and procedures were not effective as a result of material weaknesses in our internal controls over financial reporting. Our management had concluded that our internal controls over financial reporting were not effective as a result of insufficient written policies and procedures for accounting and financial reporting with respect to the requirements and application of US GAAP and SEC disclosure requirements as well as ineffective controls over period end financial disclosure and reporting processes. During the quarter ended December 31, 2009 we completed certain remedial actions, including the implementation of policies that improved the documentation, review and approval of the calculation of stock option expense and the implementation of additional controls over our inventory management. During the period ended March 31, 2010, we hired additional staff which allowed us to more effectively implement policies and checklists setting forth procedures for accounting and financial reporting with respect to the requirements and application of US GAAP and SEC disclosure requirements.

As a result of these changes, our management believes that we have cured the material weaknesses in our disclosure controls and procedures and our internal control over financial reporting at September 30, 2009.

Changes in internal control over financial reporting. During the period ended March 31, 2010, we hired additional staff which allowed us to more effectively implement policies and checklists setting forth procedures for accounting and financial reporting with respect to the requirements and application of US GAAP and SEC disclosure requirements. These changes specifically addressed our internal control over inventory management and implement a greater level of review and oversight over our internal controls over financial reporting. There were no other changes to internal controls over financial reporting that occurred during the last fiscal quarter, that have materially affected, or are reasonably likely to materially impact, our internal controls over financial reporting.
