NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2013 (UNAUDITED)

NOTE 1 ORGANIZATION AND ACCOUNTING POLICIES

UMH Properties, Inc. (we , our , us or the Company) owns and operates sixty-eight manufactured home communities containing approximately 12,800 developed home sites. The communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. In October 2013, we acquired Rolling Hills Estates, a 91-site community in Carlisle, Pennsylvania (See Note 10). In November 2013, we acquired five manufactured home communities located in Ohio and New York for a total of 519 sites (See Note 10). With these acquisitions, we now own seventy-four communities consisting of approximately 13,400 sites. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (S&F), conducts manufactured home sales in its communities. S&F was established to enhance the occupancy of the communities. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company also invests in securities of other Real Estate Investment Trusts (REITs).

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2012.

Use of Estimates

In preparing the Consolidated Financial Statements in accordance with US GAAP, management is required to make estimates and assumptions that affect the reported amounts of Assets and Liabilities, as well as contingent Assets and Liabilities as of the dates of the Consolidated Balance Sheets and Revenue and Expenses for the years then ended. Actual results could differ significantly from these estimates and assumptions.

Stock Based Compensation

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Compensation costs of \$227,702 and \$637,079 have been recognized for the three and nine months ended September 30, 2013, respectively, and \$225,424 and \$441,368 for the three and nine months ended September 30, 2012, respectively.

On February 28, 2013, the Company granted an option to purchase 10,000 shares of common stock to one participant under the 2003 Stock Option and Award Plan, as amended. The exercise price is \$10.02 and the expiration date is February 28, 2021. The grant date fair value of this option amounted to approximately \$13,000. This grant vests over 1 year.

On June 13, 2013, the shareholders approved and ratified the Company's 2013 Stock Option and Stock Award Plan (the Plan) authorizing the grant to officers and key employees of options to purchase up to 3,000,000 shares of common stock. All options are exercisable one year from the date of grant. The option price shall not be below the fair market value at date of grant. If options granted under the Plan expire or terminate for any reason without having been exercised in full, the shares subject to, but not delivered under, such options shall become available for additional option grants under the Plan. This Plan replaced the Company's 2003 Stock Option and Award Plan, as amended, which, pursuant to its terms, terminated in 2013. The outstanding options under the 2003 Stock Option and Award Plan, as amended, remain outstanding until exercised, forfeited or expired.

On June 26, 2013, the Company granted options to purchase 382,000 shares of common stock to twenty four participants under the Plan, including an option to purchase 100,000 shares to Eugene W. Landy. The exercise price is \$10.08 and the expiration date is June 26, 2021. The grant date fair value of these options amounted to approximately \$542,400. This grant vests over 1 year. Compensation costs for grants to participants who are of retirement age were recognized at time of grant.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants during the nine months ended September 30, 2013:

	2013
Dividend yield	6.67%

Edgar Filing: UMH PROPERTIES, INC. - Form 10-Q

Expected volatility	32.37%
Risk-free interest rate	1.96%
Expected lives	8
Estimated forfeitures	-0-

10

The weighted-average fair value of options granted during the nine months ended September 30, 2013 was \$1.42.

As of September 30, 2013, there were options outstanding to purchase 1,095,000 shares. There were 2,618,000 shares available for grant under the Plan. During the nine months ended September 30, 2013, options to nine employees to purchase a total of 82,000 shares expired. The aggregate intrinsic value of options outstanding as of September 30, 2013 was \$525,043. As of September 30, 2012, there were options outstanding to purchase 789,000 shares and 518,188 shares were available for grant under the Company's 2003 Stock Option and Stock Award Plan, as amended.

Derivative Instruments and Hedging Activities

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on our variable rate debt. We attempt to limit these risks by following established risk management policies, procedures and strategies, including the use of derivative financial instruments. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes. The Company had entered into various interest rate swap agreements that had the effect of fixing interest rates relative to specific mortgage loans.

During 2012, the Company entered into two interest rate swap agreements that have the effect of fixing interest rates relative to specific mortgage loans as follows:

		Mortgage	Effective	Balance	
	Mortgage	Due Date	Interest Rate	Fixed Rate	
	Allentown/Clinton	2/1/2017	LIBOR + 3.25%	4.39%	\$10,877,740
	Various 11 properties	8/1/2017	LIBOR + 3.00%	3.89%	\$13,085,352

The Company's interest rate swap agreements are based upon 30-day LIBOR. The re-pricing and scheduled maturity dates, payment dates, index and the notional amounts of the interest rate swap agreements coincide with those of the underlying mortgage. The interest rate swap agreements are net settled monthly. The Company has designated these derivatives as cash flow hedges and has recorded the fair value on the balance sheet in accordance with ASC 815, Derivatives and Hedging (See Note 7 for information on the determination of fair value). The effective portion of the gain or loss on these hedges will be reported as a component of Accumulated Other Comprehensive Income in our Consolidated Balance Sheets. To the extent that the hedging relationships are not effective or do not qualify as cash flow hedges, the ineffective portion is recorded in Interest Expense. Hedges that received designated hedge accounting treatment are evaluated for effectiveness at the time that they are designated as well as through the hedging period. As of September 30, 2013 and December 31, 2012, the Company has determined that these interest rate swap agreements are highly effective as cash flow hedges. As a result, the fair value of these derivatives of \$(96,810) and \$(377,795), respectively, was recorded as a component of Accumulated Other Comprehensive Income, with the

corresponding

liability included in Accrued Liabilities and Deposits.

Recent Accounting Pronouncements

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. ASU 2013-02 does not change the current requirements for reporting net income or other comprehensive income in financial statements. However, ASU 2013-02 requires an entity to provide information about the amounts reclassified out of Accumulated Other Comprehensive Income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of Accumulated Other Comprehensive Income by the respective line items of net income but only if the amount reclassified is required under US GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under US GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under US GAAP that provide additional detail about those amounts. Included in Accrued Liability and Deposits

The Company is required to disclose certain information about fair values of financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are made at a specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's Securities Available for Sale have quoted market prices and are therefore classified in Level 1 of the fair value hierarchy. A quoted market price is indirectly available for our interest rate swap. This price is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows, and reflects the contractual terms of the derivative, including the period to maturity, and uses observable market-based inputs. As such, we have determined that the valuation of this interest rate swap is classified in Level 2 of the fair value hierarchy.

The fair value of Cash and Cash Equivalents and Notes Receivable approximates their current carrying amounts since all such items are short-term in nature. The fair value of Variable Rate Mortgages Payable and Loans Payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. As of September 30, 2013, the fair and carrying value of Fixed Rate Mortgages Payable amounted to \$123,530,172 and \$121,497,526, respectively. The fair value of Mortgages Payable is estimated based upon discounted cash flows at current market rates for instruments with similar remaining terms.

NOTE 8 - CONTINGENCIES AND COMMITMENTS

From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claims or litigation have a material adverse effect on the financial position or results of operations.

In 2010, a rainstorm bringing 13 inches of rain in a two-hour period caused flooding at Memphis Mobile City. All homes owned by the Company were fully restored as were the homes of all residents who elected to make repairs. On May 9, 2011, the Company was notified that a lawsuit had been filed in the United States District Court for the Western District of Tennessee on behalf of a purported class of all individuals of Mexican national origin who are current or former residents of Memphis Mobile City. The Complaint alleges various claims based on federal and state discrimination and consumer protection laws, seeking monetary damages and injunctive relief. The Complaint was served on August 29, 2011. The Company believes the action to be without merit and plans to defend it vigorously. The Company's insurance company is supporting its defense of this action.

In addition to the acquisition of the six communities completed in October and November of 2013 (see Note 10), the Company has entered into a definitive agreement to purchase eight manufactured home communities with a total of approximately 1,000 developed home sites. These communities are located in Ohio. The aggregate purchase price of these communities totals approximately \$25 million. In conjunction with the purchase of these communities, the Company will assume mortgages totaling approximately \$18 million. Subject to satisfactory due diligence, we anticipate closing this transaction during the first quarter of 2014.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and footnotes thereto included elsewhere herein and in our annual report on Form 10-K for the year ended December 31, 2012.

The Company is a self-administered, self-managed, REIT with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities—leasing sites on an annual or month-to-month basis to private manufactured home owners. The Company also leases homes to residents and, through its taxable REIT subsidiary, UMH Sales and Finance, Inc. (S&F), sells and finances homes to qualified residents and prospective residents of our communities. At September 30, 2013, the Company owned sixty-eight manufactured home communities containing approximately 12,800 developed home sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. The Company also invests in securities of other REITs.

The Company's income primarily consists of Rental and Related Income from the operation of its manufactured home communities. Income also includes sales of manufactured homes as well as sales finance operations.

Current economic indicators show the US economy to be improving. Activity in our communities has recently increased. Occupancy has increased from 80% at year-end to 82% currently. We are seeing increased demand for rental units and during 2013, have added a net of approximately 200 rental units to selected communities as well as acquired 300 rental units with fiscal 2013 community acquisitions. Occupied rental units represent approximately 15% of total occupied sites at quarter end. We hope to convert renters to new homeowners in the future. We will continue to monitor the demand for rental units and may invest in additional rentals in the last quarter of 2013.

The Company also holds a portfolio of securities of other REITs with a fair value of \$54,192,697 at September 30, 2013, which earns Dividend and Interest Income. The dividends received from our securities investments were at a weighted-average yield of approximately 7.0% as of September 30, 2013. During the nine months ended September 30, 2013, the Company recognized Gains on Sales of Securities of \$3,793,925. At September 30, 2013, the Company had Net Unrealized Gains of \$1,878,653 in its REIT securities portfolio. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments.

The Company intends to continue to increase its real estate investments. In 2011 and

19

2012, we added twenty-two manufactured home communities, encompassing approximately 2,600 developed home sites, to our portfolio. On March 1, 2013, the Company acquired 10 manufactured home communities for approximately \$67.5 million. These 10 all-age communities total 1,854 sites and are situated on approximately 400 acres. Five of these ten communities are located in Indiana, four communities are located in Pennsylvania, and one community is located in Michigan. The average occupancy for these communities at closing was approximately 85%.

On April 2, 2013, the Company acquired Holiday Mobile Village, a 274-site manufactured home community situated on approximately 68 acres, located in Nashville, Tennessee, for a purchase price of approximately \$7.3 million. The occupancy for this community at closing was approximately 82%. In October and November, 2013 the Company acquired an additional six communities totaling 610 developed home sites in Ohio, New York and Pennsylvania. The aggregate purchase price of these communities totals \$13.5 million. We have also entered into a definitive agreement to purchase eight manufactured home communities with a total of approximately 1,000 developed home sites located on Ohio for a purchase price of approximately \$25 million. We have been positioning ourselves for future growth and will continue to seek opportunistic investments.

See PART I, Item 1 Business in the Company's 2012 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

Significant Accounting Policies and Estimates

The discussion and analysis of the Company's financial condition and results of operations are based upon the Company's Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of Assets and Liabilities, Revenues and Expenses, and related disclosure of contingent Assets and Liabilities at the date of the Company's Consolidated Financial Statements. Actual results may differ from these estimates under different assumptions or conditions.

On a regular basis, management evaluates our assumptions, judgments and estimates. Management believes there have been no material changes to the items that we disclosed as our significant accounting policies and estimates under Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K for the year ended December 31, 2012.

Gain on Securities Transactions, net amounted to \$112,915 and \$1,214,664 for the quarter ended September 30, 2013 and 2012, respectively. Gain on Securities Transactions, net amounted to \$3,793,925 and \$3,495,730 for the nine months ended September 30, 2013 and 2012, respectively. At September 30, 2013, the Company had net unrealized gains of \$1,878,653 in its REIT securities portfolio. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities long-term.

Other Income increased 23% from \$52,195 for the three months ended September 30, 2012 to \$64,357 for the three months ended September 30, 2013. Other Income decreased 70% from \$607,454 for the nine months ended September 30, 2012 to \$182,139 for the nine months ended September 30, 2013. The decrease for the nine months was primarily due to the amount received on an oil and gas lease on a community in the second quarter of 2012.

Interest Expense increased 27% from \$1,689,112 for the three months ended September 30, 2012 to \$2,136,730 for the three months ended September 30, 2013. Interest Expense increased 31% from \$4,355,279 for the nine months ended September 30, 2012 to \$5,707,864 for the nine months ended September 30, 2013. These increases are primarily due to the new loan for the ten community acquisition in 2013 and the new loan for the eleven community acquisition in 2012. The Company has reduced its weighted average interest rate on its mortgages 14% from 5.1% at

September 30, 2012 to 4.4% at September 30, 2013.

Amortization of Financing Costs increased 20% from \$73,413 for the three months ended September 30, 2012 to \$87,990 for the three months ended September 30, 2013. Amortization of Financing Costs increased 20% from \$212,739 for the nine months ended September 30, 2012 to

\$255,370 for the nine months ended September 30, 2013. These increases are primarily due to the new mortgage for the acquisition of 10 communities in March 2013.

Income from Community Operations (defined as Rental and Related Income less Community Operating Expenses) amounted to \$6,369,199 and \$4,542,702 for the quarters ended September 30, 2013 and 2012, respectively. Income from Community Operations amounted to \$18,900,287 and \$12,535,563 for the nine months ended September 30, 2013 and 2012, respectively. These increases are primarily due to the acquisitions during 2013 and 2012.

Changes in Financial Condition

Total Investment Property and Equipment increased 36% or \$93,915,088 during the nine months ended September 30, 2013. This increase was primarily due to the acquisitions of 11 communities for an aggregate purchase price of \$74,750,000, which included approximately 300 rental units. The Company also added approximately 200 rental units to its existing communities.

Securities Available for Sale decreased 5% or \$3,132,743 during the nine months ended September 30, 2013. The decrease was due to sales with a cost of \$13,438,975 and a decrease in the unrealized gain of \$4,735,303. This decrease was partially offset by purchases of Securities Available for Sale of \$15,041,535.

Mortgages Payable increased 41% or \$45,111,169 during the nine months ended September 30, 2013. This increase was due to one new mortgage totaling \$53,760,000 partially offset by principal repayments of \$8,648,831. The principal repayment amount included the payoff of the mortgages on Cranberry Village and Forest Park that amounted to approximately \$5,700,000.

Loans Payable increased 313% or \$32,684,692 during the nine months ended September 30, 2013. This increase was mainly due to the draw of \$20,000,000 on the BMO Line for the acquisition of Holiday Mobile Village and for other corporate purposes.

The Company raised \$24,227,356 from the issuance of common stock in the DRIP during the nine months ended September 30, 2013, which included Dividend Reinvestments of \$1,395,927. Dividends paid on the common stock for the nine months ended September 30, 2013 were \$9,906,849, of which \$1,395,927 were reinvested. Dividends paid on the preferred stock for the nine months ended September 30, 2013 were \$5,667,441.

Liquidity and Capital Resources

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory, investment in securities of other REITs and payments of expenses relating to real estate operations. We anticipate that the liquidity demands of the recent properties acquired will be met by the operations of these acquisitions. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage

debt, leveraging of real estate investments, availability of bank borrowings, lines of credit, proceeds from the DRIP, and access to the capital markets.

Current economic indicators show the US economy to be improving. The affordability and geographic location of our homes should enable the Company to perform well despite the challenging economy. While the recent recession has proven difficult, manufactured home communities are considered to be more stable than other housing types because of their low site rents and lower-priced homes and rental units.

In addition to cash generated through operations, the Company uses a variety of sources to fund its cash needs, including acquisitions. The Company may sell marketable securities, borrow on its lines of credit, finance and refinance its properties, and/or raise capital through the DRIP and capital markets.

On March 29, 2013, the Company entered into a new \$35 million Unsecured Revolving Credit Facility with Bank of Montreal. The Company has the ability to increase the borrowing capacity by an additional amount not to exceed \$15 million, representing a maximum aggregate borrowing capacity of \$50 million, subject to various conditions, as defined in the agreement.

Net Cash provided by Operating Activities amounted to \$3,712,476 and \$4,710,629 for the nine months ended September 30, 2013 and 2012, respectively. As of September 30, 2013, the Company had Cash and Cash Equivalents of \$7.8 million, Securities Available for Sale of \$54.2 million, \$15.0 million available on its BMO Line, and \$7.0 million available on its revolving lines of credit for the financing of home sales and the purchase of inventory. The Company owns 68 properties, of which 25 are unencumbered. These marketable securities, non-mortgaged properties, and lines of credit provide the Company with additional liquidity. The Company has been raising capital through its DRIP and through public offerings of its preferred stock.

The Company believes that funds generated will be adequate to meet its obligations over the next several years.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts (NAREIT), represents Net Income (Loss) Attributable to Common Shareholders, as defined by accounting principles generally accepted in the United States of America (US GAAP), excluding Extraordinary Items, as defined under US GAAP, Gains or Losses from sales of previously depreciated real estate assets, Impairment

Charges related to depreciable real estate assets, plus certain non-cash items such as Real Estate Asset Depreciation and Amortization. NAREIT created FFO as a non-US GAAP supplemental measure of REIT operating performance. We define Core Funds From Operations (Core FFO), as FFO plus Acquisition Costs. FFO and Core FFO should be considered as supplemental measures of operating performance used by REITs. FFO and Core FFO exclude historical Cost Depreciation as an expense and may facilitate the comparison of REITs which have different cost bases. The items excluded from FFO and Core FFO are significant components in understanding the Company's financial performance.

FFO and Core FFO (i) do not represent Cash Flow from Operations as defined by US GAAP; (ii) should not be considered as an alternative to Net Income (Loss) as a measure of operating performance or to Cash Flows from Operating, Investing and Financing activities; and (iii) are not alternatives to Cash Flow as a measure of liquidity. FFO and Core FFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.

The Company's FFO and Core FFO for the three and nine months ended September 30, 2013 and 2012 are calculated as follows:

	Three Months Ended		Nine Months Ended	
	9/30/13	9/30/12	9/30/13	9/30/12
