Operating results show breakeven on a non GAAP basis (excluding option compensation and amortization of intangible assets) in the first quarter of the year 2007 as compared to a non GAAP operating income of \$130 thousands in first quarter of the year 2006. Operating loss in the first quarter of the year 2007, on a GAAP basis, was \$169 thousand as compared to a loss of \$43 thousand in first quarter of the year 2006.

Information with respect to stock-based compensation and amortization expenses for the first quarter of 2007 and 2006 is included in a table setting forth non-GAAP information that accompanies the condensed financial statements in this release.

Financial expenses in the first quarter of 2007 were \$195 thousand, as compared to \$78 thousand in the first quarter of 2006. The increase is attributed mainly to the raise of an additional \$1.5 million of convertible note during August 2006. The principal balance of the convertible note as of March 2007 was \$2.4 million, with conversion prices of \$2.97 and \$3.78. Conversion of the convertible note could significantly reduce the Company s financial expenses.

Net loss for the first quarter of 2007 amounted to \$326 thousand (or \$0.05 per share) as compared to net loss of \$160 thousand (or \$0.03 per share) in the first quarter of 2006 (excluding a gain of \$297 thousand from discontinued operations).

Cash reserves, as of March 31, 2007, totalled \$2.6 million. The Company s balance sheet also shows short term loans of \$5.1 million and long term loans of \$1.9 million. During the first quarter of 2007, we converted \$1.4 million of our short term bank loan into long term bank loans. In rights offering completed in April 2007, we raised gross proceeds of approximately \$4.4 million, which strengthen our cash and equity position.

Edouard Cukierman, Chairman of the Board of Directors, said: we are very pleased with the execution of BOS s strategic plan and are looking forward to take the Company to the next level.

Shmuel Koren, BOS s President and CEO, added: There are clear signs that our organic growth engines are gaining momentum as reflected in the 11% growth we achieved in our Supply Chain Solutions division. We continued to win new non—Israeli customers, expanded distribution agreements and, in particular, managed to ramp up our RFID revenues to a new quarterly record of \$420,000. With a much strengthened balance sheet following a successful raise of approximately \$4.4 million through a rights offering, we are well positioned to continue to enhance our company s growth and exploit lucrative opportunities in our space.
