Table of Contents***AMERICAN COMMUNITY BANCSHARES, INC.******Notes to Consolidated Financial Statements*****NOTE A - BASIS OF PRESENTATION**

In management's opinion, the financial information, which is unaudited, reflects all adjustments (consisting solely of normal recurring adjustments) necessary for a fair presentation of the financial information as of and for the three and nine months ended September 30, 2005 and 2004, in conformity with accounting principles generally accepted in the United States of America. The consolidated financial statements include the accounts of American Community Bancshares, Inc. (the Company) and its wholly owned subsidiary, American Community Bank (ACB). All significant inter-company transactions and balances are eliminated in consolidation. Operating results for the three and nine months ended September 30, 2005 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2005.

The organization and business of the Company, accounting policies followed by the Company and other information are contained in the notes to the consolidated financial statements filed as part of the Company's 2004 annual report on Form 10-KSB. This quarterly report should be read in conjunction with such annual report.

NOTE B - COMMITMENTS

At September 30, 2005, loan commitments are as follows:

Undisbursed lines of credit	\$ 69,948,828
Stand-by letters of credit	3,036,409
Loan commitments	3,420,367

NOTE C - PER SHARE RESULTS

Basic earnings per share represents income available to common stockholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the company relate solely to outstanding stock options and warrants are determined using the treasury stock method.

Three months ended		Nine months ended	
September 30		September 30	
2005	2004	2005	2004

Edgar Filing: AMERICAN COMMUNITY BANCSHARES INC - Form 10-Q

Weighted average number of common shares used in computing basic net income per share	4,536,441	3,453,019	4,137,540	3,136,207
Effect of dilutive stock options	216,978	331,295	200,174	365,725
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Weighted average number of common shares and dilutive potential common shares used in computing diluted net income per share	4,753,419	3,784,314	4,337,714	3,501,932
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

For the three and nine months ended September 30, 2005 and 2004, there were no options or warrants that were antidilutive.

Table of Contents**AMERICAN COMMUNITY BANCSHARES, INC.****Notes to Consolidated Financial Statements****NOTE D COMPREHENSIVE INCOME**

Total comprehensive income, consisting of net income and unrealized gains and losses on available for sale securities, net of taxes, was \$1,126,000 and \$1,446,000 for the three months ended September 30, 2005 and 2004, respectively. For the nine months ended September 30, 2005 and 2004, total comprehensive income was \$3,052,000 and \$2,009,000, respectively.

NOTE E STOCK COMPENSATION PLAN

Statement of Financial Accounting Standards (SFAS) No. 123, *Accounting for Stock-Based Compensation*, encourages all entities to adopt a fair value based method of accounting for employee stock compensation plans, whereby compensation cost is measured at the grant date based on the value of the award and is recognized over the service period, which is usually the vesting period. However, it also allows an entity to continue to measure compensation cost for those plans using the intrinsic value based method of accounting prescribed by Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, whereby compensation cost is the excess, if any, of the quoted market price of the stock at the grant date (or other measurement date) over the amount an employee must pay to acquire the stock. Stock options issued under the Company's stock option plans have no intrinsic value at the grant date and, under Opinion No. 25, no compensation cost is recognized for them. The Company has elected to continue with the accounting methodology in Opinion No. 25. Presented below are the pro forma disclosures of net income and earnings per share and other disclosures as if the fair value based method of accounting had been applied.

	Three months ended September 30,		Nine months ended September 30,

Diluted net income per share				
As reported	\$ 0.25	\$ 0.25	\$ 0.76	\$ 0.59
Pro forma	0.25	0.24	0.75	0.57

In December 2004, the FASB issued SFAS No. 123(R), *Accounting for Stock-Based Compensation*. This Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123(R) requires that

Edgar Filing: AMERICAN COMMUNITY BANCSHARES INC - Form 10-Q

the fair value of such equity instruments be recognized as an expense in the financial statements as services are performed. The provisions of this Statement are effective for the first interim reporting period of the first fiscal year that begins after December 15, 2005. Accordingly, we will adopt SFAS No. 123(R) commencing with the quarter ending March 31, 2006. If we had included the cost of employee stock option compensation in

- 7 -

the consolidated financial statements, our net income for the three months ended September 30, 2005 and 2004 would have decreased by approximately \$10,925 and \$17,300, respectively.

NOTE F WARRANTS EXERCISED

On April 29, 2002, the Company completed the sale of 1,000,500 units at \$9.00 per unit, which consisted of one share of common stock and one warrant to buy one share of common stock. The warrants entitled the holder to purchase one share of common stock at \$10.50 per share and expired on April 30, 2005. The following table represents total common shares issued and capital received from the exercise of the warrants.

	Common shares issued	Total capital received

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q may contain certain forward-looking statements consisting of estimates with respect to the financial condition, results of operations and business of the Company that are subject to various factors which could cause actual results to differ materially from these estimates. These factors include, but are not limited to, general economic conditions, changes in interest rates, deposit flows, loan demand, real estate values, and competition; changes in accounting principles, policies, or guidelines; changes in legislation or regulation; and other economic, competitive, governmental, regulatory, and technological factors affecting the Company's operations, pricing, products, and services. There are no pending legal proceedings other than those incurred in the normal course of business to which the Company or subsidiaries are a party, or of which any of their property is the subject.

COMPARISON OF FINANCIAL CONDITION AT SEPTEMBER 30, 2005 AND DECEMBER 31, 2004

Total assets at September 30, 2005 increased by \$43.7 million or 10.9% to \$443.2 million compared to \$399.5 million at December 31, 2004. The Company had earning assets of \$405.9 million at month-end September 30, 2005 consisting of \$332.4 million in gross loans, \$62.6 million in investment securities and other non-marketable equity securities and \$10.9 million in overnight investments. Total deposits as of September 30, 2005 increased by \$48.0 million or 15.7% to \$354.7 million compared to \$306.7 million at December 31, 2004. Total borrowed money as of September 30, 2005 decreased \$17.7 million or 32.7% to \$36.5 million compared to \$54.2 million at December 31, 2004. Stockholders' equity was \$50.1 million at September 30, 2005 compared to \$37.0 million at December 31, 2004 for an increase of \$13.1 million or 35.4%. The increase resulted from net income of \$3,299,000, the exercise of stock options and warrants which provided net proceeds of \$10.7 million, offset by other comprehensive loss of \$247,000 and the payment of cash dividends in the amount of \$633,000.

The Company recorded a \$224,000 provision for loan losses for the quarter ended September 30, 2005, representing an increase of \$67,000 or 42.7% from the \$157,000 provision for the quarter ended September 30, 2004. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management. The Company has continued to provide provisions for loan losses principally as a result of the continued growth in the loan portfolio. Total loans receivable increased by \$6.2 million during the quarter ended September 30, 2005. The allowance for loan losses at September 30, 2005 of \$3.97 million equaled 1.19% of total loans outstanding and 389% of non-performing loans, which totaled \$1.02 million. The allowance for loan losses at December 31, 2004 of \$3.5 million equaled 1.13% of total loans outstanding and 396% of non-performing loans which totaled \$881,000.

The Company had investment securities available for sale of \$58.5 million at September 30, 2005. The portfolio increased by \$6.7 million or 12.9% from the \$51.8 million balance at December 31, 2004. In addition the Company had investment securities held to maturity of \$2.2 million at September 30, 2005 and December 31, 2004.

Interest-earning deposits with banks at September 30, 2005 increased by \$4.4 million or 67.7% to \$10.9 million compared to \$6.5 million at December 31, 2004. The Company holds funds in interest-earning deposits with banks to provide liquidity for future loan demand and to satisfy fluctuations in deposit levels.

Non interest-earning assets at September 30, 2005 increased by \$8.8 million or 27.2% to \$41.2 million compared to \$32.4 million at December 31, 2004. The increase is primarily attributable to an increase of \$6.7 million to \$16.2 million in the cash and due from banks category. The cash and due from banks primarily represents customer deposits that are in the process of collection and not available for

Table of Contents

overnight investment combined with cash on hand in the branches. In addition, bank premises and equipment was \$9.8 million at September 30, 2005, an increase of \$1.1 million from December 31, 2004. The net increase resulted from purchases of \$1.8 million primarily related to the construction of two branches offset by depreciation of \$644,000. Accrued interest receivable increased \$490,000 to \$2.2 million at September 30, 2005 as a result of the timing in the collection of interest income, growth in the loan portfolio and the increase in the prime lending rate. Foreclosed real estate decreased by \$199,000 as a result of the sale of two 1-4 family properties resulting in a gain of \$9,000 and the write down of one property to net realizable value in the amount of \$17,000. Other assets increased by \$743,000 at September 30, 2005 to \$3.0 million primarily as a result of an increase in other repossessed assets of \$119,000, and an increase in deferred income taxes of \$230,000.

Total deposits increased \$48.0 million or 15.7% from \$306.7 million at December 31, 2004 to \$354.7 million at September 30, 2005. The composition of the deposit base, by category, at September 30, 2005 is as follows: 15% non-interest bearing demand deposits, 3% savings deposits, 23% money market and interest bearing demand deposits and 59% time deposits. All categories experienced increases over the three-month period with the exception of savings which decreased. Dollar and percentage increases were as follows: non-interest bearing demand deposits, \$7.2 million or 15.9%; money market, \$12.4 million or 17.9%, and time deposits, \$28.5 million or 15.8%. Time deposits of \$100,000 or more totaled \$107.6 million, or 30% of total deposits at September 30, 2005. Dollar and percentage decrease in savings was \$59,000 or 0.5%. The composition of deposits at December 31, 2004 was 15% non-interest bearing demand deposits, 4% savings deposits, 22% money market and interest bearing demand deposits and 59% time deposits.

The Company had advances from the Federal Home Loan Bank of Atlanta at September 30, 2005 of \$12.3 million with maturity dates ranging from October 2005 through February 2013. The balance of Federal Home Loan Bank advances at December 31, 2004 was \$12.8 million with maturity dates ranging from October 2005 through February 2013. These advances are secured by a blanket lien on 1-4 family real estate loans, certain commercial real property and certain securities available for sale. Total securities sold under agreements to repurchase, secured by certain of the Company's investment securities, decreased \$17.2 million or 66.5% from \$25.8 million at December 31, 2004 to \$8.6 million at September 30, 2005. Commercial repurchase agreements totaling \$15.0 million were paid off to reduce the Company's exposure to rising short-term rates. The Company also maintained the capital lease for its main office. The recorded obligation under this capital lease at September 30, 2005 was \$1.7 million. In addition, the Company carried subordinated debentures in the amount of \$13.9 million. Maturity dates of the subordinated debentures range from March 2032 to December 2033 and are redeemable March 2007 to December 2008.

Other liabilities increased \$188,000 or 12.7% to \$1.9 million at September 30, 2005 from \$1.7 million at December 31, 2004 primarily as a result in an increase in accrued income taxes.

Comparison of Results of Operations for the Three Months Ended September 30, 2005 and 2004

Net Income The Company generated net income for the three months ended September 30, 2005 of \$1,185,000 compared to net income for the three months ended September 30, 2004 of \$937,000. On a fully diluted per share basis earnings were \$.25 for the three months ended September 30, 2005 and 2004. Fully diluted earnings per share were unchanged due to the change in average diluted shares outstanding which increased from 3,784,314 for the three months ended September 30, 2004 to 4,753,419 for the three months ended September 30, 2005. On an annualized basis, return on average assets was 1.10% and 1.00% and return on average equity was 10.56% and 10.55% for the three months ended September 30, 2005 and 2004, respectively. Earnings for the three months ended September 30, 2005 were positively impacted by strong growth in average earning assets and by an increase in net interest income.

Table of Contents

Net Interest Income. Net interest income increased \$960,000 from \$3.4 million for the three months ended September 30, 2004 to \$4.3 million for the three months ended September 30, 2005. Total interest income benefited from growth in average earning assets combined with the increase in net interest margin.

Total average earning assets increased \$54.6 million or 16.1% from an average of \$339.5 million during the third quarter of 2004 to an average of \$394.1 million during the third quarter of 2005. Due to the strength of the economy in the markets the Company serves, we continued to experience strong loan growth with average loan balances increasing by \$48.5 million. The increase in average balances for investment securities and interest-earning deposits was \$6.1 million. Average interest-bearing liabilities increased by \$36.7 million for the third quarter of 2005 of which \$50.5 million was attributable to deposits while borrowings decreased \$13.8 million.

Net interest margin is interest income earned on loans, securities and other earning assets, less interest expense paid on deposits and borrowings, expressed as a percentage of total average earning assets. The net interest margin for the quarter ended September 30, 2005 was 4.36% compared to 3.97% for the same quarter in 2004. The increase in net interest margin resulted primarily from the re-pricing of the Company's prime rate based loan portfolio due to eleven increases in short-term rates by the Federal Open Market Committee since the first quarter of 2004. The prime based portfolio comprises approximately 60% of the Company's total loan portfolio. The interest rate spread, which is the difference between the average yield on earning assets and the cost of interest-bearing funds, increased 20 basis points from 3.66% in the quarter ended September 30, 2004 to 3.86% for the same quarter in 2005.

Provision for Loan Losses. The Company's provision for loan losses for the quarter ended September 30, 2005 was \$224,000, representing a \$67,000 or 42.7% increase from the \$157,000 recorded for the quarter ended September 30, 2004. The Company uses an internal grading system to assign the degree of inherent risk on each individual loan. The grade is initially assigned by the lending officer and reviewed by the Loan Administration function. The loan grading system is used to assess the adequacy of the allowance for loan losses. During 2005, the Company further refined the loan grading system by adding two additional loan grades and re-grading certain loans in the portfolio resulting in a higher provision for loan loss for the three months ended September 30, 2005 as compared to the three months ended September 30, 2004. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management.

Non-interest Income. Non-interest income decreased by \$40,000 or 4.6% to \$829,000 for the three months ended September 30, 2005 compared with \$869,000 for the same period in the prior year. Non-interest income as a percentage of total revenue (defined as net interest income plus non-interest income) decreased to 16.1% for the three months ended September 30, 2005 from 20.5% for the same period in the prior year primarily as a result of the increase in the Company's net interest income. The largest components of non-interest income were service charges on deposit accounts of \$598,000 for the quarter ended September 30, 2005 compared to \$628,000 in 2004 and fees from mortgage banking operations of \$87,000 in 2005 as compared to \$71,000 in 2004 or a 22.5% increase. Service charges on deposit accounts decreased because of the reduced utilization of the Company's overdraft privilege program. In addition, the Company recorded a gain on sale of investment securities of \$41,000 during the three months ended September 30, 2004 while no gains were recognized for the three months ended September 30, 2005.

Non-interest Expense. Total non-interest expense increased from \$2.6 million for the three months ended September 30, 2004 to \$3.1 million for the same period in 2005. This 19.2% increase was primarily due to increased expenses related to the opening of two new branches in the second quarter of 2005.

Table of Contents

Provision for Income Taxes. The Company's provision for income taxes, as a percentage of income before income taxes, was 36.7% and 37.2% for the three months ended September 30, 2005 and 2004, respectively.

Table of Contents

Comparison of Results of Operations for the Nine Months Ended September 30, 2005 and 2004

Net Income. The Company generated net income for the nine months ended September 30, 2005 of \$3.3 million compared to net income for the nine months ended September 30, 2004 of \$2.1 million. On a fully diluted per share basis earnings were \$.76 for 2005 compared to \$.59 for 2004. Annualized return on average assets was 1.07% and .82% and annualized return on average equity was 9.90% and 8.92% for the nine months ended September 30, 2005 and 2004, respectively. Earnings for the nine months ended September 30, 2005 were positively impacted by an increase in net interest income which was partially offset by increases in non-interest expense. The acquisition of FNB contributed \$154,000 to the increase in net income.

Net Interest Income. Net interest income increased \$3.4 million from \$8.5 million for the nine months ended September 30, 2004 to \$11.9 million for the nine months ended September 30, 2005. Total interest income benefited from strong growth in average earning assets and the increase in net interest margin combined with the FNB acquisition which contributed \$901,000 to the increase.

Total average earning assets increased \$70.0 million or 22.4% from an average of \$311.9 million during the first nine months of 2004 to an average of \$381.9 during the first nine months of 2005. The Company experienced strong loan growth with average loan balances increasing by \$66.7 million. The acquisition of FNB added approximately \$57.0 million of the \$66.7 million increase in average loans. Average balances for investment securities and interest-earning deposits increased \$3.3 million. Average interest-bearing liabilities increased by \$55.4 million during the first nine months of 2005 of which \$62.9 million was attributable to deposits while borrowings decreased \$7.5 million. The acquisition of FNB contributed \$49.4 million in average deposits and \$4.8 million in average borrowings.

Net interest margin is interest income earned on loans, securities and other earning assets, less interest expense paid on deposits and borrowings, expressed as a percentage of total average earning assets. The net interest margin for the nine months ended September 30, 2005 was 4.17% compared to 3.63% for the same period in 2004. The increase in net interest margin resulted primarily from the re-pricing of the Company's prime rate based loan portfolio due to eleven increases in short-term rates by the Federal Open Market Committee since the first quarter of 2004. The interest rate spread, which is the difference between the average yield on earning assets and the cost of interest-bearing funds, increased to 3.73% for the nine months ended September 30, 2005 compared to 3.30% for the same period in 2004.

Provision for Loan Losses. The Company's provision for loan losses for the nine months ended September 30, 2005 was \$515,000, representing a \$100,000 or 24.1% increase over the \$415,000 recorded for the nine months ended September 30, 2004. The Company uses an internal grading system to assign the degree of inherent risk on each individual loan. The grade is initially assigned by the lending officer and reviewed by the Loan Administration function. The loan grading system is used to assess the adequacy of the allowance for loan losses. During 2005, the Company further refined the loan grading system by adding two additional loan grades and re-grading certain loans in the portfolio resulting in a higher provision for loan loss for the nine months ended September 30, 2005 as compared to the nine months ended September 30, 2004. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management.

Non-Interest Income. Non-interest income of \$2.5 million for the nine months ended September 30, 2005 remained relatively unchanged from the same period in the prior year. Non-interest income as a percentage of total revenue (defined as net interest income plus non-interest income) decreased to 17% at September 30, 2005 from 22.4% at September 30, 2004 as a result of the increase in the Company's net interest income. The largest components of non-interest income were service charges on deposit accounts of \$1.7 million for the quarters ended September 30, 2005 and 2004 and fees from mortgage banking operations of \$308,000 in 2005 as compared to \$245,000 in 2004 or a 26% increase. Fees from mortgage operations increased due to a continued strong local housing market.

Table of Contents

Non-Interest Expenses. Total non-interest expense increased from \$7.2 million for the nine months ended September 30, 2004 to \$8.6 million for the same period in 2005. This 19% increase was primarily due to increased operating expenses resulting from the April 15, 2004 acquisition of FNB, which accounted for \$858,000 of the \$1.4 million increase, and increased expenses related to the opening of two new branches in the second quarter of 2005.

Income Taxes. The Company's provision for income taxes, as a percentage of income before income taxes, was 37.1% and 37.2% for the nine months ended September 30, 2005 and 2004, respectively.

Liquidity and Capital Resources

Maintaining adequate liquidity while managing interest rate risk is the primary goal of the Company's asset and liability management strategy. Liquidity is the ability to fund the needs of the Company's borrowers and depositors, pay operating expenses, and meet regulatory liquidity requirements. Maturing investments, loan and mortgage-backed security principal repayments, deposit growth and borrowings from the Federal Home Loan Bank are presently the main sources of the Company's liquidity. The Company's primary uses of liquidity are to fund loans, operating expenses, deposit withdrawals, repay borrowings and to make investments.

As of September 30, 2005, liquid assets (cash and due from banks, interest-earning deposits with banks, and investment securities available for sale) were approximately \$85.6 million, which represented 19.3% of total assets and 21.9% of total deposits and borrowings. Supplementing this liquidity, the Company has available lines of credit from correspondent banks of approximately \$20.0 million and an additional line of credit with the FHLB equal to 15% of assets (subject to available qualified collateral, with borrowings of \$12.3 million outstanding from the FHLB at September 30, 2005). At September 30, 2005, outstanding commitments to extend credit were \$3.4 million and available line of credit balances totaled \$69.9 million. Management believes that the combined aggregate liquidity position of the Company is sufficient to meet the funding requirements of loan demand and deposit maturities and withdrawals in the near term.

Certificates of deposit represented 58.9% of the Company's total deposits at September 30, 2005 and December 31, 2004. The Company's growth strategy will include efforts focused at increasing the relative volume of transaction deposit accounts. Certificates of deposit of \$100,000 or more represented 30% of the Company's total deposits at September 30, 2005. These deposits are generally considered rate sensitive, but management believes most of them are relationship-oriented. While the Company will need to pay competitive rates to retain these deposits at maturity, there are other subjective factors that will determine the Company's continued retention of those deposits.

Banks and bank holding companies, as regulated institutions, must meet required levels of capital. The FDIC and the Federal Reserve, the primary regulators of the Bank and the Company, respectively, have adopted minimum capital regulations or guidelines that categorize components and the level of risk associated with various types of assets. Financial institutions are expected to maintain a level of capital commensurate with the risk profile assigned to its assets in accordance with these guidelines. At September 30, 2005, the Company maintained capital levels exceeding the minimum levels for well capitalized bank holding companies and banks.

Table of Contents

Asset Quality

No material changes have occurred in the Company's asset quality since December 31, 2004.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk reflects the risk of economic loss resulting from adverse changes in market price and interest rates. This risk of loss can be reflected in diminished current market values and/or reduced potential net interest income in future periods.

The Company's market risk arises primarily from interest rate risk inherent in its lending and deposit-taking activities. The structure of the Company's loan and deposit portfolios is such that a significant decline in interest rates may adversely impact net market values and net interest income. The Company does not maintain a trading account nor is the Company subject to currency exchange risk or commodity price risk. Interest rate risk is monitored as part of the Company's asset/liability management function, which is discussed above in Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations under the heading Liquidity and Capital Resources.

Management does not believe there has been any significant change in the overall analysis of financial instruments considered market risk sensitive since December 31, 2004.

Item 4. Controls and Procedures

The Company maintains a system of internal controls and procedures designed to provide reasonable assurance as to the reliability of the consolidated financial statements and other disclosures included in this report. The Company's Board of Directors, operating through its audit committee which is composed entirely of independent outside directors, provides oversight to the Company's financial reporting process.

The Company's management, under the supervision and with the participation of the Chief Executive Officer and the Chief Financial Officer of the Company (its principal executive officer and principal financial officer, respectively), have concluded based on their evaluation as of the end of the period covered by this quarterly report that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief Executive Officer and the Chief Financial Officer of the Company, as appropriate to allow timely decisions regarding required disclosure.

There were no significant changes in the Company's internal controls during the Company's last fiscal quarter that could significantly affect the Company's internal control over financial reporting.
