The section entitled "Selling Securityholders" in the Prospectus is superseded in its entirety with the following:

SELLING SECURITYHOLDERS

On June 12, 2006, we issued \$180,000,000 aggregate principal amount of debentures to Citigroup Global Markets Inc. and Credit Suisse Securities (USA) LLC (each an "initial purchaser" and together, the "initial purchasers"). On June 26, 2006, we issued an additional \$27,000,000 aggregate principal amount of debentures to the initial purchasers to cover over-allotments. These initial purchasers then resold the debentures to persons reasonably believed by the initial purchasers to be qualified institutional buyers in reliance on Rule 144A of the Securities Act. Based on representations made to us by the selling securityholders, we believe that the selling securityholders purchased the debentures in the ordinary course of business and that at the time of the purchase of the debentures, such selling securityholders had no agreements or understandings, directly or indirectly with any person to distribute such securities. All of the debentures were issued as "restricted securities" under the Securities Act. Selling securityholders may from time to time offer and sell pursuant to this prospectus any or all of shares of common stock issuable upon exchange of the debentures.

The following table sets forth information, as of March 30, 2007, with respect to the selling securityholders and the principal amounts of debentures beneficially owned by each selling securityholder, and the number of shares of common stock issuable upon exchange of the debentures that may be offered pursuant to this prospectus. The information is based on information provided by or on behalf of the selling securityholders. The selling securityholders may offer all, some or none of the common stock set forth in the table below. The selling securityholders identified below may have sold, transferred or otherwise disposed of all or a portion of their debentures or common stock issuable upon exchange of the debentures since the date on which they provided the information regarding such securities in transactions exempt from the registration requirements of the Securities Act. The percentage of debentures outstanding beneficially owned by each selling securityholder is based on \$207,000,000 aggregate principal amount of debentures outstanding. The number of shares of common stock owned prior to the offering includes shares of common stock issuable upon exchange of the debentures. The percentage of common stock outstanding beneficially owned by each selling securityholder is based on 134,674,605 shares of common stock outstanding on March 28, 2007. The number of shares of common stock issuable upon exchange of the debentures offered hereby is based on a conversion price of \$17.6174 per share and a cash payment in lieu of any fractional share. Assuming that all of the securities offered hereby are sold, none of the selling securityholders will hold greater than one percent of the total number of shares outstanding upon completion of these sales (based on 134,674,605 shares outstanding as of March 28, 2007).
