BASIS OF PRESENTATION

We report our results of operations on a 52- or 53-week fiscal year ending on the Sunday closest to December 31, with each fiscal quarter generally divided into three periods consisting of two four-week periods and one five-week period. For ease of reference, we identify our fiscal years in this prospectus by reference to the calendar year ending closest to the last day of such fiscal year. For example, we refer to our fiscal years ended January 1, 2012, December 30, 2012 and December 29, 2013 as fiscal 2011, fiscal 2012 and fiscal 2013, respectively.

MARKET, INDUSTRY AND OTHER DATA

Unless otherwise indicated, information contained or incorporated by reference in this prospectus concerning our industry and the markets in which we operate is based on information from independent industry and research organizations, such as Buxton Company, and other third-party sources (including the *Nutrition Business Journal*, the *Progressive Grocer's 80th Annual Report of the Grocery Industry* (referred to as *Progressive Grocer*), and other industry publications, surveys and forecasts), and management estimates. Management estimates are derived from publicly available information released by independent industry analysts and third-party sources, as well as data from our internal research, and are based on assumptions made by us upon reviewing such data and our knowledge of our industry and markets, which we believe to be reasonable. In addition, projections, assumptions and estimates of the future performance of our industry and our future performance are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described in Risk Factors. These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by us.

RECENT TRANSACTIONS

In 2002, Sprouts Farmers Markets, LLC, an Arizona limited liability company (referred to as Sprouts Arizona) opened the first Sprouts Farmers Market store in Chandler, Arizona. In 2011, we were formed when Sprouts Arizona combined with Henry's Holdings, LLC (referred to as Henry's), which operated 35 Henry's Farmers Markets stores and eight Sun Harvest Market stores (referred to as the Henry's Transaction). The Henry's Transaction was led by investment funds affiliated with, and co-investment vehicles managed by, Apollo Management VI, L.P. (referred to as the Apollo Funds). The Apollo Funds are affiliates of Apollo Global Management, LLC (together with its subsidiaries, referred to as Apollo). In May 2012, we acquired Sunflower Farmers Market, Inc., which operated 37 Sunflower Farmers Market stores (referred to as Sunflower). We refer to this as the Sunflower Transaction. The Henry's Transaction and the Sunflower Transaction are collectively referred to as the Transactions.

Effective as of April 23, 2013, we entered into a credit agreement with Credit Suisse AG, Cayman Islands Branch, as administrative agent, and certain lenders (referred to as the Credit Facility), providing for a \$700.0 million senior secured term loan (referred to as the Term Loan), and a \$60.0 million senior secured revolving credit facility (referred to as the Revolving Credit Facility). A portion of the proceeds of the Term Loan was used to repay in full the outstanding balance of \$403.1 million under our prior credit facility. We used the remaining proceeds of the Term Loan, together with cash on hand, to make a distribution to our equity holders, to make payments to vested option holders and to pay transaction fees and expenses. We refer to the transactions through which we entered into the Credit Facility and applied the proceeds as described above as the April 2013 Refinancing. We used a portion of the net proceeds of our IPO (as defined below) to repay \$340.0 million of outstanding indebtedness under the Term Loan. In addition, we voluntarily paid down \$40.0 million of outstanding indebtedness under the Term Loan during the fourth quarter of 2013.

CORPORATE CONVERSION

On July 29, 2013, Sprouts Farmers Markets, LLC, a Delaware limited liability company, converted into Sprouts Farmers Market, Inc., a Delaware corporation and the issuer of the shares of common stock offered by this prospectus, pursuant to a statutory conversion (referred to as the corporate conversion). As used in this prospectus, unless the context otherwise requires, references to the Company, Sprouts, we, us and refer to Sprouts Farmers Markets, LLC and after the corporate conversion to Sprouts Farmers Market, Inc. and, where appropriate, its subsidiaries. In the corporate conversion, each unit of Sprouts Farmers Markets, LLC was converted into 11 shares of common stock of Sprouts Farmers Market, Inc., and each option to purchase units of Sprouts Farmers Markets, LLC was converted into an option to purchase 11 shares of common stock of Sprouts Farmers Market, Inc. For the convenience of the reader, except as the context otherwise requires, all information contained or incorporated by reference in this prospectus is presented giving effect to the corporate conversion.

COMPARABLE STORE SALES

As used in this prospectus, the term comparable store sales growth refers to the percentage change in our comparable store sales as compared to the prior comparable period. Our practice is to include sales from a store in comparable store sales beginning on the first day of the 61st week following the store's opening and to exclude sales from a closed store from comparable store sales beginning on the day of closure. We include sales from an acquired store in comparable store sales on the later of (i) the day of acquisition or (ii) the first day of the 61st week following the store's opening. This practice may differ from the methods that other retailers use to calculate comparable store sales.

In this prospectus we discuss our pro forma comparable store sales growth for fiscal 2009 through fiscal 2013. We compute pro forma comparable store sales growth giving effect to (i) the 2011 combination of Sprouts Arizona with Henry's in the Henry's Transaction, and (ii) our 2012 acquisition of Sunflower in the Sunflower Transaction, in each case as if such Transactions occurred on the first day of fiscal 2007. Stores acquired in these transactions have been rebranded as Sprouts Farmers Market stores. See Prospectus Summary Summary Consolidated Historical and Pro Forma Financial and Other Data for reconciliation of historical sales to pro forma net sales and a presentation of pro forma comparable store sales growth for fiscal 2009 through fiscal 2013.

In addition, in this prospectus we refer to pro forma comparable store sales growth on a two-year stacked basis, which is computed by adding the pro forma comparable store sales growth of the period referenced and the pro forma comparable store sales growth of the same fiscal period ended twelve months prior.

We believe pro forma comparable store sales growth provides investors with helpful information with respect to our operating performance.

PRO FORMA INFORMATION

This prospectus contains unaudited pro forma financial information prepared in accordance with Article 11 of Regulation S-X. The unaudited pro forma condensed consolidated statement of operations for fiscal 2013 gives pro forma effect to:

the April 2013 Refinancing; and

the issuance of 18,888,889 shares of common stock in our IPO (as defined below) (excluding the remaining 1,588,326 shares of common stock issued in that offering, which were deemed to have

been used to pay underwriting discounts, offering expenses in such offering and general corporate expenses) and the application of \$340.0 million of the proceeds to us from the sale of such shares by us to repay certain indebtedness (referred to collectively as the Pro Forma Offering); in each case as if such transactions had been consummated on December 31, 2012, the first day of fiscal 2013. See Unaudited Pro Forma Condensed Consolidated Financial Information.

NON-GAAP FINANCIAL MEASURES

To supplement our financial information presented in accordance with U.S. generally accepted accounting principles (referred to as GAAP), we use the following additional measures to clarify and enhance an understanding of past performance:

Adjusted EBITDA, which is defined as earnings (net income or loss) before interest, taxes, depreciation, amortization and accretion, further adjusted to eliminate the effects of items management does not consider in assessing our ongoing performance; and

Adjusted EBIT, which is defined as earnings (net income or loss) before interest and taxes, further adjusted to eliminate the effects of items management does not consider in assessing ongoing performance.

See Prospectus Summary Summary Consolidated Historical and Pro Forma Financial and Other Data for further discussion and a reconciliation of adjusted EBITDA and adjusted EBIT.

Adjusted EBITDA and adjusted EBIT are performance measures that provide supplemental information we believe is useful to analysts and investors to evaluate our ongoing results of operations, when considered alongside other GAAP measures such as net income, net income per share, operating income and gross profit. These non-GAAP measures exclude the financial impact of items management does not consider in assessing our ongoing operating performance, and thereby facilitate review of our operating performance on a period-to-period basis. Other companies may have different capital structures or different lease terms, and comparability to our results of operations may be impacted by the effects of acquisition accounting on our depreciation and amortization. As a result of the effects of these factors and factors specific to other companies, we believe adjusted EBITDA and adjusted EBIT provide helpful information to analysts and investors to facilitate a comparison of our operating performance to that of other companies. We also use adjusted EBITDA, as further adjusted for additional items defined in our Credit Facility (as defined below), for board of director and bank compliance reporting.

These non-GAAP measures are intended to provide additional information only and do not have any standard meanings prescribed by GAAP. Use of these terms may differ from similar measures reported by other companies. Because of their limitations, these non-GAAP measures should not be considered as measures of discretionary cash available to use to reinvest in growth of our business, or as measures of cash that will be available to meet our obligations. These non-GAAP measures have their limitations as analytical tools, and you should not consider them in isolation or as a substitute for analysis of our results as reported under GAAP.

PROSPECTUS SUMMARY

Before investing in our common stock, you should carefully read this prospectus and the information incorporated by reference herein in their entirety, including the section entitled Risk Factors in this prospectus and in our Form 10-K and our consolidated financial statements and related notes included in our Form 10-K.

As used in this prospectus, unless the context otherwise requires, references to the Company, Sprouts, we, us and our refer to Sprouts Farmers Markets, LLC and after the corporate conversion to Sprouts Farmers Market, Inc. and, where appropriate, its subsidiaries.

Who We Are

Sprouts Farmers Market is a high-growth, differentiated, specialty retailer of natural and organic food focusing on health and wellness at great value. We offer a complete shopping experience that includes fresh produce, bulk foods, vitamins and supplements, grocery, meat and seafood, bakery, dairy, frozen foods, body care and natural household items catering to consumers' growing interest in eating and living healthier. Since our founding in 2002, we have grown rapidly, significantly increasing our sales, store count and profitability. With fiscal 2013 net sales of \$2.4 billion and 170 stores in nine states as of February 28, 2014, we are one of the largest specialty retailers of natural and organic food in the United States. According to research conducted for us by Buxton Company, a customer analytics research firm, we have significant growth opportunities in existing and new markets across the United States with the potential for approximately 1,200 locations operating under our current format.

The cornerstones of our business are fresh, natural and organic products at compelling prices, an attractive and differentiated shopping experience, and knowledgeable team members who we believe provide best-in-class customer service and product education. These attributes have positioned us to deliver strong financial results, as evidenced by the following:

Stores under our management have achieved positive comparable store sales growth for 27 consecutive quarters, including throughout the recent economic downturn;

Pro forma comparable store sales growth of 10.7% in fiscal 2013 and 9.7% in fiscal 2012, or 20.4% on a two-year stacked basis through fiscal 2013;

Net sales of \$2.4 billion in fiscal 2013, representing an increase of 36% from net sales of \$1.8 billion in fiscal 2012, and an increase of 22% from pro forma net sales of \$2.0 billion in fiscal 2012;

Adjusted EBITDA of \$195.2 million in fiscal 2013; and

Net income of \$51.3 million in fiscal 2013, an increase of \$31.8 million from fiscal 2012 net income of \$19.5 million.

Healthy Living for Less. We offer high-quality, natural and organic products at attractive prices in every department. Consistent with our farmers market heritage, our offering begins with fresh produce, which we source, warehouse and distribute in-house and sell at prices we believe to be

significantly below those of other food retailers. In addition, our scale, operating structure and deep industry relationships position us to consistently deliver Healthy Living for Less throughout the store. Based on our experience, we believe we attract a broad customer base, including conventional supermarket customers, and appeal to a much wider demographic than other specialty retailers of natural and organic food. We believe that over time, our compelling prices and product offering converts many trial customers into loyal lifestyle customers who shop Sprouts with greater frequency and across an increasing number of departments.

Attractive, Differentiated Shopping Experience. In a convenient, small-box format (average store size of 27,500 sq. ft.), our stores have a farmers market feel, with a bright, open-air atmosphere to create a comfortable and engaging in-store experience. We strive to be our customers everyday market. We feature fresh produce and bulk foods at the center of the store surrounded by a complete grocery offering, including vitamins and supplements, grocery, meat and seafood, bakery, dairy, frozen foods, beer and wine, body care and natural household items. Consistent with our natural and organic offering, we choose not to carry most of the traditional, national branded consumer packaged goods generally found at conventional grocery retailers (e.g., Doritos, Tide and Lucky Charms). Instead, we offer high-quality alternatives that emphasize our focus on fresh, natural and organic products at great values.

Customer Service & Education. We are dedicated to our mission of Healthy Living for Less, and we attract team members who share our passion for educating and serving our customers with the goal of making healthy eating easier and more accessible. We believe our well-trained and engaged team members help our customers increasingly understand that they can purchase a wide selection of high-quality, healthy and great tasting food for themselves and their families at attractive prices by shopping at Sprouts.

Our Industry

We operate in the \$600 billion U.S. supermarket industry and, based on our industry experience, we believe we are capturing significant market share from conventional supermarkets and other food retailers. We believe interest in healthy eating, an increasing focus on preventative health measures, and the rising costs of healthcare have driven significant growth in natural and organic food consumption. According to the *Nutrition Business Journal*, spending on natural and organic food experienced a compound annual growth rate (referred to as CAGR) of 12% from 1997 to 2012, reaching \$54 billion in the United States, and is expected to continue to grow to \$113 billion in 2020, representing a CAGR of 11.3% from 2013 to 2020.

What Makes Us Different

We believe the following competitive strengths position Sprouts to capitalize on two powerful, long-term consumer trends a growing interest in health and wellness and a focus on value:

Comprehensive natural and organic product offering at great value. We feature an expansive offering of high-quality, natural and organic products at compelling value. In particular, we position Sprouts to be a value leader in fresh produce in order to drive trial visits to our stores by new customers. We believe that, over time, our differentiated product offering and strong value proposition converts many trial customers into loyal, lifestyle customers.

Resilient business model with strong financial performance. We achieved positive, pro forma comparable store sales growth of 2.6%, 2.3%, 5.1%, 9.7% and 10.7% in fiscal 2009, 2010, 2011, 2012

and 2013, respectively. We believe the consistency of our performance over time, even through the recent economic downturn from 2008 to 2010, and across geographies and vintages is the result of a number of factors, including our distinctive value positioning and merchandising strategies, product innovation and a well-trained staff focused on customer education and service. In addition, we believe our high volume and low-cost store model enhance our ability to consistently offer competitive prices on a complete assortment of natural and organic products.

Proven and replicable economic store model. We believe that our store model, combined with our rigorous store selection process and a growing interest in health and wellness, contribute to our attractive new store returns on investment. Our typical store requires an average new store cash investment of approximately \$2.8 million, including store buildout (net of contributions from landlords), inventory (net of payables) and cash pre-opening expenses. Based on historical performance, we target pre-tax cash-on-cash returns of 35-40% within three to four years after opening. We believe the consistent performance of our store portfolio across geographies and vintages supports the portability of the Sprouts brand and store model into a wide range of markets.

Significant new store growth opportunity supported by broad demographic appeal. We believe, based on our experience, that our broad product offering and value proposition appeals to a wider demographic than other leading competitors, including higher-priced health food and gourmet food retailers. Sprouts has been successful across a variety of urban, suburban and rural locations in diverse geographies, from California to Oklahoma, underscoring the heightened interest in eating healthy across markets. Based on research conducted for us, we believe that the U.S. market can support approximately 1,200 Sprouts Farmers Market stores operating under our current format, including 300 in states in which we currently operate. We intend to achieve 12% or more annual new store growth over at least the next five years, balanced among existing, adjacent and new markets.

The below diagram shows our current store footprint, by state, as of February 28, 2014.

Current Store Locations

Store Count

Passionate and experienced management team with proven track record. Since inception, we have been dedicated to delivering Healthy Living for Less. Our passion and commitment is shared by team members throughout the entire organization, from our stores to our corporate office. Our executive management team has extensive grocery and food retail industry experience, and deep roots in organic, natural and specialty food retail. With recent investments in people, systems and other infrastructure, we believe we are well positioned to achieve our future growth plans.

Growing Our Business

We are pursuing a number of strategies to continue our growth and strong financial performance, including:

Expand our store base. We intend to continue expanding our store base by pursuing new store openings in existing markets, expanding into adjacent markets, and penetrating new markets. From our founding in 2002 through February 28, 2014, we opened 94 new stores while successfully rebranding 43 Henry's and 39 Sunflower stores to the Sprouts banner. On a combined basis, Sprouts, Henry's and Sunflower opened an average of 17 stores per year from fiscal 2008 through fiscal 2013. We opened 19 new stores in fiscal 2013. We expect to continue to expand our store base with 22-24 store openings planned in fiscal 2014, of which three have opened as of February 28, 2014, and we intend to achieve 12% or more annual new store growth over at least the next five years.

Increase comparable store sales. For 27 consecutive quarters, including throughout the recent economic downturn from 2008 to 2010, stores under our management have achieved positive comparable store sales growth. We believe we can continue to grow the number of customer transactions by enhancing our core value proposition and distinctive customer-oriented shopping experience. We aim to grow our average ticket by continuing to expand and refine our fresh, natural and organic product offering, our targeted and personalized marketing efforts and our in-store education. We believe these factors, combined with the continued strong growth in natural and organic food consumption, will allow Sprouts to gain new customers, increase customer loyalty and, over time, convert single-department trial customers into core, lifestyle customers who shop Sprouts with greater frequency and across an increasing number of departments.

Continue to enhance our operating margins. We believe we can continue to enhance our operating margins through efficiencies of scale, improved systems, continued cost discipline and enhancements to our merchandise offerings. We have made significant investments in management, information technology systems, training, marketing, compliance and other infrastructure to enable us to pursue our growth plans, which we believe will also enhance our margins over time. Furthermore, we expect to achieve economies of scale in sourcing and distribution as we add new stores.

Grow the Sprouts Farmers Market brand. We are committed to supporting our stores, product offerings and brand through a variety of marketing programs, private label offerings and corporate partnerships. In addition, we will continue our community outreach and charity programs to more broadly connect with our local communities with the aim of promoting our brand and educating consumers on healthy choices. We will also continue to expand our innovative marketing and promotional strategy through print, digital and social media platforms, all of which promote our mission of Healthy Living for Less.

On August 6, 2013, we completed our initial public offering (referred to as our IPO) of 21,275,000 shares of common stock, including 2,775,000 shares of common stock issued as a result of the exercise in full of the underwriters' option to purchase additional shares, at a price of \$18.00 per share. We sold 20,477,215 shares of common stock, including the additional shares, and certain stockholders sold the remaining 797,785 shares. We received net proceeds from our IPO of approximately \$344.1 million, after deducting underwriting discounts and offering expenses. We used the net proceeds to repay \$340.0 million of outstanding indebtedness under the Term Loan and the remainder for general corporate purposes.

On December 2, 2013, certain of our stockholders completed a second public offering of 19,550,000 shares of common stock, including 2,550,000 shares of common stock sold as a result of the exercise in full of the underwriters' option to purchase additional shares, at a price of \$37.00 per share (referred to as the December Secondary Offering). We did not sell any shares in the December Secondary Offering.

unfavorable changes in or our failure to comply with governmental regulation could harm our business;

disruptions to, or security breaches involving, our information technology systems;

Conflicts of Interest

Apollo Global Securities, LLC, an underwriter of this offering, is an affiliate of Apollo, our controlling stockholder. Since Apollo beneficially owns more than 10% of our outstanding common stock, a conflict of interest is deemed to exist under Financial Industry Regulation Authority (referred to as FINRA) Rule 5121(f)(5)(B). In addition, a conflict of interest is also deemed to exist under Rule 5121(f)(5)(C) because affiliates of Apollo Global Securities, LLC will receive more than 5% of the net proceeds of this offering. However, an exception from the requirement to use a qualified independent underwriter is available because our common stock has a bona fide public market, as defined in Rule 5121(f)(3). In accordance with Rule 5121, Apollo Global Securities, LLC will not sell our common stock to a discretionary account without receiving written approval from the account holder. See Underwriting Conflicts of Interest.

Summary Consolidated Historical and Pro Forma Financial and Other Data

The following tables summarize our consolidated historical and pro forma financial and other data and should be read together with Unaudited Pro Forma Condensed Consolidated Financial Information, included elsewhere in this prospectus and Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements and related notes included in our Form 10-K incorporated by reference into this prospectus. We have derived the consolidated statements of operations data for fiscal 2011, fiscal 2012 and fiscal 2013 from our audited consolidated financial statements included in our Form 10-K incorporated by reference into this prospectus. Our historical results set forth below are not necessarily indicative of results to be expected for any future period.

In 2002, Sprouts Arizona opened the first Sprouts Farmers Market store in Chandler, Arizona. In 2011, Sprouts Arizona combined with Henry's, which operated 35 Henry's Farmers Market stores and eight Sun Harvest Market stores, as a part of the Henry's Transaction led by the Apollo Funds. Apollo held a controlling interest in Henry's former parent prior to the Henry's Transaction and continued to hold a controlling interest in the Company afterwards. Due to Apollo's continued controlling interest, the Henry's Transaction resulted in Henry's financial statements becoming the financial statements of the Company, followed immediately by the acquisition by the Company of the Sprouts Farmers Market business. As a result, the Company was determined to be the accounting acquirer, effective April 18, 2011. Accordingly, our consolidated financial statements for the period from January 3, 2011 through April 17, 2011 reflect only the historic results of Henry's prior to the Henry's Transaction. Commencing on April 18, 2011, our consolidated financial statements also include the financial position, results of operations and cash flows of Sprouts Arizona.

In May 2012, we acquired Sunflower in the Sunflower Transaction. Commencing on May 29, 2012, our consolidated financial statements also include the financial position, results of operations and cash flows of Sunflower.

Edgar Filing: Sprouts Farmers Market, Inc. - Form S-1

The April 2013 Refinancing and our IPO had a material impact on our results of operations. Accordingly, we have included pro forma information for fiscal 2013 which gives effect to these transactions, as more fully described in the notes below. See Unaudited Pro Forma Condensed Consolidated Financial Information for unaudited pro forma information for fiscal 2013.

Total long-term debt, including current portion	311,240

- (1) The results of operations for the period from January 3, 2011 through April 18, 2011 reflect the sales and expenses directly attributable to Henry's operations and include allocations of expenses from Henry's previous parent company. These expenses were allocated to Henry's on the basis that was considered to reflect fairly or reasonably the utilization of the services provided to, or the benefit obtained by, Henry's. Historical financial statements for Henry's prior to April 18,

2011 do not reflect the interest expense or debt Henry's might have incurred if it had been a stand-alone entity. Additionally, we would have expected to incur other expenses not reflected in our historical financial statements prior to April 18, 2011, if Henry's had operated as a stand-alone entity.

Commencing on April 18, 2011, our consolidated financial statements also include the financial position, results of operations and cash flows of Sprouts Arizona.

- (2) For the period from April 18, 2011 to May 28, 2012 our consolidated financial statements include the financial position, results of operations and cash flows of Henry's and Sprouts Arizona. Commencing on May 29, 2012, our consolidated financial statements also include the financial position, results of operations and cash flows of Sunflower.
- (3) The pro forma information gives effect to pro forma adjustments to reflect the April 2013 Refinancing, the issuance of 18,888,889 shares of common stock in our IPO (excluding the remaining 1,588,326 shares of common stock issued in that offering, which were deemed to have been used to pay underwriting discounts, offering expenses in such offering and general corporate expenses) and the application of \$340.0 million of the proceeds to us from the sale of such shares by us to repay certain indebtedness under our Credit Facility as if these events had occurred on the first day of fiscal 2013. This is based on net proceeds of our IPO to us of \$344.1 million (including the exercise of the underwriters' option to purchase additional shares), after deducting \$24.5 million of underwriting discounts and commissions and offering expenses. See Unaudited Pro Forma Condensed Consolidated Financial Information for a presentation of such pro forma financial data for fiscal 2013.
- (4) Pro forma net income per share (basic and diluted) and weighted average shares outstanding (basic and diluted) give effect to the items described in note 3 above as if they had occurred on the first day of fiscal 2013. See Unaudited Pro Forma Condensed Consolidated Financial Information for a presentation of such pro forma financial data for fiscal 2013.
- (5) Adjusted EBITDA is a non-GAAP measure defined as earnings (net income) before interest, taxes, depreciation, amortization and accretion, further adjusted to eliminate the effects of items management does not consider in assessing our ongoing performance. Adjusted EBIT is a non-GAAP measure defined as earnings (net income) before interest and taxes, further adjusted to eliminate the effects of items management does not consider in assessing ongoing performance.

Adjusted EBITDA and adjusted EBIT are performance measures that provide supplemental information we believe is useful to analysts and investors to evaluate our ongoing results of operations, when considered alongside other GAAP measures such as net income, operating income and gross profit. These non-GAAP measures exclude the financial impact of items management does not consider in assessing our ongoing operating performance, and thereby facilitate review of our operating performance on a period-to-period basis. Other companies may have different capital structures or different lease terms, and comparability to our results of operations may be impacted by the effects of acquisition accounting on our depreciation and amortization. As a result of the effects of these factors and factors specific to other companies, we believe adjusted EBITDA and adjusted EBIT provide helpful information to analysts and investors to facilitate a comparison of our operating performance to that of other companies. We also use adjusted EBITDA, as further adjusted for additional items defined in our Credit Facility, for board of director and bank compliance reporting.

These non-GAAP measures are intended to provide additional information only and do not have any standard meanings prescribed by GAAP. Use of these terms may differ from similar measures reported by other companies. Because of their limitations, none of these non-GAAP measures should be considered as a measure of discretionary cash available to use to reinvest in growth of our business, or as a measure of cash that will be available to meet our obligations. Each of these non-GAAP measures has its limitations as an analytical tool, and you should not consider them in isolation or as a substitute for analysis of our results as reported under GAAP.

The following table shows a reconciliation of adjusted EBITDA and adjusted EBIT to net income for fiscal 2013:

	Fiscal 2013

Total adjustments	26,366
Interest expense, net	37,185
Adjusted EBIT	147,618
Depreciation, amortization and accretion	47,539

Adjusted EBITDA	\$ 195,157
-----------------	------------

- (a) **Costs associated with integration** represent the costs to integrate the combined businesses resulting from the Transactions. These expenses include professional fees and severance, which we exclude from our adjusted EBITDA and adjusted EBIT to provide period-to-period comparability of our operating results because management believes these costs do not directly reflect the ongoing performance of our store operations.
- (b) **IPO bonus** represents bonuses related to the IPO paid to our team members, which are included in selling, general and administrative expenses.
- (c) **Loss on extinguishment of debt** represents the portion of previously recorded deferred financing costs and original issue discounts written off in connection with the refinancing of debt. This amount also includes \$0.5 million related to the renegotiation of a store lease that was classified as a financing lease obligation. We exclude losses on extinguishment of debt from our adjusted EBITDA and adjusted EBIT to provide period-to-period comparability of our operating results because management believes these costs do not directly reflect the ongoing performance of our store operations.
- (d) **Store closure and exit costs** have been excluded from our adjusted EBITDA and adjusted EBIT. Store closure and exit costs in fiscal 2013 include charges related to the closure of a former Sunflower warehouse, and adjustments to sublease estimates for stores and facilities already closed.
- (e) **Loss on disposal of assets** represents the loss recorded in connection with the disposal of property and equipment. We exclude gains and losses on disposals of assets from our adjusted EBITDA and adjusted EBIT to provide period-to-period comparability of our operating results because management believes these costs do not directly reflect the ongoing performance of our store operations.
- (f) **Secondary offering expenses including employment taxes on option exercises** represents expenses we incurred in the December Secondary Offering and employment taxes paid by the Company in connection with options exercised in that offering. We have excluded these items from our adjusted EBITDA and adjusted EBIT to provide period-to-period comparability of our operating results because management believes these costs do not directly reflect the performance of our store operations.
- (6) Pro forma comparable store sales growth reflects comparable store sales growth calculated as if the Transactions had been consummated prior to all reported periods. Our practice is to include net sales from a store in comparable store sales beginning on the first day of the 61st week following the store's opening and to exclude net sales from a closed store from comparable store sales on the day of closure. We include net sales from an acquired store in comparable store sales on the later of (i) the day of acquisition or (ii) the first day of the 61st week following the store's opening. We use pro forma comparable store sales to calculate pro forma comparable store sales growth. A reconciliation of pro forma net sales to net sales and a presentation of pro forma comparable store sales growth are as follows for the periods indicated:

Supplemental Pro Forma Data - Net Sales

Pro forma net sales	\$ 1,239,370	\$ 1,490,359	\$ 1,722,655	\$ 1,990,963	\$ 2,437,911
Pro forma comparable store sales growth(b)	2.6%	2.3%	5.1%	9.7%	10.7%

- (a) Pro forma adjustments reflect the net sales of Sprouts Arizona and Sunflower for all periods reported.
- (b) Pro forma comparable store sales growth is calculated including all stores acquired in the Transactions for all periods reported.
- (7) As a result of a change in reporting entity from Henry's to us in fiscal 2011, we acquired 56 Sprouts Arizona stores in the Henry's Transaction. We acquired 37 Sunflower stores in the Sunflower Transaction in fiscal 2012.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties described below and under Risk Factors in our Form 10-K, together with all of the other information included or incorporated by reference in this prospectus, including our consolidated financial statements and related notes in our Form 10-K and other filings with the SEC, before deciding whether to purchase shares of our common stock. Any of these risks could materially and adversely affect our business, operating results, financial condition, or prospects and cause the value of our common stock to decline, which could cause you to lose all or part of your investment.

Risks Related to this Offering and Ownership of our Common Stock

Our stock price may be volatile, and you may not be able to resell your shares at or above the offering price or at all.

Prior to our IPO in August 2013, there had been no public market for our common stock. An active public market for our common stock may not be sustained. If an active public market is not sustained, it may be difficult for you to sell your shares of our common stock at a price that is attractive to you, or at all. The price of our common stock in any such market may be higher or lower than the price that you pay in this offering. If you purchase shares of our common stock in this offering, you will pay a price that was not established in a competitive market. Rather, you will pay the price that the selling stockholders negotiated with the representatives of the underwriters, which may not be indicative of prices that will prevail in the trading market.

There is no guarantee that our common stock will appreciate in value or even maintain the price at which our stockholders have purchased their shares. The trading price of our common stock may be volatile and subject to wide price fluctuations in response to various factors, many of which are beyond our control, including the following:

actual or anticipated fluctuations in our quarterly or annual financial results;

the financial guidance we may provide to the public, any changes in such guidance, or our failure to meet such guidance;

failure of industry or securities analysts to maintain coverage of our company, changes in financial estimates by any industry or securities analysts that follow our company, or our failure to meet such estimates;

various market factors or perceived market factors, including rumors, whether or not correct, involving us or our competitors;

fluctuations in stock market prices and trading volumes of securities of similar companies;

sales, or anticipated sales, of large blocks of our stock;

short selling of our common stock by investors;

additions or departures of key personnel;

new store openings or entry into new markets by us or by our competitors;

regulatory or political developments;

Edgar Filing: Sprouts Farmers Market, Inc. - Form S-1

changes in accounting principles or methodologies;

litigation and governmental investigations;

acquisitions by us or by our competitors; and

general financial market conditions or events.

Furthermore, the stock markets have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies. These fluctuations often have been unrelated or disproportionate to the operating performance of those companies. These and other factors may cause the market price and demand for our common stock to fluctuate substantially, which may limit or prevent investors from readily selling their shares of common stock and may otherwise negatively affect the price or liquidity of our common stock. In addition, in the past, when the market price of a stock has been volatile, holders of that stock have sometimes instituted securities class action litigation against the company that issued the stock. If any of our stockholders were to bring a lawsuit against us, we could incur substantial costs defending the lawsuit or paying for settlements or damages. Such a lawsuit could also divert the time and attention of our management from our business.

The large number of shares eligible for public sale could depress the market price of our common stock.

The market price of our common stock could decline as a result of sales of a large number of shares of our common stock in the market, and the perception that these sales could occur may depress the market price. We had 147,751,776 shares of common stock outstanding as of March 17, 2014. Of these shares, the 21,275,000 shares of common stock sold in our IPO and the 19,550,000 shares of common stock sold in the December Secondary Offering are, and the shares of common stock sold in this offering will be, freely tradable, except for any shares purchased by our affiliates as defined in Rule 144 under the Securities Act of 1933, as amended (referred to as the Securities Act).

The remaining shares of our common stock outstanding after this offering are restricted securities, as such term is defined in Rule 144 under the Securities Act. In addition, the stockholders agreement by and among us and holders of all of the outstanding shares of our common stock prior to our IPO (referred to as the Stockholders Agreement) limits the ability of such current equity holders (other than the Apollo Funds) to sell their shares, subject to various exceptions, until October 31, 2014 (subject to a potential extension of up to 90 days). However, the Apollo Funds will have the ability to require us to register shares of our common stock held by them for resale, and our stockholders party to the Stockholders Agreement will also have the ability to participate in such registered offerings or to otherwise sell the same percentage of their shares of our common stock as the percentage of shares sold by the Apollo Funds in any such registered offering. We are registering the shares offered by the selling stockholders hereby pursuant to the exercise by the Apollo Funds of a demand registration right under the Stockholders Agreement. See Shares Eligible for Future Sale Registration Rights under the Stockholders Agreement. Subject to the foregoing, after the expiration of the restricted period, these shares may be sold in the public market, subject to prior registration or qualification for an exemption from registration, including, in the case of shares held by affiliates, compliance with the volume restrictions of Rule 144.

Following a specified period after any registered offering pursuant to the exercise by the Apollo Funds of a demand registration right under the Stockholders Agreement (which could be up to 90 days), stockholders party to the Stockholders Agreement who do not sell the same percentage of their shares of our common stock as the percentage of shares sold by the Apollo Funds in such offering are permitted to sell such number of shares they would have been permitted to sell in such offering if they had so elected. Accordingly, an aggregate of 1,855,716 shares of our common stock (including shares issuable upon exercise of stock options) that were eligible for sale in the December Secondary Offering were released from the transfer restrictions under the Stockholders Agreement. In addition, beginning 60 days after the completion of this offering, an additional shares of our common stock that were permitted to be sold in this offering but were not so offered will also be released from such transfer restrictions. On June 30, 2014, a number of shares held by each stockholder party to the Stockholders Agreement equal to (x) 33% of the shares held thereby as of the date such stockholder became a party to the Stockholders

Agreement minus (y) any shares previously released from the transfer restrictions thereunder, will be released from the transfer restrictions under the Stockholders Agreement.

We, our officers and directors and the selling stockholders will enter into lock-up agreements in connection with this offering that will restrict transfers for a period of 60 days, subject to certain exceptions. This 60-day restricted period may be extended under a limited number of circumstances. See Underwriting .

We have registered all shares of common stock that we may issue under our incentive plans. They can be freely sold in the public market upon issuance, subject to volume limitations applicable to affiliates and the lock-up arrangements described above.

Sales of common stock as restrictions end may make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate.

In the future, we may also issue our securities in connection with a capital raise or acquisitions. The amount of shares of our common stock issued in connection with a capital raise or acquisition could constitute a material portion of our then-outstanding shares of common stock, which would result in dilution.

Our principal stockholders have substantial control over us and are able to influence corporate matters.

As of the date of this prospectus, our directors, executive officers, and holders of more than 5% of our common stock, together with their affiliates, beneficially own, in the aggregate, approximately 49.0% of our outstanding common stock. In particular, as of the date of this prospectus, the Apollo Funds beneficially own, in the aggregate, approximately 37.3% of our outstanding common stock, and will own, in the aggregate, approximately % of our outstanding common stock upon the completion of this offering. These amounts compare to approximately 27.6% of our outstanding common stock represented by the shares sold in our IPO and in the December Secondary Offering, and % of our outstanding common stock sold in this offering. As a result, these stockholders, acting together, or the Apollo Funds acting alone, will be able to exercise significant influence over all matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions, such as a merger or other sale of our company or its assets. This concentration of ownership could limit your ability to influence corporate matters and may have the effect of delaying or preventing a third party from acquiring control over us.

Certain underwriters are affiliates of our controlling stockholder and have interests in this offering beyond customary underwriting discounts and commissions.

Apollo Global Securities, LLC, an underwriter of this offering, is an affiliate of Apollo, our controlling stockholder. Since Apollo beneficially owns more than 10% of our outstanding common stock, a conflict of interest is deemed to exist under FINRA Rule 5121(f)(5)(B). In addition, a conflict of interest is also deemed to exist under Rule 5121(f)(5)(C) because affiliates of Apollo Global Securities, LLC will receive more than 5% of the net proceeds of this offering. Accordingly, we intend that this offering will be made in compliance with the applicable provisions of Rule 5121. In particular, pursuant to Rule 5121, the appointment of a qualified independent underwriter is not necessary because our common stock has a bona fide public market as defined in Rule 5121(f)(3). However, in accordance with Rule 5121, Apollo Global Securities, LLC will not sell our common stock to a discretionary account without receiving written approval from the account holder. See Underwriting Conflicts of Interest.

Anti-takeover provisions could impair a takeover attempt and adversely affect existing stockholders.

Certain provisions of our certificate of incorporation and bylaws and applicable provisions of Delaware law may have the effect of rendering more difficult, delaying, or preventing an acquisition of our company, even when this would be in the best interest of our stockholders. Our corporate governance documents include the following provisions:

creating a classified board of directors whose members serve staggered three-year terms;

authorizing blank check preferred stock, which could be issued by our board of directors without stockholder approval and may contain voting, liquidation, dividend, and other rights superior to our common stock;

limiting the liability of, and providing indemnification to, our directors and officers;

prohibiting our stockholders from acting by written consent, thereby requiring stockholder action to be taken at an annual or special meeting of stockholders;

prohibiting our stockholders from calling special meetings of stockholders, which may delay the ability of our stockholders to force consideration of a proposal or the ability of holders controlling a majority of our capital stock to take any action, including the removal of directors;

requiring advance notice of stockholder proposals for business to be conducted at meetings of our stockholders and for nominations of candidates for election to our board of directors;

controlling the procedures for the conduct and scheduling of board and stockholder meetings;

providing the board of directors with the express power to postpone previously scheduled annual meetings and to cancel previously scheduled special meetings;

permitting newly created directorships resulting from an increase in the authorized number of directors or vacancies on our board of directors to be filled only by a majority of our remaining directors, even if less than a quorum is then in office, or by a sole remaining director; and

providing that our board of directors is expressly authorized to make, repeal, alter, or amend our bylaws.

In addition, Delaware law imposes conditions on the voting of control shares and on certain business combination transactions with interested stockholders.

These provisions, alone or together, could delay or prevent hostile takeovers and changes in control or changes in our management. Any provision of our certificate of incorporation or bylaws or Delaware law that has the effect of delaying or deterring a change in control could limit the opportunity for our stockholders to receive a premium for their shares of our common stock, and could also affect the price that some investors are willing to pay for our common stock.

If securities or industry analysts cease publishing research or reports about us, our business, or our market, or if they adversely change their recommendations regarding our stock, our stock price and trading volume could decline.

Edgar Filing: Sprouts Farmers Market, Inc. - Form S-1

The trading market for our common stock is influenced by the research and reports that industry or securities analysts may publish about us, our business, our market or our competitors. If we do not maintain adequate research coverage, or if any of the analysts who may cover us downgrade our stock or publish inaccurate or unfavorable research about our business or provide relatively more favorable recommendations about our competitors, our stock price could decline. If any analyst who may cover us were to cease coverage of our company or fail to regularly publish reports on us, we could lose visibility in the financial markets, which in turn could cause our stock price or trading volume to decline.

Since we do not expect to pay any cash dividends for the foreseeable future, investors in this offering may be forced to sell their stock in order to obtain a return on their investment.

We do not anticipate declaring or paying in the foreseeable future any cash dividends on our capital stock. Instead, we plan to retain any earnings to finance our operations and growth plans discussed elsewhere or incorporated by reference in this prospectus. In addition, our Credit Facility contains covenants that would restrict our ability to pay cash dividends. Accordingly, investors must rely on sales of their common stock after price appreciation, which may never occur, as the only way to realize any return on their investment. As a result, investors seeking cash dividends should not purchase our common stock.

NOTES TO UNAUDITED PRO FORMA CONDENSED CONSOLIDATED FINANCIAL INFORMATION

1. Basis of Presentation and Description of Transactions

In April 2013, we completed the April 2013 Refinancing, which consisted of a refinancing of our debt, a distribution to our equity holders of \$282 million and payments to vested option holders of \$13.9 million. In conjunction with our IPO, we used proceeds received in the offering to repay \$340.0 million of our existing indebtedness, which is further reflected in these unaudited pro forma condensed consolidated financial statements. For further information about the April 2013 Refinancing and the \$340.0 million repayment, see Note 13 to our audited consolidated financial statements included in our Form 10-K incorporated by reference into this prospectus.

The historical Sprouts Farmers Market, Inc. results of operations for fiscal 2013 are derived from our audited consolidated financial statements included in our Form 10-K incorporated by reference into this prospectus.

2. Pro Forma Sprouts Farmers Market, Inc.

The Pro Forma Sprouts Farmers Market, Inc. condensed consolidated statement of operations data for fiscal 2013 reflects the pro forma effect of the April 2013 Refinancing and the issuance of 18,888,889 shares of common stock in our IPO (excluding the remaining 1,588,326 shares of common stock issued in that offering, which were deemed to have been used to pay underwriting discounts, offering expenses in such offering and general corporate expenses) and the application of \$340.0 million of the proceeds to us from the sale of such shares by us to repay certain indebtedness as described herein as if these events had occurred on the first day of fiscal 2013, as follows:

^(a) The pro forma adjustment to interest expense represents the decrease in pro forma interest expense on the Credit Facility related to the repayment on our Credit Facility. The pro forma adjustment of \$9.0 million is based on an effective interest rate of 4.0%, which reflects the 0.5% reduction in the applicable interest rate upon completion of our IPO.

^(b) The pro forma adjustment to loss on extinguishment of debt includes \$8.2 million related to our April 2013 Refinancing and \$9.0 million related to the \$340.0 million repayment discussed above.

^(c) The pro forma adjustment to income tax (provision) benefit is derived by applying a blended federal and state statutory tax rate of 39.0% to the pro forma adjustment to interest expense and loss on extinguishment of debt described above.

^(d) Pro forma net income per weighted average basic and diluted shares outstanding gives effect to the issuance of 18,888,889 shares of common stock in our IPO (excluding the remaining 1,588,326 shares of common stock issued in that offering, which were deemed to have been used to pay underwriting discounts, offering expenses in such offering and general corporate expenses).

PRINCIPAL AND SELLING STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our common stock as of March 17, 2014 by the following:

each of our directors and named executive officers;

all of our directors and executive officers as a group;

each person, or group of affiliated persons, who is known by us to beneficially own more than 5% of our common stock; and

each selling stockholder.

Beneficial ownership is determined according to the rules of the SEC and generally means that a person has beneficial ownership of a security if he, she, or it possesses sole or shared voting or investment power of that security, including options that are currently exercisable or exercisable within 60 days of March 17, 2014. Shares issuable pursuant to options are deemed outstanding for computing the percentage of the person holding such options, but are not outstanding for computing the percentage of any other person. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons named in the table below have sole voting and investment power with respect to all shares of common stock shown that they beneficially own, subject to community property laws where applicable. The information does not necessarily indicate beneficial ownership for any other purpose.

The information contained in the table below assumes no exercise by the underwriters of their option to purchase an additional 2,250,000 shares of common stock from the selling stockholders.

Our calculation of the percentage of beneficial ownership is based on 147,751,776 shares of common stock outstanding as of March 17, 2014.

DESCRIPTION OF CAPITAL STOCK

General

Our authorized capital stock consists of 200,000,000 shares of common stock, \$0.001 par value per share, and 10,000,000 shares of undesignated preferred stock, \$0.001 par value per share. The following description summarizes the most important terms of our capital stock. Because it is only a summary, it does not contain all the information that may be important to you. For a complete description, you should refer to our certificate of incorporation and bylaws, which are included as exhibits to the registration statement of which this prospectus forms a part, and to the provisions of applicable Delaware law. The descriptions of the common stock and preferred stock reflect changes to our capital structure that became effective upon the corporate conversion.

Common Stock

As of March 17, 2014, there were 147,751,776 shares of our common stock outstanding, held by 530 stockholders of record, and no shares of our preferred stock outstanding.

Dividend Rights

Subject to preferences that may apply to shares of preferred stock outstanding at the time, the holders of outstanding shares of our common stock are entitled to receive dividends out of funds legally available at the times and in the amounts that our board of directors may determine.

Voting Rights

Each holder of our common stock is entitled to one vote for each share of common stock held on all matters submitted to a vote of stockholders. Cumulative voting for the election of directors is not provided for in our certificate of incorporation, which means that the holders of a majority of our shares of common stock voted can elect all of the directors then standing for election.

Preemptive or Similar Rights

Our common stock is not entitled to preemptive rights and is not subject to conversion or redemption. The rights of the holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of our preferred stock that our board of directors may designate and issue in the future.

Liquidation Rights

Upon our liquidation, dissolution, or winding-up, the assets legally available for distribution to our stockholders would be distributable ratably among the holders of our common stock and any participating preferred stock outstanding at that time after payment of liquidation preferences, if any, on any outstanding shares of preferred stock and payment of other claims of creditors.

Preferred Stock

Our board of directors is authorized, subject to limitations prescribed by Delaware law, to issue up to 10,000,000 shares of our preferred stock in one or more series, to establish from time to time the number of shares to be included in each series, to fix the designation, powers, preferences, and rights

of the shares of each series and any of its qualifications, limitations, or restrictions, in each case without further action by our stockholders. Our board of directors can also increase or decrease the number of shares of any series of preferred stock, but not below the number of shares of that series then outstanding. Our board of directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of the common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring, or preventing a change in our control and might adversely affect the market price of our common stock and the voting and other rights of the holders of our common stock. We have no current plan to issue any shares of preferred stock.

Options and Restricted Stock Units

As of March 17, 2014, we had outstanding stock options to purchase an aggregate of 10,950,413 shares of our common stock, at a weighted average exercise price of \$4.62 per share, outstanding under our 2011 Option Plan and our 2013 Incentive Plan and 108,980 shares of common stock issuable upon vesting of restricted stock units outstanding under our 2013 Incentive Plan.

Anti-Takeover Effects of Our Certificate of Incorporation and Bylaws

We are governed by the Delaware General Corporation Law (referred to as the DGCL). Our certificate of incorporation and our bylaws contain certain provisions that could have the effect of delaying, deterring, or preventing another party from acquiring control of our company. These provisions, which are summarized below, may discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed, in part, to encourage persons seeking to acquire control of our company to negotiate first with our board of directors. We believe that the benefits of increased protection of our potential ability to negotiate more favorable terms with an unfriendly or unsolicited acquirer outweigh the disadvantages of potentially discouraging a proposal to acquire our company.

Undesignated Preferred Stock

As discussed above, our board of directors has the ability to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to acquire control of our company. These and other provisions may have the effect of deterring hostile takeovers or delaying changes in control or management of our company.

Limits on Ability of Stockholders to Act by Written Consent or Call a Special Meeting

Our certificate of incorporation provides that our stockholders may not act by written consent, which may lengthen the amount of time required to take stockholder actions. As a result, a holder controlling a majority of our capital stock would not be able to amend our bylaws or remove directors without holding a meeting of our stockholders called in accordance with our bylaws.

In addition, our certificate of incorporation provides that special meetings of the stockholders may be called only by the chairperson of our board or our board of directors. Stockholders may not call a special meeting, which may delay the ability of our stockholders to force consideration of a proposal or for holders controlling a majority of our capital stock to take any action, including the removal of directors.

Requirements for Advance Notification of Stockholder Nominations and Proposals

Our bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our board of directors or a committee of our board of directors. These provisions may have the effect

of precluding the conduct of certain business at a meeting if the proper procedures are not followed. These provisions may also discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of our company.

Board Classification

Our board of directors is divided into three classes, one class of which is elected each year by our stockholders. The directors in each class will serve for a three-year term. For more information on the classified board, see "Corporate Governance Board Structure" in our Definitive Proxy Statement on Schedule 14A, as filed with the SEC on March 17, 2014 and incorporated by reference herein (referred to as our "Proxy Statement"). In addition, our certificate of incorporation and our bylaws provide that directors may be removed only for cause. The classification of our board of directors and the limitations on the ability of our stockholders to remove directors could make it more difficult for a third party to acquire, or discourage a third party from seeking to acquire, control of our company.

No Cumulative Voting

Our certificate of incorporation and bylaws do not permit cumulative voting in the election of directors. Cumulative voting allows a stockholder to vote a portion or all of the stockholder's shares for one or more candidates for seats on the board of directors. Without cumulative voting, a minority stockholder may not be able to gain as many seats on our board of directors as the stockholder would be able to gain if cumulative voting were permitted. The absence of cumulative voting makes it more difficult for a minority stockholder to gain a seat on our board of directors to influence our board's decision regarding a takeover or otherwise.

Amendment of Charter Provisions

The amendment of the above provisions of our certificate of incorporation and bylaws requires approval by holders of at least two-thirds of our outstanding capital stock entitled to vote generally in the election of directors.

Delaware Anti-Takeover Statute

Our certificate of incorporation provides that we are not governed by Section 203 of the DGCL which, in the absence of such provisions, would have imposed additional requirements regarding mergers and other business combinations.

The provisions of our certificate of incorporation and bylaws could have the effect of discouraging others from attempting hostile takeovers and, as a consequence, might also inhibit temporary fluctuations in the market price of our common stock that often result from actual or rumored hostile takeover attempts. These provisions might also have the effect of preventing changes in our management. It is possible that these provisions could make it more difficult to accomplish transactions that stockholders might otherwise deem to be in their best interests.

Limitations of Liability and Indemnification

Our certificate of incorporation and bylaws provide that we will indemnify our directors and officers, and may indemnify our team members and other agents, to the fullest extent permitted by the DGCL, which prohibits our certificate of incorporation from limiting the liability of our directors for the following:

any breach of the director's duty of loyalty to us or to our stockholders;

acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;

unlawful payment of dividends or unlawful stock repurchases or redemptions; and

any transaction from which the director derived an improper personal benefit.

If Delaware law is amended to authorize corporate action further eliminating or limiting the personal liability of a director, then the liability of our directors will be eliminated or limited to the fullest extent permitted by Delaware law, as so amended. Our certificate of incorporation will not eliminate a director's duty of care and, in appropriate circumstances, equitable remedies, such as injunctive or other forms of non-monetary relief, remain available under Delaware law. This provision also does not affect a director's responsibilities under any other laws, such as the federal securities laws or other state or federal laws. Under our bylaws, we will also be empowered to purchase insurance on behalf of any person whom we are required or permitted to indemnify.

In addition to the indemnification required in our certificate of incorporation and bylaws, we have entered into indemnification agreements with each of our current directors and executive officers. These agreements will provide for the indemnification of such persons for all reasonable expenses and liabilities, including attorneys' fees, judgments, fines, and settlement amounts, incurred in connection with any action or proceeding brought against them by reason of the fact that they are or were serving in such capacity. We believe that these bylaw provisions and indemnification agreements are necessary to attract and retain qualified persons as directors and officers. We also maintain directors' and officers' liability insurance.

The limitation of liability and indemnification provisions in our certificate of incorporation and bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duties. They may also reduce the likelihood of derivative litigation against directors and officers, even though an action, if successful, might benefit us and our stockholders. A stockholder's investment may be harmed to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. There is no pending litigation or proceeding naming any of our directors or officers as to which indemnification is being sought, nor are we aware of any pending or threatened litigation that may result in claims for indemnification by any director or officer.

Our common stock is listed on the NASDAQ Global Select Market under the symbol SFM.

SHARES ELIGIBLE FOR FUTURE SALE

Prior to our IPO in August 2013, there had been no public market for our capital stock. Future sales of our common stock in the public market, or the availability of such shares for sale in the public market, could adversely affect market prices prevailing from time to time. As described below, only a limited number of shares are available for sale following our IPO due to contractual and legal restrictions on resale. Nevertheless, sales of our common stock in the public market after such restrictions lapse, or the perception that those sales may occur, could adversely affect the prevailing market price at such time and our ability to raise equity capital in the future.

As of March 17, 2014, after giving effect to the issuance of shares to certain selling stockholders upon exercise of stock options in connection with the consummation of this offering, there would have been _____ shares of common stock outstanding and options to acquire _____ shares of common stock under the 2011 Option Plan and the 2013 Incentive Plan. Of these outstanding shares, all of the 21,275,000 shares sold in our IPO and all of the 19,550,000 shares sold in the December Secondary Offering are, and all of the shares being sold this offering will be, freely tradable, except that any shares held by our affiliates (as that term is defined in Rule 144 under the Securities Act) may only be sold in compliance with the limitations described below.

The remaining shares of our common stock outstanding after this offering are restricted securities, as such term is defined in Rule 144 under the Securities Act. In addition, certain of such shares are subject to restrictions under the Stockholders Agreement, and, if applicable, restrictions under new lock-up agreements with the underwriters of this offering, as described below, in each case subject to certain exceptions. Beginning 60 days after the completion of this offering, an additional _____ shares of our common stock that were permitted to be sold in this offering but were not so offered will be released from the transfer restrictions under the Stockholders Agreement. In addition, on June 30, 2014, a number of shares held by each stockholder party to the Stockholders Agreement equal to (x) 33% of the shares held thereby as of the date such stockholder became a party to the Stockholders Agreement minus (y) any shares previously released from the transfer restrictions thereunder, will be released from the transfer restrictions under the Stockholders Agreement. Following the expiration of the applicable lock-up period pursuant to any such lock-up agreements, but subject to the Stockholders Agreement, restricted securities may be sold in the public market only if registered or if they qualify for an exemption from registration under Rule 144 or Rule 701 promulgated under the Securities Act, described in greater detail below.

Rule 144

In general, a person who has beneficially owned restricted shares of our common stock for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the 90 days preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least 90 days before the sale. Persons who have beneficially owned restricted shares of our common stock for at least six months but who are our affiliates at the time of, or any time during the 90 days preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of either of the following:

1% of the number of shares of our common stock outstanding at the time of such sale, which equals 1,477,518 shares as of March 17, 2014; or

the average weekly trading volume of our common stock on the NASDAQ Global Select Market during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale;

provided, in each case, that we are subject to the Exchange Act periodic reporting requirements for at least 90 days before the sale. Such sales both by affiliates and by non-affiliates must also comply with the manner of sale, current public information, and notice provisions of Rule 144.

Notwithstanding the availability of Rule 144, the holders of substantially all of our restricted shares have entered into the Stockholders Agreement described under **Certain Relationships and Related Party Transactions** **Stockholders Agreement** included in our Proxy Statement incorporated by reference into this prospectus. In addition, we, our officers and directors and the selling stockholders will enter into lock-up agreements in connection with this offering that will restrict transfers for a period of 60 days, subject to certain exceptions. This 60-day restricted period may be extended under a limited number of circumstances. See **Underwriting**. Restricted shares subject to the Stockholders Agreement and such lock-up agreements will become eligible for sale only following the expiration of the respective restrictions set forth in those agreements.

Lock-Up Agreements

We, our officers and directors and the selling stockholders have entered into lock-up agreements with the underwriters of this offering providing, subject to certain exceptions, that we and they will not, subject to certain exceptions, dispose of or hedge any shares of our common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus continuing through the date that is 60 days after such date, except with the prior written consent of Goldman, Sachs & Co., Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated. The 60-day lock-up period may be extended under certain circumstances where we release, or pre-announce a release of, our earnings shortly before or after the termination of the 60-day period, or we announce material news or a material event shortly before the termination of the 60-day period, unless Goldman, Sachs & Co., Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated waive, in writing, such extension.

Transfer Restrictions under the Stockholders Agreement

We entered into the Stockholders Agreement with the stockholders of all of our outstanding shares of common stock prior to the pricing of our IPO. The Stockholders Agreement limits transfers of shares of our common stock by stockholders party thereto other than the Apollo Funds, prior to October 31, 2014 (subject to a potential extension of up to 90 days), subject to certain exceptions. In particular, shares eligible to be included in our registered offerings (including this offering) that are effected pursuant to the exercise by the Apollo Funds of a demand registration right under the Stockholders Agreement but that are not included in such offerings will be released from this limitation after a specified period following the relevant offering (which will be 60 days in the case of this offering, and could be up to 90 days for any subsequent offering). In addition, to the extent not already sold or released from transfer restrictions under the Stockholders Agreement, 33% of the shares held by each stockholder party thereto as of the date such stockholder became such a party will be released on June 30, 2014. See **Certain Relationships and Related Party Transactions** **Stockholders Agreement** included in our Proxy Statement incorporated by reference into this prospectus.

Registration Rights under the Stockholders Agreement

The Stockholders Agreement provides the Apollo Funds with certain demand registration rights and provides the other stockholders party thereto with piggyback and tag-along rights in connection therewith. We are registering the shares offered by the selling stockholders hereby pursuant to the exercise by the Apollo Funds of a demand registration right under the Stockholders Agreement. See

Certain Relationships and Related Party Transactions Stockholders Agreement included in our Proxy Statement incorporated by reference into this prospectus.

Incentive Plans

On August 30, 2013, we filed a Form S-8 registration statement under the Securities Act to register shares of our common stock issued or reserved for issuance under our Incentive Plans. The Form S-8 registration statement became effective immediately upon filing, and shares covered by that registration statement are eligible for sale in the public markets, subject to vesting restrictions, the lock-up agreements described above, and Rule 144 limitations applicable to affiliates.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS OF COMMON STOCK

The following is a general discussion of the material U.S. federal income tax considerations with respect to the acquisition, ownership and disposition of our common stock applicable to non-U.S. holders (as defined below) who purchase our common stock pursuant to this offering. This discussion is based on current provisions of the Internal Revenue Code of 1986, as amended (referred to as the Code), existing and proposed U.S. Treasury regulations promulgated thereunder, and administrative rulings and court decisions in effect as of the date hereof, all of which are subject to change at any time, possibly with retroactive effect. No ruling has been or will be sought from the Internal Revenue Service, or IRS, with respect to the matters discussed below, and there can be no assurance the IRS will not take a contrary position regarding the tax consequences of the acquisition, ownership or disposition of our common stock, or that any such contrary position would not be sustained by a court.

For the purposes of this discussion, the term non-U.S. holder means a beneficial owner of our common stock that is not for U.S. federal income tax purposes any of the following:

an individual who is a citizen or resident of the United States;

a corporation, or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate, the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or

a trust if (1) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) it has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

It is assumed in this discussion that a non-U.S. holder holds shares of our common stock as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation that may be important to a non-U.S. holder in light of such holder's particular circumstances or that may be applicable to holders subject to special treatment under U.S. federal income tax laws (including, for example, financial institutions, dealers in securities, traders in securities that elect mark-to-market treatment, insurance companies, tax-exempt entities, holders who acquired our common stock pursuant to the exercise of employee stock options or otherwise as compensation, controlled foreign corporations, passive foreign investment companies, entities or arrangements treated as partnerships for U.S. federal income tax purposes, holders subject to the alternative minimum tax, certain former citizens or former long-term residents of the United States, holders deemed to sell our common stock under the constructive sale provisions of the Code and holders who hold our common stock as part of a straddle, hedge, synthetic security or conversion transaction), nor does it address any aspects of the unearned income Medicare contribution tax enacted pursuant to the Health Care and Education Reconciliation Act of 2010. In addition, except to the extent provided below, this discussion does not address U.S. federal tax laws other than those pertaining to the U.S. federal income tax, nor does it address any aspects of U.S. state, local or non-U.S. taxes. Accordingly, prospective investors are encouraged to consult with their own tax advisors regarding the U.S. federal, state, local, non-U.S. income and other tax considerations of acquiring, holding and disposing of shares of our common stock.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds shares of our common stock, the tax treatment of a partner generally will depend on the status of the

partner and the activities of the partnership. Partnerships holding our common stock and partners in such partnerships are urged to consult their tax advisors as to the particular U.S. federal income tax consequences of acquiring, holding and disposing of our common stock.

THIS SUMMARY IS NOT INTENDED TO CONSTITUTE A COMPLETE DESCRIPTION OF ALL TAX CONSEQUENCES RELATING TO THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK. HOLDERS OF OUR COMMON STOCK ARE ENCOURAGED TO CONSULT WITH THEIR TAX ADVISORS REGARDING THE TAX CONSEQUENCES TO THEM (INCLUDING THE APPLICATION AND EFFECT OF ANY STATE, LOCAL, NON-U.S. INCOME AND OTHER TAX LAWS) OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK.

Information Reporting and Backup Withholding

As discussed above under Dividend Policy, we currently have no plans to pay regular dividends on our common stock. In the event that we do pay dividends, generally we or certain financial middlemen must report annually to the Internal Revenue Service (referred to as the IRS) and to each non-U.S. holder the amount of dividends paid to, and the tax withheld with respect to, each non-U.S. holder. These reporting requirements apply regardless of whether withholding was reduced or eliminated. Copies of this information also may be made available under the provisions of a specific treaty or agreement with the tax authorities in the country in which the non-U.S. holder resides or is established.

U.S. backup withholding (currently at a rate of 28%) is imposed on certain payments to persons that fail to furnish the information required under the U.S. information reporting requirements. Dividends paid to a non-U.S. holder of our common stock generally will be exempt from backup withholding if the non-U.S. holder provides to us or our paying agent a properly executed IRS Form

W-8BEN or W-8ECI (as applicable) or otherwise establishes an exemption.

Under U.S. Treasury regulations, the payment of proceeds from the disposition of our common stock by a non-U.S. holder effected at a U.S. office of a broker generally will be subject to information reporting and backup withholding, unless the beneficial owner, under penalties of perjury, certifies, among other things, its status as a non-U.S. holder or otherwise establishes an exemption. The certification procedures described in the above paragraph will satisfy these certification requirements as well. The payment of proceeds from the disposition of our common stock by a non-U.S. holder effected at a non-U.S. office of a broker generally will not be subject to backup withholding and information reporting, except that information reporting (but generally not backup withholding) may apply to payments if the broker is:

a U.S. person;

a controlled foreign corporation for U.S. federal income tax purposes;

a foreign person, 50% or more of whose gross income from certain periods is effectively connected with a U.S. trade or business; or

a foreign partnership if at any time during its tax year (a) one or more of its partners are U.S. persons who, in the aggregate, hold more than 50% of the income or capital interests of the partnership or (b) the foreign partnership is engaged in a U.S. trade or business.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder can be credited against the non-U.S. holder's U.S. federal income tax liability, if any, and any excess refunded, provided that the required information is furnished to the IRS in a timely manner.

Legislation Relating to Foreign Accounts

Under the Foreign Account Tax Compliance Act (referred to as FATCA), a 30% withholding tax will generally apply to dividends on, or gross proceeds from the sale or other disposition of, common stock paid to a foreign financial institution unless the foreign financial institution (i) enters into an agreement with the U.S. Treasury to, among other things, undertake to identify accounts held by certain U.S. persons or U.S.-owned foreign entities, annually report certain information about such accounts, and withhold 30% on payments to account holders whose actions prevent it from complying with these reporting and other requirements or (ii) is resident in a country that has entered into an intergovernmental agreement with the United States in relation to such withholding and information reporting and the financial entity complies with related information reporting requirements of such country. A foreign financial institution generally is a foreign entity that (i) accepts deposits in the ordinary course of a banking or similar business, (ii) as a substantial portion of its business, holds financial assets for the benefit of one or more other persons, or (iii) is an investment entity that, in general, primarily conducts as a business on behalf of customers trading in certain financial instruments, individual or collective portfolio management or otherwise investing, administering, or managing funds, money or certain financial assets on behalf of other persons. In addition, FATCA generally imposes a 30% withholding tax on the same types of payments to a foreign non-financial entity unless the entity certifies that it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner. In either case, such payments would include U.S.-source dividends and the gross proceeds from the sale or other disposition of stock that can produce U.S.-source dividends. The withholding provisions described above will generally apply to payments of dividends made on or after July 1, 2014, and payments of gross proceeds made on or after January 1, 2017.

Investors should consult their tax advisors regarding the possible impact of the FATCA rules on their investment in our common stock, including, without limitation, the process and deadlines for meeting the applicable requirements to prevent the imposition of the 30% withholding tax under FATCA.

Dividends

As discussed above under Dividend Policy, we currently have no plans to make distributions of cash or other property on our common stock. In the event that we do make distributions of cash or other property on our common stock, generally such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from current and accumulated earnings and profits, as determined for U.S. federal income tax purposes. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and will first reduce a non-U.S. holder's adjusted basis in our common stock, but not below zero. Any excess will be treated as capital gain from the sale of our common stock in the manner described under Gain on Sale or Other Disposition of Our Common Stock below.

In general, dividends, if any, paid by us to a non-U.S. holder will be subject to U.S. withholding tax at a rate of 30% of the gross amount (or a reduced rate prescribed by an applicable income tax treaty) unless the dividends are effectively connected with a trade or business carried on by the non-U.S. holder within the United States and, if required by an applicable income tax treaty, are attributable to a permanent establishment of the non-U.S. holder within the United States. Dividends effectively connected with this U.S. trade or business, and, if required by an applicable income tax treaty, attributable to such a permanent establishment of the non-U.S. holder, generally will not be subject to U.S. withholding tax if the non-U.S. holder provides the applicable withholding agent with certain forms, including IRS Form W-8ECI (or any successor form), and generally will be subject to U.S. federal income tax on a net income basis, in the same manner as if the non-U.S. holder were a U.S. person. A non-U.S. holder that is a corporation and receives effectively connected dividends may also be subject to an additional branch profits tax imposed at a 30% rate (or lower treaty rate), subject to certain adjustments.

Under applicable U.S. Treasury regulations, a non-U.S. holder is required to satisfy certain certification requirements in order to claim a reduced rate of withholding pursuant to an applicable income tax treaty (including providing the applicable withholding agent with an IRS Form W-8BEN, or other appropriate form, certifying such non-U.S. holder's entitlement to benefits under a treaty). Non-U.S. holders that do not timely provide the required certification, but that qualify for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. holders should consult their tax advisors regarding their entitlement to benefits under an applicable income tax treaty.

Gain on Sale or Other Disposition of Our Common Stock

In general, a non-U.S. holder will not be subject to U.S. federal income tax on any gain realized upon the sale or other disposition of our common stock unless:

the gain is effectively connected with a trade or business carried on by the non-U.S. holder within the United States (in which case the branch profits tax discussed above may also apply if the non-U.S. holder is a corporation) and, if required by an applicable income tax treaty, the gain is attributable to a permanent establishment of the non-U.S. holder maintained in the United States;

the non-U.S. holder is an individual and is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are satisfied; or

we are or have been a U.S. real property holding corporation (referred to as a "USRPHC") for U.S. federal income tax purposes at any time within the shorter of the five-year period preceding the disposition and the non-U.S. holder's holding period.

Gain described in the first bullet point above will be subject to U.S. federal income tax on a net income basis at the regular graduated U.S. federal income tax rates in much the same manner as if such holder were a resident of the United States. A non-U.S. holder that is a corporation may also be subject to an additional branch profits tax equal to 30% (or such lower rate specified by an applicable income tax treaty) of its effectively connected earnings and profits for the taxable year, as adjusted for certain items. Non-U.S. holders should consult any applicable income tax treaties that may provide for different rules.

Gain recognized by an individual described in the second bullet point above will be subject to U.S. federal income tax at a flat 30% rate (or such lower rate specified by an applicable income tax treaty), but may be offset by U.S.-source capital losses (even though the individual is not considered a resident of the United States), provided that the non-U.S. holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe that we currently are not, and do not anticipate becoming, a USRPHC. Because the determination of whether we are a USRPHC depends on the fair market value of our interests in real property located within the United States relative to the fair market value of our interests in real property located outside the United States and our other business assets, however, there can be no assurance that we will not become a USRPHC in the future. Even if we were or were to become a USRPHC at any time during this period, generally gains realized upon a disposition of shares of our common stock by a non-U.S. holder that did not directly or indirectly own more than 5% of our common stock during this period would not be subject to U.S. federal income tax, provided that our common stock is regularly traded on an established securities market (within the meaning of Section 897(c)(3) of the Code). We expect our common stock to be regularly traded on an established securities market, although we cannot guarantee it will be so traded.

UNDERWRITING

We, the selling stockholders and the underwriters named below have entered into an underwriting agreement with respect to the shares being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares indicated in the following table. Goldman, Sachs & Co., Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated are acting as joint book-running managers of the offering and representatives of the underwriters.

Underwriters	Number of Shares
Goldman, Sachs & Co.	
Credit Suisse Securities (USA) LLC	
Merrill Lynch, Pierce, Fenner & Smith Incorporated	
Apollo Global Securities, LLC	
Barclays Capital Inc.	
Deutsche Bank Securities Inc.	
UBS Securities LLC	
Guggenheim Securities, LLC	
WR Securities, LLC	
Total	15,000,000

The underwriters are committed to take and pay for all of the shares being offered, if any are taken, other than the shares covered by the option described below unless and until this option is exercised.

The underwriters have an option to buy up to an additional 2,250,000 shares from certain of the selling stockholders. They may exercise that option for 30 days. If any shares are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above.

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters by the selling stockholders. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase 2,250,000 additional shares.

	No Exercise	Full Exercise
Per Share	\$	\$
Total	\$	\$

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ per share from the public offering price. After the initial offering of the shares, the representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We, our officers and directors and the selling stockholders have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus continuing through the date that is 60 days after the date of this prospectus, except with the prior written consent of the representatives. This agreement does not apply to any existing team member benefit plans.

The 60-day restricted period described in the preceding paragraph will be automatically extended if: (1) during the last 17 days of the 60-day restricted period we issue an earnings release or announce material news or a material event; or (2) prior to the expiration of the 60-day restricted period, we announce that we will release earnings results during the 15-day period following the last day of the 60-day period, in which case the restrictions described in the preceding paragraph will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the announcement of the material news or material event.

Our common stock is listed on the NASDAQ Global Select Market under the symbol SFM.

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions, and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A covered short position is a short position that is not greater than the amount of additional shares for which the underwriters' option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to cover the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option described above. Naked short sales are any short sales that create a short position greater than the amount of additional shares for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the closing of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our stock, and together with the imposition of the penalty bid, may stabilize, maintain, or otherwise affect the market price of our common stock. As a result, the price of our common stock may be higher than the price that otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on the NASDAQ Global Select Market, in the over-the-counter market, or otherwise.

The underwriters do not expect sales to discretionary accounts to exceed five percent of the total number of shares offered.

We and the selling stockholders estimate that the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$900,000. We have agreed to reimburse the underwriters for expenses relating to clearance of this offering with the Financial Industry Regulatory Authority, Inc. of up to \$

The selling stockholders have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Item 14. Indemnification of Directors and Officers

Section 145 of the Delaware General Corporation Law (referred to as the "DGCL") authorizes a court to award, or a corporation's board of directors to grant, indemnity to directors and officers in terms sufficiently broad to permit such indemnification under certain circumstances for liabilities, including reimbursement for expenses incurred, arising under the Securities Act of 1933, as amended (referred to as the "Securities Act").

Our certificate of incorporation provides for indemnification of our directors, officers, team members, and other agents to the maximum extent permitted by the DGCL, and our bylaws provide for indemnification of our directors, officers, team members, and other agents to the maximum extent permitted by the DGCL.

In addition, we have entered into indemnification agreements with our directors and officers containing provisions which are in some respects broader than the specific indemnification provisions contained in the DGCL. The indemnification agreements require us, among other things, to indemnify our directors against certain liabilities that may arise by reason of their status or service as directors and to advance their expenses incurred as a result of any proceeding against them as to which they could be indemnified.

We maintain insurance policies that indemnify our directors and officers against various liabilities arising under the Securities Act and the Securities Exchange Act of 1934, as amended, that might be incurred by any director or officer in his capacity as such.

The underwriters are obligated, under certain circumstances, pursuant to the underwriting agreement filed as Exhibit 1.1 hereto, to indemnify us, our officers, and directors against liabilities under the Securities Act.

In 2002, Sprouts Farmers Market, LLC, an Arizona limited liability company (Sprouts Arizona), opened the first Sprouts Farmers Market store in Chandler, Arizona. On April 18, 2011, Sprouts Arizona acquired all of the membership interests in Henry s Holdings LLC, a Delaware limited liability company (Henry s) whose ultimate controlling shareholder was an entity affiliated with Apollo Global Management, LLC (together with its subsidiaries, Apollo), for cash (such transaction, the Henry s Transaction). In connection with the Henry s Transaction, Sprouts Arizona contributed substantially all of its assets and liabilities to SFM, LLC, a subsidiary of the newly formed holding company, Sprouts Farmers Markets, LLC, a Delaware limited liability company (Sprouts). Contemporaneously therewith, Sprouts issued 10,000,000 Class A units (Class A Units), consisting of 5,850,000 Class A Units issued to certain other investment funds affiliated with, and co-investment vehicles managed by, Apollo Management VI, L.P. (the Apollo Funds) and 4,150,000 Class A Units issued to a newly created trust whose beneficiaries consisted of the former unitholders of Sprouts Arizona (all Units stated on a post-split basis). The Apollo Funds are affiliates of Apollo. On May 29, 2012, an indirect wholly-owned subsidiary of Sprouts merged with and into Sunflower Farmers Markets, Inc. (Sunflower) and thereby Sprouts indirectly acquired all of the stock of Sunflower in exchange for cash and 1,354,373 Class A Units, which were issued to Sunflower s former stockholders (the Sunflower Transaction). Upon consummation of the Sunflower Transaction, a subsidiary of Sprouts issued \$35,000,000 aggregate principal amount of Senior Subordinated Promissory Notes due 2019 to certain Sprouts team members, certain former Sprouts Arizona stockholders and other affiliates of Sprouts and the Apollo Funds. In addition, as partial financing for the Sunflower Transaction, on May 21, 2012, Sprouts issued 75,574 Class A Units to AP Sprouts Coinvest, LLC, an Apollo Fund, in exchange for \$5,000,000 in cash.

On July 29, 2013, Sprouts Farmers Markets, LLC, a Delaware limited liability company, converted into Sprouts Farmers Market, Inc., a Delaware corporation (the corporate conversion). As a result, 11,450,611 units and options to purchase 1,057,107 units of Sprouts Farmers Markets, LLC were converted into 125,956,729 shares and options to purchase 11,628,177 shares of common stock of

Sprouts Farmers Market, Inc. The corporate conversion was effected in accordance with the terms of the Second Amended and Restated Limited Liability Company Agreement of Sprouts Farmers Markets, LLC and did not constitute a sale for purposes of the Securities Act.

Unless otherwise stated and except for the corporate conversion, the sales of the above securities were deemed to be exempt from registration under the Securities Act in reliance upon Section 4(2) of the Securities Act (or Regulation D promulgated thereunder), or Rule 701 promulgated under Section 3(b) of the Securities Act as transactions by an issuer not involving any public offering or pursuant to benefit plans and contracts relating to compensation as provided under Rule 701. We did not pay or give, directly or indirectly, any commission or other remuneration, including underwriting discounts or commissions, in connection with any of the issuances of securities listed above. The recipients of the securities in each of these transactions represented their intentions to acquire the securities for investment only and not with a view to or for sale in connection with any distribution thereof, and appropriate legends were placed upon the stock certificates issued in these transactions. All recipients had adequate access, through their employment or other relationship with us or through other access to information provided by us, to information about us. Item 17. Undertakings

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned Registrant hereby undertakes that:

- (1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.
- (2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
- (3) For the purpose of determining any liability under the Securities Act, each prospectus filed pursuant to Rule 424(b) as part of this registration statement relating to an offering, other than prospectuses filed in reliance on Rule 430A under the Securities Act, shall be deemed to be part of and included in this registration statement as of the date it is first used after effectiveness; *provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
