Item 7.01 Regulation FD

On February 19, 2015, the Company will host a conference call to discuss its fourth quarter and full year 2014 financial results. Among other things to be discussed on the call, the Company may discuss certain cost cutting actions related to compensation, including, but not limited to (i) headcount and wage reductions for both executive and non-operational employees, (ii) an increase in the percentage of at risk performance-based pay for executive officers, and (iii) the use of negative discretion with respect to bonuses and equity awards. Certain of these key changes implemented by the Compensation Committee of the Company's Board of Directors (the Committee) are set forth below.

The Company has revised its reporting segments as of the fourth quarter of 2014. The revised reporting segments are U.S. Rig Services, Fluid Management Services, Coiled Tubing Services, Fishing and Rental Services, all of which previously comprised the U.S. Segment, along with the Functional Support and International Segments, which are unchanged. The Company's upcoming Annual Report on Form 10-K for the fiscal year ended December 31, 2014 will recast the former U.S. Segment annual results for prior periods to reflect the new segment structure. The Company's upcoming Annual Report on Form 10-K for the fiscal year ended December 31, 2014 will recast the former U.S. Segment annual results for prior periods to reflect the new segment structure and the Company also will post on its website schedules providing recast quarterly financial information by segment for the 2014 fiscal year to reflect the change. The recast financial data is available at www.keyenergy.com under the headings *Investor Center* and *Non-GAAP Reconciliations*.

Item 8.01 Other Events

The Committee previously made certain decisions regarding the compensation of the Company's executive officers that did not require the Company to file a Current Report on Form 8-K under Item 5.02. However, the Committee has determined that the information would assist the Company's shareholders in more fully understanding the Company's compensation program, thus the information below is voluntarily provided within this Current Report on Form 8-K.

Performance Based Compensation. The Committee adopted new performance unit award terms, including lengthening the performance period from two independent one year periods to one three year period, and eliminating opportunities for payout when total shareholder return (TSR) performance is below a sixth placement amongst the peer group. In addition, the Committee revised the CEO's long-term

incentive awards to target 85% performance based, up from 50% performance based in 2014 and revised the named executive officers (NEOs) long-term incentive awards to target 50% performance based, up from 20% in 2014. In addition, the Committee revised our peer group to include companies that more reflect our current size. Our revised peer group for 2015 is comprised of the following companies (those companies denoted with an * are new to the peer group):

Basic Energy Services, Inc.	Patterson-UTI Energy, Inc.
C & J Energy Services, Inc.*	Pioneer Energy Services Corp.*
Exterran Holdings, Inc.	RPC, Inc.
Helix Energy Solutions Group, Inc.	Seventy-Seven Energy Inc.*
