GENERAL MILLS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) Background

The accompanying Consolidated Financial Statements of General Mills, Inc. (we, us, our, General Mills, or the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not include certain information and disclosures required for comprehensive financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature, including the elimination of all intercompany transactions and any noncontrolling and redeemable interests' share of those transactions. Operating results for the quarter and nine months ended February 28, 2016 are not necessarily indicative of the results that may be expected for the fiscal year ending May 29, 2016.

These statements should be read in conjunction with the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015. The accounting policies used in preparing these Consolidated Financial Statements are the same as those described in Note 2 to the Consolidated Financial Statements in that Form 10-K.

(2) Acquisition and Divestiture

During the second quarter of fiscal 2016, we sold our North American Green Giant product lines for \$822.7 million in cash, and we recorded a pre-tax gain of \$199.1 million. We received net cash proceeds of \$788.0 million after transaction related costs. After the divestiture we retained a brand intangible asset on our Consolidated Balance Sheets of \$30.1 million related to our continued use of the *Green Giant* brand in certain markets outside of North America.

On October 21, 2014, we acquired Annie's, Inc. (Annie's), a publicly traded food company headquartered in Berkeley, California, for an aggregate purchase price of \$821.2 million, which we funded by issuing debt. We consolidated Annie's into our Consolidated Balance Sheets and recorded goodwill of \$589.8 million, an indefinite lived intangible asset for the *Annie's* brand of \$244.5 million, and a finite lived customer relationship asset of \$23.9 million. The pro forma effects of this acquisition were not material.

Table of Contents**(3) Restructuring Initiatives**

We are currently pursuing several multi-year restructuring initiatives designed to increase our efficiency and focus our business behind our key growth strategies. Charges related to these activities were as follows:

In the first quarter of fiscal 2016, we approved Project Compass, a restructuring plan designed to enable our International segment to accelerate long-term growth through increased organizational effectiveness and reduced administrative expense. In connection with this project, we expect to eliminate approximately 725 to 775 positions. We expect to incur approximately \$62 to \$65 million of net expenses relating to this action of which approximately \$61 million will be cash. We recorded \$52.8 million of restructuring charges in the nine-month period ended February 28, 2016, relating to this action. We expect this action to be completed by the end of fiscal 2017.

Project Century (Century) began in fiscal 2015 as a review of our North American manufacturing and distribution network to streamline operations and identify potential capacity reductions. In the second quarter of fiscal 2016, we broadened the scope of Project Century to identify opportunities to streamline our supply chain outside of North America. As part of the expanded project, we notified employees and their representatives of our decision to close manufacturing facilities in our International segment supply chain located in Berwick, United Kingdom and East Tamaki, New Zealand. These actions will affect approximately 285 positions. We expect to incur total restructuring charges of approximately \$47 to \$52 million relating to these actions, of which approximately \$22 million will be cash. We recorded \$17.9 million of restructuring charges in the third quarter of fiscal 2016 and \$18.3 million in the nine-month period ended February 28, 2016, relating to these actions. We expect these actions to be completed by the end of fiscal 2017.

Table of Contents

As part of Century, in the first quarter of fiscal 2016, we notified the union member employees and union representatives at our West Chicago, Illinois facility of our decision to close this cereal and dry dinner manufacturing plant in our U.S. Retail segment supply chain. This action will affect approximately 500 positions, and we expect to incur approximately \$114 million of net expenses relating to this action, of which approximately \$57 million will be cash. We recorded \$8.2 million of restructuring charges in the third quarter of fiscal 2016 and \$72.2 million in the nine-month period ended February 28, 2016, relating to this action. We expect this action to be completed by the end of fiscal 2019.

As part of Century, in the first quarter of fiscal 2016, we notified the employees at our snacks manufacturing facility in Joplin, Missouri of our decision to close this plant in our U.S. Retail segment supply chain. This action affected approximately 120 positions, and we expect to incur approximately \$8 million of net expenses relating to this action, of which less than \$1 million will be cash. We recorded \$0.6 million of restructuring charges in the third quarter of fiscal 2016 and \$8.4 million in the nine-month period ended February 28, 2016, relating to this action. We expect this action to be completed by the end of fiscal 2016.

As part of Century, in the third quarter of fiscal 2015, we approved a restructuring plan to reduce our refrigerated dough capacity and exit our Midland, Ontario, Canada and New Albany, Indiana facilities, which support our U.S. Retail, International, and Convenience Stores and Foodservice supply chains. The Midland action will affect approximately 100 positions, and we expect to incur approximately \$23 million of net expenses relating to this action, of which approximately \$15 million will be cash. We recorded \$1.3 million of restructuring charges in the nine-month period ended February 28, 2016, relating to this action. We recorded \$5.7 million of restructuring charges in the third quarter of fiscal 2015 relating to this action. The New Albany action will affect approximately 400 positions, and we expect to incur approximately \$84 million of net expenses relating to this action of which approximately \$42 million will be cash. We recorded \$7.5 million of restructuring charges in the third quarter of fiscal 2016 and \$13.0 million in the nine-month period ended February 28, 2016, relating to this action. We recorded \$47.4 million of restructuring charges in the third quarter of fiscal 2015 relating to this action. We expect these actions to be completed by the end of fiscal 2018.

As part of Century, in the second quarter of fiscal 2015, we approved a restructuring plan to consolidate yogurt manufacturing capacity and exit our Methuen, Massachusetts facility in our U.S. Retail segment and Convenience Stores and Foodservice segment supply chains. This action affected approximately 250 positions. We expect to incur approximately \$64 million of net expenses relating to this action of which approximately \$13 million will be cash. We recorded \$13.8 million of restructuring charges in the nine-month period ended February 28, 2016, relating to this action. We recorded \$9.2 million of restructuring charges in the third quarter of fiscal 2015 and \$34.9 million in the nine-month period ended February 22, 2015. We expect this action to be completed by the end of fiscal 2016.

As part of Century, in the second quarter of fiscal 2015, we approved a restructuring plan to eliminate excess cereal and dry mix capacity and exit our Lodi, California facility in our U.S. Retail supply chain. This action affected approximately 430 positions. We expect to incur approximately \$85 million of net expenses relating to this action of which approximately \$20 million will be cash. We recorded \$9.4 million of restructuring charges in the third quarter of fiscal 2016 and \$26.4 million in the nine-month period ended February 28, 2016, relating to this action. We recorded \$8.7 million of restructuring charges in the third quarter of fiscal 2015 and \$53.5 million in the nine-month period ended February 22, 2015, relating to this action. We expect this action to be completed by the end of fiscal 2016.

In addition, we recorded restructuring charges of \$1.7 million in the third quarter and nine-month period ended February 28, 2016, relating to other Century actions previously announced. We recorded \$17.3 million in the nine-month period ended February 22, 2015, relating to other Century actions previously announced.

During the second quarter of fiscal 2015, we approved Project Catalyst, a restructuring plan to increase organizational effectiveness and reduce overhead expense. In connection with this project, we eliminated approximately 750 positions primarily in the United States. We incurred approximately \$140 million of net expenses relating to these actions of which approximately \$103 million will be cash. In the third quarter of fiscal 2016, we reduced the estimate of charges related to this action by \$8.9 million. We recorded \$1.3 million of restructuring

charges in the third quarter of fiscal 2015 and \$146.3 million in the nine-month period ended February 22, 2015, relating to this action. These actions were largely completed in fiscal 2015.

During the first quarter of fiscal 2015, we approved a plan to combine certain Yoplait and General Mills operational facilities within our International segment to increase efficiencies and reduce costs. This action will affect approximately 240 positions. We expect to incur approximately \$15 million of net expenses relating to this action of which approximately \$12 million will be cash. We recorded \$13.9 million of restructuring charges in the nine-month period ended February 22, 2015, relating to this action. We expect this action to be completed in fiscal 2017.

During the nine-month period ended February 28, 2016, we paid \$116.2 million in cash relating to restructuring initiatives.

In addition to restructuring charges, we expect to incur approximately \$111 million of additional project-related costs, which will be recorded in cost of sales, all of which will be cash. We recorded project-related costs in cost of sales of \$10.1 million in the third quarter of fiscal 2016 and \$39.4 million in the nine-month period ended February 28, 2016.

Restructuring charges and project-related costs are recorded in our Consolidated Statements of Earnings as follows:

In Millions	Quarter Ended		Nine-Month Period Ended	
	Feb. 28, 2016	Feb. 22, 2015	Feb. 28, 2016	Feb. 22, 2015

Reserve balance as of Feb. 28, 2016	\$ 95.8	\$ 1.4	\$ 1.4	\$ 98.6

The charges recognized in the roll forward of our reserves for restructuring and other exit costs do not include items charged directly to expense (e.g., asset impairment charges, the gain or loss on the sale of restructured assets, and the write-off of spare parts) and other periodic exit costs recognized as incurred, as those items are not reflected in our restructuring and other exit cost reserves on our Consolidated Balance Sheets.

Table of Contents

During the second quarter of fiscal 2016, we changed the date of our annual goodwill and indefinite-lived intangible asset impairment assessment from the first day of the third quarter to the first day of the second quarter to more closely align with the timing of our annual long-range planning process. As of our fiscal 2016 assessment date, there was no impairment of any of our goodwill or indefinite-lived intangible assets as their related fair values were substantially in excess of the carrying values, except for the *Mountain High* and *Uncle Toby's* brand assets. The excess fair value above the carrying value of these brand assets is as follows:

In Millions	Carrying Value	Excess Fair Value Above Carrying Value
<i>Mountain High</i>	\$ 35.4	20%
<i>Uncle Toby's</i>	\$ 52.2	11%

We will continue to monitor these businesses for potential impairment.

(5) Inventories

The components of inventories were as follows:

In Millions	Feb. 28, 2016	May 31, 2015
Raw materials and packaging	\$ 366.1	\$ 390.8
Finished goods	1,123.9	1,268.6

Total	\$ 1,350.2	\$ 1,540.9

(6) Risk Management Activities

Many commodities we use in the production and distribution of our products are exposed to market price risks. We utilize derivatives to manage price risk for our principal ingredients and energy costs, including grains (oats, wheat, and corn), oils (principally soybean), non-fat dry milk, natural gas, and diesel fuel. Our primary objective when entering into these derivative contracts is to achieve certainty with regard to the future price of commodities purchased for use in our supply chain. We manage our exposures through a combination of purchase orders, long-term contracts with suppliers, exchange-traded futures and options, and over-the-counter options and swaps. We offset our exposures based on current and projected market conditions and generally seek to acquire the inputs at as close to our planned cost as possible.

We use derivatives to manage our exposure to changes in commodity prices. We do not perform the assessments required to achieve hedge accounting for commodity derivative positions. Accordingly, the changes in the values of these derivatives are recorded currently in cost of sales in our Consolidated Statements of Earnings.

Although we do not meet the criteria for cash flow hedge accounting, we believe that these instruments are effective in achieving our objective of providing certainty in the future price of commodities purchased for use in our supply chain. Accordingly, for purposes of measuring segment operating performance certain gains and losses are reported in unallocated corporate items outside of segment operating results until such time that the exposure we are managing affects earnings. At that time we reclassify the gain or loss from unallocated corporate items to segment operating profit, allowing our operating segments to realize the economic effects of the derivative without experiencing the resulting mark-to-market volatility, which remains in unallocated corporate items.

Table of Contents

Unallocated corporate items for the quarters and nine-month periods ended February 28, 2016, and February 22, 2015 included:

	Quarter Ended		Nine-Month Period Ended	
	Feb. 28, 2016	Feb. 22, 2015	Feb. 28, 2016	Feb. 22, 2015
In Millions				
Net loss on mark-to-market valuation of certain commodity positions	\$ (42.7)	\$ (64.8)	\$ (96.7)	\$ (146.4)
Net loss on commodity positions reclassified from unallocated corporate items to segment operating profit	39.8	28.6	101.9	56.6
Net mark-to-market revaluation of certain grain inventories	(4.4)	(7.5)	(2.1)	(8.2)
Net mark-to-market valuation of certain commodity positions recognized in unallocated corporate items	\$ (7.3)	\$ (43.7)	\$ 3.1	\$ (98.0)

As of February 28, 2016, the net notional value of commodity derivatives was \$343.4 million, of which \$146.9 million related to energy inputs and \$196.5 million related to agricultural inputs. These contracts relate to inputs that generally will be utilized within the next 12 months.

During the third quarter of fiscal 2016, in advance of planned debt financing, we entered into \$400.0 million of treasury locks with an average fixed rate of 2.1 percent due February 15, 2017.

The fair values of the derivative positions used in our risk management activities and other assets recorded at fair value were not material as of February 28, 2016, and were Level 1 or Level 2 assets and liabilities in the fair value hierarchy. We did not significantly change our valuation techniques from prior periods.

We offer certain suppliers access to a third party service that allows them to view our scheduled payments online. The third party service also allows suppliers to finance advances on our scheduled payments at the sole discretion of the supplier and the third party. We have no economic interest in these financing arrangements and no direct relationship with the suppliers, the third party, or any financial institutions concerning this service. All of our accounts payable remain as obligations to our suppliers as stated in our supplier agreements. As of February 28, 2016, \$508.0 million of our total accounts payable is payable to suppliers who utilize this third party service.

(7) Debt

The components of notes payable were as follows:

	Feb. 28,	May 31,
	2016	2015
In Millions		
U.S. commercial paper	\$ 334.5	\$ 432.0
Financial institutions	305.8	183.8
Total	\$ 640.3	\$ 615.8

To ensure availability of funds, we maintain bank credit lines sufficient to cover our outstanding notes payable. Commercial paper is a continuing source of short-term financing. We have commercial paper programs available to us in the United States and Europe. We also have committed, uncommitted, and asset-backed credit lines that support our foreign operations.

Table of Contents

The following table details the fee-paid committed and uncommitted credit lines we had available as of February 28, 2016:

	Facility	Borrowed
In Billions	Amount	Amount
Credit facility expiring:		
April 2017	\$ 1.7	\$
May 2019	1.0	
June 2019	0.2	0.2
Total committed credit facilities	2.9	0.2
Uncommitted credit facilities	0.4	0.1
Total committed and uncommitted credit facilities	\$ 3.3	\$ 0.3

In June 2014, our subsidiary Yoplait SAS entered into a 200.0 million fee-paid committed credit facility that is scheduled to expire in June 2019.

The credit facilities contain covenants, including a requirement to maintain a fixed charge coverage ratio of at least 2.5 times. We were in compliance with all credit facility covenants as of February 28, 2016.

Long-Term Debt

The fair values and carrying amounts of long-term debt, including the current portion, were \$8,539.2 million and \$8,127.9 million, respectively, as of February 28, 2016. The fair value of long-term debt was estimated using market quotations and discounted cash flows based on our current incremental borrowing rates for similar types of instruments. Long-term debt is a Level 2 liability in the fair value hierarchy.

In January 2016, we issued 500.0 million principal amount of floating-rate notes due January 15, 2020. Interest on the note is payable quarterly in arrears. We may redeem the notes if certain tax laws change and we would be obligated to pay additional amounts on the notes. These notes are senior unsecured obligations that include a change of control repurchase provision. The net proceeds were used to repay a portion of our maturing long-term debt.

In January 2016, we repaid \$250 million of 0.875 percent fixed-rate notes and \$750 million of floating-rate notes.

In April 2015, we issued 500.0 million principal amount of 1.0 percent fixed-rate notes due April 27, 2023 and 400.0 million principal amount of 1.5 percent fixed-rate notes due April 27, 2027. Interest on the notes is payable annually in arrears. We may redeem the notes in whole, or in part, at the applicable redemption price at any time. These notes are senior unsecured obligations that include a change of control repurchase provision. The net proceeds were used for general corporate purposes and to reduce our commercial paper borrowings.

In March 2015, we repaid \$750.0 million of 5.2 percent fixed-rate notes.

In October 2014, we issued \$500.0 million aggregate principal amount of 1.4 percent fixed-rate notes due October 20, 2017 and \$500.0 million aggregate principal amount of 2.2 percent fixed-rate notes due October 21, 2019. Interest on the notes is payable semi-annually in arrears. We may redeem the notes in whole, or in part, at the applicable redemption price at any time. The notes are senior unsecured obligations that include a change of control repurchase provision. The net proceeds were used to fund our acquisition of Annie's and for general corporate purposes.

In June 2014, we issued 200.0 million principal amount of 2.2 percent fixed-rate senior unsecured notes due June 24, 2021 in a private placement offering. Interest on the notes is payable semi-annually in arrears. The notes may be redeemed in whole, or in part, at our option at any time for a specific make-whole amount and include a change of control repurchase provision. The net proceeds were used to refinance existing debt.

In June 2014, we repaid 290.0 million of floating-rate notes.

Table of Contents

Certain of our long-term debt agreements contain restrictive covenants. As of February 28, 2016, we were in compliance with all of these covenants.

(8) Redeemable and Noncontrolling Interests

We have a 51 percent controlling interest in Yoplait SAS and a 50 percent interest in Yoplait Marques SNC and Liberté Marques Sàrl. Sodiaal International (Sodiaal) holds the remaining interests in each of the entities. On the acquisition date, we recorded the \$904.4 million fair value of Sodiaal's 49 percent euro-denominated interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. Sodiaal has the ability to put a limited portion of its redeemable interest to us at fair value once per year through a maximum term expiring December 2020. We adjust the value of the redeemable interest through additional paid-in capital on our Consolidated Balance Sheets quarterly to the redeemable interest's redemption value, which approximates its fair value. Yoplait SAS pays dividends annually if it meets certain financial metrics set forth in its shareholders' agreement. As of February 28, 2016, the redemption value of the euro-denominated redeemable interest was \$826.7 million.

A subsidiary of Yoplait SAS has entered into an exclusive milk supply agreement for its European operations with Sodiaal through July 1, 2021. Net purchases totaled \$213.5 million for the nine-month period ended February 28, 2016 and \$213.4 million for the nine-month period ended February 22, 2015.

On the acquisition dates, we recorded the \$281.4 million fair value of Sodiaal's 50 percent euro-denominated interest in Yoplait Marques SNC and 50 percent Canadian dollar-denominated interest in Liberté Marques Sàrl as noncontrolling interests on our Consolidated Balance Sheets. Yoplait Marques SNC earns a royalty stream through a licensing agreement with Yoplait SAS for the rights to *Yoplait* and related trademarks. Liberté Marques Sàrl earns a royalty stream through licensing agreements with certain Yoplait group companies for the rights to *Liberté* and related trademarks. These entities pay dividends annually based on their available cash as of their fiscal year end.

The third-party holder of the Class A Interests in our General Mills Cereals, LLC (GMC) consolidated subsidiary receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$251.5 million). The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction. On June 1, 2015, the floating preferred return rate on GMC's Class A Interests was reset to the sum of three-month LIBOR plus 125 basis points.

Our noncontrolling interests contain restrictive covenants. As of February 28, 2016, we were in compliance with all of these covenants.

(10) Stock Plans

We have various stock-based compensation programs under which awards, including stock options, restricted stock, restricted stock units, and performance awards, may be granted to employees and non-employee directors. These programs and related accounting are described in Note 11 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015.

Table of Contents

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings was as follows:

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings includes amounts recognized in restructuring, impairment, and other exit costs.

As of February 28, 2016, unrecognized compensation expense related to non-vested stock options, restricted stock units, and performance award units was \$109.4 million. This expense will be recognized over 20 months, on average.

Net cash proceeds from the exercise of stock options less shares used for withholding taxes and the intrinsic value of options exercised were as follows:

	Nine-Month Period Ended	
	Feb. 28,	Feb. 22,
In Millions	2016	2015
Net cash proceeds	\$ 103.0	\$ 103.1
Intrinsic value of options exercised	\$ 141.7	\$ 121.6

We estimate the fair value of each stock option on the grant date using a Black-Scholes option-pricing model. Black-Scholes option-pricing models require us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained in Note 11 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015.

The estimated fair values of stock options granted and the assumptions used for the Black-Scholes option-pricing model were as follows:

	Nine-Month Period Ended	
	Feb. 28,	Feb. 22,
Estimated fair values of stock options granted	\$ 7.24	\$ 7.22
Assumptions:		
Risk-free interest rate	2.4%	2.6%

Edgar Filing: GENERAL MILLS INC - Form 10-Q

During the second quarter of fiscal 2016, we entered into an ASR agreement with an unrelated third party financial institution to repurchase an aggregate of \$225.0 million of our outstanding common stock. Under the ASR agreement, we paid \$225.0 million to the financial institution and received 3.7 million shares of common stock with a fair value of \$213.3 million during the second quarter of fiscal 2016. We received an additional 0.2 million shares of common stock upon completion of the ASR agreement during the third quarter of fiscal 2016. As of November 29, 2015, we recorded this transaction as an increase in treasury stock of \$213.3 million, and recorded the remaining \$11.7 million as a decrease to additional paid in capital on our Consolidated Balance Sheets. Upon completion of the

(15) Business Segment Information

We operate in the consumer foods industry. We have three operating segments by type of customer and geographic region as follows: U.S. Retail; International; and Convenience Stores and Foodservice.

Our U.S. Retail segment reflects business with a wide variety of grocery stores, mass merchandisers, membership stores, natural food chains, and drug, dollar and discount chains operating throughout the United States. Our product categories in this business segment are ready-to-eat cereals, refrigerated yogurt, soup, meal kits, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza and pizza snacks, grain, fruit and savory snacks, and a wide variety of organic products including meal kits, granola bars, and cereal.

Our International segment consists of retail and foodservice businesses outside of the United States. Our product categories include ready-to-eat cereals, shelf stable and frozen vegetables, meal kits, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza snacks, refrigerated yogurt, grain and fruit snacks, and super-premium ice cream and frozen desserts. We also sell super-premium ice cream and frozen desserts directly to consumers through owned retail shops. Our International segment also includes products manufactured in the United States for export, mainly to Caribbean and Latin American markets, as well as products we manufacture for sale to our international joint ventures. Revenues from export activities and franchise fees are reported in the region or country where the end customer is located.

In our Convenience Stores and Foodservice segment our major product categories are ready-to-eat cereals, snacks, refrigerated yogurt, frozen meals, unbaked and fully baked frozen dough products, baking mixes, and flour. Many products we sell are branded to the consumer and nearly all are branded to our customers. We sell to distributors and operators in many customer channels including foodservice, convenience stores, vending, and supermarket bakeries. Substantially all of this segment's operations are located in the United States.

Operating profit for these segments excludes unallocated corporate items, gain on a divestitures, and restructuring, impairment, and other exit costs. Unallocated corporate items include corporate overhead expenses, variances to planned domestic employee benefits and incentives, contributions to the General Mills Foundation, asset and liability remeasurement impact of hyperinflationary economies, restructuring initiative project-related costs, and other items that are not part of our measurement of segment operating performance. These include gains and losses arising from the revaluation of certain grain inventories and gains and losses from mark-to-market valuation of certain commodity positions until passed back to our operating segments. These items affecting operating profit are centrally managed at the corporate level and are excluded from the measure of segment profitability reviewed by executive management. Under our supply chain organization, our manufacturing, warehouse, and distribution activities are substantially integrated across our operations in order to maximize efficiency and productivity. As a result, fixed assets and depreciation and amortization expenses are neither maintained nor available by operating segment.

(16) New Accounting Pronouncements

In the first quarter of fiscal 2015, we adopted new accounting requirements on the financial statement presentation of unrecognized tax benefits when a net operating loss, a similar tax loss, or a tax credit carryforward exists. The adoption of this guidance did not have an impact on our results of operations or financial position.

In the first quarter of fiscal 2016, we elected to adopt new accounting requirements for the classification of debt issuance costs presented in the balance sheet as a direct reduction from the carrying amount of the debt liability. This presentation change has been implemented retroactively. The adoption of this guidance did not have a material impact on our results of operations or financial position.

(17) Subsequent Events

On March 16, 2016, we sold our General Mills de Venezuela CA subsidiary to a third party and exited our business in Venezuela. As a result of this transaction, we expect to record a loss on the sale of approximately \$35 million pre-tax in the fourth quarter of fiscal 2016.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

INTRODUCTION

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the MD&A included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015 for important background regarding, among other things, our key business drivers. Significant trademarks and service marks used in our business are set forth in *italics* herein. Certain terms used throughout this report are defined in the Glossary section below.

CONSOLIDATED RESULTS OF OPERATIONS**Third Quarter Results**

For the third quarter of fiscal 2016, net sales declined 8 percent to \$4,002 million and decreased 4 percent on a constant-currency basis, compared to the same period last year. Total segment operating profit was \$679 million, 3 percent lower than the third quarter of fiscal 2015 and 1 percent lower on a constant-currency basis. Net earnings attributable to General Mills were \$362 million in the third quarter of fiscal 2016, up 5 percent from \$343 million last year, and diluted earnings per share (EPS) of \$0.59 in the third quarter of fiscal 2016 were up 5 percent from \$0.56 last year. These results include the mark-to-market valuation of certain commodity positions and grain inventories, restructuring charges, project-related costs, Annie's integration costs, and the impact of asset and liability remeasurement for Venezuela. Diluted EPS excluding these items affecting comparability totaled \$0.65 in the third quarter of fiscal 2016, down 7 percent from \$0.70 in the same period last year. Diluted EPS excluding certain items affecting comparability on a constant-currency basis decreased 6 percent compared to the third quarter of fiscal 2015 (see the Non-GAAP Measures section below for our use of these measures not defined by GAAP).

Net sales declined 8 percent to \$4,002 million for the third quarter of fiscal 2016 compared to \$4,351 million in the same period last year. Components of net sales growth are shown in the following table:

Third Quarter of Fiscal 2016 vs. Third Quarter of Fiscal 2015	U.S. Retail	International	Convenience Stores and Foodservice	Combined Segments

(a) Measured in tons based on the stated weight of our product shipments.

Net sales growth in the third quarter of fiscal 2016 included a 3 percent decrease from the impact of the divestiture of the North America Green Giant product lines (Green Giant) in the second quarter of fiscal 2016.

Cost of sales decreased \$330 million from the third quarter of fiscal 2015 to \$2,645 million. The decrease included a \$138 million decrease attributable to lower volume and a \$154 million decrease attributable to product rate and mix. The impact from both volume and product rate and mix included the effects of the divestiture of Green Giant. We recorded a \$7 million net increase in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in the third quarter of fiscal 2016 compared to a net increase of \$44 million in the third quarter of fiscal 2015. We recorded \$17 million of restructuring charges in cost of sales in the third quarter of fiscal 2016 compared to \$22 million in the same period last year. We also recorded \$10 million of restructuring initiative project-related costs in the third quarter of fiscal 2016 compared to \$3 million in the same period last year. (Please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report). In addition, we recorded a \$3 million foreign exchange loss related to the Venezuela currency devaluation in the third quarter of fiscal 2015.

Selling, general, and administrative (SG&A) expenses decreased \$33 million to \$756 million in the third quarter of fiscal 2016 compared to the same period in fiscal 2015. The decrease in SG&A expenses primarily reflects a 6

percentage point decrease in media and advertising expense, and savings from Project Catalyst and our other cost management initiatives. We also recorded \$4 million of integration costs resulting from the acquisition of Annie's and a \$4 million foreign exchange loss related to the Venezuela currency devaluation in the third quarter of fiscal 2015. SG&A expenses as a percent of net sales in the third quarter of fiscal 2016 increased 80 basis points compared with the third quarter of fiscal 2015.

Restructuring, impairment, and other exit costs totaled \$17 million in the third quarter of fiscal 2016 compared to \$49 million in the same period last year.

Total charges associated with our restructuring initiatives recognized in the third quarter of fiscal 2016 consisted of the following:

(a) Includes \$17.3 million of restructuring charges recorded in cost of sales in fiscal 2016 and \$21.9 million in fiscal 2015. For further information on these restructuring initiatives, please refer to Note 3 to the Consolidated Financial Statements in Part 1, Item 1 of this report.

Interest, net for the third quarter of fiscal 2016 totaled \$77 million, down \$3 million from fiscal 2015, driven primarily by lower average debt balances, partially offset by changes in the mix of debt.

The **effective tax rate** for the third quarter of fiscal 2016 was 31.0 percent compared to 25.5 percent for the third quarter of fiscal 2015. The 5.5 percentage point increase was primarily due to less favorable impacts of U.S. federal legislation passed during the third quarter of fiscal 2016 and changes in earnings mix by country.

After-tax earnings from joint ventures for the third quarter ended February 28, 2016, increased to \$16 million compared to \$13 million in the same period last fiscal year, primarily driven by volume growth for Häagen-Dazs Japan, Inc. (HDJ). On a constant-currency basis, after-tax earnings from joint ventures increased 19 percent. The change in net sales for each joint venture is set forth in the following table:

Average diluted shares outstanding decreased by 5 million in the third quarter of fiscal 2016 from the same period a year ago due to the impact of share repurchases, partially offset by option exercises.

Nine-month Results

For the nine-month period ended February 28, 2016, net sales declined 5 percent to \$12,635 million and decreased 1 percent on a constant-currency basis, compared to the same period last year. Total segment operating profit was \$2,345 million, 5 percent higher than the nine-month period ended February 22, 2015 and 8 percent higher on a constant-currency basis. Net earnings attributable to General Mills were \$1,318 million in the nine-month period ended February 28, 2016, up 27 percent from \$1,034 million last year, and diluted EPS of \$2.15 were up 29 percent compared to the nine-month period ended February 22, 2015. These results include a gain from divestitures, restructuring charges, project-related costs, the mark-to-market valuation of certain commodity positions and grain inventories, Annie's integration costs, and the impact of asset and liability remeasurement for Venezuela. Diluted EPS excluding these items affecting comparability was \$2.26 in the nine-month period ended February 28, 2016, up 7 percent compared to \$2.11 in the same period last year. Diluted EPS excluding certain items affecting comparability on a constant-currency basis increased 10 percent compared to the nine-month period ended February 22, 2015 (see the Non-GAAP Measures section below for our use of these measures not defined by GAAP).

Net sales of \$12,635 million for the nine-month period ended February 28, 2016 declined 5 percent compared to \$13,332 million in the same period last year. Components of net sales growth are shown in the following table:

Nine-Month Period Ended Feb. 28, 2016 vs.

Net sales growth for the nine-month period included a 1 percent decrease from the net impact of the Green Giant divestiture and the acquisition of Annie's Inc. (Annie's) in the second quarter of fiscal 2015.

Cost of sales decreased \$716 million from the nine-month period ended February 22, 2015, to \$8,182 million. The decrease included a \$197 million decrease attributable to lower volume and a \$471 million decrease attributable to product rate and mix. The impact from both volume and product rate and mix included the net effects of the divestiture of Green Giant and Annie's acquisition. We recorded \$61 million of restructuring charges in cost of sales in the nine-month period ended February 28, 2016, compared to \$40 million in the same period last year.

Edgar Filing: GENERAL MILLS INC - Form 10-Q

We also recorded \$39 million of restructuring initiative project-related costs in the nine-month period ended February 28, 2016 compared to \$4 million in the same period last year. (Please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report). We recorded a \$3 million net decrease in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in the nine-month period ended February 28, 2016, compared to a net increase of \$98 million in the nine-month period ended February 22, 2015. We

also recorded a \$3 million foreign exchange loss related to the Venezuela currency devaluation in the nine-month period ended February 22, 2015.

SG&A expenses decreased \$162 million to \$2,340 million in the nine-month period ended February 28, 2016, compared to the same period in fiscal 2015. The decrease in SG&A expenses primarily reflects savings from Project Catalyst and other cost management initiatives, and a 9 percentage point decrease in media and advertising expense. We also recorded \$8 million of integration costs resulting from the acquisition of Annie's and a \$4 million foreign exchange loss related to the Venezuela currency devaluation in the nine-month period ended February 22, 2015. SG&A expenses as a percent of net sales in the nine-month period ended February 28, 2016 decreased 30 basis points compared with the same period of fiscal 2015.

Divestitures gain totaled \$201 million primarily from the sale of Green Giant during the nine-month period ended February 28, 2016.

Restructuring, impairment, and other exit costs totaled \$138 million in the nine-month period ended February 28, 2016 compared to \$278 million in the same period last year.

The **effective tax rate** for the nine-month period ended February 28, 2016, was 34.3 percent compared to 29.8 percent for the nine-month period ended February 22, 2015. The 4.5 percentage point increase was primarily due to significant non-deductible expenses related to the Green Giant divestiture in the second quarter of fiscal 2016 and changes in earnings mix by country.

After-tax earnings from joint ventures for the nine-month period ended February 28, 2016, of \$65 million essentially matched the same period last fiscal year. On a constant-currency basis, after-tax earnings from joint ventures increased 8 percent. The change in net sales for each joint venture is set forth in the following table:

Segment operating profit of \$518 million in the third quarter of fiscal 2016 essentially matched the same period last year, primarily driven by lower volume, offset by cost savings from Project Catalyst and other cost management initiatives.

Segment operating profit increased 10 percent to \$1,748 million in the nine-month period ended February 28, 2016, compared to the same period of fiscal 2015. The increase was primarily driven by cost savings from Project Catalyst and other cost management initiatives, a decrease in media and advertising expenses, and lower supply chain costs, partially offset by the net impact of the Green Giant divestiture and Annie's acquisition.

International Segment Results

Net sales for the International segment were \$1,072 million for the quarter ended February 28, 2016, 13 percent lower than \$1,234 million in the same period last year. Net sales for the segment were \$3,428 million for the nine-month period ended February 28, 2016, 12 percent lower than \$3,906 million in the same period last year. Segment operating profit decreased 35 percent to \$70 million in the third quarter of fiscal 2016 compared to \$108 million in the same period of fiscal 2015, primarily driven by unfavorable foreign currency exchange, the impact of the Green Giant divestiture, and higher input costs. International segment operating profit decreased 24 percent on a constant-currency basis in the third quarter of fiscal 2016 compared to the third quarter of fiscal 2015 (see the Non-GAAP Measures section below for our use of this measure).

Segment operating profit decreased 17 percent to \$324 million in the nine-month period ended February 28, 2016, compared to \$389 million in the same period of fiscal 2015, primarily driven by unfavorable foreign currency exchange, an increase in SG&A expenses, and the impact of the Green Giant divestiture, partially offset by favorable net price realization. International segment operating profit for the nine-month period ended February 28, 2016, decreased 1 percent on a constant-currency basis compared to the same period of fiscal 2015 (see the Non-GAAP Measures section below for our use of this measure not defined by GAAP).

Table of Contents**Convenience Stores and Foodservice Segment Results**

Net sales for the Convenience Stores and Foodservice segment were \$454 million for the quarter ended February 28, 2016, 2 percent lower than \$465 million in the same period last year. Net sales for the segment were \$1,437 million for the nine-month period ended February 28, 2016, 2 percent lower than \$1,468 million in the same period last year. The components of Convenience Stores and Foodservice net sales growth are shown in the following table:

(a) Measured in tons based on the stated weight of our product shipments.

Segment operating profit increased 31 percent to \$91 million in the third quarter of fiscal 2016 compared to \$69 million in the same period of fiscal 2015, primarily driven by higher grain merchandising earnings, favorable product mix, and cost savings from Project Catalyst and other cost management initiatives.

Segment operating profit increased 8 percent to \$273 million for the nine-month period ended February 28, 2016 compared to the same period in fiscal 2015, primarily driven by favorable product mix and cost savings from Project Catalyst and other cost management initiatives, partially offset by lower grain merchandising earnings.

UNALLOCATED CORPORATE ITEMS

Unallocated corporate expense totaled \$78 million in the third quarter of fiscal 2016 compared to \$112 million in the same period in fiscal 2015. In the third quarter of fiscal 2016, we recorded \$17 million of restructuring charges and \$10 million of restructuring initiative project-related costs compared to \$22 million of restructuring charges and \$3 million of restructuring initiative project-related costs in the same period last year. In addition, we recorded a \$7 million net increase in expense related to the mark-to-market valuation of certain commodity positions and grain inventories in the third quarter of fiscal 2016 compared to a \$44 million net increase in expense in the same period last year. We also recorded a \$7 million foreign exchange loss related to the remeasurement of assets and liabilities of our Venezuelan subsidiary and \$4 million of integration costs resulting from the acquisition of Annie's in the third quarter of fiscal 2015.

Unallocated corporate expense totaled \$232 million in the nine-month period ended February 28, 2016, compared to \$304 million in the same period last year. In the nine-month period ended February 28, 2016, we recorded \$61 million of restructuring charges and \$39 million of restructuring initiative project-related costs compared to \$40 million of restructuring charges and \$4 million of restructuring initiative project-related costs in the same period last year. In addition, we recorded a \$3 million net decrease in expense related to the mark-to-market valuation of certain commodity positions and grain inventories in the nine-month period ended February 28, 2016, compared to a \$98 million net increase in expense in the same period a year ago. We also recorded \$8 million of integration costs resulting from the acquisition of Annie's and a \$7 million foreign exchange loss related to the remeasurement of assets and liabilities of our Venezuelan subsidiary in the nine-month period ended February 22, 2015. The decrease in unallocated corporate expense also reflects cost savings from Project Catalyst and other cost management initiatives.

Table of Contents

Venezuela is a highly inflationary economy and as such, we remeasure the value of the assets and liabilities of our Venezuelan subsidiary based on the exchange rate at which we expect to remit dividends in U.S. dollars. In February 2014, the Venezuelan government established a new foreign exchange market mechanism (SICAD 2) and at that time indicated that it would be the market through which U.S. dollars would be obtained for the remittance of dividends. On February 12, 2015, the Venezuelan government replaced SICAD 2 with a new foreign exchange market mechanism (SIMADI). We have accessed some U.S. dollars through the SIMADI market. SIMADI has significantly higher foreign exchange rates than those available through the other foreign exchange mechanisms. In the third quarter of fiscal 2016, we recorded an immaterial impact in unallocated corporate items resulting from the remeasurement of assets and liabilities of our Venezuelan subsidiary and in the same period of fiscal 2015, we recorded a \$7 million foreign exchange loss. Our Venezuela operations represent less than 1 percent of our consolidated assets, liabilities, net sales, and segment operating profit. After the end of our fiscal third quarter, on March 16, 2016, we sold our General Mills de Venezuela CA subsidiary to a third party and exited our business in Venezuela. As a result of this transaction we expect to record a loss on the sale of approximately \$35 million pre-tax in the fourth quarter of fiscal 2016. The transaction is not expected to have a material impact on our ongoing financial results.

LIQUIDITY

During the nine-month period ended February 28, 2016, cash provided by operations was \$1,862 million compared to \$1,561 million in the same period last year. The \$301 million increase is primarily due to a \$388 million change in current assets and current liabilities, partially offset by a \$192 million change in non-cash restructuring charges in the nine-month period ended February 28, 2016, compared to the same period in fiscal 2015. The \$388 million change in other current assets and liabilities is primarily due to the timing of receivables and changes in other current liabilities largely driven by an increase in income taxes payable. Net earnings for fiscal 2016 included a \$201 million pre-tax gain primarily from the sale of Green Giant.

Cash provided by investing activities during the nine-month period ended February 28, 2016, was \$335 million, compared to a cash use of \$1,408 million in the same period in fiscal 2015. In 2016, we received proceeds of \$826 million from the divestitures of certain businesses including \$823 million for Green Giant. In the second quarter of fiscal 2015, we acquired Annie s for an aggregate purchase price of \$809 million, net of \$12 million of cash acquired. Investments of \$478 million in land, buildings, and equipment in the first nine months of fiscal 2016 were \$13 million lower than the same period a year ago.

Cash used by financing activities during the nine-month period ended February 28, 2016 was \$1,720 million compared to \$146 million in the same period last year. We had \$403 million of net debt payments in the first nine months of fiscal 2016 compared to \$1,645 million of net debt issuances in the same period a year ago primarily reflecting the issuance of debt to fund the acquisition of Annie s. We paid \$602 million in cash to repurchase common stock and paid \$795 million of dividends in the first nine months of fiscal 2016 compared to \$1,162 million and \$751 million, respectively, in the same period last year.

As of February 28, 2016, we had \$746 million of cash and cash equivalents held in foreign jurisdictions which will be used to fund foreign operations and potential acquisitions. There is currently no need to repatriate these funds in order to meet domestic funding obligations or scheduled cash distributions. If we choose to repatriate historical earnings from foreign jurisdictions, we intend to do so only in a tax-neutral manner.

To ensure availability of funds, we maintain bank credit lines sufficient to cover our outstanding notes payable. Commercial paper is a continuing source of short-term financing. We have commercial paper programs available to us in the United States and Europe. We also have committed, uncommitted, and asset-backed credit lines that support our foreign operations.

The following table details the fee-paid committed and uncommitted credit lines we had available as of February 28, 2016:

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate, currently equal to the sum of three-month LIBOR plus 125 basis points, to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$252 million). The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

The holder of the Class A Interests may initiate a liquidation of GMC under certain circumstances, including, without limitation, the bankruptcy of GMC or its subsidiaries, GMC's failure to deliver the preferred distributions on the Class A Interests, GMC's failure to comply with portfolio requirements, breaches of certain covenants, lowering of our senior debt rating below either Baa3 by Moody's or BBB- by Standard & Poor's, and a failed attempt to remarket the Class A Interests. In the event of a liquidation of GMC, each member of GMC will receive the amount of its then current capital account balance. We may avoid liquidation by exercising our option to purchase the Class A Interests.

We may exercise our option to purchase the Class A Interests for consideration equal to the then current capital account value, plus any unpaid preferred return and the prescribed make-whole amount. If we purchase these interests, any change in the unrelated third-party investor's capital account from its original value will be charged directly to retained earnings and will increase or decrease the net earnings used to calculate EPS in that period.

We have a 51 percent controlling interest in Yoplait SAS and a 50 percent interest in Yoplait Marques SNC and Liberté Marques Sàrl. Sodiaal International (Sodiaal) holds the remaining interests in each of these entities. We consolidate these entities into our consolidated financial statements. As of February 28, 2016, we recorded Sodiaal's 50 percent interests in Yoplait Marques SNC and Liberté Marques Sàrl as noncontrolling interests, and the redemption value of its 49 percent interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. These euro- and Canadian dollar-denominated interests are reported in U.S. dollars on our Consolidated Balance Sheets. Sodiaal has the ability to put a limited portion of its redeemable interest to us at fair value once per year through a maximum term expiring December 2020. As of February 28, 2016, the redemption value of the redeemable interest was \$827 million, which approximates its fair value.

Certain of our long-term debt agreements, our credit facilities, and our noncontrolling interests contain restrictive covenants. As of February 28, 2016, we were in compliance with all of these covenants.

We have \$1,104 million of long-term debt maturing in the next 12 months that is classified as current, including \$1,000 million of 5.7 percent fixed rate notes due February 2017. We believe that cash flows from operations, together with available short- and long-term debt financing, will be adequate to meet our liquidity and capital needs for at least the next 12 months.

OFF-BALANCE SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

There were no material changes outside the ordinary course of our business in our contractual obligations or off-balance sheet arrangements during the third quarter of fiscal 2016.

SIGNIFICANT ACCOUNTING ESTIMATES

Our significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015. The accounting policies used in preparing our interim fiscal 2016 Consolidated Financial Statements are the same as those described in our Form 10-K.

Our significant accounting estimates are those that have meaningful impact on the reporting of our financial condition and results of operations. These estimates include our accounting for promotional expenditures, valuation of long-lived assets, intangible assets, redeemable interest, stock-based compensation, income taxes, and defined benefit pension, other postretirement benefit, and postemployment benefit plans. The assumptions and methodologies used in the determination of those estimates as of February 28, 2016, are the same as those described in our Annual Report on Form 10-K for the fiscal year ended May 31, 2015, with the below exception.

During the second quarter of fiscal 2016, we changed the date of our annual impairment assessment from the first day of our fiscal third quarter to the first day of our fiscal second quarter to more closely align with the timing of our annual long-range planning process. We determined that the change in our annual impairment assessment date was not material to our annual impairment assessment or our financial statements.

Table of Contents

We tested our goodwill and brand intangible assets for impairment on our annual assessment date in the second quarter of fiscal 2016. As of our annual impairment assessment date, there was no impairment of any of our intangible assets as their related fair values were substantially in excess of the carrying values, except for the *Mountain High* and *Uncle Toby's* brands. The excess fair value above the carrying value of these brand assets is as follows:

In Millions	Excess Fair Value	
	Carrying Value	Above Carrying Value
<i>Mountain High</i>	\$ 35.4	20%
<i>Uncle Toby's</i>	\$ 52.2	11%

We will continue to monitor these businesses for potential impairment.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2016, the Financial Accounting Standards Board (FASB) issued new accounting requirements for accounting for, presentation of, and classification of leases. This will result in most leases being capitalized as a right of use asset with a related liability on our balance sheets. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2018, and interim periods within those annual periods, which for us is the first quarter of fiscal 2020. We are in the process of analyzing the impact of this guidance on our results of operations and financial position.

In November 2015, the FASB issued new accounting requirements for the presentation of deferred tax assets and liabilities, requiring noncurrent classification for all deferred tax assets and liabilities on the statement of financial position. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2016, and interim periods within those annual periods. We do not expect this guidance to have a material impact on our results of operations or financial position.

In August 2015, the FASB issued new accounting requirements for the recognition of revenue from contracts with customers. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2017, and interim periods within those annual periods, which for us is the first quarter of fiscal 2019. We do not expect this guidance to have a material impact on our results of operations or financial position.

In August 2015, the FASB issued new accounting requirements for the presentation of certain investments using the net asset value, providing a practical expedient to exclude such investments from categorization within the fair value hierarchy and separate disclosure. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2015, and interim periods within those annual periods, which for us is the first quarter of fiscal 2017. We do not expect this guidance to have a material impact on our results of operations or financial position.

In August 2015, the FASB issued new accounting requirements which permits reporting entities with a fiscal year-end that does not coincide with a month-end to apply a practical expedient that permits the entity to measure defined benefit plan assets and obligations using the month-end that is closest to the entity's fiscal year-end and apply such practical expedient consistently to all plans. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2015, and interim periods within those annual periods, which for us is the first quarter of fiscal 2017. We do not expect this guidance to have a material impact on our results of operations or financial position.

In June 2014, the FASB issued new accounting requirements for share-based payment awards issued based upon specific performance targets. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2015, and interim periods within those annual periods, which for us is the first quarter of fiscal 2017. We do not expect this guidance to have a material impact on our results of operations or financial position.

Table of Contents**NON-GAAP MEASURES**

We have included in this report measures of financial performance that are not defined by GAAP. We believe that these measures provide useful information to investors and include these measures in other communications to investors.

For each of these non-GAAP financial measures, we are providing below a reconciliation of the differences between the non-GAAP measure and the most directly comparable GAAP measure, an explanation of why our management or the Board of Directors believes the non-GAAP measure provides useful information to investors and any additional purposes for which our management or Board of Directors uses the non-GAAP measure. These non-GAAP measures should be viewed in addition to, and not in lieu of, the comparable GAAP measure.

Constant-Currency Net Sales Growth

This measure is used in reporting to our executive management and as a component of the Board of Directors' measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it provides transparency to underlying performance in our consolidated net sales by excluding the effect that foreign currency exchange rate fluctuations have on the year-to-year comparability given volatility in foreign currency exchange markets.

Net sales growth rates on a constant-currency basis are calculated as follows:

	Percentage Change in Total Net Sales as Reported	Impact of Foreign Currency Exchange	Percentage Change in Total Net Sales on Constant- Currency Basis
Quarter Ended Feb. 28, 2016	(8)%	(4) pts	(4)%
Nine-Month Period Ended Feb. 28, 2016	(5)%	(4) pts	(1)%

Total Segment Operating Profit and Related Constant-Currency Growth Rate

This measure is used in reporting to our executive management and as a component of the Board of Directors' measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate segment performance. A reconciliation of this measure to operating profit, the relevant GAAP measure, is included in Note 15 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Constant-currency total segment operating profit growth is calculated as follows:

	Percentage Change in Total Segment Operating Profit as Reported	Impact of Foreign Currency Exchange	Percentage Change in Total Segment Operating Profit on a Constant-Currency Basis
Quarter Ended Feb. 28, 2016	(3)%	(2) pts	(1)%
Nine-Month Period Ended Feb. 28, 2016	5%	(3) pts	8%

Table of Contents***Diluted EPS Excluding Certain Items Affecting Comparability and Related Constant-Currency Growth Rate***

This measure is used in reporting to our executive management and as a component of the Board of Directors' measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate earnings performance on a comparable year-over-year basis. The adjustments are either items resulting from infrequently occurring events or items that, in management's judgment, significantly affect the year-over-year assessment of operating results.

The reconciliation of our GAAP measure, diluted EPS, to diluted EPS excluding certain items affecting comparability and the related constant-currency growth rate follows:

Per Share Data	Quarter Ended			Nine-Month Period Ended		
	Feb. 28, 2016	Feb. 22, 2015	Change	Feb. 28, 2016	Feb. 22, 2015	Change

GLOSSARY

Accelerated depreciation associated with restructured assets. The increase in depreciation expense caused by updating the salvage value and shortening the useful life of depreciable fixed assets to coincide with the end of production under an approved restructuring plan, but only if impairment is not present.

AOCI. Accumulated other comprehensive income (loss).

Constant currency. Financial results translated to U.S. dollars using constant foreign currency exchange rates based on the rates in effect for the comparable prior-year period. To present this information, current period results for entities reporting in currencies other than United States dollars are translated into United States dollars at the average exchange rates in effect during the corresponding period of the prior fiscal year, rather than the actual average exchange rates in effect during the current fiscal year. Therefore, the foreign currency impact is equal to current year results in local currencies multiplied by the change in the average foreign currency exchange rate between the current fiscal period and the corresponding period of the prior fiscal year.

Derivatives. Financial instruments such as futures, swaps, options, and forward contracts that we use to manage our risk arising from changes in commodity prices, interest rates, foreign exchange rates, and stock prices.

Euribor. Euro Interbank Offered Rate.

Fair value hierarchy. For purposes of fair value measurement, we categorize assets and liabilities into one of three levels based on the assumptions (inputs) used in valuing the asset or liability. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's assumptions about the inputs used in pricing the asset or liability.

Generally Accepted Accounting Principles (GAAP). Guidelines, procedures, and practices that we are required to use in recording and reporting accounting information in our financial statements.

Goodwill. The difference between the purchase price of acquired companies plus the fair value of any noncontrolling and redeemable interests and the related fair values of net assets acquired.

Hedge accounting. Accounting for qualifying hedges that allows changes in a hedging instrument's fair value to offset corresponding changes in the hedged item in the same reporting period. Hedge accounting is permitted for certain hedging instruments and hedged items only if the hedging relationship is highly effective, and only prospectively from the date a hedging relationship is formally documented.

Interest bearing instruments. Notes payable, long-term debt, including current portion, cash and cash equivalents, and certain interest bearing investments classified within prepaid expenses and other current assets and other assets.

LIBOR. London Interbank Offered Rate.

Mark-to-market. The act of determining a value for financial instruments, commodity contracts, and related assets or liabilities based on the current market price for that item.

Table of Contents

Net mark-to-market valuation of certain commodity positions. Realized and unrealized gains and losses on derivative contracts that will be allocated to segment operating profit when the exposure we are hedging affects earnings.

Net price realization. The impact of list and promoted price changes, net of trade and other price promotion costs.

Noncontrolling interests. Interests of subsidiaries held by third parties.

Notional principal amount. The principal amount on which fixed-rate or floating-rate interest payments are calculated.

OCI. Other Comprehensive Income.

Project-related costs. Costs incurred related to our restructuring initiatives not included in restructuring charges.

Redeemable interest. Interest of subsidiaries held by a third party that can be redeemed outside of our control and therefore cannot be classified as a noncontrolling interest in equity.

Total debt. Notes payable and long-term debt, including current portion.

Translation adjustments. The impact of the conversion of our foreign affiliates' financial statements to U.S. dollars for the purpose of consolidating our financial statements.

CAUTIONARY STATEMENT RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report contains or incorporates by reference forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are based on our current expectations and assumptions. We also may make written or oral forward-looking statements, including statements contained in our filings with the Securities and Exchange Commission and in our reports to stockholders.

We wish to caution you not to place undue reliance on any such forward-looking statements.

In connection with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, we are identifying important factors that could affect our financial performance and could cause our actual results in future periods to differ materially from any current opinions or statements.

Our future results could be affected by a variety of factors, such as: competitive dynamics in the consumer foods industry and the markets for our products, including new product introductions, advertising activities, pricing actions, and promotional activities of our competitors; economic conditions, including changes in inflation rates, interest rates, tax rates, or the availability of capital; product development and innovation; consumer acceptance of new products and product improvements; consumer reaction to pricing actions and changes in promotion levels; acquisitions or dispositions of businesses or assets; changes in capital structure; changes in the legal and regulatory environment, including labeling and advertising regulations and litigation; impairments in the carrying value of goodwill, other intangible assets, or other long-lived assets, or changes in the useful lives of other intangible assets; changes in accounting standards and the impact of significant accounting estimates; product quality and safety issues, including recalls and product liability; changes in consumer demand for our products; effectiveness of advertising, marketing, and promotional programs; changes in consumer behavior, trends, and preferences, including weight loss trends; consumer perception of health-related issues, including obesity; consolidation in the retail environment; changes in purchasing and inventory levels of significant customers; fluctuations in the cost and availability of supply chain resources, including raw materials, packaging, and energy; disruptions or inefficiencies in the supply chain; effectiveness of restructuring and cost saving initiatives; volatility in the market value of

derivatives used to manage price risk for certain commodities; benefit plan expenses due to changes in plan asset values and discount rates used to determine plan liabilities; failure or breach of our information technology systems; foreign economic conditions, including currency rate fluctuations; and political unrest in foreign markets and economic uncertainty due to terrorism or war.

You should also consider the risk factors that we identify in Item 1A of Part I of our Annual Report on Form 10-K for the fiscal year ended May 31, 2015, which could also affect our future results.

We undertake no obligation to publicly revise any forward-looking statements to reflect events or circumstances after the date of those statements or to reflect the occurrence of anticipated or unanticipated events.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The estimated maximum potential value-at-risk arising from a one-day loss in fair value for our interest rate, foreign exchange and commodity market-risk-sensitive instruments outstanding as of February 28, 2016 was \$31 million, \$27 million and \$4 million, respectively. During the nine-month period ended February 28, 2016, the foreign exchange and interest rate value-at-risk increased by \$10 and \$6 million, respectively, while the commodity value-at-risk was flat compared to this measure as of May 31, 2015. The value-at-risk for foreign exchange and interest rate instruments increased due to higher volatility. For additional information, see Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended May 31, 2015.

Item 4. Controls and Procedures.

We, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on our evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of February 28, 2016, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the quarter ended February 28, 2016 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
