PROXY SUMMARY

GOVERNANCE HIGHLIGHTS

Our board of directors views itself as the long-term stewards of ADM. The board is committed to enhancing the success and value of our company for its stockholders, as well as for other stakeholders such as employees, business partners and others. The board recognizes the importance of good corporate governance and understands that transparent disclosure of its governance practices helps stockholders assess the quality of our company and its management and the value of their investment decisions.

ADM's corporate governance practices are intended to ensure independence, transparency, management accountability, effective decision making and appropriate monitoring of compliance and performance. We believe that these strong corporate governance practices, together with our enduring corporate values and ethics, are critical to providing lasting value to the stockholders of our company.

<p>We use majority voting for uncontested director elections.</p> <p>We have an independent Lead Director, selected by the independent directors. The Lead Director provides the board with independent leadership, facilitates the board's independence from management, and has broad powers as described on page 13.</p> <p>We have a policy prohibiting directors and officers from trading in derivative securities of our company and no NEOs or directors have pledged any company stock. The board and each standing committee annually conduct evaluations of their performance. Directors annually evaluate each other, and these evaluations are used to assess future re-nominations to our board.</p> <p>Holders of 10% or more of our common stock have the ability to call a special meeting of stockholders.</p>	<p>11 of our 12 current directors are independent and only independent directors serve on the Audit, Compensation/Succession and Nominating/Corporate Governance Committees.</p> <p>Our independent directors meet in executive session at each regular in-person board meeting.</p> <p>Significant stock ownership requirements are in place for directors and executive officers.</p> <p>Individuals cannot stand for election as a director once they reach age 75 and our Corporate Governance Guidelines set forth limits on the number of public company boards on which a director can serve. In 2015 we amended our bylaws to include a proxy access provision under which a small group of stockholders who has owned at least 3% of our common stock for at least 3 years may submit nominees for up to 20% of the board seats for inclusion in our proxy statement.</p>

GENERAL INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

PROXY STATEMENT

General Matters

Our board of directors asks that you complete the accompanying proxy for the annual stockholders meeting. The meeting will be held at the time, place, and location mentioned in the Notice of Annual Meeting included in this mailing. We are first mailing our stockholders this proxy statement and a proxy form (included in this mailing) around March 28, 2016.

We pay the costs of soliciting proxies from our stockholders. We have retained Georgeson LLC to help us solicit proxies. We will pay Georgeson LLC approximately \$24,000 plus reasonable expenses for its services. Our employees or employees of Georgeson LLC may also solicit proxies in person or by telephone, mail, or the internet at a cost which we expect will be nominal. We will reimburse brokerage firms and other securities custodians for their reasonable expenses in forwarding proxy materials to their principals.

We have a policy of keeping confidential all proxies, ballots, and voting tabulations that identify individual stockholders. Such documents are available for examination only by the inspectors of election, our transfer agent and certain employees associated with processing proxy cards and tabulating the vote. We will not disclose any stockholder's vote except in a contested proxy solicitation or as may be necessary to meet legal requirements.

Our common stockholders of record at the close of business on March 10, 2016, are the only people entitled to notice of the annual meeting and to vote at the meeting. At the close of business on March 10, 2016, we had 587,155,298 outstanding shares of common stock, each share being entitled to one vote on each of the twelve director nominees and on each of the other matters to be voted on at the meeting. Our stockholders and advisors to our company are the only people entitled to attend the annual meeting. We reserve the right to direct stockholder representatives with the proper documentation to an alternative room to observe the meeting.

All stockholders will need a form of photo identification to attend the annual meeting. If you are a stockholder of record and plan to attend, please detach the admission ticket from the top of your proxy card and bring it with you to the meeting. The number of people we will admit to the meeting will be determined by how the shares are registered, as indicated on the admission ticket. If you are a stockholder whose shares are held by a broker, bank, or other nominee, please request an admission ticket by writing to our office at Archer-Daniels-Midland Company, Investor Relations, 4666 Faries Parkway, Decatur, Illinois 62526-5666. Your letter to our office must include evidence of your stock ownership. You can obtain evidence of ownership from your broker, bank, or nominee. The number of tickets sent will be determined by the manner in which shares are registered. If your request is received by April 21, 2016, an admission ticket will be mailed to you. Entities such as a corporation or limited liability company that are stockholders may send one representative to the annual meeting and the representative should have a pre-existing relationship with the entity represented. All other admission tickets can be obtained at the registration table located at the James R. Randall Research Center lobby beginning at 9:00 A.M. on the day of the meeting. Stockholders who do not pre-register will be admitted to the meeting only upon verification of stock ownership.

The use of cameras, video or audio recorders or other recording devices in the James R. Randall Research Center is prohibited. The display of posters, signs, banners or any other type of signage by any stockholder in the James R. Randall Research Center is also prohibited. Firearms are also prohibited in the James R. Randall Research Center.

Any request to deviate from the admittance guidelines described above must be in writing, addressed to our office at Archer-Daniels-Midland Company, Secretary, 77 West Wacker Drive, Suite 4600, Chicago, Illinois 60601 and received by us by April 21, 2016. We will also have personnel in the lobby of the James R. Randall Research Center beginning at 9:00 A.M. on the day of the meeting to consider special requests.

If you properly execute the enclosed proxy form, your shares will be voted at the meeting. You may revoke your proxy form at any time prior to voting by:

- (1) delivering written notice of revocation to our Secretary;
- (2) delivering to our Secretary a new proxy form bearing a date later than your previous proxy; or
- (3) attending the meeting and voting in person (attendance at the meeting will not, by itself, revoke a proxy).

Table of Contents**GENERAL INFORMATION ABOUT THE ANNUAL MEETING AND VOTING**

Under our bylaws, stockholders elect our directors by a majority vote in an uncontested election (one in which the number of nominees is the same as the number of directors to be elected) and by a plurality vote in a contested election (one in which the number of nominees exceeds the number of directors to be elected). Because this year's election is an uncontested election, each director nominee receiving a majority of votes cast will be elected (the number of shares voted for a director nominee must exceed the number of shares voted against that nominee). Approval of each other proposal presented in the proxy statement requires the affirmative vote of the holders of a majority of the outstanding shares of common stock present in person or by proxy at the meeting and entitled to vote on that matter. Shares not present at the meeting and shares voting abstain have no effect on the election of directors. For the other proposals to be voted on at the meeting, abstentions are treated as shares present or represented and voting, and therefore have the same effect as negative votes. Broker non-votes (shares held by brokers who do not have discretionary authority to vote on the matter and have not received voting instructions from their clients) are counted toward a quorum, but are not counted for any purpose in determining whether a matter has been approved.

PROPOSAL NO. 1

PROPOSAL NO. 1 ELECTION OF DIRECTORS FOR A ONE-YEAR TERM

Our board of directors has fixed the size of the board at twelve. Unless you provide different directions, we intend for board-solicited proxies (like this one) to be voted for the nominees named below. Mr. O Neill, a current member of our board of directors, has determined not to stand for re-election. As of March 10, 2016, Mr. O Neill beneficially owned 29,592 shares of common stock, all of which consisted of stock units allocated under our Stock Unit Plan for Nonemployee Directors which are deemed to be the equivalent of outstanding shares of common stock. Ms. Woertz retired as Chairman and an executive officer of our company effective December 31, 2015 and Mr. Luciano was elected Chairman effective January 1, 2016. As of March 10, 2016, Ms. Woertz beneficially owned 3,761,733 shares of our common stock, consisting of 984,988 shares owned individually or in trust, 2,776,033 shares that were unissued but subject to stock options exercisable within 60 days, and 712 shares allocated under our 401(k) and Employee Stock Ownership Plan.

Eleven of the twelve nominees proposed for election to our board of directors are presently members of our board and have previously been elected by our stockholders. The new nominee for election is Debra A. Sandler. Ms. Sandler was identified by the Nominating/Corporate Governance Committee as a potential nominee and was recommended by the Nominating/Corporate Governance Committee after it completed its interview and vetting process.

If elected, the nominees would hold office until the next annual stockholders meeting and until their successors are elected and qualified. If any nominee for director becomes unable to serve as a director, the persons named in the proxy may vote for a substitute who will be designated by the board of directors. Alternatively, the board of directors could reduce the size of the board. The board has no reason to believe that any nominee will be unable to serve as a director.

Our bylaws require that each director be elected by a majority of votes cast with respect to that director in an uncontested election (where the number of nominees is the same as the number of directors to be elected). In a contested election (where the number of nominees exceeds the number of directors to be elected), the plurality voting standard governs the election of directors. Under the plurality standard, the number of nominees equal to the number of directors to be elected who receive more votes than the other nominees are elected to the board, regardless of whether they receive a majority of the votes cast. Whether an election is contested or not is determined as of the day before we first mail our meeting notice to stockholders. This year's election was determined to be an uncontested election, and the majority vote standard will apply. If a nominee who is serving as a director is not elected at the annual meeting, Delaware law provides that the director would continue to serve on the board as a holdover director. However, under our Corporate Governance Guidelines, each director annually submits an advance, contingent, irrevocable resignation that the board may accept if the director fails to be elected through a majority vote in an uncontested election. In that situation, the Nominating/Corporate Governance Committee would make a recommendation to the board about whether to accept or reject the resignation. The board will act on the Nominating/Corporate Governance Committee's recommendation and publicly disclose its decision and the rationale behind it within 90 days after the date the election results are certified. The board will nominate for election or re-election as director, and will elect as directors to fill vacancies and new directorships, only candidates who agree to tender the form of resignation described above. If a nominee who was not already serving as a director fails to receive a majority of votes cast at the annual meeting, Delaware law provides that the nominee does not serve on the board as

a holdover director.

The information below describes the nominees, their ages, positions with our company, principal occupations, current directorships of other publicly-owned companies, directorships of other publicly-owned companies held within the past five years, the year in which each first was elected as a director, and the number of shares of common stock beneficially owned as of March 10, 2016, directly or indirectly. Unless otherwise indicated, and subject to community property laws where applicable, we believe that each nominee named in the table below has sole voting and investment power with respect to the shares indicated as beneficially owned. Unless otherwise indicated, all of the nominees have been executive officers of their respective companies or employed as otherwise specified below for at least the last five years.

The Board of Directors recommends a vote FOR the election of the twelve nominees named below as directors. Proxies solicited by the Board will be so voted unless stockholders specify a different choice.

Director Experiences, Qualifications, Attributes and Skills, and Board Diversity

In assessing an individual's qualifications to become a member of the board, the Nominating/Corporate Governance Committee may consider various factors including education, experience, judgment, independence, integrity, availability, and other factors that the Committee deems appropriate. The Nominating/Corporate Governance Committee strives to recommend candidates that complement the current board members and other proposed nominees so as to further the objective of having a board that reflects a diversity of background and experience with the necessary skills to effectively perform the functions of the board and its committees. In addition, the Committee considers personal characteristics of nominees and current board members, including race, gender and geographic origin, in an effort to obtain a diversity of perspectives on the board.

The specific experience, qualifications, attributes and skills that qualify each of our directors to serve on our board are described in the biographies above.

Table of Contents

BOARD LEADERSHIP STRUCTURE

BOARD LEADERSHIP STRUCTURE

Our company's board of directors does not have a current requirement that the roles of Chief Executive Officer and Chairman of the Board be either combined or separated, because the board believes it is in the best interest of our company to make this determination based on the position and direction of the company and the constitution of the board and management team. The board regularly evaluates whether the roles of Chief Executive Officer and Chairman of the Board should be combined or separated. The board's recent implementation of a careful and seamless succession plan demonstrates that the board takes seriously its responsibilities under the Corporate Governance Guidelines to determine who should serve as Chairman at any point in time in light of the specific circumstances facing our company. In December 2015, after careful consideration, the Board determined that having Mr. Luciano, our company's Chief Executive Officer, serve as Chairman is in the best interest of our stockholders at this time. The Chief Executive Officer is responsible for the day-to-day management of our company and the development and implementation of our company's strategy, and has access to the people, information and resources necessary to facilitate board function. Therefore, the board believes at this time that combining the roles of Chief Executive Officer and Chairman contributes to an efficient and effective board.

The non-management directors elect a Lead Director at the board's annual meeting. Mr. Felsing is currently serving as Lead Director. The board believes that having an independent Lead Director provides the board with independent leadership and facilitates the independence of the board from management. In accordance with our Corporate Governance Guidelines, the Lead Director: (i) presides at all meetings of the board at which the Chairman is not present, including executive sessions of the independent directors and regularly meets with the Chairman and Chief Executive Officer for discussion of appropriate matters arising from these sessions; (ii) coordinates the activities of the other independent directors and serves as liaison between the Chairman and the independent directors; (iii) consults with the Chairman and approves all meeting agendas, schedules and information provided to the board; (iv) interviews, along with the Chairman and the Chair and members of the Nominating/Corporate Governance Committee, all director candidates and makes recommendations to the Nominating/Corporate Governance Committee; (v) advises the Nominating/Corporate Governance Committee on the selection of members of the board committees; (vi) advises the board committees on the selection of committee chairs; (vii) works with the Chairman and Chief Executive Officer to propose a schedule of major discussion items for the board; (viii) guides the board's governance processes; (ix) provides leadership to the board if circumstances arise in which the role of the Chairman or Chief Executive Officer may be, or may be perceived to be, in conflict; (x) has the authority to call meetings of the independent directors; (xi) if requested by major shareholders, ensures that he or she is available for consultation and direct communication; and (xii) performs such other duties and responsibilities as the board may determine.

In addition to electing a Lead Director, our non-management directors facilitate the board's independence by meeting frequently as a group and fostering a climate of transparent communication. The high level of contact between our Lead Director and our Chairman between board meetings and the specificity contained in the board's delegation of authority parameters also serve to foster effective board leadership.

Board Role in Risk Oversight

Management is responsible for day-to-day risk assessment and mitigation activities, and our company's board of directors is responsible for risk oversight, focusing on our company's overall risk management strategy, our company's degree of tolerance for risk and the steps management is taking to manage our company's risks. While the board as a whole maintains the ultimate oversight responsibility for risk management, the committees of the board can be assigned responsibility for risk management oversight of specific areas. The Audit Committee currently maintains responsibility for overseeing our company's enterprise risk management process and regularly discusses our company's major risk exposures, the steps management has taken to monitor and control such exposures, and guidelines and policies to govern our company's risk assessment and risk management processes. The Audit Committee periodically reports to our board of directors regarding significant matters identified with respect to the foregoing. The Nominating/Corporate Governance Committee has the authority to assign oversight of risk areas to specific committees as the need arises.

Board, Committee and Director Evaluations

The board believes that a robust annual evaluation process is a critical part of its governance practices. Accordingly, the Nominating/Corporate Governance Committee oversees an annual evaluation of the performance of the board of directors, each committee of the board, and each individual director. The Nominating/Corporate Governance Committee approves written evaluation questionnaires which are distributed to each director. The results of each written evaluation are provided to, and compiled by, an outside firm. Individual directors are evaluated by their peers in a confidential process. Our Lead Director delivers and discusses individual evaluation results with each director and the chair of the Nominating/Corporate Governance Committee delivers and discusses the Lead Director's individual evaluation with him or her. Results of the other evaluations are discussed at appropriate committee meetings and with the full board.

Our board utilizes the results of these evaluations in making decisions on board agendas, board structure, committee responsibilities and agendas, and continued service of individual directors on the board.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (the "Exchange Act") requires our directors and executive officers to file reports of ownership and changes in ownership on Forms 3, 4 and 5 with the SEC. Based on our review of Forms 3, 4 and 5 we have received from, or have filed on behalf of, our directors and executive officers, and on written representations from those persons that they were not required to file a Form 5, we believe that, during the fiscal year ended December 31, 2015, the following persons filed the number of late reports or failed to file reports representing the number of transactions set forth after his or her name: F. Sanchez, 1 report/1 transaction.

Table of Contents**EXECUTIVE STOCK OWNERSHIP****Executive Stock Ownership Policy**

The policy calls for members of senior management to own shares of common stock with a fair market value within a range of one to five times that individual's base salary, depending on each individual's level of responsibility with our company. INDEPENDENCE OF DIRECTORS

INDEPENDENCE OF DIRECTORS

NYSE Independence

The listing standards of the New York Stock Exchange, or NYSE, require companies listed on the NYSE to have a majority of independent directors. Subject to certain exceptions and transition provisions, the NYSE standards generally provide that a director will qualify as independent if the board affirmatively determines that he or she has no material relationship with our company other than as a director, and will not be considered independent if:

1. the director or a member of the director's immediate family is, or in the past three years has been, one of our executive officers or, in the case of the director, one of our employees;
2. the director or a member of the director's immediate family has received during any 12-month period within the last three years more than \$120,000 per year in direct compensation from us other than for service as a director, provided that compensation received by an immediate family member for service as a non-executive officer employee is not considered in determining independence;
3. the director or an immediate family member is a current partner of one of our independent auditors, the director is employed by one of our independent auditors, a member of the director's immediate family is employed by one of our independent auditors and personally works on our audits, or the director or a member of the director's immediate family was within the last three years an employee of one of our independent auditors and personally worked on one of our audits;
4. the director or a member of the director's immediate family is, or in the past three years has been, employed as an executive officer of a company where one of our executive officers at the same time serves or served on the compensation committee; or
5. the director is a current employee of, or a member of the director's immediate family is an executive officer of, a company that makes payments to, or receives payments from, us in an amount which, in any of the last three fiscal

years, exceeds the greater of \$1 million or 2% of such other company's consolidated gross revenues. The board of directors has reviewed business and charitable relationships between us and each non-employee director and director nominee to determine compliance with the NYSE and bylaw standards described above and to evaluate whether there are any other facts or circumstances that might impair a director's or nominee's independence. Based on that review, the board has determined that eleven of its twelve current members, Messrs. Boeckmann, Crews, Dufour, Felsing, Maciel, Moore, O'Neill, Sanchez, Shih and Westbrook, and Ms. Carter, are independent and that Ms. Sandler, a director nominee, is also independent. Mr. Luciano is not

independent under the NYSE or bylaw standards because of his employment with us.

In determining that Mr. Boeckmann is independent, the board considered that, in the ordinary course of business, Sempra Energy sold utility services to our company and BP p.l.c. sold natural gas and fuel to our company, all on an arms-length basis during the fiscal year ended December 31, 2015. Mr. Boeckmann is a director of Sempra Energy and BP. The board determined that Mr. Boeckmann does not have a direct or indirect material interest in such transactions and that such transactions do not impair Mr. Boeckmann's independence.

In determining that Ms. Carter is independent, the board considered that, during the fiscal year ended December 31, 2015, the company purchased utility services from Westar Energy Inc. in the ordinary course of business and on an arms-length basis. Ms. Carter is a director of Westar Energy Inc. The board determined that Ms. Carter does not have a direct or indirect material interest in such utility transactions, and that such utility transactions do not impair Ms. Carter's independence. The board further considered that, Norvell Company, of which Ms. Carter's brother is majority owner, sold certain equipment having an aggregate purchase price less than \$1.0 million, to our company, in the ordinary course of business, and on an arms-length basis. The board determined that Ms. Carter does not have a direct or indirect material interest in such transactions and that such transactions do not otherwise impair Ms. Carter's independence.

In determining that Mr. Crews is independent, the board considered that, in the ordinary course of business, WestRock Company, of which Mr. Crews is a director, sold certain supplies to our company and that Hormel Foods Corporation, of which Mr. Crews is a director, purchased certain commodity products from our company, all on an arms-length basis during the fiscal year ended December 31, 2015. The board determined that Mr. Crews does not have a direct or indirect material interest in such transactions and that such transactions do not impair Mr. Crews' independence.

In determining that Mr. Dufour is independent, the board considered that, in the ordinary course of business, Air Liquide Group, of which Mr. Dufour is Senior Executive Vice President and a director, sold certain supplies and commodity products to our company on an arms-length basis during the fiscal year ended December 31, 2015. The board determined that this arrangement did not exceed the NYSE's threshold of 2% of Air Liquide Group's consolidated gross revenues, that Mr. Dufour does not have a direct or indirect material interest in such transactions, and that such transactions do not impair Mr. Dufour's independence.

In determining that Mr. Sanchez and Mr. Westbrook are independent, the board considered charitable donations made by our company to entities of which Mr. Sanchez and Mr. Westbrook

Table of Contents

INDEPENDENCE OF DIRECTORS

are directors and determined that Mr. Sanchez and Mr. Westbrook do not have a direct or indirect material interest in such donations and that such donations do not impair either such individual's independence.

Bylaw Independence

Section 2.8 of our bylaws also provides that a majority of the board of directors be comprised of independent directors. Under our bylaws, an independent director means a director who:

1. is not a current employee or a former member of our senior management or the senior management of one of our affiliates;
2. is not employed by one of our professional services providers;
3. does not have any business relationship with us, either personally or through a company of which the director is an officer or a controlling shareholder, that is material to us or to the director;
4. does not have a close family relationship, by blood, marriage, or otherwise, with any member of our senior management or the senior management of one of our affiliates;
5. is not an officer of a company of which our Chairman or Chief Executive Officer is also a board member;
6. is not personally receiving compensation from us in any capacity other than as a director; and
7. does not personally receive or is not an employee of a foundation, university, or other institution that receives grants or endowments from us, that are material to us, the recipient, or the foundation/university/institution.

Corporate Governance Guidelines

The board has adopted corporate governance guidelines that govern the structure and functioning of the board and set forth the board's policies on governance issues. The guidelines, along with the written charters of each of the committees of the board and our bylaws, are posted on our website, www.adm.com, and are available free of charge on written request to the Secretary, Archer-Daniels-Midland Company, 77 West Wacker Drive, Suite 4600, Chicago,

Illinois 60601.

Independent Executive Sessions

In accordance with our corporate governance guidelines, the non-management directors meet in independent executive session at least quarterly. If the non-management directors include any directors who are not independent pursuant to the board's determination of independence, at least one executive session includes only independent directors. The Lead Director, or in his or her absence, the chairman of the Nominating/Corporate Governance Committee, presides at such meetings. The non-management directors met in independent executive session four times during fiscal year 2015.

BOARD MEETINGS AND ATTENDANCE AT ANNUAL MEETINGS OF STOCKHOLDERS

During the last fiscal year, our board of directors held eight meetings. All incumbent directors attended 75% or more of the combined total meetings of the board and the committees on which they served during such period. Our Corporate Governance Guidelines provide that all directors standing for election are expected to attend the annual meeting of stockholders. Other than Mr. Dufour, all director nominees standing for election at our last annual stockholders' meeting held on May 7, 2015, attended that meeting.

The board's standing committees are the Audit, Compensation/Succession, Nominating/Corporate Governance, and Executive Committees. Each committee operates pursuant to a written charter adopted by the board, available on our website, *www.adm.com*.

Audit Committee

The Audit Committee consists of Mr. Crews, Chairman, Mr. Dufour, Mr. Maciel, Mr. Moore and Mr. Sanchez. The Audit Committee met nine times during the most recent fiscal year. No director may serve as a member of the Audit Committee if such director serves on the audit committees of more than two other public companies unless the board determines that such service would not impair such director's ability to serve effectively on the Audit Committee.

The Audit Committee reviews:

1. the overall plan of the annual independent audit;
2. financial statements;
3. the scope of audit procedures;
4. the performance of our independent auditors and internal auditors;
5. the auditors' evaluation of internal controls;
6. matters of legal and regulatory compliance;
7. the performance of our company's compliance function; and

The Compensation/Succession Committee provides reports to the board of directors and, where appropriate, submits actions to the board of directors for ratification. Members of management attend meetings of the committee and make recommendations to the committee regarding compensation for officers other than the Chief Executive Officer. In determining the Chief Executive Officer's compensation, the committee considers the evaluation prepared by the non-management directors.

In accordance with the General Corporation Law of Delaware, the committee may delegate to one or more officers the authority to grant stock options to other officers and employees who are not directors or executive officers, provided

that the resolution authorizing this delegation specifies the total number of options that the officer or officers can award. The charter for the Compensation/Succession Committee also provides that the committee may form subcommittees and delegate tasks to them.

The Nominating/Corporate Governance Committee consists of Mr. Moore, Chairman, and Mr. Boeckmann, Ms. Carter, Mr. Maciel, Mr. Shih, and Mr. Westbrook. The Nominating/Corporate Governance Committee met five times during the most recent fiscal year. All of the members of the Nominating/Corporate Governance Committee were determined by the board to be independent directors, as that term is defined in our bylaws and in the NYSE listing standards.

The Nominating/Corporate Governance Committee:

1. identifies individuals qualified to become members of the board, including evaluating individuals appropriately suggested by stockholders in accordance with our bylaws;
2. recommends individuals to the board for nomination as members of the board and board committees;
3. develops and recommends to the board a set of corporate governance principles applicable to the company; and
4. leads the evaluation of the directors, the board and board committees.

The Nominating/Corporate Governance Committee will consider nominees recommended by a stockholder, provided that the stockholder submits the nominee's name in a written notice delivered to our Secretary at our principal executive offices not less than 60 nor more than 90 days prior to the anniversary date of the immediately preceding annual stockholders' meeting. However, if the annual meeting is called for a date that is not within 30 days before or after such anniversary date, the notice must be received at our principal executive offices not later than the close of business on the tenth day following the day on which such notice of the date of the annual meeting was mailed or public disclosure of the date of the annual meeting was made (whichever first occurs). Different notice delivery requirements may apply if the number of directors to be elected at an annual meeting is being increased, and we do not make a public announcement naming all of the nominees or specifying the size of the increased board at least 100 days prior to the first anniversary of the preceding year's annual meeting. Any notice of a stockholder nomination must set forth the information required by Section 1.4(c) of our bylaws, and must be accompanied by a written consent from the proposed nominee to being named as a nominee and to serve as a director if elected, and a written statement from the proposed nominee as to whether he or she intends, if elected, to tender the advance, contingent, irrevocable resignation that would become effective should the individual fail to receive the required vote for re-election at the next meeting of stockholders. Stockholders may also have the opportunity to include nominees in our proxy statement by complying with the requirements set forth in Section 1.15 of our bylaws. All candidates, regardless of the source of their recommendation, are evaluated using the same criteria.

Executive Committee

The Executive Committee consists of Mr. Luciano, Chairman, Mr. Felsing, Lead Director, and the chairs of our three standing committees, Mr. Crews, Mr. Moore, and Mr. Westbrook. The Executive Committee did not meet during the most recent fiscal year. The Executive Committee acts on behalf of the board to determine matters which, in the judgment of the Chairman of the Board, do not warrant convening a special board meeting but should not be postponed until the next scheduled board meeting. The Executive Committee exercises all the power and authority of the board in the management and direction of our business and affairs except for matters which are expressly delegated to another board committee and matters that cannot be delegated by the board under applicable law, our certificate of incorporation, or our bylaws.

STOCKHOLDER OUTREACH AND ENGAGEMENT

STOCKHOLDER OUTREACH AND ENGAGEMENT

As part of our commitment to effective corporate governance practices, in 2015 we reached out to many of our largest institutional stockholders to hold formal discussions with them to help us better understand the views of our investors on key topics. Our Lead Director and senior management participated in some of these meetings to discuss and obtain feedback on corporate governance, executive compensation and other related issues important to our stockholders. We share stockholder feedback with our Board and its committees to enhance our governance practices, and transparency of these practices to our stockholders. We review the voting results of our most recent annual meeting of stockholders, the stockholder feedback received through our engagement process, the governance practices of our peers and other large companies, and current trends in governance as we consider enhancements to our governance practices and disclosure. We value our dialogue with our stockholders and believe our outreach efforts, which are in addition to our other communication channels available to our stockholders and interested parties, help ensure our corporate governance, compensation and other related practices continue to evolve and reflect the insights and perspectives of our many stakeholders. We welcome suggestions from our stockholders on how the board and management can enhance this dialogue in the future.

COMPENSATION DISCUSSION AND ANALYSIS

SECTION 1 EXECUTIVE SUMMARY

Philosophy. The company's business strategy and objectives are the foundation for our compensation programs. We believe, and our compensation programs support, that as an employee's level in the organization or level of responsibility increases, so should the proportion of his or her compensation that is based on the company's performance. As such, the executive compensation programs closely tie pay to performance and will only deliver competitive levels of compensation if we achieve our goals and enhance stockholder value.

Our compensation philosophy is founded on the principle that we reward executives for creating value for our stockholders. We link a significant portion of compensation to multiple performance metrics, as described in Section 6. We implement our compensation practices within the framework of pay-for-performance. We do so in a manner that helps us attract and retain the highest quality talent to our executive ranks by rewarding excellence in leadership and success in the implementation of our business strategy.

In 2015, the three key elements of our pay program continued to be base salary, annual cash incentive awards and long-term incentive awards. We refer to the combination of these three elements as total direct compensation. This summary discusses compensation highlights for 2015. We also note in this summary certain decisions we have made that affect the 2016 compensation of our named executive officers and because of these decisions are relevant to an understanding of 2015 pay.

2015 Financial and Operating Performance¹

¹ Target total compensation is defined as base salary plus target annual incentives earned in the year but paid in the following year and long-term equity incentives earned in the year but granted the following year.

Balanced Total Compensation Delivery

ADM executive total direct compensation is delivered through a mix of cash and equity awards that emphasize multiple performance factors tied to stockholder value creation over near-, mid- and longer-term time horizons.

In 2015, we achieved Adjusted EBITDA of \$3.39 billion and Adjusted ROIC of 7.3%. Under the company's incentive award formula, this performance led to a cash incentive award of 71.6% of target for the NEOs, before application of individual multipliers. The Compensation/Succession Committee subsequently can make adjustments to this award within a range of -20% to +20% based on its assessment of individual and group performance (the individual multiplier). Based on business results and the economic environment for 2015 performance, the Compensation/Succession Committee elected to award the Chairman a 1.0 individual multiplier, the CEO a 0.95 individual multiplier, and the CFO a 1.1 individual multiplier. The Compensation/Succession Committee incorporated its and the full board's assessment of the Chairman's and CEO's performance and full company performance when approving Ms. Woertz's and Mr. Luciano's individual multipliers. Mr. Findlay and Mr. Taets received individual

multipliers of 1.0 and 0.95, respectively, in recognition of their performance against individual and company goals. Details on individual performance are discussed in Section 6.

In February 2016, the Compensation/Succession Committee granted long-term incentive (LTI) awards for 2015 at the base award level. In determining the February 2016 award level, the Committee reviewed the company's three-year TSR performance of 43.10%, which is below the S&P 100 Industrials' median of 50.39%, and other portfolio management and strategic plan accomplishments. These awards will appear in next year's Summary Compensation Table. The LTI awards granted in February 2015 and included in the Stock Awards and Option Awards columns of the Summary Compensation Table for 2015 were awarded based on performance for the three-year period ended December 31, 2014.

COMPENSATION DISCUSSION AND ANALYSIS

Results of 2015 Advisory Vote On Executive Compensation

At the 2015 Annual Meeting of Stockholders, we held the company's fifth advisory vote on executive compensation. Approximately 94% of the votes cast were in favor of this advisory proposal. The Compensation/Succession Committee believes that this strong level of support, and the similarly strong levels of support manifested in prior periods, affirm broad stockholder agreement with the alignment of existing executive compensation programs with stockholder interests and the Compensation/Succession Committee's approach. The Committee considered this outcome in determining that no substantive changes in executive compensation programs would occur for 2015. At the Annual Meeting of Stockholders to be held in May 2016, we will again hold an advisory vote on executive compensation. The Compensation/Succession Committee will continue to consider stockholder feedback and the results from this year's and future advisory votes on executive compensation.

SECTION 2 COMPENSATION OBJECTIVES

The objectives of the company's executive compensation program are to:

Attract and retain a strong executive team and motivate them to develop leadership and successors;

Align the interests of the NEOs with those of the company's stockholders;

Encourage a culture of pay-for-performance by requiring sufficient financial performance before awards may be earned and directly tying awards to quantifiable performance;

Encourage and reward current business results through cash salaries and performance-based annual cash incentives;

Reward sustained performance by granting equity and maintaining ownership guidelines; and

In the aggregate, provide total compensation opportunities that are competitive with comparator companies and other companies with which we compete for executive talent.

SECTION 3 COMPONENTS OF EXECUTIVE COMPENSATION

The company's executive compensation program is built on a structure that balances short and long term performance:

Salaries generally target the median of companies of similar scope, complexity and business environment; salaries are reviewed annually and set based on competitiveness versus the external market, individual performance and internal equity.

The company's 2015 annual cash incentive program is primarily based on two key measures of financial performance which are Adjusted EBITDA and Adjusted ROIC relative to Annual Weighted Average Cost of Capital (WACC), with final awards based on company, group/business unit, and individual performance and achievements related to the company's strategic and business objectives. For 2016, in addition to Adjusted EBITDA and Adjusted ROIC performance, the annual cash incentive program was modified to also include achievement of specific goals related to company and additional financial performance metrics.

The size of the long-term incentive program awards is primarily based on the company's ability to drive stockholder value over a three-year period. The performance-sized awards have generally been granted using a mix of stock options (50%) and RSUs (50%) to continue the alignment of the interests of the company's NEOs and stockholders.

COMPENSATION DISCUSSION AND ANALYSIS

The following chart summarizes the components and associated objectives of our executive compensation program:

Pay Element		Objective	Performance Rewarded
FIXED	Annual	Base Salary	Fixed pay to recognize an individual's role and responsibilities
			Reviewed annually and set based on competitiveness versus the external market, individual performance and internal equity
PERFORMANCE-BASED	Annual	Annual Cash Incentive	Achieve annual goals measured in terms of financial and individual performance linked to the creation of stockholder value
			Adjusted EBITDA, Adjusted ROIC and individual performance
	Long-Term	Restricted Stock Units	Align NEO's interests with stockholders; retain executive talent
			Reward for the achievement of key drivers of stockholder value as evidenced in our share price
	Long-Term	Stock Options	Increase stock price and align NEOs' interests with stockholders
			Reward for the achievement of key drivers of stockholder value as evidenced in our share price

We pay an annual cash incentive only if the company meets certain specified performance goals. The company's annual cash incentive program emphasizes company-wide performance objectives to encourage the executives to focus on overall company success and leadership to generate the most value across the entire company. Our assessment of company performance is directly tied to stockholder expectations by ensuring the delivery of threshold levels of Adjusted EBITDA and Adjusted ROIC before awards may be earned. Adjusted EBITDA for 2015 was calculated by taking reported EBITDA and excluding the impact of one-time gains, impairment, restructuring, settlement and debt extinguishment charges as well as a small LIFO credit. This results in minor differences between reported EBITDA and the Adjusted EBITDA number used for the annual cash incentive program. Individual performance and the Compensation/Succession Committee's informed judgment are incorporated to ensure actual awards appropriately reflect the company's operating environment and individual executive contributions.

The company's LTI program is designed to reward sustained performance and to attract and retain talented executives and employees. To determine what portion of an executive's target award to grant, the Compensation/Succession Committee conducts a thorough assessment of multi-year (typically three-year) performance, incorporating perspective on company and market factors, including relative and absolute stockholder return and strategic, operating, and financial milestones. Typically, this assessment focuses principally on the company's relative three-year TSR performance compared to that of the S&P 100 Industrials.

In addition to these direct elements of pay, the company provides benefits to our NEOs to provide for basic health, welfare and income security needs and to support the attraction, retention and motivation of these employees. With few exceptions, such as supplemental benefits provided to employees whose benefits under broad-based plans are limited under applicable tax laws, the company's philosophy is to offer the same benefits to all U.S. salaried employees as are offered to the company's NEOs.

SECTION 4 EXECUTIVE COMPENSATION BEST PRACTICES

We annually review all elements of NEO pay and, where appropriate for our business and talent objectives and our stockholders, may make changes to incorporate and maintain current best practices. The following table provides a summary of what we do and what we don't do.

COMPENSATION DISCUSSION AND ANALYSIS

SECTION 5 OVERSIGHT OF EXECUTIVE COMPENSATION

What is the Role of the Compensation/Succession Committee?

The Compensation/Succession Committee is composed solely of independent directors and is responsible to the board of directors and the company's stockholders for establishing the company's compensation philosophy and establishing and administering the company's compensation policies and programs consistent with this philosophy. The Compensation/Succession Committee's responsibilities are set forth in its charter, which is available on the investor relations section of the company's website. Additional information regarding the Compensation/Succession Committee's authority to determine compensation can be found under the caption "Compensation/Succession Committee" elsewhere in this proxy.

What is the Role of the Board?

The board approves the company's business plan, which is one of the factors used to set financial business objectives for the annual cash incentive plan. The independent directors establish and approve all performance criteria for evaluating the CEO and annually evaluate the performance of the CEO based on these criteria. The non-management directors also ratify the CEO's compensation. The board can also provide input and ratification on any additional compensation-related issues. The board also conducts an annual review of the company's performance.

What is the Role of the Compensation/Succession Committee Consultant?

The Compensation/Succession Committee retained Pay Governance LLC as its independent executive compensation consultant. Pay Governance provides no other services to the company. The independent compensation consultant reports directly to the Compensation/Succession Committee, and provides the Compensation/Succession Committee with objective and expert analyses and independent advice on executive and director compensation, and other matters in support of the Compensation/Succession Committee's responsibilities under its charter. Each Compensation/Succession Committee meeting includes an executive session where the Compensation/Succession Committee meets exclusively with the independent consultant; company management is not included in these sessions. Outside of these sessions, the independent consultant interacts with the company's management team solely on behalf of the Compensation/Succession Committee to assist the Compensation/Succession Committee in fulfilling its duties and responsibilities. The Compensation/Succession Committee will only retain consultants that it believes will provide independent advice. The Compensation/Succession Committee has assessed the independence of Pay Governance pursuant to the SEC's and NYSE's rules and concluded that the work Pay Governance has performed does not raise any conflict of interest.

What are the Roles of Executives?

To assist the Compensation/Succession Committee in determining compensation for the other NEOs, the company's CEO participates in discussions with the Compensation/Succession Committee regarding the officers' performance and compensation. The CEO provides the Compensation/Succession Committee with an assessment of the NEOs performance, both as individuals and with respect to the functions or business units they oversee. The CEO also

recommends to the Compensation/Succession Committee, but does not vote on, annual base salary adjustments, individual and group performance factors, or short and long-term incentive award target levels that should be paid to the other NEOs.

The company's Senior Vice President of Human Resources oversees all employee compensation and the administration of benefits programs, under the oversight and direction of the Compensation/Succession Committee. He prepares the majority of the materials for the Compensation/Succession Committee meetings and provides analyses that assist the Compensation/Succession Committee with its decisions, such as summaries of competitive market practices, summaries of the company's succession planning actions, and reports regarding the company's performance. In addition, throughout the year, he facilitates meetings with management to help the Compensation/Succession Committee gain a better understanding of company performance. He ensures that the Compensation/Succession Committee is provided a rigorous assessment of year-to-date performance at each of its meetings. At the direction of the Chairman of the Compensation/Succession Committee, the company's Senior Vice President of Human Resources involves other members of management in portions of the Compensation/Succession Committee meetings to participate in discussions related to company and individual performance and the company's compensation and benefit programs. The company's executives leave meetings during discussions of individual compensation actions affecting them personally and during all executive sessions, unless requested to attend by the Compensation/Succession Committee.

COMPENSATION DISCUSSION AND ANALYSIS

How Do the Committee's Decisions Incorporate The Company's Executive Compensation Objectives?

Alignment of Executive and Stockholder Interests. We believe that a substantial portion of total compensation should be delivered in the form of equity in order to align the interests of the company's NEOs with the interests of the company's stockholders. For 2015, on average for the company's NEOs, 68% of actual total direct compensation was in the form of equity awards, exclusive of our Chairman, who did not receive long-term incentives. These awards were determined primarily based on the company's three-year TSR, compared to the S&P 100 Industrials. RSU awards typically vest three years from the date of grant, and stock options typically vest over five years. We also include a clawback provision in agreements for long-term incentive awards, enabling us to recover awards if the recipient engages in prohibited conduct, including post-vesting non-competition and non-solicitation restrictions, and it makes awards subject to any clawback policy involving the restatement of the company's financial results as described in Section 8.

Enable Us to Attract and Retain Top Executive Talent. Stockholders are best served when we can attract, retain and motivate talented executives with compensation packages that are competitive and fair. The company's compensation program for NEOs delivers a mix of salary, annual cash incentives and long-term incentives targeted to be market competitive as described below. The Compensation/Succession Committee used input from management and from its independent compensation consultant to select comparator groups of companies that were used to review the competitiveness of our executive compensation levels.

As a large, global company engaged in multiple lines of business, the company's competition for talent, business and investment is broad. The S&P 100 Industrials companies provide a defined, broad sample of large companies facing business dynamics similar to the company. For 2015, we simplified our approach to evaluating market practices and elected to use only the S&P 100 Industrials Index recognizing that, historically, this was our primary reference for market practices and it is most reflective of the types of companies with which we compete for talent.

In addition to the market data points gathered in this analysis, the Compensation/Succession Committee also considered individual and corporate performance, roles and responsibilities, growth potential and other qualitative factors when establishing executive pay levels.

NEO Compensation Should Reflect the Company's Results. The company's executive compensation program emphasizes variable, performance-based pay and is targeted and assessed in the aggregate, although the Compensation/Succession Committee reviews each component independently as well. Base salary is reviewed annually and adjusted based on a variety of factors including, in addition to an evaluation relative to competitive market practices as described above, a subjective evaluation of each NEO's overall performance, tenure and changes in responsibilities if applicable. The CEO provides the Compensation/Succession Committee with a recommendation of annual base salary adjustments, individual and group performance factors, and short and long-term incentive award target levels for all officers, other than the CEO. The Compensation/Succession Committee takes into consideration the CEO's recommendations, along with information provided by the compensation consultant and management when making annual base salary adjustments, individual and group

performance factor adjustments and any adjustments to annual cash incentive award opportunity levels. The annual cash incentive plan for FY2015 targeted awards at 82% to 175% of each NEO's base salary, but actual payouts may range from zero to 240% of the target level depending on performance against the specific goals. Annual cash incentives are paid if, and to the extent that, corporate goals approved by the Compensation/Succession Committee are attained. Equity compensation is assessed in a similar manner and is designed to reward measurable results.

SECTION 6 2015 EXECUTIVE COMPENSATION

For performance during 2015, the company's NEOs received, on average, 82% of *actual* total direct compensation in variable pay and 68% of *actual* total direct compensation in equity awards for FY2015, excluding our Chairman who was not granted long-term incentives. Although the Compensation/Succession Committee has not adopted a policy for allocating the various elements of total direct compensation, we do place greater emphasis on variable pay for executives with more significant responsibilities, reflecting their greater capacity to affect the company's performance and results. The charts below present the mix of *actual* total direct compensation received for FY2015.

1. Actual total direct compensation is defined as FY2015 base salary plus cash incentive earned for FY2015 performance (paid in 2016) and LTI awards for the three-year period ending in FY2015 (granted in 2016).

The following tables summarize compensation decisions made by the Compensation/Succession Committee with respect to each of the NEOs. ¹ The FY2014 LTI awards granted in February 2015 appear in the Grants of Plan-Based Awards Table (GPBAT) and are reflected in the Summary Compensation Table (SCT) information for FY2015 because the SEC requires companies to report equity-based LTI awards for the fiscal year during which they were granted, even if they are based on performance during earlier fiscal years. As discussed earlier, the award value of an LTI award, which is the dollar value of the award as approved by the Compensation/Succession Committee, differs from the grant date fair value of the award as reflected in the SCT and GPBAT.

COMPENSATION DISCUSSION AND ANALYSIS

BASE SALARY

How are Base Salaries Determined?

The Compensation/Succession Committee establishes base salaries based on an NEO's position, skills, performance, experience, tenure and responsibilities. The Committee annually assesses the competitiveness of base salary levels relative to salaries within the marketplace for similar executive positions. The Committee also considers factors such as individual performance, changes in responsibilities, and/or changes in competitive marketplace levels.

ANNUAL CASH INCENTIVES

How Do We Calculate Annual Cash Incentives?

Our annual incentive plan design remained unchanged for FY2015. Under this program design, executives cannot earn awards if we do not achieve a threshold level of Adjusted EBITDA, at least equal to the amount of the company's dividend payments on a pretax basis and pretax interest expenses for the year. Under our annual cash incentive program, once the threshold level of Adjusted EBITDA was earned, 1.5% of Adjusted EBITDA *above that level* was allocated to fund the annual incentive pool. This value was then subject to adjustment based on Adjusted ROIC performance; if the company's Adjusted ROIC was more than 200 basis points below the company's weighted average cost of capital, the pool was to be reduced by 10%, and if it was more than 200 basis points above the company's weighted average cost of capital, the pool was to be increased by 10%. Board of directors' discretion is no longer embedded in the formula. The individual performance factor for NEOs continues to be 0.80 to 1.20, and is assessed by the Compensation/Succession Committee incorporating elements such as safety, compliance with law, regulation and company policies, and other individual and group factors, including company financial performance, and performance towards the company's business strategy and objectives. Beginning in 2016, NEO annual cash incentives will be based on 75% company performance and 25% individual performance rather than 100% company performance with an individual performance factor. This change is being made to align NEO annual incentive design with the rest of the organization.

Annual cash incentives are determined by the degree to which company financial performance expectations are achieved and the Compensation/Succession Committee's independent assessment of the company's performance. This outcome may then be adjusted within a range of -20% to +20% based on the Compensation/Succession Committee's assessment of individual and group performance. The formula used to calculate an annual cash incentive payout for NEOs can be expressed as follows:

1.5% of Adjusted EBITDA above \$1.3B \$31.4M	X	Adjusted ROIC Factor 1.035	=	Total Bonus Pool \$32.5M	÷	Total Challenge Award Level ¹ \$45.4M	= 71.6%	X	Individual Multiplier ² 1.0	= 71.6%
---	---	--	---	--	---	--	---------	---	--	---------

1 Total Challenge Award Level is defined as full bonus payments at target.

2 For illustrative purposes, a 1.0 individual multiplier is used. Individual multipliers vary by NEO by +/- 20% based on the Compensation/Succession Committee's assessment of individual performance and contribution to the company's success.

How is the Individual Performance Multiplier Determined?

For FY2015, based on business results and the economic environment, the Compensation/Succession Committee elected to award the Chairman a 1.0 individual multiplier, the CEO a 0.95 individual multiplier, and the CFO a 1.1 individual multiplier. The Compensation/Succession Committee incorporated its and the full board's assessment of the Chairman's and CEO's performance and full company performance when approving Ms. Woertz's and Mr. Luciano's individual multipliers. Mr. Young received an individual multiplier of 1.1 in recognition of his performance against individual and company goals, particularly his leadership in financial management. Mr. Findlay and Mr. Taets received individual multipliers of 1.0 and 0.95, respectively, in recognition of their performance against individual and company goals. The Committee exercised negative discretion when determining Mr. Luciano and Mr. Taets awards based on lower than expected business results for the year in a challenging operating and economic environment.

In addition to the individual achievements listed for each executive above, other considerations included the company's progress towards operational excellence and efficiency initiatives, as well as advancement of the company's geographic diversification strategy with key acquisitions and joint ventures in Egypt, Europe and China.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS****What is the Resulting Annual Cash Incentive for Each NEO?**

The purpose of the annual cash incentive program is to reward performance based on the achievement of company, business and individual objectives. At the start of each fiscal year, the Compensation/Succession Committee approves minimum, target, and maximum annual cash incentive levels for each NEO. Target annual cash incentive levels are expressed as a percentage of salary. Based on company and individual performance, annual cash incentive payouts can range between 0% and 240% of the target annual cash incentive. Based on the determination of the company and individual performance factors as described above, each NEO received an annual cash incentive for FY2015, payable in 2016, equal to 71.6% of his or her target annual cash incentive, which was then adjusted by each NEO's individual multiplier.

Equity-Based Long-Term Incentives

The company's long-term incentive program (LTI Program) aligns the interests of executives with those of stockholders by rewarding the achievement of long-term stockholder value, supporting stock ownership, and encouraging long-term service with the company. In the following sections, we discuss the process for determining equity grants delivered under the company's LTI Program.

In terms of grant size and grant form, the company's LTI awards are determined based upon the Compensation/Succession Committee's assessment of performance during the prior three fiscal years. For example, equity grants made in February, 2015 reflected the Compensation/Succession Committee's assessment of performance from January 1, 2012 through December 31, 2014. This concept of making grants based on the assessment of prior performance is similar in approach to the company's annual cash incentive plan. As such, the company's equity-based long-term incentive grants are performance-based. The Compensation/Succession Committee's assessment of performance considers the company's TSR performance relative to the S&P 100 Industrials as well as multiple other performance factors and economic conditions, and is not strictly formulaic. The February 2015 grants appear in the Grants of Plan-Based Awards table and are reflected in the Summary Compensation Table information for FY2015 because the SEC requires companies to report equity-based LTI awards for the fiscal year during which they were

granted, even if they are based on performance during earlier fiscal years.

At the start of the fiscal year, the Compensation/Succession Committee established for each NEO, base, challenge and premium LTI award values. Under this structure, NEOs earn competitive grants only if the company's relative TSR is at or above median of the applicable market comparisons reviewed by the Compensation/Succession Committee. The Compensation/Succession Committee may grant base awards to maintain the appropriate alignment between management and stockholders through the opportunity to realize future equity value and to provide for necessary retention of the company's key executive talent.

Challenge awards are intended to result in competitive total direct compensation levels when combined with base salaries and annual target cash incentives. The Compensation/Succession Committee also considers the company's one-year, three-year and five-year relative TSR compared to the S&P 100 Industrials.

How Did We Determine LTI Awards Granted in February 2015? (Reflecting 2012-2014 Performance)

LTI awards for FY2014 were granted between the challenge and premium level and awarded in February 2015. In determining the award level, the Compensation/Succession Committee reviewed the company's strong three-year TSR performance of 94.4%, which was at the 61st percentile versus the S&P 100 Industrials, adjusted ROIC performance as compared to the prior year, portfolio management and strategic plan accomplishments. Based on its review, the Compensation/Succession Committee exercised negative discretion and approved awards at a level below the premium award equal to 45% of the difference between the challenge and premium award amounts to align payouts with

Beginning in FY2015, Ms. Woertz was no longer eligible to earn long-term incentive awards as part of her compensation as Chairman.

3. Includes an additional \$1,000,000 for Mr. Luciano associated with his promotion to President and CEO.

Equity Grants Made in February 2016 (Reflecting 2013-2015 Performance)

In February 2016, the Committee granted equity awards for FY2015 at the base award level. In determining the award level, the Compensation/Succession Committee reviewed the company's relative three-year TSR performance of 43.1% which was below the median versus the S&P 100 Industrials, portfolio management and strategic plan accomplishments as described in Section 1. The total value of the awards were delivered 50% in stock options and 50% in restricted stock units to support our objectives of aligning with stockholders while providing a strong retention device for our executives.

Terms of the company's equity awards granted in February 2015 and February 2016 generally are as follows:

Stock options are granted at an exercise price equal to fair market value of the company's common stock at the grant date in accordance with the 2009 Incentive Compensation Plan. The options typically vest incrementally over five years and can be exercised during a ten-year period following the date of grant.

RSUs typically vest three years after the date of grant.

Equity awards granted under the LTI Program vest immediately if control of the company changes or upon the death of the executive. Awards continue to vest if the executive leaves the company because of disability or retirement (age 55 or greater with 10 or more years of service). The Compensation/Succession Committee believes that these provisions are appropriate to assure NEOs stay focused on the long-term success of the company during a sale of the company or amidst certain personal circumstances. These provisions also increase the value of the awards to the NEOs, which in turn, enhances retention. For grants with respect to FY2012 and beyond, award agreements include forfeiture and clawback provisions as described in Section 8.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS****Additional Awards Granted**

In October 2015, Mr. Taets received an additional equity award of \$600,000 to increase the market competitiveness of his compensation and aid in retention.

Does the Company Have a Policy for When Grants are Made?

The Compensation/Succession Committee grants all equity awards to NEOs, and no attempt is made to time the granting of these awards in relation to the release of material, non-public information. The exercise price of all stock options is set at fair market value (as determined in accordance with the applicable incentive compensation plan) on the grant date. Under the 2009 Incentive Compensation Plan, fair market value is the closing market price of the company's common stock on the last trading day prior to the date of grant. The Compensation/Succession Committee meets during the first fiscal quarter of each fiscal year and determines the annual equity awards granted to NEOs. These awards are issued promptly following the date of the Compensation/Succession Committee's meeting and approval. In addition to annual awards, the NEOs may receive awards when they join the company or change their status, including promotions.

BENEFITS**What Retirement Benefits are Provided?**

COMPENSATION DISCUSSION AND ANALYSIS

SECTION 7 EMPLOYMENT AGREEMENTS, SEVERANCE, AND CHANGE-IN-CONTROL BENEFITS

What Employment Agreements are in Place?

In connection with the election of Ms. Woertz as our President and Chief Executive Officer, the company and Ms. Woertz entered into Terms of Employment dated as of April 27, 2006. In recognition of the January 1, 2015, change in her position with our company, and in keeping with our practice of having no employment contracts for senior executives, on February 11, 2015, Ms. Woertz and the company terminated the Terms of Employment. In addition, Ms. Woertz did not receive long-term incentive awards as part of her compensation as Chairman.

What Other Agreements are in Place for NEOs?

While Mr. Findlay does not have an employment agreement, we did commit to certain initial compensation terms at hire. At the time of his hire, we awarded Mr. Findlay equity awards to compensate him for his forfeiture of equity awards at his previous employer, designed to retain his services into the future, and to align his compensation with stockholders. These equity awards are subject to accelerated vesting in the event of death or termination of employment for reasons other than gross misconduct or for good reason as those terms are defined in the offer letter.

What Other Severance Benefits are Provided to NEOs?

In 2014, the Compensation/Succession Committee revised the company's severance program to align with market practices and eliminate accelerated vesting of equity or payout of unvested equity at termination. This program serves as a guideline for the severance benefits that may be provided to various levels of employees upon termination of their employment without cause or their resignation with good reason, but the program does not create a contractual right to receive any severance benefits on the part of the employee. The guidelines contained in the program for executive officers include the following termination benefits, subject, in all cases, to the discretion of the Compensation/Succession Committee to increase or decrease these benefits:

cash severance equal to two times then-current base salary and target cash incentive; and

extension of healthcare coverage for up to two years following termination.

In addition, the Compensation/Succession Committee generally requires each executive to enter into a non-competition and non-solicitation agreement in exchange for receiving severance under the program.

What Change-in-Control Benefits are Provided?

If a change-in-control occurs with respect to the company, the equity grants held by the company's executive officers generally will vest immediately pursuant to the terms of these awards. The Compensation/Succession Committee believes that this accelerated vesting is an appropriate provision to provide the executives with some assurance that

they will not be disadvantaged with respect to their equity awards in the event of a change-in-control of the company. This assurance increases the value of these awards to the executives, which in turn enhances retention.

SECTION 8 ADDITIONAL EXECUTIVE COMPENSATION POLICIES AND PRACTICES

Does the Company Have a Clawback Policy?

We have included clawback provisions in the company's long-term incentive award agreements that provide us with the ability to recover long-term incentive compensation for a broad range of reasons. This aggressive approach to recoupment of long-term incentive compensation reflects the company's commitment to protecting stockholder value.

For awards granted in August 2012 and beyond, we have implemented an additional clawback policy for all cash and equity-based long-term incentive awards. Specifically, this policy provides for the recoupment of any cash or equity incentive awards for a period of three years from the date of award. We have the right to clawback incentive payments made to NEOs and certain other members of senior management in the event of a financial restatement or ethical misconduct. In 2015, additional language was added to equity awards which includes post-vesting non-competition and non-solicitation restrictions prohibiting competitive activity and solicitation of ADM customers and employees. As regulatory requirements regarding recoupment of executive compensation continue to evolve, we will review and update the company's policies to, at the very least, be compliant with all current requirements.

Are There Policies in Place That Restrict Transactions Involving the Company's Stock?

Pursuant to the company's Insider Trading Policy, employees and directors may not engage in short selling, speculative trading, or hedging transactions involving the company's stock, including writing or trading in options, warrants, puts and calls, prepaid variable forward contracts, equity swaps or collars, or entering into other transactions that are designed to hedge or offset decreases in the price of the company's securities. In addition, employees and directors are required to review any pledging of company securities with the company's General Counsel prior to engaging in such activity.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

The company's Insider Trading Policy also provides that all transactions in our company's securities by the company's directors, the NEOs and certain other officers and employees must be pre-cleared by the company's law department.

What Role Does Section 162(m) of the Internal Revenue Code Have in the Design of Executive Compensation Programs?

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public corporations for compensation paid in excess of \$1 million annually to the CEO and the three other most highly-compensated executive officers, other than the Chief Financial Officer, unless the compensation in excess of \$1 million qualifies as performance-based compensation. Performance-based compensation for these purposes generally does not include salaries, incentive compensation for which the company's stockholders have not approved the business criteria upon which applicable performance goals are based, and incentive compensation (other than stock options and stock appreciation rights) the payment of which is not based on the satisfaction of objective pre-established performance goals or as to which a compensation committee has discretion to increase the amount of the payout. The Compensation/Succession Committee retains the discretion to provide compensation that may not be tax deductible if it feels these actions are in the best interests of the company and its stockholders. The Compensation/Succession Committee believes that the amount of any expected loss of a tax deduction under Section 162(m) will be insignificant to the company's overall tax position.

Has the Company Evaluated Its Compensation Programs as They Relate to Risk?

On an ongoing basis, the Compensation/Succession Committee, with input from management, assesses potential risks associated with compensation decisions and discusses them with our board of directors if warranted. To date, we have not identified any incentive compensation programs that encourage inappropriate risk taking. We have established a policy under which we engage an outside consultant every other year to review the company's programs and independently assess the risk in them.

During FY2015, ADM engaged an outside consultant, The Hay Group (Hay), to assist the Compensation/Succession Committee in evaluating the risk in the company's compensation programs. In conducting an independent assessment, Hay reviewed all of the company's incentive compensation programs and determined there were no compensation programs that encourage inappropriate risk-taking or the manipulation of earnings. The detailed findings of this review were discussed with management and presented to the Compensation/Succession Committee in February 2016. Another independent

review of the company's incentive programs will be conducted during FY2017 and reported to the Compensation/Succession Committee.

How Does the Company Address Liabilities Associated With Retirement Programs?

The Compensation/Succession Committee is mindful that the non-qualified deferred compensation and supplemental retirement plans create financial statement liabilities. We generally do not set amounts aside in a rabbi trust for the benefit of participants in the deferred compensation or supplemental retirement plans. However, the deferred compensation plans have rabbi trust funding triggers in the event of a potential change in control of the company. This trigger provides some measure of assurance to employees that amounts they have chosen to defer from their current

compensation will be held for their benefit, although still subject to creditor claims as required under the applicable tax law. In maintaining the non-qualified plans, the Compensation/Succession Committee has duly considered that the federal income tax deduction available to the company occurs at the same time that participants are paid benefits from the applicable plan.

The company is required to fund its qualified pension plans in a manner consistent with the minimum funding requirements of the Internal Revenue Code and the Employee Retirement Income Security Act. Historically, the company has made contributions in excess of the minimum to maintain its plans at or near a full funding level relative to the accrued benefit obligation.

(1) Ms. Woertz retired as Chairman, a director and executive officer of the company effective December 31, 2015, and Mr. Luciano was elected Chairman effective January 1, 2016.

(2) The amounts shown for stock and option awards represent the aggregate grant date fair value of the awards for fiscal years 2015, 2014 and 2013, respectively. We calculated these amounts in accordance with the provisions of FASB ASC Topic 718 utilizing the assumptions discussed in Note 11 to our financial statements for the fiscal years ended December 31, 2015 and December 31, 2014, and in Note 12 to our financial statements for the fiscal year ended December 31, 2013.

(3) Represents amounts earned under our annual incentive plan during each of the respective fiscal periods shown. In each case, the amounts were paid shortly after the close of the applicable fiscal period.

(4) Each amount shown represents the aggregate change in actuarial present value of the named executive officer's accumulated benefit under all defined benefit and actuarial pension plans from December 31, 2014 to December 31, 2015, using the same assumptions used for financial reporting purposes except that retirement age is assumed to be the normal retirement age (65) specified in the plans. No named executive officer received above market or preferential earnings on deferred compensation. To derive the change in pension value for financial reporting purposes, the assumptions used to value pension liabilities on December 31, 2014 were interest rate of 3.90% for the ADM Retirement Plan, interest rate of 3.70% for the ADM Supplemental Retirement Plan and mortality determined using the RP2014 mortality table, with a white collar adjustment, projected generationally using Scale MP-2014 and the assumptions used to value pension liabilities on December 31, 2015 were interest rate of 4.30% for the ADM Retirement Plan, interest rate of 4.05% for the ADM Supplemental Retirement Plan and mortality determined using the RP2014 mortality table, with a white collar adjustment, projected generationally using Scale MP-2015.

(5) The amounts shown for the designated individuals in this column for 2015 consist of costs for personal use of company aircraft, security services, relocation expenses, imputed value of company-provided life insurance, executive health services and company matching contributions under our 401(k) and Employee Stock Ownership Plan. Specific perquisites and other items applicable to the NEOs listed are identified below by an X. Where a perquisite or benefit exceeded \$10,000, the dollar amount is given.

Neo	Personal Aircraft Use	Security Services	Relocation Expenses	Imputed Value of Life Insurance	Executive Health Services	401K Plan Match
P. A. Woertz	\$67,851	X	11,435	X	X	\$13,250
J. R. Luciano	\$32,565			X	X	\$13,250
R. G. Young			X	X	X	\$13,250
D. C. Findlay	X			X	X	\$13,250

(6) Includes \$1,074,452 for payment of certain foreign taxes; \$119,778 related to certain tax gross ups; \$12,716 related to personal use of company aircraft; amounts payable pursuant to our expatriate policy which totaled \$501,397 and included cost of living allowance (\$174,138), tax preparation, utilities, education assistance (\$34,108), home leave (\$56,708), company-owned vehicle (\$20,783) and housing assistance (\$213,485); and amounts related to company contributions under our 401(k) and Employee Stock Ownership Plan (\$13,250), imputed value of life insurance, and executive health services. Certain deductions related to housing and hypothetical state and federal taxes are reflected in the total.

Aggregate incremental cost to our company of perquisites and personal benefits is determined as follows. In the case of payment of expenses related to items such as tax preparation services, utilities, education assistance, home leave, housing assistance, home security systems, executive healthcare services and relocation expenses, incremental cost is determined by the amounts paid to third-party providers. Relocation expenses may also include a one-time lump sum payment related to differences in cost of living and loss on sale of a former

residence. In the case of personal use of company-owned aircraft, incremental cost is based solely on the cost per hour to the company to operate the aircraft, and does not include fixed costs that do not change based on usage, such as purchase costs of the aircraft and non-trip-related hangar expenses. Our direct operating cost per hour of an aircraft is based on the actual costs of fuel, on-board catering, aircraft maintenance, landing fees, trip-related hangar and parking costs, and smaller variable costs, divided by the number of hours the aircraft was operated during the year. In the case of personal use of company-owned automobiles, incremental cost is based on the direct costs to operate the vehicle, such as maintenance, fuel, registration and parking fees, and does not include fixed costs to acquire or lease the vehicle.

Employment Agreements

In connection with the election of Ms. Woertz as our President and Chief Executive Officer, we and Ms. Woertz entered into Terms of Employment dated as of April 27, 2006. In recognition of the January 1, 2015 change in her position with our company, and in keeping with our practice of having no employment contracts for senior executives, on February 11, 2015, Ms. Woertz and the company terminated the Terms of Employment.

(1) Exercise price was determined by using the closing market price of a share of our common stock on the New York Stock Exchange on the trading day immediately prior to the grant date.

(2) The grant date fair value is generally the amount the company would expense in its financial statements over the award's service period under FASB ASC Topic 718.

All of the awards in the table above were granted under our 2009 Incentive Compensation Plan. The awards shown in the columns designated Estimated Future Payouts Under Non-Equity Incentive Plan Awards were made pursuant to our annual cash incentive plan. The amounts actually paid with respect to these awards are reflected in the Summary Compensation Table in the Non-Equity Incentive Plan Compensation column. See Compensation Discussion and Analysis for more information about our annual cash incentive plan.

All of the awards shown in the All Other Stock Awards column in the table above are restricted stock unit awards and vest in full three years after the date of the grant. Under the terms of the restricted stock unit award agreement pertaining to each of these awards, the recipient of the award may receive cash dividend equivalents on restricted stock units prior to their vesting date, but may not transfer or pledge the units in any manner prior to vesting. Dividend equivalents on restricted stock units are paid at the same rate as dividends to our stockholders generally. Vesting accelerates in full upon the death of the award recipient or a change-in-control of our company, and continues in accordance with the original vesting schedule if employment ends as a result of disability or retirement. If employment ends for other reasons, unvested shares are forfeited (except as otherwise described below in Termination of Employment and Change-in-Control Arrangements).

Table of Contents**EXECUTIVE COMPENSATION**

With respect to each of the restricted stock unit awards described above, if an award recipient's employment is terminated for cause, or if the recipient breaches a non-competition or confidentiality restriction or participates in an activity deemed by us to be detrimental to our company, the recipient's unvested units will be forfeited, and any shares issued in settlement of units that have already vested must be returned to us or the recipient must pay us the amount of the shares' fair market value as of the date they were issued.

All of the awards shown in the All Other Option Awards column in the table above are non-qualified stock option awards, vest and become exercisable in five equal annual installments commencing on the first anniversary of the grant date, and must be exercised within ten years after the grant date. The exercise price may be paid in cash or by delivering shares of our common stock that are already owned by the award recipient. Under the terms of the stock option agreement pertaining to each of these awards, vesting and exercisability accelerate in full upon the death of the recipient or change-in-control of our company, and continue in accordance with the original vesting schedule if employment ends as a result of disability or retirement. If employment ends for other reasons, a recipient forfeits any interest in the unvested portion of any option (except as otherwise described below in Termination of Employment and Change-in-Control Arrangements), but retains the right to exercise the previously vested portion of any option for a period of three months. In addition, if an award recipient's employment is terminated for cause, or if the recipient breaches a non-competition or confidentiality restriction or participates in an activity deemed by us to be detrimental to our company, the recipient's right to exercise any unexercised options will terminate, the recipient's right to receive option shares will terminate, and any shares already issued upon exercise of the option must be returned to us in exchange for the lesser of the shares' then-current fair market value or the price paid for the shares, or the recipient must pay us cash in the amount of the gain realized by the recipient from the exercise of the option.

The impact of a termination of employment or change-in-control of our company on restricted stock unit, performance share unit and stock option awards held by our named executive officers is quantified in the Termination of Employment and Change-in-Control Arrangements section below.

(1) The number of years of credited service was calculated as of the pension plan measurement date used for financial statement reporting purposes, which was December 31, 2015. For each of the named executive officers, the number of years of credited service is equal to the number of actual years of service with our company.

(2) The assumptions used to value pension liabilities as of December 31, 2015 were interest of 4.30% for the ADM Retirement Plan and 4.05% for the ADM Supplemental Retirement Plan and mortality determined under the RP2014 mortality table, with a white collar adjustment, projected generationally using scale MP-2015. The amounts reported for Ms. Woertz, Mr. Luciano, Mr. Young, and Mr. Findlay are the present value of their respective projected normal retirement benefit under the Retirement and Supplemental Plans at December 31, 2015. The amounts reported are calculated by projecting the balance in the accounts forward to age 65 by applying a 2.89% interest rate and then discounting back to December 31, 2015 using the assumptions specified above. The total account balance for Ms. Woertz at December 31, 2015 under the Retirement and Supplemental Plans was \$2,137,326, the total account balance for Mr. Luciano at December 31, 2015 under the Retirement and Supplemental Plans was \$124,469, the total account balance for Mr. Young at December 31, 2015 under the Retirement and Supplemental Plans was \$107,131, and the total account balance for Mr. Findlay at December 31, 2015 under the Retirement and Supplemental Plans was \$42,343, which are the amounts that would have been distributable if such individuals had terminated employment on that date.

Table of Contents**EXECUTIVE COMPENSATION****Qualified Retirement Plan**

We sponsor the ADM Retirement Plan (the Retirement Plan), which is a qualified defined benefit plan under Section 401(a) of the Internal Revenue Code. The Retirement Plan covers eligible salaried employees of our company and its participating affiliates.

Effective January 1, 2009, the Retirement Plan was amended to provide benefits determined under a cash-balance formula. The cash-balance formula applies to any participant entering or re-entering the plan on or after January 1, 2009 and to any participant who had less than five years of service prior to January 1, 2009. For a participant with an accrued benefit but less than five years of service prior to January 1, 2009, an account was established on January 1, 2009 with an opening balance equal to the present value of his or her accrued benefit determined under the final average pay formula. The accrued benefits of all other participants to whom the cash-balance formula does not apply continue to be determined under the traditional final average pay formula. Ms. Woertz, Mr. Luciano, Mr. Young and Mr. Findlay participate in the cash-balance formula, while Mr. Taets participates in the final average pay formula.

A participant whose accrued benefit is determined under the	AGE + SERVICE	PAY
cash-balance formula has an individual hypothetical account established under the Retirement Plan. Pay and interest	Less than 40	2.00%
	at least 40 but less than 50	2.25%
	at least 50 but less than 60	2.50%
	at least 60 but less than 70	3.00%
	at least 70 but less than 80	3.50%
credits are made on an annual basis to the participant's		
account. Pay credits are equal to a percentage of the		
participant's earnings for the year based on the sum of the		
participant's age and years of service at the end of the		
year		
under the schedule to the right.		
Interest credits are made at the end of the year and are calcu-		
lated on the balance of the participant's account as of		
the first	80 or more	4.00%

day of the plan year, using an interest rate based upon the yield on 30-year Treasury bonds, subject to a minimum annual interest rate of 1.95%. The participant's pension benefit will be the amount of the balance in the participant's account at the time that the pension becomes payable under the Retirement Plan. The pension payable to a participant whose accrued benefit under the final average pay formula was converted to the cash-balance formula at January 1, 2009, if paid in annuity form, will be increased to reflect any additional benefit which the participant would have received in that form under the traditional formula, but only with respect to the benefit accrued by the participant prior to January 1, 2009. A participant under the cash-balance formula becomes vested in a benefit under the Retirement Plan after three years of service. There are no special early retirement benefits under the cash-balance formula.

For a participant whose accrued benefit is determined under the final average pay formula, the formula calculates a life annuity payable at a normal retirement age of 65 based upon a participant's highest average earnings over five consecutive of the last 15 years of employment. The final average pay formula provides a benefit of 36% of a participant's final average earnings, plus 16.5% of the participant's final average earnings in excess of Social Security covered compensation. This benefit accrues ratably over 30 years of service. A participant accrues an additional benefit of 1/2% of final average earnings for years of service in excess of 30. Early retirement is available at age 55 with 10 years of service. The life annuity payable at early retirement is subsidized relative to the normal retirement benefit. The payment amount in life annuity form is 97% of the full benefit amount at age 64, and 50% at age 55, with adjustments between those two ages. A participant under the final average pay formula becomes vested in a benefit under the Retirement Plan after five years of service.

Earnings for purposes of the cash-balance and the final average pay formulas generally include amounts reflected as pay on Form W-2, increased by 401(k) Plan deferrals and elective cafeteria plan contributions, and decreased by bonuses, expense allowances/reimbursements, severance pay, income from stock option and restricted stock awards or cash payments in lieu thereof, merchandise or service discounts, amounts paid in a form other than cash, and other fringe benefits. Annual earnings are limited as required under Section 401(a)(17) of the Internal Revenue Code.

When a participant is eligible for a pension, the participant has a choice of a life annuity, a joint and 50% survivor annuity, a joint and 75% survivor annuity, or a joint and 100% survivor annuity. Each joint and survivor annuity form is the actuarial equivalent of the life annuity payable at the same age, with actuarial equivalence determined using the IRS prescribed mortality table under Section 417(e) of the Internal Revenue Code and an interest rate assumption of 6%. Cash-balance participants may also elect a lump-sum payment option.

Table of Contents**EXECUTIVE COMPENSATION****Supplemental Retirement Plan**

We also sponsor the ADM Supplemental Retirement Plan (the Supplemental Plan), which is a non-qualified deferred compensation plan under Section 409A of the Internal Revenue Code. The Supplemental Plan covers participants in the Retirement Plan whose benefit under such plan is limited by the benefit limits of Section 415 or the compensation limit of Section 401(a)(17) of the Internal Revenue Code. The Supplemental Plan also covers any employee whose Retirement Plan benefit is reduced by participation in the ADM Deferred Compensation Plan. Participation by those employees who otherwise qualify for coverage is at the discretion of the board, Compensation/Succession Committee or, in the case of employees other than executive officers, the Chief Executive Officer. The Supplemental Plan provides the additional benefit that would have been provided under the Retirement Plan but for the limits of Section 415 or 401(a)(17) of the Internal Revenue Code, and but for the fact that elective contributions made by the participant under the ADM Deferred Compensation Plan are not included in the compensation base for the Retirement Plan. A participant is not vested in a benefit under the Supplemental Plan unless and until the participant is vested in a benefit under the Retirement Plan, which requires three years of service for a cash-balance formula participant and five years of service for a final average pay formula participant, for vesting. A separate payment form election is required with respect to the Supplemental Plan benefit from among the same options available under the Retirement Plan, subject to the limitations of Section 409A of the Internal Revenue Code.

We sponsor two nonqualified deferred compensation plans the ADM Deferred Compensation Plan for Selected Management Employees I and II (referred to as Deferred Comp Plan I and Deferred Comp Plan II, respectively). Deferred Comp Plan I was frozen as to new participants and new deferrals effective January 1, 2005, and is maintained as a separate grandfathered plan under Section 409A of the Internal Revenue Code. Deferred Comp Plan II is structured to comply with Section 409A. Deferred Comp Plan II covers salaried employees of our company and its affiliates whose annualized base salary is \$175,000 or more. Participation by those employees who otherwise qualify for coverage is at the discretion of the board, Compensation/Succession Committee or, in the case of employees other than executive officers, the Chief Executive Officer.

A participant in Deferred Comp Plan II can defer up to 75% of his or her base salary and up to 100% of his or her bonus. Earnings credits are added based upon hypothetical investment elections made by participants. A participant can elect each year when to be paid the base salary or bonus amounts deferred for that year, by electing to be paid upon a specified future date prior to separation from service or following retirement, in the form of a lump sum or in installments over a period of two to twenty years. If a participant separates from service prior to the elected payment date (or prior to qualifying for retirement), the payment will be made in a lump sum after separation from service, subject to the six month specified employee payment delay required by Section 409A. Withdrawals are allowed upon a showing of

Table of Contents**EXECUTIVE COMPENSATION**

hardship by the participant in accordance with Section 409A. Small account balances of \$10,000 or less are paid in a lump sum only. Deferred Comp Plan II provides for make-whole company credits to the extent that a participant's election to defer under the Deferred Comp Plan II causes a loss of company contributions under the 401(k) and Employee Stock Ownership Plan. No make-whole company credits were made on behalf of the named executive officers for Fiscal Year 2015.

A participant with an account balance remaining under Deferred Comp Plan I continues to receive earnings credits on such account based upon hypothetical investment elections made by the participant. A participant can establish up to two scheduled distribution accounts that are payable upon dates specified by the participant in either a lump sum or installments over a period of two to four years. A participant also can take unscheduled withdrawals of up to 25% of the balance of his or her accounts, subject to a withdrawal penalty of 10% of the withdrawn amount. Only one such unscheduled withdrawal is allowed in any year. Withdrawals also are allowed upon a showing of hardship by the participant. A participant's account under Deferred Comp Plan I is paid following termination of employment. Payment following termination of employment is in a lump sum, except that a participant can elect to have installments paid over a period of two to twenty years if termination of employment occurs after retirement eligibility or due to disability.

Deferred Comp Plan I balances are fully-vested. A participant becomes vested in his or her company credits to Deferred Comp Plan II after two years of service. Unpaid amounts at death are paid to designated beneficiaries.

The hypothetical investment options available under Deferred Comp Plans I and II are determined by us and correspond with the investment options (other than our company's common stock) that are made available to participants in the qualified 401(k) and Employee Stock Ownership Plan. These investment options are listed below, and the plan earnings credited to each participant's account in these plans correspond to the earnings performance of the investment selected. Participants in the Deferred Comp Plans I and II may reallocate the amount of new deferrals and existing account balances among these investment options at any time. We do not set assets aside for the benefit of plan participants, but the Deferred Comp Plans I and II provide for full funding of all benefits upon a change-in-control or potential change-in-control, as defined in the plans.

Termination of Employment and Change-in-Control Arrangements

We have entered into certain agreements and maintain certain plans that will require us to provide compensation to named executive officers of our company in the event of a termination of employment or a change-in-control of our company. See the tabular disclosure and narrative description under the Pension Benefits and Nonqualified Deferred Compensation sections above for detail regarding payments that would result from a termination of employment or change-in-control of our company under our pension and nonqualified deferred compensation plans.

Under the terms of our time-vested restricted stock unit award agreements governing awards held by our named executive officers, vesting accelerates upon the death of the award recipient or a change-in-control of our company, and continues in accordance with the original vesting schedule if employment ends as a result of disability or retirement. If employment ends for other reasons, unvested shares are forfeited. In addition, if an award recipient's employment is terminated for cause, or if the recipient breaches a non-competition or confidentiality restriction or participates in an activity deemed by us to be detrimental to our company, the recipient's unvested shares will be forfeited, and any shares that have already vested must be returned to us or the recipient must pay us the amount of the shares' fair market value as of the date they vested.

Under the terms of the stock option agreements governing awards held by our named executive officers, vesting and exercisability accelerate upon the death of the recipient or change-in-control of our company, and continue in accordance with the original vesting schedule if employment ends as a result of disability or retirement. If employment ends for reasons other than death, disability, retirement or cause, a recipient forfeits any interest in the unvested portion of any option, but retains the right to exercise the previously vested portion of any option for a period of three months. In addition, if an award recipient's employment is terminated for cause, or if the recipient breaches a non-competition or confidentiality restriction or participates in an activity deemed by us to be detrimental to our company, the recipient's right to exercise any unexercised options will terminate, the recipient's right to receive option

shares will terminate, and any shares already issued upon exercise of the option must be returned to us in exchange for the lesser of the shares then-current fair market value or the price paid for the shares, or the recipient must pay us cash in the amount of the gain realized by the recipient from the exercise of the option.

At the time Mr. Findlay was hired in July 2013, he was awarded a time-vested RSU award and a non-qualified stock option award. In addition to the terms and conditions summarized in the preceding two paragraphs, these awards are also subject to a commitment we made in connection with his hiring that these awards would immediately vest in full if his employment were terminated by us for any reason other than gross misconduct or by Mr. Findlay for good reason. For these purposes, gross misconduct is generally defined as the conviction of a crime that is a felony or involves fraud or moral turpitude, or the violation of any law, contract, legal obligation or ADM policy that is materially and demonstrably injurious to our operations or reputation. Good reason is generally defined as a material reduction in base salary, a material adverse reduction in the scope or nature of duties and responsibilities, our failure to perform any material commitment made in connection with his hiring or a relocation of more than 25 miles in his primary work location.

Table of Contents**EXECUTIVE COMPENSATION**

The amount of compensation payable to each named executive officer in various termination and change-in-control scenarios is listed in the table below. These payments and benefits are provided under the terms of agreements involving equity compensation awards. Unless otherwise indicated, the amounts listed are calculated based on the assumption that the named executive officer's employment was terminated or that a change-in-control occurred on December 31, 2015.

The following table lists the potential payments and benefits upon termination of employment or change in control of our company for our named executive officers. These payments and benefits are provided under the terms of agreements involving equity compensation awards.

(1) Pursuant to the terms of the stock option and restricted stock unit award agreements under the 2002 Incentive Compensation Plan and 2009 Incentive Compensation Plan, vesting and exercisability of these equity awards are accelerated in full upon a change-in-control or death. The amount shown with respect to stock options was calculated with respect to options that were in the money as of December 31, 2015 and was determined by multiplying the number of shares subject to each option as to which accelerated vesting occurs by the difference between \$36.68, the closing sale price of a share of our common stock on the NYSE on December 31, 2015, and the exercise price of the applicable stock option. The amount shown with respect to restricted stock units was calculated by multiplying the number of shares as to which accelerated vesting occurs by \$36.68, the closing sale price of a share of our common stock on the NYSE on December 31, 2015.

(2) Pursuant to the terms of the stock option and restricted stock unit award agreements under the 2002 Incentive Compensation Plan and 2009 Incentive Compensation Plan, vesting of these equity awards generally continues on the same schedule after retirement or termination of employment due to disability.

(3) Because this named executive officer is not yet eligible for retirement under the terms of the ADM Retirement Plan, no current termination of employment would be considered retirement under any of the applicable equity-based compensation plans.

(4) In accordance with commitments made at the time of Mr. Findlay's hiring, his 2013 stock option and restrictive stock unit awards are accelerated in full if his employment is terminated by us for reasons other than gross misconduct or by him for good reason. The amounts shown were calculated in the manner described in note (1) above.

Table of Contents**DIRECTOR COMPENSATION FOR FISCAL YEAR 2015****DIRECTOR COMPENSATION FOR FISCAL 2015**

Our standard compensation for non-employee directors consists of an annual retainer in the amount of \$275,000. With respect to the \$275,000 annual retainer, \$150,000 must be paid in stock units pursuant to our Stock Unit Plan for Non-Employee Directors. The remaining portion of the annual retainer may be paid in cash, stock units, or a combination of both, at the election of each non-employee director. Each stock unit is deemed for valuation and bookkeeping purposes to be the equivalent of a share of our common stock. In addition to the annual retainer for fiscal year 2015, our Lead Director received a stipend in the amount of \$25,000, the chairman of the Audit Committee received a stipend in the amount of \$20,000, the chairman of the Compensation/Succession Committee received a stipend in the amount of \$20,000, and the chairman of the Nominating/Corporate Governance Committee received a stipend in the amount of \$15,000. In February 2016, the Lead Director's stipend was increased to \$30,000. All such stipends are paid in cash. We do not pay fees for attendance at board and committee meetings. Directors are reimbursed for out-of-pocket traveling expenses incurred in attending board and committee meetings. Directors may also be provided with certain perquisites from time-to-time.

Stock units are credited to the account of each non-employee director on a quarterly basis in an amount determined by dividing the quarterly amount of the retainer to be paid in stock units by the fair market value of a share of our common stock on the last business day of that quarter, and are fully-vested at all times. As of any date on which cash dividends are paid on our common stock, each director's stock unit account is also credited with stock units in an amount determined by dividing the dollar value of the dividends that would have been paid on the stock units in that director's account had those units been actual shares by the fair market value of a share of our stock on the dividend payment date. For purposes of this plan, the fair market value of a share of our common stock on any date is the average of the high and low reported sales prices for our stock on the New York Stock Exchange on that date. Each stock unit is paid out in cash on the first business day following the earlier of (i) five years after the end of the calendar year that includes the quarter for which that stock unit was credited to the director's account, and (ii) when the director ceases to be a member of our board. The amount to be paid will equal the number of stock units credited to a director's account multiplied by the fair market value of a share of our stock on the payout date. A director may elect to defer the receipt of these payments in accordance with the plan.

The following table summarizes compensation provided to each non-employee director for services provided during fiscal year 2015.

(1) As described above, \$150,000 of the annual retainer of \$275,000 is paid in stock units, which are reported in the Stock Awards column. In addition, our directors may elect to receive the remaining portion of the annual retainer in the form of cash, stock units or a combination of both. For fiscal year 2015, Mr. Boeckmann, Ms. Carter and Mr. Felsinger each elected to receive his or her entire annual retainer in the form of stock units.

(2) The amounts set forth in this column represent the grant date fair value of stock unit grants to each of the listed directors computed in accordance with the provisions of FASB ASC Topic 718. Each of the listed directors is a nonemployee director and the fair value of services provided by each director has been used to calculate the number of stock units credited to each director by dividing the quarterly fair value of the services provided by the fair market value of a share of our company's common stock on the last business day of the quarter. For purposes of this plan, the fair market value of a share of our common stock on any date is the average of the high and low reported sales prices for our stock on the New York Stock Exchange on that date. The fair value of services provided by each of the directors has been determined to be \$68,750 per quarter. The aggregate number of stock units credited to the account of each non-employee director as of December 31, 2015 (including mandatory stock unit grants,

voluntary elections to receive stock units and the deemed reinvestment of dividends) was as follows:

DIRECTOR COMPENSATION FOR FISCAL YEAR 2015

Director Stock Ownership Guidelines

Our company has guidelines regarding ownership of shares of our common stock by our non-employee directors. These guidelines call for non-employee directors to own shares of common stock (including stock units issued pursuant to the Stock Unit Plan for Non-Employee Directors) over time with a fair market value of not less than three times the amount of the maximum cash portion of the annual retainer. Application of these guidelines will consider the time each director has served on our board of directors, as well as stock price fluctuations that may impact the achievement of the three times cash retainer ownership guidelines.

Review and Approval of Certain Relationships and Related Transactions

Various policies and procedures of our company, including our Code of Conduct, our bylaws, the charter of the Nominating/Corporate Governance Committee and annual questionnaires completed by all of our directors and executive officers, require disclosure of and otherwise identify to the company transactions or relationships that may constitute conflicts of interest or otherwise require disclosure under applicable SEC rules as related person transactions between our company or its subsidiaries and related persons. For these purposes, a related person is a director, executive officer, nominee for director, or 5% stockholder of the company since the beginning of the last fiscal year and their immediate family members.

Although the company's processes vary with the particular transaction or relationship, in accordance with our Code of Conduct, directors, executive officers and other company employees are directed to inform appropriate supervisory personnel as to the existence or potential existence of such a transaction or relationship. To the extent a related person is involved in the relationship or has a material interest in the transaction, the company's practice, although not part of a written policy, is to refer consideration of the matter to the board or the Audit Committee. The transaction or relationship will be evaluated by the board or the committee, which will approve or ratify it if it is determined that the transaction or relationship is fair and in the best interests of the company. Generally, transactions and series of related transactions of less than \$120,000 are approved or ratified by appropriate company supervisory personnel and are not approved or ratified by the board or a committee thereof.

Certain Relationships and Related Transactions

During the fiscal year ended December 31, 2015, the brother of C. Cuddy, one of our executive officers, was employed by our company as a biodiesel trader. Such relationship was considered by the Audit Committee and found to be fair and in the best interests of our company.

REPORT OF THE AUDIT COMMITTEE

REPORT OF THE AUDIT COMMITTEE

The Audit Committee provides assistance to the Board of Directors in fulfilling its oversight responsibility to the stockholders relating to the Company's (i) financial statements and the financial reporting process, (ii) preparation of the financial reports and other financial information provided by the Company to any governmental or regulatory body, (iii) systems of internal accounting and financial controls, (iv) internal audit functions, (v) annual independent audit of the Company's financial statements, (vi) major risk exposures, (vii) legal compliance and ethics programs as established by management and the Board, (viii) related-party transactions, and (ix) performance of the compliance function.

The Audit Committee assures that the corporate information gathering, analysis and reporting systems developed by management represent a good faith attempt to provide senior management and the Board of Directors with information regarding material acts, events, and conditions within the Company. In addition, the Audit Committee is directly responsible for the appointment, compensation, retention and oversight of the independent auditor. The Audit Committee ensures that the Company establishes, resources, and maintains a professional internal auditing function and that there are no unjustified restrictions or limitations imposed on such function. The Audit Committee reviews the effectiveness of the internal audit function and reviews and approves the actions relating to the General Auditor, including performance appraisals and related base and incentive compensation. The Audit Committee is comprised of five independent directors, all of whom are financially literate and one of whom (T. K. Crews, the Chairman) has been determined by the Board of Directors to be an audit committee financial expert as defined by the Securities and Exchange Commission (SEC).

Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed the audited financial statements in the annual report with management, including a discussion of the quality—not just the acceptability—of the accounting principles, the reasonableness of significant judgments, the development and selection of the critical accounting estimates, and the clarity of disclosures in the financial statements. Also, the Audit Committee discussed with management education regarding compliance with the policies and procedures of the Company as well as federal and state laws.

The Audit Committee reviewed and discussed with the independent auditor, who is responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, the effectiveness of the Company's internal control over financial reporting, and the matters required to be discussed by Auditing Standard No. 16, *Communications with Audit Committees*, as adopted by the PCAOB, including their judgment as to the quality—not just the acceptability—of the Company's accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. In addition, the Audit Committee received the written disclosures and the letter from the independent auditor required by applicable requirements of the PCAOB regarding the independent auditor's communications with the Audit Committee concerning independence and has discussed with the independent auditor the auditor's independence from management and the Company. The Audit Committee has adopted an Audit and Non-audit Services Pre-Approval Policy and considered the compatibility of non-audit services with the independent auditor's independence. The Audit Committee recommended to the Board of Directors (and the Board of Directors approved) a hiring policy related to current and former employees of the

independent auditor.

The Committee discussed the Company's major risk exposures, the steps management has taken to monitor and control such exposures, and guidelines and policies to govern the Company's risk assessment and risk management processes.

The meetings of the Audit Committee are designed to facilitate and encourage communication among the Audit Committee, the Company, the Company's internal audit function and the Company's independent auditor. The Audit Committee discussed with the internal and independent auditors the overall scope and plans for their respective audits. The Audit Committee met with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the accounting and financial controls, and the overall quality of the Company's financial reporting. The Audit Committee met individually with members of management in executive session. The Audit Committee held nine meetings during fiscal year 2015.

The Audit Committee recognizes the importance of maintaining the independence of the Company's independent auditor, both in fact and appearance. Each year, the Audit Committee evaluates the qualifications, performance and independence of the Company's independent auditor and determines whether to re-engage the current independent auditor. In doing so, the Audit Committee considers the quality and efficiency of the services provided by the auditors, the auditors' global capabilities and the auditors' technical expertise and knowledge of the Company's operations and industry. Based on this evaluation, the Audit Committee has appointed Ernst & Young LLP as independent auditor for the fiscal year ending December 31, 2016. The members of the Audit Committee and the Board believe that, due to Ernst & Young LLP's knowledge of the Company and of the industries in which the Company operates, it is in the best interests of the Company and its

stockholders to continue retention of Ernst & Young LLP to serve as the Company's independent auditor. Although the Audit Committee has the sole authority to appoint the independent auditors, the Board is submitting the selection of Ernst & Young LLP to our stockholders for ratification as a matter of good corporate practice.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board of Directors approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2015 for filing with the SEC.

Table of Contents**PROPOSAL NO. 2****PROPOSAL NO. 2 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee is directly responsible for the appointment, compensation, retention and oversight of the independent registered public accounting firm retained to audit the company's financial statements. The Audit Committee has appointed Ernst & Young LLP as our company's independent registered public accounting firm for the fiscal year ending December 31, 2016. Ernst & Young LLP, or its predecessor firms, has served as our independent registered public accounting firm for more than 50 years.

The Audit Committee is responsible for the audit fee negotiations associated with our company's retention of Ernst & Young LLP. In order to assure continuing auditor independence, the Audit Committee periodically considers whether there should be regular rotation of the independent registered public accounting firm. In conjunction with the required rotation of Ernst & Young LLP's lead engagement partner, the Audit Committee and its Chairman are directly involved in the selection of Ernst & Young LLP's new lead engagement partner.

We are asking our stockholders to ratify the selection of Ernst & Young LLP as our independent registered public accounting firm. Although ratification is not required by our bylaws or otherwise, our board is submitting the selection of Ernst & Young LLP to our stockholders as a matter of good corporate practice. The members of the Audit Committee, and the board, believe that the continued retention of Ernst & Young LLP to serve as the company's independent registered public accounting firm is in the best interests of our company and its stockholders. Representatives of Ernst & Young LLP will attend the annual meeting, will have the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions.

The Board of Directors recommends a vote FOR ratification of the appointment of Ernst & Young LLP as our company's independent registered public accounting firm for the fiscal year ending December 31, 2016. Proxies solicited by the Board will be so voted unless stockholders specify a different choice.

PROPOSAL NO. 3

PROPOSAL NO. 3 ADVISORY VOTE ON EXECUTIVE COMPENSATION

Pursuant to Section 14A of the Exchange Act, the following proposal provides our stockholders with an opportunity to vote to approve, on an advisory basis, the compensation of our named executive officers, as disclosed in this proxy statement. In considering your vote, you may wish to review the Compensation Discussion and Analysis discussion herein, which provides details as to our compensation policies, procedures and decisions regarding the named executive officers, as well as the Summary Compensation Table and other related compensation tables, notes and narrative disclosures in this proxy statement. This vote is not intended to address any specific element of our executive compensation program, but rather the overall compensation program for our named executive officers.

The Compensation/Succession Committee, which is comprised entirely of independent directors, and our board of directors believe that the executive compensation policies, procedures and decisions made with respect to our named executive officers are competitive, are based on our pay-for-performance philosophy, and are focused on achieving our company's goals and enhancing stockholder value.

Accordingly, for the reasons discussed above and in the Compensation Discussion and Analysis section of this proxy statement, the board asks our stockholders to vote FOR the adoption of the following resolution to be presented at the Annual Meeting of Stockholders held in 2016:

RESOLVED, that the stockholders approve, on an advisory basis, the compensation of the Company's named executive officers as disclosed in the Compensation Discussion and Analysis section, the compensation tables, and the related narrative disclosure in this Proxy Statement.

Although this advisory vote is not binding on our board of directors, the board and the Compensation/Succession Committee will review and expect to take into account the outcome of the vote when considering future executive compensation decisions.

The board of directors will include an advisory vote on executive compensation at each annual meeting of stockholders until the next required vote on the frequency of stockholder votes on executive compensation. The next advisory vote on executive compensation and the next advisory vote on the frequency of stockholder votes on executive compensation will be held at the annual meeting of stockholders following the fiscal year ending December 31, 2016.

The Board of Directors recommends that you vote FOR the approval of the advisory resolution on the compensation of our company's named executive officers, as disclosed in this proxy statement. Proxies solicited by the Board will be so voted unless stockholders specify a different choice.

Table of Contents**ANNEX A****DEFINITION AND RECONCILIATION OF NON-GAAP MEASURES****DEFINITION AND RECONCILIATION OF NON-GAAP MEASURES**

We use Adjusted ROIC to mean Adjusted ROIC Earnings divided by Adjusted Invested Capital. Adjusted ROIC Earnings is the Company's net earnings attributable to controlling interests adjusted for the after-tax effects of interest expense, changes in the LIFO reserve, and other specified items. Adjusted Invested Capital is the average of quarter-end amounts for the trailing four quarters, with each such quarter-end amount being equal to the sum of the Company's equity (excluding non-controlling interests), interest-bearing liabilities, the after-tax effect of the LIFO reserve, and other specified items. Management uses Adjusted ROIC to measure the Company's performance by comparing Adjusted ROIC to the Company's weighted average cost of capital, or WACC.

We use Adjusted EBITDA to mean EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) adjusted for specified items. Management uses Adjusted EBITDA to measure profitability of the Company after adjusting for certain specified items.

Adjusted ROIC, Adjusted ROIC Earnings, Adjusted Invested Capital, and Adjusted EBITDA are non-GAAP financial measures and are not intended to replace or be alternatives to GAAP financial measures. The following tables present reconciliations of Adjusted ROIC earnings to net earnings attributable to controlling interests, the most directly comparable amount reported under GAAP; of Adjusted Invested Capital to Total Shareholders' Equity, the most directly comparable amounts reported under GAAP; of Adjusted EBITDA to net earnings attributable to controlling interests, the most directly comparable amount reported under GAAP; and the calculation of Adjusted ROIC for the period ended December 31, 2015.
