* An explanation of the significance of ratings may be obtained from the rating agencies. Generally, rating agencies base their ratings on such material and information, and such of their own investigations, studies and assumptions, as they deem appropriate. The rating of the Depositary Shares should be evaluated independently from similar ratings of other securities. A credit rating of a security is not a recommendation to buy, sell or hold securities and may be subject to review, revision, suspension, reduction or withdrawal at any time by the assigning rating agency.

** It is expected that delivery of the Depositary Shares will be made in book-entry form only through the facilities of The Depository Trust Company against payment in New York, New York on or about the fifth business day following the date of this term sheet. Trades of securities in the secondary market generally are required to settle in two business days, referred to as T+2, unless the parties to a trade agree otherwise. Accordingly, by virtue of the fact that the initial delivery of the Depositary Shares will not be made on a T+2 basis, investors who wish to trade the Depositary Shares before a final settlement will be required to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement.

The Depositary Shares are not deposits or obligations of a bank and are not insured or guaranteed by the Federal Deposit Insurance Corporation or by any other government agency or instrumentality.
