## Petrobras breaks new oil production record in Brazil

---

(Rio de Janeiro, March 31, 2005). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA], a Brazilian international energy company, announces that, yesterday, on March 30 2005, the Company broke its daily oil production record in Brazil with an output of 1,650,947 barrels, exceeding the previous record of 1,640,509 barrels reached on March 14 2003.

This performance is particularly significant when compared with average oil production in Brazil for the fourth quarter 2004 of 1,510,530, representing a 9.3% increase. In comparison with the average for 2004, the figure represents an increase of 10.5%.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
