**Moody's increases Petrobras' local currency rating from Baa1 to A2**

---

(Rio de Janeiro, July 8, 2005). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA], a Brazilian international energy company, announces that the rating agency, Moody's Investor Services has increased the Company's local currency debt rating from Baa1 to A2. This increase reflects Moody's new rating methodology for government-related issuers (GRIs).

Petrobras' foreign currency rating was reconfirmed as Ba1 (with a positive outlook), that is, only one level below investment grade.

With this decision, Moody's recognizes the significance of the Company's assets, revenues, and oil and gas reserves, the importance of the integration of its operations, its position as a leader in the Brazilian market and strong growth potential for the production of oil and gas both in Brazil and overseas.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
