## **GAFISA RELEASES 3Q14 RESULTS**

### **FOR IMMEDIATE RELEASE**

**São Paulo, November 07, 2014**

Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), one of Brazil's leading homebuilders, today reported financial results for the quarter ended September 30, 2014.

### **MANAGEMENT COMMENTS AND HIGHLIGHTS**

During this challenging macroeconomic climate, the Company is remaining focused on maintaining profitability and generating cash flow. Corrections and improvements by the Company and our business partners undertaken in recent years have increased the efficiency of the production cycle, thereby reducing the construction period, strengthening financial management, and improving the quality and speed of the transfer process. As a result, we have achieved better operating performance, enhancing the profile of our capital employed. These factors have also positioned the Company well for the current economic environment.

In this context, Gafisa and Tenda's projects performance has been solid during recent quarters, contributing to adjusted gross margin of 36.4% in the third quarter on a consolidated basis. The Gafisa segment's results were stable, with an adjusted gross margin of 38.7%, while in the Tenda segment, the proportional increase in contribution from new projects has resulted in increasing our expectation that we will be able to maintain an adjusted gross margin level of between 28-30% for new projects.

Similar to the second quarter, Gafisa's third quarter performance was impacted by continued weakness in the economic environment. Accordingly, Gafisa is taking a selective approach to product development and launches, as it prioritizes pursuing a solid level of profitability.

In the Gafisa segment, third quarter launches totaled R\$419.1 million, with gross pre-sales of R\$345.6 million. During the quarter, more cautious buying behavior on the part of consumers resulted in a reduction in launches sales velocity. In the 3Q14, Gafisa's SoS was 7.2%.

Recently, in line with our commitment to transparency, capital discipline and value generation to shareholders, the Company announced the reduction of its guidance for 2014 expected launches for the Gafisa segment. Despite having projects already approved and ready for launch through the end of the year, the Company believes that, based on the continuing uncertainties of the current economic environment, these launches should be postponed to 2015, which will allow for more appropriate timing in order to maintain these projects' target margins. As a result, in the 3Q14 Gafisa completed R\$1.0 billion of launches in 9M14, attaining 89% of the midpoint of newly established guidance of between R\$1.1 billion to R\$1.2 billion. Looking ahead to the last quarter of the year, the Gafisa segment is dedicating even more focus on the sale of inventories of its previously launched projects.

Tenda experienced lower launch activity in the third quarter due to a greater than expected period in finalizing the legalization and contracting of new projects with financing agents, which resulted in the postponement of some projects to the fourth quarter. Third quarter launches totaled R\$91.3 million, with gross pre-sales of R\$182.3 million. The level of dissolutions in 3Q14 still presented a high volume of R\$146.3 million, driven mainly by the strong delivery of legacy projects, which accounted for 70% of PSV in the period. Our expectation is that the volume of cancellations in the last quarter will remain at a similar level, due to the delivery of most of the remaining legacy projects, coupled with the transition to a new sales accounting policy, where the sale is booked only after payment by the customer.

—

The higher volume of dissolutions impacted significantly sales velocity in this third quarter, reaching 4.6%. The World Cup, which had an adverse effect on the number of visitations to the shops, and a change in the sales accounting policy have also contributed to a pre-sales reduction in the period. However, we continue to believe in the resilience of Tenda's market segment, even in the face of economic uncertainty. Demand in the low income housing segment is still quite strong, due to Brazil's low unemployment rate and the availability of credit for the segment.

In the 9M14, Tenda launches reached R\$371.8 million, and facing terms longer than expected for legalization and contracting, remains seeking the floor for its launch guidance of R\$600 to R\$800 million, to the end of the year.

Consolidated Gafisa and Tenda launch volumes for the quarter reached R\$510.4 million and R\$1.4 billion in the first nine months of the year, which represents 75% of the midpoint of newly revised guidance of R\$1.7 to R\$2.0 billion. Net pre-sales were R\$230.8 million and R\$903.1 million in the 9M14. Adjusted gross profit was R\$179.9 million, with a margin of 36.4% in the quarter, 2 percentage points above that of the previous year. In the 9M14, adjusted gross profit totaled R\$517.3 million, with a margin of 34.4%, 5.8 percentage points above that of the 9M13, demonstrating Gafisa and Tenda improved operating performance.

Consolidated net income was a loss of R\$9.9 million, comprised by Gafisa's net income of R\$15.3 million, and a loss in Tenda of approximately R\$25.2 million. For the 9M14, net income was negative R\$50.6 million, with Gafisa presenting income of R\$30.1 million, and Tenda reporting a loss of R\$80.7 million.

Operational cash generation performed well during the year. The Company ended 3Q14 with operating cash flow of R\$49.4 million, reaching R\$195.5 million in the 9M14, reflecting: (i) the transfer/receiving process for units sold with financing agents, with around R\$1.2 billion transferred during the year, and; (ii) greater control over the Company's business cycle. Free cash flow generation in 3Q14 was positive again at R\$23.5 million, totaling R\$42.7 million during the year.

At the end of September, 2014, the Company's Net Debt/Equity ratio reached 44.3%, which is in line with the previous quarter. Excluding project finance, the Net Debt/Equity ratio was negative 22.8%.

The separation process of the business units continues to progress, and as soon as we have information on the next steps, the Company will inform its shareholders and the market.

As the year end approaches, we are pleased to have seen major evolution in the financial and operating cycles of both companies. We continue to work with having profitability and shareholder value creation goals as our guidelines, always seeking ongoing improvement in our results.

## ANALYSIS OF RESULTS

### Gafisa Segment

#### Gross Margin Expansion and Reduction in Expenses Benefit Operating Results

The Gafisa segment's margin has been improving in recent quarters, due to the consolidation of operations in certain markets and the delivery of legacy projects. Accordingly, the segment's profitability increased. Adjusted gross profit totaled R\$141.5 million in 3Q14, with a margin of 38.7%. Another quarterly highlight is the 6.4% y-o-y reduction in the amount of expenses, primarily due to lower selling expenses. The reduction was achieved despite higher launch volumes in the period.

#### Net Income

Net income for the period was R\$15.3 million, compared to R\$17.1 million in 2Q14, and R\$76.7 million in the year-ago period. Excluding R\$6.6 million in equity from Alphaville, the Gafisa segment's net income was R\$8.7 million. The result was stable versus the 2Q14, and reflects improved operating performance despite lower revenue. In the 9M14, net income totaled R\$18.5 million, compared to a loss of R\$50.8 million in the prior year, underscoring the improvement in Gafisa's performance in recent quarters.

To note, currently Gafisa holds a 30% stake in Alphaville, while in 3Q13 it owned 100%.

### Tenda Segment

#### High Volume of Dissolution of Legacy Impacted Revenue

Lower quarterly launch volumes, due to delays in obtaining licenses and contracting projects with financing agents, coupled with a higher level of dissolutions in this 3Q14, especially due to the large volume of deliveries of legacy projects, negatively impacted sales results and revenue recognition of Tenda this quarter. With the higher concentration of dissolutions in legacy projects, the revenue breakdown was positively impacted by increased participation of projects related to the New Model, thereby allowing the maintenance of the adjusted gross margin at a high level, reaching 29.8% in the quarter.

In late August we implemented a new sales accounting policy, where the sale is booked only after payment by the customer. Until then, revenue was generated by the issuance of the customer purchase and sale agreement. We hope that this change presents a significant impact on reducing the level of dissolutions of new pre-sales starting in September.

A streamlined cost structure, which better reflects the size of operations, also contributed to the segment's third quarter results. Selling, general and administrative expenses once again decreased sharply from a year earlier. Selling expenses were impacted by lower gross sales in the period, while general and administrative expenses recorded annual savings of 24.7%, due to reduced operational complexity in the Tenda segment, with the reduction in the number of legacy projects.

### **Net Income**

The third quarter net loss was R\$25.2 million, compared to a net loss of R\$18.0 million in 2Q14, and R\$60.9 million in 3Q13. While Tenda's 3Q14 bottom line was impacted by lower launch volumes and net sales, the segment's performance has improved over a longer timeframe. In the 9M14, Tenda's net loss declined 38.3% year-over-year, closing the period at R\$80.7 million.

## RECENT EVENTS

### Share Buyback Program

Regarding the share buyback program in place, on October 30, 2014, the Company had acquired around 30 million shares, or around 94% of the total amount permitted, considering the maximum amount of 32,938,554 shares.

The approved program is conditional on the maintenance of consolidated net debt at a level equal to or less than 60% of net equity and does not oblige the Company to acquire any particular amount of shares in the market. The program may be suspended at any time.

On February 26, 2014, the Company canceled an open share buyback program in place in the Tenda subsidiary and opened a new program in Gafisa, containing the same previously defined conditions. The new program can repurchase the remaining balance of shares.

### Revision of 2014 Guidance

In line with the Company's commitment to transparency, capital discipline and value generation to shareholders, it was disclosed in a Material Fact dated October 20 that the Company lowered its guidance for 2014 expected launches for the Gafisa segment. The new launch guidance for the segment was lowered to R\$1.1 to R\$1.2 billion from R\$1.5 to R\$1.7 billion previously. Despite having projects already approved and ready for launch through the end of the year, the Company believes that, based on the continuing uncertainties of the current economic environment, these launches should be postponed to 2015.

Due to the change in the volume of 2014 launches projected for the Gafisa segment, guidance for the ratio of Administrative Expenses to Launch Volumes, which was 7.5% for 2014, has been impacted. While projected administrative expenses for the year, and the basis for previous guidance, are within expectations, this guidance becomes is no longer applicable for 2014.

Gafisa remains strongly committed to the recovery plan for its profitability level and focused on the generation of value for its shareholders.

## **Update on the Separation Process**

### **Administrative Split and Next Steps**

The Company continued to evaluate the potential separation of the Gafisa and Tenda business units during the quarter.

As previously reported, a separation would be the next step in a comprehensive plan initiated by management to enhance value creation for both business units and its shareholders.

Since the beginning of the year the Company has been moving toward the effective separation of Gafisa and Tenda's administrative structures, so that they can operate independently in the future.

In recent months the actual division of various departments such as Services, Personnel and Management Center, Legal, among others has been implemented. The Company is currently working on the completion of this process, defining guidelines for the separation and independent operation of some remaining departments that still operate in a shared way.

At the same time, the Company continues to evaluate separation alternatives for the two companies.

Among the initiatives and studies being undertaken, we highlight:

(1) Review of relationship with agents potentially linked to the separation process in order to align contractual, operational and financial issues related to the possible separation;

(2) Amendment with the Brazilian Securities and Exchange Commission (CVM), related to the category of Tenda as an issuer. Since late July 2014, Tenda became registered under Category A;

(3) Continuity of studies the most appropriate capital structure for the business cycle of each company, as well as liquidity, and fiscal, tax, legal, corporate aspects, among others.

The Company will keep its shareholders and the market informed as to the progress and development of this process.

## **GAFISA SEGMENT**

### **Operating Results**

#### **Launches and Pre-Sales**

Third-quarter launches totaled R\$419.1 million and comprised 4 projects/phases located in the cities of São Paulo, São Caetano and Rio de Janeiro. Also in the quarter, the Company requested renunciation of a development launched in early 2014 in São Paulo, with a PSV of R\$64.8 million, to modify the project. Therefore, in the first 9M14, excluding the effect of the project mentioned above, the segment's launches totaled R\$1.0 billion, compared to R\$406.2 million in the same period last year.

Gafisa segment 3Q14 gross pre-sales totaled R\$345.6 million and R\$984.8 million in the 9M14. Dissolutions reached R\$150.7 million, affecting net pre-sales that reached R\$194.9 million. In the 9M14, net sales totaled R\$633.7 million and the volume of dissolutions was R\$351.1 million. Units launched during the quarter represented 54.2% of total sales, amounting to R\$105.6 million, while in the 9M14 launches represented 44.9% of pre-sales. The segment accounted for 82.1% of consolidated launches for the quarter and 74.5% for the 9M14.

### Sales over Supply (SoS)

3Q14 sales velocity was 7.2%, compared with 9.8% in 2Q14 and 9.2% in the previous year. Considering the last 12 months, Gafisa's SoS ended the 3Q14 at 30.4%.

### Dissolutions

Uncertainties related to the current Brazilian economic scenario resulted in an increase in dissolutions, reaching R\$150.7 million in the quarter, compared to R\$119.9 million in the 2Q14 and R\$73.0 million in the previous year. In the 9M14, the level of dissolutions was R\$351.1 million, down 12.7% compared to the R\$402.3 million in the same period of 2013, despite a more difficult macroeconomic environment.

In the last three years, the Company has been working on initiatives in search of higher credit quality of its sales, aiming at reaching a reduced level of dissolutions throughout the construction and delivery cycle. It is worth mentioning the importance of assertiveness in the credit review process at the time of the sale, which has generated great efficiency in the process of transferring Gafisa customers, despite deteriorating macroeconomic conditions throughout the year.

In the 3Q14, of the 289 Gafisa segment units cancelled and returned to inventory, 69.1% were resold. For the year, 691 units have been cancelled, of which 58.5% have already been resold.

### Inventory

In 3Q14, Gafisa maintained its focus on inventory reduction initiatives. Accordingly, inventory represented 55.1% of total sales in the period. The market value of Gafisa segment inventory reached R\$2.5 billion in the 3Q14, as compared to R\$2.3 billion in the previous quarter. Finished units outside of core markets accounted for R\$191.1 million, or 7.6% of total inventory.

During the same period, finished units comprised R\$278.9 million, or 11.2% of total inventory. Of this amount, inventory from projects launched outside core markets represented R\$148.3 million, down 17.8% and 24.6% as compared to R\$180.3 million in 2Q14 and R\$196.7 million in early 2014, respectively. The Company has seen an improvement in sales velocity in these markets over the past few quarters, and believes that between the end of 2015 and beginning of 2016 it will have monetized a large portion of its inventory in non-core markets.

It is worth noting that the largest share of the Gafisa inventory, approximately 69.5% or R\$1.7 billion, is concentrated in projects that are to be delivered from early 2016. This will account for the sale of inventory in coming quarter, rather than finished units.

### Revenues

### Gross Profit & Margin

Gross profit for the Gafisa segment in 3Q14 was R\$106.7 million, compared to R\$119.1 million in 2Q14, and R\$165.9 million in the prior year period. Gross margin for the quarter was 29.2%, in line with the margin of 29.9% in the previous quarter. Excluding financial impacts, the adjusted gross margin reached 38.7% in 3Q14 compared to 38.1% in the 2Q14 and 37.6% in the prior year. Gafisa's margins and profitability have improved, in keeping with the delivery of legacy projects and the strategic consolidation of the segment's footprint. At the same time, the increased contribution of newer, more profitable projects launched by the end of 2013 positively impacted results.

The below table contains more details on the breakdown of Gafisa's gross margin in 3Q14.

**Selling, General and Administrative Expenses (SG&A)**

SG&A expenses totaled R\$53.4 million in the 3Q14, a 6.4% y-o-y decrease. Selling expenses decreased by R\$5.6 million, or 20.4% y-o-y, despite the higher volume of launches, reflecting lower marketing expenses and sales commissions. For the year, sales expenses totaled R\$69.1 million, a significant reduction of 31.7% over the same period last year.

The segment's general and administrative expenses reached R\$32.0 million in 3Q14, remaining stable compared with the previous quarter, and growing 6.4% compared to 3Q13, due to a higher volume of spending on outsourced services and IT. In the 9M14, these expenses totaled R\$95.9 million, compared to R\$90.6 million in the year-ago comparison.

The reduction in the level of selling, general and administrative expenses in the Gafisa segment reflects the Company's commitment to improve operational efficiency and achieve costs and expenses that are appropriate for the business cycle.

Strong deliveries over the past two years, including delayed projects in other markets, were instrumental in the increase of the contingency level. Given Gafisa's narrowed footprint to São Paulo and Rio de Janeiro and the delivery of outstanding legacy projects in other markets, we should perceive a reduction of this potential liability. In fact, over the course of the coming years, a reduction in the volume of these expenses is expected.

## Adjusted EBITDA

Below is Tenda's gross margin breakdown in 3Q14. It is worth noting that the gross margin for the first projects under Tenda's new business model also benefits from the use of landbank acquired in the past, resulting in increased profitability.

## Cash Generation

Operational cash generation performed well during the year. The Company ended 3Q14 with operating cash flow of R\$49.4 million, reaching R\$195.5 million in the 9M14, reflecting: (i) the transfer/receiving process for units sold with financing agents (R\$381.1 million was transferred during the period, totaling R\$1.2 billion in the year), and; (ii) greater control over the Company's business cycle.

Free cash generation for the period was positive again, reaching R\$23.5 million. In the 9M14, excluding certain non-recurring events, free cash generation was positive at R\$42.3 million. The main non-recurring events that impacted free cash generation were: (i) R\$58.5 million used in the share buyback program; (ii) the payment of R\$63.6 million in taxes on the sale of Alphaville; and (iii) the payment of interest on own capital in the amount of R\$130.2 million.

In the 3Q14, the Gafisa segment represented 73.9% of revenues while Tenda accounted for 26.1%. For the year, Gafisa accounted for 72.6% while Tenda accounted for 27.4% of consolidated revenue.

### Gross Profit & Margin

Gross profit in 3Q14 was R\$128.9 million, compared to R\$164.9 million in 2Q14, and R\$173.5 million in the previous year. The result was impacted by lower revenue in the period. Gross margin for the quarter reached

The gross margin is improving as Gafisa and Tenda segment legacy projects are replaced by projects launched in core markets and under the new Tenda business model, which contain improved profitability. The increased contribution of more profitable projects to consolidated results can be observed in recent quarters. In the 9M14 adjusted gross profit reached R\$517.3 million with a gross margin of 34.4%, versus R\$507.8 million and an adjusted gross margin of 28.6% in the same period last year.

### **Pre-Sales**

## **Swap Agreements**
