Extension of concession contracts for the Marlim and Voador fields

Rio de Janeiro, May 17, 2016 – Petróleo Brasileiro S.A. – Petrobras hereby announces that signed today with the National Petroleum Agency (ANP) the extension of the concession contracts for the Marlim and Voador fields, until 2052. The extension of the fields' Production Phase was in line with Resolution 2/2016 issued by the National Energy Policy Council (CNPE), which authorized the Agency to extend the concession agreements entered into in Round Zero, in 1998. The contracts were originally due to expire in 2025.

The purpose of Petrobras with this extension is to ensure the maximum utilization of the existing reserves with revitalization projects in these fields that provide for the installation of two new platforms, together with expanded water injection and fluid processing capacity and the drilling of ten new wells.

In March, the Marlim and Voador fields produced 150,000 barrels of oil and 2 million cubic meters of gas per day.
