FINANCIAL INFORMATION

The accompanying unaudited condensed interim financial statements as of and for the three months and six months ended June 30, 2006 have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission regarding interim financial reporting. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements and should be read in conjunction with the audited financial statements and related notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2005. The financial statements herein should also be read in conjunction with the notes to the financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in this report. The results of operations for the three months and six months ended June 30, 2006 are not necessarily indicative of the operating results expected for the full year. The information furnished in our accompanying condensed consolidated balance sheets and condensed consolidated statements of operations, stockholders' equity, and cash flows reflects all adjustments that are, in our opinion, necessary for a fair presentation of the aforementioned financial statements.

COLE CREDIT PROPERTY TRUST II, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006

(Unaudited)

Note 1 Organization

Cole Credit Property Trust II, Inc. (the Company) was formed on September 29, 2004 and is a Maryland corporation that intends to qualify as a real estate investment trust (REIT) beginning with the taxable year ended December 31, 2005. Substantially all of the Company's business is conducted through Cole Operating Partnership II, LP (Cole OP II), a Delaware limited partnership. The Company is the sole general partner of and owns a 99.99% partnership interest in Cole OP II. Cole REIT Advisors II, LLC (the Advisor), the affiliated advisor to the Company, is the sole limited partner and owner of 0.01% of the partnership interests of Cole OP II.

Pursuant to a Registration Statement on Form S-11 under the Securities Act of 1933, as amended (the Registration Statement), the Company is offering for sale to the public on a best efforts basis a minimum of 250,000 and a maximum of 45,000,000 shares of its common stock at a price of \$10 per share (the Offering), subject to discounts in certain circumstances, and up to 5,000,000 additional shares pursuant to a distribution reinvestment plan under which its stockholders may elect to have distributions reinvested in additional shares of the Company's common stock at \$9.50 per share. The Registration Statement was declared effective on June 27, 2005.

On September 23, 2005, the Company issued the initial 486,000 shares of its common stock under the Offering and commenced its principal operations. Prior to such date, the Company was considered a development stage company. As of June 30, 2006, the Company had issued approximately 11.4 million shares of its common stock in the Offering for aggregate gross proceeds of approximately \$113.7 million before offering costs and selling commissions of approximately \$11.2 million. As disclosed in the Registration Statement, the Company expects to use substantially all of the net proceeds from the Offering to acquire and operate commercial real estate primarily consisting of freestanding, single-tenant commercial properties net-leased to investment grade or otherwise creditworthy tenants located throughout the United States.

The Company's stock is not currently listed on a national exchange. The Company may seek to list its stock for trading on a national securities exchange or for quotation on The Nasdaq National Market only if a majority of its independent directors believe listing would be in the best interest of its stockholders. The Company does not intend to list its shares at this time. The Company does not anticipate that there would be any market for its common stock until its shares are listed or quoted. In the event it does not obtain listing prior to the tenth anniversary of the completion or termination of the Offering, its charter requires that it either: (1) seek stockholder approval of an extension or amendment of this listing deadline, or (2) seek stockholder approval to adopt a plan of liquidation of the corporation.

Note 2 Summary of Significant Accounting Policies

Basis of Presentation

Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

The condensed consolidated financial statements of the Company have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission, including the instructions to Form 10-Q and Article 10 of Regulation S-X, and do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, the statements for the unaudited interim periods presented include all adjustments, which are of a normal and recurring nature, necessary to present a fair presentation of the results for such periods. Results for these interim periods are not necessarily indicative of full year results. During the three months and six months ended June 30, 2005, the Company was in the development stage and did not have any operations during that period. The information included in this Form 10-Q should be read in conjunction with the Company's audited consolidated financial statements as of December 31, 2005, and related notes thereto.

Principles of Consolidation and Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Restricted Cash and Escrowed Investor Proceeds

The Company is currently engaged in a public offering of its common stock. Included in restricted cash and escrowed investor proceeds is approximately \$5.1 million of offering proceeds for which shares of common stock had not been issued as of June 30, 2006.

Redeemable Common Stock

The Company's share redemption program provides that all redemptions during any calendar year, including those upon death or qualifying disability, are limited to those that can be funded with proceeds from the Company's distribution reinvestment plan (the "DRIP"). In accordance with Accounting Series Release No. 268, *Presentation in Financial Statements of Redeemable Preferred Stock*, the Company accounts for proceeds received from its DRIP as redeemable common stock, outside of permanent equity. As of June 30, 2006 and December 31, 2005, the Company had issued approximately 82,400 and 0 shares of common stock under the DRIP, respectively, for proceeds of approximately \$783,000 and \$0 under its DRIP, respectively, which have been recorded as redeemable common stock in the respective condensed consolidated balance sheets. As of June 30, 2006 and December 31, 2005, no shares had been redeemed under the Company's share redemption program.

Reportable Segments

The Financial Accounting Standards Board ("FASB") issued SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, which establishes standards for reporting financial and descriptive information about an enterprise's reportable segments. The Company has determined that it has one reportable segment, with activities related to investing in real estate. The Company's investments in real estate generate rental revenue and other income through the leasing of single-tenant properties, which comprised 100% of our total consolidated revenues for the three and six months ended June 30, 2006. Although the Company's investments in real estate are geographically diversified throughout the United States, management evaluates operating performance on an individual property level. However, as each of its single-tenant properties have similar economic characteristics, tenants, and products and services, our single-tenant properties have been aggregated into one reportable segment.

Recent Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 123 (revised 2004), *Share-Based Payment*, ("SFAS 123R") which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors based on estimated fair values. SFAS No. 123R is effective for fiscal years beginning after June 15, 2005. The Company adopted the new standard on January 1, 2006. See Note 8.

- (3) The respective variable rate loan was refinanced on June 9, 2006 to a \$7,748,000 term mortgage loan with a fixed interest rate of 6.56% maturing on June 11, 2006.
- (4) The loan is a revolving credit facility secured by the respective property.

Note 5 Commitments and Contingencies

Litigation

In the ordinary course of business, the Company may become subject to litigation or claims. There are no material legal proceedings pending or known to be contemplated against us.

Environmental Matters

In connection with the ownership and operation of real estate, the Company may potentially be liable for costs and damages related to environmental matters. The Company has not been notified by any governmental authority of any non-compliance, liability or other claim, and the Company is not aware of any other environmental condition that it believes will have a material adverse effect on the consolidated results of operations.

Note 6 Related-Party Transactions and Arrangements

Certain affiliates of the Company receive, and will continue to receive fees and compensation in connection with the Offering, and the acquisition, management and sale of the assets of the Company. Cole Capital Corporation (Cole Capital), the affiliated dealer-manager, receives, and will continue to receive a selling commission of up to 7% of gross offering proceeds before reallowance of commissions earned by participating broker-dealers. Cole Capital reallows, and intends to continue to reallow 100% of commissions earned to participating broker-dealers. In addition, Cole Capital will receive up to 1.5% of the gross proceeds from the Offering, before reallowance to participating broker-dealers, as a dealer-manager fee. Cole Capital, in its sole discretion, may reallow all or a portion of its dealer-manager fee to such participating broker-dealers as a marketing and due diligence expense reimbursement, based on such factors as the volume of shares sold by such participating broker-dealers and marketing support incurred as compared to those of other participating broker-dealers. During the three months and six months ended June 30, 2006, the Company paid approximately \$4.2 million and \$7.1 million, respectively, to Cole Capital for commissions and dealer manager fees, of which approximately \$3.6 million and \$6.0 million, respectively, was reallowed to participating broker-dealers.

All organization and offering expenses (excluding selling commissions and the dealer-manager fee) are paid for by the Advisor or its affiliates and are reimbursed by the Company up to 1.5% of gross offering proceeds. The Advisor or its affiliates also receive acquisition and advisory fees of up to 2% of the contract purchase price of each asset for the acquisition, development or construction of real property and will be reimbursed for acquisition costs incurred in the process of acquiring properties, but not to exceed 2.0% of the contract purchase price. The Company expects the acquisition expenses to be approximately 0.5% of the purchase price of each property. During the six months ended June 30, 2006, the Company reimbursed the Advisor approximately \$1.4 million for organizational and offering expenses. At June 30, 2006, approximately \$782,000 of such costs had been incurred by the Advisor but had not been reimbursed by the Company. During the three months and six months ended June 30, 2006, the Company paid the Advisor approximately \$830,000 and approximately \$2.1 million for acquisition fees, respectively.

Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

If the Advisor provides substantial services, as determined by the Company's independent directors, in connection with the origination or refinancing of any debt financing obtained by the Company that is used to acquire properties or to make other permitted investments, or that is assumed, directly or indirectly, in connection with the acquisition of properties, the Company will pay the Advisor a financing coordination fee equal to 1% of the amount available under such financing; provided, however, that the Advisor shall not be entitled to a financing coordination fee in connection with the refinancing of any loan secured by any particular property that was previously subject to a refinancing in which the Advisor received such a fee. Financing coordination fees payable from loan proceeds from permanent financing will be paid to the Advisor as the Company acquires such permanent financing. However, no acquisition fees will be paid on loan proceeds from any line of credit until such time as all net offering proceeds have been invested by the Company. During the three months and six months ended June 30, 2006, the Company paid the Advisor approximately \$306,000 and approximately \$728,000 for finance coordination fees, respectively.

The Company pays, and expects to continue to pay, Cole Realty Advisors, Inc., f/k/a Fund Realty Advisors, Inc., (Cole Realty), its affiliated property manager, fees for the management and leasing of the Company's properties. Such fees currently equal, and are expected to continue to equal 2% of gross revenues, plus leasing commissions at prevailing market rates; provided however, that the aggregate of all property management and leasing fees paid to affiliates plus all payments to third parties will not exceed the amount that other nonaffiliated management and leasing companies generally charge for similar services in the same geographic location. Cole Realty may subcontract its duties for a fee that may be less than the fee provided for in the property management agreement. During the three months and six months ended June 30, 2006, the Company paid Cole Realty approximately \$68,000 and approximately \$113,000 for property management fees, respectively.

The Company pays the Advisor an annualized asset management fee of 0.25% of the aggregate asset value of the Company's assets. The fee is payable monthly in an amount equal to 0.02083% of aggregate asset value as of the last day of the immediately preceding month. During the three months and six months ended June 30, 2006, the Company paid the Advisor approximately \$108,000 and approximately \$189,000 for asset management fees, respectively.

Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

If the Advisor or its affiliates provides a substantial amount of services, as determined by the Company's independent directors, in connection with the sale of one or more properties, the Company pays the Advisor up to one-half of the brokerage commission paid, but in no event to exceed an amount equal to 2% of the sales price of each property sold. In no event will the combined real estate commission paid to the Advisor, its affiliates and unaffiliated third parties exceed 6% of the contract sales price. In addition, after investors have received a return of their net capital contributions and an 8% annual cumulative, non-compounded return, then the Advisor is entitled to receive 10% of remaining net sale proceeds. During the six months ended June 30, 2006, the Company did not pay any fees or amounts to the Advisor relating to the sale of properties.

In the event the Company's common stock is listed in the future on a national securities exchange or included for quotation on The Nasdaq National Market, a fee equal to 10% of the amount by which the market value of the Company's outstanding stock plus all distributions paid by the Company prior to listing, exceeds the sum of the total amount of capital raised from investors and the amount of cash flow necessary to generate an 8% annual cumulative, non-compounded return to investors will be paid to the Advisor (the Subordinated Incentive Listing Fee).

In the event that the advisory agreement with the Advisor is terminated, other than termination by the Company because of a material breach of the advisory agreement by the Advisor, a performance fee of 10% of the amount, if any, by which (i) the appraised asset value of the Company at the time of such termination plus total distributions paid to stockholders through the termination date exceeds (ii) the aggregate capital contribution contributed by investors less distributions from sale proceeds plus payment to investors of an 8% annual, cumulative, non-compounded return on capital. No subordinated performance fee will be paid if the Company has already paid or become obligated to pay the Advisor a Subordinated Incentive Listing Fee.

The Company may reimburse the Advisor for all expenses it paid or incurred in connection with the services provided to the Company, subject to the limitation that the Company does not reimburse for any amount by which its operating expenses (including the Asset Management Fee) at the end of the four preceding fiscal quarters exceeds the greater of (i) 2% of average invested assets, or (ii) 25% of net income other than any additions to reserves for depreciation, bad debts or other similar non-cash reserves and excluding any gain from the sale of assets for that period. The Company will not reimburse for personnel costs in connection with services for which the Advisor receives acquisition fees or real estate commissions. During the six months ended June 30, 2006, the Company did not reimburse the Advisor for any such costs.

On February 6, 2006, Cole OP II borrowed \$2,275,000 from Series C, LLC (Series C), an affiliate of the Company and the Company's advisor, by executing a promissory note which was secured by the membership interest held by Cole OP II in a wholly-owned subsidiary. The loan proceeds were used to acquire a property with a purchase price of approximately \$18.5 million, exclusive of closing costs. The loan had a variable interest rate based on the one-month LIBOR rate plus 200 basis points with monthly interest-only payments, and the outstanding principal and accrued and unpaid interest was payable in full on December 31, 2006. The loan was generally non-recourse to Cole OP II and could be prepaid at any time without penalty or premium. The Company's board of directors, including all of the independent directors, approved the loan and determined that its terms were no less favorable to the Company than loans between unaffiliated third parties under the same circumstances. Cole OP II repaid the note in full on April 26, 2006.

On February 10, 2006, Cole OP II borrowed \$4,690,400 from Series B, LLC (Series B), an affiliate of the Company and the Company's advisor, by executing a promissory note which was secured by the membership interest held by Cole OP II in a wholly-owned subsidiary. The loan proceeds were used to acquire a property with a purchase price of approximately \$5.9 million, exclusive of closing costs. The loan had a variable interest rate based on the one-month LIBOR rate plus 200 basis points with monthly interest-only payments, and the outstanding principal and accrued and unpaid interest was payable in full on December 31, 2006. The loan was generally non-recourse to Cole OP II and could be prepaid at any time without penalty or premium. The Company's board of directors, including all of the independent directors, approved the loan and determined that its terms were no less favorable to the Company than loans between unaffiliated third parties under the same circumstances. Cole OP II repaid the note in full in May 2006.

Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

On March 29, 2006, Cole OP II acquired 100% of the membership interest in Cole WW II, LLC (WW II) from Series A, LLC, an affiliate of the Company and the Company's advisor, for a purchase price of approximately \$13.5 million. WW II, through its wholly-owned subsidiaries, owns three single tenant retail buildings 100% leased to Wawa, Inc. The acquisition was funded by net proceeds from the Company's Offering and the assumption of an approximately \$7.2 million loan secured by the properties. The Company's board of directors, including all of the independent directors, approved the transaction as being fair and reasonable to the Company, at a price in excess of the cost to WW II, but substantial justification exists for such excess, such excess is reasonable and the costs of the interest did not exceed its current fair market value as determined by an independent expert selected by the Company's independent directors.

On April 26, 2006, Cole OP II repaid a \$2,458,000 promissory note and a \$1,995,000 promissory note to Series C. The notes were issued on December 15, 2005.

During the three months and six months ended June 30, 2006, Cole OP II paid approximately \$70,000 and approximately \$224,000 to affiliates under the aforementioned loans.

Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

On May 26, 2006, Cole OP II, directly and through a wholly-owned subsidiary, acquired 100% of the partnership interests in Cole CO San Antonio TX, LP (CO San Antonio) from Series D, LLC and Cole GP San Antonio TX, LLC, both an affiliate of the Company and the Company's advisor, for a purchase price of approximately \$4.6 million. CO San Antonio owns a single tenant retail building 100% leased to a wholly owned subsidiary of Conn's, Inc., which guarantees the lease. The acquisition was funded by net proceeds from the Company's Offering and the assumption of an approximately \$3.6 million loan secured by the property. The Company's board of directors, including all of the independent directors, approved the transaction as being fair and reasonable to the Company, at a price no greater than the cost to Series D, LLC, and at a cost that did not exceed its current fair market value as determined by an independent expert.

On May 26, 2006, Cole OP II acquired 100% of the membership interests in Cole RA Defiance OH, LLC (RA Defiance) from Cole Acquisitions I, LLC, f/k/a Cole Takedown, LLC (Cole Acquisitions), an affiliate of the Company and the Company's advisor, for a purchase price of approximately \$4.3 million. RA Defiance owns a single tenant retail building 100% leased to a wholly-owned subsidiary of Rite Aid Corporation, which guarantees the lease. The acquisition was funded by net proceeds from the Company's Offering and the assumption of an approximately \$2.3 million loan secured by the property. The Company's board of directors, including all of the independent directors, approved the transaction as being fair and reasonable to the Company, at a price no greater than the cost to Cole Acquisitions, and at a cost that did not exceed its current fair market value as determined by an independent expert.

On May 26, 2006, Cole OP II acquired 100% of the membership interests in Cole CV Madison MS, LLC (CV Madison) from Cole Acquisitions, an affiliate of the Company and the Company's advisor, for a purchase price of approximately \$4.5 million. CV Madison owns a single tenant retail building 100% leased to a wholly-owned subsidiary of CVS Pharmacy, Inc. (CVS), which guarantees the lease. The acquisition was funded by net proceeds from the Company's Offering and the assumption of an approximately \$2.8 million loan secured by the property. The Company's board of directors, including all of the independent directors, approved the transaction as being fair and reasonable to the Company, at a price no greater than the cost to Cole Acquisitions, and at a cost that did not exceed its current fair market value as determined by an independent expert.

On June 28, 2006, Cole OP II acquired 100% of the membership interests in Cole CV Portsmouth OH, LLC (CV Portsmouth) from Cole Acquisitions I, LLC, an affiliate of the Company and the Company's advisor, for a purchase price of approximately \$2.1 million. CV Portsmouth owns a single tenant retail building 100% leased to a wholly-owned subsidiary of CVS. The acquisition was funded by net proceeds from the Company's Offering. The Company's board of directors, including all of the independent directors, approved the transaction as being fair and reasonable to the Company.

At June 30, 2006, due to affiliates consisted of approximately \$17,000 payable to subsidiaries of Cole Advisors for reimbursement of certain costs related to property acquisitions. At December 31, 2005, due to affiliates consisted of approximately \$36,000 payable to Cole Advisors for reimbursement of legal fees and approximately \$5,000 payable to Cole Capital, for commissions and dealer manager fees payable on stock issuances.

Note 7 Economic Dependency

Under various agreements, the Company has engaged or will engage the Advisor and its affiliates to provide certain services that are essential to the Company, including asset management services, supervision of the management and leasing of properties owned by the Company, asset acquisition and disposition decisions, the sale of shares of the Company's common stock available for issue, as well as other administrative responsibilities for the Company including accounting services and investor relations.

Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

As a result of these relationships, the Company is dependent upon the Advisor and its affiliates. In the event that these companies were unable to provide the Company with the respective services, the Company would be required to find alternative providers of these services.

Note 8 Independent Directors Stock Option Plan

The Company has a stock option plan, the Independent Director's Stock Option Plan (the "IDSOP"), which authorizes the grant of non-qualified stock options to the Company's independent directors, subject to the absolute discretion of the board of directors and the applicable limitations of the plan. The Company intends to grant options under the IDSOP to each qualifying director annually. The exercise price for the options granted under the IDSOP initially will be \$9.15 per share (or greater, if such higher price is necessary so that such options shall not be considered a nonqualified deferred compensation plan under Section 409A of the Internal Revenue Code of 1986, as amended). It is intended that the exercise price for future options granted under the IDSOP will be at least 100.0% of the fair market value of the Company's common stock as of the date the option is granted. As of June 30, 2006 and December 31, 2005, the Company had granted options to purchase 20,000 and 10,000 shares at \$9.15 per share, respectively, each with a one year vesting period. A total of 1,000,000 shares have been authorized and reserved for issuance under the IDSOP. On January 1, 2006, we adopted SFAS 123R which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors, including stock options related to the IDSOP, based on estimated fair values. The Company adopted FAS 123R using the modified prospective application. Accordingly, prior period amounts have not been restated.

During the three months and six months ended June 30, 2006, the adoption of SFAS 123R resulted in stock-based compensation charges of approximately \$11,000 and approximately \$26,000, respectively. Stock-based compensation expense recognized in the three months and six months ended June 30, 2006 is based on awards ultimately expected to vest, and has been reduced for estimated forfeitures. SFAS 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The Company's calculations do not assume any forfeitures.

Prior to SFAS 123R we applied the intrinsic-value-based method of accounting prescribed by Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations, including FASB Interpretation No. 44, *Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB Opinion No. 25*, issued in March 2000, to account for our fixed-plan stock options. Under this method, compensation expense was recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price. No stock-based employee compensation cost was reflected in net income, as all options granted under the plan had an exercise price equal to the market value of the underlying common stock on the date of the grant. SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended by SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*, established accounting and disclosure requirements using a fair-value-based method of accounting for stock-based employee compensation plans. As allowed by SFAS No. 123, during prior periods we elected to apply the intrinsic-value-based method of accounting described above, and adopted only the disclosure requirements of SFAS No. 123.

During the three months and six months ended June 30, 2005, options to purchase 10,000 shares at \$9.15 per share were granted, no options were forfeited, became vested, or were exercised. During the three months and six months ended June 30, 2006, options to purchase 10,000 shares at \$9.15 per share were granted, 10,000 share options became vested, no options were forfeited or exercised. As of June 30, 2006, options to purchase 20,000 shares at \$9.15 per share remained outstanding and options to purchase 10,000 shares options were unvested with a weighted average contractual remaining life of approximately nine years.

In accordance with Statement 123R, the fair value of each stock option granted has been estimated as of the date of the grant using the Black-Scholes method based on the following assumptions; a weighted average risk-free interest rate from 4.19% to 5.07%, a projected future dividend yield from 6.0% to 6.25%, expected volatility of 0%, and an expected life of an option of 10 years. Based on these assumptions, the fair value of the options granted during the six months ended June 30, 2006 and 2005 was approximately \$55,000 and \$60,000, respectively. As of June 30, 2006, there was approximately \$50,000 of total unrecognized compensation cost related to unvested share-based compensation awards granted under the IDSOP. That cost is expected to be recognized through the quarter ended June 30, 2007.

Note 9 Subsequent Events

Sale of Shares of Common Stock

As of August 10, 2006, the Company has raised approximately \$147.1 million of gross proceeds through the issuance of approximately 14.7 million shares of its common stock under the Offering. As of August 10, 2006, approximately \$303.7 million (30.4 million shares) remained available for sale to the public under the Offering, exclusive of shares available under the Company's distribution reinvestment plan.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with our accompanying condensed consolidated financial statements and notes thereto.

As of June 30, 2005, we had not yet commenced real estate operations. Therefore, we do not have meaningful active operations to discuss for the three months and six months ended June 30, 2005. The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements, the condensed notes thereto, and the other unaudited financial data included elsewhere in this Form 10-Q. The following discussion should also be read in conjunction with our audited consolidated financial statements, and the notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2005.

Forward-Looking Statements

This section contains forward-looking statements, including discussion and analysis of the financial condition of us and our subsidiary, our anticipated capital expenditures, amounts of anticipated cash distributions to our stockholders in the future and other matters. These forward-looking statements are not historical facts but are the intent, belief or current expectations of our management based on their knowledge and understanding of our business and industry. Words such as may, will, anticipates, expects, intends, plans, believes, seeks, could, should and variations of these words and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements.

Forward-looking statements that were true at the time made may ultimately prove to be incorrect or false. Investors are cautioned not to place undue reliance on forward-looking statements, which reflect our management's view only as of the date of this Quarterly Report on Form 10-Q. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results. Factors that could cause actual results to differ materially from any forward-looking statements made in this Quarterly Report on Form 10-Q include changes in general economic conditions, changes in real estate conditions, construction costs that may exceed estimates, construction delays, increases in interest rates, lease-up risks, inability to obtain new tenants upon the expiration of existing leases, and the potential need to fund tenant improvements or other capital expenditures out of operating cash flows. The forward-looking statements should be read in light of the risk factors identified in the Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2005 and the Risk Factors section of the Registration Statement, relating to the Offering, each as filed with the Securities and Exchange Commission.

Management's discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires our management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On a regular basis, we evaluate these estimates. These estimates are based on management's historical industry experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Overview

Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

We commenced our principal operations on September 23, 2005, when we issued the initial 486,000 shares of common stock in the Offering. Prior to such date, we were considered a development stage company. Because we did not commence principal operations until the third quarter of 2005, comparative financial data is not presented for the three months and six months ended June 30, 2005.

We derive a substantial portion of our revenue from our rental income. As a result, our operating results and cash flows are primarily influenced by rental income from our commercial properties and interest expense on our property acquisition indebtedness. Rental income accounted for approximately 95% of total revenue during the three months and six months ended June 30, 2006. As 100% of our properties are under lease, with an average remaining lease term of approximately 12.5 years, our exposure to changes in commercial rental rates on our portfolio is substantially mitigated. As of June 30, 2006, the debt leverage ratio of our portfolio was approximately 57%, with approximately 19% of the debt, or \$24.2 million, subject to variable interest rates. We intend to manage our interest rate risk by repaying approximately \$4.6 million, or 19%, of our short-term variable rate debt as it matures during the quarter ending September 30, 2006 and we expect to refinance the remaining approximately \$19.6 million, or 81%, of our variable rate debt as it matures during the fourth quarter of 2006. We expect to fund the repayments with proceeds from our ongoing Offering. Additionally, as we continue to raise capital under our Offering and invest the proceeds in commercial real estate, we will be subject to changes in real estate prices and changes in interest rates on new indebtedness used to acquire the properties. We may manage our risk of changes in real estate prices on future property acquisitions by entering into purchase agreements and loan commitments

simultaneously such that our operating yield is determinable, by contracting with developers for future delivery of properties, or by entering into sale-leaseback transactions. We expect to manage our interest rate risk by monitoring the interest rate environment in connection with our planned property acquisitions to determine the appropriate acquisition financing, which may include fixed rate loans, variable rate loans or interest rate hedges. If we are unable to acquire suitable properties or obtain suitable financing for future acquisitions, our results of operations may be adversely affected.

Our management is not aware of any material trends or uncertainties, other than national economic conditions affecting real estate generally (such as lower capitalization rates and increasing interest rates, which lead to higher interest expense), that may reasonably be expected to have a material impact, favorable or unfavorable, on revenues or income from the acquisition and operations of real properties and mortgage loans, other than those referred to in our annual report on Form 10-K for the year ended December 31, 2005.

As of June 30, 2006, we owned 39 single-tenant, freestanding retail properties, two single-tenant freestanding commercial properties, and two multi-tenant retail properties, all of which were 100% leased. During the three months ended June 30, 2006, we acquired 16 single-tenant, freestanding retail properties. During the six months ended June 30, 2006, we acquired 28 single-tenant, freestanding retail properties and two multi-tenant retail properties (see Notes 3 and 4 to the condensed consolidated financial statements accompanying this Quarterly Report on Form 10-Q). Our results of operations are not indicative of those expected in future periods as we expect that rental income, operating expenses, asset management fees, depreciation expense, interest expense, and net income will each increase in the future as we acquire additional properties and as our current properties are owned for an entire period.

Results of Operations

Three Months Ended June 30, 2006

Revenue for the three months ended June 30, 2006 totaled approximately \$3.7 million. Rental income accounted for approximately 95% of our revenue. During the three months ended June 30, 2006, we owned an average of 36 properties, with an average income capitalization rate of approximately 7.75%. Income capitalization rate is measured as the ratio of the rental income produced by a property divided by the purchase price of the property. The higher the income capitalization rate for a property, the higher the amount of revenue the property is generating relative to its purchase price.

Property operating expenses for the three months ended June 30, 2006 were approximately \$154,000, which included property taxes, maintenance costs, and utilities which are substantially reimbursed by the tenant.

Property and asset management fees were approximately \$176,000 and depreciation and amortization expenses were approximately \$1.3 million for the three months ended June 30, 2006. Property management fees and asset management fees and depreciation and amortization expenses are directly related to the value of real estate owned by us or the rental income generated by such assets. During the three months ended June 30, 2006, the average aggregate value of our real estate assets was \$197.8 million.

General and administrative expenses for the three months ended June 30, 2006 totaled approximately \$330,000, primarily relating to accounting and legal fees, independent directors fees, stock compensation expense, and other organization costs. During the three months ended June 30, 2006, we incurred amortization of deferred financing costs and interest expense of approximately \$2.0 million.

Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

We sustained a net loss for the three months ended June 30, 2006 of approximately \$182,000, primarily as a result of incurring overhead-related general and administrative expenses and other operating costs, including costs incurred to refinance a loan, without sufficient rental revenues from properties to cover the costs. Loss per share for the three months ended June 30, 2006 was \$0.02. With the acquisition of new properties in future periods, we anticipate that revenue, general and administrative expenses, net income, and earnings per share will increase. However, we expect general and administrative expenses to decrease as a percentage of total revenue.

Six Months Ended June 30, 2006

Revenue for the six months ended June 30, 2006 totaled approximately \$6.3 million. Rental income accounted for approximately 95% of our revenue. During the six months ended June 30, 2006 we owned an average of 29 properties, with an average income capitalization rate of approximately 7.79%. Income capitalization rate is measured as the ratio of the rental income produced by a property divided by the purchase price of the property. The higher the income capitalization rate for a property, the higher the amount of revenue the property is generating relative to its purchase price.

Property operating expenses for the six months ended June 30, 2006 were approximately \$294,000, which included costs such as property taxes, maintenance costs, and utilities which are substantially reimbursed by the tenant.

Property and asset management fees were approximately \$301,000 and depreciation and amortization expenses were approximately \$2.1 million for the six months ended June 30, 2006. Property management fees and asset management fees and depreciation and amortization expenses are directly related to the value of real estate owned by us or the rental income generated by such assets. During the six months ended June 30, 2006, the average aggregate value of our real estate assets was \$159.1 million.

General and administrative expenses for the six months ended June 30, 2006 totaled approximately \$541,000, primarily relating to accounting and legal fees, independent directors fees, stock compensation expense, and other organization costs.

We sustained a net loss for the six months ended June 30, 2006 of approximately \$364,000, primarily as a result of incurring overhead-related general and administrative expenses and other operating costs, including costs incurred to refinance a loan, without sufficient rental revenues from properties to cover the costs. Loss per share for the six months ended June 30, 2006 was \$0.06. With the acquisition of new properties in future periods, we anticipate that revenue, general and administrative expenses, net income, and earnings per share will increase. However, we expect general and administrative expenses to decrease as a percentage of total revenue.

During the three months ended June 30, 2006, we incurred amortization of deferred financing costs and interest expense of approximately \$1.8 million, which included approximately \$162,000 of expenses incurred to refinance a variable rate loan. During the six months ended June 30, 2006, we incurred amortization of deferred financing costs and interest expense of approximately \$3.5 million. Property operating expenses for the six months ended June 30, 2006 were approximately \$456,000, which included approximately \$162,000 of expenses incurred to refinance a variable rate loan. As of June 30, 2006, we had outstanding debt of approximately \$130.0 million related to real estate acquisitions, of which approximately \$60.2 million was incurred and approximately \$15.9 million was assumed in the six months ended June 30, 2006. Our debt financing costs in future periods will vary based on our level of future borrowings, which will depend on the level of investor proceeds raised, the cost of borrowings, and the opportunity to acquire real estate assets meeting our investment objectives.

Funds From Operations

We believe that funds from operations (FFO) is a beneficial indicator of the performance of a REIT. Because FFO calculations exclude such factors as depreciation and amortization of real estate assets and gains or losses from sales of operating real estate assets (which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful-life estimates), they facilitate comparisons of operating performance between periods and between other REITs. Our management believes that accounting for real estate assets in accordance with generally accepted accounting principles in the United States (GAAP) implicitly assumes that the value of real estate assets diminishes predictability over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. As a result, we believe that the use of FFO, together with the required GAAP presentations, provide a more complete understanding of our performance relative to our competitors and a more informed and appropriate basis on which to make decisions involving operating, financing, and investing activities. Other REITs may not define FFO in accordance with the current National Association of Real Estate Investment Trust s (NAREIT) definition (as we do) or may interpret the current NAREIT definition differently than we do.

FFO is a non-GAAP financial measure and does not represent net income as defined by GAAP. Net income as defined by GAAP is the most relevant measure in determining our operating performance because FFO includes adjustments that investors may deem subjective, such as adding back expenses such as depreciation and amortization. Accordingly, FFO should not be considered as an alternative to net income as an indicator of our operating performance.

Our calculation of FFO is presented in the following table for the periods ended as indicated:

Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

	Three Months Ended		Six Months Ended	
	June 30, 2006	June 30, 2005	June 30, 2006	June 30, 2005
Net loss	\$ (181,847) \$	\$ (364,435) \$
Add:				
Depreciation of real estate assets	866,577		1,445,573	
Amortization of lease related costs	409,048		662,547	
FFO	\$ 1,093,778	\$	\$ 1,743,685	\$

Set forth below is additional information (often considered in conjunction with FFO) that may be helpful in assessing our operating results:

In order to recognize revenues on a straight-line basis over the terms of the respective leases, we recognized additional revenue by straight-lining rental revenue of approximately \$172,000 and \$304,000 during the three months and six months ended June 30, 2006, respectively.

During the three months and six months ended June 30, 2006, amortization of deferred financing costs totaled approximately \$109,000 and \$182,000, respectively.

Liquidity and Capital Resources

Overview

We expect to continue to raise capital through our ongoing Offering of common stock and to utilize such funds and proceeds from secured or unsecured financings to complete future property acquisitions. As of June 30, 2006, we had raised approximately \$113.7 million in the Offering.

We expect to meet our short-term liquidity requirements through net cash provided by property operations and proceeds from the Offering. Operating cash flows are expected to increase as additional properties are added to our portfolio. The offering and organizational costs associated with the Offering are initially paid by our Advisor, who will be reimbursed for such costs up to 1.5% of the capital raised by us in the Offering. As of June 30, 2006, our Advisor has paid approximately \$2.5 million of offering and organization costs and we have reimbursed the advisor for approximately \$1.8 million of such costs.

Subsequent to June 30, 2006, we completed the acquisition of eleven single-tenant retail buildings in separate transactions for an aggregate purchase price of \$34.6 million, exclusive of closing costs. The acquisitions were funded with proceeds from the Offering, approximately \$2.3 million in aggregate proceeds from two new loans and the assumption of nine loans aggregating approximately \$19.3 million. In addition, subsequent to June 30, 2006, we used available cash and proceeds from the Offering to repay an aggregate of approximately \$9.2 million of our variable rate short-term debt related to five loans.

On June 15, 2006, our board of directors authorized a daily distribution of \$0.0017808 per share for stockholders of record as of the close of business on each day during the period commencing on July 1, 2006 and ending on September 30, 2006. The payment date for each record date in July 2006 will be in August 2006, the payment date for each record date in August 2006 will be in September 2006, and the payment date for each record date in September 2006 will be in October 2006.

On a long-term basis, our principal demands for funds will be for property acquisitions, either directly or through investment interests, for the payment of operating expenses and distributions and for the payment of principal and accrued interest on our outstanding indebtedness and other investments. Generally, cash needs for items other than property acquisitions will be met from operations and property acquisitions from funding by the offering of our shares of common stock and additional borrowings.

As of June 30, 2006, we had approximately \$130.0 million of debt outstanding consisting of approximately \$105.8 million in fixed rate, term mortgage loans and approximately \$24.2 million in variable rate term mortgage loans. The weighted average interest rate at June 30, 2006 under the fixed rate term mortgage loans was approximately 5.88% and the variable rate term mortgage interest rate is stated at LIBOR plus 2.0%. Additionally our debt leverage ratio was approximately 57% and the weighted average years to maturity was 6.68 years at June 30, 2006.

Our contractual obligations as of June 30, 2006, are as follows:

Cash Flow Analysis

Operating Activities

Net cash provided by operating activities was approximately \$1.9 million for the six months ended June 30, 2006, primarily due to a net loss for the period of approximately \$364,000 offset by depreciation and amortization of approximately \$2.3 million. See *Results of Operations* for a more complete discussion of the factors impacting our operating performance.

Investing and Financing Activities

Net cash used in investing activities was approximately \$123.2 million for the six months ended June 30, 2006, primarily due to approximately \$119.9 million used on the acquisition of 30 properties and the associated acquisition costs and approximately \$3.3 million in restricted cash, which is held in escrow pending issuance of shares to investors in the Offering.

Net cash provided by financing activities was approximately \$120.1 million for the six months ended June 30, 2006, primarily due to net proceeds from the issuance of common stock under the Offering of approximately \$76.2 million, net proceeds from the issuance of mortgage notes of approximately \$70.6 million in connection with the acquisition of 30 properties offset by repayments of mortgage notes of approximately \$29.1 million and an approximately \$3.3 million liability related to investor proceeds, which are held in escrow pending issuance of shares to the investors in the Offering.

During the six months ended June 30, 2006, the Company declared a distribution of \$0.05 per share for stockholders of record as of the close of business on each day during the period commencing on January 1, 2006 and ending on February 28, 2006, a distribution of \$0.0521 per share for stockholders of record as of the close of business on each day during the period commencing on March 1, 2006 and ending on March 31, 2006 and a daily distribution of \$0.0017123 per share for stockholders of record as of the close of business on each day during the period commencing on April 1, 2006 and ending on June 30, 2006. During the six months ended June 30, 2006, we paid total distributions of approximately \$864,000.

Election as a REIT

We intend to make an election to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code commencing with our taxable year ended December 31, 2005. If we qualify for taxation as a REIT, we generally will not be subject to federal corporate income tax to the extent we distribute our REIT taxable income to our stockholders, and so long as we distribute at least 90% of our REIT taxable income. REITs are subject to a number of other organizational and operational requirements. Even if we qualify for taxation as a REIT, we may be subject to certain state and local taxes on our income and property, and federal income and excise taxes on our undistributed income. The Company believes it is organized and operating in such a manner as to qualify to be taxed as a REIT for the taxable year ended December 31, 2005.

Inflation

The real estate market has not been affected significantly by inflation in the past several years due to the relatively low inflation rate. However, in the event inflation does become a factor, the leases on the real estate we may acquire may not include provisions that would protect us from the impact of inflation.

Critical Accounting Policies and Estimates

Our accounting policies have been established to conform to GAAP. The preparation of financial statements in conformity with GAAP requires us to use judgment in the application of accounting policies, including making estimates and assumptions. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to the various transactions had been different, it is possible that different accounting policies would have been applied, thus, resulting in a different presentation of the financial statements. Additionally, other companies may utilize different estimates that may impact comparability of our results of operations to those of companies in similar businesses. We consider our critical accounting policies to be the following:

Edgar Filing: Cole Credit Property Trust II Inc - Form 10-Q

Investment in Real Estate Assets;
Allocation of Purchase Price of Acquired Assets;
Valuation of Real Estate Assets;
Revenue Recognition; and
Income Taxes.

A complete description of such policies and our considerations is contained in our Annual Report on Form 10-K as of December 31, 2005. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with our audited consolidated financial statements as of December 31, 2005, and related notes thereto.

Commitments and Contingencies

We are subject to certain contingencies and commitments with regard to certain transactions. Refer to Note 5 to our condensed consolidated financial statements for further explanations.

Related-Party Transactions and Agreements

We have entered into agreements with our Advisor and its affiliates, whereby we pay certain fees or reimbursements to our Advisor or its affiliates for acquisition fees and expenses, organization and offering costs, sales commissions, dealer manager fees, asset and property management fees and reimbursement of operating costs. Additionally, we have entered into certain transactions with affiliates of the Advisor, including transactions in which we have purchased properties from such affiliates and in which we have borrowed money from such affiliates. See Note 6 to our condensed consolidated financial statements included in this report for a

discussion of the various related-party transactions, agreements and fees.

Subsequent Events

Certain events occurred subsequent to June 30, 2006 through the date of this Report. Refer to Note 9 to our condensed consolidated financial statements for further explanation. Such events include:

- Sale of shares of common stock;
- Acquisition of a property in Columbus Heights, Minnesota;
- Acquisition of a property in Fergus Falls, Minnesota;
- Acquisition of a property in Okeechobee, Florida;
- Acquisition of a property in Dayton, Ohio;
- Acquisition of a property in Holland, Michigan;
- Acquisition of a property in Holland Township, Michigan;
- Acquisition of a property in Zeeland, Michigan;
- Acquisition of a property in Orlando, Florida;
- Acquisition of a property in Greenville, Mississippi;
- Acquisition of a property in Warrensburg, Missouri;
- Acquisition of a property in Gulfport, Mississippi;
- Mortgage notes payable incurred in connection with the acquisitions described above;
- Repayments on certain mortgage notes payable and notes payable to affiliates; and
- Execution of an extended rate lock agreement.

Recent Accounting Pronouncements

Refer to Note 2 to our condensed consolidated financial statements for further explanation of applicable recent accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

In connection with property acquisitions, we have obtained variable rate debt financing (See Notes 4 and 9) to fund certain property acquisitions, and therefore we are exposed to interest rate changes in the LIBOR rate. Our objectives in managing interest rate risk will be to limit the impact of interest rate changes on operations and cash flows, and to lower overall borrowing costs. To achieve these objectives, we will borrow primarily at interest rates with the lowest margins available and, in some cases, with the ability to convert variable interest rates to fixed rates. In the future, we may enter into derivative financial instruments such as interest rate swaps, caps and treasury locks in order to mitigate our interest rate risk on a given financial instrument. We will not enter into derivative or interest rate transactions for speculative purposes.

As of June 30, 2006, approximately \$24.2 million of the approximately \$130.0 million outstanding on mortgage and affiliate notes payable was subject to variable interest rates, which bear interest at the one-month LIBOR rate plus 200 basis points.

As of June 30, 2006, a 1% change in interest rates would result in a change in interest expense of approximately \$242,000 per year.

We do not have any foreign operations and thus we are not exposed to foreign currency fluctuations.

Item 4. Controls and Procedures

In accordance with Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act), we, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2006.

No change occurred in our internal controls over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the three months ended June 30, 2006 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

Item 1. Legal Proceedings

No events occurred during the quarter covered by this report that would require a response to this item.

Item 1A. Risk Factors

No events occurred during the quarter covered by this report that would require a response to this item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On June 27, 2005, our Registration Statement (No. 333-121094), covering a public offering of up to 45,000,000 shares of common stock to be offered at a price of \$10 per share, subject to reduction in certain circumstances, was declared effective under the Securities Act of 1933, as amended. The Registration Statement also covers up to 5,000,000 shares of common stock available pursuant to our distribution reinvestment plan.

On September 23, 2005, we issued the initial approximately 486,000 shares in the Offering. As of June 30, 2006, we had issued approximately 11.4 million shares for gross offering proceeds of approximately \$113.7 million, out of which we paid costs of approximately \$9.5 million in selling commissions and dealer manager fees, approximately \$3.8 million in acquisition fees, approximately \$1.0 million in finance coordination fees, and approximately \$1.8 million in organization and offering costs to the Advisor or its affiliates. With the net offering proceeds and indebtedness, we acquired approximately \$228.9 million in real estate and related assets. As of August 10, 2006, we have sold approximately 14.7 million shares in our primary offering for gross offering proceeds of \$147.1 million. We did not sell any unregistered securities during the three months ended June 30, 2006.
